FARMINGTON'S SHOW.

BABY EXHIBIT AND BAZAAR FOR OCT. 9 AND 10.

Fifteen Classes and An Endless Number of Prizes.

Farmington people are anticipating their coming bazaar and baby show. Oct. 9 and 10 will be one of the most pleasant and successful events ever held in that village. It will be given under the auspices of the Helping Hand society in the town hall.

On Friday afternoon the bazaar will be opened for the exhibit and sale of all kinds of useful and fancy articles, interspersed with music and other interesting means of special entertainment. Admission free.

On Saturday afternoon, the baby show begins for which the small admission of ten cents will be charged.

All babies under three years are eligible. Prize will be offered in classes as follows: Prettiest, handsomest, tallest and shortest baby all under 2 years. For the fastest, least expeditious and crookedest baby each under 1 yr. For the baby with most hair, least hair, largest foot, smallest foot, each under 6 months. For best recitation, best singing baby under 3 years. For prettiest, baby baller. Entries open to world. A number of prizes will be offered in each class.

In the evening a "New Woman" a bright and amusing comedy will be presented to which an admission fee of ten cents will be charged.

A number of Northville babies will be in the race.

Suburban News.

She makes the bread herself, to save expense, she says, you know, And what is very true, She doesn't keep the dough.

Kittie Sauer is the name of a sweet Milan school matron.

Oliver gets the only Washitaway county pumpkin show this season.

Miss Lavinia Paddock, a former well known Plymouth lady, was married Sept. 15.

If the Advertiser didn't tell a little about it, a Holly man has harvested a citron which weighs fifty pounds.

Superintendent Morrison, of the Milford schools is just recovering from a successful operation for appendicitis.

Kate Shaeffer of Brighton got tired of the old family name and last week made a swap with Charley Woollen, of the same settlement for his.

A stock company composed of the business men of Rockwood, Flat Rock, Carleton and Waltz are constructing a telephone line to connect those towns.

The Fowlerville Observer, we observe, has had a column knocked off all around and hereafter will do business as a five column paper instead of six.

Mayor Pingree was one of the attractions at the Plymouth fair, last week Friday. A large number of well known county politicians and office holders were also present.

Col. Lou Burt, county auditor, is getting a great reputation on his feats of ventriloquism and conjuring, at which he is very clever. On the community campaign tour Col. Lou and his entertainment is proving a great attraction.

The editor of the Trenton Visitor is playing in hard luck these days. Not only is the young lady ill herself but two of her children are also in a like condition. Mrs. Ayers is a woman of both grit and bustle and is deserving of much sympathy.

The grit of Flat Rock's new night watch was tested last week by a foot pad attack, in which the watchman put his foes to route by five ill-directed shots from his revolver. It is not known whether it was a test of bravery put up by local talent or a genuine invasion by professional highwaymen.

Minnie Kelley of Holly came very near going "over the river" by the bicycle route last week. While riding the iron steed along the depot platform the animal became frightened at a passing freight train and finally threw her between the track and the platform. The conductor of the train had presence of mind enough to seize the young lady and hold her fast against the platform until the train had safely passed. It was rather a narrow escape.

and it is quite safe to say that Minnie will no longer perambulate along the railroad track a stride of a wheel.

A bogus detective "did" the Orion hotel man for \$20 last week by obtaining liquor from his non-licensed bar and then settling the case in the name of the government for the above sum. The landlord got his money back but is now up on a genuine arrest for selling the "boozey" without legal permission.

A peculiar accident happened to John Belles' bright twelve year old boy of Orion one day last week. While attempting to lift a squash the stem pulled out and the released weight caused the stem to fly up and strike him in the eye. The ball of the eye was penetrated to such an extent that it is feared he may lose the sight of it.

On Thursday Frank Hudson, a machinist of Milford while insane struck William Emo, a fellow workman twice on the head with a two-pound hammer, crushing in his skull. Emo was still alive at last report, but was in a critical condition. Hudson was taken to the Pontiac asylum Sunday. He appeared very quiet but had a wild look in his eyes.

If the Brighton Argus man would die with any kind of reason, no one would seriously object even if it were discovered but when he acknowledges the receipt of a tomato measuring 18 inches in diameter, weighing 2 pounds, as he did last week he not only knocks all reason higher than Gilderoy's kite but at the same time brings us more truthful editors into general disrepute.

