

County Record
SANT. H. LITTLE, Editor
SATURDAY MORNING, MAR. 19, 1870.

THE WAYNE COUNTY RECORD
ENLARGED.

Improvement in a business enterprise of any kind is always acceptable to the people in its vicinity, and the more so when that change denotes that a united action on the part of the citizens has brought about this result. This may be said of our own home. When the first issue of the Record appeared, our citizens hailed it with joy and signified in numerous ways their determination to give their aid and support to its welfare. How well this declaration has been fulfilled is evident to day. From a small sheet, with but few subscribers, and a limited number of advertisers, it has gained strength daily, amid the increase, and percentage of all.

It now on paper has attained a respectable size, a fair circulation, (larger than many other journals in the state of cars standing) and has achieved a widespread celebrity, which shows most conclusively that notwithstanding its rural name, our village is, in reality, a spot on the earth's surface of no little importance.

Since our location down town, we have been the recipient of many favors, particularly so in the way of calls, and these are confined to the older portion of community only, but from the "beams" from the infant of a year, to the stripling in his teens. Yet they have called upon us and not with any idea of simply asking our attention in the way of enlightening their minds in the mysteries of "our order" occupying our time exclusively in complying with their desires, and then hastily taking their departure, but they have called every hour in the day, about fifty at a time, tramping, talking, and clamoring, till we have finally wished ourselves in some remote corner, lost to Christendom and the world. Perhaps, however, when the novelty of a printing office wears off, these closely-attached friends will make their calls less frequent, in anticipation of which we resign ourselves to composure, and calmly wait the future. We stated in a former issue that when we became settled in our present abode, we would be happy to have our friends call, and that in order to show a proper regard for the imposing ceremony attending a "formal opening" we particularly suggested a change in their usual appearance, by substituting a coat for a dirty collar. We are sorry to say that with the exception of one individual, our wishes have been utterly disregarded in this respect, and this fellow probably didn't collar himself from any regard to our feelings, but happened into our canum after having prepared to see his girl. Such is life.

HARNESS REPOSITORY!

The subscriber begs leave to announce to the citizens of Northville and surroundings, that he has now on hand and shall constantly keep a full and complete assortment of Light and Draft Harness, made of the

THE WAYNE COON ENLARGE

Improvement, in a short time, of any kind is always acce people in its vicinity, and when that change denotes action on the part of the bring about this event, said of our own home. The issue of the Record a pre- filled it with joy and signal was their determination aid, and support, in its well the decision has been evident to day. From a few subscribers, and a few advertisers, it has gained so amid the influence; and pa II now our paper has at peable size, a fair price, han many other journals in e standing) and his achieve celebrity, which show chivalry, that notwithstanding name, our village is, in rea the earth's surface of no!

Since our location de- GATS.
been the recipient of clearly so in the way superior not confined to The ex- munity the City of Philadelphia,

18 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel, and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the Liver or any other organ of the body. Upon the sound and healthy conditions of these organs the nervous system and liver were involved and the happiness of the entire human family depended.

The Buchu acting favorably upon both Liver and Kidneys, to prepare it so that it would retain its strength and active principle was his aim. It must not be made, as housekeepers make tea, by boiling. It is delicate Leaf, and its active principle would be destroyed by such a process. It must be prepared in VACCO, and of the long leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

My Fluid Extract.

THE ARTICLE STANDS PRE-EMINENT, AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults and children. Ignorant persons who pay no attention to dose, direction, or advice, might reason "that if a teaspoonful taken occasionally did good, two would be better, and perhaps a little more would cure in a day."

Many have broken down their health by dissipation, and on this principle; but they had been years in doing so.

What I would have understood is that no injury can arise from its use. It is as safe as any article of food; but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle.

