DOINGS OF CONGRESS.

A Paragraphic Chronicle of the Acts of the Nation's Lawmakers.

The fortifications bill as reported to the House provides for the extensive system of seawall defenses now in progress of completion. It carries \$1,444,912, as against estimates made by the war department of \$12,378,571.

Congressman Wm. Allen Smith, of Michigan, says that Senator Hanna has agreed to help him secure a modification of the treaty of 1817, so that warships could be built on the lakes. He also says that he has received encouragement from the administration, Secretary of the Navy being particularly enthusiastic over the idea.

The Hawaiian annexation treaty was the subject of a four hour speech by Senator Teller. He said he would have been glad to have the debate in open rather than in executive session, and added that it was his opinion that the time had come when the question of annexation should be debated upon a bill looking to legislation by both houses of congress rather than upon the basis of the treaty. In speaking of the results of annexation Mr. Teller said that he did not believe that it would necessitate a big fleet for the protection of Hawaii as the strong fortification of Pearl Harbor would be sufficient.

Senator Mason, of Illinois, has presented the following resolution (Cuban resolution) to the Senate: "Resolved, That the President of the United States be and he is hereby requested to notify Spain and the insurgents of Cuba that the war (so-called) must at once cease and be discontinued, and that the United States of America hereby declare and will maintain peace on the island of Cuba." The resolution was preceded by a preamble which set forth the terrible condition of affairs in Cuba, the inhuman deeds of the Spaniards, the sufferings of the Cuban women and children, the ill-treatment of Americans at the hands of the Spaniards, and also quoted the Republican platform of the last campaign, which said in part, "We believe that the government of the United States should actively use its influence and good offices to restore peace and give independence to the island of Cuba."

A telephone operator in a place near New York city was at Christmas the recipient of checks for five, ten and a hundred dollars, a diamond pin, a dress pattern and eight boxes of candy, although she was known to the donors only by her gentle, respectful voice, her readiness to accommodate, and her operative number. When Dr. Holmes gave one of his heroines the sole title of "Number Five" and sketched her in rose color, he too, proclaimed that character is independent of name or position, and has its sure reward.

All the more Americans could learn from the fool to fool wisely—that is, hilariously. Then fewer of them would need to get drunk and smash plate-glass windows. A lively paper in the home is an electric wire that carries off the end of care, depression or ill temper. For, depend upon it, every nature will have its fling, and must have it. The only question is of what kind of a fling. There is the fling into bitterness of speech, into despondency, into self-love, and there is the fling into merriment and enjoyment from the strictest jacket of Mrs. Grundy and all her works.

Worry wrecks more lives than worry. An outgrowth of one of the psychological whims of the time is a claim of "Don't Worry" clubs. Without subscribing to all the tenets of these organizations, almost every individual could better his condition by adopting and trying to live up to their motto. The substance of their belief is beyond dispute, and may be summarized in few words: Worry never yet bettered the condition of any individual; it never yet failed to make worse the condition of the person given to worrying; therefore, ought not to be of any worry societies. The instinct for self-preservation should affirm humanity in opposition to the adversary, worry.

A class in economics in a western university has just been struggling with the problem, How would you spend ten thousand dollars? There are twenty-five men and eleven women in the class, and they named fourteen different objects of expenditure. Education was declared to be the first purpose of the majority. Real estate was the most favored investment. Twelve students wanted to travel, seven proposed to spend some money for books, the same number made an appropriation for "pleasure," and four were willing to devote a share to "charity." So far as it went, it was an instructive exhibition, and the only thing needed to complete the revelation of their characters and training is that the same students should answer the correlative question, How would you prefer to earn ten thousand dollars?

The Kentucky Court of Appeals held in the case of Vaughn vs. Digaan, that where the parties to an agreement have made a mistake in reducing their contract to writing, either through a mistake which is mutual, or through the mistake of one party, or through the mistake of one party which has been produced by the other, courts of equity will correct the writing to conform to the manifest intention of the parties; that parol evidence is competent to establish the terms of the original agreement and to show fraud or mistake in the execution of the instrument, and that one who prevents a happening or performance of a condition precedent, upon which his liability by the terms of the contract is made to depend, can not avail himself of his own wrong to relieve himself of responsibility to the obligee or be permitted to avoid his liability for the non-performance of such condition precedent which he himself has occasioned.

The best thing a champion-prizefighter ever said: "I have nothing to say."

If the tramp is to be eradicated he must be compelled to work winter and summer until he is willing to seek and continue to work on his own account, and, failing this, he should be kept at work for the public necessities. In order to compel him to work he must be given something to do, and the industry which capable of ready adaptation to the solving of the tramp problem is that of road making. The tramp should work the roads, not tramp them at his own will.

In 1850 the south had one-fifth of the spinners of the country; today she has nearly one-fourth of the whole number. The south has become a serious competitor in cotton manufacturing. With the ever-increasing investment of New England as well as southern capital and with the tendency to improve continually on methods of manufacture which she has recently shown in a marked degree, it is difficult to assign a limit to the expansion of the cotton industry of the south.

What is Now Going on in the Dominion.

A Cincinnati Klondike party passed through Winnipeg, Manitoba, a few days since, on their way to the gold fields. Two or three ladies accompanied them, and as they passed through the streets of that Western Canadian city, they were the objects of considerable attention, in their costumes of leather leggings, and buckskin suits, the same as were worn by the seamen of the party.

A

THE MAN WHO LIVED.

He should have been dead.

