THEY ARE OFF!

THE NEW COUNCIL STARTED AROUND THE MUNICIPAL TRACK.

Had Their First Meeting Monday Night.

Marshal's Salary Fixed--Tramps to Be Bathed and Fumigated.

The impromptu city hall sessions, which were held Monday night to take their seats for the first time. Every seat in the gallery as well as on the lower floor was filled and many were standing in the aisles. As soon as an official chair was brought forth for President Hutton and a desk provided for Clerk Nichols and the reporters, the president pushed the button and the municipal wheels commenced to slowly grind. The bills all went through without the slip of a cog until the water board bills, were dropped into the hopper and then one of the Alder men asked that the inspector's bill be read in detail. This was done and again the wheels were turning.

For the committee on the bill for balance of marshal's salary, which hinged on whether or not he should be paid for the time he was sick, Ald. Sessions said he respectfully referred the bill back to the council without any recommendation. Ald. Danges said he had thought the matter over and he believed that the marshal ought to be paid and, as one of the old finance committee would approve the bill. Ald. Rayson said he wanted to give the marshal's salary a year over. The bill then duly passed and published all was quiet until Mr. White sent in a bill for \$50 and he could have got \$100. Thought Mr. Brigham should not have more than \$75 and that that was enough. Ald. Sessions said he had talked with Mr. Brigham about this and found there had been cases where the marshal had been off six months and drawn pay. Mr. Brigham hadn't been off that length of time and bill ought to be paid. It was finally put to a vote and ordered paid.

President Hutton said he wanted to say a word about tramps. He thought that they should be lodged in the engine house below stairs instead of in the council chamber. He believed they carried microbes and other dangerous weapons around with them. The president asked the township health officer, Dr. Burgess, for his opinion on the matter and he said that if the marshal lodged them where the council met the marshal should give them a bath and a dose of disinfectant. The marshal at once made a requisition for a bath tub, and the council adjourned for one week.

Suburban News.

The Brighton Argos is putting on airs now and yelling, "I'm just sweet sixteen!"

A Wyandotte woman had her husband arrested for beating her and then at the trial plead for his release.

Tobias Boil--farmer--near Milford--smoking a clay pipe--born--Sunday--lost \$2,500--no insurance--pipe saved.

The Daily Courier says Ann Arbor has 15,000 inhabitants--including the Northville students now at the University.

One of John Andrews' horses at Milford committed suicide one day last week by dashing its head against the barn. Some animals are getting as bad as some men.

J. E. Beal of the Ann Arbor Courier lectured on "The Czar's Domain," before the Inland League in the University City Tuesday. The talk is said to have been rather of the racy order.

A largely signed petition has gone to the prison board praying for the pardon of Rev. Thos. Middle of Highland Station. It is believed the minister is innocent of the charge of seduction for which he is now in prison.

The Dundee Ledger man tried to get a damage suit against the village by tumbling down on the side walk last week. Instead of breaking a leg as he anticipated he only shocked a few crows on his left foot. When Mauger got up he used some words which the "Law and Order League" have asked him to explain the why and wherefore of.

A new undertaker has just located at Holly and the advertiser says, "We wish him success." Great Scott, men you don't want Holly people to die, do you?

Goodman A. Jacobs is the newly appointed man to take the late J. D. Norton's place at the Pontiac asylum. Jacobs is a Good Man, even though he don't eat pork.

Plymouth Maccabee ladies will issue the Mail next week as an Easter edition. This editorial bee and the Easter bonnet to be both buzzing in their hives in one week will keep the ladies busy, we judge.

M. A. White of Farmington has been clerk in that town for so many years that no one can remember the first time. His popularity is shown by the large vote he receives each time. Monday he had 120 majority, being something like 40 ahead of his ticket.

A well known Milford merchant has brought \$50 to light and circulation which he hid inside the family bible some years ago. Wouldn't have opened the book then, only he got into a dispute with his wife about her age and sought the record in the scripture to prove he was right.

The Michigan Academy of Science will make an official investigation of Orion's sea-serpent on May 1, providing Orion people will bond themselves to not turn their new bait base on the ocean that occasion. They will not have the courage to face two such deadly dangers in a single day.

Frank Drew of Otocata is now writing a book entitled "A Tasting Example of the Action of Sauer-kraut and Milk on the Stomach." Frank put the mixture in his stomach and the doctor drew it out just in time to give a democratic vote for Monday. Drew will hereafter draw more on his imagination and less on practical experience.

It was a coroner's jury not a Grand Jury from Wyandotte that recently viewed the remains of a man who had been accidentally killed and then paraded the streets by announcing a verdict of "not guilty." Wyandotte Herald.

Must have been at Plymouth. That is, not a thousand miles from Wyandotte, a man was killed three or four years ago and they had a coroner's jury. It was a complete chain of circumstantial evidence what more do you want?

TO MAKE BELLS.

ANOTHER IMPORTANT INDUSTRY FOR NORTHVILLE.

The American Bell Foundry Company Are the People.

They Will Engage Here in the Manufacture of Those Ringers.

