

THE NORTHVILLE RECORD.

Vol. XXV, No. 51.

FRIDAY, AUGUST 3, 1894.

\$1.00 per year, in advance.

Around the Country

Fifteen hundred dollars is about what the smallpox scare will cost the city of Pontiac.

T. Dale Cook of Flat Rock has been appointed school commissioner in place of Frank Rutter deceased.

Holly wants a bicycle meet and a union picnic to be held there in the near future. Just the thing for us farmers.

Phil Schampers of Wayne has bought a new cow and the Review is telling about another new industry for Wayne—a creamery.

Attorney General Ellis has filed an opinion to the effect that county clerks have no right to suppress marriage licenses.

The Ann Arbor Courier notes that election day falls on the 13th this year. It will be very unlucky for a majority of the candidates.

A two weeks teachers' institute will be held at Holly commencing Aug. 13. Prof. Ferris of Big Rapids and Wood of Holly will do the business.

What an amusing lot of experiences a hammock could relate if it could only talk.—Pontiac Times.

If a hammock could talk those "amusing" experiences wouldn't occur.

Frank Abby of Fenton was severely injured last week by the force of gravity playing hob with the ladder upon which he was at work.

Wandotte children who were armed under the recent "free vaccination" act can have the dose repeated without further expense if it didn't work the previous time.

"Notice that dignified air, when you meet Alex. Barker."—Saline Observer. Bet his is a boy or a girl.—Ann Arbor Argus.

No fair! Someone has been telling the Argus man.

Orion township is probably the greatest "later" town in the peninsular state. There are high unto a thousand acres of the tubers over there now covered with blessings and bugs.

Frank Allen of Wayne was up in the police court of that city last week on complaint of his mother for assault and battery. This must have been a case of "spare the rod and spoil the child."

The new Milford band has made its first appearance and the people who had left town in view of the coming event gradually gained courage enough to return. The band didn't play half as bad as they expected.

The new state press association officers are: President, Fred Slocum, Caro; vice president, C. S. Osborne, Sault Ste Marie; secretary, Fred Sherman, Port Huron; treasurer, R. F. Wilson, Benton Harbor.

"Druggists, Berridge & Berridge of Orion tell us that "everything else" which they have for sale doesn't mean "measles and rumps" but instead a "full line of drugs, etc." Well, measles have been a drug over here.

When a street fakir starts in business at Dundee, the small boys make it so warm for him that he is obliged to pull up stakes and move over to Milan. The youngsters there have more pluck than the village dads.

The Day bath-tub manufacturing company of Detroit are talking of establishing a factory at Milford. A factory of this kind would be a great boon to Milford people, who have heretofore been compelled to swim around in common wash tubs.

The Plymouth fair this year will probably be one of the most successful events held for years. The dates are for Sept. 25, 26, 27, 28. \$1,000 will be hung up for the races prize. A number of bands will be present, probably including the Northville.

Legrand Buell a well known Holly-ite was committed to the Pontiac asylum last week. Whisky was what did it. He was cured up at the Yarnall Gold Cure some time ago and remained sober for a long time. It was of no use however, and he went at it again with the above result at last.

A poor, honest hard working farmer, or his wife, or both, sold Fred M. Warner of Farmington a one gallon crock of "nice, fresh, yellow butter" some time ago which turned out to be Dutch cheese when the Wilber, Cook & Co. inventory was made last week. Fred is still trying to think who sold him the article.

A Hudson man saw an advertisement in a foreign paper which read: "A sewing machine for 50 cents." He forwarded the half dollar and received in return two needles and an awl. That man should read his local papers and patronize home trade.—Dundee Reporter. Is that awl you could expect from a Hudson man?—Ann Arbor Courier.

Is this the last of it?

"Are you a judge of reprobates?" said an old lady as she walked into a judge's office. "I am the judge of probate," was the reply. "Well, that's it, I expect," quoth the old lady. "You see my husband died destitute and left me several little infidels and I want to be their executioner."—Unknown Origin.