But he wasn't, because

There's nothing succeeds like success. There is no man who should be dead, but who isn't, but who would be dead, but for a preserving medicine. That's about the way it happened to the Editor of the Ohio Farmer, Cleveland, Ohio. He was afflicted with one of those colds that have thousands of times over eliminated themselves when not promptly cured. In this condition he met a friend, a consumptive, whom he had not expected to see alive. The consumptive friend recommended Dr. J. C. Ayer's Cherry Pectoral for the editor's cold, on the ground that it had "helped him wonderfully." It helped the editor, and he is now a healthy man, "almost instant relief." But read his letter:

"About two months ago, I was afflicted with a bad cold, and, meeting a friend, he advised the use of Dr. Ayer's Cherry Pectoral. He claimed, had helped him wonderfully. As he was a consumptive, whom I had not expected to see alive for several years, I could not but be interested in this preparation. I accordingly bought a couple of bottles, one of which I kept on my desk all the time. This is certainly the best remedy for a cold I ever used. It gives almost instant relief, and the J. C. Ayer Co. are to be congratulated on possessing the formula for such a very valuable remedy." W. H. LAWRENCE, Editor, The Ohio Farmer, Cleveland, Ohio.

LINCOLN AT FRONT.

RECEPTION BY THE COLORED TROOPS.

The Emancipator Presented a Rather Grotesque Appearance, but That Was Forgotten in the Admiration for the Man.

In his Campaigning with Grant, Gen. Horace Porter gives the following description of Lincoln's visit to the front at City Point: Mr. Lincoln wore a very high black silk hat and black coat. Like most men who had been brought up in the West, he had good command of a horse, but it must be acknowledged that in appearance he was not a very dashing rider. On this occasion, by the time he had reached the troops, he was completely covered with dust, and the black color of his clothes had changed to Confederate gray. As he had no straps, his trousers gradually worked up above his ankles, and gave him the appearance of a country farmer riding into town wearing his Sunday clothes. A citizen on horseback is always an odd sight in the midst of a uniformed army and the picture presented by the president bordered upon the grotesque. However, the troops were so lost in admiration of the man that the humorous aspect did not seem to strike them. The soldiers rapidly passed the word along the line that "Uncle Abe" had joined them, and cheers broke forth from all the commands, and enthusiastic shouts and even words of familiar greeting met him on all sides.

Webster on Secession. "While freedom lasts, we have high, exciting, gratifying prospects spread out before us, for us and our children. Beyond that I seek not to penetrate the veil. God grant that in my day, at least, that curtain may not rise. When my eyes shall be turned to behold for the last time the sun in heaven, may I not see him shining on the broken and dishonored fragments of a once glorious Union, on its graves, disheveled, discordant, and polluted, on a land rent with civil feuds, or drenched in fraternal blood? Let their last feeble and lingering glance rather behold the gorgeous ensign of the republic, now known and honored throughout the earth, still full high advanced, its arms and trophies streaming in their original lustre, not a stripe erased or polluted, nor a single star obscured, bearing for its motto, no such miserable interrogatory as 'What is this world?' nor those other words of delusion and folly, 'Liberty first and Union afterwards,' but every where, spread all over in characters of living light, blazing on all its ample folds, as they float over the sea and over the land, and in every wind under the whole heaven; that other sentiment, dear to every true American heart: 'Liberty and Union, now and forever, one and inseparable!'"

In the up-right little sapling lives the mighty mountain pine, straighter than an Indian chieftain with its long, answering line, lifting high its shaggy branches, rooted in its rocky bed, landmark to the valleys under, shelter for the weary head.

To the boys so true and fearless lived our hero good and grand, through the days of stormy trouble shelter to his native land, for the noblest twig, believe me, ever grows as he began, and the child of noble nature makes the noble-hearted man.

"A Belle Who Dined With Lincoln." (The many experiences of a Cabinet Member's Wife) is one of the most interesting contributions to the current Ladies' Home Journal. In a series of letters the wife of a cabinet member writes to her sister of office-seekers and of those in the departments. "You can have no idea," she anonymously declares, "how Henry (her husband) is persecuted by applicants for his influence with the president or with the heads of departments. He really has no influence outside of his own department, and he is wearing his sympathies into tatters listening to talost woe. The saddest case that has come under my own observation is that of a maiden lady, fully fifty years old, who has worked in the departments ever since the war. Senatorial influence has kept her in all these years, but now that the civil service reforms are being introduced she is in despair, for although perfectly competent in her work, she never in the world could pass one of those rigid examinations. She called upon me bearing a letter of introduction from Mrs. Arthur Poison (Mary Allison), who married into one of the old families here. I don't know whether her family lost their means by the war or in some other way, but they did lose everything when she was a girl at the top of society in both Alexandria and Washington. She told me about dancing in a set of lancers opposite Abraham Lincoln, who, though awkward and angular in his dancing, seemed to enjoy it, and always had a gay word for everybody. She says her feeling for Mr. Lincoln was something more than respect; it was more like adoration; that she has often wondered if people did not feel just so toward the great religious prophet, who must have spread abroad what Mr. Lincoln did—an atmosphere of sympathetic kindness, trust, purity and nobility."

Poor John Brown. John Brown belongs to that rare class of men whose names grow with history. His life commanded respect and honor. His death was marked by a singular pathos, a sadness that won the sympathy of the people. Excepting Lincoln and Grant he remains to-day the best remembered man of half a century. "They hung him up between heaven and earth as a sign that justice must be done; but they did not justify that the future would speedily take them at their word, and visit upon them the penalty of their own philosophy. History has disclosed the truth and completed the story of his desperate exploit and his willing and pathetic sacrifice. He lost his life, but he gained his object."

AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word "CASTORIA" and "PITCHER'S CASTORIA" as our Trade-Mark. I, Dr. Samuel Pitcher, of Hingham, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does not bear the fac-simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except the Cassara Company of which CHAS. H. FLETCHER is President. SAMUEL PITCHER, M. D., March 8, 1897.

