

THE NORTHVILLE RECORD.

Vol. XXVIII, No. 46.

NORTHVILLE, MICH., FRIDAY, JUNE 25, 1897.

\$1.00 per Year, in advance.

A VILLAGE PARK.

The Depot Mill Pond to Be Made into One.

COUNCIL HAD A SPECIAL MEETING TUESDAY TO CONSIDER IT.

Committee of Five Appointed and Are Now Making Plans.

Northville's celebrated (celebrated for anything but beauty) mill pond at the depot is at last likely to become transposed, like the caterpillar to the butterfly, into a thing of beauty. For a generation or more the unsightly place at the depot, the Argo mill pond, has not only been the most conspicuous spot in the whole village but because of its conspicuousness, the greatest eye sore to our people. In the nature of a frog pond, covered with weeds and a green slime, giving forth an odor, it not only was, at least offensive, it has been the first thing to greet the eye and nostril of passers by upon the trains, and visitors to the otherwise beautiful village. During last winter's freshets the Argo dam went down the river, since which time no attempt to rebuild has been made until within the last week. In the meantime the stream has confined itself to its small natural course and the ground about has in the interval become dry and covered with weeds. As Mr. VanZile, who has a lease of the Argo property, was about to put in the new dam it occurred to President Real of the Globe Co. and a number of other citizens and taxpayers, including Mr. VanZile, as well, that just now it was the time to solve the perplexing question of how to get rid of the eye sore. To this end a petition was extensively circulated and liberally signed by all the heavy tax-payers this last week, and a part of this week the council to call a special meeting to consider the best methods of reaching the desired result. The meeting was held Tuesday night and a committee of two councilmen, Messrs. Dolph and Lanning, and three citizens, F. R. Real, E. S. Horton and G. B. VanZile were appointed to investigate the matter, devise a plan and estimate the probable expense. President Sessions stated that there would be something like \$1,650 in the general fund after paying for the electric lights for the current year and that with the streets in good shape and a considerable amount of money in the highway fund he said that if it was deemed advisable to go ahead and lay out a little park there, there was money enough available in the treasury without having in any way to add to village taxes. Mr. Real explained that it had been suggested that at a very small expense, considering the object, commencing at the foot of Main street a sort of peninsula could be laid out forming a neat little park. The filling in could be done with the earth taken from other parts of the pond which should be cleaned to the gravel bed to prevent a further growth of weeds, etc.

The committee met Wednesday night and after looking the ground over they were so favorably impressed with the scheme as to deem it advisable to at once send for an engineer to make the survey and plans, and estimate the probable cost. There will be between two and three acres of ground available.

Mrs. Wm. W. Blair Is Dead.
After a long tedious illness Mrs. Wm. W. Blair of North Center street died last night.

Won Two Games.
The Northville ball club, has "got in the game" and is winning everything in sight. Last week it defeated the Detroit High school team by a score of 8 to 10 and this week it downed the Detroit college team to the tune of 6 to 13.

July 4 Sunday Excursions to Island Lake, Grand Ledge and Grand Rapids.

Pleasant places to spend a day after the roar of celebrating the 3rd. Special train via, D. G. R. & W. R. R. will leave Plymouth at 7:45 a. m. Returning leave Grand Rapids at 7:30 p. m. Round trip rates: Island Lake 30c; Grand Ledge 75c; Grand Rapids \$1.75. Bicycles and baby carriage free.

Meets the Demand.

Mr. James R. Hayes, proprietor of the Wayne Hotel, Detroit, recognizing the very popular demand for cheaper hotel rates, not only from the commercial men, but from the traveling public in general, has decided to satisfy this demand in making some radical changes in price by reducing the rates of the Wayne Hotel to \$2 and \$2.50 per day and the rooms with bath to \$3.00; single meals to be 50 cents. Mr. Hayes wants it thoroughly understood that the reduction in rates will not in any way interfere with the hotel being kept up to the same standard of excellence as in the past.

FOR CHARITY.

THE KING'S DAUGHTERS GAVE A FINE ENTERTAINMENT MONDAY NIGHT.

The Net Receipts Will Amount to About Fifty Dollars.

