POULTRY SHOW.

Northville's, Dec. 6th, Will Be a Good Big One.

THE RENOWNED JUDGE BICKNELL WILL BE HERE.

He Judged the Poultry Exhibit at World's Fair in '93.

Important Exhibits Are Coming from All Parts of Michigan.

The Northville Association's poultry show which is to take place in Princess rink in this village Dec. 6-11, promises to be one of the best shows held in the state. The Judge, J. F. Bicknell of Buffalo, is one of the most renowned poultry judges in the United States and was the Judge at the great World's fair exhibit in Chicago in 1893. The Northville exhibit is the only one in the state that will attend, though much pressure has been brought to bear to get him elsewhere. From Northville the Judge goes to Chicago. Among the many exhibitors from all over the state to meet here already engaged are, in the National poultry fair of holding with their famous pens of chickens upon which they captured 1st premium at the World's Fair.

SUNDAY SCHOOL WORKERS.

The Township Association Will Rally Here Tomorrow.

The Plymouth Township Sunday-school convention is to be held in the Princess rink here tomorrow, beginning at 10:30 a. m. Tracy McGregor of the Detroit Mission Schools will be present and Walter C. Robinson of the same city will conduct the singing.

PLUCKY FARMINGTON BOY.

Sat down on a Big Wire Nail; Made No Outcry.

Sammy Lock of Farmington has won nearly as much fame as a football player. A mischievous pupil in the Farmington High-school set a three-inch wire nail, point side up, in young Sammy's seat. Sammy sat down quickly on it. The nail entered the lad's thigh almost the whole length. Striking a bone, it bent over like a fish hook. The wounded boy made no outcry but asked a classmate to extricate the nail. After putting his whole strength in a pull the wire-faced comrade gave it up. Young Lock hooked on to it and tore it out. Dr. Turner says the boy is all right if blood poisoning does not set in. The boy took no vacation, is keeping up his studies, but says he will whip the boy who set the trap to the queen's taste when he finds out who it is.

KICKED, LITERALLY.

THAT'S WHAT THE NORTHVILLE FOOT-BALL TEAM DID.

In Friday's Game With the Milford High-School Team.

The Milford High-school football team, with their long hair and a big yellow "M" lung protector came down Friday afternoon to wipe the loyal team from off the face of the earth—and the prospects are they would have accomplished the feat had the home team not gone out on a strike before the game had got fairly started. In the make-up of the Milford's were three or four good big players who hadn't been in the High-school for at least some years, many of 20 to 30 years of age, and the 12 to 16 year old youngsters of the Northville team could hardly be expected to stand against them.

However the home team should have declined to start the game at all when it was found that the Milford's were not made according to previous agreement, but after starting it they had no "kick" coming if they were outclassed and might just as well have played on as long as they had an unbroken line left. The Northvilles quit after three or four straight touch-downs had been made by their opponents. Prof. Buss says the home team relied upon Prof. Morrison's letter that the Milford's were High-school pupils and not until after the game was begun was it found that five or six of the players were "outsiders."

Salem News.

J. A. Dobbs is reported as quite sick with gripes.

Mrs. Fred Wheeler returned from Ypsilanti last Friday.

Chas. S. Utley of Kalamazoo is calling on old friends here.

Miss Kate Long of Westland is calling on Mr. Fred Hyde.

Albert Groth, the youngest son of John Groth is seriously ill with pertussis.

Suburban News.

Possibly Supr. Morrison of the Milford school, doesn't know all of his High-school pupils, or possibly Geo. Row, Fred Wel's, Claude Skoginger and Ira Welch etc. in the kindergarten.

Earl Arbor has a blind piano tuner to see, with his eyes—Edman Press. Yes, sir. And he can't see.—A. A. Courier.

This will all sound very flat to the piano tuner.

A citizen approached the writer a day or two since and remarked: "Why don't you newspaper men do your duty in respect to the nicker-in-the-slot machines?"—A. A. Courier.

What have you fellows been doing? Dropping in lead nickels?

Holly citizens think that the prosecuting attorney's office should be removed to that village. Last Friday that official found seven criminal cases pending there.—Orion Review.

Novi also has a claim on the office trer is not to be slightly ignored.

