HARLEY JOHNSON TO THE RESCUE

WAYLAID BY A HOLE IN THE GROUND.

Heroically Saved All of Uncle Sam's Mail.

Substitute R. F. D. Carrier Harley Johnson met with one of those experiences Saturday which provide "telling" arguments in support of the movement for larger financial recognition of the services of Uncle Sam's employees in that department.

As he was faithfully—though perhaps a trifle coldly—doing his duty in the midst of the strenuous blizzard of the day mentioned, a deep hole, which had been cunningly ambushed under an innocent looking snow covering, near Pitt Johnson's farm, suddenly flew up at the portable post office and did all sorts of things to it and the occupant as he attempted to turn out toward an inviting looking rural mail box.

The dignity of the U. S. mail service was sadly demoralized for a few minutes, but true to the instinct which makes all government employees forget personal advantages in their patriotic desire to serve their country, he heroically plunged to the securer of papers, letters, postage stamps and pennies and dug those chattels of the U. S. out of the snow before looking to his personal belongings or catching his fractious steed. As the damage done to his rig in the mix-up was only a paltry \$2 or so, be of course left the balance on the wrong side of his profit and loss account was an incident not worth mentioning in view of the many advantages to offset it—to say nothing of his \$1.75 salary for the day's work.

King's Daughters' Annual

The annual meeting and banquet of the King's Daughters was held Tuesday afternoon and evening at the home of Mrs. Ida Murdock. The attendance was good and a very pleasant social time was enjoyed before the business meeting, which resulted in the election of the following officers.

Leader—Mrs. Mary Bristol
Vice Leader—Mrs. Stella Stark
Secretary—Mrs. Minnie Webster
Treasurer—Mrs. Kitte Harmon

The financial condition of the society is better than for several years past, owing to increased membership and to the fact that there has been less necessity in our village during the past year for charitable work requiring a cash outlay. Much benevolent work has been done, however, along other than financial lines, and earnest, helpful efforts put forth in many directions.

Special Offer.

To introduce my work in Northville and vicinity I will give, for ten days only, with every dozen best cabinets, one carbon on porcelain 7x9, worth \$3. With groups of three or more, will give one large picture. You are invited to call and see the work whether you wish to order or not.

Judge Brooke's Selection Is Very
Satisfactory.

Wm Phillips of this place was on Tuesday last appointed receiver for the old Globe company in place of F. R. Real, who recently moved to Atlanta. Mr. Phillips is one of Northville's foremost business men and manufacturers and the practically unanimous opinion here is that Judge Brooke could not have made a better selection.

Mr. Phillips says he will put his best efforts towards closing up the

2. Charlie Blackburn—Short, but of a high grade stamp. Great on saying "fare please," and "all aboard." Mighty good fellow—too good to lose. Bargain, but must be picked up quick. Address care Northville post-office.

3. W. S. Roblin—Happy disposition and is in position to supply all wants of a wife in the dress line. Could get breakfast and would get up mornings and build fire. Bushy but likes the girls. Street car goes by the door.

4. Dr. A. L. Blanchard—Here, girls, is where you get a prize—big one. Don't be misled by the old saw of "precious goods in small packages." Always happy, plays golf and is expert at whist, fine temper, courtly manner, good dresser. Ladies, you cannot afford to miss this bargain. Shingle and latch string always out.

5. C. C. York—Here is the opportunity of your life, girls, and it may never come again. Would have been gone four years ago only for the slip in the calendar that chopped it out as a leap year. Only black lawyer in the town, need of haste here as may be taken any moment. Telephone 1111.

GROWTH IS VERY LARGE

BUSINESS OF THE BANKS OF THE STATE OF MICHIGAN.

DIRECTORS NOW PAY STRICT ATTENTION TO AFFAIRS.

TOO MUCH POWER PLACED IN HANDS OF CASHIER.

Lansing, Mich., Jan. 7.—In an abstract of his annual report Hon. G. W. Moore, commissioner of banking, says:

The total number of state banks and trust companies at the present time is 248 banks, four trust companies and one society for savings. Thirteen new banks have been organized this year, with a total capital of \$621,000, nearly all of which has been paid in. During the year two state banks have been converted into national banks.

