FATALLY KICKED.

George Hills Was by His Horse Monday Night.

WAS ONE OF NOVI TOWN'S MOST SUCCESSFUL FARMERS.

Had Often Expressed a Desire for a Sudden Death.

The news that during Monday night George Hills, a well-known and wealthy farmer living three miles north-west of town, had died from the result of a kick from a horse reached here early Tuesday morning.

Mr. Hills had been to Novi during the evening and returning about nine o'clock, drove to the barn where he unharnessed as usual and let the horse go into the stable. The first known of the calamity was when a few moments later Mr. Hills came toward the house with head bent and arms held tight across his stomach, calling for help.

Upon getting into the house about all he could say was, "I guess the old mare has done me up. She kicked me as she ran out of the back stable door." The mare's stall is in the farther end of the stable and instead of entering it she went on out into the barn yard through the open door and it was assumed when Mr. Hills tried to head her off she let drive with her heels. If this is the way of it, Mr. Hills could hardly have realized the extent of his injuries for he not only went on into the yard and caught the animal but brought it back into the stall and tied her before starting for the house.

Physicians from Novi were hurriedly summoned but all they were able to do was to relieve the pain, and death resulted about three o'clock Tuesday morning.

Just every particular of the accident will never be known. We learn from the horse's hoofs show that he was either kicked at two different times or from both the horse's feet at one time. One bruise was over the right breast, the other on the abdomen. One of the older boys says that when his father drove into the yard he was up stairs in bed near the window, overlooking the barn and heard his father say to the horse as it ran on out through the barn "You can't fool the old man that way." Then he heard the horse snort considerably as though she had caught her in the nostrils, after which he heard him lead her into the stall again. The next he heard was the horse's heels kicking against the sides of the stable as though being punished and soon after he saw his father coming out of the stable calling for help.

Whether Mr. Hills received a kick as the horse ran out of the door and another after he had gotten her tied again in the stall, or whether both were received at the door and he still had will power enough to catch and tie her is only a conjecture. The mare was of a very nervous temper and was quick as a flash although apparently very gentle as the children were permitted to drive her repeatedly. Mr. Hills had often been heard to express a hope that when he came to die, it would not be with a lingering disease. He wanted to go quickly when the summons did come.

George Hills, the last of a family of three children, was one of the wealthiest and best known farmers in the township of Novi. He was born in Batavia, N. Y., Feb. 13, 1837. When a mere child he came to Michigan with his parents who settled in Highland. At the age of thirteen he came to Novi town where he has since resided for nearly half a century. In January 1880 he married for his second wife Louise N. Lercheon who with five sons and two daughters, besides two children by the first wife, survive him.

The funeral occurred from the home yesterday afternoon, Rev. Mr. Boyden of Kalamazoo officiating. The burial service was under the auspices of the Northville Masonic lodge of which deceased was a member. Mr. Hills was also a member of the Knights of Honor and the Northwestern Masonic Association in which orders he carried something like \$2,000 insurance.

JUST ONE WEEK

WARD CLARK HAD BEEN ILL BUT THAT BRIEF TIME.

Was Operated on for Peritonitis Saturday and Died Sunday.

Ward, the sixteen year old son of James Clark, of near this place died on Sunday morning, having been ill barely one week. While in church the previous Sunday he complained of a pain in the bowels but it was thought to be nothing more than one of the usual summer complaints but a day later it had developed into peritonitis and so serious did the case grow that as a last resort the doctors advised an operation as the only alternative. The operation was performed Friday, but the delay had probably been of too long duration though the post-mortem held Monday developed the additional fact that two of the intestines had grown together, and that a second abscess had formed on the opposite side so that even an earlier operation might have been no more successful.

After the operation the young man appeared to rally and exhibited himself as being the most comfortable and free from pain of any time during his brief illness. But about one o'clock Sunday morning he commenced to grow worse again and gradually sank into a quiet sleeping death at five o'clock.

Ward J. Clark, son of Mr. Clark's first wife, who died when he was less than a year old, was born in Salem, Oct. 5, 1881. He was a bright, promising young man and had but just passed into the High School room of the Northville school with the class of 1901. In the school as in the home he was a general favorite and was noted for his genial and kind disposition. A funeral service was held at the house at 2:30 Tuesday afternoon and another in the Northville Methodist church at three o'clock. Rev. W. M. Ward, the young man's pastor, officiating. The friendship for the deceased and the sympathy for the family was particularly manifest at the funeral by the profusion of flowers and floral designs.

Song of Solace.

Thou sweet hand of God that woundest my heart,
Thou nearest me smile, yet thou makest me smart;
It seems as if God were at ball play, and I,
The harder He strikes me, the higher I fly.

I own it, He bruises, He presses me sore,
Yet the hammer and chisel afflict me no more.
Shall I tell you the reason? It is that I see
That the sculptor will carve out an angel for me.

I shrink from no suffering how painful,
So long as I can see that my God's hand is there;

For so it on the anvil the iron must glow
Ere the smith with his hammer, deals blow upon blow.

