A FARM BOY FOR CONGRESS

CHARLIE TOWNSEND PRODUCT OF
CONCORD WHEAT FIELDS.

Successful Teacher and Business Man
--Brilliant Orator and Attorney.

Chas. E. Townsend of Jackson, the republican nominee for congress from this Second Congressional district is not only one of the best known and most popular men in this state but at the same time as a lawyer he stands with those who are at the head of the profession; as an orator and debater he has few equals in Michigan's great galaxy of public speakers, and as a brilliant and successful business man he stands the peer of any.

Mr. Townsend is just 46 years of age—but at that period when man is at his best. He has been his own way through life and what he has, and what he is, is the result of his own energy, toil and perseverance, coupled with honesty, industry, a genial disposition and a winning manner that has drawn about him a vast army of friends from all over the state, and especially in his own county of Jackson from all walks of life.

Until 19 years of age he lived and worked on the famous Concord, Jackson county. He graduated from the Jackson high school in 1877

and entered the literary department of the U. of M. but for lack of money was unable to remain more than one year. In 1880 he was united in marriage with Miss Rena Paddock of Concord and immediately after he entered upon the duties of superintendent of the Parma schools, a position which he held until 1884 when he was elected register of deeds of Jackson county and which office he held for ten years, being the longest continuous term ever served by any man in the county. Twice he and one other were the only men elected on the republican ticket and he comes before the people of this district this fall as a candidate who has never met defeat.

In 1888 he was a delegate from the third congressional district of Michigan to the National republican convention at Chicago. In 1896 he met many of the leading democrats in this state in joint debate and the chairman of the state central committee declared he did more for the cause of honest money and republican success than any other speaker in the state.

Mr. Townsend is an active member of the Maccabee lodge, Ancient Order of United Workmen, Elks, Royal Arcanum and the Masons, including Commandery and Shrine. Among his strongest supporters are the laboring men of his home city, who have on many occasions expressed their perfect confidence in him. In 1895 he was admitted to the Jackson county bar and has been in active practice ever since, he being a member of the law firm of Smith & Townsend, one of the leading firms in Southern Michigan.

As chairman of the state convention at Detroit four years ago and the speech he made at that time became the keynote of the campaign which followed. He is a firm believer in primary election law, which gives the people the right to nominate their own officers and was one of the first in the state of Michigan to advocate such a law.

Besides making public speeches in nearly every township in this district Mr. Townsend will make numerous

personal visits in order to not only get acquainted with the people but also to ascertain the needs of each section that he may be able to more intelligently take up such matters at the proper time.

Personally Mr. Townsend is a genial, whole souled gentleman to meet and he possesses exceptional qualifications for the office for which he has been honored with the nomination by the republicans of this second congressional district.

Saloonkeepers Now in Trouble.
Port Huron, Mich., Aug. 6.—Saloonkeepers who recently hired detectives to get evidence against druggists for violating the Sunday liquor law are now finding troubles of their own. Three of them have been held for trial to the circuit court for selling liquor last Sunday.

A Note From Tracy.
Spokane, Wash., Aug. 6.—The sheriff's office at Davenport received a message from Preston, stating that Harry Tracy spent all day Monday at the home of L. B. Eddy, a rancher on Lake Creek, three and a half miles south of Fellows. The outlaw made his appearance Sunday evening and took possession of the place. He is reported to have been there Monday night, leaving about 7:30. Planned to the well on a farm about a mile north of Odessa, where apparently Tracy had watered his horses, the following note was found: "The whom it may concern Tell Mr. Cuddehe to take a tumble and let me alone, or I will fix him plenty. I will be on my way to Wyoming. If your horses are any good, would swap with you. Thanks for a good drink."
TRACY.

Masked Men Held Up Train.
Dubuque, Ia., Aug. 6.—Two masked men held up the Chicago, Burlington & Quincy limited, northbound, two miles north of Savanna, Ill., about midnight Monday night. They cut off the Adams express car, forced the engineer to run up the track, and then blew up the car. It is reported that the robbers secured about \$20,000.

—From a Photo by Hueston

For six years Mr. Starkweather has made this his favorite breed in the cattle line and his herd of 41 head today contains some of the most fashionable bred Holsteins of the country.

Mr. S. is also an ardent admirer of the horse and has no less than 10 head of Hal bred pacers. He has seven brood mares with colts by such celebrated sires as Hal Dillard 2:04, Bruno Hal and Hal B 2:04. Northville is very proud to have such an energetic young breeder of live stock in her midst and all are glad to notice such satisfactory fruits as the result of Mr. Starkweather's endeavors.

QUILL PUSHERS HAD AN OUTING

SEVENTY-FIVE OF 'EM AT DETROIT AND THE FLATS.

Boat Ride—Fish Supper at Star Island—Temple Theatre, Etc.

The Eastern Michigan Press club went to Detroit Friday for its quarterly meet and enjoyed a day's outing. The club is composed of the proprietors and editors of the newspapers of the eastern part of the state, and there were about forty with their wives and families swelling the total number of the party to about seventy-five. They went to Detroit in the morning making their headquarters at the Griswold House and after looking about the city a little went to the St. Clair Flats as the guests of the White Star line management. They went up on the City of Toledo and returned on the White Star line's southern palatine "Tashmo." The Star people did everything possible for the comfort and pleasure of their guests.

