For the water board Mr. Dubuak said they had put in 3,502 feet of new iron pipe making now 7,700 feet in all and leaving but about 2,500 old in between the springs and reservoir. This was in such places as would not cause any more trouble. Continuing he said he wanted to say a few words, not to the water board, relative to some fine recently assessed to water takers who had not paid their tax as per rules. He said that in two recent cases the \$5 fines had been demanded even though the inspector had not turned the water off, the inspector meeting the property owners enroute and they had paid their fines and tax forthwith. In two other cases the water had been turned off after the tax had been paid. He

## NORTHVILLE, MICHIGAN.

W. S. GILBERT, the English comic opera librettist and sarcastic writer, has fixed the commercial value of an interview with himself at \$110. This English idea will never be generally adopted by American public men, for most of them are only too anxious to see their names and views "in print."

CHINA's god of war has 3,000 names and nearly 400,000,000 worshippers. Think of all these devotees taking all these names in vain daily through a protracted war! In trying to conceive of such illimitable profanity the imagination stretches and recoils vainly as a measuring-worm on a picket-fence reaching for the belt of Orion.

EVERYBODY has heard of the "Little Church around the Corner" in New York, which came into view years ago through the tolerant Christianity of its rector in regard to an actor's burial, and will be pleased to learn that the parish has been very prosperous of late years and that the Rev. Dr. Houghton will be enabled to carry out many long contemplated improvements.

A CHICAGO woman sued the park commissioners of that city because one of them shot her dog. She says that she sustained a severe nerve shock, with damage at \$10,000, for which amount she claims judgment. If the nerve which she has now has been damaged to such an extent, before her poodle was shot that same nerve must have been worth going as far to see as Katisha's left elbow.

The German society for colonizing Jewish peasants and engaging them in farming in Palestine and Syria has proved a great success. There are twenty-four farming settlements, cultivating 50,000 acres of land, and with a population of 5,000. These are all now self-supporting. Other colonies of Russian Jews are to be established, embracing many who are now employed as laborers in and near Jerusalem. One of the objects of the society is to prevent the emigration of Jews to other countries, as they are driven from Russia and Germany by the despotism of their governments.

The French system of inoculation to prevent diphtheria and croup should be imported to America at once. Figures show that in the great hospitals of Paris the death rate from the disease is reduced from 51.70 to 24.33 per cent by the Pasteur process. The demand in France for the serum necessary to the inoculation is so great that the Pasteur institute cannot supply it, but it would be easy to import a sufficient number of horses, previously treated, to make sure of enough lymph to meet the wants of the whole country. A course of five years of experiments proves the horse to be the best medium for propagating the serum.

The didn't-know-it-was-loaded actor who destroyed the eye sight of a fellow member of his company by playfully pointing the too familiar pistol at him, is reported to be suffering keenly from remorse. Doubtless he is. It does not follow, however, that he should receive no further punishment for his act. Remorse will not bring back the eye-sight of his victim. Neither will it restore his shattered skill to its former condition. But more important still—the whole tribe of didn't-know-it-was-loaded fools will never be brought into control by dealing leniently with the members who are allowed to escape because they are suffering from remorse.

The agricultural department at Washington has reports from Europe that there is a great increase in the use of American corn for feeding horses and cattle. This is not what is wanted. The value of corn as stock feed has always been admitted, but the mass of European peoples believe that it is fit for nothing else. Indian corn is a better food than a large proportion of the people in Central Europe are using, and if they will substitute it for their present rations it will increase the demand. Just now, however, it is not needed to have a larger demand for corn. There is a short crop in this country, and its price for another year is likely to be as high as the price of wheat.

A REPORT of the insanity of Queen Liliuokalani of late obtained some slight circulation, but it has not been verified, and what are called her faculties are, doubtless, much as they were before her deposition. The Sandwich island intellect at large is not of the highest order, not even that of its sovereign, and the shock of losing her throne may well have disturbed for the time being the mental equilibrium of her dusky island majesty. But she ought to be comforted and restored by the consciousness that neither her throne, crown nor sceptre was ever within the having, being always at the mercy of foreign intrigue or domestic violence, and she is much better off without them.

WHEN New York has annexed as many of her neighbors as possible she will have a population of 2,900,000. And when Chicago, in due course of time, overtakes that number New York will feel obliged to annex and take a census of the oyster beds in the Atlantic ocean.

A TROLLEY ear run through the streets of Jerusalem. Jeremiah must have had some idea of this when he uttered his voice and predicted the judgments which the future reserved for the punishment of Israel.

THE COLLEGE GIRL WHO JOINS A SECRET SOCIETY.

Some of the Ordeals She Is Called Upon to Face—A Model Chest for Napery—Height of the Ridiculous—Sashes and Throatlets.

## Joining the College Society.

If she is rather good looking, prosperous and bright the freshman may enter college with an easy mind. Girls of that type are promptly accepted as desirable acquisitions to society by the upper classes, says the New York World, and in some colleges "they are violently rushed." That means that the girls from the other classes show a flattering fondness for her presence, seek her out at all times, shower courtesies upon her and warn her against rival societies. No sooner does she accept an invitation than she discovers that she was not much more to either society than the doubtful voter is to the political party that tries to win his vote. She finds that she is a very ordinary person indeed. The older members of her own society treat her with a sisterly kindness very different from the court they paid to her before. All this tends to make the freshman humble again, and is undoubtedly very good for her.

The awful rites by which she is made really a member of the society which she decides to accept are never divulged to the public. With what vows she rivets herself to secrecy, she never tells. What ceremonies impress her with a sense of the awesome responsibilities she has undertaken, no one ever learns. The popular impression, however, gathered from the chance words she lets drop, indicate that the rites are gruesome in the extreme. The uninitiated pictures a large, dark hall, lit dimly by a few ghostly lights, peopled by a strange body of beings, clad in clinging robes like shrouds with black masks concealing their features. Into the silence and chill of the room the blindfolded candidate is led with becoming solemnity. Ghostly voices speak to her; she is commanded to do strange things. She is told to repeat poems of which she has never heard, and shrill, demoniacal laughter tumults her failure. She is branded with burning irons which turn out to be ice. She is made to climb and climb ladders which do not exist, and fendish voices mock at her lack of success. Maybe she is bidden to ride the goat. At any rate, these are the rites the public pictures her as undergoing, and even the uninitiated are able to guess that a banquet concludes the ceremonies and that there are toasts and society songs and the next morning various freshmen appear wearing important looks and little gold badges.

## Model Chest for Napery.

A country woman up to date gave us some clever suggestions about napery.

She kept her generous supply in a wooden chest, about one yard long, two feet high and two feet wide.

The chest was placed in the embrasure of a dining room window and served also as a window seat. It was made of pine, finished with yellow enamel paint ornamented with extensive brass hinges, handles and key hole. A flat hair cushion covered in gray Matteau chintz fitted its top. It moved easily upon rollers, and opened readily to the insertion of the key kept in the good woman's possession.

A wooden tray five inches deep greeted the eye inside. This held napkins, doilies, carving cloths and centerpiece. Beneath was ample space for a good assortment of table linen used in the home. The bottom of the tray and that of the chest was nicely padded with a satchel bag made of yellow cheese cloth perfumed with lavender andorris root.

Such a chest is readily made out of a pine box, and its position in the dining room has the extra advantage of being directly at hand in case of emergency; or upon the advent of an unexpected guest.

Housekeepers usually have a care to expense; they set their dinner table with fresh napery and use the same for the breakfast and luncheon following. The digestion is usually weak, after the night's inactivity, and one likes to be greeted in the morning with fresh napery, whatever its quality may be, glassware and silver that sparkle from hot water and ammonia, crisp fruit, invigorating coffee and hot rolls, as a stimulus to the day's work.

The laundry will attest that frequent washing of slightly soiled napery is much better in results than hard washing of really dirty linen occasionally.

For breakfast and luncheon napkins our good woman tells us she uses unbleached muslin. Suitable quality may be purchased for six cents a yard; one yard will make nine napkins of useful size.

Breakfast napkins have an inch hem, hemstitched about their edges. A half inch inside the hemstitching threads may be drawn, after which a flat needle will overlap the remaining threads of the material, producing a decorative border. This is the simplest process of drawn work, and easily mastered. Luncheon napkins may be fringed, the fringe being overhanded or caught in bunches by means of needle and thread for durability. An initial outlined in one corner finishes a napkin nicely.

