### Dog's Fondness for "Greens."

Looks don't count with this dog. Charley Green, proprietor of the Novi hotel, has a dog more or less valuable. The dog is friendly and goes visiting among the neighborhood folk, but he likes a Green better than a Smith, Jones or Brown, and when some Greens et al of Detroit passed through Novi enroute to the lake to camp, the dog tagged along and a couple of days after he was mixing company with the Detroit Green and bound for the metropolis. Mr. Green of the Hotel Green didn't care to have the dog mix it up that way, so he summoned the police and soon had Detective Goodell and Judge Wixom ripping things up the back in an effort to locate the pup. The telephone was kept hot and the operator became nearly speechless "hollering." The camping Greens were brought on the carpet and it was a case of "either the dog or \$50." The dog got away from one of the Greens in Detroit and finally located him and he was returned to the bosom of his fond master after an expense of \$25, paid by the other Greens.

### Missionaries Had a Narrow Escape.

A report has been received of a serious riot in Chinese Thibet at a place called Pao-An, some 130 miles over the border from Kansu. The Christian and Missionary alliance have had a station there for about two years or so, and this has been attacked and looted by the Thibetans. The missionaries, the Rev. George T. Shields and wife with Mrs. Beth, barely escaped with their lives at Lanchow, where the China inland mission has workers.

### Catholic Orphan Asylum Burned.

The St. Agnes convent and orphanage at Sparkhill, N. Y., was destroyed by fire on Aug. 28th, entailing a loss of \$150,000 and causing the death of four persons. The fact that the 400 inmates were asleep at the time the fire broke out and only so few killed is almost a miracle, but the coolness and courage of the sisters is responsible for the great saving of life. About 25 were injured by falls, jumps and burns, but none seriously.

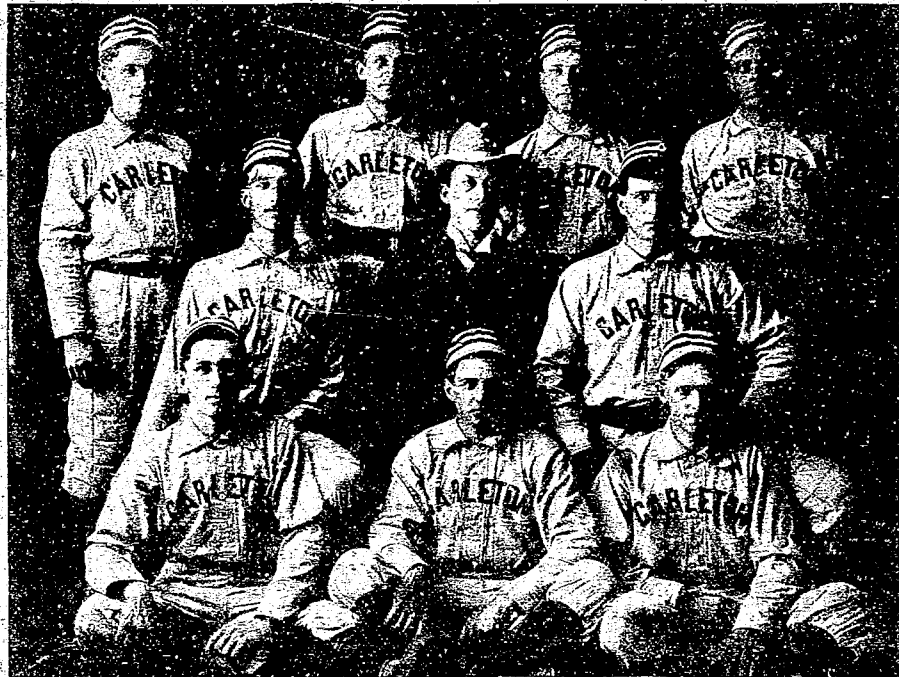

### Forest Fires in Colorado.

Forest fires, which it is thought were started by campfires, are raging on the foothills near the entrance to Platte canyon, about 20 miles south of Denver, Colo. The fire started five miles up the canyon, and burned over the mountains on both sides of the canyon and are now devastating the timber section along the foothills. There are a number of ranches in the vicinity and several of them have been slightly damaged by the fires.

Fire men met death by an explosion of dynamite in a mill at Cartersville, S. C. on the 24th.  
Judge Henry Hilson, of New York, is dead, aged 77. Deceased made millions of money in law.

## THE CARLETON SLUGGERS.

MONROE COUNTY'S FAMOUS BASE BALL TEAM, OF WHICH HARRY GERMAN, A FORMER NORTHVILLE BOY, IS PITCHER. THE TEAM IS COMPOSED ENTIRELY OF CARLETON BOYS AND THE CLUB HAS HAD REMARKABLE SUCCESS THIS YEAR. THEIR "RUBBER" GAME WITH MILFORD WILL BE PLAYED OFF HERE NEXT WEEK FRIDAY AFTERNOON.

### BALL GAME

#### Milford and Carleton Cross Bats Here Next Friday.

A red hot ball game will take place on the Northville grounds here next week Friday afternoon between Carleton and Milford. Inasmuch as Don Yerkes will pitch for Milford and Harry German for Carleton, both former Northville boys, the game will be of unusual interest for Northville people. Usual admission.

### The Man at The Front With a Camera.

We are requested by Quartermaster General W. L. White, to announce that the Military department of Michigan has commissioned Burrell's Press Clipping Bureau of New York to compile a Newspaper History of the Michigan troops and Naval Militia through the Spanish-American war, same to be taken from files of the Michigan papers published during the period of the war, and scrap-booked.

In addition to the newspaper stories, it is desired to intersperse in their order, camera pictures of scenes, incidents, groups and persons, as taken by officers and men and the object of this announcement is to ask that all who care to contribute to the work, send their pictures, (unmounted preferred) either to the Quartermaster-General at Lansing, or direct to Frank A. Burrell, 32 Park Row, N. Y. Accompanying each picture should be a memorandum stating plainly, who from, address, when and where picture was taken and what or whom it represents.

Anything else in print on paper that has any historical value in connection with the late war is solicited and will have proper credit. If anything contributed is not found acceptable, it will be returned with explanation.

The books when finished become the property of the state and open to the public.

