WITH AN AXE!

If Necessary, Do the Village Council

PROPOSE TO ENFORCE THEIR JUST RIGHTS.

The Telephone Poles Must Be Moved As Ordered.

Peddler's and Other Ordinances to Be Rigidly Enforced.

The council meeting, Monday night, was really livelier than it seemed to the few spectators and future events may tell whether the village has any rights to be respected. The council propose to know whether their orders and ordinances are to be obeyed or not.

Sometime ago the council ordered the Bell Co. to remove their telephone poles to another street and to make the poles look respectable. The company said they would do so but they have not and in consequence the following resolution was unanimously adopted:

"RESOLVED That the street commissioner be instructed to remove the telephone poles from Main street if the Bell Telephone Co. does not do so by November 15, and the clerk be instructed to forward a copy of these resolutions to the telephone company."

The street committee reported unfavorably on the extension of Rogers street at the present time. They said they thought it would be a nice thing to extend it but finances at present were too short. Mr. Charter objected to it and would want \$500 for a right of way through his place. The matter was finally laid on the table.

For the fire alarm committee Ald. Yerkles said that it would be necessary to lower the tower two feet and to do this and get ready for the bell. Mr. Smith wanted \$55 for the job. The Bell Co. wanted \$165 for everything complete or \$50 for bell and \$10 for hanging, by employing Mr. Smith they would save \$20 and that is what they proposed to do. The alarm will probably be in complete order by Saturday.

In regard to the Elliott case the president said he had seen the prosecuting attorney as ordered by the council, and he had informed him that the case would be looked after and the village notified at the proper time.

For the watchman's clock committee Ald. Burgess said the Globe Co. had not yet been able to give the figures on an electric timer. Merritt & Co. had offered to supply a time clock at a very low price if located in his store. Mr. Trotter also had a small one on exhibit. Was in favor of electric clock however as time would soon come when an extension of the watchman's rounds would be necessary and if they were going to purchase, they had better get one to meet future requirements. The committee was continued.

Ald. Phillips who was absent sent in a report of a bad street crossing. Ald. Rayson who is chairman of street committee, replied that Ald. Phillips (who was chairman of the sidewalk committee) was paying more attention to his business than to his own. The walk in front of Mr. Elliott's place on Yerkles street was in an awfully dangerous condition and there were other places about the village also in a bad shape. The council thought the special assessors should get a hustle on themselves and report on the Thornton estate walk. F. D. Adams was chairman.

Ald. Rayson said the street committee had attempted to put in a sewer in front of Knapp's place on Main street but had been scared out by some of the neighbors with threats of injunction and other modes of vengeance. Didn't see what they could do till there was an appropriation made to put in a sewer to the river. Could not drain water from one place and dump on some one else.

Ald. Burgess reported that Mr. Gorton wanted something fixed by the street commissioner at his place. Ald. Rayson replied that they had already put in three sewers for Mr. Gorton and if he wasn't satisfied now they would have them nickel plated. He thought they had had enough fixing down there and he thought Mr. Gorton didn't keep in touch with the enterprise because he hadn't mown the grass in front of his place this summer.

The marshal asked information

about the rights of peddlers under the new ordinance. He said the one here Saturday blockaded the street corner Main and Center with no attempt at moving. The council gave the marshal to understand that he was there to enforce the ordinance. The marshal said he would do it to the extent of having a boarder or two in the cooler over Sunday.

SUNDAY'S SERVICES.

Rev. C. T. Allen Makes a Rousing Address in the Morning and Mrs. Law Follows in the Evening.

Rev. C. T. Allen, p. a., occupied the Methodist pulpit Sunday morning and delivered a splendid sermon. He took some text and greater words than these shall be do. He believed that these prophetic words of Christ meant for the world of today. He said that with the exception of raising the dead he believed that man had done and would yet do even greater miracles than were performed by Christ. He spoke of the discovery of steam, and electricity, as a partial fulfillment of the prophecy. He believed electricity to be yet in its infancy and that in the near future it would not only furnish us light and locomotion but heat as well and he believed that with it man would yet be able to even control the very winds. Mr. Allen was listened to very attentively by his audience, and his sermon was highly appreciated. In administering the sacrament the individual service was used. This part of the service was very beautiful and impressive. The church was crowded to overflowing.