Cloths to match these napkins are attractive made of Ozenburg, which is as cheap and as durable and comes in greater width than the unbleached muslin and matches it well in texture and surface.

Freshly laundered and daintily kept, such homespun napery will have a charm of its own, for it is a pleasure to use and to touch.

The hostess explains that being of German extraction, since her girlhood she has been accumulating and embellishing for her own future household linen, towels and napery, feeling that anything so closely approaching the household needs as these are best and most delicate when providently prepared against the future. This had been her training. She added that, while living in the country, each Sunday, she brings forth the best of her home and her harder for general family use, and saves nothing better "for company," as she wishes to rear her children in touch with the very best that she knows. That later, when they go into the world, they will not underrate the simple home and its tender memories and sacred associations, because overruled by finer qualities.

Economy in household matters must rise from judgment, and in its pursuit a wise wife and mother will not forget that the familiar associations about the home are very educating.—St. Paul Pioneer Press.

## MY JO, JOHN.

BY HELEN R. MATHERS.

### CHAPTER XIII.

Mr. and Mrs. Fletcher were people of great distinction in their line, and the few friends that they had made in town (both being country folks), occupied a high position in the households they had condescended to enter.

Always careful to keep up appearances, Martha never paid visits without Fletcher, and once arrived in town she was at her wife's elbow to make inquiries without revealing the fact that she was a forsaken spouse, engaged in the ignominious task of trying to catch a runaway and bring him home.

For that he had run away from her and the dullness at Pigeonwick, and his own heartache about his master, at last, Martha had no manner of doubt, and a strange doggedness that had lately showed in him, dashed upon her now as a quiet, steady determination to go to the devil in his own way, and in his own time, unhindered by her influence or any attempts of hers to stop him.

His master had been his idol; his one care on earth, and he had missed him and fretted after him like a mother after her babe, and with his object in life gone, he had become first hard, then desperate and now he did not value his own life and character at two pence.

Then indeed Martha's heart awoke, and howled for her Fletcher, and something better still awoke also, the determination to save him from himself, whether he would or no, a determination that animating the breasts of all husbands and wives would save three parts of the piteous tragedies on earth.

So, when he had established herself in a modest lodging, Martha cast about in her mind how to begin.

Fletcher was not a man of low haunts, and she knew of none in which to look for him, and though it was scarcely likely that, when he eluded her, he would look up their joint friends, it was possible that he might have been seen about in town by one of them, so with the utmost care Martha dressed herself out for the round of visits she intended to make.

A good many families were still out of town, but November had also brought a great many home—home to the darkness and the fogs and the universal barefacedness of life under impossible conditions of health, all cheerfully endured for the gratification of that greengrass instinct which crowds mortals together in breathless masses, and makes us shun the moor and the country side they must tread alone.

But immediate inquiry for "Mr. Fletcher" on Martha's appearance, immediately convinced her that he was not "in evidence" anywhere, but that, as she expected, he "lay low," and it would be a clever Brer Rabbit indeed who unearthed him. Martha's excuse for his non-appearance was simple enough. He was in the country, a fact that excited no comment in the minds of these lords and ladies of plush and satin, who would have liked the Fletchers better had they not been so sparing in their allusions to "our people."

So when Martha had quietly exhausted her visiting lists without results, she had only herself to fall back upon, and very dull she found it, with her occupation gone—the occupation of sharpening her wits and tongue at Fletcher's expense, her duties to Mrs. Anderson being a matter of quite secondary consideration. She missed those duties now, and had that miserable feeling of idleness that in one accustomed to work is the most demoralizing and hopeless of sensations, and something very like despair began to settle on Martha's soul as the days went by—and still she had not obtained the smallest clue to her husband's whereabouts.

But one day as she sat in her little room idle, with her stout heart beginning to waver in her breast, the thought struck her that Fletcher might not be in London at all, but in Scotland with his master, or gone abroad with some new master, instead of starting at full gallop for perdition.

And then she remembered how he had looked lately, and of one or two things he had let drop, and she knew the heart of the man was too heavy and broken within him to accept service under a new master, and she never forgot that, steady as he was, he came from a family of ne'er-do-weels, who drank hard, lived hard, and usually died in most disgraceful fashion.

She had known all this, yet she had never spared him the lash of her tongue all the same, perhaps if she had been better to him he would not have fretted after his gentle master so much or at any rate would have turned to her for comfort and sorrowfully as her mistress had confessed her faults of temper to her own heart, this stubborn woman began to confess hers, and in long hours of doubt and wretchedness formed the doleful resolve that if

ever they came together again she would be a perfect Griselda—not that she had ever heard of a Griselda—and being quite unaware that Grisels were born not made, for nature has decreed that a woman can never be anything but herself.

Martha could scarcely eat, barely sleep, and keep still not at all, so in her decent black, with a thick veil over her comely face, she tramped the streets, north, south, east and west, and late one night as she came down the Commercial road, heaven, or good luck, or kismet, came to her aid, and tumbling out of a public-house Fletcher almost fell into her arms.

With a sob, she caught him, and held him fast.

"Tim!" she said, "Tim! I've found you! I've found you!" and kissed him like one gone mad for joy.

He was in rags, his face dirty, his stubby beard and hair unkempt, but he was the most delightful sight to her eyes at that moment that the whole beautiful earth could have afforded.

"Martha!" he said in amazement.

"You've taken to drink," she said, in his ears. "I feared it—it's in the blood—and you so troubled about master, and worried by my horrid temper and all—it's done for you, my poor Tim—but only just for the time being, and you'll pull round again. If you've spent all your money, I've got some—and now you'll come along home with me, Tim," and she drew her ragged, soiled arm through her own, and led him tenderly away.

But Tim was not drunk, though he let her think so, confirming the idea as he actually stooped down and kissed her of his own accord.

### CHAPTER XIV.

Captain Dewar had gone to Monte Carlo. Mamie had been led to friends in Devon, the Fletchers vanished into space, and Mary said to herself that it was a general stampede, as she walked through the drifting leaves, in the calm November air, noting the gripping touch of Frost's fingers on autumn's lingering treasures.

Mamie had begged Mary to go with her, these friends of one were friends of both sisters; but she would not.

"At every tub stand on its own bottom," she had said laughing. "Next year, perhaps, I shall make new plans—but I don't know. I can't go out of England till Tom has left Oxford, and I will not allow him to break up his career because I cannot support loneliness, and my own thoughts."

And Mamie had sighed, thinking that sometimes loneliness better than an enforced companionship with a tailor's dummy of a man, in the whole of whose well-proportioned body was a mind of such pigmy proportions that it could scarcely be dignified with the name of a mind at all.

And to-day Mary's heart, at first so stagnant and then vaguely soothed by the petting and cheerful society of her sister, was feverishly awakening again to torment, and an omen of evil kept step with her as she walked affecting her with a physical sense of coming misfortune. She tried to thrust it from her, asking what worse could befall her than had befallen already.

Tom was safe, she had just heard from him, and she had no one to care about but Tom now.

Suddenly she stood still in the middle of the lane, its steep banks thickly clothed with fern tufts with gorse, and capped with rich winter-bush of holly, its fruit just changing from green to red, and lacking the vivid, audacious coloring of its neighbor.

Holly . . . and in six weeks it would be Christmas Day—the first Christmas Day for twenty years that she had not spent beside him.

"Peace on earth, good will toward men . . . the words rang mournfully and appealingly in her ears. What had she done? Oh! what had she done?"

She had tried, with all her heart, soul and strength, to rescue her husband—had she not suffered temper, and pride, and the unforgivable slight to petty, miserable self, to drag her from the path of duty, and leave him in the slough of despair alone?

She had been ashamed of him—yes, ashamed. At Euston, it had seemed a slur on her taste that she could ever have loved, and married, and fretted herself to fiddling over such an unkempt, unself-respecting creature!

She had been ashamed to say to Captain Dewar, "That is my husband," but to day alone, face to face with the conscience that she had deliberately thrust into the background all these months, she knew herself for a woman who had signally failed in her duty, and who had no right on her knees, or in a church, or anywhere with those noble souls, who forgive others their trespasses, even as they prayed God to be themselves forgiven.

