A FITTING END.

The O. E. S. Banquet Was to the Teachers' Institute.

OVER FOUR HUNDRED PERSONS PRESENT FRIDAY NIGHT.

Entertainment, Refreshments, Toasts and a General Good Time.

Over One Hundred Teachers Participated in the Enjoyment.

The entertainment and banquet tendered the visiting teachers in Masonic temple at the close of the institute last week Friday night was a fitting end to the week of instruction and enjoyment. Besides the hundred and six teachers present there were over 300 people present from Northville and vicinity to do honor to the occasion and say "au revoir, but not good-bye." Although preparations had been made for a large crowd yet the Star ladies had never for a moment anticipated a gathering of such magnitude as that which did assemble to grace their hall.

The visitors were met at the entrance to the reception room by a Star committee and after being seated beneath tastily decorated archways and introduced to the receiving ladies they were seated in the audience room. The program proper commenced at 8:20 by a finely worded and well delivered address to the teachers by worthy Matron, Mrs. Bodin, giving them in behalf of the Eastern Star ladies a warm welcome. After the address Miss Ellie Clarkson delighted the audience with two violin solos and graciously responded to an encore. Mr. R. H. Porter sang a solo and responded with an encore as also did Louisa Jolin; Miss Grace Verke gave a recitation in her usual pleasing manner and Miss Babbitt gave two recitations and two encores.

The program was followed by an invitation to the banquet room where a dainty luncheon was served. After lunch came the toasts. H. E. C. Daniels did honors as toastmaster and he proved the life of the company. In his introductory remarks he had a lot of nice, catchy things to say of each speaker and the crowd was just in the humor to appreciate it all to its fullest extent. To his enviable reputation of a happy "after dinner" speaker, Mr. Daniels, upon this occasion, added that of a first-class toast master. Rev. W. M. Ward responded to the toast "Our guests," Co. Com. T. Dale Cooke "Mine Host;" Mrs. Purdy "X—an unknown quantity;" Mrs. Joslin "Lady teachers;" Mrs. Ambler "The Stars;" Miss Sullivan of Wyandotte "Time;" Miss Scott of Wayne "Au revoir, but not good-bye;" Prof. Lightbody of Detroit "Our Nation;" F. R. Beal "Northville;" Prof. Thompson "Boys and girls;" Prof. Miller "The Peoples' College." The toasts were all well given and were cheered to the echo.

The Eastern Star ladies did themselves proud upon the occasion and to them is credited the successful culmination of the week's jollification and the fitting good-by that was at last spoken. They labored diligently for the success of their part of the entertainment and have the honor of knowing it was well done.

NORTHVILLE POULTRY ASS'N.

First Annual Meet to Be Held Here December 6-11.

The first annual meet of the Northville poultry association will occur here December 6 to 11 inclusive. The judge will be J. Y. Vickrell of Buifield, one of the best posted poultry breeders in the United States. It is expected that a large number of poultrymen from all parts of the state will be present.

Detroit Driving Club.

Detroit Aug. 10 to Sept. 4. Excursion tickets will be sold to Detroit and return Aug. 11 to 14 inclusive. Limited for return to Sept. 5 at rate of \$1.15.

ORCH TELEGRAM MESSAGES.

Sunday's Free Press contained an interesting Caleogram from London relative to tests being made there by Prof. Crehore of Dartmouth and Lieut. Squier of N. Monroe of their new device for the rapid transmission of telegrams. Lieut. Squier is a son of A. J. Squier now of Northville.

It is understood that the tests made have been entirely satisfactory. The inventors however are reticent pending full demonstration of the practicability of their scheme. They seem to fear possible rivalry. It is claimed that their device will transmit enough matter in an hour over a single wire to fill a page of a newspaper.

FATALLY KICKED.

PETER LASCH, A FARMINGTON BOY, WAS WEDNESDAY.

Horses Ran Away—Lasch's Neck Was Broken.

Peter Lasch, the 15-year-old son of Robert Lasch of Farmington, was instantly killed at five o'clock Wednesday afternoon. He was driving a load of manure for Samuel Davis when the horses took fright and ran away. One of the animals kicked him, breaking his neck.

HONORED BY UNCLE SAM.

Alfred Noble, a Former Northville Boy, Is for a Second Time.

President McKinley has again recognized the ability of a former Northville citizen in the appointment of Alfred Noble of Chicago, one of three commissioners to map out the most desirable route from the great lakes to the sea. This route will be in the nature of a ship canal for sea going vessels. It will be remembered that some years ago Mr. Noble was appointed by our government to make a report on the Nicaragua canal. The fact of the appointments coming almost simultaneously is the more complimentary.

Salem News.

A. J. Austin has been on the sick list for a few days past.

Mrs. F. G. Tarrill and Master Roy are visiting friends in Detroit.

Will Thayer and family left for Alpena Monday morning.

Mr. and Mrs. Hansford visited the campers at Whitmore lake Tuesday.

Mrs. John B. Waterman entertained a party of her lady friends at dinner on Wednesday.

Fred Sober returned Saturday from an extended visit with his friend Fox of Three Rivers.

Mr. and Mrs. E. T. Walker were home from camp over the Sabbath and attended church.

On Monday morning Andrew Fauner's right arm was quite seriously hurt in the saw-mill.

The annual Sabbath school picnic will be held this year, on Saturday next in John Bennett's grove.

Rev. Mr. Coffin of the Methodist church is taking his vacation, and is visiting friends at Trenton and Albion.

It is quite probable that the Methodist people will build a parsonage on their lots adjoining Wm. Rider's place on the west.

Geo. W. Thayer of Rochester, N.Y., is attending the Bankers' Convention in Detroit, and incidentally is calling on his Salem friends.

Mrs. James H. Murray who has been much better from her sickness of two months ago, has had a recent attack of her former trouble. She is being treated again by Dr. Burgess of Northville.