### Foresters in Detroit.

On account of the foresters meeting in Detroit, the F. & P. M. will sell excursion tickets on Sept. 16 and to 20, all trains at rate of one fare for round trip with return limit to Sept. 30.

### Some Fair Dates.

Plymouth, Sept. 19-22.  
Redford, Sept. 26-28.  
Milford, Sept. 26-29.  
Pontiac, Oct. 3-6.  
Grand Rapids State Fair Sept. 25-29.

### Publisher's Notice.

Friends and readers of the Record will confer a favor on the paper, and themselves as well, by asking Judge of Probate Durfee to publish all notices of estates in which they may be interested, in the Record. The judge is perfectly willing and a request is all that is necessary.

### Suburban News.

Pontiac is going to have an automobile factory, and the horse must go.—If he isn't too balky.

Six decrees of divorce and four marriage licences were issued in one day at Adrian recently.

Milford wants a cheese factory and steps are being taken towards having one there another season.

Milford Baptists have called Rev. J. R. Bonner of Canboro, Ont. to the pastorate of their church.

Plymouth folks are highly pleased with the electric lights furnished by the D. P. & N. and now they want some more.

The Elsie Sun has hit upon a worse expression than "Sundared." It lately told how a certain pioneer society was going "reune."

A Detroit youth who jumped a \$250 bond bill at Milford found that when all the costs were reckoned in the amount was \$15.

The Ypsilanti is getting rather profane tendencies. It speaks about a proposed park location as "the hottest place this side of Ubeham."

And now Carleton has caught the electric road fever and is just aching to begin quarreling about franchises and their consequent complications.

At the Redford fair next month a thrilling race is billed as one of the attractions. There'll be fun by the bundle.—Adrian Press.

And music by the band.

Editor Bloomer of the Farmington Enterprise is once more at his post and Mr. McNitt has returned to Trent to substitute pedagogical for editorial honors.

Flint has effectually solved the tramp problem by arresting and fining all vagrants and then making them work out the amount of their fines at half a dollar per diem. The ordinance has been in force 7 weeks and there are no more tramps now to practice on.

In its "local" columns last week the Ann Arbor Courier had an item about Mt. Vesuvius. The editor must have secured the famous volcano about the time he "took in the West Indies." Well, he's welcome to it, but we hope he won't bring it any closer to Northville.

Even an editor's mental equilibrium may become endangered by a long continued absence of damp weather. The St. Johns News last week told a story of a farmer who came to that town with a load of apples and when he uncovered them those on the top were all baked by the sun.

Wyandotte Post-office matters have reached the status required to make that city eligible to free mail delivery, and the council at its last meeting passed resolutions indorsing a movement to that effect.—Northville Record.

What has the Wyandotte council to do with free mail business, anyhow? They don't know their letters in mail distribution. Uncle Sam permits no interference with his business by aldermen of cities though they often represent the fast male business of the place.—Adrian Press.

We will tell the Press man "what has the Wyandotte council to do with free mail business anyhow?" The council is obliged to tack up

street signs and see that each house is numbered. No charge for this information.

Ypsilanti is fast getting rid of telephone poles on her streets and putting the wires under ground.

Among the prizes given in the games at the Masonic and O. E. S. excursion from Wayne to Sugar Island last week were \$1 in postage stamps, six shaves and a picnic ham.

It is no longer the correct thing to speak of the "kissing bug." You must call it the cornobilimussingugus.—Delray Times.

The Times, like the rest of us, is evidently tired of hearing about that alleged osculatory insect and takes the above method of trying to make it impossible to talk about it.

The Detroit Embalmers' association had a trolly ride the other evening and a party at the home of one of their members at Wyandotte. They had a jolly time eating good things, listening to nice music and talking about their cheerful business operations. It is unnecessary to remark that they wouldn't let anything spoil it.

The D. P. & N. railway will probably very soon be running their cars to Northville, and this will indeed be a nice thing for everybody. The route of the D. P. & N. is one of the very prettiest in Michigan, and when the road is completed to Northville there is no doubt it will do a good substantial business.—Wayne Echo.

That "it" is a good word, but one is in doubt as to whether it refers to the route, Michigan, the road or Northville.

Pontiac people are much alarmed about the filthy condition of the Clinton river which flows through that city. The Gazette dramatically designates the stream "the river of death." The city's artesian wells are inadequate for the water supply and in cases of fire the undesirable fluid from the river has to be pumped into the mains.

The sensation of the season in several counties north of us is the movements of wealthy Mrs. Lemen of Fenton and her hostler lover with whom she eloped some weeks ago. The pair have been traveling through Wisconsin in a wagon and attracting a whole lot of attention by the difference in their mode of dress and general appearance. Mr. Lemen is very sour over the affair and has instituted divorce proceedings.

After this month postmasters will probably have to weigh all mail matter passing through their offices. Such an order is being prepared at Washington designed to take effect in October. This work in a complete sense has not been part of the duty of postmasters for twenty years. It is to be done now so as to have specific data as to the amount of matter handled, with a view of securing larger appropriations for the service.

## Our Duty is Here and Now.

The following reference to *Foreign Missionary Work*, by Frank Reed in Word and Works, contains so much palatable truth that we are inclined to reproduce it. It is applicable to almost any community for in the reaching out for "new fields to conquer" those at our very doors are too often entirely forgotten:

"Our duty is always right in front of us; we need not go long distances to find it. If we do our duty right now and here, we will save our care, for we shall find that the example will expand and fill up more space than we shall ever be able to fill with our little presence, with our bodies. A good act is like a voice; it expands in all directions, and can be heard at a long distance. A good act is like a light; it is reflected in all directions. We need not trouble ourselves to go over to Africa to teach the heathen; they stand at our doors and beg for mercy and bread every day in the year. To leave those and rush off to foreign lands is to turn these against you. That you do this, and have done it for years, no one can doubt who has had his ears and eyes open. The soul that is starving for bread is more in need of your attention than is the 'heathen' you try to reach. Charity begins at home, and if you practice what you preach, you will find that your good deeds will expand until they cover the whole of 'Darkest Africa.' When our duty is at home and in our own country, it is never abroad. We are never called upon to be in two places at once. When you go to one end of the line, and leave an unfinished work at the other end, you work evil at both ends. The man who needs charity at this end of the line, will think hard of you for spending the money in travel that could just as well have been used to relieve his wants or needs. The 'heathen' at the other end of the line, after once he gets his eyes opened to the facts of the case, will politely tell you that you had better go back and do your work at home before going abroad. Do you wonder why the laboring men do not fill your churches on Sundays? I do not attend your churches for the reasons I have pointed out, and I can put my finger on hundreds right near me, who do not attend church for the same reason. If you start in now to do your whole duty, you will find that within the period of one short year the example, the news of it, has spread all over the earth and those who do not do their duty, will be ashamed into it. It is not presumed for one moment, that you will act upon the advice given, but I thought perhaps it might do you good to know the truth. Christianity is one thing; churchianity is another and quite a different thing. I try to defend Christianity at all times; I cannot defend churchianity."