For no sound from the organ can swell on the breeze
Till the organist's fingers press down on the keys;
Or what shall the sheaves on the barn floor avail,
Till the thresher shall beat out the chaff with his flail.

'Tis only a moment God chastens with pain
To follow on like sunshine on rain,
Then bear thou what God on thy spirit shall lay:
Be dumb—but when tempted to murmur—then pray.—W. F. M. B.

Suburban News.

Rowlerville may have a new town hall.

The summer Normal at Flat Rock commenced this week.

W. F. Markham of Plymouth has launched his new steam yacht.

July 12th is Maccabee Day at Island Park, Orion. The grand officers will be present.

With assemblies and conventions Orion this season bids fair to outrank Bay View.

Because Milford had no greased pig Saturday, Per 4th of July celebration was not necessarily a fizzle.

Plymouth is a "rat" town. Con nor & Son caught seven of the rodents one night recently in a patent trap.

Penton has a ladies' No-re-such club. Stem's as if we had heard that name somewhere in connection with raince pies.

After curing up all the ailments in Farmington the Indian Med. Co. has pulled stakes and left for more sickly communities.

Adrian has a photographer named Barnum. No relation to "P. T." but both are adepts at footing the people with pretty pictures.

Dona, England understand that a war vessel did a bombarding act on the Huron river at Milford Saturday contrary to the international treaty.

Wyandotte is skirmishing for honors with Detroit. The city councilmen now indulge in calling the mayor and each other, liars, conspirators, bribers, etc.

It is currently reported that on Saturday there was almost as many people at the Milford and Plymouth celebrations as there are to be seen on the streets of old Northville on any Saturday.

The state fair association who contemplated holding the fair at Grand Rapids again this year may as well get ready for another financial failure. The only two years in the past ten or fifteen that the fair has been a success was when the Northville band furnished the music.

The new editor of the Flat Rock News doesn't know yet whether he has "come to stay or not." Up to date he has not found wherein to lay his head. The only vacant building in the burg is the WCU hall recently vacated to make room for the beer fumes from the saloon beneath.

The Ypsilanti acknowledges the receipt of a quart bottom in the middle basket of strawberries. The donor is liberal. The gift took place last week when berries were such a drug on the market that it was not possible to even give them away—except to an Ypsilanti editor.—They'll take almost anything.

The extreme hot weather put a slight damper on the 4th of July celebrations, Saturday. At Plymouth there wasn't a big enough crowd to touch off the horse race on the 25-cent admission-fair grounds until evening and then one race sufficed. At Milford a good sized crowd was present but shady spots were more of an attraction than fire crackers and greased pig. The ball game resulted in a score of 8 to 13 in favor of Northville.

A small sensation was created in this village last Saturday when J. M. Raynor, representing Grinnell Bros., Detroit, came here in search of one Fred W. Smith to whom the company had sent two bicycles a couple of days before. Mr. Raynor claims Smith got them under pretenses of being foreman of the factory at this place. Smith and the young woman, who has been with him here, and the wheels were found at Whitmore Lake and the parties and property brought here and taken on the 5 p. m. train to Detroit. There is considerable unsavory talk of the young couple's behavior during their short stay in South Lyon.—Excelsior.

Geo. H. Spalding, son of Congressman Spalding, of this district has passed the physical examination required and has been admitted to West Point. A finer specimen of young man, good, morally, mentally and physically, has never graced the national military academy. Mr. Spalding's admission was delayed by a singular accident, that at the time seemed to have extinguished all hope of his cherished career. In company with some other young men of Monroe, George, who is an athlete of no ordinary attainment, one evening undertook a sidewalk foot race in which the thigh bone was broken by the energy of the runner in merely the act of quickly lifting the leg and he fell helpless on the walk. The Record congratulates Mr. Spalding on his complete recovery and admission to the military school.

Two Washington doctors have a theory that a large number of the suicides just at this time of year are caused by eating strawberries, which they say produces melancholia. Next we suppose scientists will tell us that it is unhealthy to sleep or to pay up your subscription to the village paper. In fact the latter idea seems to be held by certain people already.

"You are not the only— That is about all one hears nowadays, and it is interesting to learn that he is not the only— The dash represents an individual of almost every conceivable species. It is gratifying to learn that you are not the only pebble on the beach; the only button in the contribution box; the only flea on the dog; the only can on the dump; the only dog in the pond; the only oyster in the stew; the only worm on the cabbage; the only poster on the fence; the only skirt in the window; the only seed in the pumpkin; the only cloud in the sky; the only clerk in the store. (Continued on Page 2.)

TINTS OF BIRDS' EGGS.

They often disappear when exposed to strong sunlight. The beautiful and delicate colors observed on the eggs of birds are not very fast to light, more especially when they belong to the lighter class of colors.

If General Weyler is a Liberal, as appears to be the case, then most of us are Conservatives with all our souls. The man who insists upon the fulfillment of campaign pledges must be prepared to hear himself alluded to as a croaker.

We might try an airship experiment with old Weyler before placing the balance of ourselves upon a war footing, remarks an exchange.

