

THE NORTHVILLE RECORD.

Vol. XXXI. No. 2.

NORTHVILLE, MICH., FRIDAY, AUGUST 25, 1899.

\$1.00 Per year in Advance

THE BONDS ARE SOLD.

A Cleveland Firm Bid a Premium of \$4,510.

THEY WERE IN EXCEPTIONALLY GOOD DEMAND.

The Bid Practically Amounts to Four Per Cent.

The village electric lighting bond bids were opened Tuesday night and the dozen or more bids received ranged from \$27,500 to \$32,010. The latter bid was that of Dennison, Prior & Co. of Cleveland and it was accepted. The premium really makes the rate of interest about four per cent for the \$27,500 bonds which run for 30 years. Dennison & Co. are also to the expense of printing the bonds which is as good as \$50 more saved.

The electric lighting committee is now preparing plans and specifications for the new plant and will shortly advertise for bids for the same.

LOOK OUT FOR THE DOG WARDEN.

MARSHAL MACOMBER HAS BEEN APPOINTED TO THAT OFFICE.

Every Unlicensed Canine in the Town Will Be Killed.

At a meeting of the town board last week Marshal Macomber was appointed township dog warden. The office was created by an act of the last legislature and is designed to exterminate a lot of worthless curs upon which no one ever pays any tax, and along about supervisor time no one even owns. The new law requires every dog to carry around a licensed tag attached to his neck, without which he is food for the dog warden's scowp net. The license tags are procurable of the warden at an expense of one and three dollars according to the gender of the dog. The new law takes effect at once, and of course applies to each township in the state. For each license issued, the warden receives a commission of 25 cents and for every unlicensed dog that he sends to the happy hunting grounds he receives \$1.00. For the safety of this animal, it behooves every owner to call upon the warden without unnecessary delay and procure the necessary tag, or some fine morning the master will wake up to find that the warden has his barker. The following is the law as passed:

AN ACT

To amend act number one hundred and ninety-eight of the compiled laws of eighteen hundred and ninety seven.

To the People of the State of Michigan enact:

SECTION 1. The township board of every township and the common council of every city shall, at the first regular meeting held after the passage of this act and at the first regular meeting held after the first Monday in April in each year thereafter, appoint some suitable elector of the township or city, who shall be known and designated a dog warden, and who shall hold his office until the first day of May in the year following that in which he is appointed, or until his successor is appointed and qualified. The said dog warden shall take and subscribe to the constitutional oath of office and shall make, execute and deliver to the township or city clerk, a bond to the people of the State of Michigan in the sum of five hundred dollars, conditioned on the faithful performance of the duties of his office. The sufficiency of such bond shall be determined by the board by which the appointment is made.

SEC. 2. Every person owning or harboring any male dog three months old or over shall pay to the dog warden annually the sum of one dollar for each such dog owned by him; and every person owning or harboring any female dog three months old or over shall pay to said dog warden annually the sum of three dollars for each such dog. Seventy-five per cent of all sums so received shall be paid over by the dog warden to the township or city treasurer, respectively, and retained by said treasurer in a separate fund, subject to orders drawn thereon as provided in sections four, five and six of this act. Said tax shall be deemed to be due and payable by the owner or harbinger of any dog on the first day of May in each year or on any day thereafter where such dog shall be owned or harbored and until said tax on such dog has been paid, and whenever paid any dog shall be deemed to be the payment of the tax due on said dog to and including the thirtieth day of April following the payment. The tax provided for by

this act shall not be deemed to be in lieu of any dog license imposed by the ordinances of any city or village, nor shall the payment of such city or village license release any person from the payment of the tax imposed by this act.

SEC. 3. The dog warden shall give to each person paying the tax on any dog a receipt for the amount paid, which receipt shall bear the date on which payment is made, shall describe the dog on which the tax was paid, and shall be numbered with a serial number and the year, the first receipt given on or after May one, eighteen hundred and ninety nine, being numbered "Number one, eighteen hundred ninety nine" and successive receipts given thereafter and before May one, nineteen hundred, being given the serial number in the series of eighteen hundred ninety-nine, and the same system of numbering being repeated in each succeeding year. On the first day of each month the dog warden shall deliver to the township or city clerk duplicate receipts issued by him during the preceding month.

SEC. 4. The dog warden shall give to each person paying the tax on any dog a metal label that may be securely affixed to a dog collar. Such label shall bear the serial number and year of the receipt given, and any dog found by the dog warden and which is not wearing a collar bearing the label issued by him for the fiscal year when found, shall be killed by said warden or by any person appointed by him for such service, and the dog warden shall be entitled to and shall receive one dollar for each dog so killed within his jurisdiction, to be paid out of the fund created by this act, or allowance of his account therefor by the township board or the common council of the city. Such account shall be verified by the oath of the dog warden and the board or council may require such further proof as is satisfactory to it.

SEC. 5. The dog warden shall retain twenty-five per cent of the dog tax received by him, which shall be his compensation for all services and expenses except his fees for killing dogs on which the tax has not been paid, as provided in the preceding section. Provided, however, that the township or city clerk shall provide the said dog warden with suitable receipts for use as provided in section three of this act and the township board or common council shall cause payment therefor to be made from the fund here created. Provided further, that sections one, two, three, four and five of this act shall not apply to any city whenever said city has and enforces an ordinance imposing a tax or license fee on every dog owned or harbored in such city, and which provides for payment of damages to sheep by dogs.

SEC. 6. Whenever any person shall sustain a loss by the killing or wounding of his sheep or lambs by a dog or dogs, he may call on a disinterested justice of the peace of the township or city where such killing or wounding occurred, not of his own party, and not a member of the township board or city council, who shall proceed to view the sheep or lambs killed or wounded, and if from such view he shall be satisfied that the same were killed or wounded by a dog or dogs, he shall make a certificate thereof in writing, stating the amount of damage sustained by such person, and shall deliver the same to the clerk of said township or city, who shall file the same in his office and record it in the records of the township or city. The said justice shall receive for his services in each case the sum of two dollars to be paid out of the aforesaid fund, on the order of the township board or proper city officer or officers.

SEC. 7. At the annual meeting of the township board in each year, and at a meeting of the common council of each city in April of each year, the said board or council, as the case may be, shall examine all certificates of damage filed by the clerk, as aforesaid, during the preceding year, and if satisfied that in any case or cases the certified damages are excessive, they may reduce the same to such amount as they may consider just, and may order the payment of all such loss as they may consider just out of the fund aforesaid, if it be sufficient for that purpose, and if not sufficient, they may order a proportionate payment of each claim. If payment remains of such fund after satisfactory payment of all claims aforesaid in any one year, over and above the sum of one hundred dollars, it shall be apportioned among the several school districts of such township or city in proportion to the number of children therein of school age. Provided, That no payment of loss shall be made as provided for in this section unless the party applying for the same shall make it appear to the satisfaction of the township board or common council that he has made all due efforts, and has not been able to obtain satisfaction therefor from the owner or owners of the dog or dogs which shall have done the damage.

SEC. 8. Every person possessed of a dog, or who shall suffer a dog to remain about his house for the space of fifteen days previous to the assessment of a tax or previous to any injury, chasing, mauling or killing of sheep, shall be deemed the owner of such dog for all purposes of this act.

SEC. 9. Any person or persons who shall knowingly keep any dog known to be a sheep killing dog, or who shall keep any such dog after it shall come to the knowledge of such person that such dog has been engaged in the killing of sheep, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than ten dollars nor more than fifty dollars, or by imprisonment in the county jail not exceeding three months, or by both such fine and imprisonment, in the discretion of the court.

Plymouth wants a local telephone exchange and some tentative consideration of the matter is going on.

Six-year-old Erol Smith of Plymouth fell under an ice wagon and the wheels tore the flesh from his leg, exposing the bone from the hip to the knee.

There's a great variation in the value of property in Walled Lake village. On one side of the road it is \$4,000 per acre while on the other \$400 is the price.

The village council of Plymouth has, apparently, a unique way of doing business. At its last meeting about half the motions were made by President Starkweather himself.