At Star Island Mrs. Stetson of the Star Island Hotel treated the crowd to one of those delightful fish suppers for which that hotel is so justly famous.

On their return to Detroit in the evening the entire party were the guests of Manager Moore at the Temple theatre, occupying the mezzanine boxes. At the theatre they were taken in hand by Press Representative Fitzpatrick and shown the beauties of the house. The party was under the leadership of W. H. Marvin of the Utica Sentinel, secretary and treasurer of the club, and he did himself proud. It was an enjoyable trip.

Weekly Crop Bulletin.

Lansing, Mich., Aug. 6.—The weekly crop bulletin, issued Tuesday, says that weather conditions last week were favorable for harvest work. Although much hay has been spoiled by rains a fairly good yield has been secured. The warm, bright weather has made a marked improvement in corn, but the crop is still backward and rather weedy. Beans have somewhat improved, but are still in poor condition and need cultivation. Early potatoes are ripening and are yielding fairly well. Late potatoes indicate a light crop, as much of the seed has been rotted. Oats have been ripening rapidly and they have a fine stand, although in some localities they are badly lodged, but a good yield is indicated. Oat harvest has begun quite generally in the southern and central counties. Buckwheat is doing well and is just coming into bloom. Early peaches are ripening and the yield is good; late peaches, pears and apples continue promising. Plums are falling badly, and there are some complaints of grapes rotting, although the prospect is fairly good.

He Stabbed the Thug.

Owosso, Mich., Aug. 6.—As Ransom N. Parrish, the wealthy proprietor of the Owosso city mills, was going home late Monday night, as he reached a dark place on West Main street, a footpad grabbed him. Parrish had been whittling a stick with a large jack-knife and promptly sunk the blade full length in the man's arm. The fellow turned and fled, Parrish after him, shouting for the police. He followed his assailant two blocks, but the fellow was too swift for him and got away.

Drowned in Long Lake.

Flint, Mich., Aug. 6.—Levi Smith, who for the past two years has been conducting Johnson's landing at Long lake, was drowned at the lake Tuesday afternoon. He was in a small row-boat that was being towed behind a launch in which were several boys, when for some reason the boat filled and sank and Smith went down with it in about twenty-five feet of water.

Divorced and Married.

Detroit, Mich., Aug. 6.—Less than five hours after obtaining a divorce from his wife, Blanche Seal Waddington, Dr. Joseph E. G. Waddington obtained a marriage license preparatory to his marriage Monday evening to Miss Mae Schwaneck of 21 Elizabeth street west. Waddington was granted the decree upon complaint of cruelty.

Detroit's Increase in Population.

Detroit, Mich., Aug. 6.—The new city directory is out, and is a larger volume than any of the past issues. There are 150,575 names in the book, and in figuring the population of the city on the multiple of 2½, the most conservative in use anywhere, Detroit now musters 376,437 souls. This shows an increase in the year of 18,637, figured on this basis.

Write to him, enclosing stamped addressed envelope for reply, and get a personal corroboration of what is here given. He says regarding

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nervine with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

A GENERAL INVITATION

MICHIGAN PEOPLE INVITED TO AMERICAN FORESTRY MEET.

INCLUDES AN EXCURSION INTO THE STATE FORESTS.

ESPECIALLY DESIRED THAT LAWMAKERS BE PRESENT.

Lansing, Mich., Aug. 7.—The Michigan Forestry Commission has issued the following announcement: "Of the meeting of the American Forestry association at Lansing, beginning Aug. 28th:

"The Michigan Forestry commission will entertain the American Forestry association from Aug. 28 to Sept. 1. The meeting will convene in the capitol, at Lansing, Wednesday, Aug. 28, and continue in session for two days, after which there will be an excursion for the visiting foresters to the Michigan forest preserve in Roscommon and Crawford counties, and on through the hardwood area of Michigan to Mackinac Island. Michigan people who are interested can take advantage of a low rate and accompany the excursion. This will be a notable meeting, arranged especially in the interest of Michigan, and there should be a large attendance of Michigan people who desire to lend their aid toward solving one of the most difficult and important state problems. Many prominent specialists throughout the United States have signified their intention to be present and take part in the program.

"This great convention is brought to Michigan in our own interest, and to reap the full advantage, our public-spirited citizens must get in touch with these visiting experts. There should be a large attendance from every part of the state. Grange, board of trade, agricultural and horticultural societies, lumbermen's association, and all organizations interested in forest products, are urged to send delegates to this convention, that they may reap the largest possible results in all branches of industry connected with forests through the visit of these distinguished experts. Those who expect to attend will confer a favor by immediately writing a card to Hon. E. A. Filley, secretary of the Michigan Forestry commission, Lansing, Michigan, that we may know the number to be entertained. The railroads have granted reduced rates, provided 100 delegates attend. That there will be more than that number present there can be no doubt. The hotels in Lansing have made reduced rates for the convention. The sessions will be held in the capitol, but in acceptance of an invitation of the Agricultural college, a session will probably be held on the second day in the auditorium at the college.

