

# THE NORTHVILLE RECORD.

No. 47.

NORTHVILLE, MICH., FRIDAY, JULY 1, 1898.

Vol. XXIX

## CELEBRATION!

JULY 4 1898.

## NORTHVILLE.

A Celebration in Northville means something. Northville people have a reputation of doing well what they undertake—the great Celebrations of three and seven years ago are ample proofs of this assertion. This year—the year of all years—their endeavor will be to eclipse all previous events. No catch games or fakes to gull the people, but a Grand Patriotic Celebration—for the people, by the people. Come—you will be heartily welcomed and as guests of Northville you will be royally entertained.

### MUSIC BY THREE BRASS BANDS

National Salute at Sunrise.  
9:30 a. m. Trades Parade of Northville's Industries.

## A GREAT BIG TIME.

Northville People Preparing for One on the Fourth.

### BALLOON ASCENSION WITH A PARACHUTE DROP

Is One of the Many Attractions—Many Others.

As has been said before "a celebration in Northville means something." Northville people do not advertise attractions simply to get in a crowd and then "gull" them. This year there is advertised the greatest amount of attractions and necessitating the largest expenditure of money ever attempted by any village, or even many cities, in the state, and barring accidents or bad weather everything will be produced in a way that will amply satisfy the people.

One of the chief attractions, to the majority at least, will be the daring balloon ascension and parachute drop by one of Prof. Bartholomew's aeronauts of Jackson. This was secured at an expense of \$100 and the novel sight is absolutely free to everybody.

The bicycle handicap race in which a \$75 White will be given to the winner is another attraction. The committee wishes us to particularly emphasize that this is no "bluff." The wheel goes to the winner without reserve.

And there's the trades parade, oration, sports, ball game between Northville and Plymouth, bicycle parade, callithampian parade, etc. The only difficulty appears to be that the day will be a trifle short to work everything in but it all goes even if there has to be a "three ring circus" made and run till midnight. The small admission fee of 50 and 10 cents will be charged to see the ball game—everything else free.

### Take No Chances on the Fourth.

Don't talk politics on the Fourth.  
Don't be ashamed to be patriotic.  
Don't get overexcited early in the day.  
Don't put all your fireworks in one heap.  
Don't carry loose powder in your pocket.  
Don't drive a nervous horse on the Fourth.  
Don't think powder is a respecter of persons.  
Don't blow down the mouth of a loaded gun.  
Don't encourage small boys to fire large cannon.  
Don't put your nose to a rocket after lighting it.  
Don't go on a crowded excursion—except to Northville.

### A Charitable Work.

Families in Northville and vicinity willing to take deserving children for a few weeks during the hot weather are requested to send their names to either Miss Minnie Smith, Mae Stark-weather or Mrs. H. F. Brown. The children sent will be selected by Mrs. Whitney of Detroit and those who are willing to give them the hospitality of their homes may feel certain that the self-sacrifice will not be misplaced, but bestowed upon little ones who could not otherwise enjoy the country air and are very much in need of it, and that the kindness in the future will receive the plaudit, "ye did it unto me."

The King's Daughters.

### Auction Sale.

Being about to leave town, Jake Miller will sell at public auction at the Richardson barn, in the rear of Stark Bros' store, on Saturday, July 2, commencing at 2:00 o'clock, a quantity of harness, tools, hay, etc. See bills for further particulars.

E. E. Parker, Sharon, Wis., writes: "I have tried DeWitt's Witch Hazel Salve for itching piles and it always stops them in two minutes. I consider DeWitt's Witch Hazel Salve the greatest pile cure on the market." Murdock Bros.

Try Plymouth Rock Flour.

### Suburban News.

Wayne High-school graduated the smallest class on record this year—one in number.

Five Tuesday morning destroyed barns belonging to P. C. Slougher, H. Moore and the Central Hotel at Milford. The hotel building was badly damaged but most of the furniture was saved. The losses aggregate \$7,000 with no insurance. Prompt work by the fire department saved the village.

Northville will have a 4th of July blow-out. The canons of the church will be read the day before. The small boy will rifle the hens' nests for produce exchangeable for gunpowder, torpedoes or noise-producing material. The bells of the town will be on duty. The celebration will be a regular cracker, Jack.—Adrian Press.

All the big guns of the vicinity will also be out and every ear drum in town will be pressed into service for the occasion. Powder will even be used by some of the ladies and bawls will be furnished by the infantry when rendered necessary by the exigencies of the day. Oh yes, guess we will have a "blow out." Better come over and help us Mr. Press, you've had experience with the noise of battle.

Just listen to this from last week's issue of the Wayne Review.

"A dish of monster luscious strawberries was brought to the editorial desk Wednesday with the compliments of Mrs. Abe Munding, from Frog Alley." And:

"Just as we go to press O. E. Warner brought in a box of delicious large strawberries. He must have had some patent process to make them grow so big."

And as those weren't enough hear the following hint for more!

"Andrew Bell has the largest strawberries we ever saw. They are as large as hen's eggs."

Now next week Andrew will of course donate a dish of the biggest ones he can find. That editor must be a "strawberry blonde."

## 4 BARNS; 4 HORSES

### Fire Destroyed Them for W. Pitt Johnson Sunday Morning.

### IT WAS PROBABLY THE WORK OF INCENDIARISM.

### Contents Entirely Destroyed and No Insurance.

Wm. Pitt Johnson, a well known and prosperous farmer living just east of Meads Mills suffered severe loss by fire early Sunday morning. Never did the ruthless destroyer do its work more quickly or with more thoroughness, and not until the four large farm barns on the south side of the road with their entire contents, including four horses, 300 bushels of oats, 25 tons of hay, a new mower, buggies, harness, farm tools, etc., were consumed, and only the bare stone walls remained, did the writhing and seething flames cease their destructive work.

The fire was discovered by Mrs. Johnson about three o'clock and quickly giving the alarm Mr. Johnson and the hired men were out into the road in a moment but the flames were bursting through and out in all directions and the heat was so intense they could get no nearer than the middle of the road.

The fact that the roofs of the four barns all fell in at just the same time goes to prove the theory of incendiarism. The buildings must have been set on fire, and almost at the same moment. Mr. Johnson arrived home from Northville Saturday night about 10:00 o'clock and everything was all right at that hour and one of the neighbors passed the place about 12:00 o'clock and there was no signs of anything wrong then.

Mr. Johnson estimates his loss on building at about \$1,600 on which he carried an insurance in the Farmers' Mutual for \$1,000. The loss on the contents, upon which he carried no insurance, was about \$800.

All Trimmed Hats at special low prices, commencing Tuesday at Nichols & Wight's.

## FROM THE FRONT.

Interesting Letter From Frank Lewis of the 32d.

Editor Record: I wish to thank you for your great kindness in sending me the Record. It is the most welcome paper that comes to camp. The other papers are full of reports about the soldiers, the condition of the Spaniards, and the movements of our troops, but not one of them is a dozen is correct. The fact of the matter is that the government allows none of them to get any authentic statements. The papers know absolutely nothing about when we will go or what troops will go. We expect we will be one of the regiments to go because we have been transferred to the fourth army corps under Coppinger and he has been selected to lead the expedition against Porto Rico. We may be changed a dozen times yet, before we go, but we may be left behind. I hope not, the latter. The condition in camp is much improved now. We are able to get our rations and therefore get better food. We have plenty to eat now and of a better quality. We have fresh meat twice a day, coffee, bread, rice, onions, and cabbage. We also have potatoes nearly every meal. But if we should happen to have hard tack and bacon with a little coffee to wash it down sometime just before I write, I would probably say that we were half starved. That is why so many different reports are scattered around. Take it on the average, we have pretty well. We are all very anxious to move and watch every orderly that rides in to see if he comes from the General or not. Thanking you again for your kindness, I remain,  
Your Friend, Frank Lewis.

