

The old "famillar face" bills have at last made their appearance. One comes from Kalamazoo and would undertake to prevent the addition_of zinc in white lead and is said to be aimed at the Detroit White Lead Works. The Kalamazoo factory claims to make a white lead that is""absolutely pure" and want the "other fellers" to do the same though the "other fellers" claim white lead made under their process beats the 'absolutely pure." Another familiar face is the baking powder bill to prevent the adulteration of baking owder

A bill has been introduced to prevent the adulteration of mill feed or to compel millers to have printed on the outside of each bag the articles which go to make up the inside. _

The bill to examine and license blacksmiths is not looked upon with TWO TICKETS IN THE FIELD AS much favor among the rural members and horses in=the country will still be obliged to submit to being shed without looking at a blacksmith's license all decked with ribbons, coats of arms and the great seal of the state of Michigan.

Rep. Neal succeeded in having the appropriation for the "Soo" celebration reduced from \$15,000, as it passed the Senate, down to \$10,000.

A-bill to appropriate \$250,000 for a goldiers' monument to be erected on e capitel grounds at Lansing has een introduced Two years ago a commission was appointed to obtain plans-and to estimate the cost of such a monument with the above result.

pelling the unwilling administrationists to admit that "something must be donê."

One thousand and one things have been proposed. Every senator has his pet idea with regard to the details of what he would consider a "safe" bill A careful canvass of the senate

shows that at least fourteen senators are willing to vote for a general bill covering the state ticket. They are Barnes, Burns, Cannon, Cook, Farr, Glasgow, Goodell, Jones, Lockerby, Scripps, Simons, Scullen, Ven Akın

Scripps, Simons, Scullen, Van Akn and Vaughan, -Senator Burns is much opposed to a blanket ballot such as the compromise bill reported out by Chairman Colby of the house elections committee yes-terday provides. Goodell is pushing a bill of his own Van Akin, who is not in the city, represents Lenawee, one of the strongest primary election coun-

The measure which finds favor H the eyes of the men with a majority of two or three is one to provide for the election of delegates to state convention by primary system . But with no one engineering the fight for the genuine reformists in the upper house and with no immediate danger threat-ening from the Democrats of the state, the fate of such a bill as the house will probably pass is extremely problematical

The legislative farmers' club held a lively session last night on general pi-mary election reform measures About thirty members were present Nearly half of them declared that while they were personally opposed to the pass-age of a general primary election bil, abolishing political party, state and other nowinating conventions, they would sole for a general primary elec tion~bill

tion-bill Representative Duncan's bill, provid-ing for the enlargement of the biennial report of the labor commissioner from 400 to 600 pages, pässed uts third read-ing in the house and came over to the senate The work of printing the re-port has already commenced, and Dun can wanted the bill hustled through. Senator failamboy was to take charge of it, but was not on hand and Doherty volunteered to take care of it by mov-ing its immediate passage 5 Senator Barnes, chairman of the sen-

ate committee on printing, objected on the ground that his committee had not considered the bill Senator Scripps, a member of the committee, stood by Barnes, and said he could see no rea son for such haste Barnes said he didn't like the looks of it Glasgew also hicked on the railroad act

On a vole being taken, there were nine for the bill and five against, not a sufficient number to pass it On Doherty's motion, the vote was recon sidered and the bill reterred to the

solution and the bin reference to the committee on printing | it was Doher ty's first attempt this sussion to pass a bill on the floor of the senate A joint resolution went through both houses fixing adjournment for the week at the close of today's 9 c'clock concentrations.

WHY NOT BE HONEST?

You'll have no trouble with your conscience if you are and you'll be respected.

This saying of Dave Harum's. " Do unto the other fellow as he would do unto you, but do him first "is all right when you are trading horses but not when one is selling clothing.

Clothes-in fact every article must be conestly represented-values should never be inflated. If all did as Traver does-base prices on quality. not quality on prices, there would be other stores besides this known as the reliable store.

We won't sell anything we can't guarantee. You get just what you pay for at this store-money refunded and quickly too any time you think you don't._ Could we be more honest?

R. H. Traver Co., 171, 173, 175 Woodward Ave. DETROIT.

[By the Pastor.] Don't forget the Progressive supper at the rink Wednesday evening of next week.