—Frank Reed in Word and Works.

## BEAR AGAINST MAN.

An Awful Grapple in Deadfall Pit in Washington.

It is doubtful if more vicious men were ever carried about in the pocket of a man than those in the possession of Ambrose Larsen, of Sphome, Wassa.

Larsen's narrative of the incidents leading to his wounding by a brown bear and the securing of four tusks as mementos is as follows:

"I have pre-empted on a quarter section of land lying about eight miles back of Sphome. There I have been living with my family for the last six years, improving the place, raising some stock and cutting shingle-bolts. In the latter part of last September two of my pigs were killed by bears. I hunted and waited up nights for the bears, but could not meet them. Then I built a deadfall, placing it directly in the only trail the marauders could reach the piggery by. One day, the trap one day I found an immense brown bear in it, the largest I have ever seen during a lifetime spent in the woods. The log of the trap had fallen across its haunches and broken its back. The animal was alive, however, and full of fight. I put two bullets from my Winchester into its head, and the bear turned over as if dead.

"I then climbed down into the pit to see the best means of getting to work at skinning the animal. In doing this it was necessary for me to pass my right arm under the bear's head. No sooner had my hand touched his head than, with a snap there was no avoiding, he raised and caught me by the right arm, just above the elbow, sinking his tusks deep into the bone. At the same time he sent his claws into the leg of my right boot. Fortunately, I had brought my Winchester into the pit with me, and had leaned it against the side, as it happened, within reach of my left hand. The bear had me securely gripped, and I could feel his tusks crushing on the bone of my arm. What the agony was you can only imagine; I cannot describe it. Getting the rifle stuck between my knees, I managed to work the loading lever with my left hand, and placing the muzzle of the gun fairly into the bear's right eye, fired. The shot sent the big brute into its dying throes. Like a vise its jaws settled down on my already crushed arm, until it seemed that flesh and bone must sunder, and the weight of the bear's head and shoulders would tear the arm away.

"However, endurance could not stand up under a strain long. Getting another cartridge into the rifle by the same tactics as before, I rammed the barrel of the gun alongside this, where a space showed between my shirt sleeve and the bear's tongue. (Larsen here showed the tusk with the mark of the rifle barrel upon it), and, showing the weapon as far down the brute's throat as my falling strength would allow of, fired.

"The bear was undoubtedly already dead, but only a slight relaxation of its jaws followed the second shot. I could not free my arm. The hold of the claw on my boot, however, relaxed. With this advantage gained I dropped to my knees, and, using the rifle barrel as a pry, forced the animal's jaws open. God only knows the awful agony I endured during that plying operation. But at last I managed to free myself. With my relief my grit gave out, and I fainted. The next I knew my wife and a neighboring rancher were beside me in the pit, endeavoring to staunch the bleeding from my arm. My wife had become alarmed at my long absence, and, knowing my errand when I left in the morning had made her way to the bear deadfall. Unable to raise me from the pit, she had walked three miles to the next cabin adjoining to procure the neighbor's assistance.

"I was taken to Fairhaven and hence to Victoria. Everything has been done that the surgeons of the northwest are capable of, and that is probably all that medical science can attain, for I have had good doctors. The crushed bone of my arm will not knit or force again. It continues to work out in small pieces. Every time one of these fragments of bone comes to the skin it forms an ulcer or boil in its efforts to free itself. The result is my arm, where the bear's tusks penetrated, is a mass of useless flesh. The pain comes from it constantly. I had decided to undergo an amputation when a friend told me of a surgeon in San Francisco who had performed several difficult operations in cutting away and placing out of diseased bone matter, and I am going to him as a last hope. If he cannot help me the arm must come off, for I cannot stand this awful constant pain much longer."

Regarding Smallpox.

It has been found that smallpox patients are least marked when kept in rooms darkened with red curtains. Sunlight passing through a red medium loses its chemical power. It thus prevents smallpox taking a confluent form. One of the sights of the next Exhibition will be microbes placed under prismatic rays. We shall see how the chemical rays—violet, etc.—stimulate or tickle them to death. The violet rays are the cause of sunstroke though the red rays have so far been blamed. They become dangerous only in the process. Red is heating but calming. Is this why children who are restless, feverish beings are so fond of that color and of pink? The Great Magus knew what he was doing when he went about under the shade of a big red umbrella.

He Would Find Out in Time.

The overturned coaches lay at the foot of the embankment, where they had rolled when the train left the track. The wrecking train had arrived, the crew had gone to work, and the wounded had all been cared for.

"Will you please tell me your personal experience in the accident?" asked a reporter, whipping out his notebook.

"You will read about them, sir," replied the solemn looking passenger with a slightly foreign accent, whom he had addressed. "In the book I shall certainly publish about this country."

## A CASE IN POINT.

Dissertation on the Virtue of Telling the Unvarnished Truth.

The hypocrites in which women indulge are very fatiguing," remarked Mr. Blykins, with that lofty and irritating air which he adopts when he feels like lecturing, according to the Washington Star. These social shams are as foolish as they are unnecessary."

"Do you think they are confined to feminine existence?" inquired his wife, gently.

"Of course they are. A man goes straight to the point. He doesn't descend to petty falsehood in an idle attempt to conceal his real motives and feelings. He doesn't say, 'I wish to avoid calls.' He doesn't gush and coo over somebody and then talk about him behind his back. He says what he has to say straight from the shoulder and never takes any of it back."