She stood still in the midst of a pearly mist that closed round her suddenly like a shroud, with a vivid sense of awful isolation, much as though she had been buried alive, and wakened to find herself alone, with the sound of once loved footsteps and voices passing over her head.

"O my dear," she said, below her breath, "for one touch of your hand or mouth, one moment with my arms round your neck . . . and you might be as shabby, and old, and miserable as you liked, I should love you, love you, love you, and in your heart you have loved me best, all along."

For a moment the fog lifted, and showed a timid hare skirting the

hedgerow, hurrying round to her family, no doubt, as fast as she could go.

"That was what Mamie meant," she went on, with a sudden change of thought, "when she said that some men rubbed up their farthings to look like gold, and offered them to a woman, and others kept their pure gold so dull that it might pass for copper, but a wife got to know the real value of what a man gave her. In time, she meant that the pure gold, all the gold of his life, was mine and the glittering copper hers. And the outside of a man, his very name even, does not matter—it is the heart. That is the man. And no matter what my poor fellow might have done, what follies and errors he may have fallen into he is too good in the main to have strayed far from the right path and I am going to look for you, John, to look for you, and find you."

She walked buoyantly on, unchilled by the slinging mist so warm was the heart-fire within her, and Mary could walk quickly enough now, for restless days and sleepless nights had given back to her the figure of a girl, and into her face had come a new and spiritualized beauty that made her younger by ten years.

"I think I can understand it all now," she said to herself, "what a woman may be driven to after all the weakest man is stronger than the strongest woman—he is self-sufficient, he has no ill-health, no nerves (anybody could tell by the way women are made that providence isn't female), while she without him she is nothing. She has no one to think of no one to provide for—and men are nothing but grown-up children, after all."

She went into the pretty, low house—in summer a bower of trellis-work and roses—with a light step, and found the rose shaded lamps inviting and cheerful after the mist and loneliness without.

A long figure rose from a lounging chair, as she came in, and seized her in its arms—it was Tom.

But even while he kissed her she pushed him back with both hands, and looked in his face.

"Your father!" she said, "you have brought me bad news!"

The revulsion of feeling was too great, after the resolve of the past hour, and she would have fallen if he had not caught her.

But she did not faint, strong-hearted women never do, they only suffer agonies that the weak mercifully escape by unconsciousness, and in a few seconds she said:

"There is not much to tell, mother darling," said Tom pitifully, his own face telling far more than he knew: "only we can't find father, and we are afraid."

"That he is dead," said Mary quietly, "and, if so, I killed him."

"I don't believe he is dead for a moment," said Tom energetically; "but we are afraid that he is living somewhere on very narrow means."

"Starting, you mean," said Mary, throwing her costly cloak from her as if it burnt her.

"We hope not," said Tom, gravely, "but we have found out, Fletcher and I, and Mr. Goldworthy has helped us a little; that at the time you and he separated, he was an entirely ruined man. All his private fortune was gone and after you left, everything was sold at Harley Street, including the lease, and the money for that vanished likewise."

"But he had his half pay!" cried Mary, whose mind was recoiling at the modest luxury in which she had lived during the last six months.

"That is gone too, or rather, he does not receive it. He has assigned it to his creditors."

"What creditors?" said Mary. "Do you mean Lady Blanche's creditors?"

"No—his own. He seems to have speculated ruinously under Lady Blanche's auspices, but curiously enough only he was ruined, not her exceedingly smart ladyship."

### LOST FOR TWENTY YEARS.

A Valuable Stone Is Recovered in a Strange Manner.

By a curious combination of chances—a diamond that was lost more than twenty years ago at Birmingham, England, has been discovered, and is now in the hands of the chief constable. Some days ago one of the workmen in the employ of Messrs. Taunton, safe manufacturers, was engaged in repairing a safe and came across a piece of paper, in a crevice, in which was a large diamond, estimated to be worth at least £100. The condition of the paper indicated that the stone had been undisturbed for a long time, and the finder considered he was entitled to what he had found. Some inquiries were afterwards made, which resulted in the discovery that the owner of the safe bought it four years ago from the late Mr. Davis. Mr. S. J. Davis, the son, explained that some twenty years ago his father gave his mother a huge diamond, which she placed in a piece of paper with the name of her son, and then deposited it somewhere for security. She hid it so effectually that it could not be found afterwards. The piece of paper in which the diamond was wrapped does bear the name of Mr. Davis, and there is little doubt the stone belongs to him.

A Western Use for It.

"Ah, but this is such a flat, ugly country. England has such beautiful scenery of valley, hill, and dale," said Ludgate Hill, of London. "Yes, if she was only a little nearer we'd float her over to Chicago and make a park of her," said Mr. Packingham, of Chicago—Puck.

# ROYAL Baking Powder

Absolutely pure.

## in Highest of all in Leavening Strength.

### —U.S. Govt. Food Report.

The official report shows Royal Baking Powder chemically pure, yielding 160 cubic inches of leavening gas per ounce of powder, which was greatly in excess of all others and more than 40 per cent. above the average.

Hence Royal Baking Powder makes the lightest, sweetest and most wholesome food.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful, and acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. ## MEAD'S PILLS.

To all appearances winter is here, and its arrival was unannounced to that degree that many of us have not gathered all of our garden's sars.

The party given in honor of Nell Taylor's 24th birthday, which occurred on the 7th inst., was well attended, about fifty persons participating.

A craze to move seems to have attacked our people, as no less than five families have either moved in or out of our village within the last two weeks, and we hear more are intending to make a change.

Burt Hughes occupies Harry Kings house; Wm. McRoberts has sought shelter under his own roof and H. S. Burdick has done the same; Frank Taylor will live at Mrs. Dolittle's this winter and Chas. Rogers will abide in this city.

C. A. DOWNER, P. M.

We note that Hutton & Son now also  
have the Diamond Crystal salt on sale.  
Remember we will pay 10 cents into  
the Methodist ladies' improvement  
fund for each box cover returned to  
this office before January 1. Only one  
cover to come from a family, however.  
The salt sells for 10 cents per box.

In Detroit last Sunday Rev. J. M.  
Patterson of the Westminster Presby-  
terian church, Rev. Dr. W. S. Davis  
of the First Congregational and L.  
Morgan Wood of the Plymouth Taber-  
nacle, preached on the same theme,  
"Lessons from the Election," that the  
Presbyterian pulpit here rang with.

E. Charter says he did not write the  
letter which appeared in last week's  
RECORD asking for a lady correspon-  
dent, and upon being shown the com-  
munication bearing his signature pro-  
nounces it as being Byron Thompson's  
chirography. The RECORD published  
the article in good faith supposing it to  
be all right.

Rev. Mr. Lewis of Ann Arbor who  
preached in the Presbyterian church  
here a few weeks ago will occupy the  
pulpit again next Sunday morning  
and evening.

Wednesday evening Miss Lucy Kreg-  
er and Erle Hastings were quietly  
married at the home of Edward Has-  
tings 14 Cady street. Rev. J. M. Bel-  
ding tied the knot.

Next Tuesday evening Mr. Belding  
would like to meet at his home all  
who desire to study "Antony and  
Cleopatra." He will deliver the intro-  
ductory lecture that evening. Merritt  
& Co. will order the text-book. Rolfe  
at 56 cents and Haddon at 50.

We suggest to the republican party  
that they have no soft snap now to  
contend with, but have to meet one of  
the gravest responsibilities ever placed  
before them. They will practically  
have everything under their own con-  
trol after March next and they have  
made promises which the people will  
expect them to carry out. Every failure,  
every misdeed, all hard times  
etc., will be laid at their doors here-  
after the same as it all has been laid to  
the democrats in the past.

Tuesday's Tribune contained a Gay-  
lord item which has been worked over  
and re-told so many times that there  
is not more than a single truth left in  
it. The item is as follows with our  
corrections in parenthesis: "This vil-  
lage has a heartless joker. (Not so  
heartless after all.) He recently wrote  
a letter (a woman wrote the letter) to  
Miss Pickle at Northville which stated  
George Thurtle had been accidentally  
shot while hunting, (the letter stated  
killed by a falling tree while working  
on a railroad) and that she was wanted  
at his dying bedside. (The letter said he  
had died the previous day.) Miss  
Pickle had been keeping company with  
George and hurried to that place  
where she found George eating a boiled  
dinner, (it was 4:00 o'clock a.m.  
and George was in bed) and was in  
perfect health. (Correct.) The young  
couple hid themselves to the parson-  
age and were spliced." (They were  
married at the hotel several days later.

