

# THE NORTHVILLE RECORD.

Vol. XXVI, No. 22.

FRIDAY, JANUARY 11, 1895.

\$1.00 per year, in advance.

## ABOUT \$25,000.

That's the Amount of Northville's Improvements

during the year of 1894.

Eighteen New Houses Built and Many Additions Made.

A summary of the new buildings improvements, repairs and additions made in Northville during the year just closed shows that the total amount will in round numbers foot up to about \$25,000 worth. In this amount is included the erection of eighteen new houses, the balance as will be seen by the itemized statement includes barns, sheds, repairs, etc.

The following statement is as accurate as could be gathered from our local contractors and builders:

D. K. Shafer has built and repaired as follows:

Chas. Harmon, house	\$700
A. D. Kendrick	500
Yerkes Bros., repairs	200
Dr. J. M. Burgess, addition	300
Total	\$1,700

Chas. Smith and Smith & Boese have built and repaired:

The Owen house	\$6,000
I. N. Starkweather, house	800
Wm. Nevising	250
Sundry repairs	250
Total	\$7,300

W. W. Blair has done the following building:

Geo. Stark, house	\$3,000
W. W. Blair	1,400
Two houses in Dearborn	1,400
Mr. Gattermole, barn	300
Total	\$6,100

W. J. Lanning has done building and improvements as follows:

Mrs. Hutchinson, house	\$500
C. Collins	300
Dr. H. Peterson	500
F. M. Perrin	1,150
Mrs. C. Hutcheon	1,700
Mrs. Hartwell	400
W. S. Lanning	400
Liddle Lanning	500
Will Lanning	600
D. Shafer, repairs	100
Purdy's, stove addition	400
Dabuar Mfg. Co., shed	400
Dabuar Lumber Co., shed	400
Wellman house, repairs	250
Chas. Dolph, repairs	450
Jake Miller, store front	100
Sundry repairs	540
Total	\$9,340

Of course this showing is not to be compared with 1892 when the improvements aggregated over \$100,000, but when the financial struggle, hard times scare, and general business depression which prevailed for a goodly period during the past twelve months is taken into consideration the result is very gratifying indeed. And right along this line it might be noted that while in other places many factories and other industries have been at a standstill, all the establishments in Northville have been running along on full time, except for a month or two when they worked eight hours. Many times the demand was so great that it was necessary to run a part of the night for a week at a time to keep up with orders.

The credit for all this in no wise belongs to Northville as a village however, but may wholly be attributed to the result of careful and experienced management of the manufacturing establishments within her midst. The result would have been the same in any other town with these same men at the helm.

## ANOTHER SKATING ACCIDENT.

George Joy Is the Victim This Time.

While doing some fancy skating on the ice last Saturday afternoon, Geo. Joy, proprietor of Joy's bakery, tripped up in such a manner as to badly sprain his right ankle and at the same time fracture one of the small bones just above the ankle joint.

Joy declined all offers of help, towards carrying him home and pluckily walked the entire distance from the pond. Dr. Burgess reduced the fracture and George is now able to hobble around a little with the aid of a crutch.

Joy is an expert skater and can give no particular cause for the accident, but it goes to show that the skilled as well as the beginner are liable to get hurt.

## Suburban News.

Mrs. Frank Allen of Wayne is after a divorce from her husband.

The Ann Arbor Courier spent at Congressman Burroughs. The senator will object.

The F&P earnings for 1894 were \$3,000 more than for 1893. Rather a good showing.

Holly holds an election tomorrow to decide who shall be appointed deputy sheriff in that town.

Editor E. J. Smith, the Purdy writer on the Ann Arbor Argus, has severed his connection with that paper.

The Wyandotte Herald one of the best city weeklies published in the state has just entered upon its 17th year.

Do you write '94 or '95? Pontiac Times.

Do we judge by the appearance of Times Gate line.

From the ashes of the Wayne Tidings has risen the Wayne Leader. The Leader continues the tidings and Editor Allen continues its leader.

The Adrian Telegram says that in five years more we will enter upon the 19th century. The Telegram should pinch itself to see if it is really awake.

The Pontiac Gazette is now issuing a lively little daily. A daily paper in Pontiac has been tried off before but now it will doubtless prove a success for the first time.

A Traverse City man sent the Egouton Independent a two pound brook trout. When the fish reached Fenton it had grown to be a small white and weighed only a trifle less than 140 pounds.

Mr. and Mrs. Dou Kelly of Wayne were the recent recipients of a new baby boy. Don is well known in Northville where he was for some time in the employ of the Globe company.

Rex Woodworth is entitled to the medal for this season, for leaving the largest dressed porker. Saturday he sold to Henry Schroder a dressed hog weighing 535 pounds. The hog was 20 months old.—Farmington Enterprise.

