

# THE NORTHVILLE RECORD.

Vol. XXV, No. 50.

NORTHVILLE, MICH., FRIDAY, JULY 27, 1894.

\$1.00 per year, in advance.

## Around the Country.

Dr. Bell of Plymouth advertises that he "is now in full running order."

Ball clubs must be thick-at Wayne. The papers speak of the fourth and fifth mines.

South Lyon claims the largest increase by census reports of any village in that county.

The D. O. H. ball club did up the Milford club Saturday forenoon to the tune of 13 to 2.

Frank Rutter of Romulus, member of the county board of school examiners, died Sunday.

The Plymouth village marshal has been asked to stop Sunday ball playing at the DL&N depot.

Charley Baird of Holly wants to be county clerk of Oakland. Charley is a bully good fellow and wouldn't make a bad clerk.

A petition has been circulated in and about Milford and Highland asking the pardon of Rev. T. E. Heddlie late of the latter place.

The Advertiser says Holly is also afflicted with "catchon" hangers lined up along the walks in front of the churches Sunday evenings.

The postmaster at Fiat Rock is bragging a big lot because he had the first-of-the-season mess of sweet corn last week and picked right from his own garden too.

That live independent paper, the Pontiac Times, has just entered upon its second year. As a news gatherer the Times is second to no other paper published in that city.

With 150 loaves of bread and five and twenty pounds of peas and chickery, the acting mayor of Wyandotte bribed Count R' wski's ranch of the Coxey army to "pass by upon the other side" and never stop in that city.

Ex-Bank President Orris of Milford was run over by the 7:30 evening train from Detroit Saturday night in that village. Mr. Orris was seventy years of age and the severe injuries he received about the head proved fatal.

The Pontiac team are thoroughly disgusted with the baby action of the Birmingham team in refusing to pay the six dollars which they guaranteed the Pontiac team for their expenses in coming to Birmingham to play on Wednesday of last week. They had no excuse except that they were mad at being beaten—Post.

Some fellow, an evident asylum escape, is about to start another paper at Holly, while still another is about to drop a tri weekly on the unsuspecting public of the famed Indian named county seat. If there is one thing more needed than Coxey's armies in this country its more newspapers.

A bear-dog fight interested Fowlerville citizens one day last week. The bear was muzzled and by the dog pulling a chain hitched into his nose the dogs were allowed to get the best of the bear and horribly bite it. Such inhuman proceedings is a disgrace to any civilized community.

Lewis Livingston, 16 years old, lately taken from the reform school by All Eckles, of Commerce, stole a span of horses and buggy belonging to George Fields, Deputy Sheriff Slaughter, of Milford, caught him Saturday night between Wixom and Waled Lake, asleep beside the road. He will likely go back to the reform school.

Some insurrectionary boy at Ypsilanti exploded an air gun charge at the postoffice, Wednesday, and smashed a plate glass. A militia company composed of the boy's mother armed with a shingle, should move upon his works. He is dangerous—Ann Arbor Argus.

And thus the Argus attempts to incite another strike.

The Republican congressional committee of the second district met in Jackson Monday afternoon and decided to call the convention at Adrian August 16. The situation was canvassed to a considerable extent, but as there are a large number of candidates it was difficult to prognosticate the result, although it was agreed that Gen. Spalding of Monroe was in the lead.—Detroit Free Press.

The senior editor of the Orion Review has had a remarkable experience with vaccination. It worked all right, he says, but it didn't go all alone. It made a combine and with smallpox a leader; measles, mumps, ague, and cough and seven-year it went in to do him up. The editor in this case however was "there to stay" and finally busted the combination.

Farmington people are praying that the council will pass an act requiring out of town fruit vendors, bake wagons and other peddlers to pay a license to do business within the village limits. Better let the bake wagon run, boys. You can't stop anyone from selling the products of their own raising or manufacture. Northville does not

attempt this as the Enterprise understands.

The Ledger is indebted to the Superintendent of Public Instructions Patten for a copy of the 57th annual report of the Superintendent of Public Instructions.—Dundee Ledger.

Now what is the Ledger going to do with it? Ten to one he will never open the pages, in fact no one ever reads any of these annual reports. Their publication and broadcast circulation is one of the most nonsensical expenditures indulged in by the state and U. S. government.

One of those inexcusable, unless explained, things to perpetrate on an organization was done by the Wayne base ball club on Wednesday in failing to fill their date with Pontiac. Our boys went to considerable expense in advertising the game, but this was counted as a mere nothing as compared with the disappointment of the crowd and the humiliation of the home club.—Pontiac Gazette.

O yes, it is simply awful when perpetrated upon the Pontiac team. The Pontiac club had made a booking with the Northville club to play here on that very same date too.

The last issue of the Northville Record had a column write up of Gen. George Spalding of Monroe, candidate for congress in this district, and what purported to be a likeness of the General. The write up was excellent, but the picture! We might add, for the benefit of our readers who do not know the General, that he is quite an Apollo in appearance, and is not the ruffian his photographers try to make out. He is pretty smooth, and pretty clear headed, also, and the hustlers who are seeking the republican congressional nomination can rest assured that this representative of the independent state of Monroe is not sleeping just at present.—Ann Arbor Courier.

In reply to the RECORD's question as to whether or no the Ann Arbor Courier would claim in turn that Labor Day, Christmas and New Years were the greatest days of the year that paper says:

"Couldn't think of it. Now that Labor Day has been made a legal holiday by enactment of congress, the enthusiasm has all been taken out of it because it falls under the law that prevents the sale of beer, etc., on that day. And as for the other days mentioned, well we didn't receive a Christmas present and consequently turned over a new leaf on New Years. No, sir! We stick by the glorious 4th of July and the native day of him who made the hatchet famous."

Editor Bloomer of Farmington suffered from a bad attack of rheumatism last week. Just how a rheumatic germ could have found a joint, in Bloomer's frame work, still long enough to tackle it is a mystery. Bloomer gets up at four o'clock every morning, walks a mile over the hills to milk two cows, builds the fires, puts on the teakettle, helps dress the two young Bloomers, hoes half an acre of potatoes and reads a few chapters from Blackstone before breakfast. Then he writes up the day's news sets it in type, hicks off a job or two on the Gordon, attends a law case, sits on the school board as director and gets home in time to milk the cows again directly after supper. Does it all alone, six days in the week, and then finds time to attend all the church socials and lawn parties in the village.

The financial affairs of Daniel Johnson, a well known Wixom farmer, reached a crisis Monday, July 9, when he made an assignment for the benefit of his creditors. The matter was kept rather quiet for a few days and did not become public in Milford until Saturday, when, to nearly everybody it came like a clap of thunder from a clear sky. His liabilities amount to \$17,000, mostly in notes from \$100 or less to \$1,000. Mr. Johnson owned a 140 acre farm free from incumbrance until a couple of weeks ago, and he had no difficulty in obtaining loans. His credit was kept good by the practice of "borrowing from Peter to pay Paul," and the creditors were very much surprised when the crash came to learn the extent of his indebtedness. The assignment was made to R. J. Lounsbury of Pontiac. Nearly all the creditors are Milford and Wixom people, who at a meeting Thursday afternoon petitioned for the appointment of J. L. Sibley as assignee. The assets consist of the farm, stock and tools, appraised at \$8,000, and upon which are three mortgages aggregating \$1,300. The failure is attributed to bad financing and mismanagement.—Milford Times.

## P. P. P. Sunday Excursion

August 5th the DL&N R'y will run a special train excursion to Grand Island and the "7 Islands," the popular picnic point of Central Michigan, the attractions of which make it a very desirable spot for a Sunday outing. If you have been there, you will want to go again; if you have not been there, you ought to go anyway. Train will leave Plymouth at 8:00 a. m. and leave Grand Ledge returning at 7:00 p. m. Round trip 75c. Ask agents for particulars.

Miss Bovee will sell Ladies' Vests Friday and Saturday for five cents, regular price ten cts.

## A BIG COMBINATION

Hot weather and Soap are a "Combination" that always go together.