It may sound paradoxical but the prospects are that the folks who are able to be coaled next winter will be the ones who will not be cold. The rest can burn up their superfluous furniture.

DeRay is evidently going to the dogs. So few licenses have been called for that the Times suggests the refunding of the money to those who have paid or else the general enforcement of the law.

Nobody seems to want to undertake the job of making the Plymouth folks behave themselves. Since the resignation of the marshal there the position has been offered to several men but they wouldn't tackle such a task.

Carleton has a new ball team called the Carleton Times Colts. An organization with a frisky appellation like that ought to be expected to kick at everything going. Rather wearing on the umpire though, but he shouldn't be afraid to say "em feigh.

Mrs. S. W. Harger, 31 years old died in a dentist's office in Holly as a result of taking chloroform. The fatal anesthetic was administered by a reputable physician after careful examination of the patient and its use was considered perfectly safe. She left a husband and five little children.

Lansing is to have a match fact to something of that kind may be needed for the old maids and widows who invade the city from outside, but the pretty Lansing lassies need no match factory. They seem to make light of it.—Adrian Press.

Hm! Those Lansing girls must be some great scratch. Probably they can't hold a candle to Northville ladies.

When Northville lost her big furniture factory by fire, the citizens there didn't sit down and cry that the village was going to the "deminition bow wows," but got a hustle on them and secured some new industries, and now, having secured these, the Globe Furniture Co., is rebuilding their big bell foundry again. Success to Northville.—Flat Rock News.

The D. P. & N. has commenced planking the road bed in the village so far as constructed. Pres. Russell says cars will be running by Sept. 1, between here and Northville. The road he says, will not be then fully completed, but transfers will be made at the Phoenix mill where there will be an uncompleted gap.—Plymouth Mail.

One of the Record's exchanges last week supplied its readers with the startling and interesting information that somebody's calf had been suddenly taken sick and died. The enterprising journalist overlooks no possible source of information and utilizes all material that can be made available. The above example might be classified as bawl news in view of the probable attitude of the maternal relative of the deceased.

Farmington township folks have taken a new departure in road building. One day lately 100 men with 20 teams got together and rebuilt a half mile of road that had been rather noted for its badness. The

women of the community did their part by getting up a big dinner for the workers and at night they all felt so good over their work that the bee was finished off with a hon, so that everybody could kick who wanted to.

An advertiser in the Orion Review has had all summer in big letters at the head of his ad "Hot wave coming! Summer is here," and it has confronted the Review readers when a cold spell was on and discouraged them when the mercury registered in the 90's. And he still insists that its coming even though the month of first frosty nights is close at hand.

The Wayne Review headed its marriage notices last week with "Five couple made one." That's the greatest consolidation of interests we ever heard of. Regular matrimony trust as it were. Ten souls with but a single thought, ten hearts that beat as one! And in ordinary cases those thoughts and heart beats are easily distinguished in a very short time where there are only two cerebral and cardiac systems involved. Really remarkable case.

A precocious young pair hailing from Seymour Lake were married recently at Pontiac. The bridegroom, Walter Bastedo is 15 and the bride Myrtle DeMancie is 13, but in order to get the necessary license an imaginary five years was added to the age of each, with a consequent arrest for perjury when they were found out. The chances are that Mr. and Mrs. Bastedo will spend their honeymoon and several other moons at the reform school.

IN OUR GREAT STATE.

THE HAPPENINGS IN MICHIGAN BRIEFLY RELATED.

A Burglar While Operating in Royal Oak Came in Contact With a 32-Calibre Bullet—Minden City Parents Use Cruel Treatment for Punishment.

Weekly Crop Bulletin.

According to the weekly report of the Michigan weather bulletin the temperature for the state during the past week was 68 degrees, or one degree above normal; the average total precipitation 0.44 of an inch, or 0.06 of an inch below normal; and the sunshine averaged 62 per cent of the possible amount. Generally the weather has been dry and hot. The lack of moisture has been felt the most in the southern counties, where pastures are rapidly drying up and corn has rolled considerably. In these counties also the ground has been too dry for fall plowing. Corn, beans and late potatoes are, however, in generally good condition and have made fair progress during the past seven days. The present condition of corn indicates that it will be safe from frost about Sept. 10 in the southern counties, and about Sept. 15 in the central and northern counties. Beans are beginning to ripen. The oat harvest is very near completion in most counties, and the bulk of the crop has been well secured. Sugar beets continue to grow finely and are in promising condition.

Burglar Shot in Royal Oak.

While a burglar was engaged in trying to make Cicero Millington, the aged father-in-law of Alfred F. Wilcox, who resides with Mr. and Mrs. Wilcox in Royal Oak, produce his coin, Mr. Wilcox was aroused, and with revolver in hand went to the old gentleman's assistance. This frightened the burglar and he made a rush for liberty by the front door exit, which he had thoughtfully unlocked before attacking Mr. Millington. By the time the burglar reached the door Mr. Wilcox was almost upon him. The burglar pulled his revolver and fired, but the weapon refused to work. Not so with Mr. Wilcox's gun, as he succeeded in planting a 32-calibre bullet in the back of his intruder, which subsequently led to his capture. The fellow gave his name as Frank Temple, but refused to tell where he lived. At last accounts the prisoner was alive.

The Tri-State Band Convention.

The Tri-State Band association, including Michigan, Ohio and Indiana, held their annual convention in Detroit on Aug. 18th and 17th. Nearly 75 bands from the above states and Ontario made music galore while in the city. It was a big event for Detroit, and in addition to the music makers the printers from all over the U. S. were there, the florists were there, and many visitors from far and near were there. The bands gave concerts at the various parks about the city on the afternoon and evening of the first day, and on the second day occurred the parade, in which all the bands unitedly played familiar airs, making noise enough to be heard for miles. After the parade the balance of the day was spent at Belle Isle park, where thousands listened to a fine musical program.

NORTHVILLE, MICH., AUG. 18, '99.

FANATICS IN NEW YORK.

One Proclaimed Himself God and Found Many Believers.

In New York City about 1832, a period of "great awakening" that begat atomism and many other sects—among them one in Kentucky, whose members, in order to win heaven by making themselves as little children, used to crawl on their hands and knees in church, play marbles, trundle hoops, and otherwise manifest their infantile madness—one Matthews, a carpenter, having assumed the name Matthias, proclaimed himself to be God, the Father. He found believers, most of them ignorant but some intelligent, procured much money, and ruined many persons. He and his disciples claimed to heal the sick and to be successful as the Scientists now do. One of them, a Mr. Pierson, a victim of religious delusion, even before the coming of Matthias, had endeavored under most distressing and pathetic circumstances publicly to raise his wife from the dead, accepting literally the verse of the General Epistle of St. James directing the elders to anoint and pray over the sick, and promising that "the Lord shall raise him up."

Matthias, being eventually indicted for procuring \$630 from a Mr. Folger under the false pretense that he was God, able to remit sins, and would communicate the Holy Ghost to said Folger, the District Attorney entered a nolle prosequi for these reasons: To maintain the indictment, he said, I must prove that defendant's pretenses were false and would deceive a man of ordinary intelligence and prudence, but no sane person would believe that Matthias was God; Matthias was, however, convicted on lesser charges.

Funny When You Think of It. At a small party the other evening those present were asked to name the most common and at the same time the most complicated action in the human phenomena, says the New York Times. Various answers were given, showing all degrees of observation and thought. Not one, however, hit upon the answer that the questioner had in mind, which was walking. What action is more common, and yet, how difficult of analysis! How many persons outside of some special course in physics at the universities can explain the phenomenon? Let somebody try. "Walking," once said Dr. Holmes, "is a perpetual falling, with a perpetual self-recovery. It is the most complex, violent, and perilous operation, which we invest of its extreme danger only by continual practice from a very early period of life. We find how complex it is when we attempt to analyze it. We learn how violent it is when we walk against a post or a door in the dark. We discover how dangerous it is when we slip or trip and come down, perhaps breaking or dislocating our limbs, or overlooking the last step of a flight of stairs, and discover with what headlong violence we have been hurrying ourselves forward." All this is very true, as we all know, to our sorrow, still, the genial autocrat has not explained the phenomenon.

The Slaming.

