

THE NORTHLVILLE RECORD.

Vol. XXVI. No. 30.

FRIDAY, MARCH 8, 1895.

\$1.00 per year, in advance.

A FAST GAIT.

THAT WAS WHAT THE LADIES
STUCK LAST WEEK.

The Woman's Edition of the Record
Was a Great Success.

Something like \$200 was the
rest of their work.

In most we saw no other distinction and
in women two almost identical traits.

These only find they first or last obey
The love of pleasure and the love of power.

When Pope wrote these lines he
must have had in his mind's eye this
letter end of the 19th century ad.

"Woman's Edition" of newspapers
Here the love of pleasure and love of power
must certainly reach the apex.

As predicted the Woman's Edition
of the Record last week reached out
and upward far beyond mere singular
expectations of even the publisher who
previously estimated the profits at \$100.

At this figure the association thought
the publisher was crazy and they
concluded \$50 or \$75 would be a big
consideration for their work's work.

When the returns came in showing
nearly \$200 everyone was astonished.

It was intended to leave a 12 page
paper, but the ladies had such success
as advertising, soldiers and news
gathered that an extra four pages had
to be tucked on at the last moment,

making 16 pages in all, representing

45 columns of advertising and 30 col-

umns of original reading, the result of
their individual work.

The Record was the first weekly
paper, so far as is known, to issue a
woman's edition and when it is
considered that all the work, from
first to last, was done in one week, and
the financial success reached it must
be acknowledged that the outcome

was one which the ladies and all con-

cerned may well feel proud of.

2,000 copies were leased, and the
ladies have disposed of all but about
100 copies and there will doubtless
continue to be calls for these for some
time yet.

Following comments are from the
leading Detroit daily papers.

The woman's edition of the North-
ville Record issued Friday afternoon,
was a great success, and the Ladies
Library Association realized \$200 as a
result of their work.—Det. Free Press.

The Ladies of Northville edited the
Record last week. They not only
covered themselves with glory, but
earned \$200.—Detroit News.

The Northville Record dropped into
line with a "woman's edition" last
Friday, and turned out 2,000 copies of a
16-page paper that was not only
creditable to the ladies, but reflected
credit on the paper and the town.—

I NEWTON BLACKWOOD.

The Well Known Gentleman died
Saturday.

Newton Blackwood, one of North-
ville's best known and highly respected
citizens, died at his home on west
Main street, at four o'clock Saturday
morning. Mr. Blackwood's illness
dates back some three weeks and was
the direct result of an attack of Grippe,
followed by a complication of ailments,
including partial paralysis.

At no time previous to Thursday or Friday
was his case considered to be very
dangerous.

In fact during the fore-
part of the week he was considerable
better and was up about the house at
least one day.

Mr. Blackwood had
always previous to this time enjoyed
remarkable good health and had often
remarked that he had never yet been
sick in bed.

J. N. Blackwood was born in Lyon
township in 1832. In 1855 he was
united in marriage to Miss Elizabeth
Yerke. They lived in and about
South Lyon for several years, after-
wards moving to their farm one and
one-half miles north of here where
they resided until twelve years ago
when they moved to the present
home in this village. Mr. Blackwood
was an honest, upright citizen and
highly respected by all. For some
years he was the village street com-
missioner and it is generally acknowled-
ged that the corporation never had
a better one. Like all other places
where he was placed, Mr. Blackwood
was faithful to his trust and the best
interests of his village. For some
years he has been acting supervisor for
this end of the town. The funeral

which owing to Mrs. Blackwood's
illness was private, was held at the
home Monday afternoon conducted by
Rev. W. T. Jacobs of Detroit, former
pastor of the Presbyterian church
here, of which denomination the
deceased was a member. The inter-
ment was in the Yerke cemetery.
Besides the widow, the deceased
leaves three children, John Y. and
Mrs. Nellie Yerke of this place, and
Mrs. Grace Allen of Detroit.

it unconstitutional.

Flo Kennedy, a Farmington
school girl, was born under a lucky
star. Several weeks ago she lost her
watch in a way-side snow-bank and
during last week's thaw she spied the
little tickler just where she had dropped
it. It had a cool look on its face when
recovered.

Northville's anti-whiskey club is
scaring all the school children with its
horrible faces, but it is actually stated
that the water works pipes are all
freezing up and bursting, and that the
town clock is ringing twenty-four
hours behind time since the club went
into active commission. An anti-
whiskey club would have been better
for Northville.—Milan Leader.

At least one wood-pile in South
Milford has recently suffered depletion

STATE NEWS NOTES.

A CHAPTER OF THE DOINGS OF MICHIGANDERS.

Michigan Notaries Meet in Convention at Lansing. — Outfit of Saginaw Valley Mine Dashed to Earth. — Captain Eaton Died Very Suddenly at a Funeral.

Democratic State Convention.