You want to "strike" for Purdy's. Don't break but make the "combination" with

10 Bars Home Made Soap for.....	25c
6 " White Russian ".....	25c
6 " Dome ".....	25c
6 " India Blue ".....	25c
7 " Hoe Cake ".....	25c
6 " Queen Anne ".....	25c
6 " JaXon ".....	25c
5 " Star ".....	25c
5 " Babbitts ".....	25c
5 " Magnetic ".....	25c
5 " Ivory, (small) ".....	25c
3 " Ivory, (large) ".....	24c
3 " White Cloud, (large).....	24c
3 " Grandpa's Wonder.....	25c
5 " Dusky Diamond.....	25c

## TOILET SOAPS.

Cucumbers Colgate's Honey, Burt's Milk Oatmeal, Pure Cream Glycerine, Oat Meal, Castile Scent, Violet, Cocoa, White Clover Honey.

## SOAP POWDERS.

Pearl're, Cold Cream, Ivory, Kestrel, 1775, Soap, Nine o'clock Tea, Roseine, Sapoline.

## ROLLIN H. PURDY,

38 Main Street.

## EIGHT AND ELEVEN

The Pontiac Ball Club Was an Easy Victim Wednesday.

The Pontiac ball club came over here Wednesday with the avowed purpose of doing up the Northville club, but they couldn't do it. They were unable to solve German's curves. At the commencement of the seventh inning the score stood eleven to three in Northville's favor and the Pontiac boys gave notice they would ask to have the game called at the end of that inning that they might get supper in time to catch the train for home. After German had struck two men out he thought it would be nice to let them hit a few balls and he tossed in some easy ones. It came near not proving quite so funny though, for the Pontiac boys succeeded in running in five scores. Then they insisted on playing out the whole nine innings and the Northville club kindly consented. German gave another hitch on his trousers, winked his other eye and they never came back—that is they never made another circuit of the bases and the score remained eight to eleven. Leer caught German in fine style, and the game throughout on both sides was a good one.

Epworth League Assembly at Ludington July 18th to Aug. 24.

The F&P M R Co. will sell excursion tickets to Ludington and return July 18 to 25 inclusive, good going on date of sale only and limited for return trip to August 25 at one fare for round trip.

## Excursion Rates to Hackley Park.

On account of various meetings named below to be held at Hackley Park, Lake Harbor, the C&WM and DL&N lines will sell excursion tickets at one and one third fare for the round trip.

For Assembly—sell July 23.  
For Camp Meeting—sell August 2, 3, 4, 7, 9.

For I. O. G. T Session—sell August 13, 14, 20, 21.

All tickets will be good to return until August 25.

Connection is made at 3rd St. Station, Muskegon, between trains of C&WM R'y and those of the Lake Harbor R'y. Street railway cars also connect at Lake Michigan Park with Lake Harbor R'y.

## Notice

Any persons wanting fresh fish can get them at my place any evening except Saturday and Sunday.  
46w6 W. J. LAFRUGH.

## A DEEP CUT!

In the prices of

50c Sweaters 50c

For.....

Base Ball Cranks,  
Bicycle Riders,  
Lawn Tennis Players,  
Sweaters For All.

Only a few will be sold at this price.

Come Early and Avoid the Rush!

At The Spot Cash Store!

## SALMON.

Only Ten Cents a Can, and it is a good Salmon too. Why not try a can of it?

A good Carmel for 16c lb.  
Lion Coffee 25c lb.  
8 lb. pail White Fish 45c  
New Honey 17c lb  
New Crop Japan Tea, the very best, for 50c lb

## FRUIT CANS!

Pints.....60c  
Quarts.....65c  
Two Quarts.....75c

A Good Broom for.....15c

Have just received an invoice of New Crop Teas, and they are fine. Try them.

**B. A. WHEELER'S.**

# THE RECORD.

F. S. NEAL, Publisher.

NORTHVILLE, MICHIGAN.

An English periodical has a correspondent who has found out that the slot automatic machine is more than 2,000 years old. Hero of Alexandria, credited with having flourished about B. C. 117-81, describes in his "pneumatics" a sacrificial vessel which flows only when money is introduced. When the coin is dropped through the slit it falls on one end of a balanced horizontal lever, which being depressed, opens a valve suspended from a chain at the other end, and the water begins to flow. When the lever has been depressed to a certain angle the coin falls off, and the valve, being weighted, returns to its seat and cuts off the supply.

The government of Mexico is strong, vigorous and intelligent. Under it there is hope of advancement for the Spanish race in that country, and it would be well for all Spanish Americans north of the isthmus of Panama if they were to be brought under the same benign influence. The annexation of Central America to Mexico would strengthen the latter country and that would be a thing over which the people of the United States could rejoice. The United States and Mexico should stand together for the maintenance of the rights of the nations of the Western world, and the stronger Mexico is, the more effectual would be such a combination.

TEMPERANCE in Russia takes peculiar forms which would make some American leaders of the movement stand aghast. Thus the temperance society of the great province of Tobolsk meets in church every year, and after singing a Te Deum, its members pledge themselves to total abstinence for twelve months. Twenty-four hours' grace however, is always accorded between the expiration of one temperance year and the beginning of the next, and during that brief period the members are permitted to "decorate their heads with vine leaves." Whosoever breaks the pledge during the remainder of the year has to pay a fine of twenty-five rubles to the church for each offense, while the faithful members have the questionable privilege of spitting in the face of the erring brother.

SOMETIMES lessons in good manners are taught with unexpected severity. A man on a "bike" escorting two young women, also on wheels, passed a wheelman resting in a driveway in Garfield park, Chicago. The young man who was resting made a remark about one of the passing young women. He meant no evil, he claims. His words were hip, but were not intended to be disrespectful. The wheelman who was accompanying the young women stopped and demanded an explanation or an apology. Instead of giving one or the other, Nichols, the wheelman who was resting, struck Peironnet, the escort wheelman, on the head. Peironnet is dead and Nichols is in the clutch of the law. The story carries its own moral. Good manners are safeguards in sport as well as in society.

THE leading question in Great Britain just at present is as to whether his grace the duke of Portland lately gave his royal highness the prince of Wales a black eye by way of resenting a slight to the duchess. The evidence that he did seems to preponderate. The fact that the duke is one of the few peers of the realm who can afford to disregard the prince's favor and can run counter to his behests with entire impunity makes the story more probable than it would otherwise seem. The duke is one of the great ground landlords of London, bears the loftiest title which it is in the power of a British sovereign to confer and is related to half the oldest houses of the British aristocracy. It is, therefore, utterly immaterial to him what the Prince of Wales does or does not think of him.

MANY theories have been advanced for the treeless condition of the great plains which stretch from the Rocky mountains to the Missouri river. The one commonly accepted is that fire sweeping over the ordinarily dry ground has destroyed the young trees and thus prevented the growth of forests. But some geologists claim that the absence of trees is due to the fineness and texture of the soil. The problem is of more interest to the investigator in science than to the practical worker, for the prime consideration is not why there are no trees on the plains, now, but whether they ever will be planted and made to grow in sufficient number to be of economic value to the country. It would seem that this question must be answered in the negative, for whether the seeds of trees are carried from place to place by running streams, it is a fact that without a great deal of moisture there can be no heavy forest growth.

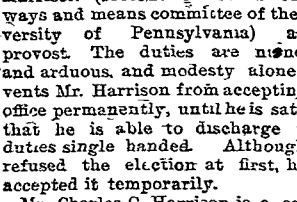

WHAT a pity we Western people do not cultivate more of a reverence for ancient landmarks. To be sure, we are young as years of nations and states are numbered, but we have landmarks and it would be well for us, well for the rising generation if a sentiment of reverence for them could be inculcated. Go where you will in the New England towns and in some of the large cities of the Empire state and you will find them reverencing their old landmarks almost as they do their hearthstones.

## CHARLES C. HARRISON.

The New Acting Provost of the Pennsylvania University.

The trustees of the University of Pennsylvania have elected Charles C. Harrison (present chairman of the ways and means committee of the University of Pennsylvania) acting provost. The duties are numerous and arduous, and modesty alone prevents Mr. Harrison from accepting the office permanently, until he is satisfied that he is able to discharge these duties single handed. Although he refused the election at first, he has accepted it temporarily.