The gentle slaming is a glissando and so monkey. In assemblages on the treble live the slaming, whooping through the oboes, calling to their friends from miles away, and swooping off to meet them, racing sleepchases with the winds. I have seen, and hope to live to see again, says a writer in Blackwoods Magazine, a pack of the slaming going through the jungle—a long black arm and a small crumpled body swinging wildly from it like a pendulum run mad, then a suicidal fling, a crash in the covering green, and so they are gone.

Time they are the gentlest creatures. The Malays catch the young ones and bring them to our doors, knowing that buy we must. It is not among the possibilities for a Mem to resist the forlorn small speechless thing, when it winds its long arms and fingers around her neck, and hides its black wrinkled face of an old woman, with round unhappy eyes, in the softness of her morning gown. Or it lurches across the veranda on a pair of very bony little legs, balancing itself with outstretched arms. But they always die. They who have weathered torrid rains under the open heaven die in captivity of consumption, and cough out their ill-comprehended souls like Christians, huddled in a blanket.

NO MORE BALD HEADS.

A CONSTANTINOPLE PHYSICIAN DISCOVERS A REMARKABLE REMEDY.

Plants the Head with a Scapifier, Cuts the Scap, and Then Plants the Hair Like a Farmer Would Plant a Willow Wand.

Dr. Menahem Hodara, of Constantinople, announces that he can take a fragment of hair, and, by implanting it on the scalp of a bald patient, make the meagre clipping take root and grow into a long, heavy hair, with a root of its own.

He says that he has tried it upon several patients and has afterward demonstrated its success by microscopical examination.

Every one knows that a bit of willow twig, when stuck into the earth and left alone, will probably throw out roots and in time grow into a tree. Even dried-up looking sticks have been known to accomplish this.

Dr. Hodara virtually says that a hair will do the same thing. He does not transplant it in any sense of the word. He does not take a hair that is attached to skin, or that has its root and follicle entire. His discovery is not the result of any mere grafting experiment. Dr. Hodara says, in effect, that he can take the clippings of hair as they fall beneath the barber's shears and from each of these bits of hair can cause a new hair to grow.

It has long been known that the human hair was a composite organism, and that it closely resembled skin in its structure, but it has never been thought that it contained within itself the power to initiate growth. It has always been believed that it depended for its life and existence on the nutrient vessels which supplied its follicle or sheath.

Dr. Hodara's discovery means that each hair, or fragment of hair, must contain within itself the same power that resides in a willow twig—the cell-producing capability.

His discovery was the result of a pure experiment. It happened that two of his patients were suffering from scalp disease known as "favus," which is prevalent in the Eastern countries. Its cause is a minute fungus; its usual result is absolute baldness of the patch of scalp attacked by disease.

Careful examination of the scalp on the bald area showed that the hair was non-existent. Microscopical examination of a section of the scalp showed also that the follicles of the hair were empty, shriveled and dead.

Before beginning operation, Dr. Hodara carefully washed a selected part of the patient's head on which hair was luxuriant, with an antiseptic solution. This was repeated until the hair was thoroughly sterilized. Then about fifty hairs were clipped off with a pair of scissors and were laid in a neutral solution of sodium chloride.

The next thing done was to render the bald spot on the scalp thoroughly aseptic. This was done by almost the same measures as those used to sterilize the hair.

After applying an anesthetic spray to the surface to be operated upon Dr. Hodara picked up an instrument, known as a scapifier and drew it horizontally across the bald patch. The result was six little cuts through the surface of the scalp. Changing the direction of the instrument, Dr. Hodara then made another set of incisions at right angles, until the surface of the scalp appeared to be cross-hatched with little cuts.

The slight hemorrhage which resulted was easily controlled, and Dr. Hodara then took up a pair of small forceps and began to select a hair. Picking up one by the middle, he held it in the forceps while he clipped it with scissors at each end until the resulting bristle was about an inch and a half long and was blunt at each end.

A quick look through a powerful lens showed the doctor that he was holding the hair right end up, for a hair has a skin to it that lies in scales like the bark of a palm tree. Then he selected a place where two cuts crossed and into the incision inserted the hair. Wherever the cuts crossed each other on the bald spot Dr. Hodara inserted a clipped hair, and then inserted some of those that remained in the intermediate spaces. When he had finished the bald spot was sparsely covered with little bristles of hair.

Then a dressing was applied, and the patient was instructed under no circumstances to remove or even disturb

the hair.

PLANTING HAIR ON BALD HEAD. A week later Dr. Hodara examined the scalp. The cuts were practically healed, and he was pleased to notice that every implanted hair was still in position.

Three weeks later another examination was made. The hairs were still in position.

Dr. Hodara picked up a pair of forceps and tweaked one of the hairs. It came out easily, and was obviously in the same condition as when it was first placed in the scalp. Dr. Hodara thought his experiment had failed, but pulled out another.

That sample astonished him, for with the hair came a follicle. Dr. Hodara looked at it in real astonishment, and then laid it by the side of the first hair. It was perceptibly longer, although when he performed the operation Dr. Hodara had been careful to see that all the hairs he used were of the same length.

Another and another hair was quietly tweaked out, and it was found that many had grown bulbs, and in every way had acted as mere tree twigs might have acted if planted in good ground.

Examination under the microscope showed that the hairs had undoubtedly taken root and appeared to be likely to grow into good, long hairs.

A BARGAIN IN GOWNS.

So at Heart She Tried Hard to Make It Seem.

"It came?"
"What came?"
"The gown?"
"What gown?"
"My gown."
"Your gown? This is the first I knew about it."

"Why Jack! How can you? Don't you remember?"
"No, nor you."

"It was two weeks ago, at dinner. I said I must have another gown, and you said all right."

"You said you must have another gown, and I said all right. Hal! I'm a good thing."

"But you did!"
"While you were speaking of gowns, why didn't you mention a diamond cluster, a pair of pearls, a house and lot, yacht, and listen while I said all right?"

"Now Jack, you know I couldn't get a gown like this for any such price."

"How much?"
"Two hundred."

"How absurd! As if I would do such a thing!"
"Then one hundred."

"Now Jack, you know I couldn't get a gown like this for any such price."

"How much?"
"It was—let me show it to you. Here it is. Isn't it lovely?"

"Yes. How much did you say?"
"You really don't want to know."

"Dear P. C. now, my dear, tell me at once how much that gown cost. I won't have any more nonsense."

"Well, dear, it was just one hundred and ninety—with the trimmings."

Life.

What a Baby Did in One Hour.

He was the good natured bachelor of the family, and being the child's uncle was left in charge of the baby one day while every one else was out, and out of curiosity he made a list of what the baby did in one hour. Here it is.

1. Yelled fifteen minutes without taking breath. (The bachelor timekeeper declares solemnly that this is a true statement.)

2. Pulled enough hair from his uncles' head and whiskers to stuff a sofa pillow.

3. Further decorated the wall paper as high as he could reach with the poker.

4. Broke a glass vase by sifting down on it.

5. Swallowed six buttons and a good part of a skein of thread.

6. Emptied the contents of his mother's workbasket into the fireplace.

7. Tried to squeeze the head of the cat into a cup and was scratched badly in the attempt.

8. Knocked the head off a fine wax doll belonging to his elder sister by trying to drive a tack into a toy wagon with it.

9. Fell off the edge of the sofa and brought down with him two costly vases, which were ruined.

10. Broke two panes of window glass with a cane which uncle let him have.

11. Fell into the coal scuttle and spoiled his new white dress.

12. Set fire to the carpet while uncle was out of the room hunting up something to amuse him.

13. Crawled under the sofa and refused to come out unless uncle would give him the jam pot.

14. Got twisted amongst the legs of a chair, which had to be broken to get him out.

15. Poured a jug of milk into his mother's slippers.

16. Finally, when he saw his mother coming, he ran to the door and tampered of the steps, making his nose bleed and leaving a hole a foot square in his dress.

"And still the youngster's uncle thinks that boy will make something yet."

Not so stupid as he seemed.

It was in a Dutch court, and the witness was a Swede who was, perhaps, not so stupid as he seemed to be.