It has aroused a man's curiosity," says the Carleton Times, "to find out why a woman spends six weeks working a lot of collars on the bottom of her skirts that nobody in the world but herself will ever get a glimpse of and then runs about the neighborhood in an old, dirty Mother Hubbard wrapper without any belt and with every other button off."

The Times intimates that Milford people are not fond of pork. A travel agency gave away a pig at the end of a week's engagement, and that might played to the smallest audience of the week.—Holly Advertiser.

Milford people are overly fastidious. Nearly 600 Northville witnessed the same act here, and the talking of the little "grunter" from the box was alone with the admission. Everything was conducted with so much decorum that instead of offense the "pork" part was really an enjoyment.

SECY STATER R. CROSSING BOARD HERE YESTERDAY.

Also F. & P. M. R. R. Att'y Sanders and Our Own "Cass."

Secretary Lockerby of the State railroad crossing board and Attorney Sanders of the F. & P. M. railway company were here yesterday looking over the matter of an overhead bridge across the track on the Fry road from Plymouth avenue at the south end of the village. As a matter of expense the railroad company objects to a new bridge, claiming that with ordinary care, the crossing is now reasonably safe. Our own Commissioner, Cass Benton, was on hand and had some figures and 11 copies of letters contradictory to what Attorney Sanders had stated to the crossing board that rather puzzled that gentleman to get around. Mr. Lockerby seemed inclined to think the crossing dangerous enough for a bridge, the only thing to be further considered as what portion of the expense the town would have to pay. The company's estimate of expense is \$1200 to lay dirt to fill on east side, 2,500 west side at 25c \$62,500, masonry \$147,500 steel bridge \$6000 at \$2750. The estimate on masonry and fill is thought to be rather high but whatever it is, it is presumed the town will be asked to pay about one-fourth the total expense. The crossing board will decide the case shortly.

Novi Courts.

One case against Loveland Brown of Novi yesterday was adjourned to Nov. 8, the liquor case to a later date. During the forenoon a deputy sheriff from Pontiac closed up Landlord Stanley's bar and instituted proceedings against him for selling liquor without a license. No less than five different cases are on Judge Wixom's docket.

Auction Sale.

Norman Abbey living two miles north of Novi, will sell at public auction on Wednesday, Nov. 10, a lot of cows, hogs, farm implements, grain, and other articles, and also his 80-acre farm. Mr. Abbey is about to start for the Kalamazoo country. See bills for full particulars.

From Contractor Smith.

Northville, Mich., Nov. 5, 1897.
Editor Record: In last issue of the Record there was a notice from the Pastor of the German Lutheran church, requesting "all those who had claims against the church, etc." To those who do not understand the situation it might look as if the contractor had absconded with all the funds but such is not the case. I am still doing business at the old stand. They are paying up the accounts that were filed against them in order to avoid legal proceedings to collect the second payment on the contract.
After repeated endeavors to collect the payment I was forced to commence proceedings in order to protect my creditors, not to make the church trouble or expense as some pretend to think. The committee has not given me anything to release the contract nor do I want anything. I stand ready to fulfill my part of the contract or to release them if they choose anything to avoid trouble or litigation.

OFFICIAL STATEMENT OF INTER-STATE COMMERCE COMMISSION.

The Body Cannot Be Freight or Passenger Charges Without Further Authority from Congress...

The Supreme Court of the United States decided in May last, in what is known as the Freight Bureau case...

This decision was rendered in cases where the commission had held the rates complained of to be unreasonable and unjust in violation of the interstate commerce law...

The commission was authorized to require carriers not to make higher charges than those shown and found to be reasonable in cases investigated by it...

The commission has recently, in an opinion by Chairman Morrison, rendered a decision in a case against the Eureka Springs Ry. Co. involving the reasonableness of rates complained of...

While thus deciding that under the Interstate Commerce Act, power to prescribe rates which shall control in the future has in no case been given to the commission...

The Department of Schools and Education granted the use of three cool, roomy schoolhouses, and the managers undertook the task of coaxing the children into them...

There has been no trouble about getting the children to come since they have found out what the vacation schools are like. The average daily attendance during the first summer was nearly one thousand...

The cost per day for each child was about eleven cents and a half in 1894; in 1896, by better management, it was reduced to less than five cents.

The officers of the association maintain that the vacation schools are no longer an experiment, and accordingly they ask the city to make the system a part of its educational work...