"The Michigan Forestry commission especially invites the gentlemen who expect to assist in Michigan's law-making next winter to attend the meeting, that they may be better equipped to act upon important forestry measures which will be presented to the next legislature. This announcement will be sent very generally to the press, but we ask any person receiving a copy to request its publication in the nearest local newspaper. For a complete program of exercises, address Otto Luebke, treasurer of the American Forestry association, at Lansing building, Washington, D. C. Those who attend the convention should, in the purchase of their railroad tickets, be particular to ask for certificates as it is upon these certificates that the reduced return fare will be secured.

"CHARLES W. GARFIELD, EDWIN A. WILDEY, ARTHUR HILL, Michigan Forestry Com."

Butter Famine in Pontiac.—A butter famine has struck Pontiac. Dealers' supplies are limited and grocers have stated that they see no relief in sight. The great scarcity of butter is attributed to the especially busy season of the farmers at this time of year.

Looking For Bear.—Nearly 200 men and boys have been searching the woods between Calumet and Lake Linden for bear for the past few days. A large bear and two cubs were seen recently by several different parties south of Calumet.

Circus Men Held For Trial.—Walter Medbury and Fred Miller, two circus men, arrested at Ypsilanti on a charge of stealing from the Densmore clothing store, pleaded not guilty and were locked up pending trial. Medbury is also charged with stealing a coat from a barber shop.

STRUCK DOWN HIS SON.

Man Near Pontiac Arrested on Charge of Attempt to Murder.

Pontiac, Mich., Aug. 7.—Nelson Ferguson, aged sixty years, is under arrest here on a charge of attempt to murder. Ferguson is a resident of Waterford, and Wednesday morning quarreled with his eighteen-year-old son Will. The climax of the quarrel was reached when the father crept up behind the son and dealt him a blow on the head with an iron bar. The boy fell to the floor unconscious. The father hid the bar in an old trunk and threw away the key.

Officers here were telephoned for and started immediately for the scene. On the way they passed the old man, but not knowing him, they drove on to his home. On their return to the city they overtook Ferguson and arrested him. When arrested he said: "Let me go and I'll kill him."

The complaint was sworn out by his daughter. Ferguson has been arrested before on charges sworn out by his family. Dr. Guillot was summoned and states that while the wound is a serious one, it will not prove fatal.

A meeting of the district mine workers is to be held Friday at which the agreement will be submitted, and the unions will vote on its acceptance. There is no doubt as to the result and the trouble is practically settled and mines will resume the first of next week.

Andrews on the Stand.

Detroit, Mich., Aug. 7.—As a final blow in his speculative career, Frank C. Andrews stood in the witness box before his accusers and the court yesterday afternoon to tell the story that might keep him from prison. The atmosphere of excitement was made more tense by the unusual crowds that besieged the courtroom. The celebrated financial wizard had lost none of his shrewdness. Confidence and self-satisfaction were in his tones as he combated the questions of the prosecution and he took a very evident pleasure in the effect. He told a story that made the prosecution express indignation, and he will tell some more today. Little information other than that which has been brought out in his trial, which has been dragging on for weeks, brought out but the prosecution feel highly elated and declare Andrews has proven the best witness so far for the people.

Woodsmen's Ghastly "Joke."

Escanaba, Mich., Aug. 7.—Two years ago a party of woodsmen, finding a one-day grave, disinterred a skull, and putting it on a stick, covered it with an old hat. The skull has been restored to its former resting place.

Two members of the sheriff's posse were slightly wounded by Burrows who was in the house and commenced firing upon the posse as soon as it appeared. It is thought he was insane.

SCARE AT BAY CITY

FAMILY AFFLICTED WITH SMALLPOX FOR WEEKS.

THOUGHT IT CHICKENPOX UNTIL DAUGHTER WAS STRICKEN.

CAUSED ANOTHER CASE, AND MANY WERE EXPOSED.

Bay City, Mich., Aug. 6.—What has been treated by the mother as chickenpox has been prevalent in the family of Mrs. Dork, Garfield avenue and Eighteenth street, for several weeks, and it was not until a daughter was stricken with so malignant a form of the disease as to cause the woman to summon a physician that the truth became known—it is smallpox. Investigation proved that it was the same disease with which the others had been afflicted.

Just how far the disease has spread is not known, but one case has already been discovered in West Bay City, which is directly traceable to the Dork family, the patient being Walter Symons. It is feared that others will come down, as many are believed to have been exposed.

A prominent physician says there has not been a time in months when there have not been families in this city in which smallpox was running a regular course, but in nearly all cases it was so mild that a physician was not called, or if called, did not report the case, but an occasional malignant case breaks out from contact with these mild ones.

Made a Daring Holdup.

St. Joseph, Mich., Aug. 6.—A stand and deliver holdup occurred Monday night at Paw Paw lake resort. Two strangers drove up to a refreshment stand owned by Owen Dunlop, and drawing revolvers on him, seized the cash in the till—about \$40—three cases of soft drinks and several boxes of cigars, and then drove away. Sheriff Collins and deputies have gone from here to the lake to work on the case.

Bert Sills Pleads Guilty.

Lapeer, Mich., Aug. 6.—Bert Sills, the young Detroitier who assaulted Mrs. Sidney Castle, wife of a North Branch farmer a few weeks ago, was taken before Judge Smith and pleaded guilty. He was remanded for sentence Aug. 25.

MICHIGAN BRIEFS.