Thrashers report some remarkable yields of wheat. Thirty to thirty-five bushels to the acre is not an unusual occurrence. The increased price of wheat will lead to the sowing of a larger acreage this season.

A great many people of Salem had business in Ann Arbor Tuesday—circuit there you know. Children had to take to have their feet measured for shoes. Fred Wheeler and Frank Haywood found it necessary to go. Their little girls are hardly old enough to take along, but in future years as time goes on, the boys will explain to their daughters the beauties of the circus.

BREAD—You can buy the Best Bread in Town at Nevisou's for 3¢ a loaf.

BALL GAME NEXT WEEK.

The Ann Arbor Browns to Be Here Tuesday.

Washtenaw county's crack ball team the Browns of Ann Arbor are to play here next week Tuesday afternoon. The Browns come to Northville with the reputation of "scalp takers from way-back" and the game promises to be a hot one. Thornton and German will do the twirling for Northville with the old reliable Hantz as back stop. The game should be patronized.

TWO WEDDINGS.

Occurred in Northville on Monday Evening.

Northville was honored on Monday night with two weddings, the occasion being the marriage of Miss Linda Evans to Mr. Adolph Boyer, all of this place, and Miss Eva Little to Mr. Fred Slater of Adrian. The Boyer—Evans wedding occurred at the home of the bride's parents, Mr. and Mrs. D. R. Evans, at 6:00 and was witnessed only by the immediate relatives, and the Slater—Little wedding party. After this ceremony the Boyer—Evans guests repaired to the home of Mr. and Mrs. John Little to witness the marriage of their daughter to Mr. Slater. Rev. W. M. Ward performed both ceremonies in his usual pleasant manner.

Both couples will make their future home in Northville. Mr. and Mrs. Slater for a wedding tour, will enjoy themselves for a week or two of camp life at Union lake.

FISH CULTURISTS.

The U. S. Commissioner Will Hold Examinations September 1.

The United States Civil Service Commission announces that on Wednesday, September 1, it will hold examinations at Washington, and at other cities where there are competent boards of examiners, for the purpose of establishing a register from which appointments may be made to the position of fish culturist under the supervision of the United States Commission of Fish and Fisheries.

In addition to the usual educational examination, applicants will be examined on the subjects of geography and fish culture.

There are four classes of fish culturists, as follows: (1) Those engaged in pond culture operations; (2) in salmon, trout and white fish operations; (3) in marine operations; (4) in shad and pike perch operations. A competitor who passes an examination in any of the above classes becomes eligible to the class to which the examination relates, and, by passing examinations for all classes, a competitor may become eligible in all of them.

From the register established as the result of this examination several vacancies now existing will be filled,

Samiey, one at Cape Vincent, N. Y., salary \$720 per annum; one at St. Johnsbury, Vt., salary \$600 per annum; one in the car and messenger service of the Fish Commission, and several others to be stationed at Washington.

So far as practicable, appointments will be made from those eligible residing in the vicinity in which the vacancy exists.

Persons desiring to compete in this examination should apply to the United States Civil Service Commission, Washington, D. C., for application blanks, full instructions and sample question.

Suburban News.

All muzzleless dogs in Ypsilanti are being shot.

More'n half of our esteemed exchanges had this question at the top of the column next to reading matter last week: "Did you see the eclipse?" Milan Leader. Blame Neal for the whole thing. He claims all Michigan papers copied that item from the Record—Delray Times.

And yet the Adrian Press claims we stole the item from the Press.

The Albion Mirror jauntily relates this whopper: "A few days ago, in order to cheer myself up, I took a stroll through the cemetery. Just over the hill I saw a lady—a widow, by her dress—watering a newly made grave. Curiosity prompted me to ask why she did it. She told me it was the grave of her husband who had recently died. She had made a vow on his death bed not to marry again until his grave was green. She had recently received a very good offer, she said, and was trying to hurry up the grass."

Too Busy to Say More.

A. K. CARPENTER.

A penitentiary convict has made his escape to New York, an elaborate miniature ship, and shipped it to Bremen in a glass case. The ship was built at great cost of time and patience and is named H. S. Pingree. A note with the ship states that it starts from Detroit and is bound for the White House, supposed to be with the governor on board as president-elect. Let not the barefoot Pingree anchor his hopes to this ship, and expect to reach the convict's promised goal. Let him rather remember the observation of an Irishman who, when a new married couple slapped his hands together exclaiming "I thank God I have just wedded a daughter of the Lord," ejaculated: "Sit down ye shippeep! it'll be a long time before ye see yer father-in-law."—Adrian Press.

DIAMONDS TO ORDER.

WILLIAM CROOKES ANNOUNCES THIS AS A FACT.

How it will be accomplished to be
obtained from Metallic Ingots &
Long and Pedious Process. THE LAST
LARGEST ARTIFICIAL DIAMOND.

WILLIAM CROOKES

the famous European savant, announces that in a few years

it will be possible to make diamonds to order, as it is a suit of clothes. All that we lack he says is the development of the process, the intrinsic points of which we know full well.

There are no mysteries to solve or hidden principles to ferret out. All there is to do is to be patient, and science will do the rest. People who have never heard of Mr. Crookes, and in consequence are not just sure how much of what he says to believe, may have more faith in his remarks if they will consider the knowledge that he is the same man who invented the famous Crookes tube, without which the galleries fall when occasion demands statesmanlike action.

It is said that the music to "We Won't Go Home Till Morning" is over 700 years old, or about the age the fellow feels who sings it when he wakes up.

Following the example of some other labor organizations, the Knights of Labor are preparing to submit to Congress an amendment to the tariff bill calling for the imposition of a duty amounting to \$500 on each alien laborer who comes into the United States. In justification of this proposition it is alleged that foreign laborers are brought here under various pretexts because they work cheaper than Americans.

A number of representative men and women have given the New York Independent their opinion as to what constitutes the most striking characteristic of the period and the reign of Queen Victoria. A response from Gladstone properly leads the list of replies. No answer touches a finer characteristic than that of Francis E. Willard, that the queen has set up and illustrated the highest standard of personal purity. To be royal and yet pure in heart has unhappy, not always been a characteristic of English sovereigns.