"Don't you think that there are little conventional fictions which it is just as well to employ, if only for the sake of one's own self-respect?"

"Never! This world would get on twice as smoothly if nobody said anything he didn't absolutely mean."

"By the way," she exclaimed, abruptly changing the subject, "did you write to Mr. Squidly to-day as you said you were going to?"

"Yes. And there's a case in point. I didn't mince words with him. I put it all down in black and white. I told him exactly what I think he is and then looked in a book of synonyms for more forcible words. I was very good, but was some satisfaction to call his attention to himself and let him know that there is somebody who isn't to be fooled by his hypocritical mask."

"With my own name, of course. I wouldn't send anything anonymously."

"What did you put before your name?"

"Why, I wrote the usual line 'Yours very respectfully'."

And then Mr. Blykins relapsed into silence.

Bamboo Curtains.

An amusing story, illustrative of the difference between eyes and no eyes, is told by the New Orleans Times-Democrat.

"I noticed such a sweet decorative idea on this street yesterday," said a lady visitor to a New Orleans friend, while taking a trolley ride near the French market. "It was a house," she continued, "hung at all the second and third story windows, with pale yellow bamboo curtains. They were perfectly plain and all of the same shade, but you have no idea how they set off the old place. Why, they simply glorified it."

"Hu-m-m," mused her friend. "I don't recall the house. Just point it out as we go by, will you?"

Presently the visitor uttered an exclamation. "There it is!" she cried. "The house of the bamboo curtains! I saw a colony of artists must live there!"

"A colony of Italians," said her friend, grimly. "That's not bamboo. It's a spaghetti factory. They hang the stuff out there to dry."

Foresters Elected Officers.

The annual election of officers in the supreme court of the Order of Foresters of America, which took place in Detroit on the 23d, resulted as follows:

Thomas J. Ford, Pittsburg, supreme chief ranger; C. P. Rendon, California, supreme sub-chief ranger; Thomas F. Donahue, Rhode Island, supreme treasurer; E. M. McMurtry, New York, supreme secretary; S. B. Morris, Massachusetts, supreme recording secretary; Dr. M. S. Clark, Ohio, supreme medical examiner; J. C. Smith, Connecticut, supreme senior woodward; H. W. Mace, Pennsylvania, supreme junior woodward; George W. Black, New York, supreme senior beadle; James T. Wafer, New York, H. G. Stoetling, Washington, and J. J. Doyle, New Hampshire, supreme trustees.

Double Murder and Suicide.

Emmett Blanchard, aged 28, of near Towanda, Pa., shot and killed an old man named Mingle and his own wife, and then turned his revolver upon himself and committed suicide.

Mrs. Blanchard was engaged in washing when Mingle came to the house for a pail of water. As he was leaving the premises Blanchard rushed out of the house and fired, his wife remonstrated, and had not ceased speaking before she fell dead into the wash tub. Then Blanchard fired two shots into his own head, the first simply making a scalp wound.

Another fatal accident has occurred on the Carletons division of the Mexican Central railroad. A mountain engine was coming down the steep grade when it was thrown from the track and fell over a precipice into a mountain gorge, 1,000 feet below. Four people were killed.

C. C. Yerkes Attorney, Northville, Mich.

MORTGAGE SALE.—Default having been made in the payment of the semi-annual interest on a certain mortgage made by Lydia J. Leonard and Walter C. Leonard, his wife, to William G. Lapham, dated June 30, 1895, and recorded in the office of the Register of Deeds of Wayne county, Michigan, on August 18th, 1895, in Liber 469 of mortgages on page 192, and said interest having remained due and unpaid for the space of 30 days, the said mortgagee hereby gives his option granted by said mortgage and declares the principal sum of said mortgage with all arrears of interest thereon due and payable immediately, and on which there is claimed to be due at the date of this notice the sum of one hundred, thirty-one and ninety-five one-hundredths dollars—\$131.95—and no suit or proceeding in law or equity having been instituted to recover the money secured by said mortgage, or any part thereof, now, therefore, by virtue of the power of sale contained in said mortgage, the same having become operative according to the statutes in such case made and provided, notice is hereby given that on Wednesday, the 18th day of October, A. D. 1899, at twelve o'clock noon—city time—I will sell at public auction to the highest bidder at the western front door of the City Hall in the City of Detroit, in said county—that being the building wherein the circuit court for the County of Wayne is held—the premises described in said mortgage to pay the amount due thereon and all legal costs, charges and expenses of sale, including an attorney fee of \$15.00 as stipulated in said mortgage and allowed by law, to-wit: Lying and being in the City of Detroit, County of Wayne, State of Michigan, and described as: Lot fourteen—14—of Dan. #### GT Interest to Tax Payers.

As time for paying state and county taxes will soon be at hand, the tax-payers of the state will be interested in several important amendments made to the general tax law by the last legislature. Section 59, which formerly provided for interest on delinquent taxes at the rate of 5 per cent per annum and the addition of a 4 per cent collection fee, was amended so as to make the penalty 1 per cent a month, the additional collection fee being retained.

Under the previous law there was no charge for the cost of advertising, etc., until the lands had been advertised and made subject to sale. The advertisement was made in April and there was no charge on the account mentioned until the land was actually offered for sale. An amendment increases this expense from 70 cents to \$1 per description, and makes the charge a lien upon the land on Oct. 1 next preceding the time prescribed for the sale of the land.

Lands now held for unpaid taxes of 1897 will be sold for taxes, unless the latter are sooner paid, in May next. Under the old law the expense of this sale, which has been increased to \$1, would not become a lien until that date, but the new law makes a lien on Oct. 1 next.

Another amendment is the restoration of the fee payable to county treasurers for tax certificates to accompany warranty deeds. This was reduced from 25 to 15 cents and subsequently abolished, but the last legislature restored it at the latter figure.

#### Daring Hold Up.

Michael Dodovan, Jos. Wilson and Frank Reed, hoboos, are in jail at Lansing on a charge of robbery with a deadly weapon accompaniment, a crime for which life imprisonment can be imposed. Their victims were David Sparks, Jesse Delosh, Oral Van Helden and Jos. Popezinski, aged from 16 to 18, all of Grand Rapids. They are all detained at Lansing as witnesses, except Popezinski, whose treatment forms the most tragic part of the affair. The boys were sons of respectable families, having left home, unbeknown to their parents for the purpose of doing a little hobnobbing just for the fun of it. Popezinski told the robbers he had no coin, but after investigating they found 30 cents on his person, and for telling a lie the tramps threw him off the top of a box car while the train was running about 18 miles an hour.