Owing to the fact that there was no convention to make a nomination of Chief Justice John W. McGrath as Justice of the Michigan supreme court the Democratic state convention which assembled at Saginaw was very brief. The temporary organization was effected by making Rowland Conner of Saginaw chairman, and John C. Carlson of Wyandotte, secretary. The Democratic party of Michigan, in the person of Mr. Donovans of Bay, was called upon for a speech, and afterwards were appointed a recess.

Upon reassembling the temporary organization was made permanent, and nominations were called for. The First District offered the name of Justice Neffert for renomination; it was seconded by every district and the nomination was made by acclamation.

The roll call for nominees for regents of the Michigan University brought forth the names of Judge E. J. Edithorpe of Petoskey; Stratton D. Isaacs of Mt. Pleasant, and Miss Ella Hutchins of Saginaw. The majority opposition to these three came from the resolutions committee, and the voting resulted in the unanimous selection of Judge Edithorpe and the naming of S. D. Brooks by a vote of 10 to 3 for Miss Hutchins. When the resolutions committee presented their report there was considerable suspense as to what to say of political matters of the state or country, and contained but one section, as follows:

"The Democratic party of Michigan in convention assembled, with due regard to the rapidly increasing sentiment in favor of the restoration of silver to the position it so long held in the monetary system of our country, and unqualifiedly declares in favor of the free and unlimited coinage of silver and gold with full legal tender power and at a ratio of 16 to 1, and invites every patriotic citizen of Michigan, regardless of previous party affiliation, to join us in an imperative demand for immediate legislation to that end, and without regard to the position of any other nation in respect thereto."

Muskogee After a Big lumberjack.

Letters from Georgia Jay have been in Muskogee for a day or two endeavoring to consummate an extensive deal in pine lands with John Torrison. The lands are in Georgia Bay, and it is figured that it would cost 25 cents per thousand more to bring the timber to Muskogee via Lake Michigan, than it does to Bay City, where most of it now goes, and Muskogee is considered a much better market. The deal valued at \$100,000 to \$150,000.

Adjournment of W. H. Green.

Gov. Rich has appointed Col. William S. Green of Detroit adjutant-general to succeed the late Gen. L. C. Johnson. He was selected because of his familiarity with the duties of the office, having for two years been president of the state military board, which was legislated out of office January 1.

John Swigle, who was held at Lansing for complicity in the murder of Michael Gott, has acknowledged that he told his stories of the crime only to get notoriety and now says he was not in the county at the time.

The sawmill, drydock, butter tub factory and stock belonging to Henry Henklein at Howard City, burned, loss \$10,000. No insurance. It is a severe loss to the village as nearly 30 men will be thrown out of employment.

Nelson Wairu, a Finlander, was discovered dead near Lake Linden. Near him was his skull. It is supposed that the man was sick and froze to death. He had been missing four weeks and leaves a widow and three children.

Warden Fuller of the Ionia prison says the public need expect no scission from the examination of his predecessor's books. He said that there will be no shortage, but that although thousands of dollars were wasted through extravagance, Mr. Parsell was thoroughly honest.

Ingenious Pelet is 83 years of age and has passed all his life on Mackinac Island. He has never crossed to the mainland and has never seen a locomotive. NOVI LOCALS.

Republican caucus is called for March 26.

Mrs. Wm. Wait has been quite seriously sick for some time.

Carl Oldenburg of Wyoming was the guest of Geo. Taylor Monday.

Miss Ezzie Taylor who has been on the sick list for the past week is better.

Seems 'sif the "loo" was pretty close on the "jamb's" heels, wasn't he?

Our cheese factory will be ready to begin business by April 1st, so 'tis said.

Mrs. W. D. Trump and two children are visiting Mr. and Mrs. C. E. Goodell.

We missed the Novi Record last week, but got the Ladies' Edition to make up for it.

Walter Curtis, Connie Hammond and Mrs. Wunder are on the sick list at this writing.

Joe Doversetty reports that there will be about the usual amount of building this spring.

Jas. Sessions purchased the John Vogt property and Mrs. Vogt will remain for some time.

Thomas Taylor and Geo. Urquhart are visiting at the former's parents, J. Taylor and family.

Henry Gilbreth, Gaines and Harvey Skinner of Pontiac made a short visit with friends hereabouts last week.

A pleasant time was enjoyed at the Baptist donation last week Tuesday night. The receipts were about \$45.

The bad condition of the roads prevented a large attendance at the "field cake and coffee" social at Samuel Lamb's last week, much to the disappointment of the young folks.

Rev. E. H. E. Jameson, D. D. of Detroit, district secretary of the Lake district of the American Baptist Home Mission society, occupied the Baptist church Saturday morning and evening.

Herbert Lowe, a Novi lad of 12, played "Pussy Wauts a corner" so hard at the school house last week that he broke his arm in getting it. The catastrophe made him "yow" but got his corner.—Adrian Press.

Mrs. Judd Richardson was more liberal on the night of the donation than she intended to be, as some one has her basket containing a large platter and several plates, the return of which, articles would probably be quite satisfactory to the owner.