Where Lawyers Agree.—The leading lights of the law of Pontiac will go to Mt. Clemens this week to play a game of baseball with the lawyers of that city. Nearly all members of the bar in Pontiac will go along as "rooters."

Tapped Till and Skipped.—Tuesday morning a stranger stepped into a cafe at Flint and while his order was being filled tapped the cash register and skipped. The amount secured is unknown.

Relics of Early Days.—William H. Gordon of Prescott, while digging fencepost holes on his farm, found an unusually large skull, a tomahawk and a tin box containing some curious coins which had been buried with them.

Foul Play Feared.—Fred Foster, a retail shoe salesman of Owosso, has been missing several months and his wife and family think him dead. Foster was last heard of at South Bend, Ind. He is a man thirty-five years of age, did not drink, and it is feared he has met with foul play.

Zoo Profited by Law-Breaking.—McCurdy Park of Owosso is the gainer because a man up in Osceola county broke the game law. He caught two fawns and sold them. Deputy Game Warden W. K. Brewster arrested him, had him fined, confiscated the deer and presented them to McCurdy Park's zoo.

Bride's Generous Dowry.—Norman R. McLeod of Logan, formerly a dry-goods salesman in an Alpena store, was united in marriage recently to Miss Anna B. Keller, only daughter of Jacob P. Keller, wholesale and retail merchant of Montreal. The bride was the recipient of \$50,000 as her wedding gift.

Coroners in Baltimore.

Coroners in Baltimore are appointed by the governor for a term of two years. There are seven coroners in Baltimore, all of them physicians and all having separate districts of their own.

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." Sold by Murdock Bros.

Hobo Cleanliness.

They wash, the hoboes, says one of the fraternity, who talks very frankly about his friends in Frank Leslie's Popular Monthly for May; they bathe frequently and boil their "rags." Often one will stand stark naked in a cold wind while his clothes are boiling. The purpose of "boiling up" is not cleanliness alone, however, nor chiefly that.

Makes the fires of life burn with a speedy glow. Refreshes the golden, happy days of youth. That's what Rocky Mountain Tea does. 35 cts. Murdock Bros.

Somewhat Mixed Metaphor.

A Sunday school teacher was giving an address to some young women, and said: "Why should you girls wear such ornamental hats? Depend on it, if it had been intended that you should have roses in your hats they would have been put there."

Croup instantly relieved—Dr. Thomas' Electric Oil. Perfectly safe. Never fails. At any drug store.

Wants to See King Edward.

The east end of London, disappointed at not being included in the royal procession, is organizing a monster petition to their majesties praying for a royal visit shortly after the coronation. The promoters anticipate 1,000,000 signatures.

A Necessary Precaution.

Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Alleviates inflammation, cures the head, soothes and strengthens the mucous membranes. Cures coughs, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. Murdock Bros.

Perfectly Satisfied.

Papa—Is the teacher satisfied with you?
Toby—O, quite.
Papa—Did he tell you so?
Toby—Yes. After a close examination he said to me the other day, 'If all my scholars were like you I would shut up my school this very day!' That shows that I know enough.

Not to Be Trusted.

The Scotch gardener of a New York estate had vague notions of geography. One of his master's youngest sons was trying to explain to Tobias the extent of his country. Finally, he ran into the house and brought a many-colored map of the United States. Tobias bent over it a minute, then exclaimed, "Mon, mon, 'tis no to be trustid, 'tis laid out in the plaid o'-thae lyn' MacFeehlers."

CONGRESSMAN FITZPATRICK

Says Pe-ru-na is a Splendid Catarrhal Tonic.

Congressman T. Y. Fitzpatrick.

Hon. T. Y. Fitzpatrick, Congressman from Kentucky, writes from the National Hotel, Washington, D. C., as follows:

"At the solicitation of a friend I used your *Peruna* and can cheerfully recommend your remedy to anyone suffering with catarrh or who needs a good tonic."—T. Y. FITZPATRICK.

A Good Tonic.

Pe-ru-na is a natural and efficient nerve tonic. It strengthens and restores the activity of every nerve in the body.

Through the use of Pe-ru-na the weakened or overworked nerves resume their natural strength and the blood vessels begin at once to regulate the flow of blood according to nature's laws. Congestions immediately disappear.

Catarrh Cured.

All phases of catarrh, acute or chronic, are promptly and permanently cured. It is through its operation upon the nervous system that Pe-ru-na has attained such a world-wide reputation as a sure and reliable remedy for all phases of catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of *Peruna*, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice free.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Reindeer Flesh for Food.

It is stated that a strenuous attempt is being made by some enterprising Norwegians to popularize reindeer flesh as an article of diet in Europe. The experiment of raising the animals in large numbers for slaughtering purposes will be fairly tried. They expect to find profitable markets in France and Belgium, and will even endeavor to induce beef-eating Britons to purchase the article.

Magnificent Rock Crystal.

One of the finest rock crystals in the world was found in 1876 and was cut into a magnificent crystal ball for the late Gov. Ames of Massachusetts. It is now in possession of the Boston Fine Arts Museum. The ball measures seven and one-fourth inches, but the original crystal from which it was cut was some eighteen inches high and twelve inches thick.

Green and Black Tea.

The difference of color between green tea and black tea depends on the fact that the first is obtained from leaves dried as soon as they are gathered, while in the case of the black tea the leaves are allowed to ferment before drying. Black tea, therefore, contains much less tannin than green.