Later—Popezinski says he dropped off the train and walked home, rather than stand the abuse of the tramps.

#### Prisoner Leaped to Death.

Unfortunate Mary Ann Carr, 25 years of age, dived to death from the lower deck of the steamer Darius Cole into the waters of Lake St. Clair on the 27th, while on her way from her home in Port Huron, to Detroit, in charge of Detective Judson C. Lombard. The steamer was stopped and small boats lowered, but all efforts at recovery were futile, for the body soon sank out of sight. Some of the passengers say they saw it come to the surface but once and then it disappeared. The young lady was being returned to Detroit to answer to the charge of grand larceny. The cause of the drowning was not due to Mary's fear of being convicted or of serving a possible five years, but simply because she did not like the idea of the detective bossing her around.

#### Four Metamora Men Indicted.

The grand jury convened on the 28th long enough to file indictments against four prominent Metamora men in connection with the wrecking of the Cross Roads Weekly plant, last April. Judge Smith discharged the jury and fixed the bail at \$500 in each case. Those indicted are: Frank Brigham, Elmer Moses, Chas. Vankirk and Alva Wilbur. Editor Doty's print shop was completely wrecked during the night, because of the opposition to certain politicians of that village. Numerous arrests and suits preceded the wrecking of the plant, and a determined effort was made to put Doty out of business.

#### Lit Cigars With \$5 Bills.

George W. Hawkins, for 33 years a resident of Alpena, was recently buried from the county house. His body was laid to rest in the potter's field. There were no mourners and no funeral service. His coffin was paid for by the county, yet in the days of his early residence in Alpena he sometimes with a reckless laugh would touch a match to a \$5 bill and with it light his cigar.

Indications all point to the largest corn crop in many years in St. Joseph county.

Not a single couple took advantage of the offer to be married free at the recent Macabee picnic at St. Joseph.

Fields are too dry to plow in Arenac county and farmers will soon begin cutting corn if the dry weather continues.

At a meeting of the physicians of southern Michigan and northern Ohio and Indiana, the Tri-State Protective and Medical association was organized with the following officers: President, Dr. Fenton, of Reading; secretary, Dr. T. R. E. Bell, of Montgomery; treasurer, Dr. James Bates, of Camden.

### Weekly Crop Bulletin.

The weekly crop bulletin of the Michigan weather bureau says that light showers occurred in portions of the upper peninsula, in scattered localities in the northern counties, and in the extreme southeaster portion of the lower peninsula. Over the greater portion of the lower peninsula the weather conditions have generally been a continuation of the drought. Hot, dry weather and nearly cloudless skies have have continued and intensified that on high land, has been badly injured, and many farmers have been cutting it for fodder. Bean harvest is in progress, but the crop has been shortened by the drought. Late potatoes are suffering greatly for want of rain, while pastures are so badly dried up that many correspondents report that it is necessary to feed their stock. Considerable plowing for wheat and rye has been done, but generally the soil has been so dry that plowing is difficult and many farmers have stopped that work and are waiting for rain, before beginning again. The drought has greatly damaged spring seeding, and in the southern counties will materially shorten the crop of sugar beets. Buckwheat is filling badly. Reports indicate that apples continue to fall in large quantities, and the present outlook is for a light crop.

The commission which has been engaged in distributing the \$3,000,000 appropriated for the purpose of paying off Cuban soldiers who surrender their arms to the American officials has returned to Havana. It reports that 33,692 persons have received their share of the gratuity and that the total amount of money distributed is \$2,526,900.

All haste is being used to dispatch the troops now waiting at San Francisco to Manila. It is expected that the entire casual detachment now at the Presidio will set sail within about two weeks. The Puebla left on Aug. 29 with 650 recruits, the Warren goes on the 1st and the Columbia on the 5th with as many recruits and casuals as they can carry. If these assignments do not take up all the recruits now at the Presidio, the remainder will be shipped on the Sheridan, which will be ready in about 10 days. The Lee-lau will leave with her horses on Aug. 31.

## What Have You to Print?

Good printing means revenue—poor printing expense. Printing, like clothes, should be made to fit you. The more exacting the job, the more certain you are to be satisfied here. Why shouldn't good printing hold precedence over commonplace efforts? A thoughtful expenditure in printing is the wisest economy. Test the matter—save the dollars. Every taste finds satisfaction here.

## THE LAMP THAT LASTS.

### The New Rochester.

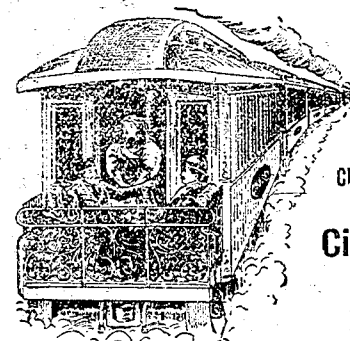

Fifteen years ago we began the manufacture of centre draft lamps. A dealer bought one of the first and placed it in his show window. Each day it is filled and lighted; occasionally it is cleaned and rewicked. That lamp is good to-day.

Soon as The Rochester was demonstrated a success, a host of imitations sprang up. A few of the better ones still survive; the rest are gone. Why? "You can fool all the people some of the time," but not all the time. One New Rochester Lamp in a household is but a beginning. Soon there will be others. Do you want to know why? Write for printed matter if interested.

## NEWSY GENERALITIES

ITEMS GATHERED FROM ALL DIRECTIONS.

Britishers and Boers Still Making Preparations for War—The Cleveland Street Car Strike to be Investigated by State Authority.

New Coliseum at Chicago Collapsed.

