HEAR 'EM BELLS?

The American Bell Foundry Company at Work.

MADE THEIR TRIAL CAST ON MONDAY.

The Work Successfully Started Off on Wednesday Afternoon.

Northville's newest industry, the American Bell Foundry, has commenced operations. The first casting trial was made Monday, but as was expected the patterns swelled and shrunk enough to make the first bell imperfect. Though notwithstanding a hole in one side of it its tone was very sweet, far surpassing even the

makers' anticipations. On Wednesday the work was begun in earnest and four very pretty bells were the result. From now on the work of casting bells will be pushed to its fullest extent. The company expect to cast from one to forty bells a day and they will weigh all the way from forty pounds to one ton each. The bells are made of steel making them durable and sweeter toned than brass bells and at the same time nearly one-half cheaper. The new foundry is equipped with the latest improved machinery and methods for handling and making the castings. Mr. Becker, formerly with one of the largest bell foundries in the west has charge of the foundry department and Mr. Diagona with the same company for several years is in charge of the office work and sales department. Both are experts at the work and hustlers for business and therefore the success of the new institution is assured from the start. The company already have a large number of orders ahead and more are coming daily.

NO COMPETITION THERE.

The Northville Post-office Doing a Rushing Business.

The Northville post-office is one of Uncle Sam's best payers. It is one of the places where the receipts are far in excess of the expense. For the year ending June 30 the total receipts of the office including box rent was \$3,906.54. There were 2,400 money orders issued and 900 paid. The number of letters registered was 480 and there were 200 received. During the period not a money order or registered package has been lost. It is safe to say that in but very few, if any, villages in the United States of 2,000 or less population does the post office receipts amount to as much as in Northville. The business is somewhat larger than last year which may be taken as an evidence of more prosperity in business circles in general.

Suburban News.

Congressman Aitken would like to be governor about next year, maybe. The Wayne Review acknowledges the necessity of running "dead ads" to save expenses. After a good sized damage suit is on their hands the Fowlerville city dads are fixing up the corporation sidewalks. The Observer is authority for the statement that day is now drawn into Fowlerville in wheel barrows instead of wagons. Oxford has ordered the Bell telephone company to replace their poles in that village with new ones—50 feet

high, painted with three coats of white paint, or vacate the main streets.

A Dundee Knight of the razor has erected a barber pole 33 feet high in front of his shop. Great feat that—regular trial.

Wonder how much the Ash Arbor Courier gets for publishing the ad "Of Interest to Ladies" and then again wonder if the editor ever read it?

Chas. Hannan of Wayne was accidentally shot in the neck Tuesday, with a flobert rifle, by another boy while camping near Belleville. He may not recover.

Milan's great electric light outfit for lighting the village proves to be a single street light, and that is furnished by private enterprise. The council are economizing.

The Enterprise of last week gave a very glowing account of the Epworth League group meeting in Farmington last week. A number of Northville Leaguers took part in the meeting.

Louis Follet, the popular chief clerk of the passenger department of the DL&N RR, has been promoted to

fill the vacancy made by the resignation of General Passenger Agent, Geo. DeLaven.

Senator Warner of Farmington was seen carrying back and mortar one day last week in a Daddy style, demonstrating the fact that he could tend a garden as well as the business of the state legislature.

A cat with a mouse in the collar made a Miffard lady think there were burglars going in and she pulled the patrol box for the whole police department. The lady does not know which she would have been the most frightened at, the mouse or the burglar.

Plymouth had a successful baby show last week. There were thirty-five entries. Zedora Kennedy was voted the prettiest, and then thirty-four mothers were read. The judges finally left town on the midnight train and will return after the floods roll by.

The overflow from Fenton's public drinking fountain meanders down through the beautiful streets and avenues of the village at a remarkable rate forming vulgar mud holes which call for a righteous kick by the inhabitants thereof. The people want a sewer or no fountain.

A Newygo doctor, was called in a hurry the other night and, though nearly wide awake, for some reason he didn't get the right name and in his disheveled endeavor to administer some chloroform he woke up about half the families in the village before the really sick man rang in a second alarm.

The Record says of its celebration on the Fourth: "Nor was there a quibble or profane word heard, or an unforgotten person seen." That's because the Record man was too high in the air—couldn't hear or see—Plymouth Mail.

Well Gray, you don't suppose the Record could keep an eye and ear on you and everybody else too, did you? We supposed of course that you would believe.

Holly people are having more fun than a box of monkeys over the stereographic reports of antics of the village council as published in the Advertiser. Their funny business don't seem half so funny when it's laid out before them in cold print. The village president is in for having the Advertiser choked off together with the city marshal. The Advertiser however is a stayer.

It is said that Oliver Perry will have over 1,000 bushels of peaches this season. Many trees are weighted to the ground with their burden of fruit. Orion Review.