## Council Proceedings

An adjourned meeting of the common  
council of the village of Northville was held  
at the council room Thursday evening Nov  
8, 1894

Present President Hutton, Councilmen  
Burgess, Clark, Rayson, Wheeler and Dolph  
Absent, Sessions.

Minutes of last two regular meetings read  
and approved. The following bills were  
allowed and ordered paid

A. M. Whitehead nose couplings	\$5.00
E. S. Horton, sewer pipe work	\$1.19
Record pub. m'n and ord	3.30
C. L. Dubuar Lum. Co. lumier	6.19
B. G. Webster, work	2.00
Knapp & Yerkes, hardware	11.51
N. Fire Dept., drill, etc	8.68
F. N. Perrin, blacksmithing	1.00
Henderson-Ames Co. fire coats hats	65.20
R. Mooney, cleaning hall	1.00
Globe Furn. Co., lights	3.86
W. Board Bills	288.73
H. M. Drelap insp. w. wks etc	45.07

On motion the matter relative to the  
injuries received by Mrs. Larins on side  
walk was ordered referred to the village  
attorney by the side walk committee.

On motion the street committee was  
directed to put a new cross walk on Church  
street

On motion the side walk committee was  
instructed to have the walk in front of the  
Methodist church repaired.

On motion the side walk committee was  
instructed to repair side walks through the  
village as recommended by Chairman Wheel-  
er

On motion the clerk was authorized to  
give parties a second notice of twenty-four  
hours before ordering the water turned off.

Matter relative to refunding some of the  
water works fines was on motion referred  
back to the water board with power to act.

On motion the president and Dr. Burgess  
were authorized to ascertain by an engineer,  
or otherwise, how much fertilizer there was  
in the Argo pond to be removed.

The communication from W. H. Brigham  
relative to injury received on defective side  
walk was on motion referred to side walk  
committee to look into his claim for damages.

Council Adjourned,  
CHAS. H. JOHNSON, Clerk.

Brighton Express: "War is on be-  
tween the Plymouth Mail and North-  
ville Record, and people up that way  
are apprehensive that somebody is  
going to get hurt. Bro. Neal of the  
Record censured Bro. Gray of the Mail  
because the latter said in his paper  
that the bar or a certain hotel was  
'stocked with the choicest brands of  
liquors and cigars.' Bro. Gray returns  
the compliment and charges Bro. Neal  
with gambling for a rocking chair,  
winning it, and instead of taking it  
home as was expected of a Christian,  
sold it back and it was gambled for  
again and again."

Let's see if there isn't a mistake or  
two in this statement. (1) No war is  
on, no one is apprehensive and no one  
is going to get hurt. (2) The RECORD  
did not censure Bro. Gray. (3) The  
Mail did not accuse anyone of gam-  
bling. It only published a falsefied  
communication from a woman of this  
place. (4) We didn't win the chair  
(that's what made us mad) and there-  
fore didn't sell it back. (5) It wasn't a  
rocking and (6) it wasn't gambled for  
again and again either.

## TWO LIVES SAVED.

Mrs. Phoebe Thomas, of Junction  
City, Ill., was told by her doctors she  
had consumption and that there was  
no hope for her, but two bottles Dr.  
King's New Discovery completely  
cured her and she says it saved her  
life. Mr. Thos. Eggers, 139 Florida St.  
San Francisco, suffered from a dread-  
ful cold, approaching consumption,  
tried without result everything else  
then bought one bottle of Dr. King's  
New Discovery and in two weeks was  
cured. He is naturally thankful. It  
is such results, of which these are  
samples, that prove the wonderful  
efficacy of this medicine in coughs and  
colds. Free trial bottles at C. R.  
STEVENS' drug store. Regular size  
50c. and \$1.00.

## MEAD'S MILLS.

To all appearances winter is here, and its arrival was unannounced to that degree that many of us have not gathered all of our garden seeds.

The party given in honor of Nelt Taylor's 24th birthday, which occurred on the 7th inst., was well attended, about fifty persons participating.

A craze to move seems to have attacked our people, as no less than five families have either moved in or out of our village within the last two weeks, and we hear more are intending to make a change.

Burt Hughes occupies Harry Kings house; Wm. McRoberts has sought shelter under his own roof and H. S. Burdick has done the same; Frank Taylor will live at Mrs. Dolittle's this winter and Chas. Rogers will abide in this city.

Mamie Garfield, daughter of Mr. and Mrs. T. Garfield, niece of George Barnhart, 58 Dunlap street, died early Wednesday morning, aged two years. The funeral occurs today.

You will certainly never miss getting one of the superb water-color pictures which we intend giving to each of our readers as a Thanksgiving present. See description in another column.

Died, at her home, one mile east of New Hudson, Oakland county, Monday morning, Nov. 5, Mrs. Catherine Fawcett in the seventy-fourth year of her age, beloved mother of Mrs. Marvin Sloan.

Wednesday's Journal contained a good picture of the pretty young lady who publishes the Trenton Visitor, Mable L. Ayers. Mrs. A. is certainly a hustler as is shown by the bright newsy paper which she issues.

The Canadian Jubilee singers, ten in number, will make their first appearance at the opera house next week Thursday and Friday evenings under the auspices of the band and Fyworth League. They are first-class in every respect.

It would be an excellent idea if parents would visit the schools occasionally, thus manifesting their interest in and appreciation of the work of those who are educating their children. This is a duty that is too generally neglected.

"What Northville needs," says a correspondent, "is a good hustling produce buyer. In Walled Lake one day last week thirty-five loads of potatoes were unloaded at Decker's storehouse, besides a quantity of baled hay, beans, etc."

That was a delightful entertainment given by the ladies of the library association at the library Saturday evening. The attendance was exceptionally large; the singing and reading was good and the sherbet was, (if the ladies will pardon the slang,) simply "out of sight."

Frank Trotter has been employed as night watch by the various business places in town. It is a good idea and affords protection against fire as well as thieves. The first store door found open by Trotter was of one business firm who wouldn't subscribe towards paying for a night patrolman.

**DR. PRICE'S CREAM BAKING POWDER**  
MOST PERFECT MADE.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 YEARS THE STANDARD.

The advertised letters at the post office this week are for: George Wood. Mr. Maundant Williams.

C. A. DOWNER, P. M.

We note that Hutton & Son now also have the Diamond Crystal salt on sale. Remember we will pay 10 cents into the Methodist ladies' improvement fund for each box cover returned to this office before January 1. Only one cover to come from a family, however. The salt sells for 10 cents per box.

In Detroit last Sunday Rev. J. M. Patterson of the Westminster Presbyterian church, Rev. Dr. W. S. Davis of the First Congregational and L. Morgan Wood of the Plymouth Tabernacle, preached on the same theme, "Lessons from the Election," that the Presbyterian pulpit here rang with.

E. Charter says he did not write the letter which appeared in last week's Record asking for a lady correspondent, and upon being shown the communication bearing his signature pronounces it as being Byron Thompson's chirography. The Record published the article in good faith supposing it to be all right.

Prof. Barnhart of Grand Rapids has taken an interest in the drug business of his father-in-law, A. M. Randolph. The store is being overhauled on the inside, repainted, and will be restocked with a complete line of goods. We understand that Mr. Barnhart will put in an experienced man to look after his interests here.

Presbyterian church notes: Sunday evening the C. E's. will give for the state work. The local society is honored by having their pastor as secretary of the first district. There are no less than 3,000 young people under Mr. Belding's care. The tea tonight at the parsonage will be a pleasant affair. Everybody is invited.—Communion first Sunday in December.

Mrs. F. B. Park had the misfortune last Saturday to lose her pocket book containing \$60. She slipped the purse into, as she thought, the pocket of her wrap as she crossed the hotel dining room. At least she missed it soon after entering the bus for the depot, but upon returning within a few moments neither purse nor money was to be found.

Next week we shall commence the publication of a series of school notes written by the high school juniors and seniors. Prof. Bliss will offer a prize for the best production of any one week. Everything used will be published just as written. The points considered will be: General interest of items, phraseology, grammar, spelling punctuation and use of capitals.