That Jersey farmer who tied a tail to his bicycle and tried to lead the animal in that fashion will know better by the time the hospital surgeons are through with him.

The Indians of Montana have been slow to return to their accustomed 'innocuous desuetude,' and they will be slower when leniency is shown. Periodic bangs represent the best means for controlling the noble red man.

A Kentucky strawberry grower reports a clear profit this season of \$729.63 on seven acres of ground. Numbers of women and children who would have earned money in no other way made \$1 or \$2 a day picking the berries.

French nerve, unappreciated, has put an end to a Paris engagement, according to the English newspapers. A young woman was at the Bazar de la Charite with the young man she had accepted, when the fire broke out. He ran at the first alarm, leaving her alone, but she managed to get out and go home. There she found the young man, who had patiently waited for her, she was safe. He was shown the door.

The Porte will form twenty new cavalry regiments in the Elassona and Salonica districts. An imperial trade raises the army war footing to 70,000 men, while 1,300,000 Mauser rifles have been purchased. So say the foreign dispatches. This would seem to indicate that Turkey has settled in her own mind the question of the evacuation of Thessaly. The Sultan is quietly mobilizing an army of sufficient size to hold in check Russia and perhaps England.

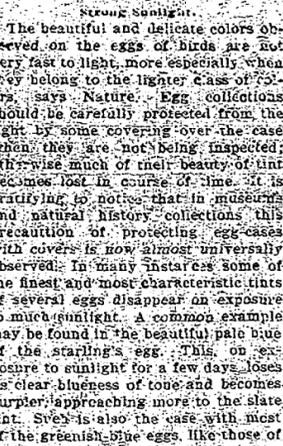

The questions whether the statutes relating to national banks prohibiting them from purchasing or subscribing to the stocks of another corporation, and whether the want of authority can be urged by the bank to defeat an attempt to enforce against it the liability of a stockholder, were passed on by the United States Supreme Court Monday, in the case of the California National Bank, plaintiff in error, vs. Nat. Kennedy. The court holds that a national bank has no right to deal in stocks, although it may accept them as securities, and that it may plead its want of power as defense in a case like the one in question. The transaction in the stock of the savings bank is held to have been void, and the judgment of the Supreme Court of California against the national bank is reversed.

To show how rapidly frozen meats from Australia and Argentina are obtaining control of the English market, we quote from the Australian Pastoralists' Review: There are in the trade from New Zealand to London 26 vessels, insulated to carry 1,493,600 carcasses of sheep; between New Zealand and (or) Australia and the United Kingdom, 15 vessels, insulated to carry 702,000; Australia to United Kingdom, 63 vessels, insulated to carry 1,889,400; River Plate to United Kingdom 24 vessels, insulated to carry 693,000; total 123 vessels, insulated to carry 4,530,000 carcasses. The total import of mutton and lamb into the United Kingdom from all sources, in 1896, was 5,717,337 carcasses. Seeing that each steamer is able to make about two and a half trips in the year, it is evident that the supply of insulated space has more than overtaken the present requirements of the trade. There are sixteen frozen meat stores in London, which altogether can hold for an indefinite period over 1,000,000 carcasses of mutton; five in Liverpool to hold 375,000, one in Manchester to hold 120,000, one in Cardiff to hold 75,000, one in Glasgow to hold 60,000, one in Newcastle to hold 25,000, one in Bristol to hold 24,000. These are being added to by the erection of cold storage warehouses in other large towns. Close upon one-third of the mutton and lamb consumed in Great Britain now comes from Australia and New Zealand.

John Joseph Nouri, besides, he was identified as a prince of Chaldee. He was released from the asylum after a year. Now he is king of the Chaldeans, living in opulence and a palace at Tricoium, and some people are thinking twice about his ark story.

A Jeweler in Turin, Italy, has made a tiny boat of a single pearl. The hull is finely etched, and might serve as a model for a great ship. The sail is of beaten gold, studded with diamonds, and the binnacle light is a perfect ruby. An emerald serves as its rudder, and its stand is a slab of ivory. The boat is a masterpiece of jewelry.

Miss Jessie Boyden has returned to her home at Kalamazoo. She had been making a short visit here after attending the wedding at Detroit of her cousin, L. B. Flint. A very pleasant and largely attended reception was given by Mr. and Mrs. Deios Flint last week Thursday evening in honor of the return from their wedding trip of Mr. and Mrs.

Mrs. Russell and Mrs. Brown of Grand Lodge and Mrs. Sperry and daughter of Detroit are spending the week at Elmer West's.

C. E. Goodell undertook to make a skyrocket holder of himself in his zeal to celebrate on Monday evening. He was considerably "smarter" right away but he doesn't want to gain any more knowledge of the "back action" properties of fire works by personal experience—even when his hand gets well.

During a recent visit to Genesee and Livingston counties The Record reporter found fine strawberries selling at three cents per quart picked, or at one and one half cents if the buyer did the picking. These were the later varieties, the earlier ones having brought somewhat better prices. The supply was so over abundant that many were destined to go to waste even at the low price asked for them.