Again Northville is fortunate in the possession of citizens of both capital and enterprise. This week marks another arena in her enterprise. Through the efforts of some of her well known men, a large bell foundry is about to be located here:

R. F. Diserens and Jno. T. Becker, formerly of the Cincinnati Bell Foundry Co., were in our city last week and the outcome of their visit was that sufficient capital was invested to at once begin the necessary building and repairs to the foundry here to cast steel bells of every description. This necessitates new buildings; a new cupola, new blowers and the erection of a crane for the handling of the heavier castings. This work will begin next week and be pushed as rapidly as possible.

The foundry will manufacture all kinds of steel bells from the small farm house dinner bell to the largest sized church bell. They expect to begin the manufacture of the small bells within the next forty days and the larger bells by July 1st.

The new institution will be known as the American Bell Foundry Co., and will be under the direct charge of Messrs. Diserens and Becker who have had years of successful experience in the business. Other well known Northville capitalists interested in the foundry and its success is assured from the start.

These steel bells, which are equally as good, if not better, and just as durable as any other, can be manufactured for about one half the cost of the brass bell.

Following is the vote in each precinct and the totals. The first figures representing the vote in the Northville second the in the Plymouth precinct; third, the total. The names appear in the order of republican, democrat and prohibition:

Say, Look Here!

When you are all right, you're all right; but when you get hurt you are all right if you are insured in the Old Reliable Accident Insurance Company of Chicago. (The Metropolitan) which will entitle the holder of a policy to \$15 per week, or \$1,000 at death. This will cost less than five cents per day. Can you afford to take the chances? Better smoke one less five-cent cigar each day—that would carry your policy.

The advertised letters at the post office this week are for: Mr. M. C. Boyne, Mr. Joseph Fox, Jennie McClelland, Mr. Roberts, Care, R. Schroder, C. A. Downes, P. M.

The Record has noticed within the past few weeks and months people coming to Northville to get pictures taken at Brown's gallery from way over in Monroe, Washenaw and Oakland counties and from the extreme limits of Wayne county, including the city of Detroit. Northville has within her gates one of the best photographic galleries in the United States—the work and patronage proves the assertion.

Probably the best beef ever considered ever sold in the Northville market was that brought in last week by C. Austin who lives on the Scott farm south of the village. It was a Durham steer, one year and thirteen days old, which dressed 482 pounds, or 63 pounds to the hundred. Jake Miller who bought the animal says it dressed the best of any he ever bought. Mr. Austin had a pair of them, the two weighing 3,540 pounds in total. Mr. Austin says this shows what systematic work in the way of fattening cattle will do.

The water board has decided that all water takers must pay their quarters rent, now due, and then those who have been inconvenienced by having their water shut off in consequence of the meters being frozen, can have their grievances adjusted in the shape of a rebate by sending a bill to the water board. Such bills should be handed to Clerk Nichols and they will be adjusted later. It is understood that this rebate will include all who have been thus shut off no matter if they have borrowed water from a neighboring farm.

During Easter week one of the finest concerts ever in held the village of Plymouth will be given by Mr. Harry Morgan who has been studying under one of the best vocal teachers of Detroit for some time. A program of surpassing quality will be rendered by the following well known Detroit artists assigned by local talent: Prof. C. M. Yet, violinist, late of Paris; Mrs. Stokard, Detroit's celebrated contralto; Miss L. Burns, elocutionist. Miss Maude Markham, pianist, late of Plymouth, now pupil of Prof. Hahn Detroit.

The early closing movement which had been such a phenomenal success since the first of October last ended with the last Friday night. When the RECORD started this movement in 1893, and finally succeeded in getting all the business houses to sign the agreement, it was repeatedly said "it will not be a success, they will not all live up to it." But they did, and the success of 1893-94 was repeated in 1894-95 to the gratification of not only the merchants and clerks, but the people as well. The scheme was repeatedly tried both last year and the year before to about half the villages in the state, but in the majority of the cases it soon fizzled out.

Why is it that so many pedestrians will insist on running cross-tors over people's lawns instead of going around the corner. It is certainly not because they are tired, for people do it who would scorn to say they were tired. It is not because they are in a hurry and wish to save time, for people do it who are in no hurry and have no time to save. It is simply a habit, and in many cases a bad one. People go across in this manner like flocks of sheep—one starts and the rest follow, till soon a well beaten path disfigures the green covered lawn. Reader, the next time you go across someone's lawn in the village—go around on the sidewalk.

Mrs. Wm. Lanning sr., whose illness was noted in last week's issue, died at the home of her son, Robert, who lives just west of the fish hatchery, Monday night of consumption. The funeral occurred at the Methodist church, of which denomination she was a worthy member, Wednesday afternoon, Rev. Mr. Turner officiating. The attendance at the funeral was very large and the church was beautifully decorated with plants and vines and the basket covered with flowers. This shows the high esteem in which the lady was held in this vicinity. Mrs. Lanning was 69 years of age and during the majority of those years has been a devoted christian woman. She was highly respected by the whole community. Mr. Lanning sr., died about one year ago.

Next Sunday Rev. Mr. Belding delivers the fourth sermon on the Reformation. In the evening he speaks on, Choosing a Leader.