Twelve steel arches, each weighing 33 tons, which were to have supported the superstructure of the Coliseum building in course of erection on Washington avenue, Chicago, fell to the ground late on the afternoon of Aug. 28th. It is known that nine lives were crushed out. The bodies of two men are supposed to be under the wreckage. Ten are in the hospital with injuries received in the accident and of these four will surely die, one may possibly recover and the rest are for the greater part seriously injured. The immense "Traveller," or derrick, which had been used in the erection of the arches, had been removed and the agents of the bridge company were accounting their work as practically completed, when suddenly and without the slightest warning the arch last put in place suddenly fell over against the one next to it. The weight was too much for this; it gave way, crashed against the third, and then, one by one, the great steel spans fell over to the south, precisely in the same manner as a number of cards would fall.

Making Preparations for War.

The Cape Town correspondent of the London Daily Mail says: Despite the virtual blockade of war material in Delagoa bay, the Cape government is sending enormous consignments of munitions of war to Bloemfontein. During the present month over 2,000,000 cartridges have been sent and 500 rifles were despatched recently from Port Elizabeth to Bloemfontein. In addition to this the Cape ministry, while absolutely declining to arm the volunteers of the colony, continues to afford other facilities to the Orange Free State to arm its burghers just across the water, freely granting the use of the colonial railways for the distribution of cartridges from the Bloemfontein arsenal to the border towns. The patience of the people is becoming exhausted, and unless the imperial government acts quickly and decisively the gravest damage may ensue to British prestige. England is also making daily preparations.

Cleveland Strike to be Investigated.

It is probable that the state board of arbitration will investigate the Cleveland street railway strike on the demand of the executive committee of the strikers. Thus far the board has not tried to settle this strike because it had not the power to do so unless both parties were agreed. The law provides, however, that in case there is no arbitration either party may ask for an investigation which will be judicial in its nature, and ascertain who is responsible for the strike and its prolongation. The strikers were asked by the central labor union to demand such an investigation. Secretary Bishop, of the state board, is now in the city and he says he is ready to take up the investigation if it shall be demanded.

Santo Domingans Ask Armistice.

A dispatch from Porto Plata says that an attack was made by the insurgents on the 28th on Santiago. The revolutionists are gaining in strength daily. Another camp of the insurgents has been formed outside the city, and residents are eagerly joining it. The government has sent a committee to suspend hostilities for 90 days and then proceed to elections. Owing to its financial straits the government will not be able to sustain the present situation long. Besides, American intervention is feared in case there is much fighting.

Jumped on His Stomach.

Henry Marron, a wealthy farmer, aged 67 years, residing a few miles from Allen, Neb., was killed on the 24th by Maurice Casey, another farmer, aged 26 years. There has been a feud between the men for some time, and Casey has been heard to make threats of killing Marron the first time he met him. On the day mentioned, the men met and the quarrel was quickly renewed. Casey knocked his opponent down and jumped upon his stomach, killing him almost instantly.

Railroad Accident in Chile.

A great railway accident occurred at Santiago de Chile on the 24th. An entire train fell into the river Mapocha, which runs through that city, and many lives were lost. Although the tremendous storms that have been raging for a fortnight throughout Chile continue, there has been some abatement. Advances from various points indicate widespread distress and misery. Valparaiso and other cities have suffered severely.

Admiral Dewey will arrive in New York on Sept. 28.

The total amount raised for the Dewey home fund up to and including Aug. 25 was \$19,943.

On Oct. 16 the work of taking the Cuban census will be commenced. It may take two months to complete the work, and when finished elections will follow and autonomous governments established where possible.

Severe fighting took place on the 23d and 24th in the neighborhood of Monte Christi, Santo Domingo, between the government forces and the revolutionists. It is said the former lost heavily, while the latter, owing to the advantage of the positions they occupied, only suffered slight loss. The revolutionists are reported to be continually receiving reinforcements.

### Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or tinnitus, ringing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### The City in Brief.

Council meeting Monday night. C. O. Dickerson is moving to Plymouth. Base ball game here next week Friday. Geo. Rattenbury has been quite ill for a week past. The Record has just entered upon its 31st year. Born to Mr. and Mrs. Burns Freeman, August 29, a boy. Dr. Walker will be at the Park house next week Tuesday. Gordon Allen has moved his Taylor shop to the rooms over the post-office. Special meeting of Orient Chapter No. 77 OES for work this Friday evening at 7:30 o'clock. During Attorney Yerkes' absence in the west J. Y. Blackwood of Detroit is attending the former's office work. Annual school meeting Monday night at which time two trustees are to be elected in place of C. L. Dubuar and W. H. Ambler. A "neighborhood" picnic was hugely enjoyed on the joint lawns of J. D. McFarlin and E. N. Root last week Friday evening. There will be Episcopal service in the WCTU hall Tuesday morning Sept. 5, at 10:30. Holy communion at 11:00 and evening service at 7:30. All welcome. LOST—In Northville Tuesday, Ladies' black pocketbook with card bearing name, Jane McCrumb. Contained about \$33. Reward if left at Sands & Porter's or return to owner Mrs. T. C. Hewitt, Novi.

Live for those who love you. For those whose hearts are fond and true. The only way to do this right. Take Rocky Mountain Tea at night. Ask your druggist.

Christian Science service Sunday morning at 10:30 o'clock; Wednesday evening at 8:00 o'clock at the WCTU hall. Subject for Sunday morning "Substance." Wednesday evening testimony meeting.

Ed Starkweather's pacing colt Expert King, by Expert Prince 2:13, won the blanket at the Milford Matinee last Saturday in the colt race. This colt is quite a promising youngster, having showed his ability to step better than a 2:20 clip without any regular training.

M. Fred Gray, for some time publisher of the Plymouth Mail has purchased the North Lansing Record. Mr. Gray is a bustling newspaper man and thoroughly understands the job-printing department. He is also a genial good fellow and we predict for him abundant success in his new venture.

"On the Road" Company under the management of H. H. Lamkin of Detroit will fill a date at the opera house here on Sept. 29. The company comes well recommended and inasmuch as the local opera house has been closed for so long, the entertainment will doubtless be well patronized.

Of all the true fish stories told by the various returning lake campers Mrs. Henry thus far has one that outclasses 'em all. That lady had all kinds of luck and seemingly the fish would fall over themselves to get hold of her hook. One day she landed in a huge bass with one hand and before she could extract it from the hook two more beauties seized the two hooks dangling from another line and was still holding and these she quickly landed making a trippie catch in less than five seconds.

