## MAY BUY A STONE-CRUSHER.

### COUNCIL WILL IF THE PEOPLE ARE WILLIN'.

#### Eight-Miles-An-Hour Bike Ordinance Introduced.

A good looking and pleasant-looking gentleman with a miniature stone crusher in his pocket was the attraction at Monday night's council meeting. If there's any one thing more than another that Northville people are interested in, it is good roads and stone crushers, and it is to be regretted that more people were not present to hear what Mr. Williams of the Austin & Western Co. of Chicago had to say. His company, he said, would furnish a machine on trial and if not in every way satisfactory, it could be returned at the company's expense. The cost complete would be about \$850 and could be paid for in from one to three year payments. The crusher is capable of crushing 10 yards of filling per hour. He claimed a road made from "hard heads" such as are so plentiful in and about Northville make the best kind of a road and when finished is just like a pavement and is permanent. He said it was used on the Detroit boulevards.

The council is evidently in favor of procuring a crusher, but will not take the responsibility of placing an order without some expression from the people. The using up of several hundred dollars for street work every year, much of it for graveling, the benefit from which is but temporary at best, is a continued drain upon the taxpayers. Those in position to know say a stone crusher will be one of the best investments the village ever indulged in. It will pay for itself in a few years, to say nothing about the vast and permanent improvement in roads. Taxpayers who are wise will not be slow to advocate a purchase along this line.

A bicycle ordinance regulating the speed of wheels to 8 miles per hour on Cady, Main and Dunlap or intersecting streets, or on Plymouth ave. from Gardner avenue to Main street, or upon any sidewalk in the village at any speed, was introduced. President Sessions and Ald. Bovee thought there was already an ordinance covering this matter and that while "securching" up and down the streets is dangerous and ought to be prohibited, it is also possible that 8 miles or a fine and imprisonment attachment might be drawing things a little closer. Other members of the council were in favor of the ordinance but it was finally referred to the Street Committee to give bike riders a chance to be heard if they have objections to offer, and to report at the next meeting.

## HAS LIVED HERE FOR 62 YEARS.

### EDWARD WHITAKER SETTLED IN NORTHVILLE IN 1836.

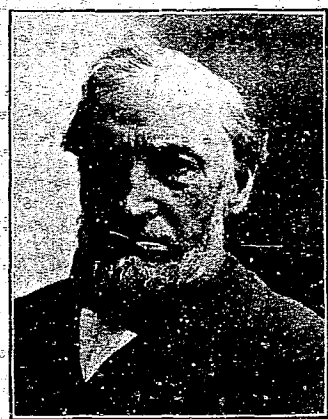

#### Celebrated His Seventy-Eighth Birthday Last Sunday.

During a pleasant chat recently enjoyed with Mr. Edward Whitaker at his pretty home on North Center street some very interesting facts were brought out concerning the early days of our thriving town, in regard to which no other resident of it can be more competent to furnish information, as the gentleman in question has the distinction of having lived in Northville longer than any other man in the place. Mr. Whitaker, who reached the 78th milestone of his life journey last Sunday, July 31, first came to this place in 1835. He lived one year in Novi, becoming a resident of this village June 1, 1836, and has never lived outside its limits in the whole 62 years which have since been counted off the calendar of life, although he has owned farms in several different localities during the time. He learned the trade of miller in the Argo mill, which was built in 1838. The Dunlap mill was already here, having been built in 1826. In addition to the miller's trade, he learned that of moulder in the furnace—now the Globe—which was built about the same time as the Argo mill, and was under the same management and ownership. He followed both these trades for about thirteen years, work-

ing at the first mentioned during the winters, and the other, summers.

Later he was associated for some years as a partner in the furnace business with a Mr. Furgurson, and Chas. Harrington, another of our pioneer business men. In 1859 he assumed the charge of the Dunlap mill, and in 1880 he bought the property of Hutton & Smith, finally retiring from active business life a few years ago, after over half a century of an honorable, successful business career which has won for him the highest respect of the widespread circle of acquaintances with whom circumstances have brought him in contact.

In the course of the conversation Mr. Whitaker remarked that he could give an accurate census of Northville up to the time when the population reached the 1,000 mark, as he remembers all the families and their location perfectly well. In addition to the industries already noted there was a carding mill at what is now the Ambler pond, where the wool required to supply clothing for the people of the surrounding country was made into "rolls" for spinning, the yarn being woven by the mothers and daughters into cloth or knitted into stockings or mittens. This mill was started by one Robinson and afterward owned by Evan Pennell. Machinery for "cloth dressing" was added after a time, with which the homespun fabrics could receive those finishing touches which

the housewife could not compass. The first dry goods store was Mead's, kept in a little log structure, which were it placed where it once stood would be in the middle of Main street opposite the Dunlap mill. It was afterward kept at the north-east corner of Main and Center streets. The other was Rowland's, occupying the site now filled by the Savings Bank. A blacksmith shop of which Daniel Johnson was the proprietor, was on the south-east corner, where Wheeler's store now is. The only church when Mr. Whitaker first came was the Presbyterian, a wooden building which is still in existence on Cady street, having been converted into a dwelling when no longer required for its original purpose. The pastor was Mr. Kniffin, who, however did not reside in Northville, but came over from North Farmington to hold services. The first Methodist—now the Catholic church, was in process of construction, its frame being up at the time, and the Baptist house of worship was built not long afterward. The old stone school house was then in its heyday of usefulness. It was used for all kinds of public "doings," except such as might be held at the Presbyterian church occasionally. Mr. Whitaker, who so courteously and entertainingly gave the Record the opportunity of presenting to its readers these interesting details of an early time in the history of our little city, is not in very good health bodily as he suffers greatly from rheumatism, but his mental vigor is unimpaired as evidenced by the readiness with which he recalls facts and dates, as well as his thorough grasp of the topics of the present. Like so many of the older residents of this part of the country, he is a native of New York, having been born in Oneida county, that state, and coming directly to Northville from there in 1835.

## ELECTRIC ROAD FRANCHISE.

### GRANTING OF ONE TO BE CON- SIDERED WEDNESDAY.

#### Both Townships and Village Board Meets that Day.

The granting of a 30 year franchise to the Wayne, Plymouth & Northville electric street car company will be considered by both the Northville township and village boards next week Wednesday. The township board will meet in the council room at 3:00 o'clock, and the village board at 7:30 o'clock. All people of the township and village interested in the matter are requested to be present. These boards are here for the purpose of doing the will of the people and at this meeting is a proper place for the people to express their views.