In 1903 six state banks increased their capital stock \$271,000, making a net increase of banking capital of banking capital of \$827,000.

The growth of business of the state banks has been very large both since the organization of the department and since the report of Nov. 25, 1902.

Bank failures in Michigan, aside from the questions of defalcation and dishonesty, have been due to other causes viz.: Fire, the incapacity of the board of directors, who, in many cases have been willing to place all their power in the hands of the cashier, who has practically managed what may be termed a "one-man bank." Second, to the practice of making loans largely in excess of the provisions of the general banking law.

The commissioner has spent much time in eliminating the inactivity of directors from Michigan banks and obliging all banks to hold regular monthly meetings of their boards and properly approve all loans of magnitude, as required by law. The question of excessive loans has been given special attention by the department and good results have been attained.

In addition to the above due consideration has been given to the question of eliminating glow paper from the assets of state banks, with excellent results.

New Rural Routes.

Dean A. Muger, carrier, and John Branch, substitute have been appointed to fill vacancies in route No. 3, Freeland, and Walter A. Stone, carrier on route No. 1, St. Clair.

Lively Political Battle.

Newberry, Mich., Jan. 7—One of the liveliest political battles in the history of the peninsula is booked for the senatorial district embracing Munising, Delta, Chippewa, Schoolcraft and Luce counties, and at this early day the campaign has already been instituted. It will be a fight for the Republican nomination between Senator Fuller of Delta, president of the senate, and Willis N. Mills, formerly prosecuting attorney of Munising county, each of whom has announced his candidacy for the position now held by the Delta county man.

Two Big Corporations Added.

Grand Rapids, Mich., Jan. 7.—The American Flake Food company, capital \$5,000,000, and the American Car Telephone company, capital \$2,500,000, were added Wednesday to the list of the city's big corporations. Both are incorporated under the laws of Arizona. The American Flake Food company is organized for the purpose of purchasing and operating breakfast food manufacturing plants. The American Car telephone company says it has solved the problem of telephoning to or from electric or steam cars while either are at full speed.

Explosion at Jackson.

Jackson, Mich., Jan. 7—A little explosion occurred at the National Wheel works Wednesday by which two men were severely scalded. The door plate of the boiler connected with the boiler blew off while under four or five pounds pressure. Sam Navarre, engineer, sustained severe scalds on the arms, and William Clark fireman had his legs scalded.

State Health Report.

Lansing, Mich., Jan. 7—Reports to the state board of health indicate that rheumatism, arthritis, neuralgia, influenza and bronchitis, in the order named, caused the most sickness in Michigan during the past week. Meningitis was reported present at 5 places, whooping cough at 10, measles at 35, diphtheria at 52, typhoid fever at 57, smallpox at 65, scarlet fever at 96, and consumption at 186.

Health Officers Confer.

Ann Arbor, Mich., Jan. 6—The seventh annual conference of the health officers of Michigan begins this afternoon in the new medical building of the University of Michigan, and continues two days.

MISSING TAR AND FEATHERS.

Man at Henderson Got Wind of What Was Coming.

Owosso, Mich., Jan. 7.—The village of Henderson, a few miles north of Owosso, came within fifteen minutes Tuesday night of an old-fashioned tar-and-feather bee. The man selected as the victim knew what was coming and got out of town with about \$1,000, it is claimed, while his wife was left destitute.

The man first got into bad odor several months ago because of his attentions to a buxom young woman at Brady. His wife is in very poor health and because of an operation on her throat last year can eat no solid food. She is given liquids through a silver tube in her throat. The man's neglect of his wife and his devotion to the other woman became so flagrant that a vigilance committee was organized and tar and feathers were ready in one of the stores. He saw the men following him and slipped out of the rear door of another store made good his escape.

MICHIGAN BRIEFS.

The new part of board organized by electing Dr. F. W. Shamway as president. The board will meet at Ionia Jan. 12 and 13 and at Jackson Jan. 19 and 20.