Have you noticed what an excellent boys' choir we have in Sunday. school? The absence of Miss Matthews and her violin last Sunday was very noticeable. She is a great addition to the choir.

Sermon theme for Sunday morning next, "With Christ in Triumph;" in the evening the series to young men will be continued, the subject being Young Mensand their Sins." We were pleased to see so many young men in the congregation last Sunday evening Come again next Sunday. That Dicker Party was a decided success. Yes, it rained, and rained, and rained, but those who were nclined to "dicker off" some of their belongings_came through mud and rain-a house full of them. The party netted \$18 for the young ladies besides each one present was loaded down with mirth-provoking dickering.

A good delegation from this church including the pastor and his wife attended the ordination services held in the Baptist church of Plymouth last Tuesday. At that time Wm O. Stovell their pastor elect was set apart for the Gospel ministry. His statement of conversion, call to the ministry, and views of Christian doctrine, were satisfactory in a high degree, and the Baptists of Plymouth have reason for congratulations in securing the services of such a thoroughly equipped young pastor.

A WOMAN'S BACK.

The Aches and Pains Will Disappear If the Advice of This Northville Citizen Is Followed

A woman's back has many aches and pains Most times 'tis the kid-neys' fault. Backache is really kidney ache. That's why Doan's Kidney Pills cure it. Many Northville women know this. Read what one has to say about it:

say about it: Mrs Henry Friest, hustand a moulder, living at 23 Mill St. says: "1 most certainly think well of Doan's Kidney Fills. I am adverse to notoriety and I only permit pub-lication of this statement because I feel grateful to Doan's Kidney Pills for the good they-did me. Before going to Murdock Bros.' drug store and getting them I had a dull aching pain in my back and I was also pain in my back and I was also troubled with rheumatism which troubled with rheumatism which had annoyed me for quite a while. Before I had taken half of the boy I found my condition greatly jm-proved. Finally the pain in my back left and my rheumatism vanished." Willis was unusually shrewd for a boy of his years.

CHAPTER X.

HE passage of that act of se cession in Okacession in Charleston, S. C. marked the beginning (* ⁵) trouble for all the persons Alas, it concerned in this story. marked the beginning of trouble for a great many persons concerned in a great many stories which shall never be told. -Peyton had been entirely honest in

his conversation with his father. He had not made up his mind, and in the intervening days he tried hard to do so. Making up his mind finally and definitely upon any subject except Mary Annan bad been rather a difficult task to him heretofore.

There were long discussions between father and son concerning the rights and wrongs of the situation." Colone eyton was the extremest type southern man. He believed that slav ry was a divine institution warranted by Biblical teaching and sanctioned alike by morality and expediency. Look ing upon the negroes as an inferior race, he would hear of no condemna tion of the system by which they were held. In his own case his slaves were happy and contented. His ownership and rule were mild and benevolent, and his slaves adored him This was the

case with most people he knew, and he willfully willfully or - perhaps unconsciously blinded himself to any other feature of

Aside from any consideration of the slave question, his state was easily paramount to the United States or any other of them in his affections, and he was unable to understand how there could be any hesitation on the part of his son as to his duty. He plied him with every argument at his command, while by the most violent efforts he barely succeeded in preserving some nessure of his self control in the daily discussions.

At first Boyd thought to break away from these recurring periods of heated lebate and solace himself in the soci-ety of the woman he loved. But here again exactly the same state of affairs supervened. If possible, Mary Annan was more fierce and determined in her sentiments than his father She was completely swept away by the situa tound that whereas she had Πe been willing before to allow him to pour his tale of affection in her listening ears and had even played at lovemaking herself now she had but one topic of conversation, and he was perforce compelied to confine himself to the discussion of that or remain silent. When he was with nelther father nor

sweetheart and resorted to the society of Darrow and the young men of his old time acquaintance, he found that no other subject for conversation could be started and maintained with them either. In truth, there was reason for all this concentration of mind upon one idea, this social obsession upon seces As he entered more and more Bion into the spirit of his environment he asw more and more clearly the irrecon-cliable nature of the opinions held by north and south upon the question of slavery. The right of a state to secole from

the general government had never been tested. Threats had been freely-indulged in from time to time in periods of stress, in moments of exigency, by both northern and southern states,