## Suburban News.

(BY T. F. H.)  
Oxford and Marlette are now on the street fair list for the coming fall. 700 Pontiacers attended the Methodist trolley excursion to Detroit last week.

The "Pontiac Rifles" is the name of a military company, 50 strong, organized at Pontiac last week.

The Ann Arbor Courier says that about one hundred new houses are being built in that city this summer.

Mrs. Campbell, an Ann Arbor woman who was married in February last, is already humping for a divorce.

The Clarkston Record has quit and another fool has moved on to tackle another limited field.—Fenton Independent.

The Ann Arbor Daughters of the Revolution have a nurse doing efficient work at Chickamauga, a Miss Cora Clark.

Ypsilanti has a base ball club called the "Ypsilanti Underwear nine." Is the name illustrative of the uniform they affect, or what?

The annual Oakland county supervisors' picnic has been dated for August 24, but the location, for holding the same has not yet been chosen.

Millford school patrons held a meeting last week and those on the south side voted unanimously to keep up the ward school in that part of the town.

Pete Doolittle, a Northville boy, had an idea he could do much toward satisfying Spain's honor and therefore enlisted with Uncle Sam.—Delray Times.

Farmington folks are feeling very proud of their Main street improvements. They look so nice and etified that they will probably soon begin calling it Grand River Avenue.

Two Wyandotte men were caught smuggling wool last week. They were arrested and bailed out to the tune of \$1,000 apiece. It is asserted that one of them is an old hand at the business.

It is reported that the war department is besieged with applications from parents, wives and friends for the discharge of enlisted men, all sorts of reasons being given and patiently investigated by the department.

Will Barley, of Northville, has enlisted in the 35th Infantry band. That ought to be a grain of comfort to every member of the regiment, unless he makes a wry face when he toots his cornet.—Adrian Press. If Barley had only enlisted as a private he might have become a colonel.—Delray Times.

When he is well headed for the Philippines his only ambition will be to harvest Spaniards—if there are any left to thrash.

A poor ignorant Polish woman at Sumpter, the mother of four little children, recently had a scrap with a neighbor whose ducks were destroying her garden and got the best of the fight. As a result she was arrested for assault and battery, and fined one dollar or 10 days in the Detroit House of Correction. As the family had not a dollar in the world, she was taken to the prison and there gave birth to a child. The trial was a jury one and cost Wayne county nearly \$30. Verily the laws of the land are fearfully and wonderfully made and the ways of "justice"

past finding out. We must agree with the Detroit Courier in its declaration that "this case takes the bun for all round double distilled concentrated miserable meanness."

Fred Wells and Winnie Levanseler, residents of Milford, have just completed a novel outing. They started from that place with a small canvas rowboat, guns and fishing material, destined to Lake Erie by the way of the Huron river, making passage by boat, hunting and fishing during the day and camping on the banks of the stream at night. Their trip covered about 350 miles and was made in twelve days.

One hot night last week a South Lyon man thought he would camp on a couch instead of occupying his usual lodging place. During the night there was a drop in the temperature—and also somewhere else. In the attempt to go to bed he lost his bearings, found the stair railing, mistook it for the bedstead and scrambled hastily over, but there were no springs when he landed on the hall below, and he hasn't had any in his gait since.

An Ecorse couple, Mr. and Mrs. Ferstle, who have been married three years and have two little children, had a row last week and resolved to die. The husband chose the revolver method but did not have grit enough, while the wife took arsenic which would have produced the desired result but for the interference of a doctor. They do not appear to have taken any consideration for the future of their helpless children. If they had been struck with the suicide mania about three years ago if would probably have been better for all concerned.

A party of gold seekers who left St. Johns for the Klondike last spring are returning minus an expensive outfit and nearly everything else. They report that 5,000 disappointed men are on their way back. When the aggregate loss of life and property incident to the Klondike epidemic reaches a calculable basis, perhaps another argument for the justification of the war with Spain will be furnished, as it was the only thing that could have stopped the mad rush to the place where fabulous riches were supposed to be lying around hankering to be picked up.

A gang of toughs from Detroit and Springwells came out to Wayne on the electric road one Saturday evening lately and felt so expansive when they went back that they took possession of the car, refused to pay their fare in spite of officers secured at Inkster and Dearborn, at which latter place the car was switched off. The mob attempted to push it along the main track where it was run into by the next car. When officers came on a special from Detroit the offenders tried to get away, but only a part succeeded. They are likely to pay rather dearly for their little pleasantries.

Now while it is a recognized fact that scribbling in a mild way is as irresistible for an editor as light-fingerism is to a kleptomaniac, when it reaches a point where a pencil pusher deems it his privilege to appropriate an entire article for his own use without giving due credit to the originator, it is high time to call a halt. We confess to feeling highly complimented in having produced something considered worth reproducing, but we're not modest. Like the school-girl with her first essay, and do not ask to have our name withheld. Our "devil" wrote that article, and for the sake of all that's great and good, give the devil his due.—Springwells Times. We heartily endorse every word of the above, which was only part of a scoring given the Wayne Review for swiping one of the Times' articles. In truth we appreciate it more fully from the fact that the same issue of the latter paper contained the following: "An Orion man has a horse with a mane 4 feet and 8 inches and a tail 7 1/2 feet long, according to the Pontiac Gazette. It's a very horsey tale, but may be true in the main points. And that from Orion, even after the Methodists have taken possession of the town. Who'd a thunk it."

The latter item was stolen verbatim et literatim, with the exception of the last sentence, from the "Suburban News" in a late Record, although the devil hadn't any thing to do with its first production. We were modest once, but have been "highly complimented" by so many such burglaries that we have come to regard them as a matter of course and seldom comment upon it when we see the laboriously wrought products of our fertile brain unblushingly appropriated by our esteemed contemporaries.

# CAUSE FOR ALARM.

How baldness begins.

How to prevent it.

Every person, male or female, shrinks from baldness. It adds to the appearance of age and is a serious discomfort. The cases are rare when the falling out of the hair may not be stopped, and a few and healthy growth of the hair promoted. The hair grows in the scalp like a plant in the soil. If a plant flourishes, it must have constant attention. It must be watered regularly and its food in the soil where it is rooted. It is so with the hair. Neglect is usually the beginning of baldness. Dandruff is allowed to thicken on the scalp. The hair begins to loosen. The scalp loses its vitality. The hair, having been nourished, begins to fade and to fall. The instant need in such a case is some practical preparation which, supplying the needed nourishment to the scalp, will feed the hair, give it strength, and so produce a strong and healthy growth. All this is done by Dr. Ayer's Hair Vigor, the most practical and valuable preparation for the hair that can be obtained. It tones up the scalp, does away with dandruff, stops the hair from falling, and restores the original color to gray or faded hair, and gives an abundant and glossy growth. Those who are threatened with approaching baldness will be interested in the following voluntary statement, made by Alderman S. J. Green, of Spencer, Iowa. He writes:

About four months ago, my hair commenced falling out so rapidly that I became alarmed, and being recommended Dr. Ayer's Hair Vigor by a druggist, I resolved to try this preparation. There has been now using it for three months, and am much gratified to find that my hair has ceased falling out and also that hair which had been turning gray for the past five years has been restored to its original color, dark brown. It gives me much pleasure to recommend this dressing.