The Northville Dowel Works are now running eleven hours a day with an extra large force trying to keep pace with the many orders on their books. A. W. Ely, the manager and proprietor of the works, says that he has been unable to carry a stock of dowels and mouldings, as they have not been without orders on their books since he purchased the plant three years ago. At present they are working on three large orders to be shipped to Chicago, Worcester, Mass. and South Union, Maine. This is a small industry to Northville that ought to be encouraged as it appears to have the making of one of the leading industries of the town. It is suggested that the Improvement Association look into the matter. It is hardly necessary to go out of Northville after factories if some that are already here can be developed advantageously.

Northville Odd Fellows must have lost at least two of the three links that chain them to the order. Some of them thought they could play ball and went to Plymouth and were waylaid by a score of 54 to 3. Even the good Samaritan had no heart to give them comfort and sneaked off one side as did the priest and the other tramp that passed that way, just after the outrage. But the arrow landed way over in Dearborn beyond there, out of sight, and what they saw before them was an old rocket stick, left over from a 4th of July celebration. These Northville Davids got into a veritable abiding place of the Plymouth Squi, so didn't know enough to run when told. Northville Odd Fellows better have a school of instruction. Every time a Plymouth slugger hit the ball it went sailing over the fence, and the batter went flying around the bases, and kissed his hand to the umpire and pitched as he scored. 54 to 3! That great bawl for Northville Odd Fellows.—Adrian Press.

You'll never get tired, tagged out, disappointed, unhappy, or make mistakes in marriage if you use Rocky Mountain Tea. Ask your druggist.

Rev. J. H. Herbener resumed his services in the Presbyterian church last week and next Sunday services will be at the usual hours.

Noxious weeds are growing in abundance about the streets to the discredit of the village and injury to the dresses of ladies who pass along the walks.

Dr. M. A. Patterson has accepted the assistant professorship to Prof. D. A. McLachlan in the Homeopathic college in Detroit and will soon move to Wayne where he will reside.

Mrs. A. C. Harmon has a photograph of General Grant, taken by her cousin from life at St. Louis, Mo., in 1896. The picture bears a copyright notice and has on the back a three cent revenue stamp.

Supt. Loeffler of the Northville schools is putting out some very neat folders announcing the attractions and inducements of the Northville school for the coming year together with a list of the teachers, text books, etc.

Rumor has it that the M. E. conference in Detroit next week has a more important place picked out for Mr. Ward and that he is not likely to be again returned here. Northville people in general will regret to learn this.

### Whitney's Opera House—Detroit.

Al. W. Martin's big company of 60 white and colored people are presenting "Uncle Tom's Cabin" at the Whitney Opera House, Detroit, this week with Saturday Matinee.

Next week's attraction will be "Finnigan's 400" with those two imitable comedians Murray & Hack. Of all the three comedies on the road none is more interesting than "Finnigan's 400." It is filled with music and mirth and its cast includes some of the best comedy artists on the stage. Murray & Hack are known as comedians and their new plays have always been popular card at the play-house.

Teachers, clerks, young people from the farm should get a catalog of the Fenton Normal School and Commercial advertised on page 5 of this issue. The school is highly recommended by those who know of the work. During the past year many from this locality have attended there, all are well pleased with the school. The fall term of this school opens next Tuesday Sept. 5, '99.

### Wm. H. West's Big Minstrel Jubilee at Detroit.

Wm. H. West's Big Minstrel Jubilee which will be seen at the Lyceum theatre next week commencing Sunday night, is the largest and most attractive organization which he has ever formed. There can be hesitating that the advance announcement will be fulfilled; for "Billy" West, never disappoints. During a career of over twenty-five years, he has always kept faith with the public, which is one special reason why he invariably draws large audiences. The Lyceum management has concluded to retain the Monday matinee through the regular season. This will give out of town patrons a better opportunity to secure seats at these popular performances which are always crowded. Seats may be secured by telephone.

### August Flower.

"It is a surprising fact," says Prof. Houton, "that in my travel in all parts of the world, for the last ten years, I have met more people having used Green's Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feeling from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at Murdock Bros. Sold by dealers in all civilized countries.

### The Adrian Press Man Is Posted Not.

One Evans, over in Northville who was acquitted on some charge by a jury, was taken from his home, a rope placed around his neck, and he was dragged a distance and hung to a tree. When he said he would leave they let him down. He sued the gang, and every obstacle is being thrown in the way to prevent the prosecution. The circuit judge now holds his influence for the miscarriage of justice, by ordering the man to give security for costs in the sum of \$200. It is no credit to the fairness of the court making the order. Those men deserve punishment, and ought to get it.—Adrian Press.

Evans was never dragged an inch nor was he hung to a tree. The rope was thrown over a limb and a gentle pull was given that barely straightened up Evans' chin. The "gang" are respectable, law-abiding citizens and their action was to rid the community of Meads Mills of what they deemed to be a dangerous character. The damage case is being pushed by Evans' lawyer, on the no-case-no-pay plan. The best and most influential people in that section, and this will doubtless include Evans' own wife, do not think "those men" should be punished nor do they think they will be. The Press is jumping at conclusions and from Adrian to Northville is a big leap.

Virgil's Big Nugget. A single chunk of gold weighing ninety-eight pounds and worth \$11,750. This was the size and value of the nugget that E. H. Virgil of East Portland found in French Gulch, near Cold Hill, Columbia county, Cal., in 1857. "I tell you," remarked Mr. Virgil, as his eyes lighted up with the recollection of that famous find, "that was the event of a lifetime and caused much excitement all over the country. Up to that time it was the largest nugget that had ever been uncovered in California. It was a mere accident, and some one else might have been the lucky one."