In the evening Mrs. E. N. Law of Baraga conducted a union gospel temperance meeting in the same church. Mrs. Law has been engaged in WCFU work for some ten years and is an earnest christian worker. She is a fluent speaker and uses just enough humor to spice up her thoughts and make her talks interesting above the average speakers. She told of the proposed Sunday business meeting in the last congress in Washington just before adjournment but said that many got so gloriously drunk on Saturday and Sunday night that they were unable to meet and do business. Then she told how they kept the "official" bar going all day Sunday, so bravely that \$200 was expended by the proprietor for extra bartenders. Coming nearer home she said that our own Michigan senate adjourned last winter with a \$400 drunk.

Mrs. Law spoke before the ladies at the Baptist church in the afternoon.

MILK STATION VS CHEESE FACTORY.

What Mr. C. E. Rogers Has to Say on the Subject.

Editor Record: At present there are some queer statements being made in our local neighboring newspapers concerning the advisability of selling milk to a regular buyer of milk at a stated price for each and every month in the year or sending it to a cheese factory and taking whatever it may bring on settlement day, and from the reading one would be led to believe that farmers are "chumps" and must be told how to sell their products and attend to their business. 'Tis not strange that some of the cheese factory owners should "sneak" when they see a very profitable business going away from them. For years farmers have been taking their milk to cheese factories because they had no other market and paid 20 per pound for making the cheese (these are war time prices) while in the state of New York farmers have been paying from 10 to 14c per pound for making, and they are getting most of their money each month. No wonder the cheese factory owners rush into print, or get the "Novi Farmer" persuaded to do the same, in a desperate attempt to keep the farmer from selling his milk where it will bring an average of about 10 per cent more than at a cheese factory for that 20 per pound and no risk was concerned to become a thing of the past. There is no reason why the "Novi Farmer" should not take his milk to a cheese factory if he wishes to, we do not think any one will object. He says it is "no uncommon thing" to hear farmers remark that "why is good for nothing for feed purposes." No doubt they say so and no doubt it is true for they certainly know. The very able article tells us that whey contains 7.03 per cent of solids. Now pure fresh milk contains only about 12 per cent of solids and if we leave 7.03 per cent in the whey we have 5.47 per cent left. In other words we take about 51 pounds of milk solids out of each 100 pounds of milk for cheese. Now if we make 10 pounds of cheese we have in that 20 pounds of milk we will have in that 20 pounds of cheese about 31 pounds of milk solids and 14 pounds of water (less the very small amount of salt used). The whey would be rather wet cheese being nearly half water.

During the large cheese factory show of milk in May and June the patrons realize this year about 50c per 100 pounds while the milk house prices are 75c or one cent more than the factory prices. A large share of the farmers here are going into winter dairying for they have learned that there is no money in raising summer milk and letting the cow go dry in winter when she will eat more.

When Frank Selts was arraigned in a Chicago police court the other day and was fined \$5 and costs he had no money and would have had to go to prison had he not been a father. He was allowed to go out and raise enough money to pay his fine, his three months' old baby being accepted as bail until he returned. Young men of blonious and irregular habits will do well to make a note of this case and prepare to furnish bail if necessary.

MILK STATION VS. CHEESE FACTORY.

Continued from page one.

Thanks to the fact that all summer long the farmer has been able to care for the cows and a cow that is fresh in September and October will give more pounds of milk during the year than if she was fresh in April if she is properly fed and fed. Let the cow graze during the winter season when it costs less to keep her and have her give milk during the high price. It only costs a little more, a pound a month per day will do it. I have not been able to figure out how the farmer gets the average of the milk house, say to the price of the price average \$1.00 and if the producers have, winter milk the price will average more, and at the same time gets the cheese factory prices. So when the milk money prices were figured, the cheese prices the average for the cheese factory would be 75c per 100 pounds. The cheese factories last year paid about 72c the average season and this year about 65c per 100 pounds and during May and June less than 50c per 100 pounds. I have figured some time, and I will confess, I am not able to make that figure 80c per 100 pounds. I am figuring on the prices of today and not of the past.

I would like to ask Mr. Warner if his price for making and selling the cheese has decreased in a same proportion as the price of cheese in the last two years or whether the patrons have been the only losers by the low prices.