Considering the intense cold of Alaska it might be well for us to turn to Yuma, Ariz., for a little relief. It has been stated for fact that the ghost of Cavalier, who died a bad life in Yuma, came back from the neither regions to get his arms whitened because he felt as cold down there. Yuma is now a flourishing mining town with a population of 6,000. For weeks at a stretch the temperature ranges from 97 degrees to 125 degrees. They remark that it is a cool day when the mercury sinks down to 90 degrees. This season Yuma has had two spell of hot weather, when the thermometer registered 117 degrees in the shade. So, if one gets "frozen out" in Yuma he could get thawed out in Alaska.

Some women are very Mrs. F. G. Turner of St. Louis is of that class. She had a thrilling experience when she and Miss Sophie Schenck were attacked by a mad dog. The animal ran down the street, sounding at the mouth, and first attacked Miss Schenck, who turned him about with her parasol, then it sprang at the throat of Mrs. Turner and fastened its fangs in her clothing. She seized the dog by the tip of the neck and ears, forced it from her, placed it upon the sidewalk and fell with her knees upon the brute. She held the struggling animal in this position until her husband was telephoned for and came to the rescue on a bicycle, armed with a revolver. The dog was killed. Mrs. Turner's arms were almost paralyzed by the struggle.

The dairymen of Illinois have got their anti-color (butterine) bill enacted into law, but will now have to push it in the courts. A Chicago paper last week said: "Butterine manufacturers have banded together to test the constitutionality of the anti-butterine color law. They will resume manufacturing and coloring it in defiance of the statute. Three of the largest firms engaged in its manufacture have already resumed. They are the Friedman Manufacturing Company, Braun & Fitts, and the W. J. Morley Company. They will persist in making coloring and selling butterine until arrests are made. Then the fight in the courts will begin, all the firms having pooled issues in this. The claim of unconstitutionality is based upon several points. One is that butter is colored by the same process as butterine, and what is lawful for one is lawful for another. A second point is that the law is special legislation in the interest of one industry and against another. A third point is that the bill was passed after midnight, the hour for adjournment of the legislature, and that the clerk on the third reading did not read from the original bill but from a copy. This last allegation is undoubtedly true, as the original bill was stolen from the engrossing clerk's office. The new law should be pushed to its full strength, and no time should be lost in following up violations of it. Every transgression should be followed by a case at law."

The Jubilee visit of the colonial powers has led to the discovery that the Prince of Wales is the leader of fashion in England prevails only in America. The prince is a short, plump, little man, with nothing approaching a figure, and is exceedingly conservative in his attire at all times. None of the oddities of fashion, which occasionally gain a momentary sway over the London swells is followed by the Prince of Wales. If he has any influence at all it is of a conservative and restrictive nature—Exchange.

Congressman Samuel W. Smith has promised to direct his efforts toward securing a change in that clause of the re-election ruling that prevents the wife of a veteran from receiving a pension if she was not married originally to 1892. This has always seemed to be an unjust ruling, as many who are married veterans have been discharged care for them in their declining years and have even spent their own private means for their benefit and comfort. A Holly lady, the widow of a veteran, has the honor of being the first to tell Mr. Smith's attention to this matter and in receiving his promise that he will use his influence to bring about a change in this ruling. —Independent.

Our I's and Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, whose sole and retail druggist, Duluth, Minn., who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 26 years, both at wholesale and retail, and have never heard any thing but words of praise from my customers. Your complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier that has been introduced to the general public." This from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has "Nothing but words of praise" for Ayer's Sarsaparilla.

Any doctor can "Send for the 'C'-Book."

With the doctor's name and address.

ON THE TOWER.

MERIBELLE awoke exactly at the hour he had set for him-self.

The pale, uncertain light of a gray dawn stole in through the lowered curtains of his chamber. He opened the window and looked out upon the Norman landscape which he had set for himself.

The beeches and oaks gradually gave way to the pines with their reddish cones. The purple heath was strewn with resinous needles. The path, winding among scattered boulders, led up the hill at the base of the tower.

At last, suddenly above a low mist, in the far-off distance,

Toward the east a rosy light was already appearing in the heavens.

Alas! Meribelle thought himself of his love, his morning rendezvous. In five minutes he had dressed and descended to the garden, where his great Rüschia ground received him with extravagant demonstrations of joy.

"Be still, Tiger!"

But despairing of quieting him:

"Well, come then."

The greyhound shot swift as an arrow through the gate. His master started as he saw him taking the road

which he knew so well and which led to the last cottage of the hamlet where

they were living, Mr. and Mrs. Simons, rich New Yorkers, and their daughter, Miss Edel.

"I wonder if she is up," said M.

D'Herble to himself. "But it was her

own proposition. Will she really

come? Will she trust herself to me?

With me to see the sun rise from

the top of the Tower d'Aspres?"

For three months he had been flitting with Miss Edel first in Paris, then

in the country, where he had persuaded

the Simonses to come to spend the summer in the hope that he would

there have fewer trials. Already jealous, indeed, and desperately in love with the young American, he wished ardently to marry her. Rich, noble, and possessing many excellent qualities, he felt sure of pleasing her parents, but would she consent? There

was so much courtesy in her manner,

and yet such reserve in those sudden

frozen silences that he had begun to despise, of understanding her. At times by her merry laughter, her rash and tender glances, she gave him the illusion of a delicious familiarity, a moment after an abrupt movement

would put him back in his place sorely perplexed.

Yesterday she had said to him,

pulling out with her umbrella the Tower d'Aspres which, from the top of a mass of rocks, commands a view

of the country for ten miles around.

"Is it true this old woman's legend

that it is the custom with the young

lovers of this village to climb up once

alone by themselves to the top of the tower to see the sun rise?"