A LETTER TO WOMEN.

A few words from Mrs. Smith, of Philadelphia, will certainly corroborate the claim that Lydia E. Pinkham's Vegetable Compound is woman's ever reliable friend.

"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly. For nine weeks I was in bed suffering with inflammation and congestion of the ovaries. I have a discharge all the time. I felt quite comfortable; but as soon as I would put my feet on the floor, the pains would come back. Every one thought it was impossible for me to get well. I was paying \$1 per day for doctor's visits and 75 cents a day for medicine. I made up my mind to try Mrs. Pinkham's Vegetable Compound. It has effected a complete cure for me, and I have all the faith in the world in it. What a blessing to woman it is!"—Mrs. JENNIE L. SMITH, No. 524 Kauffman St., Philadelphia, Pa.

The Lyceum meeting Monday evening was well attended and interesting. The program consisted of an interesting talk by Miss Daniels, a recitation by Sadie Hughes, an essay by Grace Sloan, several songs and the debate on this question: Resolved, That all nations should settle their disputes by arbitration. The question is far from being evenly balanced, but on account of the exertions of a couple of extemporaneous speakers on the negative, the debate was won for that side. One excellent feature of debating is the closing arguments by the leaders, but for

called on for a rebuttal speech. To us it seems that it is of more real value to the leader to make the extemporaneous rebuttal than to read the opening argument. We would accordingly suggest that the closing arguments be called for.

For the County teachers' banquet at Pontiac tomorrow, Superintendent Morrison of Milford is on for response to the toast, "The School Ma'am, Long May She Wave." All teachers who can do so are urged to be present at the meeting. Times. That is, we presume, all teachers that can wave are urged. But what are we to expect in this civil service examination? Is the man a teacher to wave herself, her hand or her hair? There's a whole ocean of thought in this wave. However we waive all objections to Supt. Morrison's responding to the toast. If there's anyone capable of jollying up thirty or forty rasy cheeked school ma'ams, its this same Morrison.

TWEEN THE LAKES.

MICHIGAN NEWS BRIEFLY TOLD FOR MICHIGANDERS.

Gov. Pingree Wins His Suit to Compel Railroads to Sell Family Mileage Books at 2 Cents per Mile - Triple Railroad Fatality at Saginaw.

Pingree Wins a Notable Victory.

Gov. Pingree has won the first round of his fight with the Michigan Central Railroad Co. on the question of 50 mileage books, good for the family of the purchaser. In the governor's suit to compel the company to sell such books, Judge Donovan, of the Wayne circuit court, confirms the position taken by Gov. Pingree, and grants a mandamus to compel the railroads to comply with the mileage law of the legislature.

In his decision Judge Donovan discusses the case at length. In answer to the plea of the railroad company that the right to fix charges was given to the company by the charter, he indorses the contention of the complainant that the charter only gave the right to fix rates by bylaws, and that such bylaws must come under the police power, as with hackmen, millers, liquor dealers and others doing public business.

By the word of the highest court in like cases in Iowa, Wisconsin, Illinois and Michigan, the conclusion is irresistible that only such charges can be collected as are allowed by the laws of the state.

A Similar Case Agonized the Railroad.

Grove Wolcott, a prominent lawyer of Jackson sought to purchase a 1,000-mile ticket at the Jackson ticket office, good for himself and wife, he tendering \$20 in payment. He was informed that no such tickets were for sale. Mr. Wolcott then bought and paid full price for a regular ticket to Roseconm, and on his return brought suit against the Michigan Central railroad to test the state law. The case was tried before Justice Woods and his result in a verdict for Wolcott, who was awarded \$255, the difference in the cost of the ticket he purchased and the rate at 2 cents a mile. The Michigan Central will appeal.

Three Killed by a Train at Saginaw.

Three persons met a sudden and violent death and a fourth was seriously injured while crossing the Michigan Central railroad tracks in a sleigh at Sheridan avenue, Saginaw. The dead were: Thomas M. Stewart, a groceryman; Mrs. Elizabeth Mosner, aged 70, of Frankenguth; Barbara Mosner, aged 25, of Frankenguth. The fourth occupant of the sleigh, Mrs. Elizabeth Mahndke, also a daughter of Mrs. Mosner, had her right leg broken in three places, and probably received internal injuries.

A passenger train from the east, running at a rapid speed, struck the sleigh as it was fairly on the tracks, cutting it loose from the horse, leaving the animals to run down the street unguided. The sleigh was broken into kindling wood.

Stewart was on his way to his store from delivering goods, and the three women had seated themselves in the sleigh for a ride towards home, not over 50 feet from the scene of the accident. Two boys stood near by and saw the rig slowly approaching the tracks and the rapidly moving train bearing down upon it. They shouted several times but the driver did not catch the warnings. The four were laughing as the sleigh and its occupants were sent whirling through the air.

Gov. Pingree Jolies the Dairy men.

Gov. Pingree addressed the annual convention of the Michigan Dairy men's association at Ypsilanti. The Cleary college students were present in force and listened to the speech when they were not yelling, and the governor gave them several good points to yell about. He bore down in his characteristic style upon railroads and monopolies and seemed to take particular occasion to get in a number of remarks on Senator Campbell, the state senator of the Ypsilanti district, who was sitting directly in front of the governor taking it all in.

The dairy men discussed matters of interest and importance to themselves and elected Edmund C. Haven, of Bloomingdale, secretary and treasurer, S. J. Wilson, of Flint.

Sugar Beets a Success in Michigan.