Her Opinion.

A lady residing in Parkside avenue stopped to admire two kittens carried by a little girl who expressed a wish to get rid of them. "Are they male or female?" asked the lady, with a view to negotiating for their purchase. "Please ma'am," replied the child, "I think they is Maltese."

The ubiquitous automobile has nearly lost its interest as a novelty in these parts except to the equine population. Our faithful and long tried friend, the horse, in most cases apparently regards the rival means of locomotion as some sort of infernal machine designed expressly for the annihilation of his kind and "acts" accordingly.

The Detroit contingent that was expected to cross bats with the shoe factory nine here Saturday afternoon failing to appear, a nine was improvised for the occasion composed of Northville and Plymouth talent. Ably seconded by the lusty army of weeds and the lack of catching ability on the part of the composite team, the men of last and leather walloped the other fellows to the tune of 17 to 5.

The high rolling clouds of dust that are set in motion on our streets by every passing vehicle and every passing breeze furnish a snoring argument for the advocates of street sprinkling. Now that Jupiter Pluvius has at last made up his mind to a cessation of hostilities for a few days at a time we remember that there is such a thing as dust, and to us it has returned.

A letter is advertised at Northville for Mr. Sevan. One would think he would make a number of calls. He ought two, before it is sent to the dead letter office. The choir is doing splendid work now, and with the addition of Ray Van Valkenberg's excellent tenor, the various parts are well filled. New anthem books are ordered, and enthusiastic, soul inspiring music will be a prominent feature of our services.

If—if—the church would invest in some new hymn books we might have congregational singing—sometimes churches are supplied with such articles. Also, we are told to "Make a joyful noise to the rock of our salvation." Our choir has the lung power and can make the noise, but just how they are going about it to make a "joyful noise" when they are accompanied by a wheezy old organ worn out ten years ago, is more than we can understand.

The Salmon Trust.

All of the salmon canneries of British Columbia have been "morganned." In other words, there is a salmon trust. The capital, however, is small, only \$3,000,000. The idea is to save the by-products, which hitherto have been wasted. The canned product will be, as usual, a portion of fish chucked into a tin of grease. From the scales and bones will be manufactured guano and glue. The "by-product" is the salvation of many a business these days.

\$10,000 for an American Pearl. The largest perfect pearl ever found in the Mississippi river has been purchased by Bunde and Upmeyer of Milwaukee. The gem is nearly a perfect sphere, three-quarters of an inch in diameter. It was recently found in the river north of Prairie du Chien by a pearl fisher. It weighs 121 grains and the price was over \$10,000.

A Gallant Answer.

The celebrated Fontenelle, when 90 years old, happened to pass his friend, the beautiful Mme. Hevelius, in the public street without perceiving her. "Ah," exclaimed the lady, "this is your gallantry, then, to pass before me without even looking at me." "If I had looked at you madame," retorted Fontenelle, "I could never have passed you at all."

If all the land planted in corn in the United States this year were massed, the area would exceed the British Isles, Holland and Belgium combined, or four-fifths of the area of France or Germany.

Twelve men went to the Elk Park belonging to Joshua Hill on Saturday for the purpose of capturing a stag, which had been sold to a Salt Lake City man. They succeeded in their purpose but it took three hours to "corrall" the animal. He was singled out from the herd and surrounded by a circle of men and ropes and was driven, after a hard fight, into a wire "corrall", which had been provided for that purpose. The crate or box for shipping was then pushed into the "corrall" and the animal forced into it.—Pontiac Times.

Probably too much in that "corrall" for even an Elk.

An impression is rife in unimproved circles that the traveling salesman calls for nothing except to job goods and retail bank stories, but no one has a bigger heart for humanity, or will knock a man down sooner for insulting a lady or would hurl himself into the breach of an emergency sooner than the drummer. One of these salesmen was being driven across North Farmington last week when he noticed a big black volume of smoke issuing from a large barn.

"Whoa!" yelled the drummer. Then he sprang out and running to the barn, climbed into the hay loft and pitched hay to beat all.

It is scarcely believable, but the drummer and his driver worked till the sweat ran into their shoes and actually tumbled out the burning hay and dragged it with forks away from the building before the latter had time to take fire or the man to take breath. Of course it spoiled the gloss on the salesman's shirt-bosom and his collar wilted down. The drummer does a heap of things he never gets credit for, yet he is constantly giving other people 20, 60 and 90 days credit for what they frequently never pay.—Detroit Tribune.

OF LOCAL INTEREST.

Some People We Know and We Will Profit by Hearing About Them.

This is a purely local event. It took place in Northville, Mich. Not in Buffalo, N. Y. You are asked to investigate it. Asked to believe a citizen's word. To confirm a citizen's statement. Any article that is endorsed, that obtains resident advocates, is more worthy of confidence than a far off foreign article, testified to by foreign people.

Mr. Stephen Safford of Main street, clerk in Fry Bros.' grocery store says: "Mrs. Safford and I had symptoms of kidney trouble and believing in the old adage that a stitch in time often saves the garment and that a few doses of medicine often ward off severe cases of sickness we thought it wise to do something at once, and seeing Doan's Kidney Pills recommended so highly by prominent people all over the state we determined to test their virtue and procured a box at Murdock Bros. drug store. Two or three days' treatment was sufficient for the symptoms to disappear. We know of others who have used Doan's Kidney Pills with the same good results. We do not hesitate to endorse so valuable a remedy."