This will surprise people who had formed the opinion that between the growth and the sex serpent there was nothing left around Orion this year except woodchucks and bags.

Horr and Harvey are having a hot and heavy debate this week in the windy City on the silver question. The debate furnishes interesting reading, and if closely followed, may lead to a little wider information on the over-worked silver question.—Fenton Independent.

Yes, and it may make bigger fools of

CUT ME OUT!

It will be a reminder that we are sole agents for Chase & Sanborn's "Seal Brand" Teas and Coffees. (The very finest of importations.) And for the celebrated Padang Java Coffee, the best medium grade Coffee on the market.

That we have an elegant line of Ceylon, Oolong English breakfast and Japan Teas.

That we have a magnificent display of everything to please the eye in our Crackery Department. You are especially urged to come in and look us over in this department whether you wish to buy or not.

That we have a fine assortment of Ladies and Gents Pocket books, Purses and Wallets.

That our line of Toilet Soaps is complete.

That we have a good assortment of Stationery including pen and pencil Tablets.

That we have a big line of Harmonicas.

That we lead with everything in Fruits and Vegetables.

That we have the biggest and best stock of General Groceries in town.

That we are the leaders in Fine Confections.

In fact we are the people that cater to the people's wants, and

That we want to see you.

Northville, 88 Main Street.

as than over. Both these gentlemen will get a good bit more of silver one way or another out of this debate than we will.

WILL DEDICATE IT.

The Big India Mission Bell to Be Given an Appropriate Send off.

The big bell which the American Bell Foundry Co. are to cast here within the next week or ten days for the India Mission is to be given a fitting send off here on August 20th in the shape of a dedication. The exercises will be of a public character and will probably take place in the Methodist church or in the open air. Among those from abroad who will be present are Mrs. Louise South who has charge of the missionary work at the point in India where the bell is to be sent; Mr. and Mrs. Dr. Potts of the Michigan Christian Advocate and Miss Franc Baker secretary of the Woman's Foreign Missionary Society of Michigan. Well known local speakers will assist in the exercises.

The Record will from week to week keep its readers posted on the detail of the proposed dedication.

Annual Petoskey Excursion via D. L. & N.

Will be run this year on Thursday, August 29th, affording an opportunity for everybody to visit the resorts of northern Michigan with little expense. The train will run as usual via Grand Rapids and the West Michigan "Scene to Lake," the popular route to Charlevoix, Petoskey and Bay View.

The beautiful scenery along this line north of Traverse City is alone a sufficient attraction to make the trip a delightful one.

Tickets will be good to return on all regular trains until Sept. 7, inclusive. Train will leave Plymouth at 8:05 a. m., stopping at Grand Rapids 30 minutes for dinner and arriving at Traverse City at 5:45 p. m., Charlevoix 8:45 p. m., Petoskey, Bay View 9:50 p. m. Round trip rate to either point \$5.00.

Stops will also be made at Manistee crossing (for Manistee), Thompsonville (for Frankfort), and at all stations north of Traverse City, to let off passengers. Baggage will be checked accordingly. No stop-off allowed on tickets. There's great fishing along the line north of Traverse City. Take your fish line with you.

Mr. Stevens will be missed in Northville's business circles where he has been so long.

The Milford-Northville ball game at Milford Wednesday resulted in a score of 9 to 13 in favor of Northville. The batteries were German and Wilson, Yerkes and Thompson. For about four innings the score was 4 to 0 in Northville's favor and from then to the 7th enough runs were pounded out to make it 9 to 8 in Milford's favor. Northville then ran in five but Milford failed to score either in the eighth or ninth. It was a very interesting game however and the crowd was well pleased.

The State Savings bank has a very creditable report in this issue.

A number of the local papers are again repeating the old chestnut item about the government not going to print any more return envelopes. This has been going the rounds of the papers about once every year, but inquiry at the post offices fails to verify any such thing. The Record believes however that the government has no more right to furnish printed envelopes to the public than they have to retail out clothing, groceries, or shoes.

Mankind is upon the horns of a dilemma. It knows not whether to look for escape. Scientists tell us that our drinking water is so impregnated with bacteria as to be unfit for use. Prohibitionists denounce wine, beer and whiskey. It is urged that tea produces insanity, and coffee dyspepsia and insomnia, while poison lurks even in innocent lemonade. If we drink we are threatened with death; if we do not drink we die. What is to be done? Ah, we repeat it, what are we to drink?

Northville would like to play the Plymouth boys for suckers. They will pay other men from other towns, but when it comes to a Plymouth boy taking them a lover, they don't even thank them. Just to save the Record the trouble of having to say so, we will cite the case of when Eddie Shields caught in the game against the Stearns team. Was there a man among you that said, "Eddie, how much do you owe you?" or "How much were your expenses?" or even the usual politeness of "Thanks, Eddie." Plymouth Mall.