As was expected, A. N. Kimmis of Novi was re-nominated by the republicans of the second district of Oakland county at Holly last week for state representative. Fred M. Warner of Farmington was nominated for state senator at Pontiac Tuesday. A person would be obliged to look far and long through the peninsula state to find a pair of more worthy, honorable and upright gentlemen than these.

Covina agreed to give David R. Salisbury \$3,000 bonus for locating his shoe factory there. David started his shoe mitten machines with forty men to work as he agreed but new come foggy tax-payers rise up and injure the city treasurer against paying the bonus on the grounds that the city ordinance does not legally so provide.

Legal authority has been obtained on both sides and by the time the matter is settled the \$3,000 will have been expended and the factory will be pegging away in some other town.

Randall Colvin Died Tuesday.

Randall Colvin, one of the best known, and among the most highly respected citizens of our village, died Tuesday afternoon after a long and suffering illness. He was seventy-five years of age and had lived in and near Northville all his life. He was a member of the Baptist church and the former pastor here, Rev. Mr. Arnold of Wayne, conducts the funeral service which occurs from the home this afternoon. The burial is at Novi. Deceased leaves a widow but no children.

Walled Lake News.

George Ingerson has gone north on a business trip.

Nice Allie Nestitt of Kalamazoo is visiting her sister, Mrs. Oel Moore.

Will Parmenter has bought the store and residence lately occupied by Thos. Palmer.

John Erwin entertained his Sunday school class one afternoon last week. An enjoyable time is reported.

Mr. and Mrs. Hyde Smith and daughter Aggie attended the wedding of Ralph D'vereaux and Miss Estella Furse at Dryden Plains, Thursday, Sept. 17.

The apple social which was announced for last week Friday night was held on Monday night of this week. Though the attendance was small, a good time was had.

Cards have been received announcing the marriage of Miss Jennie Smith of Detroit to D. E. Roach of the same city. The bride is well known here and has the best wishes of all.

Myron D'vereaux is very ill with congestion of the spine. Some girls returning from the social Monday evening found him lying in the path unconscious. He was taken into the Baptist parsonage and his mother and the doctor hastily summoned. He was conveyed home about midnight and lay in a delirious state all next day.

Ladies Combination Suits at Miss Boeve's.

A line of Walking Hats at Miss Boeve's, Northville.

FRED M. WARNER

He Was Re-Nominated for State Senator Tuesday.

Fred M. Warner of Farmington was re-nominated for state senator for the 12th district at the republican convention held in Rochester Tuesday. Mr. Warner is one of the best known and most popular young men in Oakland county and his re-nomination, by acclamation, was a fitting tribute of the esteem in which he is held, and the endorsement of his representation of two years ago.

Card of Thanks.

We wish to express our great appreciation of the many kind and sympathetic acts of neighbors and friends during the illness, death and burial of Mr. Bailey.

MRS. H. D. BAILEY

MR. and MRS. MCLELAND

Y. M. C. L. Resumes Sunday.

The men of this community will please take notice that the men's meetings will be resumed next Sunday. Rev. C. S. Nightingale of the Baptist church will be the speaker. Show your appreciation of the work by your presence at the beginning.

Base-Ball News.

The Business Men have got their men together and will play the first team a game of ball at 3:30 this afternoon. German and Lewis are to be the battery for the Business Men and probably Lehman and Ambler or Huitt for the first team. This game will give our boys a battery practice for their Milford game next week when Dr. P. Veres twists the ball against them on the fair grounds for the \$25 purse. The Business Men in to-day game are—German, Lewis, W. G. Veres, Porter, Chapman, C. C. Yorks, Merritt, Ely, Bird and Freydl. First nine—Ambler, W. Veres, Hunt, Lehman, Birch, Thornton, Huff, Webster, Clark, and Pickle. A small admission fee will be charged, grandstand free. The game should prove interesting.

Blow Your Own Horn.

To be a success, in these times we must own a horn and tool if continually. To get a front seat we must walk in, push our way past slower men, and take the seat; and we must look as if we not only owned it, but had a mortgage on all the private boxes, and could occupy any one of them if we so desired. The man who wants to succeed must struggle for a front seat even if he has to jostle the real owner and put his umbrella down on his soft coat. Once in a while he may be set back where he belongs, but he will get in front oftenest if he should wait to be invited forward.