A bulletin giving the results of experiments in the raising of sugar beets in Michigan has been prepared by Prof. Kedzie and Smith of the Michigan Agricultural college. Seed was distributed in 65 counties and samples of beets have been received from 64. The average per cent of sugar in beets, with proper soil and seed, is 16.40. The range of yields per acre last year was from 12 to 18 tons. The professors say that the results show that the climatic and soil conditions in Michigan are full of promise. The labor cost of growing an acre of sugar beets on the college farm under adverse conditions was \$23.40. The average yield per acre at the college farm was 10 tons and 325 pounds.

Bay City's New Industries.

Hundreds of men are applying to the United Alkali Co. at Bay City for work. Every applicant has to furnish recommendations from prominent men, when satisfactory he is placed on the waiting roll. Married men are given preference, and no boys will be hired. The survey for the main building shows that it is to be 150 feet by 150 feet, two stories high. There will be several other large buildings erected later. Contracts have been let for the new sugar factory at Bay City. It is to be 272 feet long, 118 feet wide and three stories high.

County Supervisors Want Some Reforms.

Delegates from 16 counties gathered at Lansing in response to a call by the Ingham county supervisors for a convention to consider the advisability of taking concerted action toward securing the revision or repeal of certain laws, the provisions of which are the cause of needless expense to taxpayers. A large number of subjects was discussed. Ex-Mayor Lawton T. Hemans of Mason, who has made a study of county expenses, addressed the delegates, calling attention to the alarming manner in which expenses have increased during recent years, this increase being out of all proportion to that of wealth or population. He attributed it all to the fee system and urged its abolition.

The legislative committee was instructed to endeavor to secure the following reforms from the next legislature: Taxation of property of railroads and other corporations the same as other property; repeal of law for collection of farm statistics; that supervisors pay expert witnesses in indigent insane cases in lieu of statutory witness fees; that mileage of officials be reduced from 10 to 6 cents a mile; reduction of number of justice and constables in cities and that salaries be paid instead of fees; that salaries for county officers, all fees to go into county treasury; that large findings of a jury constitute a verdict in civil cases; making road commissioners subject to direction of supervisors as to the expenditure of money; the roads to be repaired and the material used; also that the property adjacent to roads improved be required to pay a portion of the expenses on the basis of benefits received; repeal of sparrow bounty law; that circuit court jurors be summoned by registered letters to save mileage of deputy sheriffs; repeal of law allowing extra pay to prosecuting attorneys in drain cases; that the tax law be amended so as to make it compulsory for assessors to swear each property owner as to his possessions; in case of failure to induce the next legislature to abolish the fee system in justice courts, it was decided that an endeavor be made to have the law amended so that the prosecution of drunks and disorderlies in cities and villages be made under the respective charters.

A permanent organization was effected to be known as the State Association of Supervisors. The principal objects are the discussion of matters relating to charges and expenses, and securing a uniform practice of assessment. Each county board may send two or more delegates to the annual meetings. The following officers were elected for the ensuing year: President, John W. Ewing, Grand Lodge; vice-presidents, Emmett L. Beach, of Saginaw, and W. H. Smith, of Grass Lake; secretary, Frank L. Dodge, of Lansing; treasurer, Asa F. Barber, of Mason.

Ex-Gov. Rich for Collector at Detroit.

Ex-Gov. John T. Rich has been tendered the collectorship of the port of Detroit, and has accepted the place. There are many policies behind this simple statement. State Senator Wm. L. Thompson, of Detroit, was for two months the leading candidate for the position, but the fight of the Pingree element against the re-election of Senator Burrows necessitated a different arrangement. Ex-State Senator McLaughlin was talked of for the office, but the plan really hung between Mr. Rich and George A. Nantz. It so happened that ex-Gov. Rich and Albert Pauck were the most promising men to be played against Senator Burrows when he comes up for re-election, and it is also true that Mr. Nantz is the father-in-law of Mr. Pauck. It does not require an extra shrewd politician to see that if Senator McMillan and Burrows secured the appointment of Mr. Rich that it would completely defeat the plan which Senator Burrows had in mind to have the collectorship of the port of Detroit.

Francis Elizabeth Bagley, widow of the late Gov. John J. Bagley, of Michigan, died at Colorado Springs, Col., of appendicitis. The news of Mrs. Bagley's death came with startling suddenness to her numerous friends in Detroit and Michigan, few of whom knew she was ill. A little over a year ago Mrs. Bagley went to Colorado with her daughter Helen, whose health was failing.

Miss Belle Weaver, an almost blind deaf-mute, was burned to death in a fire which destroyed the home of her uncle, Elias Worden, near Climax. The girl's mother and uncle, the only other occupants, escaped. The fire started very mysteriously. Joseph Lewis, an aged farmer, is in jail for refusing to support Miss Weaver's illegitimate child, of which, she alleges, he is the father.

The Upper Peninsula Teachers' Association convention was held at Marquette and a program was carried out with papers by J. T. Edwards, of Marquette; Wm. E. P. Ferguson, of Sault Ste. Marie; K. Hardy, of Ishpeming; L. Y. Wright, of Ironwood, was elected president, and Miss Anna M. Chandler, of Marquette, vice-president. The meeting was a great success, nearly the whole membership of the association attending.

Darius Eddy, aged 75, slipped while shoveling snow off a roof at Saginaw. He broke two ribs and suffered other injuries, which may prove fatal.

John Dykema, a well-to-do farmer three miles north of Saginaw, lost his house, barn and all outbuildings by fire, saving only his stock, two wagons and a few pieces of furniture. It is supposed the fire was started by a tramp. The heat of the barn fire soon broke the windows of the house and the dense smoke from the hay filled the place so that it was impossible to save any furniture. Loss, 5,000; insurance \$750.