I don't think the farmers in this locality need to be told which market is the better as the farmers committee got 429 cows signed for the milk house in two days time and the number can be increased to 800. When they had a chance to sell their milk 305 days in the year and get their money every 30 days and get about 40 per cent more for it than they were getting they took it and they did not have to go down and consult the milk union or the cheese factory men. There is more milk produced within a radius of 4 miles from Northville than any locality of the same size in the state of Michigan but to attempt to argue between selling milk at a stated price twelve months in the year and on an average of \$1.00 per 100 pounds as against a cheese factory is absurd and the gentleman who wrote over the non-de-plume of "No Farmer" should know better than to attempt it.

A farmer taking milk to a cheese factory has a market only 8 months of the year at the most. He furnishes the milk and pays the factory 30c per pound and at the end of the year gets whatever may be left. He furnishes all the capital except an expensive factory and takes all the risk of loss.

When he sells his milk for so much per 100 pounds he knows just what he is doing when his milk is accepted at the milk house. It is sold and every month he gets his cash, besides this he has a market the year round and instead of having to dry his cows up in the fall and feeding all winter without any income from them he can milk them and get his \$1.20 per 100 pounds for the milk.

The Detroit milk market was solicited by the milk producers and not the Detroit buyers. There was no bonus paid to any one but if I had a bonus to offer any one I should look up the man that is always trying to make out that some one else got a bonus for his work. It is an old saying that a wounded bird flutters and I am much surprised to see the large amount of fluttering that has been done over this milk contract.

SUCCESSFUL MERCHANDISING.

Good buying is half in the successful Dry Goods Business of these times. With a corps of seven, thoroughly competent and interested buyers, we secure bargains that can't be equaled by any store except the mammoth department stores. We have an instance of that this week.

Wrappers.

A prominent New York manufacturer of Wrappers desired to dispose of his stock. Our eastern representative, Mr. Branch, took the stock and shipped portions of it to our three stores. They will be on sale this week at just about 1-4 less than regular prices. 75c wrappers, 57c. \$1.00 wrappers, 75c. \$1.25 wrappers, \$1.00. \$1.50 wrappers, \$1.19, etc.

Comforts and Blankets.

These cold nights makes one think of more bedding. We can't make prices, but you look all around, get a good idea of quality, price and come here and see just how much we can save you in the different grades.

Underwear.

When sizes get broken on any line we can't buy more of at once, we get them together and put a price on them to sell at once. Our numbers 110 and 105, Ladies' wool ribbed, have reached that point, and we sell them at 87c per garment. They are the best grade \$1.00 goods. The second shipment of the natural gray wool underwear, Ladies', to sell at \$1.00 was not up to the first lot in quality, so we have refused to receive it, and until we get more our \$1.25 fine Australian wool goods will be sold at \$1.00.

Shoes.

Where there is a will there is a way. If a store wants to sell goods cheap they can. The trouble is most of them don't want to sell as cheap as we do. Ladies' common Rubbers, 25 cents. Ladies' storm Rubbers, 32 cents. Men's Rubber Boots, \$2.65. Felt Boots and Rubbers, \$1.85. Men's common Rubbers, 45 cents. All new Rubbers, bought this fall—Boston, Lycoming, Woonsocket.

FOR SALE—Fine 50 acre farm located less than a mile from Northville. Nice location, good buildings, easy terms. Apply to Record office 12d.
FOR SALE OR EXCHANGE—Most desirable residence on Yrkes St. north side also choice building lots on High St. north containing nearly a acre.

If Northville can't have a fair ground and horse racing it can have an annual two or three day's baby show which, if properly managed, would be a great attraction and a good financial venture. Here is a pointer for some local society to consider.
The Record believes the council did a wise thing in tabling the petition asking for the extension of Rogers street on over the hill to Randolph street. The time may come when this extension will be necessary, but at present there seems to be a greater demand for the betterment of streets already existing than for the expenditure of funds for making more streets.

THE NORTHVILLE RECORD.

FRIDAY, NOVEMBER 8, 1895.

EXTRA PAGE

MEAD'S MILLS.

Kate Hughes is at Northville this week.
Mr. Benton is making some repairs on his house.
Miss Hillner visited Nannie Benton the fore part of the week.
Mrs. Silas Sly and Mrs. Cal Stevens visited Mrs. H. Smith in Wixom Tuesday.
The big and little boys of this place did quite a business hallowe'en night, scattering things about.
C. E. Rogers had a thoroughbred colt so badly injured by one of his cows Monday night that it had to be killed.