The Wayne county teachers' association will hold their second meeting at Wyandotte on Saturday January 13. An interesting program has been prepared, and some well known speakers will be present.

The Holly fellow who stole John Laeg's wagon does not know what may be in store for him at the very next turn of the wheel. Jack is laying for the chap and every passing vehicle is being closely scanned.

Geo. Felscher a well known Wayne cigar manufacturer and a former Northville resident, has asked that village for \$500 for damages received by defective walks there. One of the local papers advises that it be paid.

Jolliffe Bros., the well known cheese manufacturers of Plymouth, have bought out the Starkweather store and will carry on the business hereafter themselves. The well known character of these gentlemen insure them success from the very start.

N. C. Beiding of Fenton will not take another bath this year. He swam around in the bath tub Sunday morning of last week until overcome by gas from the coal stove to such an extent that he nearly died. The prompt arrival of neighbors just saved his life.

You would scarcely believe a boy could break an arm, by jumping, but that's what young Louis Emery of Hudson, did a few days ago. He jumped, and as he struck, fell backward, and in throwing out the hand to ease the fall, got his arm in position to crack the bones.—Adrian Press.

Not so very strange either. A well known Northville lady fractured one of her limbs some two years ago by simply stepping quickly back from a gasoline stove which startled her as it flashed up from the lighting. The lady, sorry to say, has since that time been almost an invalid.

Editor and Mrs. Slocum of Holly gave the clergy of that village, with their families, a New Years dinner party. Slocum felt a little out of place and several times when a leg or a wing of the turkey escaped from his fork and slid, with a liberal amount of grease, clear across the table he was on the point of saying a word which is newspaperly spelled with a lower case h and a sem dash, but was fortunately checked each time by Mrs. Slocum's quiet, but decisive, "James!" When the clergy sat down to the table they remarked that the dinner "was out of sight." Slocum, who was counting on enough feet being left over to carry the family along for a few weeks, made the same remark after the appetites of the clergy had been satisfied.

We give one tenth of our entire sales to the Methodist society on Saturday, tomorrow. C. R. Smith

Portugal is becoming spunky, too, and will spend \$600,000 a year on her navy so as to have a word to say in case partition comes again. The amount is not large and the time in which it is to be expended is long, but with navy as with everything else better late than never.

In the extreme West horses now cost less than cattle, and cattle cheaper than sheep. A lady who spent some time in South California last summer, saw a beautiful pair of black horses, matched like twins, and in the prime of their horsehood, offered for sale at forty dollars a pair, each with no takers.

Statistics in relation to mental malady are always doubtful, and sometimes worrying. For example, the statistics of London report 24,269 persons as having mysteriously disappeared and only 14,000 as having been found. It is enough to keep one wondering what has become of the other 10,000.

Smuggling in New York attained to gigantic proportions during the holidays just past. Nothing like it was ever known in Gotham before. The charges of cruelty and general mismanagement against Superintendent Brockway of the Elmira N. Representative Sibley of Pennsylvania criticizes the President in the House—Eulogies in the Senate—Decision Against the Sugar Planters

WASHINGTON, Jan. 9.—When the debate on the currency bill was resumed in the house yesterday, Mr. Peltzhoover of Pennsylvania, gave notice of an amendment. It proposes a section to enable the secretary of the treasury to fund the treasury notes which may remain in circulation after Aug. 1, 1895, which were issued under the act of Feb. 25, 1862, July 11, 1862, March 3, 1863, and July 18, 1869, by issuing bonds to an amount not exceeding \$500,000,000, redeemable at the pleasure of the United States after five years, payable twenty-five years from date, with interest at 3 per cent, payable semi-annually in gold. The bonds are to be of such denominations, not less than \$50, as the secretary may determine upon, and to be sold at not less than par for gold or for treasury notes.

Mr. Sibley (dem., Pa.) started up the house with a most bitter attack on the administration and the executive and without form or order the debate was participated in by four or five members at one time. Finally when order was restored, Mr. Cox (dem., Tenn.)

Prisoners Are Not Gloomy—C. E. Darrow to Bring Habeas Corpus Proceedings Before the Supreme Court Next Saturday

CHICAGO, Jan. 9.—Eugene V. Debs, president of the American Railway Union, and seven members of the executive committee, who were found guilty of contempt by Judge Woods of the United States court, were yesterday surrendered to the custody of Marshal Arnold and locked up. Counsel for the prisoners decided yesterday not to contest the case any further before the circuit court, but will on Saturday of this week ask the United States Supreme court at Washington for a writ of habeas corpus. On this application, whether it is granted or not, they will have the right to take an appeal and on this appeal may secure the liberation of the prisoners on bail, pending a hearing. Acting under the direction of Clerk Burman, Mr. Pickard, his assistant, issued orders of commitment.

