WILL UNITE AGAINST STEARNS

OLD LINE REPUBLICANS AGAINST HIM

So Say Washington Dispatches to the Detroit Free Press.

The following piece of news comes from the Washington staff correspondent of the Detroit Free Press relative to the governorship question in Michigan:

"Whatever else might be done no compromise looking toward Stearns will be even considered by the stalwarts. They are willing that he should be eliminated, but the assurance is positive that if Stearns is to be a candidate the stalwarts will fight him."

"The only question now pending with them is the candidate they put up against him. With Stearns out of the race they would not object so much to an open field as there are several men who would be acceptable but with Stearns in they will concentrate all their forces on one man."

"It is practically certain that that man will be Fred Warner and it is not difficult to see that negotiations are under way to secure Senator Alger's support for him, or at least to withhold any opposition Warner has placed himself in a position where he cannot be sidetracked. He has been campaigning for two years, has made many friends throughout the farming districts, and has surrounded himself in so many ways that any effort made to throw him at this stage would be bitterly fought and bring out a row that the stalwarts want to avoid. Probably the majority of the Michigan congressmen are favorable to Warner and he has succeeded in creating a favorable atmosphere for himself in many sections of the state. For this reason and also for the fact that Warner is satisfactory to the powers, he will not be disturbed, but on the contrary will be given every assistance."

"This means that war will be made on Stearns and also means that if Stearns has any idea of success he will have to conduct a Pingree slugging campaign. If he intends to do anything, he must soon be up and at it, for he will find the ground dug from under him and discover that his allies have been captured."

LECTURE ON ANDERSONVILLE
Rev. C. D. Berry of Novi will be here the 23d.

An unusually fine musical treat is in store for the public next Wednesday night when the beautiful Bible story of Ruth will be told in music by about thirty of Northville's best vocalists, assisted by Mr. M. The Northville State Savings Bank has elected L. A. Babbitt cashier for the 17th year in succession. This indicates a degree of honesty that can be relied upon. The bank's success is a result of the cash and a liberal and always successful management. No dividends are paid and the bank has to be a man's pocket for the purpose of funds. When the figures show that a certain amount of cash is on hand, he has the bills and the Babbitt metal to verify the figures. Not a cent gone wrong in 17 years. But he is a democrat — Adrian Press.

SCHEER & CATTERMOLE

MICHIGAN EDITORS AT WASHINGTON

THEY HAD A GREAT TIME THERE LAST WEEK.

Welcomed by the President and Admiral Dewey.

Members of the Mich. Press association, with their wives, had the time of their lives at the nation's capital last week Sunday until Wednesday.

There were nearly 70 in the bunch under the efficient and fatherly care of President Newell of Coldwater and Sec'y Hopkins of St. Clair, that arrived at Washington Sunday evening in two new Pullman cars furnished by Senator Alger. The editors were met at the train by Senator Alger's secretary, John Perkins, and Henry Rose, chief clerk of the Senate, and representatives of the Detroit newspapers.

Under the guidance of Mr. Rose, the congressional library was visited Monday and its interesting points explained by that enterprising senatorial clerk. In the evening Senator and Mrs. Alger gave a delightful reception for the crowd at their beautiful home.

Tuesday noon President Roosevelt received the more or less distinguished quill pushers and gave them a jolly little talk. Senator Burrows did the introduction in his usual pleasing manner. At noon Senator Burrows, who had been in the city for some time, personally escorted them to the White House and explained the various attractions just like a paid guide.

In the evening the Michigan congressional delegation dined at the Dewey hotel in honor of the occasion and it was certainly a swell affair.

Wednesday morning Admiral Dewey received the visitors at his office and in the afternoon a visit was made to Mr. Vernon McVannina and Arlington.

The Michigan Senators and Congressmen did all in their power to make the stay of the visitors pleasant. Senator Alger's secretary, John Perkins, took personal charge of the party while there and accompanied them on all their sight-seeing jaunts.

The party returned by special train Wednesday night, tired but happy.

Carnegie Library.

There is a prospect for Northville to get a Carnegie library and the interest is manifested among our people to warrant the effort.

Naval Experiments.

The French navy is to carry on further experiments of shooting with full service charges against the turrets of ships in commission. The experiment with the battleship Suffren was a complete success. Now similar experiments are to be made with the Gloire and Conde, new armored cruisers. This time, however, men instead of sheep are to be in the turrets to observe the effects of concussion. The sheep survived.

You will find everything up to date in style and finish at the Northville Studio. All work neatly and carefully done. We do retouching, finishing, framing, and in fact everything pertaining to photography.

REFUSED TO BE INFLUENCED.

