## PRIMARY REFORM

Warner's Exhaustive Statement on Subject.

ONLY 3 STATES IN UNION ABOLISH STATE CONVENTIONS

Believes Conservative Primary Law Should Be Passed.

Tuesday's Detroit Journal published a long statement issued by Fred Warner relative to his ideas on the primary reform election question and a statement showing what laws have been passed along that line in other states.

An introduction the Journal says:

The first announcement made to the public by Fred M. Warner in connection with his candidacy for the republican nomination for governor is given below in the Journal.

"Mr. Warner's probable attitude has been the center of so large a part of primary reform discussion that an unusual interest might be predicted for his expression of a thought made on the subject. Owing to his silence in his announcement, which it may be presumed will be read with gratification by the advocates of the reform, is this:

"Personally I believe a primary bill should be passed by the next legislature."

"There are citizens who reject the primary reform idea without devoting any thought to the subject whatever, just as there are probably some who accept it without knowing very much about what it means, and Mr. Warner has a timely injunction to the voters to study the question and compare proposed bills with laws in force in other states. Mr. Warner has acted on his own advice and perhaps the most exhaustive and up-to-date examination of primary statutes which had been made by any resident of Michigan by one whose results are represented in the summary attached to his communication."

In his compiled statement Mr. Warner shows that a mandatory primary law which includes state officers has only been adopted in three states in the union and those are the southern democratic states of Mississippi, Texas and Florida. In everyone of the 23 republican states the state conventions are retained.

## OLDEST LITERARY CLUB

One in Ionia County Has Existed Half a Century.

Sontra Lyon, Mich., Feb. 6, 1904.  
Editor Record. We had been led, for some time, to believe that the West Novi Debating Club had been the longest in existence of any organization of the kind in the state. We recently discovered that we were mistaken. During a tour of Ionia county as state speaker at one day Farmers' Institutes as we were going from the railroad station, Munro to Palo, we passed a large, nice looking building, well painted and cared for. We were at a loss as to just what it might be used for, and asked the master if it was a church. His reply was "No, that building belongs to a literary club that has been in existence nearly fifty consecutive years." "Well," I said, "that beats us at West Novi."

It was not necessary for the people to tell me that the literary club of that neighbor had been a great benefit to the young people there. At the institute the following day there was no lack of talent to make the meeting a success. A young lady Miss Lou M. Waldron, read a paper, "The New Earth," that showed that she was a thorough student along several lines of scientific investigation. When we see such results we wonder why more communities do not do likewise.

## THE BIRTHNIGHT OF LINCOLN

BY WALTON WILLIAMS

Copyright, 1904, by C. N. LURE

BUT of Kentucky night came there a breeze Fraught with the pine-land odors, and with news Such as might rock the thrones beyond the seas, Could monarch-ridden lands its text peruse.

THE laden breeze did beckon in the morn The Spirits of the Right by men unseen, And whispered as it sped, "A babe is born Whose glory it will be to crown a queen."

THE souls of Freedom and of Honor bright And Justice fair did shudder thus to hear. What could they gain for the good cause of Right, While scoundrels flattered a world of fear?

Mrs. George DeKay Dead.

Mrs. George DeKay, one of the oldest and much thought of residents of this town, died at her home west of this village Wednesday morning at the age of 75 years and one month. Besides the husband, deceased leaves one son, Elmer, of this town and one daughter, Mrs. Carpenter, who lives near Novi. The funeral occurs from the late home this afternoon and Rev. Mr. Shannon of Wayno will officiate.

**CONFIRMING and enlarging the decrees**  
By which a narrow freedom was installed,  
He shall make grander than the dynasties  
A people's rule, and save a world enthralled!

FOR thrones must fall when all the nations see  
The glory of his doubly-rescued land,  
And toil must triumph to its far degree  
When regal bay'nets back not greed's command!

THE note triumphant of a sudden dies,  
The zephyr wails "A bloody bier I see!"  
America weeps o'er where her Lincoln lies,  
Martyr to Honor, Justice, Liberty.

**STRIKES KEY NOTE**

Barnaby of Kent.

The Record notices with pleasure that Horace F. Barnaby Jr., one of the best and worthy members of the two last legislatures from the county of Kent, is candidate for Probate Judge of Kent for that county. Mr. Barnaby's key note in a long editorial from a lawyer of considerable ability, in which we clip the following:

"If the people of Michigan really demand primary legislation, the way position with credit. The Record to obtain it is to elect senators and hopes the people of Kent will honor representatives known to be favor. Mr. Barnaby—and thus honor themable to the reform. It is time the selves as well state recovered from the popular delusion that the governor is the lawmaking power of the commonwealth."

**Broke Down**

In addition to the gubernatorial puzzle a new worry is on the mind of the editor of the Northville Record. A germ named mollusces contagious having been discovered at Ann Arbor he leaves off from an editorial long enough to exclaim: "If one of those mollusces should happen to get loose and contagiosum to any extent"—and there he breaks down.

Detroit Tribune.

**No Kerosene Oil.**

Owing to the blockade on the railroads the Standard Oil station here is out of kerosene oil and can make no deliveries until the expected cars arrive here. They are expected every day.

## WARNER'S FRIENDS HAVE BEEN BUSY

SAID TO HAVE BOTH FACTIONS IN INGHAM.

How Lansing Dispatch to Free Press Views It.

Ingham county, which has heretofore been for Stearns by a close margin, is reported to have been carried by Fred Warner. After Stearns made his statement a few days ago that he would announce his candidacy soon, some of his supporters in this city kindled their signal fires on the hills, but the faithful failed to come to the council. An investigation it is said revealed the fact that many of the Livingston county men now supporting Stearns are in fact supporting Warner and that several of Stearns' supporters in this city are supporting Warner.