An Interesting Letter from a Northville Soldier Boy.

Editor of Record: I notice by your paper, which I receive regularly, that four Northville boys are at the front. I desire to state that although five weeks of Chickamauga Park and a dose of "saw-belly" and hard tack, has a tendency to make a man think the Maine was blown up by accident instead of design. I am proud of the fact that in the muster roll of Co. E, 31st Mich. Vol. Inf., my "John Henry" is exactly opposite of a fellow from Northville, Mich. It is not quite so bad here as the papers try to make out, at least it could be worse and we get as good as any of Uncle Sam's soldiers, and once in a while, some lucky like gets a box of cake and other good stuff from home and it usually lasts about as long as a snow ball in hell, say a month. Nearly everyone in camp is having trouble with their arm this week as the result of vaccination. I have an arm on me at the present writing that gives me more touches of high life in a minute than Grandma Cady's slippers ever did in all my boyhood days in Northville. It is "even money" here that the man who wrote "Marching Through Georgia" never saw the place. Even the regimental bands have cut that selection out of their "Rip and Tear." I suppose you will be pleased to hear that the Chattanooga Daily Times of recently says "The 31st Mich. Vol. Inf. was distinguished by their ties (a present of the Colonel) are the cleanest, best looking and most gentlemanly lot of soldiers that visit our city. There are 42,000 more here, so that speaks pretty well for us. Last Saturday we had a camp inspection and were marked as having the cleanest, best kept camp and cleanest lot of men in our division. Oh, we don't cut any ice here I guess. That is partly because we came from the best state in the union and partly because we have a Colonel who knows his business. He is very strict but he is busy making good soldiers instead of a good fellow of himself. There is one satisfaction we all have: they don't play any favorites here. It's no Island Lake affair. We have all of our equipments except guns and Col. Gardner has refused two consignments of antiquities as not being fit for Michigan men. We have had "shovels and spades" galore, however, and I have become so expert in the use of one that I have serious thoughts of quitting the optical business for street work when the war is over—that is, if there is a war, which we begin to doubt. I enclose some leaves from near Jay's Mills, where the 25th Mich. cavalry, under Col. Minty, fought Sept. 18, 1863.  
Frank N. Bovee.

The Northville military company will doubtless be mustered into the regular army at the next call which is soon to be made. It is understood that Senator Holmes is to have the captaincy. The company now has well on towards forty members and has the privilege of soliciting recruits any where in the county outside of Detroit.

Rev. J. J. Phelps, who occupied the Baptist pulpit last Sunday and who, we understand, has accepted a call to the pastorate of that church, is a thinker of more than ordinary ability, who evidently believes what he says and knows how to say it. He is forcible in expression, apt in illustration, eloquent in argument and appeal, and never leaves his subject so far aside as to let his hearers forget what he is talking about.

The Record is placed in the post-office at 11:00 o'clock every Friday and if any of our subscribers fail to receive the paper a duplicate will be furnished on application. The papers are carefully mailed by a machine and it is almost impossible to miss anyone. A word of explanation might be due the base ball committee relative to the 4th of July game. The receipts from the game are first to be applied on balancing up last year's unpaid accounts and the remainder is to go into the hands of the association for the necessary running expenses of the club for the rest of the season. The association also pays \$10.00 into the 4th of July fund. Not any of the money goes for the personal benefit of any individual, as some may infer.

The case of the Globe Furniture Co. vs L. E. Bennett of Plymouth before Justice Lowden Monday in a jury trial was decided in favor of the former. The case grew out of difference in the figures on the measurement of a bill of walnut lumber which Mr. Bennett purchased of the Globe Co. In all it amounted to something like 4,000 feet, making a difference of some \$200.00. The jury awarded the Globe a verdict, including costs, of \$257.00. C. C. Yerkes appeared for the plaintiff and Geo. Starkweather for the defendant.

Two uniquely arranged show windows are those in T. G.'s store this week. The west one contains a life size "Uscle Sam" with a snare drum and by his side is the 4th of July prize bicycle. The whole has a surrounding of the national colors. Power did the arranging. The east window is attracting still more attention. By the side of the Goddess of Liberty stands a Cuban girl bound with chains, while by their side is the American flag and a goodly sized cannon. The background is red, white and blue bunting. Messrs. Hagen and Bennett are the artists.

Byron Filkins of the U. S. fish commission, thought he knew all about fish, fishing and fisheries. He went to the river, with the latest approved machinery for catching fish and hurled his patent fly into the stream. A fool trout nipped the bait and hung on like a republican office holder to official position. Filkins lifted him out of the water, and Mr. trout let go and dropped back just as Filkins grabbed for him. The U. S. official thought he could scoop the trout, and plunged into the water and made a grab for the fish, and was astonished to find that the trout had no regard whatever for a U. S. official, but streaked away, not leaving even one of his specks.—Adrian Press.

The German Lutherans will dedicate their new church Sunday forenoon with appropriate exercises. The regular service by the pastor begins at 10:00 o'clock, to be followed by the dedication service by Rev. Chas. Retz of St. Luke's church of Detroit. At 2:00 o'clock there will be a special thank service to Northville contributors, Northville people having contributed nearly as much for the building of the church as has their own congregation. Rev. Mr. Price of Detroit will conduct this service, and the pastors and congregations of the other churches are especially invited. The Northville band will furnish the music, and a 10 cent dinner will be served by the ladies under a tent adjoining the church.

S. C. P. Jones, Milesburg, Pa., writes: "I have used DeWitt's Little Early Risers ever since they were introduced here and must say I have never used any pills in my family during forty years of house keeping that gave such satisfactory results as a laxative or cathartic." Murdock Bros.

It now appears that instead of committing suicide as was stated last week, Walter Wood of Detroit, formerly of this place, was laboring under a temporary mental aberration, brought on by the war excitement. His delusion was that of fighting Spaniards. He is now rapidly recovering.

The lecture by Mr. Furuya at the Baptist church on Monday evening was a very interesting account of the Hawaiian Islands and those who heard him felt well repaid for their attendance. As usual, however, when anything instructive and of real merit is given, the attendance was very small. It seems strange that the intelligent and thinking people of the community will take no interest in such a subject at a time when it is prominent before the country. Mr. Furuya has been in this country only about eight months and speaks English with great difficulty, but he is very intelligent and earnest, having had unusual advantages which he has fully improved. He is taking a course in law at the University, having completed the first year, and may visit us again in other interests.

## IN OUR GREAT STATE.

### THE HAPPENINGS IN MICHIGAN BRIEFLY RELATED.

**Five Young People Drowned at Flushing** as a result of the overturning of a Row Boat—Several Important Conventions at Detroit.

#### Michigan Bar Association.

About 200 of the leading lawyers of the state met in the splendid new room of the U. S. circuit court in the new postoffice at Detroit, the occasion being the ninth annual convention of the Michigan State Bar association. The annual address of President Michael Brennan was followed by a paper read by Wm. H. Wells on the subject "In Cuban Affairs the United States Has Adhered to Its Traditional Policy." It was highly interesting, showing deep research, and was enthusiastically applauded. This was enough business for one sitting, so they adjourned for the day and took their ladies on a trolley excursion to Grosse Pointe. In the evening a magnificent banquet was greatly enjoyed at the Hotel Cadillac, with a number of suitable toasts, that by Judge Michael Brown, of Big Rapids, "The President of the United States," particularly pleasing the lawyers.