S. J. GREEN, Alderman, Spencer, Iowa.

Those who are interested in preserving and beautifying the hair will do well to send for Dr. Ayer's Curebook. A story of cures told by the cured. This book of 100 pages is sent free on request, by the J. C. Ayer Co., Lowell, Mass.

## MARVELOUS RESULTS.

What a Well-Known Citizen of Lansing, Mich., Says of Drake's Dyspepsia Cure and Nerve Restorer.

"I have had dyspepsia for eighteen years. My troubles were indigestion, sour stomach, acid fermentation, palpitation of the heart, sleeplessness and terrible sick headache, which at times would entirely unfit me for business. I have had special treatment by seven physicians, and it seems as though I have tried nearly every known or supposed remedy, with some little relief, but would soon relapse to the old condition. I commenced using Drake's Dyspepsia Cure and Nerve Restorer a few weeks ago, have used two and one-half boxes which have done me more real good than all the treatment and so called remedies I have ever taken. I would advise any person afflicted with stomach troubles, dyspepsia or nerve troubles, to try this treatment."

Respectfully,  
 EDWARD N. WOOD,  
 March 22, '98.  
 Drake's Dyspepsia Cure and Nerve Restorer is not propped up by fictitious testimonials, but is demonstrating its curative power every day, in stubborn cases of acute, chronic and nervous dyspepsia. A trial will substantiate all that is claimed for it. For sale by Geo. C. Roestgen, leading druggist of Northville. A book on stomach and nerve troubles, their symptoms and cures, given free for the asking at the above store.

BIG ANNUAL SUMMER

1898.

# CLEARANCE SALE

of Dry Goods, Shoes, Carpets, Wall Paper, etc., occurs this year the seven days, from and including .....

## Sat. Aug. 6 to Aug. 13

The remarkable changes of fashion, so different each year, force an "up-to-date" store to close out each season's goods at the end of same. This year we are able to offer more than the usual inducements. After a very successful spring trade we have plenty of remnants, short lengths, light weight Wash Goods, etc. Cost or value have no consideration in this sale. It is a sure disposal of all summer goods. Such low prices are made as are sure to sell the goods in a 7 days' sale.

### Dress Goods

Are a very timely and important item. Our stock, by far the best assortment in the town, has a good many good things that will do for fall and winter wear—so 'tis well to buy ahead.

The sale price on Dress Goods is just

**1-4 Off.**

Every piece is marked in plain figures. You know as well as we do that the discount is genuine.

### Carpets.

An unusually good Carpet trade has left us with several small bolts, some are good size, some are remnants. We offer these Carpets, guaranteed all wool, at

**40c and 50c yd.**

A few pieces of Cotton Carpets very cheap. Brussels and Axminsters at reduced prices.

### Shoes.

A big purchase of Shoes this spring enables us to offer a full line of Ladies' Fine Shoes, lace or button, black, tan, oxblood or green, in nearly all sizes; pointed toes. Shoes that are worth \$2.50, \$3, \$3.50, can now be sold at

**\$1.50 pair**

These would sell rapidly at \$3 if the toes were not pointed, and some 'aint so very pointed either.

### Domestics

never were cheaper. Our stock is well assorted and up to date. We offer a big line (every piece in stock) of the best Prints made; such as Simpson's, American, Allen's, Pacific, etc., in black and white, greys, fancies, blues, cardinals. A complete line at one price of

**3-1-2c yd,**

This is for our customers only and not for other stores. Therefore we reserve the right to sell no full bolts.

**Bleached Cottons** are much in demand.

We offer all 8c and 7c Cottons at **5-1-2c yd**

This includes all the well-known brands.

**Unbleached Cottons** also very low in price.

The 7c kind at **5-1-2c yd** The 6c kind at **5c yd**

The 5c kind at **4c yd** The 4c kind **3-1-2c yd**

Reduced Prices on all Denims, Ticks, Shirting, Gingham, Ducks, White Goods, Linens, etc.

### Small Wares.

We have a large surplus of some lines. Even when they are staple we propose to sell them.

**Coats' Thread**, 200 yd spools; the original genuine, at ..... **3c spl**

**Spool Silk**. All best makes Spool Silk, 100 yds, black and colors, at ..... **5c spl**

**Hose Supporters**. All sizes, black and white Hose Supporters at ..... **10c pr**

**Binding**. Corduroy and Brush Binding. **5c yd**

**Dress Stays**, assorted colors ..... **5c set**

### Wash Goods.

Particularly some Washable Goods, such as Organdies, Lawns, DIMITIES, Batistes, Swiss Mulls, Madras, etc. The entire line, every piece, of goods which sold from 10c to 25c yd, all now put in one big pile; you take your choice. Price

**Now 5c yd.**

There are many choice Percales and Gingham in the lot. It is a big pile but will go fast.

### Wall Paper.

We have taken about 350 rolls of paper (there are 10 different styles). They are worth 10c, 12-1-2c, 15c, will bring that next spring; but we have goods now waiting for the space occupied by this paper. So to close out at once they go at the cheap price

**4c per Double Roll.**

What we lose on this lot we will make with the money by turning it several times before next April.

### Underwear.

Every garment at a reduced price; Muslin, Jersey and Balbriggan. The prices now are 1-5, 1-4 and 1-3 off the regular prices. All marked in plain figures.

A Special Drive on Men's Shirts and Drawers at **17c per garment.**

Many people have been waiting for this sale, the notice of which will appear in several newspapers, and by hand bills the day before the sale begins. In the rush and crowds many may not get waited on. We have extra clerks hired for the occasion and we will do all possible to please every one who favors us with a visit. Respectfully,

New Rotary Washer.