Mr. George DeKay Dead.

Mrs. George DeKay, one of the oldest and much thought of residents of this town, died at her home west of this village Wednesday morning at the age of 75 years and one month. Besides the husband, deceased leaves one son, Elmer, of this town and one daughter, Mrs. Carpenter, who lives near Novi. The funeral occurs from the late home this afternoon and Rev. Mr. Shannon of Wayno will officiate.

**New York & Slabginter Pen.**

The streets of New York are becoming like unto one vast slaughter pen. Last year more than twice as many people were killed there in various accidents due to the whirlwind ways of street traffic than were disposed of in all of the railroad accidents occurring throughout the United States in the same period. Victims of the railroads numbered about 282, while the grand total of those whose lives were offered up as a sacrifice to the god ofhurst Jaffit and Mammon in that hive of human butchery, Hellgate, New York, was 528. When we add to this appalling list that large per cent of New York's 177 suicides directly or indirectly due to the high pressure under which life in that dollar churning burg is maintained, then does the great cost of living eat to the bone who worship Mammon in his cold temple become apparent, a price that causes humanly to shudder. In the English metropolis during the same time only 158 persons were killed in the crush of street traffic, despite the much greater population. The difference is said to rest in the much more stringent laws relating to street traffic in London.

## \$50,000 GIFT FOR KIND DEED.

Joseph Aubin Receives Generous Check from Man He Befriended.

Joseph Aubin, a hotel keeper of McGregor, near Windsor, Ont. realized the benefits of casting bread on the waters when he received a cash for \$50,000 from his half-brother, Jacques Caza of Chile, South America.

The present is a sequel to a trial which occurred in Montreal a number of years ago when Caza was charged with murder. He had no money to his case and was in despair until young Aubin came forward with his savings and engaged counsel and looked up evidence for his half-brother.

Caza was acquitted and went to Chile. The next heard of him was in the shape of a \$300 check that he sent to Aubin to repay the money spent on the trial. He afterward wrote that he would make Aubin rich and evidently means to keep his word.

## No More "Rickshaw" Men.

Japan is finding that electric traction and the "rickshaw" are incompatible and the result is that over 2,000 human horses in Tokio have given up the unequal struggle with the electric car and have decided to emigrate in a body to the Hokkaido, there to engage in the fisheries and other callings. It seems a pity, for there are few pleasanter ways of traveling on a good road than behind a couple of stalwart runners who do their eight miles an hour with ease. From the national point of view the disappearance of the "rickshaw" men may have important consequences. In physique they form almost a class apart and though their calling does not conduce to longevity they were a valuable asset in Japan's military system, as they proved in the war with China.

The Cantata in the Presbyterian church Wednesday evening was largely attended and very successful. The way the long, difficult program was given was a credit to all participating, and reflected much credit on the instructors.

The weather this season has certainly been adapted to the warmest kind of toot wear but notwithstanding that fact there have been more slippers seen on the streets everywhere than during any winter within the recollection of anybody who is liable to the taking of chances by indulging in pedestrian exercise.

Bad weather caused bad carserice. Bad car service prevented a Detroit Presbyterian minister from reaching Northville one Sunday. The local minister was ill. Failure of the Detroit caused ladue in church service at the Presbyterian church that day. Those who desire to fix the responsibility for this demoralizing state of affairs, can send their opinions to the pastor of the church—postage paid—Adrian Press

## STORIES OF LINCOLN

BETWEEN 1830 AND 1850

By J. H. ROCKWELL

INCOLN'S population increased twenty-fold, and when Lincoln commenced the practice of law in Springfield, in 1837, social occasions were extremely simple, and so were the courts and the administration of justice.

Books were both expensive and few in number and public libraries were almost unknown. But the people loved justice, upheld the law and followed the courts and were not slow in finding their favorites among the advocates.

The lawsuits of those days were exceedingly crude—the principles of natural justice being mainly relied upon to dispose of them at the bar and on the bench without resort to technical learning. But despite this fact there were many highly educated and powerful men in the Illinois bar even in those early days, and it was by constant contact and conflict with these that Lincoln acquired professional strength as well.

In those early days in the western law, especially every court, for it was necessarily a popular court, was organized in the public hall of the city or town of the county seat, or in the home of some wealthy citizen. Then, with the aid of a few simple tables, chairs and a blackboard, the trials were conducted.

MAKING A PUMPKIN PIE.

Here's a Description of How G and mother D. It.

Does any one remember the pumpkin pie which grandpa used to make? Grandmother opened the pumpkin and took out its works and peeled and sliced it and put it in the kettle where it was boiled until it was soft and mushy, but not too mushy.

Later she pressed the result through the holes in a colander, and when she had dashed out a portion for immediate use, she was ready to begin the construction of the pumpkin pie.

A big and square iron cake sheet was lined with flour crust, which covered the bottom of the pan and reached up along the four edges until the pastry could look over the rim. Then she put an egg and a sufficient amount of sweet milk in among the pumpkin and added a whole lot of black molasses and a pinch of salt, and a big lot of ginger, and a pinch and a half of grated nutmeg to the concoction, and when these had been stirred in among the milk and the pumpkin, the mass of ingredients was poured into the cake pan and the pan was closed up inside of the oven to be cremated, while the children waited outside with the water oozing from our mouths until the wonderful experiment was completed.

And nobody, except some few of us lucky old chaps ever tasted anything like one of those pumpkin pies.

It was deep and spicy and sweet and satisfying.

It was more like a pumpkin pudding, so thick it was, and wholly like unto ambrosia steeped in nectar so toothsome it was; and when we think of those great squares of pumpkin pie which found their way down our ravenous gullets, we wonder how it is that modern boys manage to live at all without parental pie.