At the second day's session a little more business was transacted, committees and officers reported, among other things, that the membership had increased to 640. Officers were elected as follows: President, Thos. E. Barlow, Jackson; vice-president, Bradley M. Thompson, Ann Arbor; secretary, Wm. S. Cobb, Jackson; treasurer, Charles E. Townsend, Jackson. The only change in the board of directors was the substitution of A. C. Baldwin, of Pontiac, for John J. Carton, of Flint. The meeting ended with an excursion on the river.

#### Five Young People Drowned.

A terrible accident, involving the loss of five lives, occurred at Flushing, when a boat capsized containing four young people. All were drowned and a spectator, who endeavored to help them, also lost his life. The occupants were Chauncey A. Cook, aged 18, the Misses Lunnell and Odellina Loop, aged respectively 14 and 16, and Mildred Packard, aged 2, a niece of the two young ladies. The party had been out for some time, when through some carelessness in the handling of the boat it was capsized. All went into the water, and as none of them could swim they struggled helplessly about. At this juncture, Arthur Maxwell, a popular young clerk, came lying down to the beach on his bicycle. He quickly dismounted and plunged headlong into the river. He was a good swimmer, but had not proceeded half way to the unfortunate when he was seized with cramps, and with scarcely time to cry out, sank and never again came to the surface. Every member of the party was drowned except little Mildred. She was taken out alive, but expired in a short time. Maxwell's body was first recovered, and the others were soon afterward brought to the surface.

#### Three Men Drowned near Shepherd.

Sidney Kessler, Thomas Francisco and Harvey Francisco lost their lives by drowning in Chippewa river, near Shepherd. The accident occurred about three rods below the dam in 14 feet of water, which forms a whirlpool extending under the bank some distance. The men had been fishing and before starting for home young Francisco, aged 12, and Kessler, aged 32, had evidently went in bathing, as their clothing was found in their wagon near by. It is supposed that they were wading around in the shallow water and accidentally stepped off into the deep water. Neither could swim and their struggles attracting the attention of Harvey Francisco, the father of Thomas, he started to rescue them, jumped down the 20-foot bank, ran to the water and plunged in with his clothes on. He was an expert and powerful swimmer, but his efforts proved unavailing, and all were swept into the whirlpool and were drowned. The elder Francisco leaves a widow and four daughters, in comfortable circumstances. Sidney Kessler was the main support of his old father who is paralyzed and unable to walk.

#### National Credit Men at Detroit.

The third annual convention of the National Association of Credit Men, was held at Detroit, calling together a goodly assembly of representative men from all parts of the country interested in making a uniform and firm basis for the founding of credits, reforming laws that are now unfavorable to an honest credit business, and securing legislation that will be helpful to the commercial interests of this country. The association was organized in Toledo two years ago, by representative credit men from the leading commercial interests and centers of the country, and now it has a membership of 2,332, which represents interested capital of over \$600,000,000 and a volume of business of over \$1,300,000,000.

Hon. Chas. G. Dawes, U. S. controller of the currency, made the leading speech of the convention.

#### Berrien County is "Wet."

Berrien county has gone back on the local option movement and buried the proposed measure under a "wet" majority of nearly 2,000 votes. The three important cities of the county—Niles, Benton Harbor and St. Joseph—voted overwhelmingly "wet," the business men there and at the summer resorts fearing a loss of business.

A detachment of Pennsylvania volunteers has been assigned to duty at Fort Brady to relieve the boys of the 9th U. S. infantry and to guard the locks.

## 15 CHICKAMAUGA REGIMENTS.

Ordered to Prepare at Once to Go to Reinforce Shafter's Army at Santiago. Assistant Adjutant-General Sheridan, at Camp Thomas, Chickamauga, has issued orders for the movement of 15 regiments now at Chickamauga southward. This is taken to mean that Gen. Brooke's whole corps is to be prepared for the field, and that Gen. Brooke will be in command. They will go direct to Tampa and will be loaded at once on transports. Most of the troops will be supplied with canvas uniforms before leaving. It is learned that 8,000 stands of arms are being issued to regiments under orders to move. It is thought the censor at Tampa is at work again. The 15 regiments under orders are the best trained and best equipped at the camp. They are the Eighth Massachusetts, 16th Pennsylvania, First West Virginia, Fifth Illinois, 16th Indiana, First New Hampshire, Fourth Ohio, 31st Michigan, Third Wisconsin, Second Wisconsin, 15th Indiana, Fourth Pennsylvania, First Georgia and 12th New York.

#### Gen. Miles Goes With Next Expedition.

Washington: Preparations for hurrying reinforcements to Gen. Shafter and for the Porto Rican expedition are progressing as fast as possible. Gen. Shafter's orders are to send back to Tampa as many of the transports as he can spare. It is stated officially that Gen. Miles would command the next expedition which leaves the United States. On the arrival of the force at Santiago, Gen. Miles, by virtue of his position, will assume active command of all the forces in the field, and as soon as the city falls he will undertake in person the leadership of subsequent campaigns, whether against Porto Rico or various Cuban points. The number of reinforcements which are to be sent to Shafter will be an expedition nearly as formidable as that which he now has with him. After Santiago has been reduced and captured by the American forces there will be an ample number to leave in the province to preserve order and hold the place while the remainder may be used for the Porto Rican expedition. In addition to the 32 transports utilized by Gen. Shafter, the war department has chartered all other vessels which are available for immediate use. The war department has announced the purchase of eight trans-Atlantic liners, seven of them of much greater capacity than any of the American transports heretofore chartered, and as many of these vessels as can be made ready in time will be utilized.

Another report says: The First and Fourth army corps under Gens. Brooke and Coppinger, respectively, have been ordered to prepare for movement at once. Gen. Coppinger, of the Fourth corps, which comprises all the troops now in and around Tampa, is expected to sail for Porto Rico. One hundred mule wagons will accompany the command. Sixty days' complete rations for 60,000 men have been ordered aboard the transports. It is said there will be, at the lowest estimate, 8,000 troops in the expedition. Gen. Brooke's command will go to reinforce Gen. Shafter at Santiago.

#### Troops Killed in a Railroad Wreck.

The first and second sections of the train carrying Col. Torrey's regiment of rough riders from the Rocky mountains to Jacksonville came together in collision at Tupelo, Miss., and four troops were killed, one fatally injured and a score seriously injured. The sleeper "Seville" containing Col. Torrey and his regimental staff, was completely demolished, but all were unhurt except the colonel, who is injured, though not seriously. The chief fatalities occurred in a coach in the center of the first section which carried Troop C from Laramie, Wyo. This coach was completely telescoped and the soldiers within were jammed and bruised beneath the masses of timbers, broken car seats and other debris.

Not a horse was injured, although several of the stock cars were badly smashed. The fault of the accident probably lies with the engineer of the second section, who was running too fast. He has disappeared.

#### Sigsbee Knocked Out the Terror.

Washington: Capt. Sigsbee reports that while off San Juan, Porto Rico, he was attacked by a Spanish unprotected cruiser and the Spanish torpedo boat destroyer Terror. The Terror made a dash which was awaited by the St. Paul. The St. Paul hit the Terror three times, killing one officer and two men and wounding several others. The Terror dropped back under cover of the fortifications with difficulty, and was towed into the harbor in a sinking condition, where she is now being repaired. Later, a cruiser and a gunboat started out, but remained under protection of the forts.

In defeating the Terror, Capt. Sigsbee has not only deprived Sampson's fleet of apprehension of an attack in the rear some dark night, but he has demonstrated that an auxiliary cruiser is able to take care of herself against a torpedo gunboat. The torpedo gunboat was an untried quality in naval warfare up to this time. She is swifter than a torpedo boat, is seaworthy and is possessed of the armament of which the torpedo boat is void.