Messrs. Schram & Lockhart have  
secured the agency for the sale of the  
celebrated "Rotary" Washing Ma-  
chine for Wayne county. This  
machine is entirely different from all  
others, but combines the washing  
principal of all, and is an exact  
imitation of the work done with the  
hands on the wash-board. It has  
taken first premium at seven state  
fairs and more than forty county  
fairs and has had an unparalleled  
sale wherever introduced. The lead-  
ing newspapers of nine states indorse  
it and everyone, who has seen it tried  
pronounce it the best ever shown.  
A number of our citizens have tested  
it thoroughly and speak in highest  
praise. Try it yourselves and be  
satisfied. It is highly durable, easily  
operated and washes everything  
from lace to horse-blankets. See it  
and you will want no other. 50Ask your dealer for Plymouth Rock

pensibility of local newspapers to the  
success of local merchants is af-  
forded by the suspension of the  
Chicago newspapers. During the four  
days the papers were not published  
the volume of the business of Chicago's  
advertising merchants fell off one-  
half as a direct result of their having  
no medium of communication with  
the buying public.The Record believes that some  
means should be devised to put an  
end to the dangerous practice of  
bicycle scorching on the main streets  
of the village at least, but it seems  
as if this could be done in some other  
way than haul careful riders down to  
an 8-hour limit. We do not recall  
a single instance where a person has  
been injured in Northville as the  
result of fast cycling, except a bicycle  
rider himself, and even those cases  
have been remarkably few. A seven-  
and-one-half-minute gait is rather  
slow riding for the average person.Northville people who have visited  
friends in the 35th regiment at Island  
Lake are not slow to assert that the  
boys are not only poorly fed but at  
the same time it is served in very  
meager quantities. If there was any  
necessity for it, there would be  
no occasion for complaint. Bread  
minus any butter and two pota-  
toes, for dinner, and "sow-belly" and  
onions for breakfast, may be a good  
thing for the commissary department  
but enlisted men who are part of the  
great state of Michigan, with its  
great wealth and resources, think  
they are entitled to at least plain  
food in sufficient quantities to appease  
their hunger. An instance was sighted  
where one of the boys was too  
weak to march in Sunday's drill  
until he was given food which the  
visitors had brought with them.  
It might be well for the powers that  
be to take a meal or two with the  
privates at Island Lake.

## THE FESTIVE CARPET BUG.

Gasoline Said to Be a Good-Combater  
for Them.The busy carpet bug appears to be  
improving each shiny hour in North-  
ville and as near as can be learned  
also in nearly every other town in  
this latitude. Nearly every house in  
the village is infected, though many  
residents are not yet aware of it  
simply because they have not exam-  
ined their carpets.In answer to an enquiry from the  
Record, Park Davis & Co., the well  
known Detroit chemists, say: "We  
know of nothing better to combat  
the buffalo or carpet bug than gaso-  
line applied in the usual manner."In some cases, whole carpets have  
been destroyed before there was an  
apparent infection. We have learned  
of some families who are now taking  
up carpets and other bug edibles and  
moving them into the barn until  
after the bug season is over, which  
is supposed to be September 1.

## "RUSHED THE GROWLER."

Church Sheds Used for Headquarters  
Last Week.With headquarters in the Metho-  
dist church sheds Thos. Garfield,  
Elsie Montgomery and one or two  
others were "rushing the growler"  
Friday afternoon and evening in  
regular Detroit city style. Marshal  
Macomber got wind of the affair  
and gathered in the two mentioned,  
leaving Elsie in the charge of Bert Tait  
while he led "Tom" to the calaboose.  
Elsie didn't prove a "stayer" for  
some reason and by the time the  
marshal had returned he was resid-  
ing over in Oakland county. Before  
Justice Lowden the next morning  
Garfield pleaded not guilty to being  
drunk and disorderly but the evi-  
dence tended the other way and the  
justice imposed a fine of \$5 or 30 days.  
The fine was paid at the last moment.

## IN OUR GREAT STATE.

### THE HAPPENINGS IN MICHIGAN BRIEFLY RELATED.

A Large Number of Michigan Soldiers Brought to Northern Hospitals—35th Michigan Regiment Mustered—Republican State Convention.

#### Many Sick and Wounded Michigan Boys

More Michigan wounded and sick soldiers are arriving from Santiago. The transport Concho reached Hampton Roads with the following who were afterward taken to New York: Capt. J. Q. Anderson, Saginaw, E. S., Co. B, 33d Michigan regiment; Lieut. W. M. Case, Co. G, 33d Michigan; Lieut. Jas. H. Found, Benton Harbor, Co. I, 33d Michigan; Co. M, Sergt. Chas. S. Morris, Muskegon, Co. L, 33d Michigan; also, the following privates of the 33d Michigan: W. B. Foster, Flint, Co. A, Fred Wright, Flint, Co. A, John Curcio, Marine City, Co. F, Julius W. Hutchins, Duffield, Co. C, Chas. E. Petrie, Twin Lake, Co. L, John Karpus, Bay City, Co. C, Wm. E. Lorange, Williamston, Co. A, Ed Turner, Davis, Co. E, M. A. Smith, Holland, Co. L, Stephen Smith, Port Huron, Co. E, Ed G. Evans, Flint, Co. A, Fred Hand, Benton Harbor, Co. L, A. G. Murphy, Benton Harbor, Co. L, James Hudson, Cheboygan, Co. H, G. R. Hill, Port Huron, Co. F, Daniel Dewey, Saginaw, E. S., Co. E, T. Finley, Saginaw, Co. B, D. McGowan, hospital corps. Of the 34th Michigan regiment the following were on board: Lieut. J. A. Leisen, Marquette, Co. L, Sergt. Glen N. Angerine, Owasco, Co. G, Wm. A. Anderson, Houghton, Co. F, E. M. Emmett, Allegan, Co. H, Herman Yahnke, Ionia, Co. I.

During the trip from Santiago, five deaths occurred on the Concho, among them was Fred Denner, Alpena, Co. B, 33d Michigan, who died of blood poisoning resulting from vaccination after recovering from malarial fever. His body was buried at sea. The Concho was crowded with sick soldiers, but was sadly deficient of physicians, nurses, medical supplies, suitable food and fresh water. As a consequence, the sufferings of the poor fellows were very severe. Only two of those on board were badly wounded, the others suffering chiefly from malarial fever.

#### The Following Michigan Soldiers

reached New York on the Leona: Carl Muller, Co. B, 33d Michigan; Sidney L. Lake, Co. L, 33d Michigan; Fred Fowler, Co. L, 33d Michigan; Frank Jeffrey, Co. K, 34th Michigan; J. McMillen, Co. F, 33d Michigan.