The young men of the Baptist church will give an oyster supper at the WCTU hall Nov. 17. Supper served from five until nine. Every body invited. The young men will do both cooking and serving themselves. The boys have long known how to cook, in fact have been proficient; but undue modesty and fear of the tyrant woman have prevented their serving the public before.

We suggest to the people of all the churches that this year instead of any public Thanksgiving dinners each family have a jolly good home dinner. Then make up a family purse of 25c per head, as they gather around the bested turkey, and on the following Sunday, Dec. 2, drop the various amounts in the collection box. Not only will this be more re-munerative at a far less amount of expense and labor, but everyone will have a better time. Let the pastors advocate this and let us all try it for once.

We shall print a coupon in our issue of November 30 entitling every subscriber of the paper to a reproduction in colors of the great water-color picture "Which is the Sweeter?" painted by one of the most successful artists in water-colors. This superb present is copyrighted and cannot be purchased of picture-dealers at any price. It is 12½x17 inches in size, and will give the finishing touch to even the most expensively decorated apartment; and when hung in a simple room this picture imparts an artistic effect, not only pleasing to the eye, but refining in its influence. Be sure to get a coupon entitling you to this magnificent gift.

Any persons wanting fresh fish can get them at my place any evening except Saturday and Sunday.  
521f W. J. LAFRAUGH.

Rev. Mr. Lewis of Ann Arbor who preached in the Presbyterian church here a few weeks ago will occupy the pulpit again next Sunday morning and evening.

Wednesday evening Miss Lucy Kregger and Eric Hastings were quietly married at the home of Edward Hastings 14 Cady street. Rev. J. M. Belding tied the knot.

Next Tuesday evening Mr. Belding would like to meet at his home all who desire to study "Antony and Cleopatra." He will deliver the introductory lecture that evening. Merritt & Co. will order the text book. Rolfe at 56 cents and Handon at 50.

We suggest to the republican party that they have no soft soap now to contend with, but have to meet one of the gravest responsibilities ever placed before them. They will practically have everything under their own control after March next and they have made promises which the people will expect them to carry out. Every failure, every misdeed, all hard times etc., will be laid at their doors hereafter the same as it all has been laid to the democrats in the past.

Tuesday's Tribune contained a Gaylord item which has been worked over and re-fold so many times that there is not more than a single truth left in it. The item is as follows with our corrections in parenthesis: "This village has a heartless joker. (Not so heartless after all.) He recently wrote a letter (a woman wrote the letter) to Miss Pickle at Northville which stated George Thurtle had been accidentally shot while hunting, (the letter stated killed by a falling tree while working on a railroad) and that she was wanted at his dying bedside. (The letter said he had died the previous day.) Miss Pickle had been keeping company with George and hurried to that place where she found George eating a boiled dinner, (it was 4:00 o'clock a. m. and George was in bed) and was in perfect health. (Correct.) The young couple hid themselves to the parsonage and were spliced. (They were married at the hotel several days later.)

# STATE NEWS NOTES.

## A CHAPTER OF THE DOINGS OF MICHIGANDERS.

The Supreme Court elucidates its recent decision on illegally marked ballots.

The John Shaw and Crew Went Down.

State Sunday School Workers—Briefs.

### The Entire Crew Lost.

What was evidently a large steam barge has foundered off Sable; her hull and deck, mangled. A terrible fight was waged during the night, the barge was wrecked. The boat is broken in, and several pieces of the pilot house is gone. The hurricane deck and the raft forward of the pilot house were washed up in one place, the after hurricane deck with the whistle pipe, wire and whistle in another place and the port bulwark and parts of the main deck in still another place. The report is that some of the crew having reached shore. Considerable of the wreckage is covered with ice and snow and no name can be found on the wreckage. Most of the wreckage was washed ashore three miles south of Fish Point and five miles from East Tawas. About 4,000 cedar ties and a lot of timber also came ashore.

From the appearance of the wreckage the unknown steamer must have been a large classed vessel, carrying a large deck plank of heavy material. It is now thought that she was a Canadian steam barge. Fishermen report the gale was the worst for years, and that even had the crew taken to small boats they could never have reached the shore.

LATER—It is now believed that the wreckage which came ashore was from the W. Wilson, which was wrecked off Thunder Bay some days previous and which was abandoned by the crew. It is thought that the storm drove away the Wilson's upper works and cabin and scattered the pieces along the shore. There is no vessel known to be missing and it is fully well settled that this explanation is correct.

### The Supreme Court and Marked Ballots

The supreme court has spoken again and declared that the erasure of a name does not invalidate the ballot. An application for a rehearing in the Scott v. Glaser case was made and granted. The court filed a memorandum clearing up the misunderstanding relative to the case. It is a decision that the state definitely abhors a voter crosses a name on his own ticket and puts a cross in front of a name on an opposing ticket. He does not lose his vote. All such ballots, the courts say, should be counted. The court will pass on other important features of the election law. In their application for a rehearing the lawyers claimed that the decision had rendered inoperative the ballot law of 1891 and would lead to practically disenfranchise a large number of people. The court, however, in its decision, actually passed on the question of the ballot law and decided that the court has decided to take the case under consideration again.

### Did the John Shaw Sink?

The steamer John F. Eddy with the schooner John Shaw were crossing Saginaw bay when the schooner was wrecked in the heavy seas and a blinding snow storm. The schooner broke away and in the storm the Eddy could do nothing to help her. It was noticed that the Shaw was in a serious condition and it is believed that she went to the bottom with all on board. The Shaw is owned by the Sulphite Pulp Transportation company, of Detroit, is valued at \$10,000 and is insured. Her captain's name is Andrew G. Davidson. The rest of the crew shipped at Buffalo. There are six men and a female cook on board.

### Two Children Burned to Death.

Two children of Alfred Hindstrom, of Chassell village, were burned to death. The mother was milking the cow and had left her little ones in the house. When she returned the building was all in flames. The elder was a boy about 3 years old and the younger a girl 18 months. It is supposed that the fire was caused by the explosion of a lamp. The frantic mother had to be forcibly restrained from rushing to her own destruction in the vain attempt to save her children. The rest of the town was saved with difficulty.

### Ludlow Acquitted.

The trial of Ludlow for the murder of Ira Hurd at Allegan resulted in his acquittal. The jury was out less than two hours when the verdict of "not guilty" was returned. The crowd went fairly wild with their yells. Mrs. Ludlow, who was sitting beside her husband, fainted away. The testimony against Ludlow was mostly negative. Mrs. Hurd will now be tried and it is universally predicted that she will be discharged.

### Baptist Congress.

The twelfth annual Baptist congress was held at Detroit. This congress is a gathering of the leaders of Baptist thought and work and is each year productive of many valuable thoughts and ideas. President A. G. Stocum, of Kalamazoo, presided over the meetings. A number of splendid papers were read and discussed. One of the features of the congress was a reception at the home of Rev. L. H. Trowbridge.

### Ired McDowell, of Big Rapids, Succeeded at the Traverse City Asylum.

A. Brinkerhoff, aged 76, fell upon the sidewalk at St. Johns and broke his arm close to the shoulder.

### A. E. Osborn, of Three Rivers, Lost his Arm, his Hand Caught in the Machinery at the Paper Mill and was Drawn in between the rolls. It had to be amputated just below the elbow.

F. N. McDowell, a patient in the Northern Asylum at Traverse City, whose home was at Big Rapids, succeeded in hanging himself with a towel in the wash room. He had never shown a suicidal disposition. The coroner's jury returned the institution for the insane.

## State Sunday School Convention.

The state Sunday school convention opened at Grand Rapids with a monster mass-meeting which filled Lockwood hall to overflowing and hundreds were turned away. There were fully 1,800 delegates in attendance at the meetings, which were the largest ever held in the state. President George Parsons, of Waterford, presided. Mayor Fisher welcomed the guests to the city. Gov. Rich spoke, favoring the church and Sunday schools as a matter of public economy, if for no other reason. Gen. O. O. Howard, the recently retired major-general of the United States army, the well known Christian soldier, was the card of the convention, and his speech was most characteristic of the man. He favored the united effort in church work between the denominations and the elimination of individual and church selfishness. He praised the work being done by the young people's associations in the churches.