#### Third Expedition Sailed for Manila.

Another fleet of transports has sailed out through the Golden Gate to the broad Pacific, making the third fleet of vessels loaded with soldiers and supplies that has sailed from San Francisco for the Philippines. The ships carried about 4,000 men under command of Gen. Arthur MacArthur, who has made the steamer Indiana his flagship. The City of Para, the Ohio and the Morgan City were the other vessels.

Fire destroyed four barns and contents, including four horses, on the farm of Pitt Johnson, near Northville.

## AMERICANS KILLED.

### FIRST BATTLE FOUGHT IN THE ADVANCE ON SANTIAGO.

Rough Riders Rush Into an Ambuscade and Lose a Score of Men—Shafter's Army Moves Up Within Sight of Santiago and Prepares to Attack It.

The landing of Gen. Shafter's army at Daiquiri was accomplished exactly as had been planned. Only two lives were lost in the debarking, and those by accident. Corp. Cobb and Private English, of Troop D, Tenth cavalry, were crushed to death by being thrown from a small boat while they were trying to climb upon the pier where the disembarking took place. Capt. O'Neil, of Wood's rough riders, plunged into the sea at the risk of his life, but the men were crushed before he reached them. O'Neil is a former mayor of Tucson, Ariz. Several horses and mules were drowned while swimming ashore through the surf.

As soon as the various commands were landed they pushed out in the direction of Santiago. At dark they bivouacked and were strung out in a column three miles long, the front resting at Demajayho, and the rear within a mile of the base at Baiquiri.

The army was on the move again at dawn and soon occupied Juragua, five miles beyond, and the American flag was hoisted there. The Spaniards retired before the advance, which was covered by Cuban skirmishers, burning the blockhouses as they went. Col. Wagner, with a small reconnaissance party of about 40 men, brushed against the flank of a retreating Spanish column 200 strong, at Firmasas. A dozen shots were fired by the Spaniards, as Col. Wagner fell back. Before Gen. Lawton could bring up the 23d, the van regiment, the Spaniards had decamped westward. Juragua was abandoned by Gen. Linares and 1,200 Spanish troops with such haste that they had no time to burn the town as they had Baiquiri. Gen. Linares retreated to Sevilla, six miles west of Juragua, by road and nine miles from Santiago. A detachment of 170 Cubans under Col. Aguirre collided with the Spanish rear guard. The Cubans lost two men killed and had seven men wounded. The Spanish loss is not known. Dispatches of Gen. Linares, which were captured, indicate that the Spaniards were ordered to retreat toward Santiago.

#### LAND BATTLE NEAR SANTIAGO.

##### 13 Americans Killed and 50 Wounded—Roosevelt's Rough Riders in It.

The first land battle between the American and Spanish forces in the campaign against Santiago occurred when four troops of the First cavalry, four troops of the 19th cavalry and eight troops of Roosevelt's rough riders, less than 1,000 men in all, dismounted and attacked 2,000 Spanish soldiers in the thickets within five miles of Santiago. The Americans beat the enemy back into the city, but they left 13 dead upon the field, as follows:

Roosevelt's rough riders—Capt. Allen K. Capron, of Troop L; Sergt. Hamilton, 1st; Privates Tillman and Dawson, of Troop L; Dougherty, of Troop A, and W. T. Erwin, of Troop F. First cavalry—Privates Dix, York, Gekker, Kolbe, Berlin and Lemmarke. Tenth cavalry—Corporal White.

At least 50 Americans were wounded, including six officers. Several of the wounded will die. The following officers were wounded:

Rough riders Maj. Brodie, shot through the right forearm; Capt. McClintock, Troop B, shot through the right leg; Lieut. J. E. Thomas, Troop L, shot through right leg; condition serious. First cavalry Capt. Knox, whose condition is serious; Maj. Bell and Lieut. Bryan.

Gen. Young commanded the expedition and was with the regulars, while Col. Wood directed the operations of the rough riders, two miles west. Both parties struck the Spaniards about the same time and the fight lasted an hour. The Spaniards opened fire from the thicket brush and had every advantage of numbers and position, but the troops drove them back from the start, stormed a blockhouse around which they made the final stand and sent them scattering over the mountains. Twelve dead Spaniards were found in the bush after the fight, but their loss was doubtless far in excess of that.

The cavalrymen were afterward reinforced by the Seventh, 12th and 17th infantry, part of the Ninth cavalry, the Second Massachusetts volunteers and the 71st New York volunteers. The Americans now hold the position at the threshold of Santiago with more troops going forward constantly. It is probable that at least 10 in the list of wounded will die.

#### Warm Reception at Tampa.

Gov. Pingree visited the 32d Michigan Regiment at Tampa and was given a rousing reception, not only by the members of the 32d, but by the citizens and city officials of Tampa as well. The governor made an address to the boys after he had reviewed the boys at regimental parade. The city officials of Tampa banqueted the governor and officers of the regiment.

A cyclone 40 rods wide and 10 miles long passed one mile south of Lambertville, completely destroying the barns and orchards of J. Johnson, J. Slyker, H. Bristoll, J. E. Nickless and J. Hasen. Forests were greatly damaged and the loss on farm property is estimated at \$10,000. Mr. Johnson was the only man who had a cyclone insurance of \$800. Fortunately no lives were lost.

Latest reports from Honolulu say that as soon as news is received that Hawaii is annexed to the United States the Honolulu regiment of troops will be offered for immediate service at Manila.

## AT THE DOORS OF SANTIAGO.

### American Troops Continue to Advance Upon the Doomed City.

The defeat of the Spanish rear guard by Gen. Young's and Col. Wood's commands caused a complete rout of the Spanish which did not end until they were safely within the fortifications of the city. The American advance continued until within four miles of Santiago. Two brigades of Brig. Gen. Lawton's division in command of Gen. Chaffee and Col. R. M. Hall, of the Second Massachusetts volunteers, moved forward past the village of Sevilla, where the Spaniards expected to make a stand, and occupied the hills to the right and left, two miles beyond. Out in front of the American forces and occupying the roads leading to Santiago a force of 1,500 Cubans under Gen. Carlos Gonzales was stationed. The entire Cuban army, under direction of Gen. Calixto Garcia, with 5,000 Cubans, came from the interior, while from Acerraderos, 20 miles to the west of Santiago, 2,000 Cubans had already arrived.

The base of supplies was practically moved from Baiquiri to Juragua after the battle near Sevilla and 6,000 American troops were immediately sent forward to the latter place, with Maj. Gen. Joe Wheeler in command, who reported to Gen. Shafter that he learned from two Negro boys from Santiago that the soldiers and citizens are very short of food. The soldiers and officers have seized all the food in the shops and are killing young horses for food and in the hospitals are subsisting on bread made of rice flour.

Gen. Wheeler, in his official report, placed the number of dead Americans in the engagement at Sevilla at 23 and the wounded as between 70 and 80. The bodies of 39 Spaniards have been found and the Spanish loss in killed and wounded was doubtless much heavier than the American. Five wagon loads of wounded Spaniards were carried into Santiago, and many others wounded got there on horses or mules. The Cubans confirm the reports as to the fine character of the fortifications around the city. Seven lines of barbed wire are stretched around the trenches. The Spaniards have recently dug deep trenches around the entire city, connecting a series of small forts.

Gen. Young reports to Gen. Shafter: "We can plainly see Santiago. The country is level this side of the city except for hills on the south, which extend to within a mile of Santiago. These hills appear deserted. The country is fairly open and it will not be difficult to move troops over it."

#### SAILED FOR MANILA.

Spanish Fleet Under Camara to go to the Philippines, via the Suez Canal.

Washington: The state department has received advices confirming the report that the Spanish Cadiz squadron is in the Mediterranean moving east.

A Madrid correspondent says that Senor Sagasta informed the chamber of deputies that Admiral Camara's squadron was on the way to the Philippines, via the Suez canal.