The cumulative sentence imposed on Debs was one year and on the other defendants six months. Judge Woods said to-day that there was nothing more for him to do in the case, unless it came up before him on another motion in some manner. The sentence of the court was pronounced

THE WAR IN THE EAST

Captain Smith's Escorting a Japanese Leader to the Block for Execution

followed with a careful argument in favor of the bill.

Mr. Stone (rep., Pa.) did not think the pending bill would relieve the treasury and the situation nor did he in fact believe that the retirement of all greenbacks and treasury notes would check the demand for gold. If gold were required for currency gold would be secured, at not from the treasury then from private holders. There was no reason why there should be a scarcity of gold. There was \$39,000,000 in gold in this country held by banks and private holders. He thought what was wanted was the issue of a low rate bond to tide over the present emergency.

Mr. Johnson (dem., Ohio) followed Mr. Sibley's lead with a caustic speech in opposition to the measure. He said the bill proposed to confer on banks without limit, a right that could only be conferred on a monopoly. It gave them a monopoly or it was a failure. Mr. Johnson sketched a scheme by which a dishonest man, entirely within the terms of this bill could make \$25,000 in two weeks by starting a bank.

Mr. Bland, the leader of the silver democrats in the house, took up his cudgel against it. He spoke with great feeling. Step by step he traced the course of those whom he alleged were carrying out a conspiracy—first the repeal of the silver purchase law and now the consummation of their plans. Mr. Bland predicted that if this bill became a law that the greenbacks would disappear, and to spare the gold standard silver would be entirely eliminated. In conclusion Mr. Bland protested against the bill in the name of democracy.

Mr. Coffey (dem., Wyo.) concluded the debate for the day in opposition to the bill, and at 6 o'clock the house took a recess until 6 o'clock, when under a special order made Monday the bill prepared by the pension committee for the codification of the pension laws was formally read.

The Pooling Bill

WASHINGTON, Jan. 9.—The senate committee on interstate commerce took up the pooling bill at its meeting yesterday morning. Chairman Butler presented a letter from Col. Morrison pointing out a serious defect in the law as it passed the house. He called the attention of the committee to the fact that under the law the interstate commerce commission was given no jurisdiction in regard to approving any pooling contract submitted to it by the railroads. He did not ask for a specific amendment, but gave the committee to understand the law in its present shape would be unsatisfactory to the commission. The senate committee wasn't prepared to go into this matter, having been given to understand that the pooling bill as it passed the house was in every way satisfactory to the commission. Action was finally postponed until next Tuesday.

The contest between Washburn and Nelson for the Minnesota senatorship is said to be developing a great deal of bitter feeling.

Officials Under a Cloud

ESSEX, Mich., Jan. 9.—The scandal involving Chief of Police Elward has been followed by sensational charges involving the common council and a majority of the executive officers of the city. The charges cover nearly everything from winking at crime to sharing its proceeds.

Massillon Drivers Strike

MASSILLON, Ohio, Jan. 9.—Few of the Massillon mines worked yesterday. This was due to the fact that the drivers have struck for more wages. At one time the drivers received \$2.00 a day, but according to the decision of the board of arbitration they are to be cut down to \$1.60. This, they say, they will not accept and will not resume unless they receive \$1.75.

Will Get No Bounty

WASHINGTON, Jan. 9.—The District Court of Appeals has affirmed the decision of the District Supreme court, refusing to grant the Miles Sugar Manufacturing and Planting company of Louisiana a mandamus compelling Secretary Carlisle and Internal Revenue Commissioner Miller to proceed under the law awarding sugar bounties notwithstanding its appeal by the new tariff law. The case was brought up as a test suit. An appeal to the United States Supreme court is yet open to the planters, the case having gone against them in all inferior tribunals.

Bodies of Five Victims Discovered

ALBANY, N. Y., Jan. 9.—The bodies of two of the victims of the Delavan house fire have been removed from the ruins. They were found in the cellar and were directly under the attic where the fifteen servants are supposed to have been caught by the rapid spread of the flames. There is no means of identifying the remains. It is supposed that the remains of all the victims will be found near the place where the two bodies were discovered.

Gov. Nelson of Minnesota has created a sensation by announcing his candidacy for the senate.

some time ago Judge Woods, that that sentence was stayed until yesterday. There is nothing further to be done except for the clerk to make out his commitments.

This is the second commitment I have made out for illustrious citizens," said Clerk Pickard as he was writing the document which will hold Debs in jail for six months. "The other commitment was for Frank James, Jesse's brother and partner."