Last week the Ann Arbor Courier credits a "Hamburger cheese" item to the Saline Observer and the "catch on" item to the Chelsea Standard. The Argus credited the latter to the Dexter Leader. Both items were entirely original in the Record, several weeks ago. The Courier and Argus are usually very careful in giving proper credit. Both papers have so much worth copying each week that they would not have noticed a little thing like this, but with the Record it is different.

By authority granted from the "Ancient Reckless Order of Prevaricators," a society started and sustained by Bro. Neal of the Northville Record, we are entitled to lie to our heart's content, and no one has a kick coming. Usually we have believed all of the thrilling articles found in the Record were true—true as gospel, but our faith is shaken, in its foundation quaketh, in fact it has flown, and now the Record is regarded by us as a modern newspaper only. There take that! Next!—Dundee Ledger.

The above shows that the license was issued in this case none too soon, (see our "Itaifed" words in above) and that Bro. Manger is exercising his rights already to their extreme limit.

The Northville Record says in apologizing for deviating from "independence" politically, by so warmly exposing the cause of Gen. Spaulding, that he simply is urging a good man for the republican nomination; but after the nomination, he will preserve absolute silence, and let the best fellow win. That's where the hard lot of the "independent" newspaper chap comes in. He feels all the time like hitting some one under the ear, but has to keep still for fear he will lose a subscriber. "Throw open the throttle, and let 'er go Gallagher," and if you want to even matters, be independent on one side one week, and on the other the next. Tell all you know and just how you feel, and no democrat or republican will stop your paper. They like to see the fur fly. If you are a republican, up with your tariff protection banger and turn the crank. If you are a democrat, (and if you are not you ought to be) fly the colors of tariff reform, free silver, anti-monopoly, and home rule, and turn on the electricity. You'll keep going all right enough. If you are a prohibitionist—well, now we CAN'T give you suggestions what to do in such a calamity.—Adrian Press.

Last Tuesday morning about one o'clock our citizens were aroused from their sleep and for a time alarmed, by yells and cries of persons going along Main street. The only trouble was a lot of drunken loafers who were going home at that hour and who made fools and asses of themselves by acting in the manner aforesaid. It has been said that a lot of Northville bums are in the habit of coming here, loading up with Plymouth whiskey, and then proceed to own and paint the town. Good citizens would like to know why the marshal does not exercise the authority of his office and run in such disturbers of the peace; and second, why saloons are not closed at the proper legal hour, and loafers turned out at a respectable and sober time. Let this disturbing of honest folks, and making of night hideous, be promptly stopped, and all bums foreign or otherwise, learn that the law has some rights that all are bound to respect.—Plymouth Mail.

That's right, run 'em in. There are a class of bums who are too afraid of public opinion or the officers to get drunk in their own town, and they inflict their obnoxious actions upon the law abiding people of neighboring villages.

ABOUT THE MILL POND.

A Communication on the Subject from a Well Known Citizen.

Editor of Record.—Will you kindly allow me space in your excellent paper to explain a little more fully my plan for beautifying that much talked about mill pond?

My plan would be to plant it with some of the finest hardy water lilies that will multiply and take care of themselves after once introduced, and would in a few years become a thing of beauty and cover the pond with their beautiful flowers. A few might be named, such as our common white pond lily, Nymphaea odorata, which everybody knows and loves. Then there is the Cape Cod pink water lily, Nymphaea alba rosea, which is a deep pink or rose color, being very fine and much sought after for its fragrance and great beauty. These are perfectly hardy. Then there is the Egyptian Sacred lotus, a grand plant growing five or six feet high with leaves twenty to thirty inches across with flowers a foot across; color white shading to pink. These are all very fragrant and possibly that mixed with the fragrance (?) we already have might produce something exquisite. Who knows?

I merely throw out these suggestions perhaps others can improve upon the plan, if it is worth a thought; if it could be made successful it would certainly be an improvement on what we have, and that at small expense. I hope to hear from others on the subject.