#### League of American Municipalities

Many important conventions have been held in Detroit, but it is doubtful if there was ever one of greater importance than that which assembled under the title of the League of American Municipalities. The delegates were full of enthusiastic interest in anything brought forward for the betterment of life and government of cities. Mayor Maybury gave these busy men a warm welcome to the City of the Straits and Gov. Pingree, who was strongly identified with the organization of the League, welcomed them in behalf of both city and state. At the sessions of the convention proper a large number of papers on municipal reforms of various kinds were read and discussed with much force. On the side there were entertainments of various kinds provided by the city authorities of Detroit and by business men. This included an exhibition by Detroit's splendid fire department and fire boat, visits to the city's water works and lighting plants; a grand band concert on Belle Isle, the island being illuminated with many thousand lights; boat rides on the river, and trolley rides about the city.

#### \$250,000 Conflagration at Escanaba

One of the worst conflagrations ever known at Escanaba broke out in Patrick Fogarty's hay barn, located in the center of the city. It soon spread to the store and residence and Mr. Fogarty barely escaped with his life. The whole block, consisting of Western Express Co.'s office, Bert Ellsworth's drug store, J. Kraus's double clothing store, Melvin Young's tea store, Wm. Eider's cigar store and factory, Hanum's and D. A. Oliver's furniture store, and building. It then leaped across the street and completely ruined Mrs. L. D. McKenna's double store. Every glass in the Masonic hall was broken with the intense heat; St. Joseph's Catholic church, worth \$36,000, caught fire two or three times and it looked for a while as if the whole western part of the city would be ruined. The loss is estimated at about \$250,000.

#### Republican State Convention

The meeting of the Michigan Republican state central committee at Detroit was brief and uneventful, the principal discussion being on the question of an early or late convention to nominate candidates for governor and other state offices. The "late" men won out and Sept. 21 was chosen as the date. Detroit had no opponent and was selected as the convention city without a struggle. Grant Fellows, of Hudson, was honored by being named for temporary chairman.

Mrs. Julia Jenour was fatally burned by a gasolene stove explosion at New Baltimore.

Co. F, 33d Michigan, has started the first American paper published on Cuban soil. It is called the "Co. F. Enterprise."

## POUNCED ON PORT OF PONCE.

### Dixie Boys from Maryland Take It—Battles Forces Advancing.

Port of Ponce, Porto Rico, via the Island of St. Thomas, Danish West Indies. The port of Ponce surrendered to Commander C. H. Davis, of the auxiliary gunboat Dixie. There was no resistance and the Americans were welcomed with enthusiasm. Maj. Gen. Miles arrived with Gen. Ernst's brigade and Gen. Wilson's division on board transports. (This is the expedition which sailed from Charleston, S. C.) Gen. Ernst's brigade immediately started for the town of Ponce, three miles inland from the port, and which capitulated. The Dixie was largely manned by the Maryland naval reserves. The American troops are pushing towards the mountains and will join Gen. Henry with his brigade at Yauco, which has been captured by our troops. A fight before the latter place was won by the American volunteers. The Spaniards ambushed eight companies of the Sixth Massachusetts and Sixth Illinois regiments, but the enemy was repulsed and driven back a mile to a ridge, where the Spanish cavalry charged and was routed by our infantry. Gen. Garretson led the fight with the men from Illinois and Massachusetts, and the enemy retreated to Yauco leaving four dead on the field, and several wounded. None of our men were killed and only four slightly wounded.

The Porto Ricans are glad the American troops have landed and say they are all Americans and will join our army. The roads are good for military purposes. Our troops are healthy and Gen. Miles says the campaign will be short and vigorous.

#### Shafter's Men to Be Brought North

Secretary Alger is deeply concerned over the welfare of the gallant troops under Gen. Shafter's command now camped on the outskirts of Santiago. The health reports show a surprisingly large number of cases of sickness, but army surgeons say that these figures are misleading in a certain sense, and that the situation may not be nearly so bad as they would seem to indicate. The inference is that many of these cases in Gen. Shafter's camp are of a trivial nature, but go to swell the grand total of sick and wounded. Notwithstanding this mitigating fact, Secretary Alger is going to remove the soldiers at the very earliest opportunity to a more healthful clime.

The surgeon-general, under direction of Secretary Alger, has secured a tract of land adjoining Montank Point, L. I., three miles square, containing an abundance of fresh water, a considerable lake, a hill 150 feet high, and many other sanitary advantages, including salt water bathing. The necessary orders to equip this as a camp ground have been made and every advantage will be taken of the experience gained in the formation of the great camps at Chikamauga and Camp Alger to make the conditions as comfortable as possible for the battle-scarred men of Shafter's army, who will leave Santiago as soon as conditions there and at the new camp will permit. Meanwhile, details are being made of troops to supply the force that shall garrison Santiago so long as it shall be found necessary to continue troops there. This force will be made up almost altogether of immunes.

#### Uncle Sam is Honest

Washington: All of the talk about the bad faith shown by our government in pressing the Porto Rican campaign during the last few days is absolutely without foundation. In addition to the representatives of the United States, the persons qualified to speak for the government of Spain in this country make an exactly similar statement, and the alleged charges of bad faith against the United States, attributed to Premier Sagasta, are discredited as inventions designed to prejudice the successful progress of the present peace movement. Military authorities regard Premier Sagasta's alleged statement that peace overtures operate to stay the course of military operations, as little short of amazing, and as directly contrary to only to the military law of the United States, but to the whole recognized principles of international law.

In general, the international law writers agree that military operations stop only when a truce or an armistice is actually concluded, and that this truce or armistice must be in writing. Until then the mere preliminary overture toward a suspension of hostilities is not regarded as any warrant for stopping the war. Military authorities, as well as the specific regulations of the United States, hold that there is no suspension of hostilities prior to the agreement to suspend military operations. Even then, the agreement is binding on military commanders only from the time they receive actual notice of it. In the meantime military commanders have the right to push forward and hold such territory as they occupy.

The large barn of G. S. White, near Holly, was destroyed by lightning. Loss, \$4,000; insured.

Mr. Bartley, aged 82, living with his nephew six miles south of Albion, was accidentally shot by his grand-nephew, aged 10. His head was blown almost off.

Over 3,000 people of Saline and surrounding country were present at the cornerstone laying of the First Presbyterian church at Saline. The ceremony was conducted by the grand lodge, F. & A. M., of the state of Michigan.

The Yosemite has been ordered to join Commodore Watson's squadron at the earliest possible date. The Michigan Naval Reserves have been scraping the barnacles and sea-growth from the bottom of the Yosemite and giving it a coat of foul proof paint. The engines, machinery and guns were also overhauled.