ENDING program for this (Friday) evening July 9:

- Minutes and roll call. Music—Society. Recitation—Zadiah Angell. Music—Stein Angel. An Event in History—Mrs. Hazen. Recitation—Margaret West. Reading—Grace Court. Music—Misses Banks and Brown. Reading—Geo. Hicks, Jr. Music—Will Flint. Recess. Business. Five minutes talks on the best method for improving our highways. Messrs. Hicks, Yerkes, Courter, W. West, C. Wedder. Music. Adjournment.

By way of giving vent to their enthusiasm in honor of the "Glorious Fourth" in a practical and pleasant direction, about one hundred of the friends of Mr. and Mrs. J. J. Tickner and family gathered at the parsonage Saturday July 3d bringing all the essentials for a picnic (except cool weather) and proceeded to make themselves thoroughly at home in spite of the fact that the pastor and wife were all ready to spend the day at Walled Lake. Mr. and Mrs. Tickner gracefully surrendered to superior numbers and the guests received a "warm" welcome which all the ice cream failed to neutralize. Tables were set in the orchard and at dinner time a second surprise was "sprung" on the unsuspecting host and hostess by the presentation to them of a handsome gold lined silver tea-set, and the wherewith for a set of teaspoons. The remainder of the day was spent in visiting with as much energy as could be made available with the mercury so alarmingly ambitious and the visitors went home satisfied that they had had an enjoyable celebration, not only of the nation's birthday but of the harmony and good will existing between the pastor and his flock and the affection and esteem in which himself and his family are held in the community.

OF THEIR OWN ACCORD.

Northville Boys Not Urged by Nov People to Plead Guilty.

Following letter from Justice Wixom of Novi throws some light on how the Northville boys came to plead guilty of the larceny of Mrs. Abbey's chicken: Novi, Mich., July 7, 1897. Editor Record:—In last week's Record I noticed an article which seemed to reflect upon the work of the Novi officials in the case of Fred Macomber, Day Wilkinson, Fred Wilkinson, Geo. Allen and Fred Evans, charged with larceny of a chicken, from Nora Abbey's place. I am the justice before whom complaint was made and wish to say if any one is at fault for the plea of guilty entered by each one of the boys in his own behalf it is the father of one of them who was present. As to the boys being urged by the officials to plead guilty, it is false and untrue. The court had no conversation with the boys and did not even know them

until they answered to their names upon arraignment and pleaded guilty in the presence of the father of one of them before mentioned. As to the officials of Novi attending to local offenders, we only notice such cases when complaint is duly made and sworn to and authorized by the prosecuting attorney, which was done in the case of the boys. Yours truly, A. NEWTON WIXOM, Justice of Peace.

The Record had no intentions of casting any reflections upon the work of the Novi officials nor question the legality of this matter for a single moment, nor do we question but what the boys merited some punishment. It only appeared that after pleading guilty the fine, considering the crime, was just a little severe.

SALEM.

Efforts to be represented at the San Francisco Christian Endeavor convention by Mrs. W. B. Thompson of Peckles Corner. While on the Pacific coast Mrs. Thompson will use the occasion to visit some of the wonders of that country famous for wonders. She will be absent about six weeks.

The readers of The Record will please take notice that the news columns of this week of the woods during the recent "heated term" have been in a sort of semi-comatose condition so that the epistle from there will necessarily be greatly abbreviated this week. The facts are that it has been too hot for anything to happen worthy to be chronicled in The Record. If some one of yours had been smitten with sun stroke, such events would be capital news items, however painful they may have been in other respects. But not even a sun stroke has occurred or if one has, The Record man in his condition of ennui has not been able to apprehend it.

Farmers that have been able to overcome the lassitude and weariness, born of such extreme hot weather, have been trying to make hay while the sun has been shining these late days. The memory of "the oldest inhabitant" doesn't run back in the past to a date when Salem had a more abundant hay crop, and much of it has already been secured in fine condition.

[This copy has expanded beyond our most sanguine expectations and we desire after making the request, if you see any one looking for a job pitching hay send him to me with convenient haste.—H. B. T.]

WITHIN OUR WALLS.

MERE MENTION OF MICHIGAN MATTERS.

The Destroys the Town of Lake Ann.
Headed by Several Hundred People
Homeless and Without Food—Deaths Caused by the Hot Weather.

Village of Lake Ann Burned Out.
Lake Ann, a village of 800 inhabitants on the Manistee & Northeastern railroad, 18 miles south of Traverse City, was almost wiped out of existence by fire. Seventy-five families are homeless and, as every store in the town was destroyed there was not food enough for even one meal for half of them. The fire broke at 1 p. m. in the mill of Wm. Habbler, presumably from the engine room. The high wind blowing from the southwest spread the flames through the main portion of the town very swiftly. The business part was cleaned up in an hour, including all stacks of goods. The saw mill, stove factory, cooperage sheds, warehouses and the large stock of lumber of Wm. Habbler went to a loss. Traverse City was asked for help, and an engine and crew were sent by special train, but it was almost too late. The additional help saved about half a million feet of lumber, the cooperage factory and a dozen small dwellings on the outskirts. The burning of the mills and factories throws the main portion of the males out of employment. The heaviest loss was sustained by Wm. Habbler, who will lose about \$50,000. Putnam & Burnett lose about \$10,000. Other losses on stores, business structures and dwellings and furniture range from \$500 up and brings the total to about \$125,000. Habbler has \$5,500 insurance. Putnam & Burnett \$2,000 and scattering about \$3,000 more. Mrs. Masten, aged 80, was crucified. She escaped once from the burning dwelling, but returned for valuables when the building collapsed and all efforts to rescue her were unavailing.