How a Judge Fortified Himself Against an Attorney's Argument. Committeeman Robinson of North Carolina used to be a judge in the Tarheel state. Cope Elias an attorney of considerable reputation in those parts, once appeared in a case before him.

Robinson's mind was fully made up concerning the judgment to be rendered, and he accordingly informed Elias that no argument was necessary. Notwithstanding this, Elias began to argue. Judge Robinson again informed him that he need not continue, but again his word was not heeded.

"Sheriff," said the judge, calling that official to his desk, "have you any cotton hereabouts?"

The sheriff allowed that there were several bales of cotton just outside the cothouse and, complying with instructions he brought the judge a handful of the stuff, staple. The judge stuffed a wad of it in each of his ears, gathered up the legal papers on his desk and, beginning to read them carefully, observed:

"Now, Mr. Elias you may proceed."

HELPED TO A DECISION.

How a road Commissioner Fixed Value of "Insult."

Senator Bailey of Texas is responsible for this story which is going the rounds of the railroad offices down town.

Not very long ago an ex-member of the Texas railroad commission was visited by a representative of a certain railroad corporation which wanted the senator of the commission in the matter of certain franchises and land grants then in courts.

"And I shall be glad to let you have, say 1,000 shares of stock, if all goes well," said the visitor in conclusion.

The common sense was, however, "That's all right, but it's an insult. It is an insult, but that you shall pay dearly for. I want you to understand, sub, that I am not to be bought. You shall pay for that word, sub."

"How much?" said the visitor coolly.

The commissioner paused. The question took him unawares. Then a smile came over his face, and he answered, "Well, sub, I can't say just exactly how much, but if you tell me what the stock is worth, sub, it might help me to find out."

And history says the franchise was now "O. K." — New York Times

RECORD HARD TO BEAT.

Iowa Man's Continuous Service in Positions of Trust.

Charles McKen Duran, president of the Hamilton County bank of Eldora, Iowa, holds a remarkable record for continuous service in different positions of trust. He has been with the bank since its first organization, treasurer of the city of Eldora continuously for over twenty years, clerk of the First Court continuously for 18 years, clerk of the Eldora Cemetery for 12 years, and has been a trustee in 10 different churches. He has also been a great deal of time in that of an administrator of the estates of the deceased. He has been a member of the board of directors of the Commercial Union for 10 years and has never been absent from his post on Sunday, morning or evening, except on business or pleasure in the city. — Chicago Caravan

WHEN JUSTICE HARLAN FORGOT.

Kentucky Jurist Saved Situation in Nick of Time.

A Kentucky outsider tells this story at the expense of Justice Harlan of the United States supreme court. They were fellow guests at a reception in Washington and the hostess called the justice on his failure to remember more than one glass of punch. He replied that as a Kentuckian he was disloyal to drink as other than straight, adding that just then he was out of the genuine apple in his home. The dissembler that evening telegraphed to his manager who sent the justice a case of his best. Next Sunday the two men met in the church of which Mr. Harlan is a deacon. The outsider was coming down the steps when the justice called to him. "That was splendid. Then, remembering where he was, he added nastily, 'The sermon, I mean, of course.'"

The Living Present

F. Marion Crawford the prolific novelist, has little sympathy with the "art for art's sake" cult. He has a swift, fluent pen and does not believe in that indefatigable polishing which Walter Pater advocated. Otherwise Mr. Crawford could not possibly turn out the number of volumes annually that he does.

A young woman was introduced to Mr. Crawford recently. Hearing that he was a no — he said,

"And have you given anything that will live after you are gone?"

"I don't know," he replied. "You see, what I am after is something that will enable me to live while I am here."

NUT WAS A BOOMERANG.

Object Lesson Intended for Congregation Had Effect Upon Minister.

John Spencer Bassett of Trinity college, N. C., in a recent lecture scored religious intolerance. He began in this way:

"I was born in Tarboro, and in Tarboro in my boyhood I went to church every Sunday. I shall never forget an object lesson that a clergyman impressed on me there. He arose one Sunday evening in the fall with a fresh, green walnut in his hand. He held the walnut up so that we could all see it and said:

"Dear beloved, with this walnut I am going to give you an object lesson. See me now remove the nut and then the soft, dirty, useless part. This is like the church. Now I come to the shell. It is a hard, strong shell. A difficult thing to crack, but there is no taste to it. There is no nourishment in it. If I value this thing to be thrown away. This is like the church. This is like the church. And finally breaking the shell we come to the kernel, which is like our own church."

"At this point the clergyman laid out the kernel and found it rotten. He remained silent and pronounced the benediction, and I understand that he was after that day found in all his views."

DOG PLEADS BEFORE JUDGE

Showed Conclusively That Its Nature Was Not Vicious

An amusing trial has ended at Prague in which a dog played the leading part.