The world has not time to analyze character, weigh merit and decide as to the relative ability of men. This is a fast, hurrying, rushing world of ours, and it is very much influenced by the value that a man sets on himself. If he says, "I am a great orator, or a noted scientist," the world is apt to take it for granted that he is, rather than go to the trouble of holding a civil service examination of his merits. If he says, "I am but a poor, weak worm of the dust," the world will say, "You look like it; get out of the way."

The merchant who has pushed himself to the front through constant advertising will appreciate this, and the man who is a timid advertiser ought to find something in it to profit by.

ANSWERS AND QUESTIONS.

The McKinley Club Has Some for the Bi-Metalists.

[This column is conducted by the Northville McKinley Club.]

The silverite contribution appearing in last week's "Record" is replete with biting sarcasm (?) but is decidedly lacking in facts, figures or arguments. In my previous article I made two assertions:

1st. That an average of \$12,000 in actual money had for years met the business requirements of Northville.

2nd. That free coinage of silver meant the substitution of a 50 cent dollar for our present 25 cent dollar.

Now, my silverite friend, is my first proposition true or false? If you think it false, prove its falsity. Don't tell us about Leonidas, and the Charge of the Light Brigade, but give us some 19th century facts and figures. If Northville has had an average of more than \$12,000 in actual money where has it been, and who has had it? If \$12,000 or \$6,000 per capita, has not our business requirements then an average of \$23,000

per capita for the entire country, is sufficient for us needs, and your claim of "too little money" is all bosh.

You ask if I was here in 1893 when the president of the Globe Co. had to go to Canada to borrow money, and do I know why he had to go there? No, I was not here, but I know why he went. It was because silverites this side the line had so destroyed confidence that our home banks, to protect themselves and their depositors, were forced to curtail discounts. Crossing the Detroit river the president of the Globe Co. was on English ground, where for eighty years the gold standard has prevailed, and where, in consequence, panics like that of '93 are unknown. There are no silverites in Canada, and for this reason he could borrow there when he could not here.

Referring to my second proposition, you say that our present dollar is not a 100 cent but a 200 cent dollar, and that you propose giving us a 100 cent dollar. Here I am glad to see that we agree. We state it differently, but we agree that free coinage will give us a dollar of about half the value of the present dollar. From this point of agreement let me ask you one or two questions:

1st. How would the change existing contracts, obligations and agreements between the American people?

2nd. Would the 16,000,000 wage workers gain or lose by being paid in a dollar one half the value of the present dollar?

3rd. Would the 5,000,000 employers of skilled labor gain or lose? Should they lose how would it affect their employees?

4th. Would the 15,000,000 Savings Bank depositors (mostly men of small means, as evidenced by the fact that the average deposit is less than \$100.00) gain or lose?

5th. Would the 5,000,000 investors in Building and Loan societies (all men of small means) gain or lose?

6th. Would the widows and orphans of those who have carried life insurance for years, and paid premiums on the old basis, gain or lose by the change?

7th. Would there be receiving pensions gain or lose?

8th. Would the 700,000 retail merchants in the United States, who whose stock has been paid for in the old dollar, and whose outstanding debts will be settled in the new dollar, gain or lose by the change?

9th. First who in your honest opinion will be benefited by the change you advocate?

10th. Who in your opinion will be injured?

11th. Is it morally right for congress to pass a law permitting a debtor to pay one half a just debt, and repudiate the other half?

The above questions are pertinent, and we as visitors are entitled to a categorical answer. We are galled fed with the present standard; you advocate a change; therefore the burden of proof rests on you. Don't talk of Spartan heroism or British bravery. Confine yourself just now to facts. A little later in the season—after election for instance—we are willing to room with Romulus, and soot with Sophocles, and rip with Euripides, but just now we would like your answer to the questions propounded above. If you can answer them kindly do so, if you can't kindly say so.

Remember

that what the doctor said should be borne in mind and acted upon. One part of his advice was to have his prescription filled at the Central Drug Store. Physicians like to have their patients given medicines composed of the exact drugs called for in the prescription. Pure drugs are everything and our drugs are always pure. We are too careful to make mistakes. Our assortment of standard medicines, wines and liquors for medicinal purposes; mineral waters, perfumes, etc., is unequalled in Northville.