The cross-examining attorney was a smart young man, whose object was to discredit the witness and discredit his testimony.

"What did you say your name was?" was the first question.

"Yahn"—very deliberately—"Peterson."

"John Peterson, eh? Old man Peter's son, I suppose. Well, John, where do you live?"

"Where Ah live? In Duluth."

"Now, Peterson, answer this question carefully. Are you a married man?"

"Ah tank so. Ah was married."

"So you think because you got married you think you are a married man, do you? That's funny. Now, tell the gentlemen of this exceptionally intelligent jury who you married."

"Who Ah married? Ah married a woman."

"See here, sir! Don't you know any better than to trifle with this court? What do you mean, sir? You married a woman? Of course you married a woman. Did you ever hear of anyone marrying a man?"

"Yes. Mah sister did."—Life.

Crusty.

"I think," said the dear girl, "that it is a good rule to think twice before speaking once."

"Yes," said the savage bachelor. "I've had a dozen married men tell me that same thing."—Cincinnati Enquirer.

The Beginning of a Fortune.

"No," said his father, "you are not the man I want for a son-in-law. Why I'll bet you never earned a dollar in your life by your own efforts."

"Ah," exclaimed the young man, brightening up, "there's where you have underestimated me. She bet me a dollar that I wouldn't dare to come here and ask you for her, and as you know, I have won out."—Chicago News.

Advantages of the System.

Customer (at shirt counter).—Here's a shirt I bought of you the other day. It's too small for me. I tore it trying to put it on.

Salesman.—That's too bad, but you've spoiled it so we can't take it back. I'll tell you what you can do, though. Go over to the drug department and you can get a small bottle of anti-fat for 10 cents.—Chicago Tribune.

NEWSY GENERALITIES

ITEMS GATHERED FROM ALL DIRECTIONS.

Paris Anarchists Cause Serious Trouble.
—The Mexicans Came Out Victorious in Three Engagements With the Indians—Other Events.

That Transvaal Trouble.

The Transvaal government, it is reported at Cape Town, has handed its reply to the British agent at Pretoria to be forwarded to Sir Alfred Milner, British high commissioner for South Africa and governor of Cape Colony. Conflicting accounts are given as to its contents, and it is possible that the report is premature and that the reply will be delayed, owing to the trouble with Portugal about the transport of ammunition, consigned to the Transvaal, now in Delagoa bay. Strong feeling has been aroused by the fact that the Transvaal is sending large quantities of war material for distribution among its supporters in Cape Colony and the Orange Free State. Over seven tons have been landed at Port Elizabeth on Algoa bay and sent over Cape railway lines to Allwal for distribution.

Serious Trouble Caused by Anarchists.
—Paris on the 20th was the scene of most serious disturbances, recalling some aspects of the commune. In response to an appeal of the journals, Le Peuple and La Petite Republique, groups of anarchists and socialists gathered about 3 o'clock in the afternoon in the Place de la Republique. The police had taken precautions and there seemed no danger of disorders. Sebastian Faure and Faberot, well known revolutionary anarchists, were the ringleaders. While Faure was addressing the crowd, among other things he said that the anarchists should be masters of the streets. The police then interfered and a struggle for supremacy followed in which 350 persons were injured, 52 police agents were wounded. Fully 150 persons were arrested, of whom 50 are detained in custody.

Mexicans and Indians Have a Battle.

On the 17th Gen. Torres of the Mexican troops gave the order to advance on Vicam. Three sharp engagements were fought before the troops succeeded in entering the stronghold. The Indians met the government forces first about a mile from Vicam and fell back. They rallied again on the outskirts of the Pueblo and were driven in. In the three engagements two Mexicans were killed and 22 wounded, among the latter being two captains. Forty Yaquis were killed and the number of wounded is known to have been heavy. The excessive heat was something awful. During the march of 200 men from Katamotol Station to Torin there were 12 deaths from sunstroke and prostration.

25 Killed in a Mine Explosion.

By an explosion on the 15th in the Lest colliery, in Glamorgan, Wales, 25 persons were killed and 60 others were injured. The explosion occurred during the night shift, when there was only 50 men in the mine. There were many heroic acts in the effort to save survivors from the effects of the after-damp, but so far only five have been rescued alive. Pathetic scenes were witnessed as the bodies were brought to the surface, men, women and children crying and eagerly waiting for tidings of the entombed miners.

Havana Mob Sought a Wife-Beater.

A small riot occurred in Havana on the 17th, growing out of an attempt to lynch one Villegas, a former lieutenant of police, who had ill-treated his wife in the most atrocious manner. He had been in Vivac, the Tombs of Havana, for several days and on the above date wife died, and shortly after sundown a crowd of 1,000 people met on the Plaza and after listening to fiery addresses, began to march on Vivac. A detachment of artillery met the mob and the latter promptly dispersed.

War Seems Inevitable.

A special from London says: President Kruger has refused to submit to the demand of Mr. Chamberlain for the appointment of a court of inquiry. The report that President Kruger has proposed new terms is somewhat verified by the guarded comment of the colonial office officials and the irritability displayed there. There is not the slightest doubt that they believe war is now the only way to settle the controversy.

\$2,500,000 Fire in a Colorado Town.

Fire has entirely destroyed the business portion of the city of Victor, Colo., causing a loss estimated at \$2,500,000. Beginning shortly after noon on the 21st, the fire raged until night, consuming everything in its way. It had its origin, it is thought, in the Merchants' cafe. A strong wind from the south fanned the flames and in a few minutes all the surrounding houses were as fire.

It is officially announced that fully 2,000 deaths have resulted from the hurricane and floods at Porto Rico.

There is an alarming epidemic of typhoid fever at Woodstock, Ont., over 90 cases being reported. Dead toads in the wells is the cause.

According to a dispatch the town of Red Bay, on the island of Andros, 20 miles southwest of Nassau, was swept away in a recent tropical hurricane, and about 300 lives lost.

The Cleveland boycott, incident to the street railway strike, has been carried into the church. One preacher has been boycotted, and a young woman connected with the church choir will lose her position if she continues riding on Big Consolidated cars.

The 6th conference of the Methodist Episcopal church of Michigan will be held at Pontiac for six days beginning Tuesday, Sept. 12.

Pedestrians have decided to wait until next year to build their new church, which it was announced would be erected this year.

A Coldwater firm has commenced the manufacture of automobiles of their own invention. The weight of the carriage will be 500 pounds.

It is probably that a street fair will be held at Lapeer this fall, taking the place of the county fair, which was discontinued some years ago.

The good roads project in Saginaw was defeated at the special election. The city gave 1,400 majority, but the county districts wiped this out.

A heavy wind recently ruined several fine apple orchards in the vicinity of Hartford, shaking 1,000 bushels of fine winter apples to the ground.

The first case to be heard in the courtroom of the new court house at Hillsdale was a divorce suit, as was also the last case in the old court house.

Davison village has a very complete system of sewers in course of construction, and will commence paving the principal streets of the village in a few weeks.

Marshall's council is getting good; they have granted bicycle riders the use of all sidewalks except on two streets. The mayor has not had his say yet.

The state fair will be held at Grand Rapids, Sept. 25-29. Elaborate preparations are being made by the association, this being the semi-centennial meeting.

The sixth annual encampment of the Lapeer, Sanilac, Genesee and Tuscola County Veterans' association will be held at Davison, Genesee county, Oct. 4, 5 and 6.

A deposit of quartz sand which is used in the manufacture of glass has been found seven miles northwest of Monroe, and will doubtless be made use of shortly.

Silas A. Scofield, the veteran furniture dealer and undertaker, of Morenci, claims he holds the record in the undertaking line. In 47 years he has buried 4,277 people.

There are so many thugs and hoboes at Houghton that the authorities have authorized the sheriff to organize a ball and chain gang and set prisoners at work on the rock piles.

Although the Lawton grape crop this year will be smaller than last, the local paper estimates its value will not be less than \$150,000. Last year the crop exceeded 700 carloads.

Harrison will get that heading mill she was after, the deal having been closed and a stock company now in process of formation. The plant is to be running within 90 days.