Mr. Charles C. Harrison is a son of

C. C. HARRISON.

the late George L. Harrison, son of John, the pioneer chemist of Philadelphia, and is a member, though not actively, of the great sugar refining house of Harrison, Havemeyer & Co. In connection with his "brothers, the Messrs. Mitchell, William and Alfred Harrison, he has lately contributed \$50,000 toward the endowment of the John Harrison Chemical Laboratory of the University of Pennsylvania.

He has been for some time chairman of the ways and means committee of the board of trustees of the university. Mr. Harrison was born on May 3, 1844. He entered the academic department of the university in 1863, and was a classmate of Dr. William Pepper, the retiring provost. He won the highest honors in his class and upon graduation in 1867 he was awarded the Henry Reed prize for English literature.

Said by Paderewski—

When I am to appear in public I keep perfectly quiet during the preceding hours. I practice calisthenics immediately after rising every day. I eat with great appetite, and am not in the least a difficult man to cater for. When my recitals are over I feel that a weight has been lifted off my mind, and then I love to join in any amount of fun. I practice at all hours of the day and night, sometimes all night, for I have not set rules for working. I am never by any chance without a piano, and very often practice between the courses at meals or while I am dressing. I suffer from insomnia consequent to the great strain on my nerves, and, although it is not noticeable to the general public, I am a martyr to nervousness. I go through positive tortures when I contemplate playing. I have schooled myself to absolutely subdue my feelings, or they would rise to such a pitch as to prevent my having the least control over my fingers.

Tests for Pure Butter.

It is said that it is an almost certain test of pure butter to melt it and note the color and odor. A German chemist gives the following directions: "Pure fresh butter, when melted, is perfectly clear, or only very slightly cloudy, usually dark yellow, and has the familiar odor of pure butter fat. Pure stale butter may be very cloudy and even opaque when melted, is usually of a dark-yellow color, and has the odor of rancid butter. Melted margarine, on the other hand, is very opaque, of a light yellow color, and has a characteristic, indescribable odor." In addition to this, one may try the test resorted to by experienced cooks: Drop a bit of it upon a very hot saucepan. Pure butter will rise in white bubbles; margarine melts and runs across the dish in oily-looking streaks.

Daughter of a Drew.

The wedding of Miss Catherine Muckleworth Drew and Mr. Clarence Illingsworth, recently celebrated, is of interest especially because the bride

is a granddaughter of the late Daniel Drew. Her parents, Mr. and Mrs. William H. Drew, reside at the old Drew home, Drawsville, at Brewster's, N. Y. Mrs. William H. Drew, prior to her marriage, was Miss Drew, the couple being cousins. Mr. Illingsworth is the son of Mr. John Illingsworth of Newark, N. J.

Child-Bridesmaids.

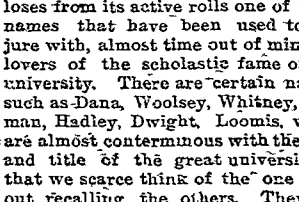

An unpleasant feature of some of the modern weddings is the child-bridesmaid, who is sometimes actually decorated with diamonds, sprinkled with perfumes, and horrible to say, powdered and painted.

## PROF. J. D. DANA.

Scientific Luminary Who Recently Retired From Yale College.

In the retirement of her brightest scientific luminary, Prof. Dana, Yale loses from its active rolls one of those names that have been used to conjure with, almost time out of mind, by lovers of the scholastic fame of the university. There are certain names, such as Dana, Woolsey, Whitney, Silliman, Hadley, Dwight, Loomis, which are almost contemporaneous with the title of the great university, so that we scarce think of the one without recalling the others. They are the most valid ground of distinction the institution enjoys, and some trace of pride in this distinction rings out in every huzzah of the plentiful cheers that legitimately of late greet Yale's successes on all the fields of athletic sport.

The leading facts of his life have a curious unity of plan, all growing out of an aspiration of his generous youth; they embody, too, their bit of romance. Born in 1813 at Utica, he was drawn to Yale by the fame of the elder Silliman. He became Silliman's assistant; in time he came to marry his daughter; he succeeded him as editor of the Journal of Arts and Sciences; and finally he was the incumbent of the "Silliman Professorship," founded to commemorate that earlier scientist. Before his marriage, however (from 1835 to 1842), he was a part of the Wilkes exploring expedition, and in the course of it "he was shipwrecked. His great labors have been accomplished upon but a small supply of physical strength. His temperament would appear to be that of the scholarly recluse of the genial sort, he has never been active in the social way, even in quiet New Haven. His personality is picturesque—tall, spare, bronzed, and silvery-haired. He is daily seen passing, with swift foot, along that most charming of streets, Hill-house avenue, where he has his house.

PROF. J. D. DANA.

Green and secluded as a cathedral close, what a dream of academic peace is that street in these June days! "Butter, on the occasion of his son's birthday last year, a number of his old associates and neighbors, for the most part well known like himself, sent him a set of resolutions which for cordial respect and esteem for affectionate eulogy both of high acquirements and admirable personal character, I have never seen surpassed.—W. H. B.

SENDING TELEGRAMS.

If You Want No Mistakes You Should Pay Double Rates.

A decision of importance relating to the liability of telegraph companies in sending messages has been made by the Supreme court of the United States. The court decides that the Western Union Telegraph company is not liable in damages to the sender of a message in cipher for errors in transmission thereof. The case came up from the Circuit court of the United States for the Eastern district of Pennsylvania, where Frank J. Primrose sued the telegraph company for \$100,000 damages for mistakes in sending a cipher telegram from Philadelphia to Waukegan, Kan. The message related to a transaction in wool, and the mistake, Primrose claimed, damaged him in the sum named. Judge Butler nonsuited the plaintiff in the Circuit court on the ground that the conditions of the contract printed on the back of the telegram absolved the telegraph company from liability for errors by transmission, unless it specially insured correctness. This contract was held to be a reasonable one. Justice Gray read the opinion of the court affirming the judgment of the Circuit court. The case has been pending in the Supreme court since 1879. People of ordinary intelligence not educated in the mysteries of the law will wonder why great trusts like the Western Union Telegraph company should be exempted from responsibility for their carelessness and blunders. The Supreme court holds that if you want to have your message sent correctly, you must pay double price. But if you want the telegraph company to make blunders for which you have no redress, you pay single fare. On the same principle it would seem as if railway companies might adopt a double fare scheme, by which, unless passengers pay specially for insurance of safety, the companies will escape liability for broken limbs and other damages. All the companies need to do is to print the little trick on the back of their tickets.

There's No Choice in Bicycles.

The Victor Pneumatic tire has no rival. It is more durable than any other and the inner tube can be removed in case of puncture in less than five minutes.

The only inner tube removable through the rim.

All Victor improvements are abreast with the times and meet every requirement.

### NORTHVILLE LOCALS.

A dollar only weighs an ounce— That is, a silver one; But when you try to raise it, gosh, You think it weighs a ton.

One more official village map left at \$1. Who wants it?

Fred Mason of Detroit will give a chalk talk at the Presbyterian church. The LTL will serve ice cream next week Saturday evening at the WCTU hall.

The most delightful and needed rain of the season fell Friday afternoon.

The brick addition to the Purdy store will be completed in about two weeks.

One copy of "If Christ came to Chicago" left. Who wants it for 35 cents?

The band boys are arranging to give a big concert in the opera house in the near future.

The Loyal Legion district convention is being held in Detroit. Northville sent her delegation.

Mr. Towsey near this place, caught this week \$0 of the largest bass ever hooked out of Union lake.

Extra copies of the village directory on sale at the RECORD office at 5c each. Send one to some friend or relative.

The shade trees about the village have been nicely trimmed up and present a much improved appearance.

The watermelon season is here. The provision stores have the melons and the doctors have the remedies.

The Northville Maccabees paid a fraternal visit to Plymouth tent Monday night and had one of the biggest times on record.

Born June 28, to Mr. and Mrs. Rev. H. S. Jenkinson of Chicago, a son. Their many Northville friends extend congratulations.