SALEM.

Mrs. Hiram Thayer left yesterday to visit Ludington relatives.
Mrs. Dewey Waterman is visiting her sister, Mrs. Harry Hutton, in Ludington.
Flood Smith whose injuries were noted last week is doing well under the care of Dr. Walde.
The entertainment given by Miss Belle Preston of Detroit, at the Baptist church last Friday evening, drew a good house and was thoroughly appreciated. Her impersonations were true to life and nature and won much applause.
Hallowe'en frolics were out in force Oct. 31st. The many vicious pranks they played entitle them to a taste of felon's fare. Intended jokes that are expensive or painful for their victims are not funny but sinful rather, and their perpetrators deserve condign punishment.
Miss Carrie Thayer who has made her home with her brother Hiram for some years left Monday evening for Washington where she will reside with another brother. Miss Lucy Gould of Grand Rapids accompanied her. Forty years ago Miss Gould was a resident of Northville in the employ of Mrs. Sam Williams who ran a millinery store.

Council Proceedings.

Regular meeting of the Northville village council was held Nov. 4, 1895. Present: President Hutton; Councilmen Burgess, Rayson, Dolph, Verkes. Minutes of last meeting read and approved.
Following bills read and ordered paid: H. M. Dunlap, water works labor, \$4.80; Globe Furn. Co., lights, 94 93; R. Mooney, cleaning hall, 50c; Mrs. Emery, gravel, 40c; II. Mooney and others, street work 4.05.
On motion petition relative to extension of Rogers street was laid on table.
On motion report of clock committee was accepted and committee continued.
Moved and supported resolutions relative to removing telephone poles from Main street if not done by the company as ordered by Nov. 15 be adopted. Carried.
On motion a new cross walk was ordered laid corner West and Main street if old one could not be properly repaired.
On motion walk was ordered built on south side Dunlap street from incompleteness at W. H. Stark's place to west line of Mr. Porter's place.
On motion the fire com. was instructed to have stair way to council chamber enclosed. Council adjourned.
W. H. NICHOLS, Clerk.
A special meeting of the council was held Nov. 6, 1895. Present: J. M. Burgess, Pres. pro tem; Trustees Dolph, Phillips, Rayson.
Jake Miller asked permission to build a wooden building 17x32, one story high, iron roof, said building to be built on Center street south of building now occupied by said Miller.
Motion made and supported that the request be not granted. Carried.
Council adjourned.
Wm. H. NICHOLS, Clerk.

Northville School Notes.

Mrs. Walker and Mrs. Long visited the primary room last week.
Albert Long taught the 4th grade Tuesday, Miss Clark being ill.
The 7th and 8th grades are spending a few moments on science each day.
The 10th grade have finished Algebra I and are now taking up Algebra II.
Recently, a teacher in the primary department of our school said: "Can any little boy tell me about Good Friday?" She was nearly paralyzed when a little white-headed fellow jumped up and answered. "He was

the fellow that done chores for Robin on Crusoe."
Albert Conrad, a foreign scholar is detained from school on account of injuries received a few days ago.
The following pupils of the 5th and 6th grades have not been absent or tardy during the month of September and October: Elmore Wilson, Vernie Smith, Fred Rasch, David Clarkson, Ammit Wilson, Lucie Calkins, Claud Walters, Bourdon Parmenter, Gertrude McCutcheon, Fred Cole, Walter Evans, Fred Homan, Clyde Lewis, Minnie Sackett, Vassel Wilson, Inza Lee, Roy VanValkenburg, Eddie VanValkenburg, Lee Becker, Eddie Perrin, Eddie Johnson.

Suburban News.

Dr. and Mrs. Bell of Plymouth were presented with a new ring last week. It was a ten pound girl.
On hallowe'en the bell was taken from the belfry of the school-house at Fenton and dumped into the river.
If a \$30,000 bond will do it Corunna will have both electric lights and water works in the near future.
Another successful revival may be looked for again in Ypsilanti. The earthquake of last week scared the citizens to a realization of their sins worse than did the cyclone of a few years ago.