He had replied: "Yes, it is a local

superstition. The dance never fails to do this. It is supposed that if the sun remains obscured or invisible in the clouds the union will be an unhappy one. But if it shines out bright

and clear it is their future happiness that it illuminates."

She had laughingly answered: "In

that case the sun in refusing to shine must have caused many a marriage to be absolutely postponed."

And he: "That has happened, though rarely. Love prevails nine times out of ten; incredulous they defy the augury if it is unfavorable, and accept it only when it is ominous."

She had laughingly answered: "In

that case the sun in refusing to shine must have caused many a marriage to be absolutely postponed."

The ladies of the Methodist Aid society met at the home of Mrs. Clara Steeho on Tuesday. The visit was a pleasant surprise in honor of her birthday. The ladies brought the refreshments for a bountiful supper, which was served in the basement of the church, across the way, in which Mrs. McCoy in behalf of the society presented Mrs. Steeho with an "iced quilt" made by the ladies.

A lady living near here has a hen that is very particular where she makes her nest. One morning, finding the bedroom window to the house open, she stepped in and spying a feather bed on the floor set thereon, left her egg and departed. The next day the window was closed and she set on the window sill from whence the egg rolled off and broke. After this the lady of the house, being of a very accommodating turn of mind, spread an old quilt on the feather bed and Mrs. Hen made daily visits for several weeks.

One day the window being closed she flew into the sitting room window and after depositing her egg on the couch flew out again cackling triumphantly.

Following from the Ann Arbor Courier refers to the item in last week's Record regarding the same case. A man drove into the city Friday with a hay rack loaded with wool and sought a buyer. He finally made a bargain with Mack & Schmidt for the load, but his actions created Walter Mack's suspicion, and he informed the man that before giving him the check he must get some one to identify him. This he said he could not do, but went out of the store to try and find some one and has not been seen since, although the officials have been very desirous of finding him. The team he drove, it has since been ascertained, was taken from Walled Lake, and the wool was stolen from Milford. As he appeared here early in the morning with the wool, he must have made a rapid drive. The chances are that he has made his escape, but it was a narrow one.

The local ball club has arranged for a series of three games to be played with the Plymouth team, date to be given later. One game is to be played in Northville, one in Plymouth and the third to be decided upon later—probably Carson City.

The Northville band would like to play at the coming Milford fair. The band's manager Mr. Wingard was in town the first of the week looking up the situation and in order to demonstrate to the people of Milford and vicinity just what his band can do, he proposes to bring them up here some evening to give a free open-air concert. It was arranged among the business men to pay their necessary expenses and the date is set for Saturday August 21.—Milford Times.

The only thing tending to in the least mar the enjoyment of last week's festivities was the apparent obstinacy on the part of the band in declining to play on the streets one evening without pay. The committee decided that they had no funds at their disposal for the purpose and inasmuch as everybody else was donating their services they thought the band also would be justified in so doing. The band boys thought different however and that's why there was no music.

Michigan State Troops Spread a Week in Camp Pingree at Island Lake.
The Governor a Big Attraction—Incidents at Camp Fire.

Michigan Soldiers Say in Camp.
Camp Pingree was the name given to the encampment of the Michigan National Guard at Island lake this year. The number of men in camp averaged well with any other previous year and the plan of having the tents pitched before the main body of the troops arrived gave general satisfaction. The Fourth regiment was given a taste of camping out, however, before they reached Camp Pingree. They left their train at Green Oak, four miles away, and marched in heavy marching order over the rough fields and sandy roads to within a mile of the camp and then pitched shelter tents, cooked their own supper and spent the night there. When they reached next day they looked like old campaigners.

As fast as the companies arrived at Camp Pingree they were mustered in by the colonels of the governor's staff and inspected by Inspector Gen. Case. The First was the first to have a full regiment in camp.

The arrival of Gov. Pingree, commander-in-chief of the M. N. G., was an event which was somewhat interfered with by rain, which began just before the train arrived and continued until the governor had reached his tent. Nevertheless, there was a big crowd of both civilians and soldiers to greet him. The absence of the elaborate gold lace trimmed uniforms of the escort was noticeable, but this was on the governor's order as he had all of his staff instructed to appear in camp with only their fatigue uniforms. Gov. Pingree was attired very simply, but as he mounted a skittish black horse and rode about it was evident that he would be the principal attraction during the rest of the camp. Just before the parade began to move the Naval Reserves fired the governor's salute. Every time a gun boomed the governor's horse jumped into the air, but did not seem to disturb its rider. The Third regiment was given the honor of escorting the governor and his staff into camp.

Thousands of visitors witnessed the grand pageant of blue-coated soldiers in the review before Gov. Pingree and staff, and enthusiastic cheers repaid the boys for their long hours of drill which have been necessary to enable them to make the splendid showing they did. The rain came down almost in torrents for a time, but the boys, and the horses, too, held their ground. The troops and officers were drenched but the bands continued to play and the governor and his staff sat erect upon their steeds reviewing the swiftly moving column as it swept by the reviewing stand. Thereupon the cheering went up from the spectators all along the line of marching which led around the entire field each company saluting as it passed the reviewing stand.

It is stated that the 1877 encampment is probably the last that will be held at Island Lake. The men have become tired of the place, although they acknowledge that the grounds are splendid. The next encampment may be held at Mattoon, on the Russell farm, about two miles from the city. The camp will then be on the shore of Lake Michigan, and the naval reserves can be there at the same time as the troops for practice in their ship. Gen. Case, says, however, the future site of the encampment has not yet been determined. The military board will meet next month and visit the sites for encampments presented by Manistee, Cadillac, Kalamazoo and the points around Detroit.

Camp Notes.

The U. S. regulars' camp was named Camp Gardner.

Mrs. Gov. Pingree, Miss Hazel and H. S. Pingree Jr. were guests at the governor's quarters.

Second Lieut. W. E. Grayson, Co. E., Third infantry, was arrested charged with abusing a guard.