A stabbing affray in which one man was probably fatally cut, occurred at Bay City early on the morning of the 22d. A dispute over the payment of hack fare led to the trouble.

In 12 hours on the 21st 80,000 packages of fruit were shipped from St. Joseph to Chicago. It is the largest invoice ever shipped in the same length of time between the two ports.

Notwithstanding farmers are offering \$30 to \$25 per month and board for farm help, and are unable to secure it, Battle Creek is still overrun with hoboes who beg from door to door.

A great amount of damage has already been done in lower Michigan for the lack of rain. About the only county where crops have not been damaged by the drought is Lenawee.

Citizens of Kalamazoo have made a vigorous kick against the "howling" Free Methodists, who make life miserable for the people who reside within hearing distance of their place of worship.

Mrs. Louis Levi, of Detroit, was sealed to death at Mt. Clemens on the 22d. She was in the act of taking a mineral bath without an attendant, and had turned on the hot water and then fainted. Before recovering consciousness she was so badly sealed that death ensued.

Residents of Dimondale and vicinity are much excited over the reports made by a prospector named William Engle, who has been investigating the land adjacent to the stone quarries. It is said he has found some valuable specimens of stone, and it is hinted that he is after coal.

Farmers in western Oakland county are becoming alarmed at the continued drought, the dry weather and high winds having dried up things so badly that all crops are looking in poor condition.

Oakland county expended \$15,152.79 for its poor people last year. There were 72 inmates in the county house, and the average number was 48. Of this number, 33 were men and 31 women.

There is said to be a great scarcity of teachers in Mason county this year for the district school work, barely half enough experienced teachers to fill the schools holding certificates in the county.

The boiler of a threshing machine engine which was being operated on the farm of Michael Kerns, five miles from Empire, exploded on the 19th, killing three persons outright and injuring three more.

The clerk of Montcalm county the other day issued a marriage license to a man and woman who had previously been married six and three times respectively. The groom was 63 and the bride 56 years old.

Martin Koch, aged 19, of near Ann Arbor, was struck on the head by a heavy block of wood wherein a spike was contained. The spike penetrated his skull, and yet the boy will live, although he is partially paralyzed.

Wesley Chapman, of Mt. Pleasant, had his head crushed at the basket factory on the 21st. He was fixing a "vener" cutting machine and had his head between the frame of the machine and the knife. His foot moved a lever, starting the machinery, and a bolt was thrust into his head. He will doubtless die.

The new steel bridge over Spicker creek, two miles west of East Dayton, collapsed as a traction engine and grain separator were passing over it. The bridge was a new one and the cause of its collapse will not be known until the debris is raised out of the mud. The engineer saved his life by jumping into the water.

Burglars terrorized the family of J. B. Schlicht, of Detroit, early on the morning of the 20th, by pointing revolvers at them and threatening to shoot different members if they did not reveal the whereabouts of their valuables. The thieves secured about \$50 worth of plunder. They then helped themselves to lunch before leaving.

Fire is destroying much property throughout the country owing to the drought. On the 20th a big gang of men were at work lighting fire east of Attica. Several buildings belonging to Charles Budington, together with his pear orchard and grape arbor, have been destroyed near that place. Fences are being burned by the wholesale.

A warrant has been issued for the arrest of George Boucher, and the sheriff of St. Joseph county is after him. It is alleged that Boucher is wanted in connection with the finding of the body of an unknown man at the mouth of the Paw Paw river recently. It is said the officers are convinced that the man was dead before his body was thrown into the river.

On the evening of the 18th James F. Cook, living near Clio, was awakened by the stamping of horses. He investigated, and his son did likewise, but by another dog. The son mistook the father for a burglar and cut him up badly with an ax. The horrified son, on discovering his mistake, drove with his father several miles to Clio for a surgeon. The father may recover.

Special Deputy Collectors Bailey and Beattie and Marshal Butler made an important arrest and seizure at Recor's Point, 2½ miles north of Marine city, on the 18th. The men arrested gave their names as James Merlines and Moses Dover, of Sombra, Ont. The officers secured 900 pounds of wool and a sail boat. A couple of men who were evidently waiting for the wool, escaped with their rig.

Mr. and Mrs. Earl F. Wilson, of Harrison, went to Flint on the 15th to attend a family reunion. While being driven from the depot to the family residence the horse became frightened and ran away. Mrs. Wilson jumped, or was thrown out of the rig, receiving injuries from which she died 10 minutes later. The homestead, where gaiety was to have held sway, was turned into mourning.

A singular case of prostration or catalepsy has been attracting the attention of physicians at Coldwater for the past three weeks. Miss Mary Clemensmith, aged 18, is the victim. On Aug. 4 she became unconscious and remained in that condition until Aug. 16, during which time she appeared like a person in deep sleep. She is perfectly conscious now and is able to converse, but is unable to open her eyes.

Flint's tramp ordinance is a success in every particular. The keynote of the success of the ordinance is that it prescribes manual labor as the penalty to be imposed upon its transgressors, who are required to work out the amount of their fine on the streets at the rate of 50 cents a day. Before the ordinance went into effect the city was a regular rendezvous for all specimens of the genus hobo, but is now absolutely free from the pest of their presence.

James Slocum, a farmer residing southwest of Lansing, had his hand terribly mangled by a cow the other day. He discovered the cow lying on its back with its mouth open almost choked to death from something it had attempted to swallow, and he hastily put his hand down the animal's throat to remove the obstruction. Before he could remove his hand the cow shut down upon it and fearfully lacerated the flesh. Blood poisoning is feared.

The tax rate at Cassopolis is but six mills on the dollar, and the vigilant boasts that no other village of the size in the state is governed so cheaply.

What Have You to Print?

Good printing means revenue—poor printing expense. Printing, like clothes, should be made to fit you. The more exacting the job, the more certain you are to be satisfied here.

Why shouldn't good printing hold precedence over commonplace efforts?

A thoughtful expenditure in printing is the wisest economy. Test the matter—save the dollars.

Every taste finds satisfaction here.

THE LAMP THAT LASTS.

The New Rochester.

Fifteen years ago we began the manufacture of centre draft lamps. A dealer bought one of the first and placed it in his show window. Each day it is tried and tested occasionally it is cleaned and refilled. That lamp is good to-day.

Soon the Rochester was demonstrated a success, a host of imitations spring up. A few of the better ones still survive the test and some of them are still in use. All the people some of the time, but not all the time.

One New Rochester Lamp in a household is sure to be glowing. Soon there will be others. Do you want to know why? Write for printed matter if interested.

Change Your Diet.

At Fry Brothers' store the season 'round,
Fresh vegetables are always found;
It is their pleasure and delight
To cater to your appetite.

They've radishes and lettuce too,
And pieplant tender thro' and thro';
They've beets and cabbage, turnips, peas,
And all the fruits in groceries.

The clerks polite, with book in hand,
As meek as Moses, patient stand,
And quote you prices in a tone
'Twould move to tears a heart of stone.

Then when the berry season comes,
And autumn with its pears and plums;
Fry Brothers will, as heretofore,
Supply you from their grocery store.

Give Fry Brothers a Trial,
They'll save you money.

"Strange how many prizes Mrs.
Grabben wins at cards."

"She only wins, you know, when
the players put down their own scores
and do their own adding up."

"Clever at adding is she?"

"Well, she generally wins."

"But how can she tell the number
she'll need to win?"

"That's the only weak point in her
system. But George says she's a fa-
talist. He says she just adds her age
to the totals and trusts to luck."

"Mister," said Meandering Mike,
"will you gimme something so's I
can go somewhere and eat?"

The politician looked at him thought-
fully and exclaimed:

"That shows how we all have our
troubles. Here you are with no place
to go and eat, and here am I worried
half to death because I can't keep
my invitations to banquets down to
anything like a reasonable limit."

WAR NOTES.

United States troops now serving in
Cuba are to be brought to the United
States for the purpose of giving the
men a change of climate and an oppor-
tunity to recuperate. All the regi-
ments will not be brought home at
once, but arrangements will be made
so that a battalion of the different or-
ganizations may be absent at one time.
When they have remained what is
deemed a sufficient period in this
country, they will return and relieve
their comrades in the regiments, this
practice being kept up until the entire
body has enjoyed a rest in this country.