St. John's Catholic church at Carrollton, Calhoun at \$15,000, was destroyed by fire. The people are poor, and say they can never get another church.

A boiler explosion destroyed E. G. Giljam's saw, cider and feed mill at Millville, and Melvin Seigrist and Richard Stevens were badly injured.

New Michigan postmasters: Prestel, Clare county; William McWath, Sagola, Dickinson county; John O'Callaghan, Sears, Osceola county; Wm. J. Manley, Imlay City; Geo. W. Jones, Hancock, George W. Emery.

A head-on collision occurred between two P. & M. freight trains at Wings, a small station near Eastport. Both engines were derailed, as well as two freight cars, but no one was injured, as the trains were moving slowly.

William Carr started from a camp to see his sick wife at Seney. His father-in-law, going to meet him, found his frozen body only a mile from town. He had lost his way in a storm. His wife gave birth to twins only a few days ago.

According to a new law, every township board must soon publish an itemized statement of the amount of money in the township fund, the amount raised during the year and how raised, together with a minute statement as to how each cent was spent.

Michigan's output of lumber in 1897 was 2,233,674,349 feet and shingles, 1,254,772,500. Michigan, Wisconsin and Minnesota produced 6,233,454,000 feet of lumber and 2,360,771,000 feet of shingles. Michigan produced 168,685,000 feet of hardwood lumber in 1897.

The Wheeler & Co. shipyard at Bay City has started up again. A few non-union men were put to work riveting. The next day the striking riveters placed a cordon of pickets about the yards and induced the non-union men to stay away. This closed the yards again, and a long strike is now probable.

A company has been organized at Port Huron for the purpose of operating a trading and mining company in the Klondike district, Alaska. The company is capitalized at \$100,000, and will conduct a general store, operate a sawmill and do prospecting. A force of men will be sent out the last of this month.

Mrs. Ida J. Johnston, 495 Hastings street, Detroit, accidentally shot and killed herself. She was dusting a table upon which lay a revolver, when the dustier caught the trigger, and in pulling it away the weapon was discharged. The bullet entered just below the breast bone and passed through the heart, causing instant death.

A 10-year-old daughter of John Bowles was shot at a German wedding which was being celebrated at the Bowles home near Detroit Harbor. The ball entered the girl's breast near her heart and passed through the body and she will die. The shooting, said to have been accidental, is being thoroughly investigated by the officers.

Stephen Lautenbach, aged 16, was stabbed in the back by a playmate, Henry Hyalson, aged 12, at Grand Rapids, and he cannot recover. The lads were playing in an alley, and Lautenbach, badly injured, called his companion to aid him. Hyalson, however, came around and flew at Lautenbach, striking him in the back. The blade penetrated the lung.

Dez W. D. Lundquist, of Detroit, recently had his wife arrested on a charge of selling his office on fire. She was acquitted, and upon her return to Owsosso, where she was working in the Merrill house, a warrant was issued charging the doctor with using insulting language in the presence of ladies. The doctor was taken to Owsosso under arrest and was fined \$24.00.

Railroad Commissioner Wessellus decides that, under Judge Donovan's decision that the Michigan Central is amenable to the legislature of the state, the taxes of the Michigan Central main line, the only one affected thereby, will be \$55,000 greater for 1897 than if computed under the old system, the decision bringing the main line under the operation of the Merriman law.

AFFAIRS IN GENERAL.

BRIEF MENTION OF EVENTS OF INTEREST.

Lawless Characters Causing a Reign of Terror at Skagway and Dyea - Canadian Authorities Refuse to Allow U. S. Troops to Take Relief to Dawson.

Serious Rioting Feared at Skagway.

Senator Wilson of Washington called at the war department and urged that action be taken by the military arm of the government to preserve order at Dyea and Skagway, Alaska, especially at the latter place, where fears are entertained that trouble will ensue with the arrival of more gold seekers. Senator Wilson has letters and telegrams giving the conditions, and saying that unless there is something done looking to a government of those places there will be serious difficulties. It is claimed that the Alaskan ports are now thronged with the worst elements of this country and Canada, as well as of Europe, and that there is no way of governing the lawless element except by the military. Lawlessness and crime are breaking out even now, there being practically no method of enforcing the laws. When the rest of the thousands is on in full the situation will be far worse. It is estimated that 250,000 people will pass through the five towns this year, a large number originals and adventurers.

Double Murder at Skagway.

A double murder occurred at Skagway, Alaska. Deputy U. S. Marshal J. M. Bowen, formerly city marshal of Mount Vernon, Wash., and Andrew McGrath, of Concord, Ont. were shot and killed in Jake Rice's saloon, theater by Ed Fay, a bartender. Fay will be tried by a committee of 49 persons, and there is no doubt that if found guilty Fay will be hanged. The theater has been closed by the citizens. The murder had a sad sequel in the death of Bowen's wife and child, which was born a short time previous to the murder of his father. Bowen was on his way to obtain medical assistance for his wife when the shooting occurred.

Narrow Escape of Five Men.

Five men started to return over the ice from their work on the "Cleveland" waterworks crib, which is five miles out in the lake. When about a mile from land they discovered that they were on a detached ice-berg which was being blown out into the lake. Their cries and frantic waving of coats attracted the attention of skaters near the shore who telephoned for the fire-boat "Cleveland." The latter crushed her way through the heavy ice and rescued the men.

China Will Not Take a Loan.

A Peking correspondent says that it is now understood that China has given up the idea of securing a loan from either Great Britain or Russia owing to their jealousy of each other. China will endeavor to obtain an extension of time for the payment of the Japanese war indemnity, and in the meantime will authorize an issue of treasury bonds at 5 per cent to the extent of 100,000,000 taels (\$75,000,000). Chinese bonds have not the very best reputation, however.