Doan's Kidney Pills for sale by all dealers. Price 50 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

The first application helped him and in a few days he was as well as ever. A few days he was as well as ever. "Good, good! So you're Dick Maxwell's kid. You're a younger, sure enough—but you ain't as young as you look unless I'm mighty mistaken. I saw you when you first came to this region, and that's nigh on to 17 years ago. You must have been most 2 then. How old are you, anyway?"

"I am 18."

"Well, you don't look it; not by two or three years. Is the old man with the outfit?"

"Yes."

"What are you doing here? Why ain't you back with the bunch?"

"That's my business, sir. At all events, it doesn't concern you."

The stranger chuckled audibly.

"I've heard tell that you was sassy," he said, "but you ought to wait till you grow more'n you have before you try your sass on strangers. Some of 'em ain't as good natured as I am. Never here afore, was you?"

"Never."

"Well, you've got a mighty uncommon lot to learn, don't forget that. But I'll stand sponsor for you with the boys, and that won't do you any harm. I'm Craig Thompson. Maybe you have heard of me."

Lisle looked upon his companion with added interest then; for indeed he had heard of Craig Thompson, and not much good of him had been told either.

A man who is thoroughly feared is never cordially liked, and Craig Thompson was one of those. He was a strange admixture of gentleman and rough, a college bred man who for nearly 30 years had been adapting himself to the circumstances of his surroundings and gradually had become a part of them. He was one of those men whose age it is impossible to estimate, for he appeared at once older and younger than he really was. His alertness and energy subtracted from his years, while his gray hair and beard and weather beaten skin added to the estimate that one placed upon him. With the exception of Lisle's father, he owned more cattle than any other man on the range, and he had been in Nevada longer than any of his neighbors. But all of this had nothing to do with his reputation. That was derived from a habit of his that was known and feared by every one who knew him. There were frequently weeks at a time when he was possessed by what was known as his sullen fits, and during those periods it was as much as a man's life was worth to speak to him and certainly to cross him. When he came out of them, he was as loquacious as he had previously been taciturn, as kindly as he had formerly been ugly, as gentle as he had been rough, as to what he had been hard and cruel and murderous. He was a strange mixture of saint and devil, of kindness and brutality, of generosity and merciless cruelty—a paradox and that which begets more outside interest than any other human attitude, a mystery.

"Why ain't you ever been here before, sonny?" he asked presently. "Or maybe that ain't any of my business either."

"My father would not permit me to come."

"Oh, that's it, eh? And he gave in this time, did he?"

"No."

Craig Thompson chuckled again.

"Don't you see, Lisle, that you have answered t'other question? That's why you're ahead of the bunch. Just jumped the stockade, flew the corral, lit out, stampered all by yourself, same's that steer you roped in such good style, and Dick thinks you're rounded up safe and sound at home, eh? Is that the ticket?"

"That is exactly the situation, Mr. Thompson," replied Lisle slowly. "When I first saw you swinging after the steer, I was wondering whether I had better keep down the valley or turn back and meet my father. But you have answered the question for me, for now I've got to help you in with this steer."

"Humph! Look here, Lisle. Just consider that we've shook hands, will you? That makes us friends. Now, I'm going to give you some advice, and it strikes me that for a kid who has passed all his life, if it ain't only 15 years, punching cattle roping steers, shooting stars out of the sky and occasionally pinning an Indian or a maverick man—for that's what I've heard about you—you need it as much as any fellow I know. In the first place, don't 'mister' any of the boys up here on this mesa, or they'll make a curiosity out of you before you're 24 hours your present senior. In the second place, when you have once started out to do a thing don't turn back on any account. Do it or drop in your tracks facing it. It's a whole lot better to be shot between the eyes than it is to be kicked behind. That ain't elegant, but it's God's truth. In the third place, the up to Craig Thompson for anything that you can foresee at this writing, and if he happens to have one of his fits on don't you mind 'em. They ain't for everybody, and they won't be for you. Here comes two of my boys. They'll take this critter, and we can ride in more sociably."

"Why wouldn't Dick ever let you come here before?" asked Thompson presently.

"I don't know. He would never tell me," replied Lisle.

"Well, I can tell you."

"You can? Why is it?"

"I'll tell you by asking a question or two. Didn't you wing one of my cowboys, a fellow named Cummings, about a year ago when he was over at your place after a bunch of steers that had strayed away?"

"Yes."

"What did you do it for?"

"Because he was impertinent."

"Exactly. What did he say?"

"He said that I was cut out for a woman and spoiled in the making. I convinced him that I was quicker with my gun than he was, anyway."

"Correct. He ain't forgot it, and he won't very soon. He's gone back east, but he left a piece of one of his ribs out here to remember you by. However, that is why Dick don't want you to come here. See?"

"No."

"He's afraid somebody else will say the same thing, that's all."

Lisle brought his horse to a sudden stand. His face darkened and his black eyes flashed ominously.

"Do you say the same thing?" he asked quietly, but in a tone which conveyed much more than did the words that were uttered.