There are several beautiful beds of

Northville's last ball game for the
season will doubtless be that of Sept. 30
on the Milford fair grounds with the

by the fair association. The agreement
specifies that no players except those
belonging to the respective towns shall
take part in the game. The players
from here will doubtless be German,
Ambler, Yerkes, Clark, Webster, Lewis,
Holt, Thorntog, Hunt.

Mr. Wallace of Detroit will act as moderator
of the Presbytery.

Prof. Fred Taylor, whose lecture
is mentioned as giving a financial talk at the
opera house last week, is a professor of
political economy in the U. of M. and
not merely instructor as stated. Mr.

Taylor's talk here was in the way of
facts and figures, he having nothing to
say relative to either political party.
While not posing as an orator at all
Mr. Taylor presents his arguments in a
very clear and explicit manner, and
people here in general were well pleased
with his lecture.

It strikes the editor of the Northville
Record, strangely, that, when he is
absent, never a basket of peaches, ap-
ples, pears or grapes finds its way into

solvable. When the editor leaves his
office, the people begin watching their
fruit, and continue till his return.—

ernment buildings here at the same

With the Northville band as an
attraction last year the state fair at
Grand Rapids was a great success both
financially and otherwise; as also it
was the year previously in Detroit
with the same musical feature. This
year a Grand Rapids aggregation seat-
ed the fair—a aggregate employing
them and the consequence was a half
admitted fair, light attendance and a

financial failure. It is safe to say that
the fair managers will have a band
next year that will draw a crowd and
not keep people away as they did this

season and it won't fail from Grand
Rapids either.

It is noticed that the high price of
coal has led a number of business-men
as well as private citizens to replace
their coal stoves with wood burners.
With the best body stove wood at \$1.50
a cord and coal at 75¢ a ton the thing
to do is to establish a wood basis.

Don't forget that the Empire Con-

probably not be a better troupe here
this season and no one should miss the
opportunity of hearing them. Tickets

The Farmington band has secured
the contract to furnish the music at
the Milford fair next week. This
speaks well for this young organization
as well as for their tutor, Prof. Wingard
of this place. Prof. Crocker, leader of the
Northville band, is to assist Mr. Wingard and the Oakland county
boys during the fair.

D. M. Ferry & Co., the Detroit seed
men, are making a kick through the
courts against the free distribution of
seeds by the government, claiming it
will injure their business by \$20,000.
Ferry & Co., during the year, injures
the printing business by using free
printed government envelopes but we
never heard of the free, making any
objection against the free distribution
of printed matter. We don't see
where Ferry's kick is coming. If con-
gress waits to supply the farmers with
free seeds, farmers can stand the \$20,
000 gift all right enough. The only
thing left for "D. M." to do is to sell
those \$20,000 worth of seeds to Uncle
Sam.

We notice by this week's Lapeer
papers that the Presbyterian society of
that place of which Rev. J. M. Beding
formerly of this place is pastor, had a
big church opening there Sunday, it
being the first service since the church
was newly repaired and painted. The
Democrat says: "The abundance of
massive white and pink asters, hun-
dreds in number, piled and heaped in
billowy banks, were the loving gift of
the young people of Northville to Mr.
Beding, their former pastor, and consti-
tuted the sole decoration. Those
present declare they never beheld such
a wealth of choice asters. Many of
them measured three or four inches
across." The church looked beautiful,
the congregation happy and the pastor
both morning and evening was at his
best.

Some people do not seem to under-
stand that good etiquette demands
that when they have guests from
abroad it is their duty to see that proper
mention of the fact is made in the
local paper. This is done in all cities
by leaders of society and the Sunday
papers each week contain hundreds of
names of people in and out of town
classified in the society columns. The
same duty is just as important in
Northville as it is in the large cities.
It is something to which guests are
entitled. It is not snobbish or a
way of getting your name in the
paper as some people are foolish
enough to think but it is a mark of
respect and higher honor. We shall
not mention this subject again. We
have a public item box in the post-
office and office in the opera house
block where such items are thankfully
received. The same rule will also
apply to Northville people visiting
away from home.

WITHIN OUR WALLS.