Gov. Pingree expressed much satisfaction at the appearance of the camp and the troops and was greatly pleased with the showing of the Fourth regiment in their "roughing it" experience.

Tramps inflicted their presence on the camp by the score, but were banished when they entered the camp limits. They stole everything found loose in and about camp.

The largest company in camp was Co. A, Second infantry, from Coldwater, with 60 men and three officers.

The Dirty Deed of Two Women.
While Mrs. A. Chase was absent from her house near Coldwater, Mrs. Louise Doubt and daughter, it is alleged, went in and broke nearly a bushel of rotten eggs in every room and bed. A family album was ruined and pictures of relatives and friends were destroyed. Sheriff Campbell arrested the women, which probably saved them a coat of tar and feathers at the hands of indignant neighbors.

The miners at the Sebewaing Coal Co. are out on a strike. Every miner took out his tools. They want the company to put in seven-eighth inch screens and the company refuses to do so. They are at present using one and three-quarters inch screens.

A terrific thunder storm swept over Cedar Springs, during which L. W. Clark's horse was killed by lightning and all telephone connections were destroyed. Mat Wilson's circus was giving a performance and the manager ordered everyone out into the storm fearing the tents would collapse.

Tried to Burn an Incendiary Alive.
Henry J. Lensel, a son of Ironwood and John Romola and family narrowly escaped being burned to death. Two of the buildings were owned by Charles Lensel, a notorious Hurley character. Two weeks ago Henry Lensel came over from Hurley and opened a candy store in one of the buildings, sleeping up stairs in the other. When the fire broke out, Romola and family were rescued with difficulty, and Lensel was accused of setting the fire. Marshal Jennings tried to quiet the crowd which assembled, but with cries of "lynch him," several men picked Lensel up bodily and started for the fire with him, with the intention of throwing him in. The frenzied turned the hose on the crowd. Jennings ran back and finally succeeded in getting Lensel away and lodged him in jail. He afterward confessed to having started the fire.

MICHIGAN NEWS ITEMS.

Rain fell for 14 hours at Marquette. Cots a failure at Maple Rapids. Mason county's peach crop is almost a failure.

The D. S. S. & A. will extend its line to Calumet at once.

Lyman Harris, of Bethel, died from injuries received from a falling wheat stack.

Loggers in the north woods will receive 20 percent more wages than last year.

The cycle path between Owosso and Corunna is finished and is giving satisfaction.

Mason county Sunday schools attract 5,000 persons at their rally day exercises.

Mrs. M. E. Abell, of Detroit, has been chosen matron of the Alpha college dormitory.

A stock company was organized at Saline to build a \$4,500 butter and cheese factory.

The Big Four and C. & W. M. railroads will erect a \$6,000 union depot at Benton Harbor.

St. Mary's church at Grand Rapids has just dedicated a fine new altar that cost \$17,000.

Ex-Postmaster Westover, of Jerome, was arrested charged with embezzling Uncle Sam's funds.

Work has been begun extending the new Detroit & Macinac railroad from Alpena to Cheboygan.

A Jackson company has leased the Eastman farm, near Saginaw, and will sink a shaft for coal.

A bonus of \$1,000 offered by Leathier citizens requires L. O. Steudman to built a flour mill there.

Joseph Hoag, aged 76, of Wayne, took out a license at Detroit to marry Uncle Sam's funds.

The striking miners at the Monitor coal mine near Bay City have resumed work, having compromised at 87 cents a ton when they struck for 90 cents. The Bay mine which was paying 85 cents voluntarily increased to the new Monitor scale.

Throughout Jackson over Lizzie Bartecome, Nelson Quinn fired three shots at Ernest Pratt, at Plainwell, two bullets going through his clothing, but not injuring him. Quinn ran about a mile and, after being shot at several times by Officer Tomlinson, surrendered.

The West Bay City council instructed the city attorney to fight the injunction restraining the mayor and recorder from issuing \$20,000 bonds to build an electric light plant. It is estimated that the Bay County Electric Light Co. is behind the injunction proceedings.

The first crop of sugar beets to be raised in Bay county and probably in the state has just been gathered at N. L. Bradley & Son's farm at Saginaw, a few miles north of Bay City. Beet sugar experts pronounced the crop far beyond their expectations, and as a result local projectors of a sugar refinery have elated.

Fred J. Snow, alias Chas. V. Scott, a sleek young man who has been "cutting a big dash" in society circles at Benton Harbor, has been arrested and confessed that he had stolen money and jewels from friends and relatives in Providence, R. I., where he was wanted for grand larceny. It is said he wreaked his father's business valued at \$25,000.

The U. S. navy department officials have decided that the cruiser Yantic can be brought through the canals to Detroit for use by the Michigan Naval Reserves provided the state of Michigan will pay the bill. The Yantic draws over 11 feet of water and she must be lightened to a draught of nine and a half feet in order to get her through the canals.

The Soldiers and Sailors association of northwestern Michigan will hold its annual reunion at Big Rapids Sept. 16 and 17. A city of tents will be erected to accommodate the big crowds which are expected. Col. A. T. Bliss, commander of Michigan departmental G. A. R., Gov. Pingree, Lieut.-Gov. Dunbar, Senator Barrows, Congressman Mesick, Gen. Rutherford, and others have promised to be present.

A fire broke out in the Colby-Hippler Co.'s warehouse at Benton Harbor which, aided by a heavy wind and inadequate water supply from city works, destroyed two large warehouses, a cooper shop, two dwelling houses, a hotel and fifty carloads of peach baskets and other basket stock. John Feuer, whose two houses burned, barely escaped with only his night clothes. The total loss is over \$12,000.

Labor Commissioner Cox has investigated the strike at the Saginaw coal mines. He found they were being paid 70 cents per ton for coal run over 1/4-inch screen, while the Ohio price is 51 cents over a 1/2-inch screen. The Saginaw men are paid semi-monthly in cash, and their signed receipts show that their wages run from \$30 to \$82 per month, the work-day being but eight hours. Day men are paid from \$1.25 to \$1.75.