The Pontiac Gazette issued a semi-centennial edition last week giving the progress of both the city and paper in the last fifty years

The public drinking fountain has arrived. It will be put in place at once and next week pure spring water will be constantly on tap

Judge Duffee has decided that the will of the late John Gardner should be admitted to probate. The matter in dispute will now be contested in the courts

At the big Y. P. S. C. E. rally in Detroit Tuesday night one of the hymns used was composed by Rev. J. M. Belding. It was published in Monday evening's Journal

The young men who lie up in front of the churches Sunday nights to "catch on" or see it done, should form a double line for a change and make people run the gantlet.

Large crowds from the country and adjoining villages are in attendance at the Saturday evening band concerts each week. It proves a very pleasant and attractive entertainment too.

The Northville band has adopted the following schedule of prices: Campaign marchings \$10, political speaking \$5, funerals, Sunday \$10, week days \$5, picnics \$10, evening socials \$5.

A loss of \$25,000,000 is a careful estimate of what the recent strike cost the state of Illinois, the city of Chicago and the railroad companies. What it accomplished for the strikers was \$90,000,000.

Twenty three of the LOTM's went over to Plymouth last week Thursday night to attend a lecture of instruction given by one of the grand officers, which was followed by a banquet and general good time

We are pleased to note the enterprise manifested by the residents of our village in putting the numbers on their houses. In a few weeks we may expect to see every house equipped with its proper number

Regular services will begin again at the Baptist church next Sunday. In the evening Rev. Mr. Arnold will tell all about the great convention of Baptist Young People at Toronto, where he spent last week.

A quick turn of the horse tipped over John Steers' carriage at the ball game Saturday, and broke the reach and front axle entirely off. Mrs. Steers and daughter occupied the rig at the time but neither were injured.

People who are fond of olives—and we doubt if any one is really fond of them—will be delighted to learn that a very large part of what is bottled and marketed as this fruit is nothing more or less than green plums

The band boys are very grateful to Rev. Mr. Belding for the able discourse and kind words of advice given them at the Presbyterian church last Sunday evening. They are also thankful for the collection box donation, amounting to \$4.40.

A grand interdenominational Y. P. S. C. E. rally will be held Monday evening in the Presbyterian church. There will be several speakers from Detroit including State President Stroung and Rev. W. D. Sexton, president of the Detroit union. Fine music will be a feature.

Awarded Highest Honors—World's Fair.  
**DR. PRICE'S CREAM BAKING POWDER**  
—MOST PERFECT MADE—  
A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 YEARS THE STANDARD.

A large crowd was out to hear Hon. Jas. Dunn the temperance orator, and Prof. Hucksins the singer, at the rink last night.

In the assumpsit case mentioned last week, VanZile vs. Hinman, a verdict was rendered in favor of the plaintiff for \$34.05 and costs. P. T. VanZile of Detroit appeared for plaintiff and C. C. Yerkes for defendant.

Farmers should not mourn over prices, and attribute their lack of success to the fact that wheat does not sell for as much as it once did. They should study the situation, and grow crops that will sell well, and make their land produce more, so that the income of an acre will be as good as ever.

We are just in receipt of the following brief card from Rev. Mr. Parrish: "We are safely housed on the shore of Little Traverse Bay. The weather is superb; attendance larger than ever before; the program unexcelled and the moral and intellectual atmosphere rare and rich. Wish we could transport it all to Northville. Hope no serious illness or harm has befallen any of our homes."

Debs, as president of the railway union, gets \$3,000 a year; the vice president and secretary get \$2,000 each; the six directors receive \$1,500 each, there are seventy organizers who receive \$5 a day; ten clerks are employed with wages from \$2 to \$4 a day. In addition to this he is at present being boarded by the government.

Marion Porter's pet cat had a fly time one day last week. Tabby chanced to sit down upon a sheet of fly paper and immediately played the tar baby act of being "mighty stuck up." The cat suddenly disappeared for a day but when it returned, like little Bo Peep's sheep, it brought its tail behind it—and the sheet of fly paper as an addendum.

The members of the Northville gun club are hustlers. Even the almanac can't keep up with them. They made a date with Pontiac for the 29th and went over there last week, the 18th, to shoot it. The Pontiac club don't stand much of a show shooting with a club that is at least seven days ahead of the times. The boys will go over again next week Thursday

We believe it would be a good idea for the police department to station one of their patrolmen at the corner of Main and Center streets during the Saturday evening band concerts. The square is thronged with people and one of the constant passing teams or carriages will yet run over and severely injure some one if it is not closely watched.

The ladies of the Presbyterian church will give the band a benefit Saturday night in the shape of a lawn social on the church grounds. It will be a right jolly affair and the band will treat to music while handsome young ladies will serve the frozen cream. Let there be a jam and thereby show that the band is appreciated as well as the efforts of the ladies.

One effect of the strike ought to be to cause an amendment or enforcement of the naturalization laws so as to preclude the possibility of any more of the low, lawless element of foreigners getting into this country. It is this class that have always been the main figures in all the labor disturbances in the land. No more of them should be allowed to land on our shores

The band has just closed a contract with Prof. Jenkins whereby he will teach and lead them for one year for \$156, three dollars per week. This amount the boys will endeavor to raise by a small charge for their services, socials, concerts, etc. Our people who appreciate the band, their nice appearance and fine playing will doubtless be only too glad to render timely assistance.

There appears to be a little misunderstanding as to whether Mr. Horton is to have the Argo mills or not. Mr. Horton has a lease and a receipt for one months rent from the guardian of the estate, together with an order for possession. Mr. VanZile claims the lease is no good and, that he and Fred Grist have over bid Mr. Horton's option on the purchase of the property. Mr. VanZile refused to give up possession of the mill to Mr. Horton. The settlement of the matter may be fixed up to-day

Ten cents buys a Hat at Miss Boyce's

The Methodist church ladies have postponed their ice cream social for to-morrow night on account of the band benefit at the Presbyterian church. They will give it next Saturday night.

We understand that some of our young ladies talk of forming an anti "catch-on" club and then if a young man doesn't see them to church, as well as from church, or at least ask for their company in the vestibule or inside church, they will answer no.

In making inquiry for the key to the problem of cleaning out the mill pond, "Uncle" John Sands suggests that a few beds for aquatic plants be laid out and planted. This would certainly be very attractive and probably be the least expensive of anything yet thought of.

Miss Mamie Armson gave a piano recital Thursday afternoon at the residence of her teacher, Prof. J. Henry Smith. A number of Mr. Smith's Northville and Plymouth pupils were in attendance. The program consisted of twelve numbers, Miss Armson has made remarkable progress, having studied music less than two years.

While at Ypsilanti one day this week Editor Osband of the Ypsilantian, kindly conducted us along some of the delightful avenues of the city and showed us through their new First Methodist Church. It is a beautiful edifice and the interior arrangement and decorations are probably the finest in the state. The seating capacity is 2,000 and this furnishing was supplied by the Globe furniture company of this place.

The Endeavor service last Sunday morning was one of special interest. The church was artistically draped in yellow and white, the national colors. The programs were yellow and all the young people wore bows of like color. The pastor made an address on the Endeavor movement, while short and interesting papers in the shape of reports were read by Mrs. Jennie Johnson, Orr Webster, Misses Minnie and Belle Covert, Minnie Smith, Emma Pinkerton, Carolyn Babbitt and Mabel Clark.

Detective P. E. White, Wednesday arrested L. H. Cypher at Toledo on charge of stealing a bicycle and horse and carriage of Pontiac parties. White had been on the case for a week or so past and finally discovered a clue to his whereabouts. White recovered the wheel and landed his prisoner in the Pontiac jail to await trial. It will be remembered that Cypher formerly lived near South Lyon and that he was sent to the Detroit h. of c. from here some time ago for disorderly conduct.

There was a ball game here Saturday between the Detroit Opera House nine and a three-town mixture. The Northville club had three of its own men, three from Ann Arbor and three from Plymouth. This would have been all right if they had only had a pitcher. They didn't, and then they started in to do the next best thing—the D. O. H's out. This they finally accomplished but it had taken too long to do it. The 33 tallies which the visitors had were too much for Northville to overcome and they only got 10 scores.