Not for some years have Northville people been treated to so good an entertainment as that given under the auspices of the circle of The Kings Daughters at the opera house Monday and its repetition the following evening. The standing of those who took part in the comedy, and the worthy cause for which it was given, called out an exceptionally large, and highly pleased audience. Not only did the play abound with sparkling comedy, and strong dramatic situations but at the same time each part was cared for in an almost perfect manner.

"Rebecca's Triumph" was the title of the play, and the casts included 17 well known ladies of the village, nine of whom represented the "Cooking Club." Mrs. Rokeman, the proud and wealthy lady, was represented by Mrs. Herberner and she took the part to perfection. As Mrs. Delaine, or "Mama Lin" as the Irish servant insisted on calling her, Mrs. Corbett acted well the part of one of those good old ladies of whom the world contains too few.

Rebecca, the foundling, was represented by Miss Alexander. She acted her part in a very charming manner. Indeed it could hardly have been improved upon.

Misses Carolyn Babbitt as "Gyp" the colored servant; Inez Rockwell the Irish girl; Clara Stogers as "Meg the crazy woman," and Louise Kilbourne as a spinster of uncertain age, were hosts in themselves. In their various parts professionals could have hardly improved upon their acting. They won rounds of meritorious applause.

Mr. Brown, under whose management the play was put upon the boards, is to be congratulated upon its successful and pleasing culmination. The receipts of both entertainments will net the society in the neighborhood of fifty dollars which is to be devoted toward carrying on charitable work.

WITHOUT ASKING

GEORGE MCINTIRE BORROWED ART BUZZELL'S WHEEL SUNDAY.

Was Captured by a Detroit Detective When Near That City.

Art Buzzell's bike came up missing on Sunday and after a diligent search he found that George McIntire, a twelve or fourteen year old son of Daniel McIntire of this place, had left town with a wheel in the direction of Novi from whence he was last seen scorching Detroitward over Grand River road. After notifying Detroit officers by phone, Buzzell started in pursuit. Detective Searls of Detroit met McIntire at the last toll gate and he was detained until Buzzell's arrival, when he was turned over to him to take the property back to his native city in the owner's company. When Farmington was reached McIntire again tried to take pedal, but by mounting his iron steed and setting his nose in the direction of Pontiac, Buzzell was quick to follow and soon caught up with the runaway and finally landed the whole outfit in Northville during the evening.

The father gave a bond for the boy's appearance for trial when wanted which will be as soon as the justice hears from County Agent Hosmer.

SOME BIG GUNS

Will Be Here on the Occasion of the Teachers' Institute.

A POSSIBILITY THAT IT MAY LAST TEN DAYS.

Superintendent Hammond Will Be Here One Day.

Teachers to Have Such a Good Time They Will Want to Stay.

Everything in the matter of the Wayne county teachers' institute, August 9-14, is progressing finely and it's bound to be the biggest kind of a success. In an interview with "The Record" a few days ago Supt. of Public Instruction Hammond said he proposed to send the best available talent in the state for instructors at the Northville institute, "and they are," he added, "no less persons than Prof. O. D. Thompson; for twenty years superintendent of the Romeo schools, Prof. Deles Fall of Albion College and president of the State Teachers Association; and Martha A. Sheraton, director of primary work of the Saginaw schools." This certainly makes a brilliant trio. County Comm. Cooke and his staff will also be here all the week and in addition Supt. Hammond will come for a day or two.

After learning of the interest taken in the approaching event by Northville people, and the fact that the F. & P. M. company had offered to make a rate of one fare for the round trip, Supt. Hammond said he believed the enthusiasm and attendance would warrant him in recommending that the institute be held over until the following week Wednesday when the teachers would be all prepared for the general examination which is to commence in Detroit on the following day.

The citizens of Northville have under contemplation a lively reception and entertainment for the visitors who are expected from Washtenaw and Oakland as well as from all parts of Wayne county.

Suburban News.

Potato bugs as large as small robins are reported to be soaring around Holly.

Fred Rider of Salem and Celia Long of Wayne were married Wednesday evening.

"Normal graduates for teachers" is the class motto of the '97-98 Wayne school board.

The Holly driving club races are off. The club hung up a \$650 purse but not a horse jumped for it.

Will Curtis of Flat Rock, class of '89, will do the principal act in the Rotarian's schools for the coming year.

The Flat Rock News has again changed hands and the new hands belong to Geo. Williams of Delray.