### Gov. Rich Says Let Us Give Thanks.

Gov. Rich has issued the following proclamation:

In accordance with the time honored custom, I hereby appoint Thursday, November 29, as a day of thanksgiving and prayer. On that day the people of this state are requested to desist from secular pursuits and assemble at their respective places of worship and return thanks to the giver of every good and perfect gift for the blessings they enjoy. When gathered around the family table, loaded with the good things of every clime, do not forget the poor whom we have always with you, and to whom a substantial remembrance on this day of peace and good cheer will soften to some extent the hard lines in which their lives are cast.

### MICHIGAN HAPPENINGS.

Peck, Sanilac county, is talking of leaving a village incorporation.

A pump factory employing from 25 to 50 men will be located at Alpena.

Paw Paw's fruit evaporating works used 25,000 bushels of apples this season.

Belding has another diphtheria scare on, and one death from the disease has occurred.

Anton Kunzel fell down a flight of stairs at Grand Rapids and broke his right hip.

The state fish commission has decided to restock Green Bay with whitefish.

Frank Beihler, of Stanwood, was shot in the leg by another hunter near White Cloud.

Dennis O'Brien was in a runaway accident at Grand Haven, and died from his injuries.

The Richardson furniture works at Charlotte, idle for many months, will soon start up again.

The public schools at Ithaca have been closed on account of the prevalence of scarlet fever there.

Union City society young ladies will give a musical soiree soon, the proceeds to be devoted to charity.

The amount of salt inspected in this state has declined from 3,383,253 barrels in 1891 to 2,774,055 in 1894.

A hunter in Montmorency county killed a white deer and has had it mounted. Such an animal is very rare.

An unknown man was killed at St. Ignace by the express from Duluth, while rounding a curve entering the city.

Lewis Burney, of Marine City, confessed a heinous crime against his step-daughter and got seven years in prison.

The \$70,000 appropriation for county buildings for Berrien county to be located at St. Joseph was carried by 969 majority.

The diphtheria epidemic at Coldwater has subsided, and the school board has concluded to open the public schools.

The trial of Mrs. Ira Hurd, of Allegan, for murdering her husband, has been continued until the December term.—Bail \$10,000.

William J. Spear, of Vassar, has been appointed trustee of the Michigan School for the Deaf to succeed James A. Trotter, resigned.

Michael Wilson, the farmer near Adrian who horsewhipped his 90-year-old mother, was sent to the Detroit House of Correction.

A collection of Indian relics and other articles of historic importance will be prepared in Branch county and placed in the library building at Coldwater.

Hartford residents have voted to purchase the opera house block at that place and transform it into a township building.

Edwin Camp and C. J. Jackson, of Britford, both of whom tried to suicide by shooting themselves, are recovering.

Kalamazoo's electric lighting bonding proposition to issue \$40,000 to build an electric light plant was carried by 500 majority, but the opponents claim the election was illegal and will enjoin the council from making a contract.

The report of the salt inspected in the various counties for October is as follows: Saginaw, 51,407 barrels; Bay, 43,751; Huron, 3,000; St. Clair, 68,321; Iosco, 12,217; Midland, 5,059; Manistee, 107,770; Mason, 67,388; total, 353,902 barrels.

The body of a stranger about 50 years old was found in Mt. Calvary cemetery at Grand Rapids. In the pocket was a note reading: "A stranger in the city, no work and no friends. God alone is my friend. John T. Girod."

John Litcomb, yardmaster of the Michigan Central at Niles, was switching cars on the repair track. In climbing down from the top of a freight car he slipped and fell, his right leg going across the track and was run over. It was amputated near the knee.

Edward and Peter Alex, of Marquette, are missing, and it is supposed that they have been drowned in Lake Superior. The last heard of them was when they were fishing in a small sailboat. The boat has been found upside down upon a rock with her upper works gone.

State Land Commissioner French offered at auction 10,000 acres of abandoned homestead lands, and 1,200 acres of land forfeited for the non-payment of interest. The bidders were few and but 800 acres were disposed of at an average price of 25 cents per acre.

## NEWS OF ALL KINDS.

### EVENTS OF GENERAL INTEREST AND IMPORTANCE.

The Japanese Capture Port Arthur and Two Other Chinese Strongholds.—The United States Offers Her Services as a Mediator for Peace.

Port Arthur Surrendered.

London: A dispatch received from Shanghai says that the Japanese captured Port Arthur after meeting with a feeble resistance on the part of the Chinese. Port Arthur was bombarded previously to its surrender. The Chinese laid down their arms and yielded themselves prisoners of war. The Chinese commanding officers abandoned Port Arthur during the night of November 6.

Washington: The Japanese legation had not received official confirmation of the capture of Port Arthur. They say, however, that if Port Arthur has in truth fallen it will be the most disastrous blow that China could have received. Port Arthur has been pronounced impregnable by the first naval experts of Germany. Li Hung Chang has built there modern gun factories which rival those of the Krupp.

It is a city given over to the assembling and making of modern war material. It is in some respects similar to the Brooklyn navy yards, although 10 times greater in extent and strength. Moreover, Li Hung Chang had centered there the bulk of the Chinese army. In any event, it is said that great quantities of war material and implements for making them must necessarily follow the capture of Port Arthur. It is pointed out, however, that the capture if effected as planned, would have the Chinese fleet dislodged. The Japanese soldiers would undoubtedly make the place a depot of operations, and it would also afford a protected shelter for the Japanese fleet. The gun factories which have been the chief reliance of Li Hung Chang would henceforth be at the service of Japan.

Yokohama: Advice from the armies commanded by Field Marshal Count Oyama, now operating on the Eastman peninsula, confirm the reports of Japanese victories at Chun-shia (Kinchen) and Taitenwan. The Chinese forces at Kinchen numbered 1,000 infantry and 100 cavalry. The Chinese army and 150 cavalry. The Chinese army and 150 cavalry.

London: A dispatch from Tien Tsin says that the emperor and his court are preparing to leave Peking for Sing Janfu (Tsing Kiang run) in the province of Kiangsu, about 15 miles northwest of Shanghai. It is reported that the emperor is suffering with a fever and is confined to his bed. The correspondent of the Times at Chefoo says that Li Kung, with several military leaders, abandoned Port Arthur on November 6. This indicates an intention to surrender. There was an ample defending force both at Taitenwan and Port Arthur, but no general declaration of affairs. Chaos prevailed everywhere. A panic prevailed at New Chang. Military leaders and refugees are fighting for passages on outgoing steamers.

Shanghai: The Chinese army of the north has retreated to the mountains where the soldiers are reported to be starving and suffering severely from cold and exposure. The Japanese army is reported to be encamped at Feng Whang Cheng. The Japanese are pursuing 15,000 Chinese, mostly raw recruits. Admiral Sir E. R. French considers that Port Arthur will maintain its position for some time, but the scene of the last engagement of importance between the Japanese and Chinese. The latter are not expected to make much resistance.

Prospects of Peace.

Tokio, Japan: United States Minister Dunn has communicated to the Japanese the substance of an important military proposition received from Secretary Gresham at Washington. It suggests that if Japan will join China in requesting the President of the United States to act as mediator in settling the war he will exercise his good offices in that capacity. A similar proposition has been sent to China. The proposition presents a grave question to the ministry. They are urged on one hand by the popular sentiment to continue the war and crush China. On the other hand European powers are threatening to intervene. As between these conflicting influences the ministry find great difficulty in reaching a decision on the American proposition but the prospect is that it will be accepted.

Washington: The United States has not offered herself as a mediator, but has suggested that both China and Japan should be invited to accept the mediation of the United States and that Japan will do so after she is assured of the indemnity China will yield. China has already gone so far as to notify this government that it will join Japan in recognizing the complete independence of Korea which would result in the Japanese evacuation of Korea and the re-establishment of the former reigning powers. China has also made known to this government that it was willing to pay cash indemnity to Japan. It has stated how much the indemnity will be and this promises to be a serious problem. Japan has expended nearly \$150,000,000. The situation now presents an interesting game of international diplomacy. On one hand the great powers of Europe are threatening to forcibly come between China and Japan, while on the other hand the United States offers to come between them as a peace-maker. As between the two propositions it is not doubted that the two contending powers will look to the United States.

The Detroit, Bay City & Alpena railroad was sold at Alpena at public auction to Drexel, Morgan & Co., of New York, for \$1,000,000. Drexel, Morgan & Co. represent the bondholders and were the hands of Receiver Don M. Dickinson a year ago. There will be no change in the management.