The careful attention of our readers is called to the advertisements appearing in the RECORD each week. No one can afford to miss perusing them for bargains or pointers. They are all reliable and we guarantee this in every case. No advertising is accepted without first investigating both the reliability of the advertiser and the merit of the goods advertised. The advertisements are all clean and everything bordering in the least upon the "objectionable," obscene or fraudulent order are invariably refused, no matter what price may be offered.

We want to apologize to Charles Larkin and Henry Clay Calkins for the big lie we unintentionally told last week. We stated they walked home from the huckleberry patch pushing their cart before them, because their horse had jumped his job. The correct parties were Charles Calkins and Fred Withee. Don't see how we came to make such an error. On second thought we ought to have known that Clay would never have been to the laborious task of walking three or four miles and Charles Larkin would never have come alone had he been with Clay

### Another Cut in Hats

We have decided to make another cut in Hats. For the past two or three weeks we have been selling at 1-4 Off and we have one lot of Hats we will sell for a short time at

Less Than 1-4 Off...

Also our entire stock. Babies Bonnets sold at a reduction. Everybody should remember this and call and get prices before buying elsewhere.

## THE MAIDEN SMILED.

The most remarkable gestures he certainly used, and used them with a freedom that very much surprised young Mr. Leonard, until that youth happened to haltingly think that a Chinaman was an Oriental and that the Orientals are born gesture-makers.

He was unusually tall for a Chinaman, and unusually gaunt, too, and as he threw up his long arms to emphasize some particular statement, the heavy jaded bangles slipped down over his elbows; while, when he lowered his arms, again, he had to spread out his fingers to keep the stone bracelets from falling to the floor. Now the world's best left hand palm up, and the world's best right hand palm down, and out of this, the fingers all bunched to a point, as though it were some bird of prey swooping down on its quarry. At another time he would drop both nervous hands to the farthest limit of arm's reach, scoop up an invisible something, and then, lifting this head-high, would scatter it to the four winds, with a tornado motion of body and limbs that was very effective.

The play of his features was quite as remarkable. Like so many of his countrymen, he was deeply pitted with small pox, eyes were large, though obliquely set, and full of fire. His neck was long and pliant as a snake, and indeed, when he threw back his head, opened his mouth until the corners ran up to the cheek-bones, and shot out a flash of light from under his half-shut lids, there was something quite ophioid in his appearance. That young Mr. Leonard in his little surreptitious rambles through Chinatown was at first attracted by the gestures and Boanergian voice of the Chinaman, there is no doubt; but after a few moments had passed his attention was drawn to another group of which the orator was the center. There was six of them in the group, sprawled about the little gloom store in which nothing particular seemed to be sold. Five of them were men and the sixth was a woman or girl or child, young Mr. Leonard could not exactly say which. Anyway, whatever her age may have been, she was as pretty as a peach—or rather, as a nectarine, for, like that fruit, she was small and round and plump and juicy: lips at her skin was smooth and yellowish brown, with red splashes here and there, and she—she—she—like a fruit—no doubt looked to be a good deal better than she really was. Her hair was streaked on each side of her head like a black butterfly's wings, and was twisted into a bar behind that looked like the handle of a black teapot. This general gloominess of headgear was, however, relieved by sundry little paper chrysanthemums stuck here and there, while in the thickness of the teapot handle there were two gold earrings, set up like a St. Andrew cross. Her hair was drawn back in front from a low but intelligent forehead underneath which glinted a pair of mischievous eyes. The nose was a snub nose, the mouth was quite pretty and provocative and chin and cheeks and neck were smooth and round. Down below her trousers—dark purple, like her blouse—showed two plump ankles covered with fine white socks, and beneath these were two tiny feet—naturally tucked in—wearing shoes of light green, with white socks running down to a point from the heel and the toes of a slippers.

The trick of finding out that a young man was looking at her was not confined to the Caucasian girl, and it was minutes and not passed before young Leo began to preen and perk. She accepted the conical cigarette which one of the Chinamen offered her, throwing out a deprecatory glance at young Mr. Leonard as she did so, as though to ask excuse for the mannish custom, and pulled back her loose sleeves—there seemed to be five or six of them—showing a dimpled arm that was altogether feminine. There followed a coy looks in the shelter of a big red silk handkerchief, roguish smiles half hidden by a veil of very queer-smelling tobacco smoke, until, almost before he knew it, young Mr. Leonard was deep in the midst of a first-class flirtation with a third-class heathen.

The experience was one that made young Mr. Leonard tingle clear down to the tips of his brilliant yellow gloves, and that made him flush so that his spectacles actually got dewy. It was the first time he had ever done such a thing, and he trembled with a delicious fever of joyful fright to think of what he would do if ever his mamma should find out what he was about.

He and his mamma were Boston people, quite rich and undoubtedly superior. She was a widow, and this was her only son, her "mother's boy." He had been brought up like a pet lamb, and, like that festive young creature, was very innocent and very weak—and he looked it. Though now nearly twenty, his mamma still called him baby, and so did nearly everybody else for the matter of that. She would have kept him in knickerbockers if she could possibly have done so, but even young Mr. Leonard's mild spirit rebelled at this, and he insisted on clothing his flaccid little self in the rig of the ultra-Anglomaniacs. On those rare occasions on which mamma allowed him to stray from under her maternal eye her parting injunction invariably was, "Now, baby, be sure you don't get into mischief," and here he was getting into the very worst description of that article.

He had passed the handkerchief phase and had arrived at the desperate state where he was feeling sorry in his pocket for a visiting card which, in one of the pestiferous Chinamen's comprehensive sweeps of arm and vision, the celestial saw what was going on. For a moment his hands hung suspended, then they dropped with a thump on two boy knees, while he shot out a few gutturals to his companions. These looked quickly and sharply out of the little store window and up and down the street, and then, at more gutturals from the tall Chinaman, they closed swiftly around the startled youth.

Before he knew what had happened young Mr. Leonard found himself inside the store, sitting down beside the little Chinese girl—much closer than he had ever dared to imagine, and the six Chinamen so thickly grouped about him that he was hidden behind them as by a wall—a little wall of China, in fact. With child-like confidence and affection the maiden put her right arm around his waist, and kept it there with a vigor that was quite surprising, while

she brought her left hand, holding the big red silk handkerchief, so closely up to young Mr. Leonard's mouth that he could only talk in a sort of muffled undertone. Immediately in front of him towered the tall Chinaman, and in the Chinaman's hand was a huge revolver.

"You won't buy that ill gel?" inquired this monster, working the revolver around until its muzzle looked like a revolving disc in an experiment of hypnotism.

"Good gracious, no!" young Mr. Leonard was understood to stammer. "What for then you tly mashee, heh?" "Good gracious," stammered the youth again, and there, stuck feeling very much as if he would like to cry, "Lookee heah, you dam fellah," said the Chinaman throwing open his mouth as though he was going to swallow his victim; "me, Quong Ah Wok, baddest highbinder San Francisco. Sixteen manboyle like you—tacking them off on this fingers with the pistol barrel—I kill already this week. Now I kill you too less you buy this ill gel or give dam'd dollar."

"I haven't got so much money with me," moaned young Mr. Leonard. "How much you got?" pestered Ah Wok.

"Only about fifty-three dollars and some odd cents, don'tcher know," chattered the victim behind the red silk handkerchief.

"Lemme have 'all you got—dam quick," said the terrible Ah Wok, playfully poking the revolver in his victim's vestpocket.

Young Mr. Leonard lost no time in handing over his coin and bills, though the operation left his purse as limp as his legs.

"Now, then," said Ah Wok, with a combined movement of the head and arms that made him look like a gigantic crane about to take flight—"now, then, young fellah, you skippee heap R-r-r, and, lookkee heah, you no say no word any one or I come—we all come—kill you in your ill bed."