Seven Fatalities From Heat in Detroit.
Seven deaths on account of heat occurred in Detroit and vicinity; Mrs. Rosa, of Orchard, Mich., who was visiting at 655 Willis avenue east, died from heat prostration. Mrs. Catherine Orr, of 501 St. Aubin avenue, died from the effects of exposure. She worked several hours in the broiling sun during the day, and frequently took ice-cream drinks. Robert Platt, of 24 Scott street; Henry Lang, who died in a hay field near Wyandotte; W. J. Wright, command, aged 51; Otto Bierman, aged 21, and Patrick Cimmings, aged 61, were other victims of the heat. The physicians reported 25 to 30 cases of prostration from sunstroke, none of which were serious.

Heat Kills Three at Grand Rapids.
The first fatalities of sunstroke at Grand Rapids occurred when the body of Bertha Wierenga, a farm wife, was found lying by the roadside just outside the city. Wierenga was a well-known resident of Ottawa county, and had a large family. Mrs. Ethel Anderson, aged 69, a farmer's wife, from Walker's township, came to the city to visit relatives and after fighting the heat all night she became desperate and took a dose of morphine and was found dead in a long afterward. Mrs. Jane Hildebrand, aged 64, died of sunstroke.

AFFAIRS IN GENERAL.

BRIEF MENTION OF EVENTS OF INTEREST.

Coal Miners in Five States Strike for Wages Enough to Keep from Starving.—Terrible Heat Causes Much Distress and Many Deaths.

Many Thousands Men Idle.
Dispatches from various coal mining centers say that circulars have been placed in the hands of all the bituminous coal miners in the United States calling them out on strike. It is estimated that 325,000 men will be involved. Ohio, Pennsylvania, Illinois, Indiana and parts of West Virginia and Kentucky will contribute to the movement. The strike is to enforce the Columbus scale of 60 cents per ton for Pennsylvania, 50 cents for Ohio and Indiana, and 55 cents for Illinois.

The Ohio miners have been looking for this for several months. When the conference between the miners' representatives and the operators recently failed to bring any sign of better wages, but showed instead the probability of a further reduction, it was felt that a strike must come. The United Mine Workers' official's to the task of bringing the miners of other states to the point mine, and had very little trouble in doing so.

Iron and Steel Mills Closed.
As the result of the failure of the joint wage conference of the Amalgamated Association of Iron and Steel Workers and manufacturers to agree upon the scale at the Youngstown, O., conference nearly all the iron mills in the country are closed down and between 75,000 and 85,000 men are idle. The Amalgamated association received some encouragement in the shape of some sales from six prominent factors in Michigan, Indiana and Kentucky.

All plate mill employees of the Mahoning Valley Iron Co. and Coleman, Shields & Co. at Youngstown, O., were discharged because they had refused to make certain concessions asked by the firm under the amalgamated scale.

Many Slain by Heat.
After one of the hottest springs ever known a fatal summer disease is upon the central and southern states which in the first week of July became simply intolerable. From Pittsburg to Kansas City, and from Chicago to southern Illinois cities and the blazing sun left a record of prostrations and deaths which has seldom been equaled. Cincinnati shows the highest death rate, thirty-six deaths occurring within only four days, but there were also many fatal cases at other points. In Chicago there were over 200 prostrations within four days and a total of 474 deaths were recorded from effects of the heat. Cleveland reported four deaths, Pittsburg three and other cities four and five, with scores of prostrations. Detroit reported seven deaths from the scorching heat.

Steel Killed by a Boiler Explosion.
Nine men were killed and 422 were badly injured by the facts of W. A. Allen, near Harrisville, Tenn., by the explosion of the boiler of a engine of a threshing outfit. Mr. Allen and his men were just concluding the work of threshing wheat and were preparing to leave the field when the explosion occurred. Mr. Allen, who is a prominent politician, was among the killed. Some of the victims were mangled by boiler registration and pieces of the boiler were blown 700 yards.

NEWSY CONDENSATIONS.
Michael Hoese, aged 75, of Niles, is laid crossly ill from the heat.
Several years ago Allegan township, Allegan county, agitated the subject of good roads. With the result that there are now 30 miles of the best gravel-and-gravelled turpikes in place. Of what were once sandy wastes. Other townships caught the fever. People subscribed liberally, and in a very few years Allegan county will have roads as good as those in France.