The stearns is not running the Northville ball club but it will be interesting to know whether this is Eddie Shields kick or the Mall's.

There is a very significant sign in the times which goes not a little way toward contradicting the theory advanced by the "some papers" that possibly in the near future the business of attending to the rising generation in its most immature stages will be left wholly with the fathers rather than the mothers. The general use of bicycles by people with families has compelled some provision to be made for giving the babies an outing on the silent steed. Accordingly some inventive genius designed a rack of chair which might be attached in front of the handle bars for carrying the youngest heir of the household. Now it is a noticeable feature that these baby chairs are all attached to bicycles for men. The women's wheels are invariably without this appendage, and no provision is made for attaching any such apparatus. From constantly carrying the baby for an airing on the wheel, to rocking it to sleep in its cradle and continually attending it during its waking hours is but a short step, and one liable soon to be taken. The bicycle baby rack may be fairly regarded as the prophetic forerunner of what the men are coming to in this progressive age.

The Caro Advertiser and Milford Times say they have had experience of like this and there are others. The other day a man walked into the office and asked for a copy of the paper of June 21. He was told that the edition was entirely exhausted and that not a single extra copy was left that could be sold. He appeared much distressed and said that it contained the obituary of his wife's father, and that he would rather pay 50 cents than go without it. It was suggested that he ought to be a regular subscriber to the paper, which he answered by saying that he took the Saginaw Courier which was a pretty good weekly paper and cost him less than the Advertiser. "What did the Courier say about the death of his relative?" was asked. This rather puzzled the gentleman. He had never thought of it in this light before. Here was an instance where a half hour's time had been spent in getting the particulars of the death, funeral and past life of this relative, another half hour in writing it up, then it was put into type and printed, and had this son-in-law discovered it in time, he would have paid five cents for an extra copy containing the obituary notice. But the city paper was 25 cents a year cheaper.

The Wheeler and Dubuar families are summering at their Walled Lake cottages.

A new Webster gas engine has been added to the Record Printery to supply power for running the presses.

E. A. Wheeler was thrown from his carriage while coming in from Walled Lake yesterday morning and sustained some bruises about the shoulders.

Mrs. Kaiser has closed up her millinery store here for a month or so and returned to her home in Fenton. She will return in September for the fall opening.

And still the birth of another girl is chronicled this week. Present indications are that in the years to come there will be a great surplus of girls in the village.

For a good boulevard road Plymouth avenue is now in the best shape it has ever been, and when the gravel gets packed down in shape it will be a fine drive. The street commissioner, and the street committee are to be congratulated on their good work.

The wonderment is, what will T. G. do with his new store in the Union block. He declines to say much about it just now however. T. G. has been in the shoe business so long, that no one will be surprised to see him open up his new purchase in the near future as an exclusive shoe store.

The Granite State Provident Association a branch of which is now being organized in Northville, is the largest association of its kind in the United States. It doubtless has a number of features superior to any similar proposition yet brought before our citizens. Mr. Benjamin, general agent of the company has already secured the names of some of our best citizens. The local undertaking is deserving of success.

Try this experiment, says an exchange: Take a piece of sheet copper and another piece of sheet zinc, which you can obtain at a tinners' shop. Place these five feet apart or less apart in the soil where you plant vegetable seeds. Connect the two pieces of metal by a copper wire, burying all of that wire will be one to four inches under the surface of the soil and in close connection with the roots of the vegetable. Keep the soil damp around the pieces of metal. This will cause a growth in the vegetables from one to ten times more rapidly than they would grow if left to the ordinary process.

The United States of Today.

A young man called at our office a few days ago and showed us a work which is being introduced in this county, with a request that we examine it. We are in a position every day to judge of books and reading matter, but we consider this book, entitled the "Handbook of the United States," the best book of the kind ever published from the press. It is not a history, but a description of our country as it is today, the result of four centuries of progress. History deals with the past, while this deals with the present. We have never before seen anything like it, or its equal in quality of paper or character of illustrations for the price asked for it. Every family needs just such a work, and every young man and young woman ought to possess a copy. We have ordered a copy for ourselves, and we would be glad to know that every person in the county who is trying to improve himself, or the minds of his family, had done the same.

VACATION DAYS.

A Delightful Place to Spend Them.

The approach of vacation days is a time for selecting some interesting place for a summer outing. A few pieces combine so many advantages that will quickly suggest themselves when vacation plans are canvassed. One of these is always Bay View, rich in varied recreative delights, social and educational advantages, and growing more interesting every year. This season's summer announcements are particularly attractive, filling nearly sixty pages of the Bay View Magazine, and beautiful with a hundred half-tone views. The Flint & Pere Marquette railroad has secured a quantity of the magazines and placed liberal supply at their ticket office in this place for the public.