There seems to be considerable talk of dissatisfaction about here in the way the money was appropriated town meeting day towards cutting down hills.

C. R. Smith has sold out his store here to a firm named Holmes, Dancer & Co, formerly of Blunith. They will carry a general stock but make a specialty of dry goods. They expect to open up here for business in about three weeks.

The oyster supper served by the fire department Saturday night was a very fine affair, but it was very poorly patronized. This was no doubt largely due to the fact that it was not properly advertised. Northville has a good fire department and our citizens are willing to lend them all the aid in their power. The supper referred to was to raise money for a worthy cause. The department desires to procure badges for each fireman that the members when on duty may have, in lieu of a uniform, some mark of recognition whereby people may know who is a fireman and who is not. The boys did not pay expenses Saturday night and now the ladies will take hold of the matter in an endeavor to lift them out. To this end they will serve maple syrup and fritters and hot biscuit in the fire department building Saturday evening. All people who are interested in the fire department, and we believe all are, or are likely to be, are requested to put in appearance. The bill will be ten cents.

One of the medical fraternity of Detroit called on Dr. Wiggins Monday.
Sam Weil the barber has returned to Detroit. A good opening now for another.

Mr. and Mrs. E. Harmon and Mrs. Thomas Gurr are among recent grip victims.
Mrs. H. Skinner has been a caller at W. Nash's several times during the past week.
School commenced in this village on Tuesday with Miss Wallace at her old post again.
David Gage has been obliged to close his school for a time on account of an attack of grip.
Mrs. James Palmer has gone to Milford to take care of Mr. P's mother who is very ill.
Mrs. Fred Simmon of Farmington spent Sunday with her parents, W. B. Francis and wife.
C. E. Goodell and wife spent Wednesday last week with Mr. and Mrs. David Rollin of Milford.
Mrs. Alford Brown is very sick with the much dreaded epidemic, grip, with threatened pneumonia.
Mrs. Groner and daughter Mable on their way to visit in Milford spent a few days with friends here.
Miss Nettie Marshall of Saginaw en route to her term of school at Walled Lake spent this week in Novi.
Novi has once more a resident physician, Dr. Wiggins. Of course we don't wish people would be sick to give him employment, but as they must be sometimes we wish him success in his work here, and hope he will stay as long and gain as many friends as his

predecessor, Dr. Johnson, whose departure has been so much regretted by his patients.
Glas Gurr and family have moved to their farm, the old Ellis place. They have been living in Plymouth township for several years.
The ladies of the Methodist church served dinner in the basement of the house on town meeting day and took in between five and six dollars.
A number of young people walked in and took possession of the home of Wm. Gaudril on Monday and proceeded to spend the evening.
Cafroy Haggan who is one of the few remaining early settlers of this township has had two serious attacks of illness lately but is better at this writing.
Here is the returns of the election held at Novi last Sunday: Supervisor Frank B. Talbot, rep. 175; Belmont Sharp, dem. 97; Job. Leavenworth, pro. 18; Frank's majority, 67; Clerk, Geo. W. Whipple, 164; P. M. Hammond, 78; J. H. Thompson, 21; Treasurer, Randall Chapman, 158; Wm. Johnson, 51; Geo. H. Taylor, 30; Justice, A. Newton Wilson, 116; Daniel C. McGuire, 177; Abraham P. Chambers, 19; School Ins. Harry B. Clark, 165; Joe Chambers, 17; John Webb, 17; Com. H. V. P. Sperry, 167; Alex. T. Rice, 137; J. P. Taylor, 17; Member Bd. Review, Debra Flint, 161; John Bassett, 11; C. M. Thornton, 16; Constables, (all reps) with the following majorities: Levi Wooster, 71; R. Desveraux, 50; Lester Woodruff, 75; R. C. Chapman, 75. By the foregoing it will be seen that Mr. Talbot has been elected by the largest majority of any supervisor for many years. We hasten to congratulate him and assure him of our most distinguished consideration. The total vote cast was 206, a very low figure for Novi. The falling off in votes was about equally divided between the three parties and probably attributable to the inclemency of the weather. Oh, yes, come to think, the People's Party cast one lonely vote, and that was undoubtedly a mistake.
Only about thirty were assembled at the West Novi school house last Saturday night, and a motion to take up the question for discussion was voted down, only two of those listed as disputants being present. The audience was evidently not in a mood for appreciating anything very instructive so the dignity of the society was laid aside for the time and as nearly every number on the program was held by an absentee, a program was improvised for the occasion. The number of "performers" was limited to half a dozen, but they responded to repeated calls, and songs, recitations, and speeches were forth-coming till everybody got tired of laughing or making someone else laugh, or else began to feel sorry for those furnishing entertainment, although several attempts were necessary before a adjournment was made. The program arranged for Saturday evening April 6, is unusually long, as the society always endeavors to signalize the close of its winter sessions by a pleasurable entertainment, and a reading of the subjoined list

will be a sufficient guarantee of a good time. Weather permitting, as the ability of so many of those assigned numbers is too well known to require comment.

To the witty correspondent of the Record, known so well.

For instead of publication of my verses you don't see.