Remember the Children. Don't ride roughshod over the children's tastes and preferences, says a motherly woman, writing of dress. It is an old time notion that a little consultation and yielding here panders to vanity...

Where Calls Are Made. Baltimore supplies the ships of all nations with sails. That city is the center of the cotton duck industry of the world...

It is a strict rule with the B.G. transatlantic steamship companies that the wife of the captain shall not travel in his ship. The supposition is that if anything should happen to the ship, the captain, instead of attending to his public duty, would devote his attention mainly to the safety of his wife.

Doctors Cannot Be Over-looked. The fact is, however, that the commission has no power to establish rates which shall control in the future...

It is evident from this official statement by the commission that shippers and travelers are deprived under the ruling of the Supreme Court...

You will enjoy this publication much better if you will get into the habit of reading the advertisements; they will afford a most interesting study...

VACATION SCHOOLS IN CITIES.

A few years ago it would have seemed odd to choose the close of summer for a review of educational progress. But the summer schools have changed all that...

In the summer of 1894 The New York Association for Improving the Condition of the Poor began on a large scale the experiment of vacation schools for the children of the tenements...

Books were discarded. The children were invited to come and play. Gradually the play was made work, but work of such a sort as to keep the pupils interested and pleased...

FIBROID TUMOR

Expelled by Lydia E. Pinkham's Vegetable Compound.

Interview With Mrs. B. A. Lombard.

I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Compound. It cured me of a fibroid tumor in my womb.

Doctors could do nothing for me, and they could not cure me at the hospital. I will tell you about it.

I had been in my usual health, but one morning I felt a lump in my abdomen. My monthly period came on, I felt very bad. The doctor gave me medicine, but it did me no good.

Upon examination, he found there was a Fibroid Tumor in my womb, and gave me treatment without any benefit whatever. About that time a lady called on me, and recommended Lydia E. Pinkham's Vegetable Compound.

I said I would try it, and did. Soon after the flow became more natural and regular. I still continued taking the Compound for some time. Then the doctor made an examination again, and found everything all right.

The tumor had passed away and that dull ache was gone. Mrs. B. A. Lombard, Box 71, Westdale, Mass.

Many people appear to think an editor is a mindreader. They and their friends come and go, or there is some other item of news of which they never tell the editor and yet they look in the paper for a mention of it and feel that we have sighted them when they have alighted themselves. The man or woman who tells the editor or sends a note to the office, or drops a line in the postoffice mail box, giving him a news item, always has a warm place in the newspaper man's heart.

If you have a party, a reception, a tea party, a social, a wedding, are going visiting or have friends visiting you, or any item of news, just stop and give us the full particulars. If you cannot do that drop us a postal card. We are always glad to get news of that character, and you will confer a favor on us that we will appreciate. Try as hard as we can we cannot be in all places at the same time. We are very thankful for favors of that kind in the past.

In the case of the people vs Mrs. Frank Hiehnman, charged with petty larceny, before Justice Edwin Webber yesterday the jury brought in a verdict of not guilty. A search warrant was issued at the instigation of Mr. Herber last week and the officers found some laundry articles bearing Mr. Herber's name, in Mrs. Hiehnman's home, she having been employed by Mrs. Herber upon various occasions, also some china cups, etc. Mrs. Hiehnman claimed the handkerchiefs, towels, etc., had been found and brought home by the children or given her by Mrs. Herber. The china cups she claimed to have found in the ash heap back of the house and a few pieces of silver she had found in one of the passenger trains she had tied in her handkerchief, intending to return it directly, but had lost it out before reaching home. Deputy Prosecutor Turner of Detroit appeared for the people and B. G. Webster for the defendant.

PENINSULA MATTERS

RELATED IN A BRIEF, CONCISE MANNER.

The Town of Pinconning in Ashes—Father Kidnaped His Own Child—Portrait of ex-Gov. Rich Presented to the State—Some New Postmasters.

Town of Pinconning Burned.

What proved to be the worst fire in the history of Pinconning, and one which practically annihilated the town, started Tuesday a. m. in a building on Second street near the Michigan Central railroad and occupied by Dr. Porter as a drug store and residence. A gale was blowing from the northeast and before the inhabitants realized it the town was in great danger from flying firebrands which were blown from building to building. The structures were all frames and they burned like tinder and one after another was reduced to smoldering ruins, despite the efforts of the local fire department and a company from Bay City. The fire continued to increase in its destructiveness until it had reached Fourth street. Here the Bay City company made a determined fight, and kept the houses on the south side of the street from burning. At 11.30 a full in the gale occurred and this what saved the south portion of the town, Jennings mill and a long row of Michigan Central freight cars.