London: If Spain's reserve fleet goes through the Suez canal its commander will have to pay about \$122,000 down in gold, as canal tolls before the vessels enter the waterway.

Port Said: Admiral Camara's squadron is in the harbor awaiting orders. It consists of the battleship Pelago, Admiral Camara's flagship, crew 555 men; armored cruiser Emperor Carlos V, 561 men; auxiliary cruiser Patriota, equipped with 12-inch guns and torpedoes; Barriera, crew 250 and 200 troops; auxiliary cruiser Bucho Ayres, 10 guns, carrying stores, crew 189, troops 703; torpedo boat destroyer Andaz, 73 men; armed merchantman Isla de Panay, crew 103; troops 703; auxiliary cruiser Rapido, 13 guns, crew 238, troops 200; steamship Colon, unarmed, cargo stores, crew 120; torpedo boat destroyer Proserpina, 73 men; torpedo boat destroyer Osada, 72 men; transport Covadonga, cargo stores, crew 120; collier Francisco, cargo ammunition, crew 68.

Except the Carlos V, the Patriota, the Andaz and Proserpina, the whole fleet presents a forlorn appearance. All the other vessels show very foul bottoms and are in an extremely untidy, neglected condition. The soldiers, miserably clad and evidently ill-fed and discontented, are confined on shipboard. The Egyptian government has refused Camara's Spanish fleet permission to coal at Port Said or in Egyptian waters.

#### The Blockade Extended.

Washington: The President has issued a proclamation extending the blockade of Cuba to the southern coast from Cape Frances to Cape Cruz inclusive, and also blockading San Juan, Porto Rico. Neutral vessels, lying in any of the ports to which the blockade is by the present proclamation extended, will be allowed 30 days to issue therefrom with cargo.

The blockade of San Juan proclaimed is a reality, having been initiated by Capt. Sigsbee last week, when he turned back a British steamer laden with supplies.

The President thus gave notice of blockading about 500 miles of Cuban coast line in addition to the sections already blockaded. The blockade has been confined heretofore to a little more than 100 miles on the north and the single port of Cienfuegos on the south coast. The new blockaded coast line lies entirely within the great bright on the south Cuban coast, in which the water is generally very shallow and the ports are few into which a vessel of any draft could enter. The object of blockading that coast is to cut off supplies which have been reaching Havana through points on that coast. The vessels for the additional blockade service will be supplied almost entirely from the patrol fleet which has been guarding the north Atlantic coast.

## OPEN THE DON'S EYES.

### AMERICAN FLEET TO ATTACK SPAIN AT HOME.

Commodore Watson Ordered to Take a Strong Fleet and Sail at Once—The Michigan Naval Reserves Right in It—Will Make Spain Up.

The recent rumors that the President intended to send a fleet of war vessels to attack Spanish coast cities have proven true, as is shown by the following bulletin posted by the navy department at Washington:

Commodore Watson sails in the Newark to join Sampson, when he will take under his command an armored squadron with cruisers and proceed at once off the Spanish coast. Commodore Watson's squadron is designated the eastern squadron and is as follows: Battleship Newark; battleships Iowa and Oregon; cruisers Yosemite, Yankee and Dixie, and the colliers Scandia, Abacanda and Alexander. The start will be made at once from off Santiago.

No attempt is made to deny that the government is influenced in ordering this movement by a desire to check the progress eastward of the Cadiz fleet. It was not believed that the Spanish admiral could be guilty of the folly of uncovering his own home ports in this fashion, but inasmuch as he seems determined to do so the naval strategists could not do less than take advantage of the magnificent opportunity thus afforded to strike a crushing blow at Spain and thereby, perhaps, bring about a speedy desire in Spain for peace and save much time and loss of life and money in the conduct of the tedious campaign in Cuba.

When the American fleet sails for Spain it will take complete information as to the entire stretch of Spanish coast, with detail maps of every harbor and its fortifications. The information is in minute detail as to the defenses of each port. In general the fortifications of the coast are relics of the medieval greatness of Spain, and many of these old defenses are tumbling ruins.

With this information at hand, the nature of the assault upon the coast of Spain will be pretty well outlined before the American squadron sails. At the same time much will be left to the commander of the squadron. Some officials are of the opinion that the Canary islands will be the first point of attack and that the next move will be to establish a naval base at Ceuta, a point on the African coast, owned by Spain and opposite Gibraltar. With this base our ships would be within easy striking distance of the long stretch of Spanish coast.

The start will be made from Santiago just as soon as the squadron can be gotten ready, and this, fortunately, owing to the completeness of naval mobilization, will be in a short time.

#### Knights of St. John.

Detroit was well filled with visitors on the occasion of the annual convention of the supreme commandery of the Knights of St. John, Catholic. Over 3,000 members of the order, including about 2,000 uniformed knights, poured into the city to participate in the big parade and the convention. The parade was the picturesque feature of the gathering and drew an immense crowd of spectators. There was lots of music and the brilliant uniforms made a most spectacular exhibition.

Pontifical high mass was celebrated in St. Mary's church for the benefit of the delegates. Music by a special choir of 80 voices and an orchestra of 18 pieces was a feature of the ceremony. The first business session of the convention consisted principally in addresses of welcome by Mayor Maybury, Bishop Foley and Capt. John B. Todenbier, chairman of the executive committee. Gen. Weist, supreme commander, responded.

The Chicago & Erie depot at Kenton was entirely destroyed by fire.

## Wheat and Corn as Pig Food.

Purdue University has been conducting some experiments to ascertain the value of wheat and corn as pig food. This experiment had for its purpose a comparison of the feeding value of corn and wheat singly or in combination, when fed to growing, fattening pigs. This involved a consideration of several points of importance, all of which had a direct bearing on the experiment. The pigs used were farrowed October 20, 1896, were high grade Chester Whites, and the product of two pigs that were full sisters. Each sow had nine pigs, and the two litters were very uniform and furnished unusually good material for experimentation. They were placed in the experiment soon after weaning. Sixteen of the pigs or eight from each litter, were divided into four lots of four pigs each, consisting of three barrows and one sow in each lot.

The foods fed were as follows, with skim milk: Corn, wheat (dry), corn and wheat (half and half), wheat (soaked). The grain was fed whole, in regular pig troughs resting on platforms in small pig lots, and in the case of lot IV, the wheat, after being weighed out, was soaked for twenty-four hours in cold water up to the last of March, after which it was soaked only twelve to fourteen hours; that the wheat might be fed unfermented. In addition to the grain ration, each lot was fed daily about 1 p. m. from 10 to 12 pounds of separator skim milk. The summary of the experiments are as follows:

1. Pigs fed exclusively shelled corn for grain, in cold weather, made a gain per day of 1.16 lb.
2. Pigs fed whole wheat dry, for grain, made a gain of 1.02 lbs. per day, while those fed soaked whole wheat gained 1.05 lbs.
3. Pigs fed corn and wheat whole, half and half, gained 1.12 lbs. per day.
4. To produce one pound of live pork with shelled whole corn cost 1.49 cents.
5. To produce one pound of live pork with dry whole wheat cost 4.67 cents, while it cost 4.69 cents if the same kind of wheat was soaked.
6. To produce one pound of gain with the pigs fed a mixture of half and half whole shelled corn and whole wheat, it cost 2.97 cents.
7. The influence of the food on the organs and fleshy parts of the body, did not seem to be materially different.
8. Where corn was fed exclusively the bone was softer than where either wheat alone or corn and wheat were fed together.