The entire plant of the chemical works of the Elk Rapids Iron Co. was totally destroyed by fire, which caused loss of \$13,000. The loss will be greatly felt as it was one of the principal industries of the town. Alra Parks was thrown from a buggy and the horse cart passed over him, causing paralysis from the neck down, and he cannot recover. John Herman was badly injured by falling from the roof of the burning building.

Peter Bons, the confessed murderer of Pearl Morrison, set fire to his bedding and clothing in his cell in jail at Crystal Falls, and then yelled for assistance. It was some time before the cell could be opened, and when Bons made no response to the sheriff's calls, it was thought that he had been suffocated. A stream of water soon brought Bons to the front. His evidently was to lie low until in the excitement he saw a chance to escape. Henceforth he will sleep on the bare floor on the steel cell.

A farmer near Mt. Morris has discovered a bed of coal on his farm.

The miners at the Sebewaing Coal Co. are out on a strike. Every miner took out his tools. They want the company to put in seven-eighth inch screens and the company refuses to do so. They are at present using one and three-quarters inch screens.

A terrific thunder storm swept over Cedar Springs, during which L. W. Clark's horse was killed by lightning and all telephone connections were destroyed. Mat Wilson's circus was giving a performance and the manager ordered everyone out into the storm fearing the tents would collapse.

John Macleod, a young man committed suicide at Mariette by hanging himself. He had been on a spree and left a note stating that the shame was more than he could bear.

Joseph Lahey, of Bay City, claims to be the greatest long distance rider in the country. He has completed 10,000 miles since Jan. 1, and expects to make 8,000 more this year.

Mrs. L. Hoden, was found hanging in the cellar of the house of her father Mr. Zandstraw at Holland. She was cut down unconscious, but will recover. Despondency and family troubles.

INTERNATIONAL PRESS ASSOCIATION.

CHAPTER XV.
MISS HETHERINGTON left the Frenchman's rooms that afternoon, she tottered like one enfeebled by the sudden oncoming of age. Monsieur Caussidere was beside her; it was his hand which placed her in her carriage, his head which bowed politely as the carriage moved away. But the lady seemed neither to see nor hear. Her face was deathly pale and her eyes were fixed; she entered the carriage mechanically, and mechanically lay back among the moth-eaten cushions; but she never came to herself until the carriage stopped before the door of Amandale Castle.

The approaching carriage wheels had been heard by the inmates of the Castle, so that when the vehicle stopped there stood Sanders Sloane ready to assist his mistress to alight. With her usual even carriage and firm tread Miss Hetherington stepped from the vehicle, and walked up the stone steps to the Castle door, saying, as she passed the old serving man:

"Sandie Sloane, come ben wi me."

She walked on Sandie following. They walked into the great dining-room, and the door closed upon the two.

What passed at that interview no one knew, but half an hour later Sandie came forth, returned to the kitchen, and sat there crying like a heart broken child.

"Mysie," said he to the housekeeper, "Mysie, woman, I'm turned awn' out on the world. God help me! The mistress has shown me the door of Amandale Castle."

It was not till two days later that Mr. Lorraine, happening to call at the Castle, heard that Miss Hetherington could not see him, for she had taken to her bed and was seriously ill. He heard also from Mysie, who seemed scared and wild, that her mistress had never been herself since that night when Sandie Sloane had been driven from his situation.

The clergyman, more shocked and mystified, asked to be allowed to see the lady, but Mysie refused to permit him to place his foot inside the door. After a little persuasion, however, she consented to allow him to remain on the threshold while she went and informed her mistress of his call.

In a short time the woman returned, and Mr. Lorraine was at once admitted to the bedside of the mistress of the house.

Mr. Lorraine began forthwith to express his regrets at the lady's illness, but he was at once stopped.

"Twasn't o' myself I wanted to speak," she said in her hard, cold tones; "twas o' somethin' that concerns you far more—where's Marjorie?"

"Marjorie is at the garage," returned the clergyman, dreading what the next question might be.

"At the Garage! and wherefore is she no at school? She should have gone back ere this!"

"Yes; she should have gone, but the lassie was not herself, so I kept her with me. She's troubled in her mind at what you said about the French lessons, Miss Hetherington, and she is afraid she has annoyed you."

"And she would be sorry?"

"How could she fail to be? You have been her best friend."

There was a great pause, which was broken by Miss Hetherington.

"Mr. Lorraine," said she, "I've aye tried to give you good advice about Marjorie. I kenned weel that twa silly men like Vers and that fool Solomon Mucklebackit wanted a woman's sharp wits and keen eyes to help them train the lassie. I've watched her close and I see what may be dinna see. Therefore I advise you again—send her awn to Edinburgh for awhile—I will be for her guide."

"To Edinburgh!"

"Ay; do you fear she'll ho obey?"

"Not at all; when I tell her you wish it she will go."

Miss Hetherington sat bolt upright, and stared round the room like a stag at bay.

"I wish it!" she exclaimed. "I dinna wish it—mind that, Mr. Lorraine. If anybody daurs say I wish it, ye'll tell them 'tis a lie. You wish it; you'll send her awn, 'tis for the bairn's good!"

Mr. Lorraine began to be of opinion that Miss Hetherington's brain was affected, he could not account for her eccentricity in any other way. Nevertheless her whims had to be attended to, and as in this case they would cause no great inconvenience, he promised implicit obedience to her will.

"Yes, you are right, Miss Hetherington; 'twll do the child good, and she shall go," he said, as he rose to take his leave.

But the lady called him back.

"Mr. Lorraine," she said, "send Marjorie up to me to say good-bye," and having again promised to obey her, Mr. Lorraine retired.

When he reached home he was rather relieved to find that his foster child was out, when she returned, he was busily engaged with Solomon, and it was not indeed until after evening prayers that she was found themselves alone. Then Mr. Lorraine informed Mr. Jones, the

TAIMAGES SERMON.