That was done in Alabama, where Frank was before the United States court charged with robbing a paymaster. He was sent to jail because he could not give bail, but was acquitted on the trial.

The prisoners were taken to the McHenry county jail, Woodstock, Ill., last night.

TO RELIEVE FARMERS

Nebraska's Legislature Is at Work on Measures to Aid Them.

LEXINGTON, Neb., Jan. 9.—In the senate yesterday Senator Caldwell asked leave to withdraw his resolution giving precedence to relief missions and authorizing county commissioners to take such steps as are necessary to enable them to relieve want in their counties, and offering to the commissioners to legalize such actions may necessarily be done by the county boards in this matter. The same resolution was immediately introduced by Senator Caldwell with a motion that the rules be suspended and the resolution passed. Caldwell contended for immediate action on the ground that the occasion demanded it. The resolution was referred to the relief committee. A bill was also introduced authorizing counties to vote bonds to provide seed for farmers in the drouth stricken districts.

S. F. Fritz of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." 50c. C. Deputy Treasurer Whitbeck took in \$1,141 for taxes Tuesday and about \$2,000 Wednesday. Thus far there has been about \$16,000 of the \$22,500 collected, leaving a balance of about \$7,500 as against \$1,300 last year. Mr. Whitbeck has made a very pleasing deputy and Treasurer Eddy is to be congratulated upon his selection. Whitbeck, by the way, wouldn't be a bad thing to nominate for the office next spring.

The fire alarm at 7:30 o'clock Tuesday morning from box 57 was caused by a bright blaze from the heater in Knapp & Yerkes' hardware store. As they started up the fire it reflected a bright light on the windows and a passer by thought the whole building was ablaze, but it wasn't. Northville's fire alarm is not of such large or loud proportions as to wake up the whole settlement and consequently but very few people were startled.

The ability of representatives and senators from this and border districts was freely recognized in the appointments of committees at Lansing this week. Warner, agricultural interests, geological survey, industrial home, public improvement and state affairs.

Barber Frank L. Brown of Detroit, formerly of this place, has just had the funniest experience of his life. He went down to Batavia, N. Y. to visit his parents and was there captured by the health board as an escaped small-pox patient. It was a "Comedy of Errors" all around, but Brown and the house were fumigated, and his clothes disinfected and burned with all the modern anti-smallpox appliances and he himself quarantined. Brown says the genuine smallpox would be a snap compared with his experience.

If you see a fellow, or two of them in a pug, going around with a pair of pants on which are six inches too short and go around him two times, they belong to our village president. The president started in, the new year by taking a bath and while pursuing this vocation had a couple pair of his pants hanging out on the line to warp the creases back. While the president was swimming around in the bath tub two members of Coxy's army swiped the line of pants. The president having more than the average moral, a third pair, did not miss the extra two pair until too late. One of them contained a new jack-knife and a small amount of money. The president at present is figuring on what he would do in case he should break a suspender button or slip up on a nail.

It was very thoughtfully received, and will be highly appreciated by the ladies when they need to work at the church.

Tom G— you understand.' C to D, 'Oh, I think she needs a good cleaning out, she'll work all right then.' A to B (getting desperate) 'Hello, Novi! what about Webster?' C to D (calm and collected) 'Oh, I presume she is a trifle scaly. Been in use a good while, and needs attention.' At last accounts A and B were still trying to find out about Tom and Webster. Verily the telephone is a convenience.

Nearly all the numbers on the program were given at the WNCB Saturday night though the audience was somewhat smaller than usual owing to the stormy evening. A very entertaining addition to the exercises was furnished by Mr. Kinnabi who was requested by the society to give a description of the recent "raucous" at Lansing which he did in a manner that was extremely interesting and highly appreciated by his hearers. The vote on the question discussed resulted in a tie and the president gave his vote for an affirmative decision. Some interesting facts were brought out in the discussion as usual. One member "brought down the house" by his rendition of "McSorrey's Twins" but for reasons connected with his domestic peace we forbear to mention his name, thus depriving him of a chance of becoming famous. The program for Jan. 12 is as follows:

- Usual business.
- Music.
- Reading—Mrs. H. Bogart.
- Recitation—Irma West.
- Vocal solo—D. Gage.
- Historical talk—N. A. Clapp.
- Critic's report—Mrs. Jay Dunham.
- Biography of Shakespeare—Mrs. Harmon.
- Song—N. A. Clapp.
- Impromptu—J. B. Leavenworth.
- Queries.
- Recess.
- Col. of queries.
- Vocal Solo—Miss Congdon.
- Discussion—Resolved that the jury system should be abolished. Affirmative: Gage, Wade, Dunham, Courter. Negative: Leavenworth, Johnson, Clapp.