## PEACE IS AT HAND.

### TERMS SENT TO SPAIN BY THE UNITED STATES.

Porto Rico to be Ceded to the U. S.—Cuba to be Free—Uncle Sam to Take Manila and Surrounding Territory—Future of Philippines to be Settled Later.

The conference of President McKinley and his cabinet to prepare a response to the Spanish overture for peace made through M. Cambon, the French ambassador, showed considerable difference of opinion as to the position the United States should take regarding the Philippine Islands. On the other issues unanimity developed. There was to be independence demanded for Cuba; Porto Rico was to be ceded to the United States; coaling stations were to be acquired at Guam, in the Ladrone Islands, and one in the Caroline Islands.

As to the Philippines, the cabinet finally agreed upon the following: That Manila bay, with the city and surrounding territory, should be retained in the possession of the United States as an American port and coaling station. If Spain is to be allowed to retain the Philippines, which the United States has not occupied, it must be under an agreement that neither the islands, as a whole, nor any part of them, shall be ceded by Spain to any other power but the United States, except with the consent of this country. The trade of the Philippines must be freed from restrictions of the Spanish colonial system. The policy of "open door" must be established for American products. The port and coaling station which the United States takes, must be protected from any trade restrictions. It must continue to be, as it has been, the central post of this island system. Spain's colonial administration must be improved and the United States must be able to make its reform effective and permanent. No part of the region which has risen against Spain on our approach, and no man concerned in the rising shall suffer after the close of the war. The United States must be left in a position to prevent the terrible cruelty which has disgraced the Spanish administration in the past. Once established at Manila, the United States cannot permit unchecked atrocities of the past in the islands about.

Incident to the cession of Porto Rico and the recognition of Cuban independence by Spain was the decision that every residue of Spanish government and authority in the Caribbean and West Indian waters must be removed, effecting a material acquisition of numerous islands, over which the Spanish flag flies, one of the most important of which is the Isle of Pines. Furthermore, this sweeping change of authority from Spain to the United States in our nearby waters, is to be effective also as a quit claim of all indebtedness assumed by the Spanish government and charged by her to those islands, so far as the United States is concerned and all commercial treaties now existing between the Spanish government and her possessions there and outside powers are extinguished.

When the cabinet had reached its conclusions the French ambassador was summoned to the White House to receive the reply of the U. S. government to Spain's overture. It was expected that this ceremony would occupy only a few moments. The ambassador came on time, accompanied by his secretary, M. Thiebaud, and was met by the President and Secretary of State. Day, but as the minutes ran along into hours without the reappearance of M. Cambon, it was immediately surmised that something had happened to interrupt the official plans for this meeting. It was after a stay of over two hours that the French ambassador terminated his visit. While it continued Secretary Long and Admiral Seward, of the naval board, and Assistant Secy. of the state department, were called into consultation.

Events of the most momentous character occurred at the conference carrying the peace negotiations far beyond the mere submission of terms of peace by the United States, and reaching the point of a preliminary basis of peace between the government of Spain and the government of the United States, needing only the ratification of the Madrid cabinet in what was done to bring the war to an end. This was accomplished on the part of Spain when Ambassador Cambon presented to the President credentials he had received from the Spanish government appointing him envoy extraordinary and plenipotentiary, with complete instructions as to the manner of acting upon every one of the peace conditions presented by the United States.

It is now for the Madrid government to give final approval to what was partially accomplished, for there is no need of extended conferences or correspondence. All that was accomplished when M. Cambon acted as plenipotentiary. From the fact that he acted under instructions the prospect would seem to be hopeful for Spain's ratifying what has been done. But it is for Spain herself to determine the issue of peace or war as now presented to her.

Maj. O. H. Barber, surgeon of the 35th Michigan, was presented with a magnificent clock black charger and complete accoutrements by Saginaw friends.

Brig. Gen. Duffield and Maj. Victor C. Vaughan, surgeon of the 33d Michigan, arrived at Tampa while convalescing from yellow fever and are detained in quarantine.

After less than a week's illness from fever Guy Tuttle, Co. G, 31st Michigan, died in camp at Chickamauga. He was 23 years of age and the only son of a well-known farmer near Ypsilanti.

## TAKING ALL BEFORE THEM.

### Gen. Miles' Forces Meet Little Resistance—News From Porto Rico.

Following the landing of the first American troops at Guanica and the surrender of the port of Ponce to the auxiliary cruiser Dixie, Gen. Henry's division of the forces under Gen. Miles moved from Guanica to Ponce, taking en route the cities of Yauco, Tallaboa, Sabana Grande and Penuelas. Attempts by the Spaniards to blow up bridges and otherwise destroy the railroad between Yauco and Ponce failed, only a few flat cars being burned. Our troops fired up the locomotives and are now operating the road from end to end, carrying men, supplies and messages. At Yauco the Americans were received by the alcalde who issued a proclamation welcoming them and dated it "Yauco, Porto Rico, United States of America." Maj. Webb Hayes, Sixth Ohio, son of former President Hayes, hauled up the flag on the palace amid cheers from the populace. The people seemed almost overjoyed that the Americans had arrived, but feared an uprising of natives in the interior, who would murder and pillage in revenge for the many years of Spanish misrule. To prevent this a guard will be left to protect the captured cities.

Gen. Miles reports from Ponce: "Volunteers are surrendering themselves with arms and ammunition. Four-fifths of the people are overjoyed at the arrival of the army. Two thousand men from one place have volunteered to serve with us. They are bringing in transportation, beef cattle and other needed supplies. The custom house has already yielded \$14,000. As to the government and military occupation I have given instructions based upon those issued by the President in the case of the Philippine Islands and similar to those issued at Santiago."

Gen. Wilson was appointed military governor of the city and province of Ponce pending Gen. Brooke's arrival. Col. Bulfinch, with 10 companies of the Sixteenth Pennsylvania, has occupied Juan Diaz, about eight miles northeast of Ponce, on the road to San Juan. The American flag was raised and greeted with great enthusiasm by the populace. The American troops have also reached Comao, about 16 miles northeast of Ponce, on the road to San Juan. Thus far they have met with no resistance. The first real resistance is expected when our troops reach Aibonito, 35 miles northeast of Ponce. Aibonito has a thousand feet elevation. The military road to San Juan is broad and well beaten and will offer no such difficulties to the passage of artillery and supply trains as did the soggy and almost unbroken trails of Cuba to the advance of Gen. Shafter.

Gen. Miles is in "constant communication with all his forces, and is keeping the artillery steadily in advance. The entire army is encamped along the military road to San Juan, but he does not say when he will put them in motion. He is acting throughout, however, with a promptness which indicates quick action all along the line as soon as the transports containing the remaining troops arrive. Outside of the typhoid fever on the island, the health of the general health of the army remains good. The army has been no trace of disease.