Boatmen and Drivers for Alaska.

A cablegram received at the war department from Dr. Jackson, at Alten, Norway, announced that the steamship Manitoban, chartered by Lieut. Devore for the government, had just sailed from that port for New York with 350 reindeer and 87 Lapp men and women to care for the animals and drive them on the government relief expedition when they arrive in Alaska.

U. S. A. Relief Party Can't go to Kientkie.

The Canadian government has advised the Washington authorities that the proposed expedition to be sent to Dawson City by the United States war department for the relief of miners can not be accompanied by any armed body. The Canadian government will escort the expedition over Canadian territory with an escort of 50 mounted police, and United States officials can remain in charge of the expedition.

The Lake Shore Swallowed Up.

The deal by which the Lake Shore railroad is absorbed by the New York Central railroad has been completed. The directors of the Central were unanimous for the purchase of the Lake Shore. The Central directors authorized an issue of \$100,000,000 of 100-cent 3 1/2 per cent collateral gold bonds of which, stock the Lake Shore has \$19,195,000.

Cuban Hang a Peace Messenger.

Cuban insurgents entered the town of Artemisa, province of Pinar del Rio, and plundered several stores. The governor of Pinar del Rio sent Jose Menendez Diaz as an emissary to the insurgent leader, Perico Diaz, with proposals of peace and surrender. The insurgents hanged him near a railway opening, with the governor's letter on his body.

NEWSY CONDENSATIONS.

The U. S. cruiser Montgomery is at Matanzas, Cuba.

Spanish military operations in Cuba continue almost paralyzed, the season most favorable for movements against the insurgents thus being lost.

A Montana cowboy named "Doc" Tanner was summarily hanged by a party on their way over the Chilcot pass, for the murder of two companions. The Tippecanoe club, the aristocratic political club of Cleveland, threatened to expel Mayor McKisson, Senator Burke, Speaker Mason and Rep. Drayton for their opposition to Senator Hanna, but an injunction has been secured to prevent the action and the courts will get a chance at the trouble.

CUBAN MATTERS WARMING UP.

Another Note Sent to Spain and a Vigorous Reply Received.

Madrid: El Herald says that Gen. Stewart L. Woodford, the United States minister, presented an official note to the Spanish government, to which Premier Sagasta responded in vigorous terms. The Madrid correspondent of the London Standard says: "Senor Sagasta's response to the official note presented by Gen. Woodford, the United States minister, complains of filibustering expeditions and declares that Spain cannot entertain the suggestion for fixing a date for her completion of the pacification of Cuba. Pessimistic impressions are now current regarding the relations between Spain and the United States and have depressed the Madrid and Barcelona bourses. Public feeling among all classes is strong against America."

A Washington special says: Premier Sagasta has declined the third offer of friendly mediation on the part of the United States. This information was conveyed in a cipher message received from Minister Woodford by President McKinley. The message was a most unusual one. Instead of being addressed to the secretary of state, it was addressed to the President. This cablegram from Woodford was not long but recited the fact that Premier Sagasta refused to admit that Spain had reached the end of her rope in Cuba; that she was unable to suppress the insurrection; that autonomy was a failure; or that she needed the assistance of the United States in bringing the Cuban struggle to an end.

Do Lome Calls McKinley a Coward.

The representatives of the Cuban junta at New York have given out copies of a letter signed "Enrique Dupuy De Lome," who is minister of Spain at Washington and addressed to Jose Canalejas, who went to Cuba last September as Premier Sagasta's personal representative. In this letter the Spanish minister refers to "President McKinley as 'weak and catering to the rabble,' and as a 'low politician,' who desires to stand well with the jingoes of his party." A Washington correspondent says that when a copy of the letter was shown to Minister De Lome he promptly pronounced it a forgery. On the other hand, Horatio J. Rubens, Counselor for the Cuban junta says: "We know absolutely that this letter is genuine. A man risked his life to obtain it. We do not hesitate to acknowledge that it was stolen, from Canalejas." It is written on the paper of the legation. The handwriting is De Lome's and the signature is his. He may deny it until he is black in the face, but it is genuine and everybody who has seen it knows that it is.

Among Congressmen and Diplomats it was considered probable that should the letter be proven authentic it would result in a change of ministers.

Min. Threatened to Lynch Zola.

The fatal of M. Zola, the famous French novelist for his denunciation of the government in the conduct of the Dreyfus case and the Esterhazy court-martial, resulted in serious rioting in which attempts were made to mob M. Zola. Count Esterhazy refused to appear in court and the judges refused to force him to do so. They also declined to allow certain questions asked by the M. Zola's attorneys. M. Casimir Perier, the former president of the republic, appeared as a witness, but before taking the oath said that he would not tell the truth. These points were all adverse to M. Zola who appeared that he be accorded at least as fair a trial as an assassin would be given. At the close of the day Zola was surrounded by a howling mob who cried "Down with Zola," "Vive Barnee" and "Death to Zola." They attempted to seize him, but his friends, aided by the police, succeeded after half an hour's struggle in placing him in a carriage and getting him safely away.

MATTERS IN BRIEF.

The big armored cruiser Brooklyn has started on her cruise of the West Indies.

With very little ceremony the cornerstone was laid at Cleveland for a \$250,000 chamber of commerce.

James Allison, aged 17, was hanged at Berlin, Ont. for the cold-blooded murder of Mrs. Anthony Orr, near Galt.

A Tokio paper asserts that Russia has 60,000 troops at Vladivostok ready to take the field at a moment's notice.

Capt. Lentze, in command of the Alert, has called the navy department that he has landed marines at San Juan del Sur, Nicaragua, for the protection of the American consulate there, owing to the fact that a revolution has broken out.