SLAUGHTER OF MEN. LAST SUNDAY'S SUBJECT.

From the Following Text, Proverbs Chapter VII, Verse 22: "As an ox to the Slaughter" —Keep Clear of the Law Sharke.

THIS is nothing in the voice or in the manner of the butcher to indicate to the ox that there is death ahead. The ox thinks he is going to a rich pasture field of clover where all day long he will revel in the herbaceous luxuriance, but after awhile the men and the boys close upon him with sticks and stones and shouting, and drive him through bars and into a doorway where he is fastened, and with well-aimed stroke the axe tells him, and so the anticipation of the redoubtless field is completely disappointed.

So many a young man has been driven on by ambition to what he thought would be traditional enjoyment; but after awhile influences with darker hue and swarier arm close in upon him and he finds instead of making an excursion into a garden, he has been driven "as an ox to the slaughter."

We are apt to blame young men for being destroyed when we ought to blame the influences that destroy them. Society slaughters a great many young men in the best. You must keep up appearances, whatever be your salary, you must dress as well as others, you must give wine and bread to as many friends, you must smoke as costly cigars, you must give as expensive entertainments, and you must live in a fashionable boarding house. If you haven't the money, borrow. If you can't borrow, make a false entry, or subtract here and there a bill from a bundle of bank bills; you will only have to make the deception a little while, in a few months or in a year or two you can make it all right. Nobody will be hurt by it, nobody will be the wiser. You yourself will not be damaged.

By that awful process a hundred thousand men have been slaughtered for time and slaughtered for eternity.

Suppose you borrow. There is nothing wrong about borrowing money.

As soon as possible she hastened to her own room, locked the door, and there with trembling fingers unfolded the paper and read as follows:

"I have something important to say to you. Meet me tomorrow at noon on the Edinburgh road. Pray tell no one that you have received this, or that I am here." —Leon Caussidere.

Marjorie sat down trembling with the paper in her lap. Her first impulse was to inform her aunt of what had taken place. A little reflection, however, convinced her that this would be undesirable.

"Yes, I—I wished it—" "Awed, good-bye!"

She held forth her trembling hands again, and Marjorie placed her warm fingers between them.

"Good-bye, Miss Hetherington."

She withdrew her hand and turned away, feeling that the good-bye had been spoken, and that her presence was no longer desired by the proud mistress of Amandale.

She had got half way to the door when her steps were arrested—a voice called her back.

"Marjorie! Marjorie Annan!"

She turned, started, then running back, fell on her knees beside Miss Hetherington's chair. For the first time in her life Marjorie saw her crying.

"Dear Miss Hetherington, what is it?"

"Tis the old tale, the old tale," replied the lady, drying her eyes. "Won't you kiss me, Marjorie, and say only once that you're sorry to leave me sickening her?"

"I am very sorry," said Marjorie, then she timidly bent forward and touched the lady's cheek with her lips.

Curiously enough, after having solicited the embrace, Miss Hetherington shrank away.

"Cold and loveless," she murmured. "But, Marjorie, my bairn, I'm no blamin' ye for the sins of your forefathers. Good-bye, lassie, good-bye."

This time Marjorie did leave the room and the Castle, feeling thoroughly mystified as to what it could all mean.

CHAPTER XVI.

N. the outskirts of the town of Leith, and on the direct road of communication between Leith and Edinburgh, stood the plain abode of the Rev. Mungo Menteith, minister of the Free Kirk of Scotland.

The Reverend Mr. Menteith had espoused late in life the only sister of Mr. Lorraine, a little timid, clinging woman, with fair hair and light blue eyes, who was as wax in the bony hands of her pious husband.

At the house of the pair one morning in early summer arrived Marjorie Annan, escorted thither in a hired fly from Edinburgh by the minister. It was by no means her first visit, and the welcome she received, if a little melancholy, was not altogether devoid of sympathy. Her aunt was an affectionate creature, though weak and superstitious, and Mr. Menteith, like many of his class, was by no means as hard as the doctrines he upheld. They had no children of their own, and the coming of one so pretty and so close of kin was like a gleam of sunshine.

A week passed away, with one super-

"Wants my awning?"

"Yes. She would have borrowed the Joneses', but theirs is blue, you know, and Millie's hair is red." —Cleveland Plain-Dealer.

"There's not another bit of firewood on board," roared the steamboat engineer. "What's the matter with the log?" inquired the matlabb—Philadelphia North American.

are any unnecessary expenses at the obsequies in passing that you are on a level now with those who are finally to succeed. Mark my words, young man, and think of it thirty years from now. You will find that those who thirty years from now are the millionaires of this country, who are the orators of the country, who are the poets of the country, who are the strong merchants of the country, who are the great philanthropists of the country—righteous in church and state—are this morning on a level with you, not an inch above, and you in straitened circumstances now.

Herschel earned his living by playing a violin at parties, and in the intermissions of the play he would go out and look up at the midnight heavens, the fields of his immortal conquests.

George Stephenson rose from being the foreman in a colliery to be the most renowned of the world's engineers. No outfit, no capital to start with, young man, go down to the library and get some books and read of what wonderful mechanism God gave you in your hand, in your foot, in your eye, in your ear, and then ask some doctor to take you into the dissecting room and illustrate to you what you have read about, and never again commit the blasphemy of saying you have no capital to start with.

NOVI LOCALS

Geo. Angell will serve as jurymen in the September court.

Daniel Dunham of Novi has had his pension increased to \$17.00 per month.

Rev. J. J. Tickner will occupy his pulpit at Novi Sunday August 22, as he is expected to return from his visit in New York before that time.

Miss Cora Tisknor ably filled her father's place at last week Sunday's service, winning high commendation from those who were present.

A small Novi lassie recently informed her mother with an air of the most sullen gravity that "that old roaster didn't know pretty" for she "had just given him some and he wouldn't eat it."

