CONGRESSMAN

CHAS. E. TOWNSEND.

CONGRESSMAN HEPBURN'S TRIBUTE TO A WORTHY MAN.

His Fine Record in the House of Representatives.

In his speech at Jackson October 2, the Hon. W. P. Hepburn, Congressman from Iowa, who is now serving his tenth term in the House of Representatives, and who is chairman of the Interstate Commerce committee, paid a very high tribute to Congressman C. E. Townsend.

He said: "You are aware that I am chairman of the Interstate Commerce committee, and I want to say that it is one of the most important

and distinction before he is elected as the people's choice, but these things mean absolutely nothing in the eyes and mind of that great body. They are just what he is, what he shows himself to be, and his own qualifications need be just what this body requires. He really begins all over again, and, as I have said, it is a test of the man found nowhere else.

"In view of all this, I say it without flattery that not in years has there come a young man who so quickly impressed old and young members with his aptitude for the work allotted to him on the committee named, and I should regard it as something of a calamity not to see him there for years to come. He has material in him that the country needs, and others could bear testimony to the fact that there are inquiries on all hands about this young man from Michigan.

"Time does not permit me to go into detail of the work which must be performed by the committee, but you must be aware that the Interstate Foreign Commerce questions have assumed large proportions. There is a mass of details to enter into, and affairs of far reaching importance to deal with, but Mr. Townsend showed himself capable of handling them all and his manner of talking put in the detail and assisting in making the reports was of a character which made him a valuable man to us. Personally I want to see him returned for the reasons I have here outlined." (Cheers.)

From the manner in which Mr. Hepburn expressed his sentiments, it was apparent to the audience that he had strong convictions that there is a future before Mr. Townsend in Congress, and when he spoke of requirements necessary to make a good congressman, it is well known that there are few men in the nation who are better fitted to know and judge than this stalwart republican, who has been at the helm of affairs during the most serious periods through which the country has passed in the last 20 years.

Death of Mrs. Mary Wait

Mrs. Mary Wait, lately of this place, died at the home of her son, John Wait in Novi township Tuesday, Oct. 25, after a severe illness of some weeks. She was born in Ireland in 1827, coming to the vicinity of Farmington with her parents when very young. She was one of a family of 11 brothers and sisters, five of whom survive her. With the husband of her youth, George Wait, she passed more than half a century, Mr. Wait dying only last February. They came to Northville to reside seven or eight years ago from Novi township, where they had lived for many years, respected by all who knew them. Mrs. Wait was a woman of a kindly, generous, though reticent, nature, and was most beloved by those who had known her longest and best. She leaves two sons, John and William, and a daughter, Mrs. Elizabeth Parlington of Battle Creek. She was an aunt of Mrs. M. S. Anblor of this place.

The funeral will be held Saturday morning at 10:00 o'clock, Rev. F. Hally of Milford officiating.

AFTER THE SPOILS

Democrats Are Not Sincere in Their Pledges.

BOSS CAMPAN FOR SENATOR

is Ambition of Party Managers—Republicans Will Not be Led Into a Trap.

Hon. Fred M. Warner, who leads the Republican state ticket, is selected as the special target of the enemies of the party in this campaign, and they are seeking by every means to create the impression that he is unworthy of the high trust for which he has been named. Two years ago Mr. Warner was on the ticket as nominee for secretary of state, and there was perhaps no other name on that ticket so generally conceded to be unassailable in its popularity. It was everywhere said that he was the ideal candidate, for whom the full party vote should be polled, and the result proved that true. Now what, we might ask, has occurred since to justify a different estimate? Mr. Warner was elected by one of the highest majorities recorded, and the record of his administration for two years is open to any who would assail it. Has it been assailed? No. Has any corruption, any dereliction, any incapacity, any fault whatever been found in his conduct of the secretary's office? None—none whatever. He has gone about his duties modestly, faithfully, intelligently, efficiently, and has given the state an administration of merit never surpassed in that office. It is not pretended to convict him of any fault as a servant of the state, and his detractors cannot deny that he has given his time and his talents to the public service and has nowhere betrayed the public interest in any manner compromising the good name of the state or of the party that chose him. If they can bring forward the nonsensical and meaningless allegation that he is a creature of the machine, and would be puppet in the hands of unscrupulous boss-men, just as the very same papers that are saying this used to caricature McKinley as a puppet in the hands of a terrible and lunatic John Hanna. They asserted that Mr. Warner is in one way more laced and will be controlled by any such evil influences, as they continually declared that McKinley, as they show no evidence of change of any large or objection from him, and Mr. Warner for him of late, candidly declared his absolute freedom from any obligation or implication what ever affecting in ethical action, other than those in the platform upon which he was nominated. The vote will judge whether the man who has a record so clean and honorable in the public positions he has filled, is likely to show himself a different kind of a man when the more serious political duties of the chief executive are laid upon him.