Starting with the Dr. Potter store, the fire leaped across Second street to the Phoenix block, a two-story frame building. Then in the order named were consumed the Commercial House, a row of buildings, owned by Mc Cormick, occupied by the Pinconning bank, Wm. McDonald, grocer, and Bedford & McGuire, saloon; building occupied by postoffice, with Foresters hall on upper floor; Alexander Lyphoff, clothing store; George Dereau, barber, shoe, George Butler, grocery; Porter Christie's restaurant; Michigan House, Thompson's grocery store, Andrew P Semmerfield & Son's grocery store; Wm Jennings' fancy goods store; Wm Anderson's residence, Edward Welch's house; Michigan Central freight house, Michigan Central passenger depot, Samuel S Morris, dry goods and drug store, I Perry, lar oiler, Pinconning Press office, Alexander St John's saloon, and D W Morrison's dwelling on Second street. The fire worked west to the Stanton block, and the store of the shoe Hardware Co., the Presbyterian church was worth \$1,500 and was not insured. Owing to the confusion it is impossible to obtain a correct list of losses and insurance, but it is estimated that the entire loss ran up to from \$50,000 to \$60,000, with about \$15,000 in \$25,000 insurance.

A Hot Day in a Hot Town

Grand Rapids common council passed the mayor salary to \$2,000 a year and voted to pay six city commissioners \$1,000 day and board. The council of 10 men were here as follows: Sullivan, 50 cents a year with a salary \$200; book \$200; 50 cents a year and a show, free. It was also voted to build a water works, settle the 100,000 bathing school and to build a city water pump with a reservoir. HANNA AND TAMMANY

THE BIG WINNERS IN THE FALL ELECTIONS.

Ohio Goes Republican by a Small Margin—Van Wyck Mayor of Greater New York—Democratic Gains Elsewhere—Maybury Wins in Detroit.

Although the fall elections were an "off" year the interest aroused by the not only contested campaigns made several notable battles of national importance. "Particulary was this true of the state elections in Ohio, Maryland, and Virginia, which the United States senators were in the balance, and of the municipal contest in Greater New York.

In Greater New York.

The campaign for the majority of Greater New York was the most sensational in the history of the city. It opened with the promise of a straight fight between the Republicans and Democrats, with the chances, in favor of the latter, because of the foreign-born opposition to the Raters liquor law, which greatly restricted the liquor trade, and was a Republican measure. However, there soon developed a feeling which called for a Citizens ticket to oppose the Republican "big" led by Senator Thos. Platt. The Citizens Union leaders asserted that the Republican organization and its managers were quite as offensive to good citizens as those of Tammany. The latter, led by the old chief, Richard Croker, indicated the Democratic nomination, and named Robert A. Van Wyck for mayor, which caused a split in their ranks and the "Thomas Jefferson" Democrats chose Henry George as their standard-bearer, and he was soon waiving a flag that was the color of the Citizens Union.

Ohio Goes Republican by a Small Margin.

Ohio went Republican by a small margin, the Democrats carrying 49 seats in the legislature, and the Republicans carrying 51. The result was a surprise to many, as the Democrats had been expected to carry the state by a large margin. The Republicans' success was due to a combination of factors, including the popularity of their candidates and the support of the foreign-born population.

Van Wyck Mayor of Greater New York.

Robert A. Van Wyck was elected mayor of Greater New York, defeating the Citizens Union ticket led by Senator Thos. Platt. Van Wyck's victory was a significant political event, marking a change in the leadership of the city.

Democratic Gains Elsewhere.

Democratic gains were made in several other states, including Maryland and Virginia. In Maryland, the Democrats carried the governorship and a majority in the legislature. In Virginia, the Democrats also made significant gains, securing the governorship and a majority in both houses of the state legislature.

Maybury Wins in Detroit.

John Maybury was elected mayor of Detroit, defeating the Citizens Union ticket. Maybury's victory was a surprise, as the Citizens Union had been expected to carry the city. The result was a significant political event, marking a change in the leadership of the city.