Young Mr. Leonard wanted no further permission, and, the encircling arm of the maiden being released, he tottered out and did not stop tottering until he had reached the hotel. There he half frightened mamma to death by his ghastliness, but he attributed it to his "climbing so many beastly hills," and after lying down for an hour or two with a bottle of smelling salts to his nose he was again able to stand on his feet and face the wicked world.

The next day was Sunday, and young Mr. Leonard and his mamma went to the First Baptist Church, that being the sect of which the Leonard had always been strong supporters. Mrs. Leonard's devotions were considerably interrupted with the haunting suspicion that she knew the bonnet in front of her and sure enough, when it was worn or happened to turn enough to see the sages who should it be but Mrs. Todhunter, of Boston.

"Star after service, my dear," whispered Mrs. Todhunter, during one of the hymns; "were going to have a treat—converted Chinese."

All the missionary zeal of the New Englander was stirred at this hint, and they staved.

The first part in the appendix of the service was a Chinese Sunday school, and young Mr. Leonard did not seem to be half as charmed by the services as his mother had expected him to be; indeed it was all he could do to keep from sneaking out of the new or lying down in it under plea of being poorly.

He heard the devout leathern singing some horrible travesty of dear old "Rousseau's Dream" with all the vigor and fullness of a blacksmith's belows, and then he heard a resonant, crackly voice, at sound of which his heart melted like wax within him. He glanced fearfully up. There was no mistaking that ophioid head and those tree gestures—it was Quong Ah Wok, the prince of highbinders.

He was telling the story of his conversion, of his being brought out of the darkness and confusion of ancient Confucianism into the perfect clearness of new Raperianism, and telling it with a redundancy of picturesque action which young Mr. Leonard knew only too well.

"And now me clean!" cried the convert, with a fountain like movement of the hands from the chest upward and outward; "all same clean like snow, while you, pool sinners, black like Mehan man's shoes. Come be clean, sing, sing, sing tolerable—amen."

"So say that young Mr. Leonard was amazed, but faintly to express his condition. He was simply stupefied, and it was in the stupor that he somehow knew his mamma was taking him by the arm and leading him up to the pulpit platform to shake hands with the converted Ah Wok.

"So charmed," he heard his mamma say, and then he felt his hand scize in a bony paw; a few quick low gutturals were spoken, and then there was a thin giggle.

He looked up perforce, and there, sitting in sweet demerence, was the little Chinese maiden.

"This my niece, also one Christian gel," said Ah Wok, with a fearful working of his mobile jaws, and lowering of his lids; "you please shake hands wif ill Christian gel."

Young Mr. Leonard put out a moist, quivering hand, and felt it gently tickle in the palm. He ventured a timid glance from the corner of his eyes and met one as full of mischief as a monkey's. He thought of Celestian wile, and of his 533 and sighed.

And the maiden smiled.

**He Wasn't Trifling.**

"Are you married?" asked the justice of a man who had been arrested for vagrancy.

"No, I am not married, but my wife is."

"No trifling with the court."

"Heaven save us! I'm not trifling with the court. I was married, but got a divorce. My wife got married again, but I don't; so I am not married, but my wife is."

**Pitfalls of Conversation.**

He—Is that your dog I hear howling so?

She—Yes. Poor Hero is so devoted to me he guards me all the time, and won't even let papa put his arm around me.

He—Faithful creature! I can't bear the thought of his being chained on my account.—Vogue

## PIERCE THE CLOUDS.

### WILL THE GREAT WATKINS TOWER IN LONDON TOWN.

One Thousand One Hundred and Fifty Feet in the Sky—More Especially to Eclipse the Eiffel Structure—Their Heights Compared.

new tower at Wembley Park, near the metropolis, which has been started expressly to outdo the lofty tower of Eiffel.

The tower is designed by Mr. A. W. Stewart, but some of its details have been modified since Sir Benjamin Baker and Mr. Stewart took the work of erection in hand.

Sir Edwin Watkin secured the design, it should be said, in response to a prize offered for such a tower. When the design was selected it had eight legs. These they have now reduced to four, but really the base consists of four groups of four legs each, and each leg rests on its own concrete foundation.

It is nearly two years since the Messrs. Firbank put in the foundations. The building of the tower above foundation level is being done by Messrs. Heenan & Froude of Manchester, who are not without experience in such work. They were the builders of the tower, 500 feet high, at Blackpool.

Mild steel is the material used for the mighty structure. We give two sketches which will enable the reader to understand how much higher the Watkin tower will be compared with the Eiffel tower at Paris.

The tower will somewhat resemble the one at Paris, but the arrangements of lifts will be different. There will be four lifts. Two will ascend to the height of 150 feet only, and two will go up to 900 feet. They will be all independent, and will be driven by winding engines.

At Wembley Park there is not the same necessity as at Paris to have an open space under the tower, so that vertical lifts can be used. These will travel more quickly than if they had

the lifts will carry 60,000 people a day.

As for the uses to which the tower will be put some day depends on circumstances. On the first platform, which is 100 feet from the ground, and is about 200 feet square, shops, restaurants, side shows and a concert hall will be built. The second platform will be at an altitude of 500 feet, and this will contain similar buildings to the lower platform, but on a smaller scale, as the space at command will be much less.

Higher still a third platform will be built, and on this will be a postoffice, a telephone call office and other small buildings. Right at the top will be an observatory and a very powerful electric light from which the beams should be seen from great distances. That on the Eiffel tower has been seen seventy miles away. The tower is expected to be finished early in 1903, and will cost \$1,000,000.

**To Expose Mohammedanism.**

Mr. Taminosian is a rather handsome young Syrian from Antioch. He is 24 years old, and has been in this country nine months. When he shall have added English to the ten languages he speaks fluently, he is going to write a book on Mohammedanism. He says he will expose "its corrupt beliefs and bad manners." He is a Christian by birth and belief, and the story of how he became a sheik and learned what he calls "dervish principles" is a romantic tale of adventure. He refuses to give the details because he is reserving them for his book.

**Travel Induces Liberalism.**

The Ameer of Bokhara, in Central Asia, has modified entirely his habits and customs, as a result of his recent voyage in Russia. He has opened the gates of his palace to the Russian ladies and organized dancing parties. Moreover, this palace, with all its oriental splendors does not seem to be satisfactory to the ameer in general comfort. He has ordered another to be built in the European style, near the Russian legation, under the supervision of a French architect.

**When Gladstone Was Young.**

While a student at Oxford Mr. Gladstone was one of the competitors for the Ireland scholarships, but failed. "Desultory beyond belief," is what the principal examiner wrote on Gladstone's paper, and he went so far as to charge the future statesman with "throwing dust into the examiner's eyes like a man who when asked 'Who wrote 'God Save the King'?' answered: 'Thomson wrote 'Rule Britannia.''"

to pass up one of the legs. There is the further advantage that the lift guides will stiffen the structure and help to support the first platform thus enabling lighter girders to be used.

To show what is involved in the erection of such a lofty structure we may give a description of a base. Each base piece weighs ten tons, and stands on a sole plate 9 feet by 7 feet 6 inches thick. Then seven 12-inch by 6½ inch joists, ½-inch thick, are riveted to the plate, and on them is another plate of the same dimensions. Joists have been let into the concrete on which the bases rest, so that, if necessary, they may be moved slightly for the purpose of adjustment. There might be a risk

of the leg slipping bodily forward during erection. To prevent that the bottom sole plate has riveted to it a ½ inch by ½ inch angle of steel 5-8 of an inch thick. The base pieces are held in position by bolts of 2½ inches in diameter, with a 3 inch thread and a length of 12 feet.

Above the base pieces the legs are in 26 feet lengths, braced together by cross and diagonal girders. Each of these sections weighs seven tons, and is constructed of plates 7-16 of an inch in thickness. The angles are 4-inch by 4-inch of ½ inch thickness of metal.

A steam winch has hitherto done all the raising with "sheer legs," sixty five feet high, at each tower leg. The erection will be continued by means of four electric cranes. These weigh about twenty tons, and will be run on special girders bolted by the side of and just above the horizontal struts.