#### Shipping Grass Cattle.

Grass cattle, as a rule, do not ship well, writes F. D. Coburn in Nebraska Farmer. On the pasture they look well, and many a buyer has been deceived by the appearance of a drove of steers in a grass field with full bits. To ship such cattle is a hard task, and it is invariably disappointing, but it has to be done. Where convenient it is a good plan to place such cattle in a pen and feed them hay for a day or two. The secret of shipping all classes of cattle is to place them on the cars full of feed, but with as little moisture as possible. If you ship a steer full of water he is apt to have loose bowels and show up in the yards badly. Properly handled cattle should arrive in the sale pens dry behind and ready for a good fill of water; not overthirsty, but in good condition to water freely. Many of our shippers think that by salting their cattle, or by feeding them oats, or by other scheming, they can fool the buyers. This is nonsense. The buyers are just as sharp as the owners, and while many of them say nothing, you often see them ride into a pen and out again without the courtesy of a bid on this account. Dozens of times we have seen this happen. It always acts against the shipper to use unnatural means. To eastern buyers it is a matter of great importance that cattle should be in good condition when purchased, so as to stand further shipment. When cattle drink too freely they are apt to founder and break down. In this condition the dressed beef men can use them, but it stops competition, and as a natural consequence cattle often go below their value when in this condition.

#### Women as Poultry Raisers.

Women, as a rule, are among our most successful poultry raisers. This is from the fact that they are by nature born mothers and possessed of the needful qualities that enable them to give the careful, patient attention to detail which is the key to success in this business. There are a great number of women that make a very respectable living at poultry raising. There are many discontented, fretful girls among our farmers' daughters, made so, generally, from a longing for amusement and pin money. To such we would like to name poultry raising as a pursuit that will afford an infinite amount of healthy, harmless amusement and quite a good sum of pin money, so desired by the ambitious farmer's daughter. Try it, and you will no longer have a desire for the city life, with its hollow emptiness, utter vainglory and contaminating influences, destroying both health and soul.—Southern Farmer.

Setting Turkey Hens.—When setting a turkey hen, put tobacco stems at bottom of nest. Dust the nest and her well with insect powder, pouring some lice exterminator on top of coop on the outside, but do not put it on the nest as it may kill the germ of the egg and render it infertile. Often change roosting place. A turkey left to herself never roosts two nights with her young in precisely the same place. Almost everything I have said of poultry is equally true in the management of chicks. Give them a good grass range but not too high grass. Do not let them get wet, and you will likely raise a large flock of turkeys if hatched from vigorous stock.—Ex.

This promises to be a great year for strawberries.

Electric Fans in Sleeping Cars.  
The Baltimore and Ohio South-Western Railway officials have solved the problem of cooling sleeping cars in stations at night. At Cincinnati, Louisville and St. Louis this line has sleeping cars placed in the stations at 10 p. m., which do not depart until after midnight, and in order to make them comfortable and cool have placed 16 inch rotary electric fans in each end of the sleepers, thus removing the heated and impure air from all parts of the car. The fans have been in operation about two weeks, and have been the subject of many favorable comments from the traveling public.

## A Heaven Born Banner

His thoughts of the American people again turn towards the stars and stripes. There are flag days and all sorts of days we celebrate in one fashion or another, but when the Fourth of July gets within reaching distance, then we realize that the day of days is at hand. That is why the star spangled banner is in the minds of everybody.

The orators with silver tongues have told and the poets have sung about all that is great and glorious regarding the old flag. So much for patriotism. Really, the flag is a very prosaic benefit, apart from the sentiment that attaches to it. Thousands and thousands of people gain their living from one year's end to another, in making United States flags. Think of it. Every year, the people of the United States buy three millions of flags. During that same period a million flags disappear. Nobody knows where they go to.

The American flag has just passed its one-hundred and twenty-first birthday. The patched up affair that Retsey Ross gave to the world at the time of the revolutionary war has been reproduced millions of times. Yet the only change from the design that the expert fingers of Mrs. Ross prepared is in the number of stars. It is just the same flag in appearance that decorated the hall in which the first congress of the United States met. It is a finer flag now in point of material, and almost any sort can be bought that one is willing to pay for, but whether it be silk or paper, it is the stars and stripes, the idol of the people, whose fame increases with the addition of every star.

And all the time we think of the poetry and prose of the flag. If any reader of these lines has ever visited a foreign country, has been a stranger in some far away place over the ocean, he may remember the feeling of joy, of pride, almost rapture that came to him when he first saw the stars and stripes floating over the consulate.

The writer remembers some years ago walking down the Bois de Boulogne in Paris. Just ahead of him was a regulation man of the world, and yet something about him indicated that at one time or another he had lived in America. He walked slowly down the avenue until all of a sudden, from the second story of a building at the right, there was flung to the breeze the silken folds of a beautiful specimen of the American flag. The man of the world saw it. In a second his silk hat was off his head, and despite the onlookers he gave three as lusty cheers for the stars and stripes as ever came from an American throat. As the writer reached him, he turned about and with tears rolling down his cheeks, said, "I did not know that the sight of anything could touch me like that." And then he cheered again.

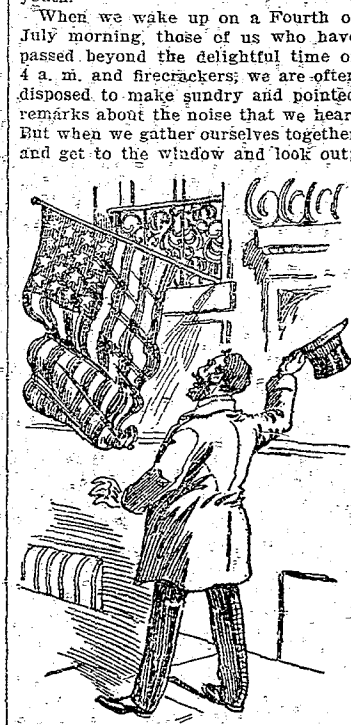

This is just by way of evidence that the average person who looks at, waves and carries the American flag has really no idea of the place in his heart that it holds. If anything were ever a thing of beauty and a joy forever, it is the flag of the United States. Thousands of people say that it does not protect them when away from home. It has been said in mass meetings that it was no longer the flag of the free. And yet there is not one of those who make the remarks referred to who would not fight in a minute for that same flag if any one beside an American citizen spoke against it.

A singular fact concerning the American flag and the people over whom it floats is that with all reverence for it they are dreadfully irreverent with it. The flag is something to be cheered and saluted and honored in every way, but when it is torn out it is cast aside and a new one substituted. Nobody knows and nobody cares where the worn out ones go. "Sufficient to the day is the fact that they have served their purpose."

This by no means refers to the battle flags. No, indeed. If there are only three inches of red, white and blue, and a single star remaining attached to the staff of such a banner, the people think infinitely more of it than they would of the finest thirty-foot flag that was ever made. The poor old rent and tattered banners all have a meaning. There is history, tragedy, romance and sometimes humor among the memories of the dear old relics. Let any one who doubts that pay a visit to the state house at Hartford, Conn., that staid old town, where it used to be against the law for a man to kiss his wife on Sunday.

Hard-featured old farmers come in and view the cases where the flags are located and presently, if one cares to watch, there will be distinct evidences of moisture and the dew on the grass of a June morning was never more delightful than the dew of patriotism that rarely springs from the heart of the American citizen, whether he be old and hard-featured or in the flush of youth.

When we wake up on a Fourth of July morning, those of us who have passed beyond the delightful time of 4 a. m. and firecrackers, we are often disposed to make sundry and pointed remarks about the noise that we hear. But when we gather ourselves together and get to the window and look out;

GAVE THREE LUSTY CHEERS. when we see on the nearest flagstaff the stars and stripes, brilliant and beautiful as the debutante in the first flush of social success, we forget about the noise. We only remember that we are citizens of the greatest republic the world ever knew, and we know that any disturbance we may hear is in honor of that flag which is floating above us. We are proud of it.