The owner of the dog was sued by an engineer, who claimed damages for a bite from the animal. He also denounced the dog as vicious. At the trial a veterinary surgeon who was called in tried his utmost to irritate the dog by teasing him, but the animal kept his temper.

The complainant then demanded that the dog be put to death. The dog's owner pleaded that the dog was a good dog and that the dog had been trained to be a good dog.

The judge then pronounced the dog to be a good dog and gave judgment for its owner.

COLOMBIANS MAKING WAR.

Reported They Are Fighting With San Blas Indians.

Panama, Feb. 3.—A report has reached the isthmus that Colombian troops are fighting with the Indians on the San Blas coast, which is in Panamanian territory. It is impossible, however, to obtain reliable confirmation of this.

The United States gunboat Banerett was to have sailed Sunday from Colon to Bocas del Toro, but the orders were countermanded at the last moment because of the report of fighting on the coast. A letter was received here some time ago from Captain Torres, commanding the Panamanian troops at Chepo (on the south side of the isthmus and directly south of the San Blas coast), saying he had decided to cross over to the Atlantic side. There is a possibility that the Indians are fighting with Captain Torres' command, mistaking them for Colombians.

LARGE FIGURES.

Michigan's Production of Sugar, Butter and Cheese.

Lansing, Mich., Feb. 3.—The labor commissioner has been canvassing the beet sugar and butter and cheese industries throughout the state and has some interesting figures. They show that there are twenty-one beet sugar factories representing an investment of \$12,000,000 whose output for the past year was 150,000,000 pounds of sugar.

There are 350 butter and cheese factories scattered through thirty-six counties. These consumed during 1903 an aggregate of over 65,000,000 pounds of milk, from which was produced 15,121,119 pounds of butter and 22,374,381 pounds of cheese, valued at \$26,700,000.

Declare Law Is No Good

Lansing, Mich., Feb. 3.—The supreme court has knocked out the law of auditors. At the last session of the legislature that body submitted an amendment to the constitution for provision for a board of auditors for the state. It was rather a long bill, but it was in compliance with the constitution. The court finds that the bill was not properly introduced for action on the part of the legislature and for the further reason that it doesn't relate to the subject matter. This leaves the supervisors still the kings of the county.

Mail Carrier Accused of Theft
Bay City, Mich., Feb. 3.—Richard Jewell who has been a mail carrier here for twenty-five years is under arrest charged with stealing money from the mails. A PASTOR WHO WAS BEFRIENDED BY AN EMPEROR SAVED BY PE-RU-NA.

Rev. H. Stubenvoll, of Elkhorn, Wis., is pastor of the Evangelical Lutheran St. John's Church of that place. Rev. Stubenvoll is the possessor of two bibles presented to him by Emperor William of Germany. Upon the fly leaf of one of the bibles the Emperor has written in his own handwriting a text.

This honored pastor, in a recent letter to The Peruna Medicine Co., of Columbus, Ohio, says concerning their famous catarrh remedy, Peruna:

The Peruna Medicine Co., Columbus, Ohio.
Gentlemen: "I had hemorrhages of the lungs for a long time, and all despaired of me. I took Peruna and was cured. It gave me strength and courage, and made healthy, pure blood. It increased my weight, gave me a healthy color, and I feel well. It is the best medicine in the world. If everyone kept Peruna in the house it would save many from death every year."—H. STUBENVOLL.

Thousands of people have catarrh who would be surprised to know it, because it has been called some other name than catarrh. The fact is catarrh is a catarrh wherever located, and another fact which is of capital importance, is that Peruna cures catarrh wherever located.

WHY THE UNITED STATES LEADS

By Sir THOMAS LIPTON

HERE is no more loyal Britisher than myself, but I can't close my eyes to one thing, and that is we are a decaying nation, commercially, as compared to your country, and THE UNITED STATES IS THE GREATEST COUNTRY ON THE FACE OF THE EARTH TODAY.

In England our imports exceed our exports two to one, while over here it is just the other way.

Our merchants can't seem to understand that you must supply people of other countries with what they want and not with what the people of England need.

Just to illustrate the different business methods of the two people: Over in Egypt they wanted a bridge built, and the government asked for bids from England and the United States. When the bids were opened the cost was about the same in each instance, but the English manufacturer could not make delivery for nine months, while THE YANKEE FIRM CONTRACTED TO DO THE SAME WORK IN THREE MONTHS. Naturally the bid of the American firm was accepted.

When a man lands in New York and wants to do business he has to do it to go into an office and in a few minutes he can find out all he wants to know. In London if he wants to do business in the same line of business, after a lot of talk he would probably be informed that he might find out what he wanted to know in Manchester.