The war rumors of the far east are being kept alive by the maneuvering of the Japanese fleet. It is said that the Japanese refuse to evacuate Wei-Hai-Wei until the stipulated time even if the Chinese secure a loan and pay the indemnity due Japan.

Thomas J. Osborne, governor of Kansas, died at the Commercial hotel, Meadville, Pa., his old home, while on a visit to Mrs. Margaret Richmond, to whom he was to be married in April. Death came after a short illness from hemorrhage of the stomach.

Madrid special says that the Sagasta cabinet has become disgusted with the autonomist Cuban ministry for not following a military policy and for not attempting to attack the insurgents. Great public anxiety exists in Madrid due to the evolutions of the American fleet and the presence of U. S. war vessels at Lisbon and in the vicinity of the Azores, in the route of Spanish steamers to Cuba, as well as at St. Thomas, near Porto Rico, at Matanzas and other Cuban ports. These movements are taken as clearly indicating to Spain that the American government is preparing for an emergency.

AN AFFLICTED MOTHER.

From the Times, Paw Paw, Md.

A resident of this town who has lost two children during the past six years, by violent deaths has been utterly prostrated by the shock, and seriously sick as a result of it. One child (aged 9), was killed by a cyclone in '90 while at school; another, three years later was run over by a Burlington R. R. train. "That grief and misfortune may so prey on the mind as to lead to serious physical disorders," has been well demonstrated in this case. As a result of her health was shattered and she has been a constant sufferer since 1890. Her principal trouble has been neuralgia of the stomach which was very painful, and exhibited all the symptoms of ordinary neuralgia, nervousness and indigestion. Physicians did her no good, whatever. She was discouraged and abandoned all hope of getting well. Finally, however, a certain well-known pill was recommended (Dr. Williams' Pink Pills for Pale People). She supplied herself with a quantity of them and had not taken them two weeks when she noticed a marked improvement.

A Constant Sufferer.

In her condition, she continued taking the pills until seven or eight boxes had been consumed and she considered herself cured. She can now eat all kinds of food, which is a comfort she has not been able to do for years. She is not troubled in the least with nervousness, as she was during the time of her stomach trouble. She is now well and all because of Dr. Williams' Pink Pills for Pale People. A complete cure has been made. People who are afflicted with neuralgia of the stomach, or who would like to hear more of the details of her suffering and relief gained by the use of Dr. Williams' Pink Pills for Pale People, they may be obtained probably by writing to the publisher. She is one of our well-known residents, Mrs. Ellen A. Ockerix, Paw Paw, Md.

The new coal plant that the Baltimore and Ohio railroad is erecting at Sandusky, Ohio, will consist of an elevated track to be used either with side-dump or drop-bottom cars, the coal dropping into bins from which it will flow into buckets of four tons capacity, each placed upon movable platforms. Derricks of a capacity of ten tons each will lift the buckets to the vessel. There will be sixteen of these patent drop-bottom buckets and they will be handled by two of the latest steam revolving derricks, and these machines will give the plant a capacity of about 300 tons of coal per hour at a minimum cost for the work, and with a slight breakage. The plant will be in operation April 1.

CHAPTER XII. (Continued.) "This is almost as good as a billiard-table," said Hildred, laughingly; but the earl shook his head. "It may be for you," he replied; "but it is not for me."

No, never, she replied faintly. "He never told you that he made it my only refuge from him—my only hope—my only alternative?"

And are you very unhappy with me?" she asked gently. "What a strange question! Unhappy? Well, no, I cannot quite say that. I am as I said before, grateful to you; and now that I find you have been victimized, I am sorry for you."

ST. VALENTINE'S DAY.

DAY of rites and festivities was the 15th of February in ancient Rome, where the Lupercalia was celebrated in honor of a deity designated by the various titles. Upon the blotter of the modern police court the gentleman would appear as "Pan, alias Lupercus, alias Faunus, alias Inaus, dealer in grain and crops, grape grower, proprietor of the woods and fields, the god of plenty."

couriers were partakers in it, and the gifts they made to each other were many-times costly. In one of the English copies, Herefordshire, it was the custom for the poor children, as early as the morning, stopping beneath the windows here and there, and singing "Good Morrow, Valentine's Day."

Eruptions On the Face

"I was troubled with eruptions on my face. I thought I would give Hood's Sarsaparilla a trial, and after taking a few bottles I was cured. I am now also free from rheumatism to which I have been subject for some time." C. E. BERRY, 726 Milwaukee Street, Milwaukee, Wis.

GEORGE H. DENNIS

THE WELL KNOWN NOVI PIONEER DIED LAST SATURDAY.

Was Buried With Masonic Honors Tuesday Afternoon.

Novi, Mich., Feb. 10, 1898.—(Staff Cor.)—Once again has the long summer come to one of the long time residents of Novi township, calling away, after months of suffering, George H. Dennis, who reached the end of a long and useful life, Saturday, Feb. 5th at the age of 72 years, 7 months and 1 day. He was born in Henrietta, Monroe county, N. Y., July 4, 1826, and when 10 years old came with his parents to Michigan. His father, "Deacon" Dennis, was one of the earliest pioneers of Novi, settling more than 60 years ago on the farm where all the life of the subject of this obituary was passed, with the exception of 10 years spent in Monticello Co., many years ago, and two years in Northville more recently. He was married in 1851 to Charlotte Hunt. They were the parents of one son and four daughters, all of whom are left to comfort the mother in her declining years. They are Alvin, who resides in Illinois; Mrs. Nellie Hunt and Mrs. Lucy Coates of West Superior, Wisconsin; and Mrs. Alice Hazen of Novi. A sister, Mrs. Harriet Knapp of Northville, and a brother, Alvin Dennis of Cherry Hill, also survive him.