Notwithstanding the number of years I have been engaged in the business, there may be those located at a distance that may not be aware of the facts, and would like to be satisfied on all the points. Having been educated a druggist, I append the following:

FROM THE LARGEST MANUFACTURING CHEMIST IN THE WORLD:

I am acquainted with Mr. H. T. Helmbold; He occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman,
Manufacturing Chemists, Ninth and Browning sts., Phila., Nov. 15th, 1854.

I propose to give evidence that this remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "Policity." If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge. We have yet to learn from what chapter or verse in Scripture to quote "that men may not lead others of their fellow-men to any case."

Nor have we asked Peckwick, affected Prades, or, in short, men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own. The Buchu is a good thing; it has hundreds of thousands of living witnesses to attest its virtue and command it. It is the practice of organs and tissues to

BUCHU.—Its odor is strong, diffusive, and somewhat aromatic; its taste is bitterish and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarach of the Bladder. Morbid Irritation of the Bladder and Urethra, diseases of the Prostate Gland, and Retention of the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy.

TESTIMONY:

Cure of Gravel of Five Years Standing—Stone Passed and to be Seen.

SAVANNAH, Tenn., May 14, 1850.

DR. H. T. HELMBOLD:
Dear Sir:—We introduced your "Fluid Extract Buchu" in this country about eight months ago, and we are happy to state that it is meeting with universal favor.

We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county, named J. B. Estell, had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He has been and will ever be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully yours, etc.,

ECCLES & HINKLE, Druggists.

CURE OF BLADDER AND KIDNEY AFFECTION OF LONG STANDING—STONE PASSED, AND TO BE SEEN.

WESTPORT, Conn., Sept. 3, 1853.

H. T. HELMBOLD, Esq.:
Dear Sir:—I am sending you "Extract of Buchu" about two weeks since for treatment of the gravel, bladder, and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder at the size of a large pea, and I now feel perfectly well, and entirely free from the pain that I have suffered with "no hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours truly,
THOMAS J. BENNETT.

Speedy Relief from Kidney Affection Occasioned by Accident.

NEW YORK, Feb. 1st, 1850.

DR. H. T. HELMBOLD:

Dear Sir:—On the 23d of August last I received severe internal and external injuries, occasioned by an accident on a Philadelphia railroad car. On my arrival in New York I was attended by Dr. WILSON of East 55th st., and another physician, whose name I do not now remember. After my wounds were dressed, I suffered for three days intense agony from internal injuries which affected my kidneys. I can say that after taking but three doses of YOUR EXTRACT BUCHU I felt greatly relieved. I used the balance of the bottle, and am happy to state that since that time have experienced no further difficulty.

Very truly yours,
P. H. KEARNEY,
No. 548 Third Avenue.

I respectfully refer to either of the following gentlemen:

ROBERT B. GOOLSTELT, Esq., Editor of "Cancer and Moral Tales."

HON. JAMES E. COULTER.

And many others, if necessary.

Cure of Kidney and Bladder Affection of a Patient Seventy Years of Age.

Thanks to Dr. Helmbold.

GRAND, Pa., March 31, 1853.

Editor CORNOLLI.—I desire, as an unsolicited tribute to the merits of "Hel-

Helmbold's Buchu.

bold's Buchu," and for the benefit of those similarly afflicted as myself to say that, after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated Kidney, and bladder diseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu; which I commenced using with little faith, and no apparent beneficial results for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use. And now, at the expiration of four months—although I am an infirm old man, nearly seventy-eight years of age, and consequently, medicines

suggested to me Helmbold's Buchu; which I commenced using with little faith, and no apparent beneficial results for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use. And now, at the expiration of four months—although I am an infirm old man, nearly seventy-eight years of age, and consequently, medicines

suggested to me Helmbold's Buchu; which I commenced using with little faith, and no apparent beneficial results for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use. And now, at the expiration of four months—although I am an infirm old man, nearly seventy-eight years of age, and consequently, medicines

suggested to me Helmbold's Buchu; which I commenced using with little faith, and no apparent beneficial results for about a month.