NEW YORK IS IN TOUCH WITH THE WHOLE COUNTRY, WHILE LONDON, THE METROPOLIS OF THE WORLD IS NOT.

Whitney's Opera House—Detroit.

One of the seasons' best successes of the Detroit opera house was the production of "The Girl of the Year" which was produced by the original cast and the original cast. The story dealt with the life of a young woman who was a member of the New York society.

Lyceum Theater—Detroit.

Rarely has the American stage had such an emphatic and lasting dramatic success as "In Old Kentucky," which has now reached its eleventh season and bids fair to remain an established institution with playgoers for another decade. With a complete new \$20,000 production prepared during the summer for the season of 1903-04, and a company of unusual excellence, it will again be presented in this city at the Lyceum theater all next week.

Who Pays the Printer?

When you go around from printer to printer getting bids on a job and then giving it to the lowest bidder, you get an indifferently good job, one with no particularly good points, one that sells no roots for you, then who pays the printer? Your neighbor.

YOU DO.

When you pick out a good printer, giving him all your work, educating him to an idea of your needs, and paying a fair price for the work you get, your printed matter (when secured at the Record Printery) necessarily creates a favorable impression for you and for what you offer, and becomes a factor in selling your goods. Then who pays the printer? Your neighbor.

HE DOES.

The Cantata in the Presbyterian church next Wednesday evening promises to be especially fine. No pains has been spared in its preparation, and it will certainly be one of the most notable local musical events Northville people have enjoyed in a long time.

The pastor of the Northville M. E. church asks "What is repentance?" Elder we never had any use for the article, but from careful observation, and from the sermon of good Methodist ministers, we think it is a sort of regret that one has, because he did not do better, before they did him.—Adrian Press.

A well known Northville citizen bought his boy a nice pair of shoes recently, and one cold day thought he would burn up all the old ones in the week he accidentally substituted one shoe of the new pair for one of the derelicts. Shoes make a jolly lot of fun, but some how in this instance the shoe did not diffuse the usual cheerfulness.

The postmaster of the community is commenting on the certainty that if the present immense body of snow should be rapidly reduced to water either by rain or sudden high temperature, an almost incalculable amount of damage to the factory, milling and other industries would result to say nothing of culverts, highways and byways.

"On Chivalrous day."

"Have a half your wood and half your rain."

"That day was Tuesday—'bear day'—so the inference is that it will cost just as much to keep warm until spring as it has already so far this winter.

Thus the cold man rejoiceth and the householder groaneth in spirit—if they believe in "cold saws."

Mrs. L. E. McRobert perpetrated a surprise on the members of the Ladies' Aid society and their friends who attended the social at her home Wednesday night by serving the Louise of guests with a delicious supper instead of only coffee and rolls as was expected. Notwithstanding the extremely cold night, the society received 25 as the result of Mrs. McRobert's address and entertainment.

Miss Ida Minor, who has been mentioned recently in the Detroit papers as having just received the degree of Doctor of Philosophy from the University of Berlin in addition to the master's degree she already holds from that institution, and who has won a great distinction for her successful and original defense of her chemical thesis against three male opponents, was a former pupil of the Northville school. She is a sister of Mrs. B. Christensen of near this place.

A few of the birds of over the country are making a practice of scattering grain or seeds on the snow for the birds, and many more would do it if they thought of it.

The present winter is a peculiarly fatal one for our little feathered friends who do not desert us at this season, as the deep snow cuts off many of their usual sources of food supply. Some Northville people have remembered this, and it is hopeful that more will do so. At best thousands of birds will die of starvation.

The program service last Sunday morning was very helpful. Miss Ida Clark read a sermon by Talmage and Mrs. Beck Northron gave a beautiful poem which had appreciated. The members should all turn out and make these meetings interesting and beneficial.

Owing to the weather there was not a very large attendance at the B. Y. P. U. business meeting Tuesday night at home of Mr. and Mrs. J. S. Dunham. After the business transactions light refreshments were served and a pleasant social time enjoyed by all.

The pastor will occupy his accustomed place Sunday morning and the subject of the sermon will be "Ruth, the Moabess," also a promise to the cantata of that name which is to be given in the church text Wednesday night.

Rev. D. E. McKim of Wayne surprised the pastor by his morning delivery and a beautiful sermon on the subject of the "Prophetic Text." His sermon was well and logically drawn and the whole discourse replete with helpful and beautiful comments.

Puts Aside His Title

Coran Doyle does not care to have the "sir" put before his name on the title pages of his books, and he especially forbids it in the case of works published in this country. When he was arranging with an American firm for the issue of a late book he expressly stipulated that the handle to his name should not be used in any way. On being asked for a reason he replied: "When the American people like me as I am why should I thrust a title in their democratic faces?" The publisher agreed reluctantly.