Some of our young ladies masquer-
aded a well-known society gen-
tleman in ladies apparel last week and
made several calls on lady friends in-
troducing the gent as a lady friend
visiting from a distance. The joke
was not discovered until the departure
when a general introduction and laugh
was forthcoming, much to the em-
barassment of the hostess.

The OES party given in the rink
Friday evening was a delightful affair
as might have been expected because
anything the OES ladies plan is sure to
be very nice. There was a very large
crowd present and the ladies will net a
neat little sum. Tinham's orchestra
furnished the very excellent music.
The party will bear repeating and the
adies will confer a favor by doing.

The exchange editor laid awake
nights to write up a couple columns of
"Suburbanisms" as usual this week
and then at the last moment the lady
who has charge of making up the paper
gave the information that two columns
of type matter had to be crowded out
and as those "isms" were considered of
the least importance she cruelly laid
them in their brass coffin for one week
—some of them perhaps forever.

The new peddling license of \$2.00
instead of \$5.00 went into effect for the
first time Saturday, but it was not
noticed that anyone bought fruit any
cheaper, and the village tax payers
were out just \$2.00. Thinking people
believe that supply and demand govern
prices and that demand makes the
supply. Peddlers have not set price
for their merchandise and it may be
understood that they will in every
case get for their goods the highest
possible price.

T. G. Richardson has purchased one
of the power "Tornado" feed cutters
for his farm. It works like a charm
and T. G. has branched out into a new
idea in the feeding line. He has had a
big clean-box made and after mixing
the cut fodder with mill feed he steams
up a couple feedings in the steam-box.
The cows eat the stuff with a relish
and in two days' trial there was a gain
of 24 lb of milk. Mr. Richardson has the
theory which farmers may profit by
investigating.

A well known Northville man while
preparing his toilet to go out to a tea
the other night had a remarkable ex-
perience. He couldn't find his shoes
and of course he was had mislaid
them. Who ever heard of a man mis-
laying anything. The minutes flew
by as the search progressed—the neck
aife and exasperated husband—till
fifteen minutes past ten time when he
happened to think he had taken his
feet gear to the shoe shop for repairs
that morning and had forgotten to
bring them home.

The act providing a sentence of two
years for persons convicted of being
drunk more than twice in a year will
go into effect all over the state, the en-
actment of the last legislature to that
effect having been sent out by the sec-
retary of state. The law is intended
to apply to cases of habitual drunk-
ness. Hereafter magistrates will be
obliged to keep a record of all drunks
and disorders brought before them.
When it is known that a person has
been twice convicted in the year he
must be bound to a higher court where
upon conviction, he may receive a
sentence of two years.

The preparations for the big masonic
fair and exposition which is to be held
in the new masonic temple, Lafayette
avenue and First street, Detroit, Nov.
25-Dec. 7, have in the past week rapid-
ly approached completion. Prof.
Streudell, the master of electrical ap-
pliances, who is considered a wonder
even among electricians, has been
secured. In this department the pro-
fessor will illustrate the progress of
electricity during the century and
show how even nature can be dupli-
cated from dewy mora until eve by
electrical appliances. Miss Hortense
VanZile, the distinguished daughter of
Judge VanZile, has been secured for
dramatic readings. It is announce-
ed that in the Turkish harem which
is to form one of the main features
of the Oriental fairy-
land, an even 100 of the most
beautiful maidens of Detroit, will be
present. The committee on program
and souvenir, of which Hon. F. B.
Dickerson is the chairman, has pre-
pared a souvenir plate on which a pic-
ture of the temple is reproduced in
repoussé, a program which contains
the history of masonry in Michigan,
with interesting information and an
official daily bulletin which will be
distributed free to all at the fair.

If Northville can't have a fair
ground and horse racing it can have
an annual two or three day baby show
which, if properly managed, would be
a great attraction and a good financial
venture. Here is a pointer for some
local society to consider.

The Record believes the council did
a wise thing in fabling the petition
asking for the extension of Rogers
street on over the hill to Randolph
street. The time may come when this
extension will be necessary, but at
present there seems to be a greater de-
mand for the betterment of streets
already existing than for the expendi-
ture of funds for making more streets.

Linden avenue goes through to Ran-
dolph street and this is but one block
from Rogers and that distance is not
very inconvenient for existing needs.

The expense for the extension called
for would probably reach \$800. This
amount when it may be spared, can
better be used in work on the hills and
streets at the approaching points of the
corporation.