The Hotel Royal, at Royal Oak owned by Amos Decker and run by G. H. Cross, was destroyed by fire, the guests having narrow escapes. The loss is about \$2,000. Origin of fire unknown.

Chairman DeKemps of the Republican state central committee says he will call a meeting of the committee in the middle of February. He favors the nomination of three justices of the supreme court at the first convention and thinks this will be included in the call.

With suicidal intent and in the presence of his family Alfred Louch of Clare, aged 59 years, swallowed a quantity of morphine and died Wednesday morning. He had been a resident of Clare for thirty years. Worry over business affairs is the cause attributed.

In affirming the conviction of Emory H. Hinshaw, who was charged with selling extract of vanilla colored with coal tar, the supreme court held that the only reason the coal tar was used was to make the vanilla appear of better quality than it really was, and this was a deception.

Spraying rails caused the wreck of a southbound Peru Marquette freight near Union Pier. Five cars were derailed and passenger trains are running over the Michigan Central via New Buffalo until the track is cleared.

Quartermaster-General Kidd has received an offer of \$125 each for about 1,500 old and discarded Springfield rifles, and it will probably be accepted by the state military board.

St. Joseph as a Grinnell Green is on the decline. In the year just ended 1904 licenses were issued, against 1,400 in 1902. The past summer was the poorest in the history of the resort business. It opened late and closed with Labor day. The divorce court showed a decrease in legal separations granted. In 1902 131 decrees were granted. In the past year the number dropped to 86.

At the annual meeting of the Chris church at Buchanan officers were elected, the two factions being represented. There were thirty-eight presen who are opposed to Rev. H. L. Veach, and thirty-seven of his followers. A demand was made that the pastor be put out of the meeting, but he stayed in the room. No action was taken regarding the opening of the church and the election has not settled the fight.

Pining For Kidnapped Brother.

New York, Jan. 7—Pining for his brother, who was kidnapped in front of his mother's home in Brooklyn, Joseph Hendrick, four years old, the other son of Dr. Charles C. Hendrick, friend of Laura Bixler, the actress, is dying. Nothing has been heard from Thomas, six years old, since he was taken away by two men in a closed carriage last Monday morning, and his mother asked the police to look for Dr. Hendrick, who she said had written letters to her threatening to take the boy.

Fire Chief Almost Lost Life.

London, Ont., Jan. 7—Fire broke out in Sterling Bros' four-story boot and shoe factory and before the flames were extinguished the building was a total loss. Chief Roe of the fire department lost his life, two other firemen were killed and three were badly injured by the falling of a wall. The chief was standing close to the building and made a desperate effort to escape, but was caught by the huge mass. His body was almost unrecognizable when taken out. The loss is about \$70,000.

Dissension in Cabinet.

Washington, Jan. 7—Washington is rife with stories of a new cause of dissension in the cabinet. Certain of the cabinet members, it is said, are disgruntled because President Roosevelt in his message on the Panama situation took undue notice of public and political criticism on his attitude toward Panama. The disgruntled cabinet officers are said to regard this as a serious breach of official dignity.

Sent-Poisoned Candy to Children.

Ithaca, N. Y., Jan. 7—Margaret Cunningham, a nurse girl in the employ of Professor Chamberlain of Cornell university, was arrested Wednesday on the charge of sending a box of poisoned candy to the home of Michael Casey, causing the serious illness of his two children.

A Little Pink Shoe.

Only a little pink baby shoe
That is stained and wrinkled and torn,
With a gony hole where the little pink
Toe
Peeped out in the days that are gone.

The little pink toe was the "big little
pink" that to market so often would go,
And over and over the legend was told
As I kissed the little pink toe.

Piggie some more," her red lips would
lisp.
And the story and kiss were given
Again and again so happy were we
In motherhood's foretaste of heaven.

But there came a night, with desolate
blight,
When death bore my idol away,
And no little toe ever peeps from the
shoe.
To be kissed in the same old way

But my tears have deluged the little
pink shoe.
And stard it a deeper stain
And long for the touch that would still
me in death.