RUDER GRANGE OUTDORE

Or a Brief Camp Life Experience at Union Lake.

For a box full of down-right fun, a party of ten Northville people who went over to Union Lake for a two-day picnic week before last can give any pointers. In the party were our village president and family; Lee Lamoureux and wife; Mr. and Mrs. W. D. Gould and C. A. Blair and sister. No sooner were their tents pitched, hammocks swung and baskets opened at the lake, than a terrific wind and rain storm set in compelling them to seek shelter in the more substantial club houses. Towards evening when the clouds had ceased their bad behavior, the hammocks were again strung for a night of delightful sleep, where only the swaying branches of the trees and the clear dome of the heavens would be their covering. Towards midnight another heavy rain set in and again did the campers flee to the cottages, where for the remainder of the night they rested on the soft side of the floors and porches of the resorters summer homes, dreaming only of the rising of another sun when all their troubles should be as naught. The sun rose as per the almanac bulletin, but it shone forth not with accustomed warmth but with a wish-I-was-home kind of a shine. A vote was taken and it was unanimously decided to at once embark for the "village among the hills." The embarkment was soon complete but just here a new danger threatened them. The team had not been included in the caucus and they declined to leave the cool scenes of old Union, and the music made by the dashing waves upon the shore. Neither argument nor arbitration could move them. At last after an hours waiting, the gentlemen of the company, who are credited with a great deal of push, hit upon the scheme of applying a portion of it (their push) to the vehicle. It was a great idea and worked like a charm. The horses were off like a rocket. The men were dragged pell-mell through the sand, the team taking so fast a gait that for some time the men were unable to regain either their footing or seats. And when at last they did get securely attached to their seats, there was a far away anti-camp-life look in their eyes. The ladies had had forethought to take wraps with them and to the shivering men they kindly loaned their bathing suits, and thus protected from the obdurate July winds of that day they reached the haven of Northville without further mishap.

Take a Day Off

The Barnum & Bally Greatest Show on earth will exhibit at Detroit Aug. 6, and for this notable occasion the various railroads have come to the front with such a low excursion rate that it is cheaper to go than it is to stay at home. This great show and national educator, always the biggest and best, has this year eclipsed all its previous records for the multitude of its attractions.

Full particulars as to the time of special trains, excursion rates, etc. can be obtained at the depot.

Still Flourishing.

Notwithstanding the hard times talk all over the country, the Yarnall Gold Cure here was never in a more flourishing condition. The other experimentally started gold cures established about the state during 1892 and '93 have apparently been unsuccessful so far as patronage was concerned, and we believe that but one is now left of them all, and that has been moved twice since its original establishment.

There are from seventeen to twenty patients at the Northville Institute this week, nine new ones having arrived since Monday. This has been about the average all the season, showing conclusively that the Yarnall Gold Cure possesses extraordinary merits and that the location is perfect.

Republican Convention.

As far published call, the republican congressional convention for the second district of Michigan, will be held in the city of Adrian on the 16th day of August, 1894, at eleven o'clock a. m.

The Wayne county republican convention for that portion of the county belonging to the second congressional district, and embracing the townships of Plymouth, Canton, Brownstown, Huron, Ecorse, Monguagon, Romulus, Sumpter, Taylor, VanBuren and the first, second and third wards of the city of Wyandotte, will be held in the city of Wyandotte on Tuesday the 14th day of August, 1894, at one o'clock p. m. for the purpose of electing eleven (11) delegates to the above named congressional convention.

Each ward and township is entitled to three delegates; with the exception of Plymouth which is entitled to four. Caucuses should be held not later than Saturday, August 11.

J. M. COLLIER, Member Congressional Committee for Wayne County.

Plymouth, July 30, 1894.

MORTGAGE SALE.