The secretary of the WNDC is said to have read the date of the minutes of the last meeting as "1876." The fact that the lady was seen out playing on the ice that day probably accounts for the fact that she imagined time had taken a dark turn to such an extent; Association of ideas undoubtedly.

A young gentleman of this vicinity thought he had experienced some thrilling vicissitudes before, but when a mischievous equine pretended to mistake him for a corn stalk the other day, and grabbed him by the leg and whirled him around in the air, he decided that a header from his steed, a ride on the fiery steeds of a merry go-round, or even being tipped out of a buggy with his best girl were tame in comparison. The only way of

escape from the teeth of the enemy was to get on his back, the young man doesn't want to be a wild west show any more, though he came out of the affair with no worse injury than some torn clothes.

As the time for holding the party caucus is near, it may be well to call attention to this matter. It is probably true that but the mistakes that are made by political parties are, made in the caucuses. That is to say that the people, voters rather, fail to attend their respective caucuses and the nomination of candidates for township offices is left to a few, and then there arises dissatisfaction over the nominees.

The proper way to avoid such trouble is for every voter to go to the caucuses and have a voice in the proceedings. We do not know who is to be placed in nomination for the various offices.

But for the Republican side we can suggest no better man for supervisor than Frank B. Tanner. He is an able man and would conduct the affairs of the office in a creditable manner, and we believe he should get the nomination.

This part of the township which he represents deserves the honor and we understand that the general sentiment is in his favor. So let it be. For highway commissioner Arthur John would be an ideal man, as he has the respect and confidence of all our citizens. Mr. Sutton has made a good committee, but we understand that he will be unable to accept any office because of business at home. Randolph Chapman has been mentioned for treasurer. The democrats will probably nominate A. T. Rice for supervisor, or they could not make a better choice. We have not heard anything about who they expect to nominate for the other offices.

J. H. Thompson pretty nearly hurt himself endeavoring to evade the law in his barabouge in the Living issue of last week. He resorts to malicious implications, (as his chief argument) expecting to run a bluff on us because we stated the liquor question just as it stands today in our village. He makes us out either a rum-seller, whisky-guzzler or a corner grocery politician. We are neither, and won't suggest that that kind of bluff does not go. He nominates us for clerk and says we are "playing" for the prob. and whisky men's support.

He has never intimated that we expected to run for clerk, so that lie is nailed. Our name has been mentioned for township clerk, this, true, but there has been no suggestion on our part, however, we will just intiate now that Mr. Thompson's support of any nominee is not necessary to elect and the less he has to say, especially on the temperance question, the better it will be for the party he represents.

We have great respect for many of the members of his party, and any one of them would be a more effective leader than Mr. Thompson. Here is a suggestion for the gentefofo: Gen. Booth of the Salvation Army said: "Convert the men and the social evil will disappear." If Mr. Thompson will assist Christians in reforming men addicted to the drink-habit, then will be no business for the saloons, and Mr. T. would not have to ponder over "supreme court decisions" and hypo-

thetics in order to evade the letter of our liquor laws. Thompson is a veritable whirlwind—mostly wing.

R. E. QUINTER.

The loss of the sleighing did not prevent the WNDC from having

a large audience Saturday evening contrary to expectations. A pleasant and instructive meeting.

As usual, the society made Mr. Kimball useful as usual, also, when he is present, by getting him to talk on different subjects connected with his work at the state capital, thereby giving a good deal of information from head quarters as it was.

The question of the raising of the salaries of state officers was satisfactorily disposed of, in a manner which should be conclusive if the state of Michigan realizes the value of the deliberations of the society as the "daughter." It was decided, according to the opinion of the audience in the argument advanced, that said salaries are insufficient.

All joining aside, however, these meetings are probably a good place to learn the facts and bearings of the questions of the day, as the society aims to take up only five topics as a rule, and they are studied, explained, and discussed, by those who are desirous of giving and getting all the instruction possible out of the world.

A REMARKABLE

Mrs. H. B. Adams, 1125 Dearborn Ave., Chicago, says: "I lost a saint of the blood from my body, which, however, remained in me for a long time, having all the appearances of a malignant cancer. The agony of mind I suffered cannot be described as I contemplated the progress of such a malignant disease. Finally I was induced to try Foley's Sarsaparilla. It appeared to neutralize the poison in the blood. The growth of the ulcer ceased. The diseased tissue in the bottom and edges of the sore seemed to loosen and the natural flesh to take its place. No part of the disease remains." C. R. Stevens.

Farmington is getting right to the front. There is some talk of electric lights and water works. What do you think of that?

The winter edition of the Northville Record of March 1 under the management of the Ladies' Library Association of Northville was a gay and noisy paper, proving to the world what woman can do. If so inclined, they may be well informed to be world about them in their brotherhood and wield as great a power. The store house of knowledge opens just as readily to her as to the opposite sex. In art, science and even in the editorial department woman has the possibility of greatness and success, as was shown by the Northville ladies in their production.

Mrs. E. R. Lapham is spending a few days with friends in Detroit, and her grand son, Fred Cook, is now keeping bachelor's hall, and says how is the time he needs a better half?