"Lord, what a fire eater you are! No! I don't say the same thing, but it would be a compliment if I did, for women are a hanged sight better than men. But that ain't here nor there. Some of the boys will say it, or something very much like it, and if you are going to shoot every one that does you had better lose no time in selecting a good place to start your graveyard. You won't be long in filling it."

"Why should they say such a thing as that?"

"Well, there are a good many reasons. Are you going to take what I say friendly or are you going to get mad?"

"I'll not be angry."

"Good. Well, I s'pose it's because you ain't developed much. You're 18, and you look in some ways like a boy of 14. Your voice ain't changed enough to suit the taste of such people as like to arrange other people's affairs for 'em. That's one thing. It's a good voice, but it's soft and tender and kinder cooling, like a girl's. 'Twout hurt it any if you add a pound or two to its weight."

"What else?"

"Nothing else that I can just put my finger on unless it's your whole outfit. You have spent so much of your time in the house reading and studying, playing your piano and such like that your face has got something in it that men don't wear much out here. It's called refinement, and these cusses round here think that all the refinement in the world belongs to women. I want you to understand that every reason that any of the crowd such as you will find here can have for telling you that you are like a woman is a compliment, and you ought to take it as one. Don't get mad. Smile and look pleased, for Lisle, there ain't no better thing on the top of God's earth than a good woman."

"I don't believe that you know," said Lisle quietly, but with such deep conviction that Thompson gazed at him earnestly for a moment in silence.

"Don't I?" he said presently in a voice that was perceptibly altered.

"Well, maybe I don't, but I think I do. Some day, maybe, I'll tell you the story that makes me think so. Now, tell me why you said that."

"My father has taught me ever since I can remember that women are the curse of the world, and I believe him. He is wise concerning everything else, and he would not instruct me falsely."

An audible grunt was the only reply that Craig Thompson made, and the two rode on in silence several rods.

"I would like to see a woman," remarked Lisle, permitting his train of thought to end in a spoken sentence.

"I have never seen one in my life."

"Whoa!" cried Thompson, pulling his horse up with a jerk. Then he jammed his spurs deep into the animal's sides, so that it snorted and made two or three back jumps before it settled down again into ordinary decorum. The ranchman's face was working in the strangest fashion, but whether with an effort to suppress a laugh or in oath it is impossible to say. At last, more to himself than to the young man at his side, the Nevada man remarked:

"Any man who will give a boy that sort of fodder to chew on is a blamed scoundrel."

Lisle Maxwell heard the words. He halted his horse as suddenly as Thompson had previously checked his and by a sudden pressure of one of his knees compelled it to turn so that it stood directly across the path of the other animal. His right arm straightened out, and Thompson found himself looking into the barrel of a ".44."

"Take that, Dick, Craig Thompson," said Lisle in a low tone, but there was an intense meaning behind the words. The ranchman had never been nearer death than at that instant, and he knew it. But he only smiled, and there was something in the altered expression of his face which Nevadans were not accustomed to see there. All the hard lines had disappeared. All the harshness was gone, and his eyes, which ordinarily gave back a steely

glitter for every gaze which they encountered, softened into a translucent sparkle while he said slowly:

"I'll take it, Lisle, every word of it. For the Lord knows that I never meant it to sound as you took it. You needn't put your gun down till I've got through talking, 'cause I've got something to say, and after that, if you want to use it on me, you can go ahead, and I won't make any kick. I like you, Lisle, and I would honor you for killing me if you did it to resent an imputation against your father. I spoke on general principles. And now you listen. You've heard lots of bad things about me, and supposing me to be as bad as them reports, do you think it would be logical to believe every other man in the world bad because I am of every

shoot from the back of his galloping horse with revolver or rifle, infinitesimal articles thrown into the air by his admiring instructors; he could leap from his horse to the ground and mount again while the creature was upon a mad run and could cast his handkerchief or his hat upon the plain and then, dashing past at the topmost speed of his horse, pick it up again, he could catch and mount and successfully ride the wildest and most untamed horse that ever belonged on Crescent and Cross ranch. There was nothing along those ranges that man could do which he had not been taught to do and to do well, better even than his instructors, and as a proficient in every manly sport—in marksmanship, horsemanship and courage—he was known and admired throughout that wide circle which had its yearly rendezvous in the Smoky Valley.

Richard Maxwell had lived up to the statement he made to his lawyer 17 years ago. Lisle Maxwell was a boy in every generally accepted sense of the word. He had grown up as a boy and lived as a boy. He had studied as a boy and thought as a boy, and he had no conception of what girls and women were other than that they were something to be religiously avoided. Regarding the question of sex, his father had kept him as profoundly ignorant as a babe, and the words "girl" and "woman" were to him only terms for the expression of a thought, and that thought he had been taught to regard as repugnant. Indian women—squaws—he had seen frequently, but he had not observed much difference between them and the men except that they were uglier, more brutal and dirtier. Throughout all his studies, and they were manifold and thorough, books calculated to direct his thoughts into channels which might reveal to him his real identity had been rigorously excluded, and he had no more idea who and what he really was than he possessed 17 years ago when sleeping upon his father's arm he was stolen away from his mother's loving care. That is why the masculine pronoun is used now in referring to him.