Agnes L. Hubbell and Lewis Fitchett of Crosswell were brought to Traverse City under arrest from Mackinac Island. Fitchett left Crosswell followed by Mrs. Hubbell and at Traverse City they took out a license and were married, she giving her name as Agnes Cole. They left at once on the steamer Petokey, followed by the sheriff of Antrim county and her husband, W. L. Hubbell, with warrants. Sheriff Dole went along and they captured the guilty pair at Mackinac. Mrs. Hubbell has three children, but Fitchett is single.

Duluth.—The common council adopted a resolution calling on President Smith and C. Wilson of the board of public works to resign to Smith Gross in competency in handling construction of the new waterworks plant was alleged.

Regina, Mich.—After an idleness of nearly two months operations at the Queen iron mines were resumed with a force of about 25 men. As soon as more men can be made the force will be increased. Arrangements have been perfected for the operation of the mine in the future without interruption.

Anderson, Ind.—The Indiana Spiritualists' association proposes to spend \$50,000 to convert the Indiana camp grounds each of this city into a national summer resort for spiritualists.

St. Louis, Mo.—The grain-rate conference of the U. S. Missouri lines held here has adjourned with the understanding that steps would be taken to restore or maintain the established differentials on shipment east bound.

Washington.—Dismissal from the naval service is the penalty imposed by the court which recently tried Commander Dennis W. Mallon.

THE 55TH CONGRESS AT WORK.

SENATE—75th day.

Two of the most important provisions of the tariff reciprocity and the duty on coal were perfect and, while another source of much conflict, the reciprocity committee and presented to the Senate. Aside from these larger items a great many minor ones, which have caused more or less conflict, were disposed of. The Hawaiian provision of the House bill was restored, entire after being debated and without the formality of a vote. This has the effect of leaving the Hawaiian treaty of reciprocity in full force and effect. During the day Mr. Tamm of Indiana, spoke in support of the amendment for a 2 percent tax on inheritances.

SENATE—76th day.—The finance committee suffered several unexpected reverses during the progress of the tariff bill, being defeated on three important points. Cotton burlap was placed on the free list by a vote of 31 to 25, and cotton ties also by a vote of 29 to 23. The duty on white pine lumber was reduced from \$2 to \$1 per 1,000—22 to 31. The amendment on pine occasioned the greatest surprise and led to a general breaking up of party lines on both sides of the chamber. Mr. Teller moved to place white pine lumber on the free list. The amendment was defeated by a close vote of 23 to 33. Following this close vote Mr. Mallon, the silver Republican, moved to reduce the rate on white pine from \$2 to \$1, and this carried by a majority of one.

The bill is now completed with the exception of the reciprocity section and some comparatively minor paragraphs. House—20. Business of importance was transacted, but Mr. Settle, Democrat of Kentucky, found occasion to arraign the Republicans for not taking action on the bankruptcy bill and the Cuban belligerency. "You have acted in utter defiance of public sentiment," he cried. "You asked for time. You predicted great things. Catharine went to Cuba. Catharine returned from Cuba. Catharine went home. Nothing was done. Catharine has been forgotten and so has Cuba. I have no indifference as to which of a civil government or a state of war exists in Cuba. Notwithstanding the course of the majority the House took the usual three days adjournment by a vote of 90 to 70.

SENATE—55th day—Reciprocity and retaliation were the two phases of the tariff bill to occupy attention in the exclusion of all other subjects. Both projects were agreed to. The reciprocity clause empowered the President with the advice and consent of the Senate to make reciprocity treaties giving 20 per cent reduction in duties on designated articles, or passing articles on the free list. The retaliatory clause provides that whenever any country shows an export bounty on any article, there shall be levied, in addition to the duties provided by the act, an additional duty equal to the amount of the bounty.

SENATE—56th day.—The proponents of an early finish up of the tariff bill were introduced in the lead when Mr. Allison introduced a new amendment from the Finance committee, giving a bounty of one quarter cent a pound on beef and mutton, from that grown in the United States. Mr. Jones, of Arkansas, speaking for the minority, had occasion to refer to the vote count reached on the bill in the near future. In view of this, his minority amendment, he intimated that the debate would be very protracted from this time forward. Mr. Teller of Colorado, supplemented this view. As it had become apparent that the reciprocity provision might cause serious delays, Mr. Thurston, of Nebraska, one of the prime movers, with his amendment, saying his action was inspired by patriotic motives and for the purpose of removing all obstacles to the passage of the bill. His colleague, Mr. Allen, immediately renewed the bounty proposition so that the completion was the same as before. During the day the bill was brought to a state of practical completion on a first reading, the only remaining items being the new propositions submitted to the committees and individual members. All of the administrative sections of the bill and that repealing the Wilson act were disposed of during the day and the paragraph proposing a tax on beer was withdrawn by the committee. Besides the bounty amendment, Mr. Allison proposed earlier in the day amendments for taxing bonds, etc., which went over. Mr. Mills of Texas, brought forward a new amendment for a tax of 30 cents a pack on playing cards, which was agreed to by unanimous vote, amid much amusement.