I had a partner named West, and we had been mining on French Gulch, but were not doing much, and we decided to go over to the Franer river, and we sold out the very claim where I afterward found the big chunk of gold. Well, I went up north but that did not pay out very well and I decided to quit. West and I actually went back and bought back our old claim. We went to work again on the old ground. One day I was working away with my pick, taking out pieces of dull red stone that was so light and porous that it would float in water. While I was digging in the stuff my pick struck something hard. I worked away and finally the lump was exposed. My pick had creased one side, exposing the color of gold. I could not believe my eyes. I took off my hat and threw it on the ground and then tried to lift the chunk, but it was too heavy. It seemed fast to the earth. I cut my finger several times. I called to West, and as he came I thought I could bang my coat on his eyes. Miners gathered from all directions. It was a custom for a miner when he found a big nugget to sit down on it, and with a dish of beans, wait till he could make a safe disposition of it. In this case we formed a procession and took the chunk to the express office, where the amazement of the officials was great indeed. The chunk of gold had some quartz in it, but I received \$11,750 for it. I suppose it must have been thrown where I found it from some distance. I and others had passed over the place many times, but never dreamed that it was underneath. We sold out the claim, but it never paid very much afterward.—Morning Oregonian.

The Misses Shepard of Lansing spent Sunday with friends here on their way home from the assembly. Their father was a former Baptist pastor here.

The ball game last Saturday between Walled Lake and Commerce was a sort of a "scrub" game. At the end of the eighth inning when they quit, the score was 17 to 57 in favor of Walled Lake.

A. M. VanTassel and daughter and H. F. Andrews and wife have just returned from a very enjoyable ten days' outing at Devils lake. Their party consisted of W. L. Smith and family of Mosherville, G. B. Griswold and family of Adrian and O. H. Beach and family of Rome. These gentlemen will probably be recognized by old soldiers as a part of Co. H. 5th cavalry, otherwise known as "Parry's Guerrillas." They organized there to meet next year at Walled Lake.

### Remarkable Rescue.

Mrs. Michael Curtin, Plainville, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated a month by her family physician but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well, now does her own housework, and is as well as she ever was.—Free trial bottles of this Great Discovery at Geo. C. Hueston's Drug Store. Only 50 cents and \$1.00, every bottle guaranteed.

## WAR NOTES.

Naval Constructor Hobson has submitted to the navy department a supplemental report to that recently made on the condition of the Spanish ships raised from Manila bay and now being rebuilt under his supervision at Hong Kong. These ships are the Isla de Cuba, Isla de Luzon and Don Austrias. He sets forth in detail the condition of work. He says that they were more damaged by fire than by shot, and that most of the rebuilding has been made necessary by the burned woodwork. They were 80 per cent completed on July 1, and Mr. Hobson says they will be ready to turn over to the navy for service within six weeks after the arrival of the batteries and the electrical plants. These were shipped some weeks ago, so that there is every prospect the vessels will be in commission before long.

Gen. Hughes, of Iloilo, reports four soldiers ambushed, killed and mutilated, a few miles south of the city of Cebu. No names are given. Robber bands, in Negros, have been scattered, and most of the members are returning to work on sugar plantations. Tagalos who had entered that island were severely punished, and conditions are favorable for the formation of a civil government under military supervision, as has been directed. There is little change in Panay and Cebu islands. The withdrawal of volunteers and regulars, discharged under order 40 last year, has prevented active campaigns in those islands, which meditated reinforcements will cure.

The war department gave out for publication an interesting statement of the financial condition of the island of Cuba. It shows that under the management of the United States government the receipts of the island from Jan. 1, 1899, to June 30, of the current year, exceed the expenditures by the very handsome sum of \$1,480,021. This statement probably will be a surprise to many persons who had thought that Cuba under the military occupation of the United States was not self-sustaining.

The Philippine holidays are rather unique in the mixture of native and American days. They are: Circumcision, Jan. 1; Three Kings day, Jan. 6; Purification, Feb. 2; Washington's birthday, Feb. 22; Holy week (two days), Thursday and Friday; Ascension day, May 1; Decoration day, May 30; Corpus Christi day, June 1; Independence day, July 4; Assumption day, Aug. 15; Labor day, Sept. 4; All Saints' day, Nov. 1; Thanksgiving day, last Thursday in November; St. Andrew's day, Nov. 30; La Purissima Concepcion, Dec. 8; Christmas day, Dec. 25.

A report received at Manila from Cebu says Datto Mundi, with his tribesmen, has taken the warpath against the insurgents who are holding Zamboanga, and has given them a warm battle. Mundi welcomed Gen. Bates, saying he was anxious to become an American citizen and asked permission to fight the insurgents. He was given an American flag. Gen. Bates has returned to the Sulu archipelago to arrange for establishing American garrisons there.

A dispatch from Rome says that his holiness, the Pope, is concerned about the war in the Philippines. He has communicated his anxiety to Rev. Fr. Reaney, chaplain of the Olympia. Leo expressed a strong desire to see peace between the United States and the natives, and said that he contemplated the opening of negotiations with the United States government with a view to regulating the position of Catholics in the Philippines.

It is not likely that any more cavalry regiments will be organized, save the one which Gen. Otis formed in the Philippines. Gen. Otis has cabled that cavalry cannot be used to the best advantage in the islands, and, in his judgment, the two regiments of regular cavalry and the volunteer regiment will be sufficient to meet all needs of the campaign.

Since the beginning of the Spanish war there have been enlisted in the regular army 90,671 men. This includes those who were discharged after the close of the war and the increase of the regular army for service in the Philippines. Three hundred and ten thousand and sixty-five applied and were rejected.

The controller of the treasury has decided that a volunteer who enlisted in the navy for the war with Spain and who was discharged at his own request before the expiration of his term is entitled to the extra pay provided in the act of March 3, 1899.

Modern inventions will be brought into play to secure communication between American troops operating in Luzon and to prevent night attacks on American intrenchments. Wireless telegraphy and a powerful moving searchlight will be used.

The secretary of war has appointed Alexander B. Speer, of St. Paul, Minn., chief of the division of customs and insular affairs of the war department, in place of Maj. John J. Pershing, who has been ordered to Manila for duty on the staff of Gen. Otis.

The Red Cross society has news from Manila that Aguinaldo has promised to release all sick Spanish prisoners. Wonder how many more times he intends making that promise before he fulfills it?

President McKinley in welcoming the Pennsylvania troops home from the Philippines said that it was his intention to push the war to a close, and that all the soldiers and guns necessary for a speedy suppression of the rebellion would be sent to the Philippines.

Louis Burkhor, an eccentric and well-to-do German, aged 50, of near Shelbyville, Ind., had a quarrel with his wife and she went to the home of a neighbor for protection. During the night the old man blew up his own home with dynamite and then blew out his brain with a pistol.