One can understand how such a man as Richard Maxwell might accomplish all this without once making a mistake. Every question asked by the growing child was answered directly, concisely and decisively and with words that bordered so nearly upon the whole truth that they left that part which was unrevealed apparently unworthy of mention. There was a code of morals on that ranch compared with which the rigid rules of a Shaker settlement would be a travesty, and the cowboy who once forgot or neglected them related his forgetfulness thereafter in the employ of another man than Richard Maxwell.

The interior of the house where Lisle had passed all these years was lavishly extravagant. Nothing was left to be desired. Abyssinia's greatest king could not have provided a happier valley for a new Kassel, with the exception that there was no Dinaris in whom to share its joys. The entire place, inside and outside, presented the spectacle of the abode of a man who had regulated his whole life to the fulfillment of one idea and had succeeded. Seventeen years had not, in a single particular, witnessed the avoidance of one of the multitudinous cares rendered necessary for the fulfillment of a theory such as his, utterly impracticable in its conception and scientifically impossible of completion, and yet Lisle Maxwell had arrived at the age of 18 without once imagining that woman is a necessary quantity in existence and in the perpetuation of mankind.

Nature had in some ways conspired with Richard Maxwell, for she had not mated her work of development. Neither had she retarded it, but she had done for Lisle what she rarely does for woman. Muscular development had kept pace with feminine growth, so that as yet there was nothing about the figure of Richard Maxwell's son to suggest that he was not what he appeared to be. The son had browned his naturally olive tinted skin so that the rich, red blood beneath could only suggest its presence by imparting a deeper tinge, and his coarse, dark hair through which glinted a faint suggestion of burnished copper, was kept half shorn, so that it fell in wavy and rebellious masses beneath the broad brim of his Texas sombrero. She had given him brilliant eyes a certain boldness of expression which does not belong to women, and there was a poise about his head which

had nothing suggestive of the feminine about it. The loose garments in which he was costumed were certainly and yet imperceptibly different from those of his companions, due in every instance to suggestions from the father, who never forgot nor neglected anything that had to do with his purposes.

Lisle's voice was a rich contralto, rather soft for a man, to be sure, but sufficiently strong nevertheless. In a drawing room, issuing from the throat of a society belle, it would not have been out of place. There was really nothing masculine about it, yet it was heavy enough for a youth of 18. Craig Thompson described it perfectly when he said that it was "kinder cooling, like a girl's."

Craig's interview with the ranch owner had been short, and when he came away after it was over he was no better informed concerning what the outcome of Lisle's disobedience would be than he was before it began.

The only change that had taken place in the appearance of Richard Maxwell since that night 17 years ago when he had called upon his lawyer with the baby in his arms can be summed up in the white hair and the bronzed skin which time and exposure had imparted. In all other respects he was the same. He and Thompson were known to each other. During the time that Maxwell had spent in Nevada they had often met, so that no introduction was necessary.

CHAPTER III
HAD BEEN TAUGHT TO BE A MAN

DURING the remainder of that day Craig Thompson impressed everybody who knew him with the idea that he was on the point of having one of his dreaded "fits," but if any one of them had studied him closely he would have known better, for the expression of his face was childlike in its gentleness. But his loquacity was gone, for he was thinking. He had volunteered and been accepted as the intermediary between son and father, and his interview with Richard Maxwell had left upon him an impression which he was endeavoring, without success, to define. Lisle had objected to intermediation, believing the direct way to be the best, but Craig convinced him that his own way was preferable and had dispatched him on a supposedly important errand to a herdsman who had charge of an outlying bunch of cattle.

Richard Maxwell was a natural martinet. Clockwork was not more exact than were the rules of his life, from which he never deviated. His employees liked him but at the same time they feared him. The slightest disobedience was regarded as a resignation from his employ, and Lisle was in this respect as subservient to him as they were. Maxwell was a handsome man too. Although his hair and perfectly trained mustache were as white as snow, there was not a line upon his perfect face. His eyes were his most remarkable features, for there was within their depths something so somber, so threatening, so fierce and so repellent that strangers instinctively avoided them and then looked again to discover the cause. But it was undiscoverable. The more one looked the more obscure seemed the reason for avoidance, for the surface glance upon them, although searching and deep, had nothing in it of those qualities which it repelled. His eyes were undeniably large and they described a perfect oval. If eyes can be intensely black, his were so, and in hue the low lashes which fringed them and the rather low brows that shaded them were blacker still.

You would not have said that Lisle's eyes were like his father's, but you would have guessed that Richard Maxwell's eyes were like his son's, with the difference that where the glance of the elder man repelled that of the younger attracted.

Lisle Maxwell's training had been all that the heart of a young man could desire, and his father had been his tutor in everything. Particularly had his instruction been thorough in every branch of knowledge which properly should belong to young manhood, and Lisle could not remember when anybody save his father had wanted upon his wishes—at least until he was old enough to go abroad. After that the cowboys instructed him in riding and Apache throwing. He could ride like an Apache Indian, rope the wildest steer that ever trod the ranges of Nevada,

That's right, put up your gun. Now, shall we shake hands? That's the ticket. Maybe when you know me better you'll—know me better."

Then, side by side, in the beginning of a friendship which was destined to continue through bitter trials for Lisle Maxwell, they rode into camp just as the van of Dick Maxwell's outfit rose over the ridge where their acquaintance began.