The Holly Advertiser promises in the near future to work off on its readers a tart article on "vinegar."

Milan as a post-office town is "in it" no longer. It has been reduced to a fourth class office just like Novi.

On Flag Day Mr. and Mrs. W. O. Allen presented the village of Plymouth with a handsome silk flag. It is to fly over the city hall.

Milford celebrates on July 3—so does every other town we have so far heard of. It may be that Saturday being the legal holiday is the cause?

People were surprised to learn this week that Mr. and Mrs. Oliver Fenny have divided their property with a view to a final separation.—Milford Times.

"Milford to the front" says The Times in speaking of the 4th of July celebration. As the celebration takes place on Saturday this probably means you can get into the front door.

Mr. Rovee and men of Northville began the brick work on Weaver & Watkins' new block Wednesday noon. They will soon have up a building that will add materially to the appearance of our village.—Milford Times.

To see a horse fly, or even a house fly, is not an uncommon thing now.—Milan Leader.

How about the bottle cork fly.—Seen any of 'em?

A double wedding occurred at Northville last week. It's not often a mother finds good homes for two daughters at once.—Milan Leader.

And it is not often that two homes find two such good daughters.

The New State Telephone company's business in Calhoun and adjoining counties is to be under the management of A. J. Little of metal back album fame. Mr. Little was a former Northvillian and is a hustler from way back.

The Michigan Central will now carry bicycles free if the owner will take off the lamp, tool bag, bell, etc.—Plymouth Mail.

The "etc" in the above item probably refers to the wheels, handlebar, saddle and frame.—Carleton Times.

At least this leaves the wind to be checked.

Because of the heavy rain Sunday night, there was no preaching at either of the churches.—Flat Rock News.

Flat Rock people are evidently fair weather folks.—Delray Times.

Time changes all things. Now, in Noah's time during the heavy rains everybody wanted to go to church.

The baccalaureate sermon will be preached in the Methodist church next Sunday evening at 7:30.—Plymouth Mail.

We are glad to know what was to be done with that sermon. Glad to know it was to be preached. At one time we feared it might be loaded on a wagon and dumped in the park or on the fair grounds.

A few months ago the Record hinted that our knowledge of Latin was very limited because we used "In Memoriam," meaning "In memory" or "In memory of." Last week the Record used "In Memoriam" and we wish to reciprocate by saying that either Neil doesn't know a Latin phrase from the Lord's prayer, or Caesar, Cicero and Virgil never knew how to handle their own language.—Plymouth Mail.

Nothing of the kind. The Record asked, for information only, where the Mail man found "Memoriam."

Two young fellows, giving their names as Sam Smith and Tom Miller attempted to work the short change racket in this place last Friday evening. Their scheme was to call at some store, purchase a trifling article and offer a bill in payment and then demand the person who was giving them the change. The attempt was made at several places without success, but they finally purchased a lead pencil at King's offering a ten-dollar bill in payment. Mrs. King made out the change when one of the fellows discovered that he had a nickle—the price of the pencil—and handed it out taking back the bill offered at first. They also gathered in a five dollar bill and got out of the store before the fact was discovered. Officers were notified and started after the fellows, catching them at the next day when they were taken to the county jail to await their examination.—Fenton Independent.

FLUSH JOINT STRENGTH

Our Columbia 5 per cent. Nickel Steel Tubing shows a tensile strength of over 100,000 pounds to the square inch; 50 carbon tubing used in Hartford bicycles shows about 75,000 pounds to the square inch, and 25 carbon tubing—ordinarily used in bicycles—shows about 55,000 pounds to the square inch. Yet Columbia Patent Flush Joint Frame Connections are very much stronger even than our celebrated 5 per cent. Earthquakes do Great Damage in California.—Uncle Sam Intends to Renew the Arbitration Treaty Negotiations.—Turks Prepare for More Wars.

Two Earthquakes in California.

Two sharp and severe shocks of earthquake were felt at San Francisco and throughout California. They were the most severe experienced for many years. Many thousands of dollars damage was done to buildings and their contents at Holliston. No casualties occurred through many narrow escapes are reported. Every brick building in town has suffered, and in the court house the walls and ceiling have lost most of their plastering and a fire wall of the adjoining buildings. At Gilroy numerous chimneys were toppled over, walls cracked, every plate glass store window shattered and a general wreckage of bottles and shelfware in houses and stores. People rushed out of their homes in terror. An unusual scene of petty destruction is presented in nearly every house and store in the town. Other points report damage but in lesser degree.