Gen. Brooke is to be recalled to
Washington for consultation with the
secretary of war. There is a possibil-
ity of his remaining in this country
and his duties in Cuba being assumed
by Gen. Wood. The war department
officials profess the utmost confidence
in the ability of Gen. Brooke to ad-
minister the affairs of the island and say
that his recall to Washington is not
significant of a change in the adminis-
trative affairs of the Cuban metropol-
is.

While a detachment of the U. S.
troops were reconnoitering on the 20th
they encountered 109 of the enemy in-
trenched on Tibuan, Negro mountains,
and drove them from their position
with the loss of two lieutenants killed
and three privates slightly wounded.
Nineteen dead insurgents were counted
in the trenches when the enemy was
routed, and six rifles and a quantity of
reserve ammunition were captured.

It is officially announced that Col.
Smith, with 10 companies of the 13th
regiment and two guns of Battery E of
the 1st artillery, under Lieut. Kemler,
attacked 2,500 strongly entrenched in-
surgents at the southern approach to
Angeles on the 16th, and drove them
back after a sharp fight. The Ameri-
can troops had two men killed and 12
wounded. The insurgent loss was
estimated at 200 men.

Owing to the determination of Sec-
retary Root to rush the new troops to
the Philippines, the original schedule
prepared in the quartermaster's de-
partment has been entirely disar-
ranged, and it is the department's in-
tention to have not only the first 10
regiments aloft by the last of October,
but also those to be raised under the
last order.

The transport Siam has sailed for
Manila with 350 mules, which will be
used for military service in the Philip-
pines. The vessel will stop at Hon-
olulu for several days and the mules
will be given a run ashore as a rest
from their steamer voyage.

While a reconnoitering party of the
24th infantry, under Capt. Crane, was
crossing the Marquina river on a raft
on the 21st, the hawser broke. The
current, very swift at that point, caused
the raft to capsize, drowning nine en-
listed men.

Eight hundred insurgents attacked
Angeles on the 17th, but the 12th re-
giment drove them into the mountains.
Three ditched locomotives were cap-
tured. None of the American troops were
injured. The insurgent loss is not
known.

The United States transport, Tartar,
from San Francisco July 24, with Gen.
Jos. Wheeler and his daughter, troops
of the 19th infantry and more than
\$1,300,000 in coin, has arrived at
Manila.

It is announced that Secretary of
War Root is closely following the ad-
vice furnished by Gen. Miles; more
troops will be sent to the Philippines
and a reserve force maintained.

The insurgents recently cut the
cable in Laguna Bay, leading to Ca-
lamba on the south shore of the lake,
but the break has been repaired.

Thus far the enlistments for the new
regiments has reached 15,132 men.

Of Interest to Maccabees.

The executive committee of the
Great Camp for Michigan, Knights of
the Maccabees, has followed the step
taken by the supreme tent jurisdiction
at its recent convention, in withdraw-
ing the benefits of the order from its
members who hereafter enlist in the
United States military service and
where death or total disability occurs
as a result of such service. In the laws
of the Great Camp for Michigan, as
well as in the supreme tent, active
military or naval service is one of the
prohibited occupations, but at the out-
break of hostilities between this coun-
try and Spain, by special dispensation
of the executive officers of the two
jurisdictions, this prohibition was re-
voked and permission given members
of the order to enlist for the war
against Spain. As this war is now
over and peace has been declared be-
tween the two countries, the order will
assume no further liabilities for those
hereafter enlisting.

Eight hundred tons of supplies for
the Porto Rican sufferers were placed
on board the transport Panther at
Philadelphia on the 21st.

It is now estimated that the bodies
of 2,500 victims of the recent hurricane
at Porto Rico have been buried, that
1,000 persons were injured during the
storm and that 2,000 people are still
missing.

NORTHVILLE.

The City in Brief.

Born to Mr. and Mrs. Henry Lowden, August 22, a boy.

Miss Mary Holt, who has been seriously ill with typhoid pneumonia, is improving slowly.

There were 252 Sunday-school and other children from here for Wednesday's Detroit excursion.

A marriage license was issued last week to Aramos Doremans, Northville; Harrie Brink, 24, same.

Mrs. A. O. Colburn will give one-tenth of her sales for one week to the King's Daughters, commencing Aug. 28.

WANTED—Young lady to learn type setting. Steady position when learned. Apply by letter and address Record, Northville.

Jabin Elliott will conduct a dancing pavilion at the Plymouth fair. For the evening parties, Penneman's hall has been leased.

The water board has now given notice that water can only be used for lawn purposes between the hours of 6:30 and 7:30 each evening.

The electric light committee has engaged Field & Hinchman the well-known Detroit electrical engineers for council and plans for the new electric lighting plant.

Dr. W. C. Walker of Detroit will be at the Park House, Northville on Tuesday, Sept. 5. All interested should remember the date. Office hours from 10 a. m. to 6 p. m.

Ed. Mooney of this place has been promoted to be sergeant of Co. G, 20th regiment U. S. A. now in drill under Col. Gardner at Ft. Sheridan. The regiment will sail for Manila Sept. 10.

Mrs. Sabina Lake, formerly of this place, and S. H. Nicholson were married last week. Mrs. Lake is well known to the readers of the Record having lived in Northville for many years.

J. L. Becker, family and Toledo friends have returned from camping at Walled Lake.

Mr. and Mrs. Edwin Dickey, of Mansfield, Ohio are the guests of Mr. and Mrs. J. L. Becker.

The paving on Main street is slowly assuming a more desirable condition and in time the road will be all right.

The ladies of the Methodist church wish to thank everyone for their patronage Saturday evening and cordially invite them to call at the same place tomorrow evening for another dish of that delicious ice cream. Remember the place—Wheeler block.

Owing to the prevailing drowth, the water board has requested the cessation of the unnecessary use of water from the water works system, and for sprinkling purposes forbids its use except for one hour each day 6:30 to 7:30 p. m.

It is suggested that it would be a paying investment for the council to borrow a few tons of iron and weight the paving roller down so that it would be of some use. It would cost no more to haul a good heavy roller than to do some good than it does now to manipulate this light one.

A Bay City man who has charge of the gravel shipments from the pits near the depot here, and who is well posted in road making says the fine gravel from the pits placed upon the crushed stone here on Main street would make the nicest kind of roads and it would materially aid in properly packing that paving down.

H. E. Millsap was married to Miss Ada Cheney Tuesday evening, at the home of the bride. Rev. Mr. Arnold performed the ceremony, the ring being carried by a little miss daintily dressed. Many friends and relatives were present and a large number of valuable gifts were given the couple. They will reside in Northville where the groom has employment.—Wayne Review.

Both the Northville and New State telephone companies give notice that hereafter all calls must be given by number. With over 100 subscribers to look after the operator cannot give proper service unless this is done. Every subscriber has a directory card and it doesn't take very long to find a number. Hereafter no connections will be made when the number is not given.

Chas. Pardee's barn just east of Phoenix mills occupied by Will Waterman was destroyed by fire early this morning with its entire contents. Mr. Pardee had some last year's grain in the barn but this year's crop belonged to Mr. Waterman. The building was partially insured but the contents is a total loss. Incendiarism is supposed to have been the origin of the fire.

By virtue of a law passed by the last legislature the justices of the peace of Wayne county will have to ask security for costs before issuing warrants for petty offenses. If the complaining witness fails to prove his statement, and the defendant is discharged, the money goes into the county treasury. It is thought that this will have the effect of reducing the costs of the justices courts to the county one-half. The law will take effect Sept. 11.

While Main street has been excavated and the gravel drawn out to make room for the crushed stone, the council or the street commissioner or both has seemed to forget the worst two blocks of street in the whole village, and that is Cady between Wing and West streets. For that distance the sand is several inches deep and much travel from the west to the depot which would ordinarily go by Cady street to the depot of the factory is forced on Main street because of the condition of those two blocks mentioned. The excavations from Main street would have fixed it with little or no additional expense.