Wednesday's baby show was a great
success if babies and people go to prove
anything. The 500 or more persons
present gave conclusive evidence of
what advertising will do. The crowd
was simply a jam and even in the big
rink it was almost impossible to see or
be seen; judge of the judged. No pre-
parations had been made for such a
large attendance and with an exhibit
of 90 of the brightest, prettiest, sweet-
est, best natured babies to be found in
the state of Michigan, the judges, sur-
rounded by half a thousand anxious
people, had a task before them capable
of making even a strong man shudder.

In the contest, in addition to North-
ville, there were babies from Detroit,
South Lyon, Milford, Plymouth, Novi,
Farmington, Fowlerville, and many
other places. The prizes awarded gave
as much satisfaction as could possibly
be expected under the circumstances.

Things were in such confusion that
The Record's representative was un-
able to keep any track of the prize
winners except in a very few cases.
For the prettiest baby the two highest
votes were 51 for Dula Martin, North-
ville; 50 for Beatrice Keyes. Farming-
ton and they were awarded first and
second prizes respectively. Best talk-
ing boy, 1st prize, Mrs. Dr. Turner's
child, 2d, Russell Puvige, baby with
most hair, Don Ball, longest hair,
Floyd Evans. If a complete list can
be obtained it will be published next
week. The WCTU ladies will net
something like \$30.00 which is pretty
good considering that but 16 cents
admission was charged. Could the
event have occurred in the evening
when the factory employes would have
had a chance to be present the crowd
would have been simply awfl.

The dog answered the steamer's salute. From the Daily Eastern Argus: The steamer Forest Queen, Sunday, had an excursion party from Bideford on board, and at the request of some of the excursionists Captain Oliver ran out by Wood Island. As he passed the light he saluted it with the customary three whistles. Scarcely had the echoes died away when a dog dashed out of the lighthouse and ran at full speed toward the fog bell. He was followed by a man. It is needless to say that the dog arrived at the bell first, and immediately began to jump into the air as though trying to reach something. When the man arrived on the spot it was readily seen what was the trouble. The bell rope was hung upon a nail and the dog could not reach it. However, as soon as the man removed the rope from the nail the dog seized it in his teeth and with a great deal of apparent satisfaction answered the steamer's salute. The dog knows his business, and never fails to return a steamer's salute.

Historical Hint.
"Would to God that night or butcher would come!" exclaimed the duke of Wellington, as his anxious eye surveyed the dark masses of Napoleon's forces.
"Night will be here in three hours and eleven minutes," said the duke.
"Alas! I have lost my watch," exclaimed the duke.
"How about honor?" asked a soldier.
"Oh! we didn't have any of that," said the duke.
"Soldiers," exclaimed Napoleon, "centuries look down upon you from the pyramids."
"Oh, they look down on us, do they?" asked the duke.
"Well, I should think they would feel stuck up!" said the duke.
"They are out of sight!" said the duke.
"Gentlemen of the English Guard, fire first!" shouted the French guards at Fontenoy as they encountered themselves behind a brick wall—Boson transcript.

See Hunter's Luck.
From the Bangor Daily News: Several Cambridge young men recently went on a bee hunt, which, in some respects, was a remarkable affair. After a long tramp and much patient waiting they located what they thought was a swarm of bees in a hollow tree. Axes were procured, the tree fell, but investigation revealed nothing but a hornet's nest. They were sure there were some bees somewhere, not far off, and the next day went again. This time they found a big birch tree that showed all the signs of containing the much-sought-for prize. With renewed courage they went to work, the tree fell, a large piece was cut out where the honey was supposed to be, and they found another hornet's nest. There were at least three quarts of the buzzing, infuriated yellow jackets, and the woe-begone money gatherers beat a hasty retreat.

Wedding and Funeral Together.
Ashby, Mich.—Special to Cleveland Leader: Joan A. Chittenden, on his death bed, requested that his sister, Louise, and her betrothed, Charles A. Holmden, be married over his coffin. The wedding originally was to have taken place September 25, but the date was changed to comply with the wish of the dying man, and while he lay in his coffin yesterday his sister and her sweetheart joined hands over the coffin while the Rev. John Glaze performed the marriage ceremony. Then he delivered the funeral oration, and the newly married couple occupied the first carriage behind the hearse.

A GREAT EXPENSE.

