FARMERS' INSTITUTE AT PLYMOUTH

VERY INTERESTING ONE HELD THERE LAST WEEK.

A Number of State Speakers Were Present Both Days.

The State Farmers' Institute never held a more interesting meeting than that for Wayne county held at Plymouth last week Friday and Saturday. The chief attraction was Farmer C. C. Lillie of Coopersville, one of the state speakers who spoke at each of the five sessions. Lillie is a regular whirler and ought to have been a lawyer or a congressman. He is well posted on about everything that does pertain to farming and about everything that doesn't.

The hall was well filled at each session and the talks were all closely listened to and were certainly interesting to those present, who were not farmers as well as those who were.

T. S. Clark of Plymouth made a fine opening address Friday morning and T. C. Sherwood "jollied" the audience in great style. L. J. Post talked on horticulture and told how to get the best results by spraying the fruit trees. Chas. Smith of Plymouth interested the farmers on peach culture.

In the afternoon J. A. McDougall of Ypsilanti gave a good talk on "Rural Schools," which was followed by Hon. Delos Fall on "Rural High Schools." Mr. Fall thought the time would come when a central graded school would be established in each town and the children conveyed by wagons each day to and from the school.

In the evening the Plymouth school pupils furnished several selections of exceptionally choice music. L. L. Post gave a talk on "Life's Work" and F. S. Neal followed with a paper on the tax question, and then Mr. Lillie told the audience about the farmers' education and he took a whirl at the farmers who deserted the farm to become "retired farmers" in the village or city.

Saturday forenoon Mr. Lillie talked on "Thoroughness in Farming," and Ernest Riggs had a very interesting paper on "Rotation of Crops on a Dairy Farm."

In the afternoon Mr. Post talked on "Fruit Gardening," and D. F. Griswold of Northville gave a sweet talk on "Maple Sugar" and showed the farmers how that bees weren't in it with his row of maples.

C. C. Chadwick gave an interesting talk on "Farm Machinery" and showed the changes and improvements that have been made during the last score of years. Mr. Lillie then gave his final talk on "Enslage"

and T. S. Clark of Canton read a very interesting paper on "Forestry." The women's section held a very interesting session Saturday afternoon in the Presbyterian church. Very excellent music for all the meetings was furnished by Plymouth talent and delicious meals were served in the Presbyterian church by the fair ladies of that society.

THROWS SOME NICE BOUQUETS

AT NORTHVILLE, DOES EDITOR KENYON OF OHIO.

Married a Niece of Hiram Holmes of This Place.

After returning home from a visit at Northville Editor Kenyon of the West Unity, Ohio, reporter throws bouquets at Northville and vicinity. Mr. Kenyon married a niece of Hiram Holmes of this place.

"A side trip up among the hills that surround Northville and Novi is one of the most pleasant remembrances. This section was settled over seventy-five years ago and the once wooded hills have given place to broad fertile farms, fair to look upon even in winter and when clothed in living green must indeed be beautiful.

"Rolling enough to please the eye and yet the hills are not so steep as to discourage the tiller of the soil. What a paradise for the school boy with his sled those long hills would be.

"After a pleasant visit with relatives in Northville, a thriving village of two thousand inhabitants, we were given our first sleigh ride this season, north and east to the old homestead of Mrs. Kenyon's maternal grandfather Holmes, who purchased land of the government in 1825 and whose son now owns the farm. The fine old house, that has stood the storms of half a century, is the picture of hospitality and the visitor finds a warm and hearty welcome there.

"Advantageously located, the view is fine and the eye never wearies of the picture presented, and it was especially delightful to one used to the level stretches of William county.

"From this fine old home went half a score of sons and daughters to make other prosperous and happy homes.

"Seven miles to the northeast, near the little village of Novi, is one of these homes, that of Samuel Basset, and here we found a welcome just as pleasant as at the old home. From a new and modern built farm house, we here get one of the finest views that this land of beautiful views can boast of. Dairying is the department of farming made most of here. From one hundred to two hundred pounds of butter per week is made from as fine a herd of Jerseys as one could wish to see, which finds ready sale at Elgin prices in Detroit, thirty miles away. A complete little creamery near the stables is fitted with a United States separator and churn operated by a small steam engine. This is also used to shell corn and grind feed for the stock. It is a complete little plant and one

that would be appreciated by all housewives is that the milk is all cared for and butter made by the men.

"Ten days of rest and visiting among pleasant people is just the change that is appreciated and we return with increased interest in our work and a desire to make this the best year of our lives."

Good Health Dispenses Happiness.

It is a pleasure to be with people with sound health. They take such a hopeful and wholesome view of life and of things in general that they have a bracing, tonic effect on those around them. As a rule they are bright and good-natured and their abounding vitality seems to make the world in general happier.

It's not often that a Furniture store is able to offer a Reduction Sale, but here's a case and it ought to be taken advantage of.

We had a big sale on these goods, but through an error duplicate orders were given for these two lines of goods, and while we sold more than ever before during the holiday season, at the same time we have, in consequence of the duplication of the orders, too many left yet on hand and we will offer them at a good big reduction during this month.