E. S. Horton traded his "Ross" farm to Detroit parties two weeks ago and since then he made a trade of his Globe & American School Furniture Co. stock to Jas. McFarlin for the latter's farm which adjoins the "Ross" farm.

The new state tax commissioners are after tax payers who have property, personal and real, which the supervisors of the various townships of Michigan do not get hold of. The commission just now is going through Wayne county and are unearthing mortgages galore, several hundred thousand dollars worth being that in which Northville and Plymouth township people are interested. People holding mortgages upon which a part or all has been paid should get the partial payment recorded, or a discharge made if all has been paid, or the commissioners will oblige the supervisors to place the whole amount on the tax roll.

Hart Row recently purchased a horse of national reputation bearing the simple name of Zan-Zebidee-Zee-Bee-Jim-Kak. While camping at Union lake recently, Zan-Zebidee felt that "gone feeling" one night and loosening his halter, ate exactly one bushel of oats. Next day Hart proceeded to take his daily jaunt to Commerce and getting impatient gave Zan a touch of the "persuader" but Zan-Zebidee registered such a kick that it cost Hart two dollars to repair the dash board and raised Zan in value 50 percent. Hart says he is worth now twice what he gave for him and that nothing less than six dollars buys.

There is a much complaint on the part of bicycle riders against the practice of the street commissioner or the council, or both, allowing the hauling of crushed stone down Cady street. The sharp pointed stones now line the street from Center street to the factory and make it decidedly dangerous for wheels. It is almost impossible at present to ride wheels on Main street east of Center and now to haul crushed stone, which continually drop from the wagon, on Cady street is an outrage. The fact that to haul the stone down Main street would greatly assist to pack down the paving there ought alone to be inducement enough for the commissioner to keep his teams on Main street.

Before Justice Lowden yesterday morning, Will Perkins pleaded guilty to "cooning" some malt extract Wednesday night from the buggy of John Galliger of South Lyon, which was hitched near Young Men's hall. Galliger had been touched the previous week for a couple quarts and this time he had Marshal Macomber keep an eye on his rig from the hall and when Perkins and Earny Lyke captured the bottles he leveled on them. Young Lyke proved too slippery for the officer and as yet he has not been re-captured. Perkins paid a \$2 fine, \$5 costs but Lyke, who has previously been before Judge Lowden, in all probability, will not get off so easily.

Lewis-Clark Nuptials.

Mr. Wm. Lewis of the firm of Lewis & Lewis of this place and Miss Beatrice Clark of Detroit were married in that city yesterday and have already commenced housekeeping in the rooms over their store.

Don't Miss the Farmers' Races.

One of the attractions at the Plymouth fair this year will be the farmers' races, which are to be held on Wednesday, Sept. 20. There will be a farmers' trotting race, farmers' pacing race and farmers' running race. No horse will be allowed to enter that has ever started in a race before. All horses must be owned and driven by farmers. Purse \$20 each race. No entrance fee.

The Melody of Life.

Oh, all things are nature's musicians Composing an orchestra grand. Each thing helps along in its mission—And we all belong to the band.

The fishes keep time to the river: And the birds have their own special part: The beasts and the worms altogether Combine in the glorious art.

The sun is a grand toned piano: Each bright little star is a flute—And Miss Moon plays so soft and so mellow—That lovers her music does suit.

The wind whispers soft in the shade trees—Sometimes it is tempted to moan: But ere it will harmonize grandly With the bass of the old ocean's tone.

The grasshopper chirps in the meadow: And the katy did sings in the tree: Mr. Tree-toad pipes on the lily pads—While merrily danceth the leaves.

The puss-cat howls on the hearstoon To make the glad scene more complete: The his caterwaul song is a discord—And the rest around is more sweet.

Surely all things are nature's musicians—Composing an orchestra grand: The maker of all, swings the baton—And we all belong to the band.

Congressman Smith Addressed the Sturdy Teutons at Saline.

Congressman H. C. Smith of Adrian was one of the speakers at the big German day picnic at Saline recently and according to the Detroit Journal, the congressman got a German printer to fix up the following starter for him:

"Gehrte Mitbürger—Es freut mich euch zu treffen. Die einzige Bedauer meines Lebens ist das ich nicht Deutsch geboren bin. Den Gesang den ich am besten liebe nächst zu 'Hail Columbia' ist 'Die Wacht am Rhein'."

It is calculated to bag the whole German vote of southern Michigan.

Elks' Carnival and Street Fair at Detroit.

The Elks' great Carnival and street fair is now in full force at Detroit and is worth going many miles to see. Beyond the fine street exhibits the principal attraction is the "Midway." The Midway has all the amusements possessed by the original at the world's fair, including trained animals, jugglers, acrobats, elephants, camels and muscle dancers. For the occasion the F. & P. M. will run the usual 25 cent Saturday and Wednesday special excursions, and in addition will from Monday to Thursday inclusive next week, sell tickets for one fare for round trip on all trains with a return limit to Saturday.

The full term of the Fenton Normal School and Commercial College opens Sept. 5, '99. The folder of that school shows that Normal, Business, Shorthand and College Preparatory branches are taught. This institution is certainly the best school in the state. The instruction is largely individual—hence thorough. The teachers are all college graduates, some have had post graduate courses. Living expenses are low, tuition is moderate. Catalog will be sent free upon request. See advertisement page 5 of this issue.

Some of the reasons why you should buy your milk at
BENTON'S DAIRY:

FIRST. Having been nine years in the business we know something about the handling of milk.

SECOND. We produce all our milk while we have of years back been compelled to buy milk at times we have this season increased our dairy to the full wants of our customers and while increasing quantity we have not failed to raise the quality.

THIRD. The thorough breeding, clean and wholesome way of handling has given us the reputation of furnishing milk for infants that has brought forth the results looked for from the most fond and loving mother.

1st is why they do.
2nd is why you should.
3rd is why you will.

Editor C. A. White and wife of Perry are rejoicing over the advent of a girl baby. Congratulations are extended.

Miss Carrie Wolfe will soon leave for Canada where she will finish her course in elocution. She will be greatly missed from the community.

The remarks given and views shown by Rev. Kelso of Detroit Sunday evening in the Methodist church were very good indeed and those absent missed a treat.

Very few took in the trip with Mrs. Kelso around the world but those who did felt amply rewarded for it was a most enjoyable trip and many curios were seen. Strange that some people cannot grasp a good thing when within their reach.

This lecture was fine and only about twenty were out to listen to it. Regrets were expressed when too late.

At the business meeting of the League Byron Hudson was elected 1st vice-president to fill vacancy by the resignation of Miss Josephine Ward, who expects to leave Farmington with her parents in Sept.

Miss Ward has filled that office well and the League regrets parting with her and the members extend their sincere thanks for faithful service rendered and wish her the best of success in her new home.

If the "man about town" who figures so conspicuously—and sometimes with more than doubtful originality—in many of the state papers had his "I" put out, or its too dazzling glare slightly modified by the smoked glass of partial impersonality, the average reader would not be animated by such an earnest desire to pull him off his perch—since he is never on the fence.

Used a Razor at Sea.

When the steamer City of Alpena, bound down, touched Alpena at midnight on the 20th, Carl Hesse, a member of the ship's kitchen staff, was taken off and conveyed to the hospital suffering from three dangerous wounds inflicted by a razor in the hands of a Negro named Daniel Brown, who was also employed in the kitchen. The trouble occurred when the boat was about two hours out and is said to have arisen over the manner of performing some of the work in the kitchen. Conflicting stories are told as to who was the blame for the trouble.

The Negro was immediately placed in irons and was delivered to the U. S. authorities when the boat arrived in Detroit.

Wanted to Drive Out the Devil.

On the 19th Mr. and Mrs. George Coppeland, who live four miles from Minden City, were arrested and lodged in jail at Sanilac Center on the charge of ill-treating their 8-year-old daughter.

Before making the arrests the officers discovered that the child had repeatedly been tied up in an out-house and left there for several days and nights; also that the little girl had been tied up and left in the cellar for five days. The child showed marks of ill-treatment and told a very pitiful story.

When questioned as to the cause of her ill-treatment the little one said that her mother told her that she was very wicked and possessed of the devil and must be punished.

PILOTS ON THE RIO GRANDE.