The cranes will unload direct from the railway trucks, and as each section is finished they will be able to lift themselves to the next level in twenty-five minutes. One central, or generating dynamo, will serve for all four cranes. It will only work once at a time, but will have sufficient spare power for some electric drills.

After the tower reaches the height of 500 feet only one of these cranes will be used. It will be provided with a longer jib, and will be in the center sliding between the lift guides. When completed the total weight of the tower is estimated at 7,000 tons.

The total height of the tower will be 975 feet, that of the Eiffel tower being 975 feet. The Wembley tower stands on an eminence 165 feet above sea level, and at this tremendous height it is difficult to form an idea of the wide stretch of the country which will be under foot and within sight.

## A GREAT TOWER.

### Copenhagen to Have the Highest One in Europe.

It has been decided to build a tower, on somewhat similar lines to the Eiffel tower, in a park outside of Copenhagen, on an elevated spot, from whence there will be an exceptionally fine view over the city, the surrounding picturesque country, the sound, and a long distance into Sweden. It will be built exclusively of iron and steel, and the foundation will be of cement concrete. The height will be considerably more modest than the tower of Blackpool and Paris, viz., only 430 feet, but then the locality is some ninety feet above the level of the sea. The diameter of the base will be 160 feet, and there will be three platforms, at respectively 100 feet, 200 feet and 350 feet. The lowest platform will rest on a structure of the shape of an even sixteen-sided pyramid, and will itself be octagonal, each side being forty-six feet. This platform will have in its central portion an octagonal pavilion for restaurant, etc. In the upper portion of the pavilion will be access to staircase and elevator to the upper platform. The access to the lower platform will be by two staircases and two elevators; the capacity of the latter will be about a dozen passengers each, and their maximum speed 1½ feet per second. It has not yet been decided whether they will be worked by hydraulic power or electricity. The second and third platforms will also be octagonal, fitting into circles of respectively 160 feet and 31 feet in diameter. These will have stone floors, and the access to them from the lower platform will be by means of two staircases and two eight-passenger elevators, round which the staircases are placed. The

upper platform will be by two staircases and two elevators; the capacity of the latter will be about a dozen passengers each, and their maximum speed 1½ feet per second. It has not yet been decided whether they will be worked by hydraulic power or electricity. Last Call--1-2 Off

'TIS ENDED!

Last Call--1-2 Off

The 20-day Closing Sale ends today. It has been a success. We have sold lots of goods and closed several lines. There still remains a few lots of Warm Weather Goods that must be closed, and in order to do this quickly we will adopt the following plan: on

**SATURDAY, JULY 28TH!**

The entire lot of Cotton Challies ranging in price at 5c, 6c and 8c; Chiffonettes at 8c; Lawns in Black, and Black and White from 12 1-2c, 15c to 20c; Figured Sateens at 15, 20, 25, and 30c, and close the entire lot

**AT JUST 1-2 PRICE!**

Think of it! but think quick and act quicker, for this means just what the words imply--1-2 off from the regular price. Also entire line of White Embroidered Flouncings ranging in price at 50c to \$2 per yard, will be closed at exactly 1-2 price.

Everything in Ladies or Gentlemen's Summer Underwear or wearing apparel going regardless of cost.

**T. G. Richardson, THE CASH OUTFITTER.**

**FARMINGTON.**

**SALE.**

**NOVI.**

Mrs. Cetella Murray spent last week Thursday in Detroit.

The assessed valuation of the village of Farmington is \$164,087.

Mrs. Sink and sons of Britton are guests at the parental home.

Gale Collins of Mt. Clemens was the guest of his parents Sunday.

Frank Brown and son Peiry of Northville were in town last week.

Miss Libbie Johnson of Plymouth is spending a few days with her parents.

Mrs. B. D. Ward of New Hudson is the guest of her parents, B. B. Mosher and wife.

Mrs. M. D. Crawford and little baby of Detroit are the guests of her mother Mrs. Abbie Gates.

Mrs. Frank Clark and little daughter of Cheboygan are boarding at the home of Mrs. Jane Tremper.

No services in the Methodist church Sunday evening on account of the lecture at the Baptist church.

Dr. and Mrs. Truscott of Cass City have been the guests of Thos. McGee and family for the past few days.

Miss Corinne Collins and other guests from Detroit were entertained Sunday at the home of J. W. Collins.

Ed. Pettibone and the Misses Edna Botsford and Georgia Hiles passed a pleasant afternoon at Orchard Lake Sunday.

Mrs. Minnie Paulger and sister Miss Jessie Ely of Northville were entertained Sunday at the home of their sister, Mrs. J. W. Hatten.

The remains of Mark Cranson of Redford were interred in the village cemetery last Thursday. Deceased was once a resident of this place.

Editor Bloomer and family are off for a week's vacation in the northern part of the state. No Enterprise will be issued next week while the proprietor is enjoying a well earned rest.

Farmington can now boast of water works as well as Northville, only her's consists in new wells owned by E. C. Grace, Wm. McManus, Isaiah Johnson and J. W. Hatten. Wm. Midgley performed the work.

An ice cream and watermelon social will be held on the lawn belonging to Dr. Moore Saturday evening, July 28, under the auspices of the L. U. A. A. pleasant time is anticipated and a cordial invitation is extended to all.

Fred L. Cook and his best girl Miss Myrtle Sowle Sunday at the home of Mr. and Mrs. D. A. Durfee at Novi. Now the foregoing word "Sunday" is open for criticism but be sure you are correct before offering criticisms or suggestions on all subjects.

The festival held Saturday evening on J. G. Francis' lawn was quite largely attended. Although the evening was quite cool for ice cream and lemonade, about \$9 was realized. All report a pleasant time. The entertainment was under the auspices of the H. H. society.

The lecture given Sunday evening at the Baptist church by Mr. King of Detroit was one of great interest. The light house constructed from the books of the bible was something unique in appearance and showed deep study and marked ability. There was a large attendance and those who were not privileged to be present missed one of the golden opportunities in life. The remarks by Mr. Bierce on Sunday school work were excellent, from which many points of interest might be gleaned for future work by the teachers and officers present.

Mrs. H. C. Waldron of Northfield visited Mrs. G. S. Wheeler last week.

Mr. Waldron collected the policy of life insurance on the life of the late Judson Thompson last week.

Messrs. Cal. Wheeler, Walter Rider and Charley Coldron, with quite a company of their lady friends, picnicked at Whitmore Lake Tuesday.

Mrs. Hannah Dennis of near Thayers Corners died Wednesday of heart trouble, aged 81 years. The funeral occurred at 10 o'clock today.

Mr. and Mrs. Will Thayer, taking advantage of reduced railroad rates, are visiting Mr. T's sister, Mrs. H. L. Haskell, and family at Ludington this week.

During the thunder storm of last Friday the electric current played many pranks hereabouts. The dwelling house of Geo. Nollar, one and one-half miles north-west of here was damaged to the estimated amount of \$250 to \$300. A small tree near Chas. Ryder's barn was shattered. It is said that not a scratch could be found on Mr. Whitacre's horse, which was killed, nor any damage to the barn. Will some expert electrician arise and explain.

After an illness of several weeks Mr. and Mrs. Henry Whitacre's little boy died last Thursday morning. The complaint, pronounced by Dr. Walker, was cholera infantum. His sufferings were intense at many times and the wonder is that he endured as long as he did. Mr. and Mrs. Whitacre had been home from the burial on Friday only a short time when a thunder shower came up during which one of their horses was killed by lightning and two others were so badly shocked that it is feared they may become useless. They have the sympathy of the entire community in their bereavement and misfortune.

Rev. W. H. Shannon left on Monday for his three weeks vacation. He will spend part of the first week with friends at his former pastorate at Maple Rapids and will then proceed to Kansas City, Missouri, where he will visit his brother for several days. Returning he will come via Ludington and visit the families of Messrs. Haskell and Hutton. Mr. Shannon's pulpit will be occupied next Sabbath morning and evening, by Rev. Winfield S. Ely of Lansing. No provision has been made for its occupancy the following Sabbath. Master Will Shannon accompanied his father as far as Vernon where he will visit for a few days in the family of Mr. Bryant.