Gen. Miles' forces met little resistance. The Spaniards were taken by surprise. The broad campaign which he between the Spaniards and the Americans, with cattle at reasonable prices and of excellent quality, and the Spaniards continue to come in and give themselves up. The Spaniards have declined to give the Americans any further aid. The Spaniards have along insisted that the native Porto Ricans were eager for a change from Spanish to American rule and that the only danger in this was the Spaniards.

Spanish regulars under the direct command of the captain-general, Mr. Hanna, are being sent to adjust local conditions at Ponce to the new state of affairs. The Spaniards are in all the important centers of the occupied territory, and he has frequent interviews with merchants and bankers on the question of the money problem, an awkward question that is giving the American and local financiers much trouble. The merchants proposed to Mr. Hanna to agree to pay a premium of 100 m. U. S. gold provided import duties on goods from the United States are removed. They also offered to buy everything from the United States.

The U. S. geological survey report on the coal production of the United States for the calendar year of 1897 shows the total product for the year to have been 200,221,663 short tons, with an aggregate valuation at the mines of \$198,569,178—exceeding in value the output of 1896 by \$2,000,000. The output of Michigan mines was 233,592 short tons, valued at \$228,416, an average of \$146 per ton. The output in Michigan in 1896 was 232,227 tons, of an aggregate value of \$228,416, or \$146 per ton.

Col. John Jacob Astor, arrived at Washington with reports from Gen. Shafter giving details of the surrender of Santiago. Col. Astor has been transferred to Gen. Miles' staff and after spending a few days in New York is en route to Porto Rico.

Corporal Ed Stevens and Private Will Morton have returned to their homes at Benton Harbor while recovering from wounds received in Cuba. They say the Cubans are only half civilized and are natural-born thieves.

Wm. J. Dolan, Co. D, 34th Michigan volunteers, formerly a Calumet mail carrier, is dead at Santiago.

## AGUINALDO IS UGLY.

### JEALOUS OF THE AMERICANS AT MANILA.

Gen. Merritt Arrives and Takes Command of the Troops and With Admiral Dewey Prepares to Move Upon Manila—Trouble Expected With Insurgents.

Manila, via Hong Kong: Maj. Gen. Wesley Merritt and the transports and troops under his command have arrived at Manila and Gen. Merritt assumed command of the American forces immediately after he had reported to Admiral Dewey. He has established headquarters at the Cavite arsenal. The cruiser Newport was escorted to an anchorage near the cruiser Charleston by the gunboat Concord, the crews of the vessels of the American fleet giving her a rousing welcome. Until he shall have received the report of the soldiers who preceded him, and familiarized himself with the situation, Gen. Merritt cannot determine as to his future course. The fleet saw nothing of the monitor Monterey and the collier Brutus, and it is supposed that the monitor is coaling at Guam island. The troops encamped at Parang have not yet made a move, the condition of the country between the camp and the outskirts of Manila being such, on account of the heavy rains that have fallen, as to make it impossible to advance. The insurgents are still active, but are accomplishing nothing.

Washington: Gen. Merritt has called the war department relative to the situation in Manila, which he finds very unsatisfactory and dangerous, owing to the insurgents. Their attitude there is similar to that assumed by Garcia's Cubans, although in this case the insurgents are not only more numerous, but better armed and filled with the arrogance following their numerous victories over their Spanish foes. Gen. Merritt, however, indicates that he will do his utmost to protect the citizens from the savagery of the insurgents, though while fighting the Spaniards he must be ready at any moment to repel the insurgents. The general gave notice that he was about to combine with Admiral Dewey in a joint demand for the surrender of the city to the United States forces, thus forestalling the insurgents, and this move may cause a rupture. Up to the date of the report Gen. Merritt had with him about 12,000 soldiers. So far seven expeditions have left San Francisco carrying soldiers to the Philippine islands, and it is the intention to furnish Gen. Merritt 8,000 men more than his present force. If he delays his attack until all these have reached him, Manila will not be taken before September.

A dispatch received from Admiral Dewey announces that Aguinaldo has assumed a bold attitude of defiance and that it would take a large force from this country to subdue the insurgents. Gen. Merritt is completing his preparations to move upon Manila. He has no date as yet been fixed for the move. Admiral Dewey says the health of the men has been good.

The London Times comments on Gen. Merritt's arrival at Manila. It is becoming more and more apparent that there are serious complications ahead. The Americans never made a greater mistake than in bringing the insurgents to Cavite and arming them. Aguinaldo has become jealous of the Americans. He has been completely by some force.

Americans are in camp. The Spaniards are at Cavite. Aguinaldo has objected to the advance of the Americans on ground captured by the Spaniards, forgetting that his landing was effected by the grace of the Americans. It is becoming apparent that the sole incentives of the insurgents are revenge and plunder.

Aguinaldo is respectful toward Admiral Dewey, Gen. Merritt and U. S. Consul Williamson, but he has been harsh from giving energetic help to the U. S. forces, until he knows exactly what the American policy will take. He is disturbed by reports that the United States will abandon the islands to Spain. Gen. Merritt is feeding Spanish prisoners held by the insurgents without committing himself and is otherwise acting independent of the insurgent leader, and a clash between them is not improbable.

#### THE WAR SITUATION.

Col. "Teddy" Roosevelt, of the Rough Riders, is being bowed for governor of New York.

The U. S. government has purchased an immense floating drydock capable of lifting vessels of 2,200 tons displacement. It will be towed in New York.

The navy department has appointed John P. Gridley, son of the late Capt. Gridley, of the Olympia, an acting naval cadet, and assigned him to Capt. Sigbee's vessel, the St. Paul. Young Gridley is only 12 years old. He was educated at Millisale, Mich.

Santiago merchants objected to receiving the U. S. silver dollar for more than 20 cents, consequently the efforts of money-pasters who have just gone to Santiago have been supplied with gold and paper. Cereals measures will probably be adopted to cause American silver money to be accepted at its full value.

## GREAT BISMARCK IS DEAD.

### Foremost German Statesman of the Century Passes Away.

Prince Bismarck passed away peacefully, but rather unexpectedly, at his home at Friedrichsruhe. While the great warrior-statesman had been in ill health for some time it was less than two days before the end that Dr. Schweninger, the ex-chancellor's physician, expressed the belief that the prince might live a number of years. However, complications suddenly appeared and the entire family was assembled and Dr. Schweninger, who had gone to Berlin, was hastily summoned. The family, gathered in an adjoining room, was plunged into the very anguish of grief by the news of the death of the prince. The despair was intensified by Dr. Schweninger's absence, although medical art was unavailing. The only consolation was that the prince was unconscious during the last two hours. Dr. Schweninger was in time only to afford some relief in the final moments.