And then, as the day grows apace and all that it means is borne in upon us, the words of genius come back to us and we say to ourselves that nature herself shows us that the United States will never be surrendered. France has the lily, England has the rose, Scotland has the thistle, Ireland has the shamrock. All these have their day and

pass from earth, but the stars shine on forever.

## THE REVOLUTIONARY WAR.

Lo, now the cannon thundering to the sky,  
The thickening fumes that scent the heated air,  
Recall the camp, and spread before mine eyes  
The pitch of battle and the triumph there.

The summoned plowman grasps the ready gun,  
And swiftly strides across the furrow's sod;  
The smith, ere half the heated shoe is done,  
Swings on in haste, and rides the steed unshod.

The mason flings his glittering trowel by,  
And leaves behind the pale and weeping few.  
The miller's wheel above the stream hangs dry,  
While o'er the hill he waves the swift adieu.

Lo, all the air is throbbing to the drum;  
In every highway sounds the shrill life;  
And flashing guns proclaim afar they come,  
Where hurried banners lead the way to strife.

Though rude the music, and the arms are rude,  
And rustic garments all the motley line,  
Yet noble hearts, with noble hopes imbued,  
Thrill through the ranks with energy divine.

Thrill through the ranks until those sounds become  
Celestial melodies from freedom's lips!  
These arms an engine to strike despots dumb,  
And leave oppression howling in eclipse.

Then comes the struggle, raging loud and long—  
The seven years' battle with the banded foes—  
The tyrant, and the savage, and the strong  
Grim arm of want with all its direful woes.

Half clad and barefoot, bleeding where they tread,  
Where hunger and disease allied consort,  
The pale survivors stand among their dead,  
And brave the winter in their snow-walled fort.

But heavier than the storms which fold the earth,  
Than all the ills which winter's hand commits,  
The bitter thought that at the sacred hearth  
Of unprotected homes some horror sits.

But God is just; and they who suffer most,  
Win most; for tardy triumph comes at last!  
The patriot, bravely dying at his post,  
Hath rivaled all the Caesars of the past.

Right conquers wrong, and glory follows pain,  
The cause of freedom vindicated stands;  
And heaven consents; while, staring o'er the main,  
All Europe greets us with approving hands.

If now a firm o'er-swim my aged gaze,  
Or if a tremor in my voice appear,  
It is the memory of those glorious days  
Which moves my falling frame and starts a tear.

Oh, 't is sacred spot again to rest,  
Where pass'd the patriots, ere this old heart faints!  
Then I depart, with a contented breast,  
Where they are walking crown'd among the saints.

Here on the steps, made holy by their tread,  
I list their kindling voices as of yore;  
And hear that bell, now hanging speechless, dead,  
Which rung for freedom, broke, and rung no more.

Broke with the welcome tidings on its tongue,  
Broke, like a heart, with joy's excessive note,  
'Tis well no cause less glorious e'er hath rung  
In silver music from its hallow'd throat.

—T. Buchanan Read.

A Declaration of '98.  
This is a day to be merry and gay,  
And to celebrate with powder,  
Yet here I sit in a gloomy fit,  
While the cannon and guns grow louder.

In frenzy I wrote a burning note,  
Wherein I made confession  
That Kitty's hand I did demand  
To keep in my possession.

Now here I scan—(Oh, hapless man!  
For me no celebration!)  
Her exceedingly cold and shortly told  
Independence declaration!

## WAS LIKE A PRAYER MEETING

The Ohio Republican State Convention Very Quiet.

## McKISSON WAS TURNED DOWN

The National Administration Wing of the Party Had Things Their Own Way—Gen. Grosvenor's Speech—The Candidates Nominated.

The Ohio state convention of the Republican party, held at Columbus, was unusually free from wrangling and passed off almost peacefully as a Methodist prayer meeting. There were no contested districts, in which the delegation of 231 delegates in which the delegation of Mayor McKisson, of Cleveland, and the delegates of the Cleveland delegation, who were the only ones of any proportions, and it was regarded by some as the inauguration of a third-term movement by Mayor McKisson. The McKisson contingent kept the committee on credentials in session all night and all the cases were decided against the already small minority.

When Hon. H. M. Baugherty, chairman of the state central committee, called the convention to order the auditorium was filled, except the galleries, which were crowded into the same seats, and both delegations participated, but Chairman Baugherty put everything through on a voice vote, so that there was no collision. After prayer by Dr. Franklin M. Balfour, Chairman Baugherty, in opening the convention, said that the party was against Spain and the President's policy. He then announced that Gen. Grosvenor would take charge of the convention as temporary chairman, with Hon. H. M. Baugherty, of Columbus, as temporary secretary, and P. W. Gass, of Cincinnati, temporary sergeant-at-arms.

Secretary Malloy read a letter from Senator Hanna, in which the senator expressed the regret that his congressional duties detained him at Washington, and offered this sentiment: "Repudiation in its broadest, truest sense, devotion to principles and loyalty to party organization, the administration of the government, Kinley as a fulfillment of our pledges to the American people and a guarantee of the future prosperity of our country."

On being introduced, temporary chairman Gen. Grosvenor revived the pledges of the party at the St. Louis convention and what had been done since the inauguration of President McKinley. He said the West Indies and Philippines, and wherever it was planted in warfare. After the appointment of committees the convention adjourned for the day.

When the convention assembled it did not require much time to finish up its business. The temporary organization was made permanent. The session lasted less than two hours and most of that time was devoted to unseating the small minority of dissenters. After the contests were disposed of everything was unanimous and by acclamation. Five nominations were made within 22 minutes, including the nomination and seconding of speakers. The delegates, afterwards, the speaker perfected his permanent organization, were all Hanna men. If the factions were not completely wiped out, they were at least shut out. There was a single doubt expressed as to two of the 21 members of the state central committee. Brown, of Toledo, and Crispin, of Dayton, were they were not long in announcing their selves as in accord with the majority, so that the party machinery is entirely in the hands of the friends of Senator Hanna for the next year.

Gov. Bushnell was not in the convention hall, and none of his appointees were present to hear the reading of the last resolution in the platform, which is generally accepted as uncompromising to the governor and his dissenting Republicans in the legislature. The resolutions which were adopted reaffirm the St. Louis platform, congratulate President McKinley on his reelection, favor fostering our merchant marine, the construction of the Nicaragua canal, the enlargement of the navy and the annexation of Hawaii, and the support of the administration and his war policy, approve of Congress's action in furnishing the sinews of war and for passing the second measure, congratulating Admiral Dewey, Lieut. Hobson and his crew, express sympathy for Ensign Bagley, send encouragement to the army and navy, and thank them support and their heroic and forced absence in Washington of Senators Foraker and Hanna. The resolutions conclude with these words: "We commend the action of the general assembly who have by their votes and their party loyalty every where essential to the triumph of our great principles. We commend the wise administration of the executive affairs of this state by the heads of the various departments, and in authority by the Republican party."

The following nominations were made by acclamation: Secretary of State, Chas. Kinney, supreme judge, John D. Weaver, clerk of supreme court, Josiah B. Allen, food and dairy commissioner, Joseph H. Blackburn, member of the board of public works, W. C. Johnson, auditor.

We promise a continuance of this work. We believe and confidently assert that the record of the Republican party in this state prescribes a course which is not only a guarantee of support of any measures not satisfactory to the combinations of capital which have been the chief development of its policy.

We demand the presence of state laws which shall keep the control of corporate action at all times in the hands of the people, and place a limit to permissible extortion by fixing a maximum charge for freight and passenger service, and compel recognition of the public rights by the holder of every franchise.