MERE MENTION OF MICHIGAN MATTERS.

Sensational Story of an Abducted Boy, an Alleged Murder and a Missing Farmer—State Board of Equalization Com- plies Its Work.

A Mystery Case.— Sheriff Vosburgh of Kalamazoo received a letter from Sheriff E. T. Clammer of Fort Wayne, Ind., stating that he had Joseph Watson under arrest on charge of refusing to care for a boy he had with him. The boy claimed he was stolen from his home at Midland, and forced by the man to go with him. The boy says Watson killed a man near Vicksburg and buried his body in the woods and threatened to kill the boy if he told of the crime. The boy's name is Geo. Bowen.

A telegram from Midland says that the parents of Geo. Bowen knew the boy was with Watson (alias Stivers) but supposed the man was taking good care of him. The Bowen family is in poor circumstances.

Another light is thrown on the matter by a dispatch from Vicksburg which says: Myron Reese, who lived about three miles southeast of Vicksburg, started a week ago for Parkeville with a load of peppermint oil to sell. He received in payment a check of the Midland bank for \$60.75. He then drove to Midland, put his team into a barn, went to the back, drew his money and has not been seen since. It is thought that Reese was the man killed by Watson, as related by the boy.

Later.—The Vicksburg murder sensational has completely fallen through. George Bowen, the 11-year-old Midland boy who was brought from Fort Wayne to locate the place where the body of the supposed victim was buried, now admits that he was lying, and that he did not see Watson, alias Stiver, kill anyone, but says that Watson told him he had killed a man there. As to Myron Reese, who disappeared, it transpires that he was heavily in debt, had mortgaged his farm and having obtained money left the country. The Bowen boy will probably be sent to the reform school.

Fatal freight collision at Poweltonville.—Two freight trains撞在一起 on the D. L. & W. railroad at Poweltonville in a head-on collision. The eastbound freight stood on the main track at the station, the understanding being the westbound train was to pass on the siding. The latter did not do this, however, but came along at the rate of 20 miles an hour, and crashed into the standing train. Engineer Frank Frost, of the eastbound freight, whose home was in India, was killed. His fireman, Frank Williams, jumped, but his leg was broken in two places, and he was seriously injured about the hip. Engineer Henry Bailey, of the westbound train, living in Grand Rapids, and his fireman, W. Arnold, of Howell, were quite badly injured, but will recover. Both locomotives and two cars were badly wrecked.

German Catholic Societies Meet.—The forty-first annual convention of the German Roman Catholic Conference met at Detroit. The first feature was the celebration of "pacified" highmass by Rt. Rev. Bishop Richter, and a sermon on "Christian Citizenship" by Rev. Bernard J. Werner. At the opening business session President Adolph Weber, of Racine, Wis., delivered his annual address which showed the society to be in its finest condition. Among the other features was a grand sacred concert, and one of the largest parades of the year in Detroit. Officers reports showed a total membership of 47,500. The Reserve fund is now nearly \$1,000,000. During the year \$25,000 was paid out in sick and death benefits. The Michigan band held their annual meeting at the close of the larger convention.

A Draped Man Suspected.—Some time ago J. G. Bragg, a wealthy citizen, was killed at Harbor Springs, charged with criminal intimacy with two little German girls. During his incarceration (1875), he made no attempt to get bail, although he was then in a stupor regarding his condition. Finally, while the jail officers were setting up a store in the main corridor, Bragg slipped by them and passed through the village to the dock, less than half a mile away. He tied one leg to the railing of a pleasure yacht in order to be safe of hanging head downward and jumped into three feet of water. He was not missed till looking up time, and then when found at 1 a.m. He had been exiled several hours.

Tripled to Kill His Wife and then Sailed.—Young Chase, a young lawyer of Roshen, Lenawee County, quarreled with his wife while they were attending the street fair at the prison and cut the matter by shooting his wife twice and then shot a bullet through his own head. He died a few hours later, but Mrs. Chase will probably recover. The young couple were evidently happy and were well liked, but Chase had been drinking considerable lately.

The first train over the new Monroe and Toledo extension of P. & P. M. was 22 carloads of cedar poles.

James Harris, a miner in the Millie mine at Iron Mountain, was killed by a premature blast. He leaves a widow and five children.