McKinley to Push an Arbitration Treaty.

President McKinley has determined to revive the abandoned treaty of general arbitration between the United States and Great Britain and under the direction of Secretary Sherman, the matter has progressed to the extent that a new treaty already has been drafted to serve as the basis of negotiations. However, it is not in contemplation that the treaty will be submitted to the senate before next December. The attitude of the new senate toward a new treaty will be carefully watched and understood before the treaty is signed. It is understood that the initiative in the present case will be taken by this government. The failure of the former treaty by the action of the senate left the subject in such condition that the British government did not feel disposed to renew negotiations, unless first invited by the United States.

THE 55TH CONGRESS AT WORK.

SENATE.—65th day.—There was rapid work on the tariff bill. There were no long speeches and the debate was of a snappy character which at times ebbed but did not delay the serious work on the bill. Thirteen pages were disposed of, carrying the Senate through the agricultural schedule and up to schedule H, relating to spirits, wines, etc. During the day the paragraphs on dairy products, farm products, fish, fruit and nuts, meat products, and miscellaneous agricultural products were acted on. The Finance Committee proposed many changes in the main advancing rates somewhat over those heretofore reported. The committee was sustained on every vote although the contest was made on almost every paragraph. Mr. Vest's motion to restore said to the free list was rejected, yeas 24, nays 35. The important paragraph proposing a tax on tea was voted at the suggestion of Mr. Allison, who expressed hope that this duty on tea might be dispensed with. A message was received from President McKinley together with the Hawaiian annexation treaty. As soon as they had been read in executive session they were laid aside for the day.

SENATE.—67th day.—Greater progress was made on the tariff bill than on any day since the debate opened. Two entire schedules, covering 20 pages, were completed, namely, schedule H on spirits, wines and beverages, and schedule I on manufactured cotton goods. This brings the Senate to the flax schedule with the important wool schedule standing next. The portion of the bill passed is substantially the same as that reported by all committee changes being unimportant while the opposition amendments of Mr. Jones, of Arkansas, and Mr. Vest were systematically rejected by majorities varying from five to ten. Mr. Allison secured the addition of a new paragraph to the cotton schedule with a view to compensating the cotton manufacturers for reduction of the Senate in placing raw cotton on the free list. The House was in session an hour and a half most of the time being taken up with roll calls. Mr. Sulzer, Democrat, of New York, succeeded in injecting into the proceedings a brief speech in favor of Cuba in which he denounced Weyler as a "thief and murderer." The bill for the relief of the eye-one street residents of Greer county, Oklahoma, was passed.

SENATE.—68th day.—The tariff bill came to a sudden halt, less than one page of the flax schedule being disposed of during the day. The debate drifted into politics, Senators Bacon, Vest, Jones of Arkansas and Tillman taking part in an exposition of Democratic doctrine on the tariff. Mr. Morgan proposed a sweeping amendment to place a 10 per cent ad valorem duty on all articles now on the free list with a few stated exceptions. In supporting this amendment Mr. Morgan called attention to the sugar and that the income tax feature (the Wilson bill) is not a proper and can be considered by a change in the personal exemption of the tariff bill.

During the morning the printing of 3,000 copies of the tariff bill and other documents.

SENATE.—69th day.—The Finance Committee reported a bill down on the flax, hemp, silk and cotton, and paragraphs of the tariff bill. This resulted in the passing of a bill on the free list as were cotton, silk, flax and hemp and a number of other goods. The Democrats were enabled to carry their point against these paragraphs by the assistance of the silver Republicans and Populists and by the help of Messrs. Carter and Hambrath, straight Republicans, on matters.

SENATE.—70th day.—The record was broken by the disposal of 50 pages of the tariff bill during the day. The wool and silk schedules were laid aside temporarily, and the work went on rapidly until the last two schedules of the dutiable list covering paper, and manufactured goods and some lesser articles, which went over. This advanced the Senate to the free list which was taken up and completed in three hours. After wool and silk are disposed of the tobacco schedule, the reciprocity provisions and the internal revenue portions of the bill, as well as the many isolated paragraphs passed over, remain to be considered. "House."