## A NEW JESSE JAMES.

### Mounted Bank Robbers Dashing Raid—Killed a Wounded Comrade.

Three masked robbers held up the bank at Sylvan Grove, Kas. The men rode into town on fast horses. They were heavily armed, which attracted every body's attention. They pulled their horses up with a jerk in front of the bank, and while one robber remained seated, holding the other two horses, the two companions entered the cashier's room to turn over what money he had, and to do double duty. He looked into the muzzles of both revolvers for a moment and then reluctantly complied with the demand. The meeting place of the building the robbers were in and rushing to the door opened on them as they were galloping away. The bullet lodged in the back of one of the fleeing men. He staggered in his saddle and swayed to and fro, and finally he fell heavily to the ground. His two companions pulled their horses up, and riding up to the prostrate man, deliberately fired several shots into his body and dashed away. When picked up the deserted outlaw was dead. Over \$1,500 was found on his person.

### SIX WERE KILLED.

An Express Train Runs Past a Waiting Place and Crashes into a Cattle Train.

Train No. 7, Baltimore & Ohio limited, coming west, ran into the first section of a fast cattle train at Rockwood, Pa. Six men were killed in the collision and several others badly hurt. All were trainmen. Both trains were going at the rate of 40 miles an hour, and came together while rounding a curve. Neither crew had time to jump or sound a warning.

The meeting place of the trains was Pine Grove, five miles east of the point of collision, where the express should have taken siding for the freight. For some reason the engineer of the passenger train ran past the meeting place. The express and mail cars on the limited were telescoped, and the heaviest vestibules of the passenger cars saved them from a similar fate. Fully a dozen cattle cars were piled up in the wreck, killing and maiming many of the dumb brutes.

"Jack, the Stranger" in Denver.

"Stranger" now, Denver is becoming as famous as Whitechapel, London, because of the mysterious murders of low women. It has just been the scene of another murder. A street was a No. 1575 market. A street was visited by the band whose strange hobby is to choke low women to death, and when he left the place he left a Japanese girl, who ran the place, with a corpse with the marks of the strangler's work upon her throat. This murder was committed in the same row of houses in which Lena Tapper and Marie Contas were strangled recently. The mode of her death was exactly similar. The excitement among the women of all fame in that part of the city where the three murders by strangulation have occurred rivals that produced by "Jack the Ripper" in London.

### Steamer Wetmore Wrecked.

The steamer W. L. Wetmore, coal laden for Milwaukee, was driven ashore in the gale near Cleveland Wis. The Two Rivers life-saving crew arrived by special train to try to save the crew. The schooner Brunette, which the Wetmore had in tow, was sighted off Manitowoc and the tug Arctic went and brought her in. The Arctic went and brought her in.

The Wetmore was owned by J. H. Palmer of Cleveland, as built in 1871, measures 319 tons and is valued at \$35,000. The bottom where she lies is supposed to be rocky and she is in great danger of going to pieces if the storm continues.

LIFE—The life-saving crews of Two Rivers and Sheboygan bravely went out to the wreck and safely brought to shore the entire crew of the Wetmore—13 people.

### Michigan Crop Look Fair.

The Michigan crop report for November gives the area seeded to wheat at 95 per cent of the area of one year ago. In condition, the growing wheat is reported at 91 per cent in the southern counties, 91 in the central and 100 in the northern comparison being with average year. The average condition is higher in all sections of the state than one year ago. Corn is estimated to yield in the southern counties and the state an average of 40 bushels per acre. Compared with a fall average crop, potatoes are estimated in the state at 52 per cent. Live stock is in fairly good condition.

### Haremeyer at Most Answer Questions.

Washington: Judge Cole, in the United States district court of the District of Columbia, overruled the demurrer in the case of John W. MacCartney, of Washington, and E. R. Chapman, of New York, brokers, who refused to answer certain questions before the senate sugar investigating committee, and the defendants were committed for trial. This was in the nature of a test case, and the decision was given by Haremeyer, Seale, and Seymour, who were recently indicted, and the newspaper men Edwards and Snrivers, who were first indicted, will have to stand trial.

### Cook Gang Held up a Train.

Passenger train No. 2 on the Missouri, Kansas & Texas railroad, was held up and robbed four miles north of Muskogee, Mo., by Bill Cook and 14 men. The information received is to the effect that the entire contents of the express car and eight gold watches being secured. One of the train's crew claims to have recognized Bill Cook as one of the bandits.

### Gov. Flower, of New York, Has signified his willingness to permit the attempt to bring to life a man executed in the electrical chair in order to settle the controversy as to whether the electricity or the autopsy which follows was the cause of the criminal's death.

The United States iron and tin plate works at McKeesport, Pa., will make an attempt to start up. The company has fitted up the old hotel near the plant and placed attendants in charge, which indicates that there will be no more brought in to attempt to run the works.

## A SHIP TO BE PROUD OF.

### The Mammoth American Liner St. Louis Lunched—Chartered by Mrs. Cleveland.

The magnificent steamship St. Louis of the American line, was successfully launched at Cramps' shipyards at Philadelphia. The affair was witnessed by fully 50,000 people. Mrs. Cleveland broke the traditional bottle of champagne on the bow of the ship as it glided down the ways, at the same time saying, "I christen thee St. Louis." In this instance was observed at Cramps' shipyard the champagne was of American manufacture. After the launch the invited guests to a lunch in the office of the superintendent, where President Cleveland made a short address.

The St. Louis is chiefly remarkable in that she is the first American-made liner built in the United States. She will be the pioneer in what promises to be a long and profitable career. The ship is built of steel and is the largest American-made liner yet built. She is 400 feet long, 45 feet deep, and has a draft of 24 feet. She has a speed of 18 knots, and a range of 10,000 miles. She is built for the route to Europe, and will be the first American-made liner to sail to Europe.

Ated 81 but Wants to Marry a Girl of 13.

Gen. Cassius M. Clay, aged 84 years, is having a vast amount of trouble at Richmond, Ky., in trying to be married to Doris Richardson, aged 13. His son, Brutus, is a very influential man in that county, and has persuaded the ministers and civil officers against performing the ceremony.

The old general being unable to get any clerical or civil authority to officiate at any price, announces that he and his protégé will go elsewhere to be married.

Gen. Cassius Clay is known throughout the country as "the old war horse of ante-bellum days." He has been one of the few influential southern abolitionists, and owing to his outspoken views was for years in constant danger of his life, and in fact killed three men in duels with bowie knives, because of his pro-slavery speeches. He was one of Lincoln's staunchest supporters and served as minister to Russia two terms.

He was for the man in politics, as he supported Lincoln, Greeley and Blaine, but opposed Grant. He is today a very erect strong and active, but takes no part in politics.

In a cave-in of a ditch north of Washburn, Ind., a man named Conn was instantly killed and J. W. Porter, of Huntington, was fatally injured. Two others escaped with slight injuries.

### WEEKLY REVIEW OF TRADE.

New York—Bradstreet's review says: The interest in the elections naturally tended to restrict the volume of trade particularly in the south, where it interfered with the business of the country. But within the influence of more reasonable weather and north-west conditions have improved. It is believed that the volume of trade in general will be increased in the near future. Chicago and St. Louis manufacturers and business men already report evidence of a better condition on the part of the country. The demand for foreign goods is increasing. ### NOVI LOCALS.

Chas. Rice is visiting relatives at Highland.

Miss Jessie Vogt is visiting her sister at Ortonville.

Our school began last Monday after a weeks vacation for the winter term.

A contest will be given by the scholars of the Methodist S S in the near future.

Bible day will be observed with appropriate exercises at the Baptist church.

Winter is here. At least so it looks only we haven't heard the "sleigh bells" yet.

Mr. James Taylor has been confined to the house this week with an attack of rheumatism.

Our post master has started a curiosity stand and has now on exhibition a lot of Indian relics.

School commenced last week at the West Novi school house with Mr. Jas. Halstead as teacher.

Spencer Hammond of Arkansas is home to spend the winter with his mother, Mrs. V. O. Cudworth.

Miss Wallace returned from her home at Oxford last Saturday and was ready to wield the rod on Monday.

Miss Hoffman, a sister of Mrs. Harry Hammond, is spending the winter in our village and will teach music here.

