

ASPIRATION.

Calling from the mystic distance,
Voices low and sweet I hear;
Night and day with strange persistence
Call these voices soft and clear.

THE PROFESSOR'S FAD.

Everybody knew that Professor John Smithers Toddlewinker could afford to buy all the rubber bands he chose. Still it was a settled fact that nothing pleased him so much as finding them or even stealing them off parcels on the sly, and he always kept the little pocket on the inside of his coat filled with rubber bands secured in this way.

"Dr. Atrides!" (a very powerful oath with the professor), "the little teacher!" Then he did a very unaccountable thing for a proper old, settled-down, dried-up professor—one who, in his thirty years of life, had never given a thought to females but in the abstract. He turned the collar of his ulster up about his ears—pulled his tourist way over his eyes and putting his hands deep in his pockets watched her with interest.

The Professor never wrote the masterly dissertation on the Ginkgo-bilboa tree, after all; he heard that every true Bostonian, from the grocer's boy to the Listener, knew that there was another and a better specimen of the same tree on the Public Garden; but ask his opinion of fads, and he will probably say, as he looks in a proud, proprietor sort of a way at a certain trim little figure, "Fads! my boy, fads! best thing in the world. Let me tell you it's a poor sort of man who doesn't have a fad."

ABOUT THE KANGAROO.
THE STRANGE ANIMAL FOUND IN AUSTRALIA.
The Wallaroo, the Wallaby and the Padymelon—Kangaroos of Many Sizes, Including One as Large as a Moose.
The traveler whom fate brings to the colonies may journey from end to end without seeing in the flesh either of those animals which figure upon the Australian coat-of-arms, the kangaroo and the emu. There are plenty of both in certain districts, writes the Melbourne correspondent of the Boston Journal, but they are many miles away from the railroads, as a rule, and are seen only by those who have occasion to visit remote "stations," and to explore the alternate stretches of plain and "bush," which constitute the "back blocks," as the interior portions of the country are styled in colonial phraseology.

QUEER PERFORMANCES.
Church Music That Failed at Inappropriate Places.
We have read about the newly imported German tenor who, on an Easter morning, electrified a "highly mortgaged congregation" by singing over and over again, "He will raise the debt, He will raise the debt, in the twinkling of an eye." But the following musical incident is related by one who recently attended a fashionable church: The choir, started with a reference to the lines of the field, and after singing the changes on the word "consider" until all of its connection was lost, they began to tell the congregation through the mouth of the soprano, that "Solomon in all his glory was not arrayed."

It is now the fashion to serve the smallest oysters as an overture to dinner—the smallest obtainable.
A Russian can plead infancy for a long time, as he does not come of age until he is twenty-six years old.
The girls of the Woman's college, Baltimore, have decided to don the cap and gown. They are to be worn on all college days and all college occasions.
Women dentists have proved so popular in Sweden that a scholarship has been founded for the purpose of rendering to women without means assistance in the study of dentistry.

The seed is planted when you feel "run-down" and "used-up." Malarial, typhoid or bilious fevers spring from it—all sorts of diseases. Don't take any risk. Dr. Pierce's Golden Medical Discovery invigorates the system and repels disease. It starts the torpid liver into healthful action, purifies and enriches the blood, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. For all diseases that come from a disordered liver and impure blood, skin, scalp and scrofulous affections, it's the only remedy that's guaranteed. If it doesn't benefit or cure in every case, you have your money back. You pay only for the good you get.

The worst cases yield to the mild, soothing, cleansing and healing properties of Dr. Sage's Catarrh Remedy. That's why the proprietors can, and do, promise to pay \$500 for a case of Catarrh in the Head which they cannot cure.

MESSRS. DULLAM BROS.—Gentlemen:—For over 4 years I have been afflicted with an eruption of the skin, which became very troublesome and I could get no relief. I was also troubled very badly with constipation, which nothing I tried gave any permanent relief until I took Dullam's Great German Blood, Liver, Stomach and Kidney Remedy and since taking I have been entirely cured. For a tonic, blood purifier and general health restorer I can heartily recommend it, \$1 a bottle. Mrs. Wm. Copeland, Flint, Mich. For sale by Geo. C. Hueston.

A National Event.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit this nation as much as the discovery of the Restorative Nervin by Dr. Franklin Miles is doubtful. This is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine book on "Nervous and Heart Diseases," with unequalled testimonials, free at Geo. C. Hueston's. It is warranted to contain no opium, morphine or dangerous drugs.

Remarkable Facts.

Heart disease is usually supposed to be incurable, but when properly treated a large proportion of cases can be cured. Thus Mrs. Elmira Hatch, of Elkhart, Ind., and Mrs. Mary L. Baker, of Ovid, Mich., were cured after suffering 20 years. S. C. Linburger, druggist at San Jose, Ill., says that Dr. Miles' New Heart Cure, which cured the former, "worked wonders for his wife, Levi Logan, of Buchanan, Mich., who had heart disease for 30 years, says two bottles made him 'feel like a new man.'" Dr. Miles' New Heart Cure is sold and guaranteed by Geo. C. Hueston. Book of wonderful testimonials free.

Popularity is an index, generally, of something a little bit better than anything else. Any article which becomes popular must necessarily stand at the head of its class. Hartzell's Hindoo Oil stands at the head not only on account of its popularity, but because of its excellence. It is unsurpassed for the relief of pain either internal or external. Ask your druggist for a sample bottle and be convinced of its excellence. For sale by Geo. C. Hueston.