If I gave up my desire again

So when I am dead lay the little pink
shoe
Near you I can kiss it, sit and cold,
And, tears up again, in the sunlight
of love.

I shall lay the pink toe as of old

Never New Nor Old.

It is related of Frank R. Stockton that while on a visit to Boston he was invited to address the members of a well-known women's club. The member who convened the invitation was a most dignified and stately matron. With just a suspicion of asperity in her tone she suggested to the humorist that he might address the club on any subject which seemed to him appropriate, but that she could call his attention to the fact that this was "not a club of new women" with the emphasis on "new."

With a deferential bow the humorist replied,

"At madam! I am convinced of that!" At the same time however, you would not have me call you a club of old women, would you?"

Mr. M. J. Rossman, a prominent merchant of Greensboro, Ga., and an elder in the Presbyterian church of that place, has used Peruna, and in a recent letter to The Peruna Medicine Co., of Columbus, Ohio, writes as follows:

"For a long time I was troubled with catarrh of the kidneys and tried many remedies, all of which gave me no relief. Peruna was recommended to me by several friends, and after using a few bottles I am pleased to say that the long looked-for relief was found and I am now enjoying better health than I have for years, and can heartily recommend Peruna to all similarly afflicted. It is certainly a grand medicine."—M. J. Rossman.

Dislocated Hse Shoulder.
Mrs. Johnson's shoulder in Fergus Falls, Minn., fell into dislocation her shoulder. She had a surgeon set it back in place as soon as possible, but it was quite sore and put her very much. Her son suggested that he had seen Chamberlain's "Pain-Reliever," advised for sprains and soreness, and she asked him to buy her a bottle of it, which he did. It quickly relieved her and enabled her to sleep which she had not done for several days. The son was so much pleased with the relief it gave his mother that he has since recommended it to many others. For sale by a druggist.

The rich man, as he stood there gazing, forgot his power in the land. And envied the down-trodden poor man, for he could shave with either hand.

WIXOM NEWS.

Saved from Terrible Death.

The family of Mrs. M. L. Bobbitt, of Birzeron, Tenn., saw her dying and were powerless to save her. The most skillful physician and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. Kirk's New Discovery for Consumption turned despair into joy.

The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed Bottles \$5.00 and \$1.00. Trial Bottles Free at Geo. C. Hueston's Drug Store.

An Insuperable Objection.

Mark Twain tells of a man who, when he came home drunk, explained to his wife that his condition was due to the fact that he had mixed his drinks. "John," his wife advised, "when you have drunk all the whisky you want you ought to ask for sarsaparilla." "Yes," retorted her husband, "but when I have drunk all the whisky I want I can't say sarsaparilla."

A WOMAN'S BACK.

The Aches and Pains Will Disappear if the Advice of this Northville Citizen Is Followed.

A woman's back has many aches and pains. Most times it is the kidney's fault. Backache is really kidney ache; that's why Doan's Kidney Pills cure it. Many Northville women know this. Read what one has to say about it:

Mrs. Henry Priest, husband a moulder, living at 23 Mill street, says: "I most certainly think well of Doan's Kidney Pills. I am adverse to notoriety and I only permit publication of this statement because I feel grateful to Doan's Kidney Pills for the good they did me. Before going to Murdoch Bros' drug store and getting them I had a dull aching pain in my back and I was also troubled with rheumatism which had annoyed me for quite a while. Before I had taken half of the box, I found my condition greatly improved. Finally the pain in my back left and my rheumatism vanished."

For sale by all dealers; price 50c Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the name Doan's and take no substitute.

Dalton's Atomic Theory

John Dalton's atomic theory was promulgated 100 years ago, and Manchester England, has just celebrated the anniversary. The theory has long been exploded, but his atomic combining weights are still accepted.

I love thee, O yes I love thee, but it's all that I can ever be, for in my visions are Rocky Mountain peaks, Murdoch Bros.