Only routine business and a few matters of minor importance were disposed of.

SENATE.—71st day.—An exciting debate marked the opening of the consideration of the free wool schedule. It developed the first serious disagreement on the Republican side of the chamber and led to a warm personal exchange between Senators Carter, of Montana, and Foraker, of Ohio, on one hand, and Mr. Allison, of Iowa, in charge of the bill, on the other. Mr. Foraker asserted that an agreement concerning rates on certain wools was being violated, and that under such circumstances every Senator would be free to act for himself. Mr. Allison, with great vehemence, declared that he could not be driven by threats. Mr. Carter, who had aroused the storm, endeavored to have the paragraphs relating to carpet wools go over, with a view to securing some united action, but Mr. Vest, in a genial speech, objected to delaying the era of prosperity and postponing the public business while Republican senators held a caucus. Mr. Teller, of Colorado, also spoke against delay and took occasion to say he would not vote for the bill unless objectionable features were eliminated. Fair progress was made on the schedule notwithstanding this hindrance, which accomplished no purpose.

Preparations are being made for holding children's day service in the Universalist church. An excellent program is being prepared and the entertainment will without doubt be fine. Everyone welcome to attend and enjoy the service.

The people of Farmington were highly entertained Saturday evening in the town hall by the wonderful magicians, the phonograph and graphophone operated by R. Munn and A. McNeil. The pictures reproduced on the canvas were very realistic and life like. The musical selections rendered by the graphophone were greatly enjoyed. It was conceded by all that the entertainment was one of the best ever given in Farmington, and the general desire is that some time it may be repeated.

The juniors had a banquet Wednesday evening, after commencement exercises, at the pleasant home of Dexter Riley in honor of the graduates. Ice cream, strawberries and cake were served. It is needless to say that a good time was enjoyed by all present. As the class are now passing "Out of the harbor into the Sea", it is the wish of their many friends that they may have a safe and prosperous voyage. May they ever possess those three essential elements for success—pluck, patience and push.

The funeral service, under the direction of undertaker Porter of Northville of Mrs. L. D. Owen was held last Saturday afternoon in the Universalist church, Rev. Mr. Legal of Lansing officiating. The service was under the auspices of the L.O.T.M. The church was decorated with beautiful flowers. The selections of music by the choir were beautiful and very appropriate. The church was filled to its utmost capacity (many being unable to enter) with friends who came to pay their last respect to one who had been greatly loved during life. She has

been a great but patient sufferer. A husband, son, two sisters and one brother are left to mourn their loss. The heartfelt sympathy of all is extended in this dark hour of affliction. The remains were laid to rest in a beautiful spot in the village cemetery.

It was generally conceded that the baccalaureate address delivered Sunday evening in the Methodist church by Rev. J. H. Herber of Northville was the best that has ever been given in Farmington. His cultured, mild, genial manner and pleasing address prepossessed the large audience in his favor, immediately and he had the undivided attention of all from beginning to ending. His words of advice to the class were excellent and if they take heed unto them, success will certainly be attended by each. The musical selections were good and nicely executed. The edifice was very prettily decorated with potted plants, cut flowers and looked very attractive.

Married at the Pentecost Congregational church at five o'clock, Wednesday, by Rev. W. H. Hannaford, Mr. Mylo Sweet and Mrs. May, eldest daughter of Mrs. Judson Thompson. Immediately after the ceremony Mr. and Mrs. W. B. Thompson, uncle and aunt of the bride, opened their home and gave a reception to the happy couple and their friends. What gives sadness to this event is the fact that the mother of the bride, an exceptionally intelligent and interesting lady, has recently been placed in the Pontiac asylum for treatment. The Record tenders congratulations mingled with sympathy.

NORTHVILLE.

It's Very Easy

To be well dressed, to look stylish, to have plenty of good clothes, and to have them fit—if you'll pay the price. But what's the price? "Ah, there's the rub." Generally speaking, it's too much. Too much money for the amount of style, quality and fit that you think you ought to have. We have changed all that. At you can get the fit, get the style, get the quality and get a low price at the same time; you'll take the combination, won't you? This "combination" appears to be a secret to some folks, but it's an open book to us. We'll show you how to "work it" any time if you'll call on us. An elegant line of the new summer suitings are now on display. Come and leave your measure. If the measure fits the clothes will.