The Baptist pulpit was occupied last Sunday by Rev. F. N. Barlow of Alpena to the great pleasure of the congregation. Mr. Barlow is an old man and in feeble health, but he is still a very interesting and forcible speaker, and although speaking extemporaneously, he handled his theme in a manner that could not fail to delight and impress those fortunate enough to hear him.

It is suspected that one of our well-known farmers is training for a "wild west" show. At any rate he holds a coy-boy exercise the other evening before a small but delighted audience that was pronounced equal to anything Buffalo Bill or Barnum & Bailey could produce. The audience fell off the fence exhausted, but the principal actor and his animals stood the performance nobly, except that Jay thinks he will use a soft saddle next time.

Next week Thursday, a treat is in store for all who are interested in Home Mission work, if they attend the meeting to be held at the Novi Baptist church, afternoon and evening. Miss Carrie V. Dyer of Hartshorn Memorial College, Va., and Miss Belle Crawford whose work is among the Indians, are to be the speakers. This is the opportunity of a lifetime for the people of Wayne Association to have the privilege of meeting these talented women, of whose work all who have been connected with Home Mission matters have heard so much.

A large number of the people of Novi and vicinity attended the encampment at Island lake Sunday. It is much to be regretted by the (seemingly) few who yet retain some respect for the Sabbath that the heads of our State government should arrange to have the "big day" at the annual encampment, on this day of all days. It would be much more creditable to those in authority and to our great state if the military spurs were not allowed to extend over Sunday. The religious services held at the camp look somewhat absurd when contrasted with the rest of the day's doings.

Mrs. Jeanie Matthew and baby have been the guests of Jas. P. Allen and wife for a few days.

Miss Anna Conroy has returned from Detroit where she has been making an extended visit.

Mrs. Sage of Ypsilanti, accompanied by her grandson, is the guest of her sister, Mrs. William T. Danes.

Mr. and Mrs. L. V. Wells of Washington are spending a short time with Mrs. Wells' parents, Mr. and Mrs. J. L. Wilber.

A Methodist Sunday-school picnic participated in by all other schools in town, will be held in Mr. Bowman's woods Saturday, August 28. All are welcome.

Miss Myrtle Sowle has returned from her Detroit visit, and her bright and pleasant face is seen again in its accustomed place behind the counter in her father's store.

Lute Walton of Dakota, who has been to see his mother, returned Monday, accompanied by Mrs. Emma Mosher, who will visit her daughter Mrs. Ed. Walton.

Mr. and Mrs. M. A. White and daughter and Mr. and Mrs. L. U. Philbrick dined Wednesday at the home of E. R. Edwards and wife in honor of Mrs. Edwards' birthday. She was the recipient of some pretty birthday gifts. A most delightful time was enjoyed.

Dexter Riley, accompanied by his sons Earl and Harold, were Detroit guests Monday. While there little Harold got lost in the circus crowd causing much anxiety for about three hours. Finally the little fellow was found by a policeman and restored to the almost crazed father. The many friends are glad that no injury resulted.

Spencer Lawrence of Southfield has a hoghead full of tame carp, which he takes to the local fairs. Mr. Lawrence will pick a carp out of the job lot, lay it on the tire of his wagon wheel and the fish will stay there without stirring, only to open and shut its gills, while the farmer explains its good points—so says the Birminghamian.

The ice cream social held Saturday evening at Mr. Gregg's lawn was not very largely attended on account of the storm. All those present however had a pleasant time. The band was on hand and discoursed several selections in a pleasing manner. Gross proceeds about \$5. The League extends thanks to Mr. and Mrs. Gregg for courtesies.

A "Come-one-Come-all" social will be held in the Methodist church and out on the lawn Tuesday evening, August 28, under the auspices of the social department of the League. A short literary and musical entertainment will be given, and afterwards a beautiful repast will be served in the church and on the lawn. All for the small price of ten cents.

Davis & Bromley, Pontiac attorneys for Mrs. Casey, make the following statement: "John Arthur, who lives at Farmington, has for a long time been trying to persuade Mrs. Casey to leave her husband and has been continually giving her money until the sums have amounted to \$10,700. Mrs. Casey now firmly refuses to leave her husband and Arthur is trying to get the \$10,700 back." Mr. Casey will begin suit against Arthur for \$10,000 damages for attempting to alienate the affections of his wife. The upshot of the whole affair will be an endless number of lawsuits and many implications.

Two gentlemen enroute for Pontiac and Birmingham, traveling first by wheel and then, thinking of the old maxim "Variety is the Spice of Life," foot from Birmingham to Farmington were a recent novelty here, where they partook of a bountiful repast served up in first class style by the wife of one of them. Ed Pettibone, the genial clerk in Grace's store, was the Farmington man and Bert Phillips of Northville was his associate. Ed, in trying to pick elderberries, had a slight tussle with some humble bees and Bert's wheel collapsed. They were a sorrowful looking pair when they struck town but after a short rest, Mr. Phillips continued his homeward journey, a sad but wiser man: Bert did not want his sister to find it out, for fear the Record would get it and Ed told his wife not to tell. But as usual the whole thing got out and the only wonderment is how?

35 Milwaukee, Wis. and Return Saturday Aug. 28th.

The Flint and Pere Marquette R. R. Co. will sell excursion tickets from Toledo, Ohio, Monroe, Port Huron, Holly, Elkhorn, Saginaw, Bay City, Mich. and Stations intermediate to Milwaukee, Wis. and return, good ten days at the very low rate of \$5.00.

The long limit will be appreciated by those desiring to visit relatives and friends in Wisconsin, Minnesota and Northern Michigan. That part of the trip between Ludington and Milwaukee on F. & P. M. Steamers across Lake Michigan, is, in itself, a most enjoyable feature. At this time of the year the lake is calm and the light summer winds, conning over this great body of pure water, has a velvety touch that is wonderfully exhilarating and strengthening. The F. & P. M. Steamers are strictly "up to date" in all modern improvements, large State-rooms, lighted by electricity, wide berths and fine class room furnishings in every detail.