SENATE—57th day.—Mr. Allison, in charge of the tariff bill made another futile effort to have a time fixed for a vote on the bill, and then declared that on the following evening he would ask the Senate to remain in session, at least until the bill was reported from committee of the whole. This promise was a test of confidence unless the opposition to the bill gave way. In some respects the Senate made good progress, disposing of two important amendments, that placing a stamp tax on bonds, stocks, etc., being agreed to with little or no opposition, and without the formality of a vote, while the Spooner amendment proposing a tariff investigation, was withdrawn after a protracted struggle.

SENATE—58th day.—An agreement was assented to by all parties at the close of the day's debate on the tariff bill to remain in session on the following day until a vote should be taken. During the day the anti-trust question was debated at length, and Pettus' amendment on the subject was defeated 33 to 29.

The first section of a Chicago Christian League, from Iron into a freight train near Aurora, Colo. Fireman W. M. Cole, of McCook, Neb., was slightly hurt and Dave Magner, engineer of the same place, was seriously injured. One passenger was cut over the left eye.

OHIO SILVER DEMOCRATS.

Nominate Horace M. Chapman for Governor—Silver the War Cry.

The Ohio Democratic State convention at Columbus was one of the most memorable political occasions in the history of the state. It was a convention of unanimity on principles and of differences on men, especially on those who were candidates for places on the state ticket. It was a free silver convention throughout. Every candidate whose name was presented was announced as orthodox in silver doctrine as the cardinal principle for his favorable consideration. While there was no place on the state ticket accorded to either the silver Republicans or the Populists, yet representatives of both these elements cooperated in the convention. The silver Republicans and the Populists are themselves responsible for having no representatives on the ticket as they would not ask it and stated that they were more interested in the platform than in the office.

The convention was organized with the temporary officers—Chairman, Ulric Stouffer, secretary, W. A. Taylor—being made permanent. The greatest demonstration of the convention followed that part of Chairman Stouffer's speech in which he referred to Wm. J. Bryan as the "father of the silver cause for 1900." A large gold cross was carried into the hall and caused an immense display of enthusiasm. It had on ornaments the growth of thorns and a clock indicating 16 minutes to 1 o'clock.

When the nominations for candidates for governor were called for the names of Paul J. Sarg, Allen D. Smalley, Allen W. Thurman, D. D. Donovon, R. T. Hooper, Horace L. Chapman, S. M. Hamter, L. M. Van Meter, A. W. Patfield and Jas. A. Rice were presented. It had been clearly evidenced in the preliminaries that the force of John R. McLean, of Cincinnati, had control of the convention and while it had been generally believed that Judge Hooper, of Highland county, would be the McLean candidate, circumstances arose which caused them to name Chapman instead. On the first ballot, however, the McLean vote were carefully scrutinized to prevent making a too sudden display of their strength, but on the second ballot they threw enough votes to Chapman to give him a majority. His nomination was then made unanimous and, although there was a large field of candidates for each office, the ticket was completed without much trouble as follows: Lieutenant governor, Melville D. Shaw; supreme judge, J. P. Spangler; attorney general, W. H. Dore; state treasurer, James B. Wilson; board of public works, Peter H. Duggan; school commissioner, Byron H. Hard.

The platform adopted is for free silver and nothing else. It simply reaffirms the Chicago platform and repeats the language of the financial plank.

The silver Republicans had in an emergency after the convention and expressed much indignation. They said they did not want a place on the state ticket, but only after they were told they could not have it. They appointed a state committee to call a convention to nominate a separate ticket. The Populists also announced that they would hold a state convention and have a separate ticket. The Populist ticket will have two separate tickets so that there will be at least six state tickets in the field in Ohio this fall.

The London Review prints an article stating that the U. S. Maritime Commission, now in Paris, are coming to London armed with an agreement made by France with the United States for a joint appeal to the other powers for a bimetallic agreement. The article says that England stands prepared to receive his Indian allies and otherwise contribute to an extended use of silver. Washington authorities say they fear that the Review's article is overdrawn.

REVIEW OF TRADE.
Better weather has favorably affected the sale of seasonal goods, particularly clothing, hats and shoes, and the movement of goods for fall delivery has begun. The most encouraging feature is the continued and in some instances increased demand of merchants and manufacturers, that the autumn will bring a larger volume of business at higher prices. The least favorable feature of the past week is found in disappointment in the market for iron and steel. The idleness of a 60 iron steel and glass works and soft coal mines, coupled with the latter in consequence of the season. Large hoppers are built on prospective ground after the tariff bill has passed but the present fact of large quantities of stocks will defer it, but the removal of uncertainty will in any case increase business.

Rev. F. W. Gookin of Centerville will occupy the pulpit of the Baptist church next Sunday, both morning and evening. Mr. Gookin was formerly a pastor at McClellens.

There will be a union young people's meeting at the Presbyterian church next Sunday evening at 6 p. m. instead of 8:30. Leader, J. A. Dubnar. Topic: Individual responsibility for the conversion of the world.

Northville people do not appear to be very "baseball" enthusiasts this season. The game so far played here have not paid expenses, and except for the guarantee fund the club would now be on the back stop for something like \$50.00.