Texans Objected to Having Arms Scratched With Vaccine Virus.

RANGERS CALLED OUT.

Trouble Grew Out of Discovery by Smart Doctor That Smallpox Was Across the River.

Wood Warehouse in Laredo Converted Into a Pest House and Cotton Mill Detention Hospital—Relatives Called and Were Not Allowed to See Patients—Then a Mixup Occurred.

Your native Texan objects to blood-letting in any but the conventional way. It is all right and proper to bleed a man with a six-shooter bullet or a bowie knife on due provocation. That is according to State etiquette—or to Mr. Hoffer as they say. But when a smart doctor from the effete East comes to the Rio Grande loaded down with quills, claims the right to enter your local without knocking, and then proceeds to tear a piece of hide off your arm just because he doesn't like your looks or your liver—when these things happen, then there's sure to be a little unpleasantness and a funeral or two. Laredo has passed through an experience of this sort, and it required the State Rangers and a company of the Tenth United States Cavalry to restore order. The funerals took place a few days ago, and the wounded are doing as well as could be expected.

It all grew out of the discovery by a young doctor that there was smallpox across the river in Mexico. He hadn't been here long, and couldn't be expected to know that every well-regulated Mexican family on the frontier has its routine that must be lived up to; that it must have its smallpox in the spring, just as it must have its bull fights and fiestas in the fall, and its dances and fauanges and throat-cuttings in the so-called winter months. He didn't know these things, so he notified the Texas State Health Board of his discovery and had quarantine regulations put in force. That was the first sign of trouble. Gentlemen who had been dealing cards on this side and sleeping in Mexico found their pleasures and profits interfered with, and objected loudly to inspection. Then some joker typed that troublesome doctor off to the fact that there was a case or two of the disease right in Laredo. Made him think it was something new and extraordinary. Then the doctor got down to business in real earnest. An old wool warehouse was seized and converted into a pesthouse. It is in the suburbs, occupies a full block and is surrounded by a high board fence. On the other side of town a building set up for a cotton mill was turned into a detention hospital for suspects, and one of the first persons taken there was the joker who had stirred up the trouble on this side. The first cases were taken to the pesthouse, and then the trouble began to generalize. The relatives of those confined called at the pesthouse to see them, and were refused admittance. This was an undreamed-of outrage, and a section of the board fence was promptly torn down. That called the Mayor into the game, and he put the Sheriff in the field to guard the premises, and the Sheriff asked help from the Rangers.

Meantime the doctor had communicated again with the State Board of Health and had received instructions to make a house-to-house inspection of the town and scrape the grime of all persons who seemed in need of that sort of irritation. He secured five assistants and started out to have some fun. He had it. When the virus began to "take" the town got sore on the doctor and his assistants, and laid for him with clubs. But the doctor had another card up his sleeve. He ordered the removal of the obstreperous to the detention hospital.

Then the circus began in earnest, and gun-plays became frequent. A posse sent the rounds with the ambulance in which suspects were removed, and on the second trip the assistant city marshal was shot down. Then the Rangers were called away from that board fence to guard the ambulance. That was an invitation to scrap that no native Texan could ignore, and so formidable were the preparations made to wipe out the Rangers that the Mayor decided to suspend operations in order to prevent a massacre.

But there was no let-up on the part of that doctor. He kept after the State Board of Health, and finally, through the instrumentality of that body Uncle Sam sent in the game. He drew a handful of apaches and played his Tenth cavalry to beat everything in sight. The ambulance was sent out again with an escort of troopers and Rangers. They were fired upon, and the captain of the Rangers fell. Then the troopers let go, and the mob scattered—those of them that were able to get away. One of the leaders of the mob was killed.

Having had his little bit of excitement and expressed his opinion of the proceedings, the town has now quieted down.

A Thousand Tongues

Could not express the rapture of Annie E. Springer of 1125 Howard St., Philadelphia, Pa. When she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before." I feel like sounding its praises throughout the universe." So will everyone who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1.00. Trial bottles free at G. C. Hueston's Drug Store; every bottle guaranteed.

PRESIDENT GUERIN

Of the Anti-Semite League Planned to Fire the Building if Attacked.

Special from Paris: Anticipating an attack from the gens d'armes occupying an adjacent house, M. Guerin, president of the anti-Semite league, and his companions, who are barricaded in the headquarters of the league, poured petroleum in the room near a point from which the attack was expected, preparatory to setting it on fire. The anticipated move on the part of the officers, however, did not materialize. The streets in the neighborhood of the Rue de Chabrol, in which is located the anti-Semite headquarters, are quiet, but a strong force of troops is remaining on guard there. Ten of the men arrested for taking part in the recent demonstration were condemned to undergo from a week to two months in prison.

Swallowed Spoons and Needles.
 Eliza Day, colored, aged 60, a patient at the Columbus state hospital, who was received from Marion, O., 10 years ago, died recently from peritonitis. An autopsy revealed in her stomach the handles of five silver spoons and 30 cambric needles, and in the bowels nearly 50 more needles. About a year ago the woman told an attendant she had swallowed several spoons, but an examination failed to disclose the presence of any foreign substance in her stomach, and the woman never appeared to suffer any pain. The "bowls of the spoons are supposed to have been corroded by the acids of the stomach."

Dreyfus' Lawyer Has Recovered.
 Maitre Labori, leading counsel for the defense, who was murderously assaulted Aug. 14, was present at the beginning of the second day of the third week of the second trial by court-martial of Capt. Alfred Dreyfus, of the artillery, charged with treason. The wounded attorney put new life in the trial by attacking Gen. Mercier. He asked Mercier where he obtained certain papers that he is using against Dreyfus, but Mercier declined to answer, notwithstanding the court instructed him to do so. Labori says he will yet force a reply from Gen. Mercier.

Where the Money Went.
 The annual report of the auditor for the interior department has been submitted to the secretary of the treasury. The report shows that the total number of accounts and claims settled during the fiscal year ending June 30, 1899, was 25,333, involving the expenditure of \$173,598,233, being an increase over the last fiscal year of 2,659 claims, involving \$24,278,866. The great bulk of this money went, of course, to the government pensioners, \$139,775,141 being expended on this account.

U. S. Cruiser Rescued a British Crew.
 The United States cruiser Montgomery, captained by Rio Janeiro from Montevideo on the 21st. She reports having rescued the crew of the British steamer Nettleton, Capt. Vigers, from Norfolk, July 23, for Rio Janeiro, which was aground at Maricao, 20 miles east of Rio Janeiro. All the members of the Nettleton's crew were saved.

THIRTY YEARS' FIGHT

Heirs of Wm. A. Brickhill Gain a Suit Against the City of New York.

Through a report filed in the United States Court by Gen. E. G. F. Howard, Master in Chancery, in the suit brought against the City of New York thirty years ago by William A. Brickhill, a fireman, Misses Anna and Lucy Brickhill, their brothers, Harry and George Brickhill, the plaintiffs' children, are led to believe that a fortune awaits them.

Miss Anna Brickhill is a stenographer and daily comes to Manhattan from Belle Isle, N. Y., where her sister is a school teacher. In 1866 William Brickhill, a fireman, invented a device by which water could be constantly kept heated in the boilers of the engines. Brickhill permitted the Fire Department to use this invention on every one of the thirty-four engines then in the city. The device is used now on the engines of nearly every city in this country.

Brickhill obtained a patent in 1870. On refusal of the city to give him \$50,000 for the exclusive rights to the patent, he filed suit and resigned from the force.

Not until 1880 did the courts uphold the legality of the patent and appoint a Master in Chancery to determine the amount the city should pay. It has taken many years to settle that question. A short time ago it was reported that the city owed Brickhill's heirs \$885,124.

Attorney Raphael J. Moses, of No. 120 Broadway, became interested in the case in 1890. Brickhill had died, but his children, all of whom were born after the litigation was begun, were, Mr. Moses believed, entitled to the money. He has since fought to establish their rights.

Nearly \$200,000 has been expended by New York in fighting the suit.

Robbed the Grave.
 A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians gave me up. Fortunately a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed, at Geo. C. Hueston's Drug Store.