During horse races at Elgin, Roy Morris, aged 17, tried to cross the track but was knocked down and perhaps fatally injured.

Alfred J. Wetmore is held without bail in jail in the Allegan circuit court on complicity in the murder of

MICHIGAN GETTING POOR.

Board of Equalization Says We're Worse \$22,900,000 Less Than Five Years Ago.—The four weeks' work of the quinquennial session of the Michigan state board of equalization for the valuation of all the property of the state for the purpose of taxation has been completed. The board has reduced the valuation of most of the upper peninsula counties, and particularly the lumbering and mining counties, making a total reduction of \$50,390,000. Wayne county, however, is increased \$16,600, Kent, \$2,500,000, and several other counties smaller amounts, making the total increase \$25,400,000.

— Serious Fire at Traverse City.—The factory of the Oval Wood Dish Co., at Traverse City, caught fire and the department devoted to the manufacture of oval wood and wire and butter dishes was totally destroyed, including 35 machines of various kinds. The engine room, however, was saved with all the engines. The value of the machines was about \$30,000, building \$8,000, and stock in the factory valued at \$2,000 was also destroyed, besides other valuable apparatus making a total loss of about \$50,000. The saw, nail and clothes pin and wash-board factories were saved by mere chance, also the warehouses, which contained gallon barrels of finished stock. This is the largest factory of the kind in the west and employs 200 hands, 100 of whom will now be thrown out of employment until the factory can be rebuilt. The loss was general, but it is expected the company will rebuild at once.

WE WANT TO TELL YOU

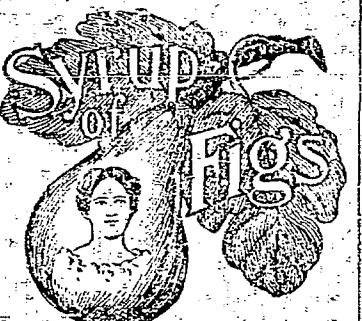

Why Your Back Is Lame—Why It Aches and Pains, and How to Cure It:

Do you know what it is to have a back that is never free from aches and constant pain? A lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Liniment won't do it, nor, while it may give temporary relief, it does not reach the cause. The cause, then, is the point; there's where to make the attack. Most backaches come from disordered kidneys, therefore, you must correct their action if you would be cured. Read the following from Dr. D. Cook, whose address is No. 18, Michigan Street, Grand Rapids. He says:

"I have used Dr. D. Cook's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that the seeds were sown which have caused all my trouble. Severe cold attacks bothered me, and at such times my kidneys were worse. It is almost impossible to describe the pain which so often banished me. I have been so fond that to stand up after I had been sitting down required a great exertion. Walking was at times an impossibility, even at night I did not rest, being forced to get up during the night. I heard of Dr. D. Cook's Kidney Pills and wondered if they could make an almost lame man well. I got some, and soon after taking them began to feel their good effects. I took them for some time, my lameness all left me and I have not felt it since. Dr. D. Cook's Kidney Pills have done me an inestimable amount of good."

For sale by all dealers, price 50 cents. Mailed by Post Office, Buffalo, N. Y., sole agents for the U. S. Remembert the name, Dr. D. Cook's, and take no other.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which ravish before brother efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrup of Fig, promptly removes. That is why it is the only remedy with millions of families, and is ever esteemed so highly by those who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co., only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed, everywhere, Syrup of Fig stands highest and is most largely used and gives most general satisfaction.

A Novi "kid" was out hunting the other day when he saw an immense blue racer nicely arranged in a symmetrical coil. He immediately opened fire on the reptile but when the smoke cleared away it disclosed the old fellow, alive and well, in the act of making a charge on the enemy. This was too much for the young hunter who stood not on the order of his going, but fled with wild shrieks at a gait which no animal without legs could ever hope to equal. Mrs. Peter Conkle, whose husband was sent to Jackson last week for two years, also pleaded guilty Monday and was sentenced to 60 days in the Detroit House of Correction. This is the eighth person from Holly, this summer, that has been sentenced without trial, having plead guilty. We don't mention this as any special credit to our town, and we beg of you don't let the Northville Record hear of it—Holly Independent.

Great town that, Holly. Just as soon as a man is arrested he pleads guilty and away he goes. After a while there won't be anybody left in the town except the press.