The last words Prince Bismarck uttered were addressed to his daughter, Countess von Rantzau, who wiped the perspiration from his forehead. They were: "Thanks, my child." The whole family was assembled at the bedside at the time of his death, and Dr. Schweninger, Dr. Chrysander and Baron and Baroness Merck were also present.

Dr. Schweninger telegraphed the news to Emperor William in Norway, and Count Herbert Bismarck refused to allow anybody to visit the death chamber until Emperor William had seen the dead statesman.

#### SPAIN ACCEPTS OUR TERMS.

The End of the War is Now in Sight—Hostilities to Cease Soon.

Washington: Unofficially the President was informed that the Spanish ministry had accepted the terms of the United States for a cessation of the war. While this government has strong reasons for believing that its terms of peace have been agreed to by the Madrid government, the President is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations were in progress. In event of Spain's acceptance of the terms proposed by this country, the first step will probably be toward an agreement to close active hostilities, pending the drafting of a treaty of peace along the lines of the accepted terms.

By falling against a saw in a mill at Waters Frank Kellogg cut an artery in his leg. He was taken to his home at Oscego Lake, three miles, but before a physician could arrive he died.

S. S. Harrington, of Monroe, of Co. M, 21st Michigan regiment, Camp Thomas, has received the appointment of lieutenant. He was lieutenant under

himself in the Spanish-American war, and was wounded at the battle of San Juan.

Gen. Miles' forces met little resistance. The Spaniards were taken by surprise. The broad campaign which he between the Spaniards and the Americans, with cattle at reasonable prices and of excellent quality, and the Spaniards continue to come in and give themselves up.

The London Times comments on Gen. Merritt's arrival at Manila. It is becoming more and more apparent that there are serious complications ahead. The Americans never made a greater mistake than in bringing the insurgents to Cavite and arming them.

Aguinaldo has become jealous of the Americans. He has been completely by some force.

Americans are in camp. The Spaniards are at Cavite. Aguinaldo has objected to the advance of the Americans on ground captured by the Spaniards, forgetting that his landing was effected by the grace of the Americans.

It is becoming apparent that the sole incentives of the insurgents are revenge and plunder.

Aguinaldo is respectful toward Admiral Dewey, Gen. Merritt and U. S. Consul Williamson, but he has been harsh from giving energetic help to the U. S. forces, until he knows exactly what the American policy will take.

He is disturbed by reports that the United States will abandon the islands to Spain. Gen. Merritt is feeding Spanish prisoners held by the insurgents without committing himself and is otherwise acting independent of the insurgent leader, and a clash between them is not improbable.

Direct cable communication has been opened between Washington and Gen. Miles headquarters at Ponce.

Regimental stations are disappearing from Camp Thomas through the persistent work of wires and mothers. Miss Jessie Schley, daughter of Charles Schley, of Milwaukee, a cousin of Commodore Schley, who recently went to Madrid from Paris on a peace mission, without the approval of her father, has been requested to leave Spain forthwith. Neither the queen nor any responsible person would receive her.

### The Surprise of All.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and seeing lots of it, he took a bottle home, and to the surprise of all she began to get better from that dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at George C. Hueston's Drug Store.

### Ten Million Wheelmen.

It is stated by competent authority that there are ten million people in America who are bicycle riders. Probably each one gets an average of one hurt in a season, and that is just when Henry & Johnson's Arnica & Oil Liniment gets in its good work. Nothing has ever been made that will cure a bruise, cut or sprain so quickly. Also removes pimples, sun-burn, tan, or freckles. Clean and nice to use. Take it with you. Costs 25 cents per bottle. Three times as much in a 50 cent bottle. We sell it and guarantee it to give satisfaction or money refunded. Geo. C. Hueston, Murdoch Bros. 4yl

### FROM CORPORAL SLATER.

## Interesting Letter from a Former Northville Boy.

Chickamauga, July 25, 1898.  
Through the kindness of Frank Boyce, I had a chance to look at a copy of the Record, in which was a list of the Northville boys who have enlisted in the various regiments from Michigan. Being an ex-correspondent of the Record and a member of the famous "Brown's Colts" ball team, I think I can claim Northville as home.

The 31st regiment, like all others, expects to move to Porto Rico very soon, but our chances seem to be very good, as we belong to the First Army Corps, which is expected to go. If anything happens that we are left behind, every man will be very much disappointed, as we have been doing some very hard work to prepare ourselves for just such an occasion. Forced marches are of a common occurrence and in heavy marching order, consisting of one woolen blanket, one rubber poucha, one-half of a shelter tent, towels, canteen and a haversack filled with rations, dishes and whatever else we may desire to carry. Of course our rifles are our constant companions and require more watching and work than a whole family of babies, as a spot of rust may mean a fine or the guard house for the owner.

If the Spaniards ever had the idea that there was to be a split between the north and south, such an idea would quickly vanish, could they know the great fellowship displayed between the 1st Georgia regiment and the 31st Michigan. About the greatest distinction is the short quick Yankee speech of the northerners and the slow drawl of the southerners.

We have very little sickness in the regiment, especially since an order was issued to the effect that all those who were unfit for duty would be left behind in case we went to the front. It is surprising how the sick call number commenced to decrease.

Co. L, the company to which I belong, has for its bugler Clyde M. Webster, a nephew of B. G. Webster of Northville. He is my tent-mate, and when he blows reveille at 4:30 a. m. he receives the curses of the enlisted men, who at that call must get up immediately, as a nap of three minutes might cost fifty cents or even more.

Of course you know that I was always affected with modesty, and it is for that reason that I wait until the end to tell you that last week I received a promotion, being appointed a corporal.

Just put me on the list of enlisted men from the "Switzerland of Wayne county" and when you meet some of my old friends, tell them to "Remember the Maine" also.

# Does Baby Thrive?

If your baby is delicate and sickly and its food does not nourish it, put fifteen or twenty drops of Scott's Emulsion in its bottle three or four times a day and you will see a marked change.

We have had abundant proof that they will thrive on this emulsion when other food fails to nourish them.

It is the same with larger children that are delicate. Scott's Emulsion seems to be the element lacking in their food. Do not fail to try it if your children do not thrive. It is as useful for them in summer as in winter.

Ask your doctor if this is not true.