The medicine show which went from here to our sister village two weeks ago stranded on the Plymouth rocks last week. The doctor made an agreement to return to Northville to do a turn in the court house but thus far he appears to have cancelled his engagement.

The very pretty floral star on Mr. Neal's lawn is the design and arrangement of J. M. Dixon of the Northville greenhouse, and the admiration it wins reflects credit on Mr. Dixon's skill. The cold June weather gave it a decided setback at the start but it is now coming on very nicely.

The subject of Rev. Mr. Ward's sermon Sunday evening will be "The Intermediate State or the soul between death and resurrection." The address will be illustrated by charts. It will doubtless be of more than ordinary interest and is delivered by special request of a number of the congregation.

While going past the Presbyterian minster Wednesday morning Dr. Yarnall called to Mr. Herbener and said "Go that smoke on the walk!" A smaller authorized crowd but couldn't see the smoke. Mr. Herbener insists if the doctor really saw a smoke it was a migration from the present cell into final quarters to the New-home down the street.

It is suggested that when the new park is ready for business, a neat little fountain be erected in the middle of the fountain from the center of which let there be heavenward a single stream from reduced pipes to represent the force of Northville's great water works system. This would be in full view of every passer by upon trains and could not help but create an additional impression that would be beneficial.

Talk about warm weather. Here's a world heater: A Northside lady purchased a dozen eggs at one of our local stores on Monday, and by the time she had reached home a live chicken had hatched out from one of the eggs which had been slightly exposed to the rays of the sun by laying on the top of the basket. The lady carried a parasol at the time otherwise it is presumed that the whole dozen would have submitted themselves to old Sol's incubator rays and on reaching home she would have had a whole flock of feathered cluckers all ready for her neighbor's garden.

A representative of the Union Trust Co. of Detroit, guardians for the Peter Gillespie estate, was here Wednesday to look over the mill pond and park matters. He agreed that it was a good idea and should have been adopted long ago. So far as possible the Trust Co. will co-operate. The park committee meet again tonight to make final arrangements to go ahead with the work. The probabilities are that the village will have the property condemned and get the courts to grant a deed for park purposes. The moving of the dirt may be done by contract, a bid already having been submitted for 12c per cubic yard.

It is not often we have to go away from home to get the news but we clip the following from the Milford Times of last week: "Miss Carrie B. Hayes of Milford and Henry P. Fry, a Northville young man, were married at Zion Protestant Episcopal church, Pontiac, by the rector, Rev. L. S. Stevens, on Thursday July 1. Accompanied by the bride's sister, Mrs. Mae Chappell, and Miss Winifred Ketchum, the bridal couple drove over from Milford Thursday morning. Mr. and Mrs. Fry went from Pontiac to Detroit on Thursday evening. They will reside in Northville, the groom being a member of the firm of Fry Bros. & Co., grocers of that place. Mrs. Fry will take to her new home the best wishes of her many Milford friends."

The ladies of the Relief Corps will sell ice cream in the office of W. H. Ambler Saturday evening July 10th. Give them a call.

In last week's issue the price of wall paper in Holmes, Dancer & Co.'s ad should have read 33cents instead of 31. See correction this week.

Bicycles will be checked free at the Presbyterian church Sunday morning, without the aid of a special act of the Michigan legislature either.

Dr. Elliott, whose business card appears elsewhere in this issue, has opened an office in the front rooms over Holmes, Dancer & Co.'s store.

In the case of the people vs. Al. Bulman charged by W. L. Becker with slander, Bulman was found guilty yesterday and fined \$12.50, costs and fine. Asst. Pros. Attorney Waite appeared for the people and Atty. C. C. Yerkes for defendant.

The union patriotic exercises in the Methodist church Sunday evening were of a very pleasing order. Appropriate and spirited remarks were made by H. E. C. Daniels of the Presbyterian church, Chas. Booth of the Methodist and by proxy, George Capell of the Baptist. The Declaration of Independence was read by Thad J. Kuapp and Patrick Henry's address was recited by Day Wilkinson.

The act dividing the township is likely to call up a nice little law point regarding the justice in this precinct. The act says all officers holding office at the time of the passage of the act shall continue to hold office until their successors are elected and qualified. The act was passed April 5th but the term of office of justice does not expire until July 1st. It is contended by some that Justice Webster holds over until election, while others claim that Mr. Lowden has been duly elected as Mr. Webster's successor and is now entitled to his office. The attorney general has been asked for an opinion.

At the regular service Sunday morning Rev. J. H. Herbener will deliver his bicycle sermon, or sermon to bicyclers, or lessons from the bicycle—anything you are a mind to call it. The public generally is invited, and a special invitation is extended to all cyclists, ladies and gentlemen. Riders are invited to come by wire and in biking costume. Arrangements will be made to check and care for all wheels at the door. Riders from neighboring towns will be welcomed. The address will be an interesting one. In the evening Mr. Herbener's theme will be "Present Needs of Society." 475 young men of the village are urged to be present.