Watch out for the RECORD'S Thanksgiving offer and don't fail to cut the coupon from the issue of Nov. 30.

Jas. Seiden returned home Sunday, packed his goods and left at four o'clock Monday morning for parts unknown.

Mr. and Mrs. L. Perrigo of Detroit drove out from the city Sunday afternoon. Mr. Perrigo returned Wednesday but Mrs. P. will remain for a week.

David Gage bosses the "young idea" around again this winter at the "town line" school. They seem to enjoy his rule up there. Mr. Gage has many years of experience to draw from for his work.

Your present correspondent was misinformed last week as to the Methodist ladies serving dinner in their church basement on election day. The proceeds at the Baptist church were about ten dollars.

The W.B.H.M. circle met with Mrs. G. Sutton last week Thursday. As the day was very unpleasant not quite the usual number were able to enjoy the pleasant meeting, but twelve of the ladies succeeded in getting out and report a very enjoyable time.

The Novi correspondent of the Northville Record says a man in his town has worn one pair of boots for over twenty years! At first glance this seems to be an astonishing statement! But when it is known that this correspondent is a leading member of the Ananias club of his village, wonder ceases.—Brighton Express.

Last Tuesday evening but few young people met at C. M. Wight's for the prayer meeting. After having such good meetings and large attendance all summer it seems a pity that as the long evenings come on the interest should be waning. Next

Tuesday evening let all come and bring another along and we will have a good meeting. May the interest revive and the good work go on.

A year or so ago your correspondent mentioned that a certain Novi man greatly prided himself on the fact that he could put up ever so aggravating a stove pipe without getting mad. He had heard so much about man's stove-pipe that he was resolved that there should be at least one man who could be a noble exception to the universal rule. Now witness the power of a good example! A lady who had read the item says she has lately seen two or three stove pipes put up without the usual accompaniments. Thus the first mentioned man is shoved off the proud pinnacle of fame, but can soothe his feelings by pondering on the fact that he can get on another peak as a blessing to womankind in general if his remarkable example continues to be followed.

The annual meeting of the West Novi Debating club was held at the school house Saturday evening Nov. 10 as previously announced. The balloting for officers for the ensuing year resulted as follows: President, N. A. Clapp; vice president, D. Gage; secretary, Mrs. Della Harmon; treasurer, Harry Boget. Bids for janitor work for the year are to be received at the next meeting. Mrs. Harmon was appointed executive committee for two weeks and reported the following order of exercises for Nov. 17.

Usual society business  
1 Music—N. A. Clapp.  
2 Recitation—John Kennie.  
3 Historical Talk—Harry Boget.  
4 Talk on "Microbes"—D. Gage.  
5 Music—Lulu and Harry Boget.  
6 Reading—Kate Dunham.  
7 Talk, selected subject—J. B. Leavenworth.  
8 Recitation—Blanche Dunham.  
9 Collection of queries.  
10 Discussion—Question: Resolved, "that in view of the manner in which it was acquired, it is the duty of the U. S. to restore Florida to Spain." Affirmative: H. Boget, J. B. Leavenworth, N. A. Clapp. Negative: J. Clapp, A. N. Kimmis, D. Gage, D. Dunham.

The members present were united in resolving to endeavor to do earnest and efficient work during the coming winter and the outlook for a successful year seems fairly good, notwithstanding the loss of strength during the past year. The society could not help congratulating itself of course, on the distinction of having a member of the legislature among its number and the gentlemen holding that honorable position made some excellent remarks to the younger members of the club urging them to active participation in the work of the society as the only way in which they can secure in the fullest degree the unquestioned benefit which is to be derived. Mr. Kimmis feels that his many years of active membership in the West Novi Debating club have been of inestimable value to him in fitting him for the important position which has now been given him, and stated that no other one thing has ever done so much for him in that respect. There are plenty more young people who may have a share in the same good training if they wish, by becoming members of the club, to which all are welcome.

who wish to work with us. It is to be hoped that the weather will be more favorable than last winter as a glance at the reports shows that nearly three fourths of the Saturday evenings during the season were either very stormy or else the roads were almost impassible.

### FARMINGTON.

Miss Ida Nelson is no better at this writing.

M. B. Pierce was in Pontiac one day last week.

The recent snow storm makes it seem quite wintry.

Mrs. D. A. Durfee of Novi was the guest of her parents last week.

The Farmington boom has been laid on the table until warm weather.

Miss Grace Tremper left Monday for Pontiac to take care of a sick aunt.

Miss Minnie Gibbs is again able to be out after a long and serious illness.

Mrs. John B. Lapham has very low with but little hopes of her recovery.

Mrs. Alonzo Ingersoll is visiting her daughter, Mrs. Will Shaftoe, at Metamora.

The Universalist society are holding gospel meetings in their church this week.

Editor Eisenlord of Chicago who has been visiting relatives in this vicinity has returned home.

The young people enjoyed a pleasant evening at the Methodist parsonage Friday evening, Nov. 9.

Watch out for the RECORD'S Thanksgiving offer and don't fail to cut the coupon from the issue of Nov. 30.

Mrs. Jane Huntley of Detroit formerly a resident of this place was the guest of her mother, Mrs. Esther Eisenlord, one day last week.

The Methodist prayer meetings are increasing in attendance and interest all the time. Still there is room for more and all are cordially invited to attend.

Misses Grace Tremper and Anna Middaugh were at Northville last Saturday on urgent business. Think perhaps Grace might explain. Ah! Grace, how is it?

An excellent program has been prepared for the North Farmington Literary society to be held Friday evening Nov. 16, at the home of Messrs. Gamble and Gregg.

The pleasant face of our genial postmaster, Mr. Murphy, again greets you when calling for mail. He has been a great sufferer for the past two or three weeks with rheumatism.

A special meeting was held Thursday afternoon at the home of Mrs. L. W. Sowle by the L.U. to do some sewing for Miss Julia Services who has been very sick for about three months.

Women are evidently becoming political factors in the west if the recent nominations and elections in Colorado and Wyoming were indicative. Each party ticket had a woman enrolled for office.

Miss Roat from West Bloomfield will live with her aunt, Mrs. Ira Power, and attend school. Our school, by the way, is prospering finely under the new corps of teachers. About 20 foreign scholars are attending.

The Novi Records received by the Farmington people last week were perused by some of the readers who thought all the time it was their own paper, the Northville Record, for which they subscribed, there was such a similarity between the two, there being only six letters difference. Twin sisters I guess.—[And yet there was a big lot of difference if the two were compared, Ed.]

Mr. and Mrs. Vernon VanAtta of Grand Rapids were given a reception on Thursday at the residence of Nelson Smith.

Rev. W. H. Shannon attended the meeting of the state Sunday school association this week at Grand Rapids. Mr. Shannon will give a report of the meeting next Sabbath.

Miss Kate Bangs has tendered her resignation as teacher of third and fourth grades, south ward, and the position made vacant by the resignation has been tendered to Miss Adelle Atchison, of Salem.—Fenton Independent.

Rev. Mr. Clark of South Lyon made a prohibition speech here on Monday evening preceding election day in which he is reported to have made the statement that none of the political parties, except the prohibition party recognized a Supreme Being by opening their meetings and conventions with prayer. The reverend gentleman should familiarize himself with the facts in the case before making such sweeping statements. The facts are that republican national conventions and state conventions of Michigan at least, for time immemorial, have uniformly been opened with prayer and as evidence of the correctness of its principle it may be stated that prayers for its success have with rare exceptions been answered. Your correspondent has not attended democratic conventions but the published reports of their proceedings, represent them, no doubt truthfully, to have been opened with prayer—the sequel proving generally however that the prayers were not heard. If our prohibition friends were so much better than ordinary mortals as they assume to be, would they not be more charitable toward those whose moral vision is so obtuse that they cannot see things in a prohibition light. In many respects the late Gerrit Smith was one of the best men this country has produced, but he was erratic, while his best friends were sure he would be on what in his own opinion was the right side, they were in doubt as to what that would be. A very good friend and admirer, characterized him as the man with "large heart—but unreliable head." It would seem that fair classification would put many people in that same list. Zeal without discretion is rarely effective. Herculean blows, if misdirected, result in absolute injury to the cause they were designed to advance. In this wicked world the abstract right can hardly be hoped for. Let us strive for the highest attainable good.