To Carry on an Almost Helpless Fight.

Our representative called at 26 Battle Creek Avenue, the residence of S. I. Robbins, and in an interview with him brought out the following facts: Mr. Robbins tells of his wife's experience in a manner that carries conviction, with his words. He says: "I am sorry my wife is not at home this P. M., but no one knows better than I how she has suffered during past years. For twenty years she has been afflicted with the various forms of kidney complaint and an enlargement of the liver. She was often confined to her bed for more than two weeks at a time suffering untold agony. She has doctored constantly, and I have paid out in doctors' bills for her alone as much as \$800.00, and then her belief was only such that she would be able to be around for a spell. Some time ago she felt the symptoms of another attack coming on, such as a pain in through the kidneys and back. I had to know what caused me to get a box of Doan's Kidney Pills. Instead of sending for the family physician, however, I got some and she commenced their use. It was a surprise to us both to see their action; the attack was warded off, and she continued taking them with marked improvement each day of their use. She is better now than she has been in years, the pain in the back and others in the kidneys have entirely gone. Hardly a day goes by that we do not mention the great good Doan's Kidney Pills have done for her. I was always opposed to patent medicines, but confess that my wife's experience with Doan's Kidney Pills has done much to change my opinions. If it were not for these pills she would not have been able to be out this afternoon."

Found His Overcoat.
The train stopped in the great dark station of a New England city and a gentleman who had been dozing during the last hour of his journey got up in haste, seized his bag and hurried out of the car. In a moment he came rushing back; he had forgotten his overcoat, says the Youth's Companion. But no overcoat was there, for his son had come along from the smoking car, recognized it and carried it out.
"Where's my coat?" exclaimed the owner, excitedly, diving under the seat and knocking off his hat as he rose. "This is my seat! I'm sure I left it here."
But the persons sitting near had just entered the car and took no interest in him; nobody answered. "Oh! he hurried and again missed his son, who had gone into the station to inquire about tickets. He was sure his coat must be in that car. There was nothing for it but to go back, and back he went.
Meanwhile a lady attired in black with a long elegant veil over her face, entered the car and sat in the corner, her veil over her face. In rushed the excited gentleman. The train was about to start and if he was to find his coat it was now or never.
"There it is," he cried in triumph. "I knew it was there!"
He plunged forward and literally grabbed at the veiled lady. She shrieked, he groined an apology, the train started and he was left alone in the car.
"For three years I suffered from salt rheumatism. It covered my hands to such an extent that I could not wash them. Two bottles of Burdock Blood Bitters cured me." I. B. Young, Popes Mills, St. Lawrence county, N. Y.

And This Never Got There.
"Lesson—Mamma, there won't be an apartment house in heaven, will there?"
"Her Mother—Why not, dear?"
"Bessie—Cause, how could the run 'em without fault?"

BEHOLD ME AND DREAD MY VENGEANCE.
had determined on his course of conduct.
That very day he went through a little drama of his own concoction, received a letter, declared that urgent business required his presence in another city, packed a valise, wrapped himself in a shawl, bid adieu to his wife and jumped into a cab at the door.
At midnight he was secretly assisted to re-enter the house by a back window, and repaired to his dressing room secretly provisioned for a siege, with potted meats, biscuit, canned fruits, and other delicacies, by the active Perkins.
There he remained for at least a week before Perkins, glancing over the morning paper, saw a list of the killed and wounded in great black letters on the front page, with Mr. Royal Raspberry's name at the head thereof.
Then Perkins heart quailed.
"It's too bad for misses," he said. "If she is sorry it may kill her, if she isn't she'll pay for it. I'll tell her, and if I go for it, I hope I'll find a master with more hair to fix and less anxious to have it done various and becoming."

Then Perkins took the paper and walked into his lady's sitting room. "Please," he said, "I've got something to tell you—don't be alarmed—it's about master."

Gay Jackets of Fish Skin.
The Eskimos of Alaska make jackets of two skin of the red-spotted trout of that region, known as the Dolly Varden, which they tan for this purpose. The Dolly Varden is a handsome fish of a purplish gray color. It attains a length of 2½ feet and a weight of 10 to 12 pounds. The skin is waterproof, and, with its bright red spots, it makes a very showy jacket.

A genuine compliment, especially from those who rarely speak so, is very delightful.