We demand a strict supervision of telegraph, telephone, express and other corporations using similar privileges, that their charges for service shall be held within reasonable limits and the rights of patrons vigorously protected.

We condemn the Republican party of Michigan for its machine methods, and its subservient to corporate wealth, by which in the last legislature it controlled the state senate, and through which it has done the wrong that the people want to equalize taxes or impose just burdens upon corporations shall be defeated: we appeal to the people of the state to select a representative legislature in both branches, and thus guarantee reforms on these important questions.

We favor a constitutional provision, by which the electors may initiate legislation, and all laws shall pass upon such laws as affect the rights of the citizen and of taxpayers.

We are especially pleased to congratulate the Democracy of Michigan that, while our party delegation in congress from this state is small in numbers, it is legion in ability and unwavering devotion to the people, and on this occasion it is eminently fitting that the unceasing zeal and aggressive efforts of Hon. Edmund Buckner and Hon. Albert M. Todd, in behalf of the struggling millions, be cordially commended.

## A NAVAL HERO'S STORY.

(From the Times-Herald, Chicago, Ill.)  
Late in 1861, when President Lincoln issued a call for volunteers, L. J. Clark, of Warren, Trumbull Co., Ohio, was among the first to respond. He joined the marine fleet of Admiral Porter just before the memorable operations on the Mississippi river began. It was at the terrific battle of Vicksburg that he was shot, and the hero of this story fell with a shattered arm from a charge of shell.

After painful months in the hospital he recovered sufficiently to be sent to his home at Warren, Ohio. Another call for troops fired his patriotic zeal and Clark soon enlisted in Company H, of the 7th Ohio Volunteers. In the army of the Potomac, he was in many engagements. Being wounded in a skirmish near Richmond, he was sent to the hospital and thence home.

A Wounded Hero.

G. A. R., and lives at 4395 Ashland Ave. Several years ago Dr. Clark's old wounds began to trouble him. He grew weak and emaciated, and his friends despaired of his life. He finally recovered sufficiently to be out, but was a mere shadow, weighing only 90 pounds. The best medical attendance failed to restore his lost strength and vigor. A friend gave him a box of Dr. Williams' Pink Pills for Pale People, and he took them. He regained his strength, now weighs 190 pounds, and except for injuries that can never be remedied, and as well as ever. "I consider Dr. Williams' Pink Pills for Pale People the best remedy to build up a run down system, and heartily recommend them to everyone in need of such aid."

Every singer in a quartet can point out three good reasons why the organization isn't absolutely perfect.

## IN OLDEN TIMES.

Many Things Were Different—Now-a-days this Public Front by Experience.

When the striped pole or sign which now indicates a barber shop was employed to let the public know where cupping or blood-letting was professionally performed, close shaves were of daily occurrence; not the easy removal of the hirsute or hairy adornment of the head and face, but close shaves from entering eternity. More than one unfortunate entered the barber-surgeon's doorway to leave it a corpse or so weak that weeks were required to get the victim of malpractice on his feet. Bloodletting was used for everything from heartache to a corn, and a pain in the loins was invariably treated with two incisions, one on each side of the spine. Like plasters and liniments, these helped from the counter-irritation they created, and we presume that had Mr. Calvin Wilson, proprietor of the leading shaving parlor of Niles, Mich., lived in the time of George III, of England, in place of taking the course he did, a short-time ago with his back blood-letting would have been resorted to. Read how he treated his trouble. Mr. Wilson says:

My occupation has very likely much to do with the cause of my trouble, from which I have suffered considerable for a number of years. Standing on one's feet some days 18 hours is hard on the back of a man, but when you have to stand on a ladder, and a ladder and a saw, every time you move the muscles of the arm, long before your daily task is over you often wish you could go to sleep. I tried everything to better my condition, but was unsuccessful until I used three boxes of Doan's Kidney Pills. The relief they brought me was such that I have not since had a day's trouble. It is now past the three score and ten is much easier to appreciate than to describe in words. Doan's Kidney Pills perform what they promise.

## INTO THE RIVER

WENT WOODMAN & CRAY'S BEEF TUESDAY.

And Two of the Men Nearly Went in With It.

Boat Woodman of Woodman & Cray and H. Clay Calkins, cutter for the same firm, had a lively experience Tuesday while bringing in a cutter along the Griswold road. When near the W. H. Yerkes place, the steer made a break for the river embankment and over into the river it went despite the pulling and tugging, yelling and sweating, of those two gentlemen at the other end of the rope. They avoided a wetting by finally letting go the rope. The animal was finally fished out, none the worse for its bath.

## CANNOT KILL CROWS.

The State Says Farmers Must Let Them Alone.

LANSING, Mich., June 25.—(Free Press).—It is discovered that farmers are prohibited from killing crows which devastate their corn fields, by an act of the legislature of 1897. Act No. 159 provides that certain birds, and all insectivorous birds, except blackbirds, blue jays, English sparrows and butcher birds, must not be killed in this state. In reply to an inquiry the attorney-general today held that the crow is an insectivorous bird, and as it is not excepted under the statute it is protected by law from the shotguns of the farmers.

## As Others See Us.

Editing this paper is a nice business. If we publish jokes, people say we are "rattle headed." If we don't we are an old fossil. If we publish original matter they say we don't give them selections enough. If we give them selections they say we are too lazy to write. If we remain in the office we ought to go out and hustle for "locals." If we go out then we are not attending to our business. If we don't go to church we are a heathen. If we do then we are a hypocrite. If we wear old clothes they laugh at us; if we wear good ones they say we have a "pull." Now what are we to do? Just as likely as not some one will say we stole this item from our exchanges, and so we did.

## Dog Owners Beware.

The following communication from a person whose name cannot be found in the directory, has recently been received by the Postmaster at Detroit:

Dear Sir, last Saturday one of our mail carriers on Robert Ave shot a small dog of my relation, I mean a very small dog. I know what you think of that one of your men shooting a dog in his own yard, don't you think that it is not right, I don't think it is right to have a man like that carrying mail he may shoot somebody else. Please try and have it stopped. He has told other women that he would shoot all the dogs around if he got a chance to and he says he will. I am going to make a complaint at Police Headquarters about him carrying concealed weapon. My sister says she is going to have him arrested for shooting her dog. Please try and have it stopped.

## A MILFORD BOY.

"Jim" Clark As Candidate for Register of Deeds.

Following from last week's Milford Times refers to the F. & P. M. railway company's traveling freight agent, a Milford boy well known in Novi and Northville.

"It will soon be time again for the nominations to be made for the county officers and in this connection we note that Milford is to have a candidate in the name of James E. Clark, who will ask the Republican nomination for register of deeds, Mr. Clark is too well known to the people of this side of the county to need any introduction. It is safe to say that no party can put up a man whose qualifications for the office are better, and on the other hand, it would be hard to find a man who would stand a better show of winning. Mr. Clark's acquaintance is wide and he is well-liked. His chances for the nomination, ought to be excellent, especially as there will probably be no other Republican candidate for county office from the western portion of the county."

Oakland County Teachers' Institute.

The Summer Institute for Oakland county will be held at the Pontiac High-school commencing Tuesday morning, July 5th, and continuing in session four weeks.

The Institute will be conducted by Albert P. Cook, formerly principal of Milford schools, now Supt. of Ithaca assisted by S. O. Wood of Holly and Commr. Snowdon.

A thorough review will be given in all branches required for second and third grade certificates. Arrangements will also be made to teach vocal music and drawing. Teachers may bring any text books that they may have on hand. An outline course of study has been prepared by State Supt. Hammond which will be furnished to every one attending the institute.

The institute will be of great educational value to all teachers and pupils desiring a thorough review in all common branches, including algebra, general history, botany, physics and geometry.

Tuition free. Institute open to any one desiring to attend.