Default has been made in the conditions of a mortgage bearing date May 26, 1886, made by Henry T. Lowden to J. S. Lapham and on the 17th day of June 1892 assigned by said J. S. Lapham to William G. Lapham, which mortgage was on the 7th day of June 1886 duly recorded in the office of the Register of Deeds for the County of Wayne and State of Michigan in Liber 317 of mortgages on page 171 and which said assignment was duly recorded in said Register of Deeds office on the 31st day of January 1893 in Liber 26 of assignment of mortgages on page 166.

which default the power of sale in said mortgage contained has become operative. The street signs are all up and the houses about the village are fast becoming numbered. Within the next few weeks the work will be all completed and a person going about the village will have no trouble in picking out the live, enterprising citizens and business men.

The Northville Gun Club will give its first shooting tournament on their grounds here Thursday and Friday, August 30 and 31. They have a fine program and have issued some very elaborate invitations. We will give the event's more extended notice next week, together with the entire program.

Threshing has commenced with an old time vigor in this vicinity. The wheat crop is reported to be up to the average, and we judge in some cases to be a little above. Ed. Starkweather had one 10 acre field early red Clauson which went 32 bushels to the acre. This was probably the largest yield in the county.

The sample are light on Main street is well thought of by our people generally. Five or six of them on Main street from Center to the depot would, we believe, be a good investment. And then let them run every dark night and as long as it is dark regardless of whether the almshouse says it should be moonlight or not.

Apocryphal of the fact that the government pays a big bonus on warships that happen to be faster than the contract price calls for, why shouldn't the same consideration be shown to army men who develop unusual running qualities? If that vessel is the most desirable that has superior facilities for getting away from an enemy, why isn't the same quality wanted in the army?

Attorney General Ellis has decided in response to an inquiry from the state treasurer, that merchants who go about the country in wagons exchanging goods from their store for farm produce come under section 1283 of Howell's statutes which provides that no merchant shall peddle or employ others to peddle goods not his own manufacture without a license. For a single horse rig the license is \$40 a year and for two horses \$75.

Now that the township is about to put in a new iron bridge across the stream near the Yerkes mills it stands the village board in hand to take some action relative to putting a substantial sidewalk on the same structure. It would have to come eventually any how and this is just the time to have it done right, and at the same time in the long run save expense. We understand the extra cost to the village will be only about \$80 and it will be money well expended.

Those who are posted say that now is the time to get rid of the black knot plague. The black knot worm may now be found on the trees, the result of the sting of the insect in the spring. The worm will soon drop to the ground again where they will remain till next spring. By that time it will have been transposed into an insect which attacks the limb of the tree again, producing the black knot. The months of July and August is the only proper time to destroy the limb or tree, for at other periods the worm is in the ground and the destroying of the tree will in no way get rid of the pest.

Charles Wilfred Mowbray, a well known English anarchist, is said to have recently arrived in this country for the avowed purpose of stirring up discord, riot and insurrection. And yet the government authorities were warned of his coming and of his purpose and allowed him to land without a question or a protest. The idea of a preventative never seems to enter into the consideration of our authorities. They wait until disease has a firm hold and then undertake to apply a remedy which doesn't always prove a cure.

In our mind there can be no possible question but what the price of wheat must soon advance to a considerable extent. Should the present wheat crop not exceed the current estimates, there will be no surplus left after providing for the World's requirements. The enormous accumulations of three years ago will have vanished. Our crop last year was 100,000,000 bushels less than in 1892, and 2,000,000,000 less than in 1891. Thus there is every reason to believe that upon the return of normal industrial conditions there will be a marked return of prices in the direction of former high figures.

The YPSOE rally on Monday evening was full of interest and enthusiasm. Our fine band with the Eudeyos met the Detroiters at the train and escorted them to the church. "The balance \$16, I have placed with the town clerk as a gift from the deceased to the poor. Previous to her death, and in the presence of witnesses, I accounted to her entire satisfaction for the \$80 which deceased left with me about three years ago to be used for her as needed while living. The itemized bill can be seen by inquiring friends. This statement is to correct certain erroneous and false reports in circulation and give the public a knowledge of what has been done with the money I have handled in carrying out Amy Sherman's dying request."