During his long months of suffering he learned to look for help from a higher source than earthly friends, though loving hands were always ready to minister to every want, and loving hearts anxious to lighten the dark days of pain. The funeral services were held at the home Tuesday, under the auspices of the Northville Masonic lodge, the discourse by Rev. J. A. Tinkner of Novi, from Jer. 48:17, being followed by the beautiful and impressive service of the order. The interment was at the Knapp cemetery.

PROF. HENRY LOCK OF NOVI FINDS THEM SOME TIMES.

Ran Against a Peppered Brick Once Upon a Time.

The following story, though it happened two or more years ago, will no doubt be interesting to both those who have and those who have not heard it.

Prof. Henry L. Lock, the well known Novi reader of past, present and future, by means of rocks, stones and spirits, had a very interesting time with a piece of Novi brick a few years ago.

On finding a new stone, the professor closely examines it, looks heavenward, puffs and snorts, holds a very pointed communication with the "Lord most high," then proceeds to tell the crowd what diseases the stone will cure. The stone may be an "exploder," or a "fracturer," an "attractor," or a "repeller," and sometimes a "deepest death door splitter."

Fred Quigley and Jim Selden once upon a time saturated a piece of red brick with oil of mustard and placed it in a creek bed near the village where it was soon located by the professor, aided by the jokers. Lock stood over it for ten minutes, talking to the spirits and the Lord and with a grip of great satisfaction, said:

"Oh, wonderful, wonderful stone! You have been lost for these 14 years. Thousands of lives have been sacrificed because I could not find you. All human disease must now disappear."

The professor then placed the stone to his nostrils, gave a loud, long yell, threw the stone to the ground with great violence and, after a minute's struggle to catch his breath, exclaimed with a loud voice: "Fadast!"

After the tears had ceased to course down his cheeks, the professor picked up the stone, and going to the village requested Wallace Francis to smelt it. Wallace was sick with asthma, and this puff nearly killed him. Others were induced to try the new stone. After getting the whole populace in tears, the professor left for his cabin in the woods, to learn from the spirits just where the mysterious stone came from.

A FORMER NOVI GIRL

Was A Pretty Bride in a Cadillac Wedding Last Week.

Novi, Mich., Feb. 10, 1898.—(Staff Cor.)—We condense the following from the Cadillac News and Express, knowing that it will be of much interest to the many Novi friends of the lady who filled the position of bride on the occasion mentioned.

Miss Jessie Florence Bloss, one of our well known teachers, and Nelson R. Torry, one of Cadillac's most worthy young men, were married at noon, Feb. 2, at the residence of the bride's mother, in the presence of a number of guests which included many of the lady teachers of our city schools. The decorations were of evergreens and carnations, artistically arranged, the couple standing under an arch in one corner of the room. The bride wore white organdy with white satin trimmings, and carried bridal roses. After a trip to Grand Rapids, Mr. and Mrs. Torry return to Charlevoix, which is to be their home.

A host of good wishes will be wafted on the wings of thoughts from many friends here for the happiness and prosperity of the bride, as well as her chosen life companion.

WIXOM.

George, the eldest son of Mr. and Mrs. Wm. Chambers, died at his home early Wednesday morning aged 16 years. He had been suffering with throat and lung trouble for several weeks, and all medical assistance proved unavailing. The funeral occurred in the KOTM hall this morning at 11 o'clock. The deepest sympathy is extended to the parents, sister and brother, in this, their time of affliction.

IMPORTANT SUIT

Will Be Tried in the Oakland County Circuit.

The circuit court of Oakland county will, in all probability, be the scene of a lawsuit of national importance in the near future. Detroit papers contain the following report:

"Stephen Baldwin has begun a suit against Fred A. Baker in the Oakland county circuit court at Pontiac, which will be watched with interest all over the United States, because it is intended to test the constitutionality of the Bland-Allison silver act of 1878. Whichever side wins, it will be appealed to the supreme court of Michigan, and thence to the supreme court of the United States.

"The Bland-Allison act provides that the government shall purchase silver at its bullion value and coin it into dollars of the weight and fineness of the standard Spanish milled dollar, and that the dollars so coined shall be legal tender at their face value.

"Baldwin recently bought a farm in Oakland county on which Fred A. Baker held a mortgage which amounted in principal and accrued interest to \$364. At the suggestion of his attorney, congressman Timothy E. Tansley, he secured the amount all in standard silver dollars and begged them up to Baker's office and tendered them as payment in full for the debt. Baker declined the tender, but said if Baldwin would bring up enough silver dollars to constitute in bullion value the amount of the debt he would then fully take them and discharge the mortgage. Baldwin then begged this two big bags of dollars down again, and how he brings suit to compel Baker to take them. Tansley is Baldwin's attorney in the case, and Baker will probably represent himself. Both attorneys are warm silver men.

"Baker says the motive for the suit will be better understood when he files his answer. He says he will contend before the courts that the Bland-Allison act is unconstitutional because it does not provide for coinage, but instead allows the government to buy 50 cents worth silver, coin it into a nominal dollar, and pocket the profit, which he thinks is nothing better than legalized stealing."

Sunday Disturbance.

Every one was sorry for those people in church last Sunday, who were suffering with a distressing cough. A full dose of Down's Expectorant, going to bed at night, and small doses during the day will cure the most persistent cough. When the cough is a rattling sensation in the throat, a few drops of the Elixir of the lung and let it run slowly down the throat and immediately the cough will cease. It is a great relief to the most distressed. Get a copy of the new catalogue of our well known, G. C. Zetterstrom, Marquette Bros., Northville.