Republican State Convention at Grand Rapids July 30.

The F&P M'y Co. will sell excursion tickets to junction points for Grand Rapids, July 30 and 31, limited for return to Aug 1, 1894, at one fare for round trip.

Reduced Rates to Grand Rapids.

On account of the Republican state convention the C&WM and DL&N lines will sell excursion tickets to Grand Rapids at one fare for round trip.

Tickets will be sold July 30 and 31. Return limit August 1.

Mr. Doyle and wife spent Sunday at Northville.

Mr. Maluvan was the guest of Jas. Seldon Tuesday.

Will Mosher of Salem called on Novi friends Tuesday.

Miss Lillian Kelley returned to Detroit Saturday.

Mrs. R. M. Johnson visited relatives at Deerfield over Sunday.

Mr. and Mrs. Nicholson took a bicycle trip to Brighton Sunday.

S. Bassett is building a new house. Jas. Devereaux does the work.

Kerr & Johns will fill the pulpit at the Methodist church Sunday.

Will Goudrill and wife have returned from a week's visit at Saginaw.

The long-looked-for rain put in its appearance here last Friday afternoon.

Several persons attended the quarterly meeting services at Walled Lake last Sunday.

Henry Gilbert and sister of Gaines, Genesee county, have been visiting friends in this vicinity.

J. McCrumb and wife have returned home from Oakley, where Josh has been buying wool for some time.

Rev. Mr. McIntosh is now enjoying his vacation. He expects to visit Petoskey and other points for his health.

Delos Leavenworth found something up in the huckleberry swamp besides huckleberries. He got pretty badly poisoned.

During the severe electric storm Tuesday night, the barns on the Sibley farm at Wixom were struck by lightning and burned to the ground.

Mrs. Ella Spencer has a new wheel. Mrs. Eva McCrumb and Miss Mame Johnson expect to have one soon. They appear to be all the craze now in our town.

Our harvest is well under way hereabouts, and some wheat has been threshed. Oats is found to have been very much injured by the dry weather--corn ditto.

The ice cream social of last Saturday evening will be repeated next Saturday evening at the Methodist church. The proceeds go to make up the minister's salary.

Novi people were highly edified Tuesday by having an opportunity to listen to a row at the hotel (?) which would have done credit, (or discredit) to a city saloon.

The ice cream social at the Methodist parlors last Saturday night was fairly well attended but owing to the cool atmosphere there was not as many present as would otherwise have been.

There is to be a meeting of the Johnson creditors at Wixom Saturday. An effort will then be made to place the business in other hands than those managing affairs at present, as things are not satisfactory to the creditors.

Yes, we all went huckleberrying, two days, camped out, got lots of berries, "saw no snakes," but the festive little skeeter put in his work right lively. We had a good time and mean to do some more if the berries hold out.

A. C. Orvis of Milford was killed by the cars between Wixom and Milford Saturday evening. The evening train north ran into his buggy demolishing it and threw him out with the above result. The horse was not hurt. This is another serious admonition to "look out for the cars."

Mr. Krumm has his machine and engine in readiness for business and he has a good one, though we don't approve of his Sunday work on it. We wonder how anyone can expect the

patronage of a discriminating public when openly violating the laws of God and man by desecrating the Sabbath day.

Martin L. Crane died July 15 of paralysis, aged eighty-two years. Deceased was born in Allegany county, N. Y., in 1812 and moved to Michigan in 1850, with his family of four children, two sons and two daughters, having buried his wife the summer he came to Michigan. He served in the civil war with his brother and both sons, one being killed while in line of action, the other getting wounded and dying at home. Mr. Crane was a staunch democrat, never having in his life voted any other ticket. He came to Novi some twenty-five years ago and since then has devoted his time between his daughters, Mrs. Hodges of Vanderbilt and Mrs. Phillip McCrumb of Novi, where he passed away. The funeral occurred July 17 under the auspices of Allen M. Harmon post, G.A.R. of Northville, Rev. McIntosh officiating. The remains were interred in the Novi cemetery.

Cheap Excursion to Detroit.

The F&P M'y company will run an excursion to Detroit on Sunday, July 29. Train leaves Northville at 10 50 a. m. Returning leaves Detroit at 5 30 p. m. Fare 75c for round trip.

Peninsular Sangerburt at Bay City August 7-9, 1894.

The F&P M'y will sell excursion tickets to Bay City and return Aug. 6 and 7 limited for return to Aug 10, 1894, at rate of one fare for round trip.

VERY MUCH SURPRISED.

I have been afflicted with neuralgia for nearly two years, have tried physicians and all known remedies, but found no permanent relief until I tried a bottle of Dullam's Great German Liniment and it gave me instant and permanent relief. 25 cents per bottle. A. B. Snell.

Hamilton, Mich. April 11, 1890.

For sale by C. R. Stevens.

BUCKLIN'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25c per box. For sale by C. R. Stevens the druggist.

MOTHERS AND DAUGHTERS.

Over twelve years I was afflicted with a very serious female difficulty and for the last sixteen months was under treatment of three of the very best physicians that money could employ. Under their skillful treatment I gradually grew worse until they decided they could render me no permanent help. One of my friends persuaded me to try a bottle of Dullam's Great German Uterine Tonic, and after taking three bottles, can say I am in better health than I have been for 20 years and am now sixty years old, but feel as young as at 30. June 2, 1890.

Mrs. H. E. Carpenter, Lapeer, Mich.

For sale by C. R. Stevens, druggist. 4

Don't Tobacco Spit or Smoke Your Life Away.

is the truthful, startling title of a little book that tells all about No-to-bac, the wonderful, harmless GUARANTEED tobacco habit cure. The cost is trifling and the man who wants to quit and can't, runs no physical or financial risk in using "No-to-bac." Sold by all druggists. Book at Drug Stores or by mail free. Address The Sterling Remedy Co., Indiana Mineral Springs, Ind.

**MORTGAGE SALE.**

Default has been made in the conditions of a mortgage bearing date May 20, 1886, made by Henry T. Lowden to J. S. Lapham and on the 17th day of June 1892 assigned by said J. S. Lapham to William G. Lapham, which mortgage was on the 7th day of June 1886 duly recorded in the office of the register of Deeds for the County of Wayne and State of Michigan in Liber 217 of mortgages on page 171 and which said assignment was duly recorded in said Register of Deeds office on the 31st day of January 1893 in Liber 76 of assignment of mortgages on page 186 by which default the power of sale in said mortgage continues has become operative. There is now claimed as past due and unpaid on said mortgage the sum of six hundred fifty dollars and eighty-eight cents (\$650.88) and no proceedings have been instituted to recover the same or any part thereof on or after law or equity.

Notice is hereby given that by virtue of said power of sale and of the statute in such case provided, the land in said mortgage, to wit: That certain piece or parcel of land situated in the Village of Northville in the County of Wayne and State of Michigan described as follows to wit: Commencing two hundred and twenty-four (224) feet from the center of Rogers street west on the extension of Main street, thence running south nine (9) rods thence west four (4) rods, thence north nine (9) rods, thence east along the center of said extension of Main street four (4) rods to the place of beginning, will be sold at public auction to the highest bidder on the 17th day of September, 1894 at one o'clock in the afternoon at the west front door of the City Hall in the City of Detroit (that being the place where the circuit court for said County is held) in said County and State, to satisfy the amount due as aforesaid with interest then accrued and the legal costs and charges of foreclosure including an attorney fee of twenty-five dollars, allowed by law and which is in said mortgage stipulated.

Dated, June 20, 1894.

WILLIAM G. LAPHAM Assignee of Mortgage.

CURE FOR HEADACHE.

As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only 50 cents at C. R. Stevens drug store.

DON'T GET IMPOSED UPON.

Is a good motto to follow in buying a medicine as well as in everything else. By the universal satisfaction it has given and by the many remarkable cures it has accomplished, Dullam's Great German Blood, Liver, Stomach and Kidney Cure has proven itself unequalled for building up and cleansing your system and for all diseases arising from impure blood. Do not experiment with an unheard of or untried article which you are told is as good, but be sure and get Dullam's. All druggists keep it.