All persons planning a vacation, or intending to attend some summer school will be interested in the Bay View announcements. The public is invited to call for copies.

The P&PM RR will as usual make very low rates to Bay View, Aug. 31.

WEAK, WEARY AND WASTED people may become strong, vigorous and healthy by taking Foley's Sarsaparilla, a perfect blood purifier a splendid tonic. Trial size 50c. C. R. Stevens

Very low rates will be made for the ten day excursion to Petoskey August 29th, via D.L.&N and C&WM lines. Good chance to see northern resorts with little expense. Ask agents for particulars.

A GOOD APPETITE

Indicates a healthy condition of the system and the lack of it shows that the stomach and digestive organs are weak and debilitated. Hood's Sarsaparilla has wonderful power to tone and strengthen these organs and to create an appetite. By doing this it restores the body to health and prevents attacks of disease.

Hood's Sarsaparilla

Is the only true blood-purifier prominently in the public eye today.

Hood's Pills

Amazons character to them with him, he gets his reputation from other people.

Burdock Blood Bitters is nature's true remedy for constipation and indigestion. It acts directly on the bowels, the liver, the skin, and while cleansing the blood imparts strength to the digestive organs.

Attention of the people is called to the announcement of Notre Dame University in another column of this paper. This noted institution of learning, enters upon its fifty-second year with the next session, commencing Sept. 5, 1888. Parents and guardians contemplating sending their boys and young men away from home to school would do well to write for particulars to the University of Notre Dame, Indiana, before making arrangements for their education elsewhere. Nowhere in this land are there to be found better facilities for cultivating the mind and heart than are offered at Notre Dame University.

STOP IT NOW!

Stop It Quickly, Just the Same as Did Mr. Charles H. Hoffman, of 132 Ton Eyck Street, Jackson.

If you have a pain in your back, stop it! A lame back, stop it! An aching back, stop it! Do you want to know how? Let us tell you. In the first place, never try to ride yourself of pain without knowing the cause. If pain or ache exists there is a reason for it. Find out this reason and get after it. Strike cause a stiff blow with the right weapon, and its ailment will be like a puff of wind.

To get right down to it, backache is indicative of kidney disorders. A key placed there by nature. Listen to his warnings, and take up the weapons, strike before disease is reinforced with allies that can not be treated by heat of man, such as Druggists' advice. Do not let this ailment get so bad that you will have to resort to other means. There is a way out.

Mr. Charles H. Hoffman, 132 Ton Eyck Street, Jackson, Mich. He says: "I have suffered for a long time from a kidney and bladder disorder which has at times rendered me incapable of work; have been at the hospital for my complaint and discharged from there as cured. But the ailment has invariably come back again. Some time ago I heard of Dr. Williams' Pink Pills, and began taking them, with most gratifying results. My urinary complaints which bothered me greatly are very much improved, and the pain and stiffness in my back has entirely left me. My general condition is much improved. I would not like to be without Dr. Williams' Pink Pills. I think others should know what a valuable remedy it is."

For sale by all druggists. Price 50 cents. Mailed by Foster-McClellan Co., 233 N. 2nd St., N. Y. Sole agents for the U. S. Remedy Co., 100 N. 2nd St., N. Y., and take no other.

SALM.

Much sympathy is expressed for Mr. and Mrs. Mosher in the loss of their little child last week.

Dr. George A. Waterman of the Connecticut State Agricultural College arrived here on Saturday for his annual vacation.

The severe drouth had so lessened the supply of milk at the cheese factory that it was thought best to suspend operations for a time at least. The drouth however has been getting black eyes for the past week about every alternate day so that now a prosperous future seems assured for the growing corn and potato crops and for late oats. Everybody is jubilant over the showers we have received.

Messrs. Thompson and Street delegates from the Y.P.C.E. of the Congregational church at Pelee's Corners to the recent national convention of that society at Boston, returned on Friday of last week and by request of Pastor Shaugon they occupied the hour of Sunday morning service. Submitting quite a full report of what they saw and heard at the convention. The large audience was thoroughly interested in their report.

Mrs. Aaron Dean whose sickness has been mentioned frequently in this correspondence, died at her home in this village on Wednesday of last week. She had been a great sufferer for many months. She was an early settler in this locality, having come to Michigan with her parents, the late Mr. and Mrs. John Bennett, about the year 1832, being only six years of age. Her father settled about one mile west of here on the farm now owned and occupied by his grand-son, John D. Bennett. She was married to Aaron Dean about the year 1848. She is survived by her husband, and one son who resides in Detroit and one daughter a resident of Kansas. Mrs. Dean was a kind hearted, christian lady, who had the esteem and respect of her entire circle of acquaintance. The funeral took place at the Baptist church on Thursday afternoon, conducted by Rev. W. H. Benton, assisted by Mr. Shannon, her own pastor; Rev. Mr. Conrad, being out of town.