Soda Soda

A tear from the eye of a white person is composed of water, salt, soda, phosphate of soda and mucus. From the eye of an African the elements composing the tear are found to be the same as in that of a white, with the single exception of the phosphate of soda, and with the addition of a slight trace of ammonia. The Eskimos have no such tears, but when they do chemists say they are exceedingly salty.

It is interesting to know that the chemical elements in the Caucasian tear arrange themselves into particles that look like fish bones under a microscope those from a negro's tear form a rude cross, while the same process of evaporation leaves the chemicals in an Eskimo's tear in the shape of a bow.

PPOVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites specially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the form of a label is on every bottle of Emulsion you buy.

Suburban News.

Plymouth had its new electric lighting system in operation on New Year's eve for the first time, and it's all light down there just now, streets, hearts and post-holiday purses.

Wyandotte taxpayers have been given an extension of time to Feb. 15th in which to pay their taxes without penalty. The tax receipts can thus take the place of valentines to the grateful (?) recipients.

Several of our citizens got severe bumps on the icy walks the forepart of the week.—Birmingham Eccentric. Well, the aforesaid citizens may consider themselves rather lucky after all. The folks here who lost their footing got their bumps on various parts of their own anatomy Tumble?

A prominent Holly citizen suffered amputation of a leg last week because of gangrene resulting from too close paring of a corn on his toe. In this instance it was the corn cutter instead of the corn husker that caused loss of limb. It is anything but a joke, however, to the person interested.

The Wyandotte Herald reached its 25th birthday with the first issue of 1904. It was started by a Methodist preacher which parentage probably accounts for its general excellence of character even after passing through the hands of various secular editors. The present proprietor has been the man behind the pencil and things for seventeen and one-half years. "Many happy returns."

Editor Mitchell of the Birmingham Eccentric frequently refers to a mythical "codfish skin" which is popularly supposed to constitute his personal menu except on rare occasions when somebody invites him out to a meal. One of his Christmas presents was a package daintily wrapped and ribboned, which proved on opening to be a small piece of codfish for his Christmas dinner! Kind a mean to send a cold gift to a poor but honest editor.

A correspondent of the South Lyon Herald has solved the vexed and oft-debated problem of finding something new in the phraseology used for describing weddings and describes the thumb of the whole fraternity of despatching paragraphists. Here is: "Mr and Mrs. — gave a very clever wedding for their daughter," etc. Clever is decidedly new in this connection, although there appears to have been nothing else out of the ordinary about the affair.

STOPS THE COUGH AND WORKS OFF THE COLD.
Iaxative Bromo-Quinine Tablets cure a cold in one day. No cure, No Pay. Price 25 cents.

Coffee Jelly.

A hot cup of coffee is undoubtedly a powerful stimulant enabling both mental and physical fatigue to be borne. But coffee disagrees with many persons suffering their stomachs by either heartburn or digestor. For this class of cases Lance suggests the use of coffee jelly, which is equally powerful. I ascertain that and never a case comes up of the stomach.

Domestic Troubles.

It is an old adage to say, "fall a well, there are no depths to infidelity." But there can be no secret by having Dr. King's New Lie Pill Wardrobes. I think they serve by the way work in stomach and liver trouble. They not only relieve you, but cure it. See C. H. Hayes, Drug Store.

Sale of Victoria Cross.

The sales of the Victoria Cross by impoverished soldiers of it have recently become so frequent that the British government has issued an order that such sale thereafter will be barred the seller from the annual pension of \$50 that goes with the cross. The intrinsic value of the cross is very small, but it sometimes brings a high price owing to the associations which surround it.

Terrible plagues, those abiding pestering diseases of the skin. Let an end to misery. Don't Complain. Cures. At my drug store.

Good Reason for Absence.

Prof. E. B. Shallow, who is assistant superintendent of schools located in Brooklyn, tells this story of a perfect excuse for absenteeism.

"One of the little boys in the kindergarten attached to School No 9 failed to show up the other morning," he said, "but another youngster who lived in the same apartment house remarked explanatory to the teacher: 'His mother is dead and they are going to have the party to-day.'—New York Times.