Republicans in Michigan who for what reason or on what pretext, and with favor upon the Democratic blind alleys to vote against Fred M. Warner or any legislative candidates, should remember that their own motto at stake in this campaign, is the adoption of a particular system of nominating candidates for office. In this respect on the Saginaw Courier Herald a very wise writer says: The Democratic managers plan to induce disaffected Republicans to vote against the Republican legislative candidates as well as for the Democratic candidate for governor. They are wise in this, according to their plans, because they know that a Democratic governor would be as helpless as a woggle bug if he were elected governor with a Republican legislature. Indeed, such a parasitic division of the legislative and executive departments would defeat the purpose which they are inciting Republicans to imagine is the real object of their plans. Primary reform in fact, would have a better show were Mr. Warner elected in such case because he has declared his purpose of signing a bill passed by the legislature whether for local option or for state-wide adoption.

The "independent" or any other sort of voter will search in vain the Democratic speeches, newspapers, and other sources of outgiving, to find any reference to the fact that the next legislature will reapportion and redistrict the state, both as to congressional and legislative divisions and will elect a United States senator to succeed Senator Burrows, Republican. And right here is the meat in the cocoon.

Now it is assumed that nearly every one of the Republicans disgruntled on state issues intends to vote for the Republican candidate for president. The Democrats foster this assumption, in order not to alarm the dissatisfied voter and make him suspicious of the real purpose of the Democratic managers. That purpose is not to secure primary reform for which they care little or nothing but to secure control of the legislature, restrict the state and elect a United States senator.

They can secure this control only by the votes of the Republicans, who are importuned to vote against Fred M. Warner and for the Democratic legislative candidates. These Republicans, sound on the national ticket, anxious for the continuance of a Republican congress, who could not be induced under any circumstances to vote to cripple the national administration, are in reality asked—under the guise of an alleged non-partisan state movement—to place the executive office and the legislature in the hands of the Democrats, so that they may have an opportunity to gerrymander the state against the Republicans, to send a Democrat from Michigan to send a Democrat from Michigan to send six years in the United States senate, and to juggle the districts so that they may have a chance to in-

crease that party's representation in the lower house from thirteen to one member to half a dozen or more. Such an obscene bribe might result in turning over congress to the Democrats in the middle of President Roosevelt's administration, and a serious setback to the country's present satisfactory condition.

Roosevelt Republicans, the kind that are true blue and rock-rooted in national affairs, as all these men are whom the Democratic managers are endeavoring to persuade to help them gain control of Michigan by this "non-partisan" trick, may well think twice before they fall in with their wishes by voting against the Republican candidate for governor and the legislative candidates.

They certainly do not want the state gerrymandered for ten years to come by the D. J. Campan crowd. They certainly do not want to see D. J. Campan occupying a seat in the United States senate. They certainly do not want to see the most of our present strong delegation in congress swept out two years hence. If they do not, they should support Fred M. Warner, clean, honest, capable, without a flaw in his private and public character, and the legislative nominees. They should emulate Hon. Geo. B. Horton, master of the State grange, who declares that the division of sentiment in the party upon the question of the best method of reforming the dominating system is not so wide that it cannot be bridged by a Republican legislature and a Republican governor.

FRED M. WARNER'S RECORD STANDS FOR ITSELF.

Although a young man, Fred M. Warner has been in public life for a number of years. He was the youngest member of the state senate during the two terms he was a member of that body and the youngest man ever elected secretary of state of Michigan. His official acts are known to his fellow citizens. They more completely define him than else possibly could. The charges now being made by newspapers that have assailed the character of every public man since their establishment, that he is a creature of the machine, and would be a puppet in the hands of unscrupulous boss-men, just as the very same papers that are saying this used to caricature McKinley as a puppet in the hands of a terrible and lunatic John Hanna. They asserted that Mr. Warner is in one way more laced and will be controlled by any such evil influences, as they continually declared that McKinley, as they show no evidence of change of any large or objection from him, and Mr. Warner for him of late, candidly declared his absolute freedom from any obligation or implication what ever affecting in ethical action, other than those in the platform upon which he was nominated. THE NON PARTISAN DODGE

Strange thing this! The Democrats are making their fight for governor and legislature on a non-partisan basis. And yet they filled the supreme justice vacancy on their ticket last week with a Democrat when they might have had in blank or named one of the Republican nominees.

As we understand this "non-partisan" dodge the Campaign organization wants all the Republicans to be non-partisan and vote for the Democratic candidate for governor and the Democratic legislative nominees, but all Democrats must vote their party ticket straight. They hope, in fact, that the "non-partisan" trick may fool enough Republicans to elect their whole state ticket, supreme justices and all.

The real object of this "non-partisan" campaign, this throwing of Parmer overboard, is the control of the state administration and the legislature, the election of Boss Dan Campan to the United States senate in place of Senator Burrows, and the gerrymandering of the legislative and congressional districts of the state.

The fact that many of the workers in the Republican ranks throughout the state were found to be lined up for Mr. Warner for governor, has given rise to the charge that he was in the hands of the "machine." There is nothing further from the truth. The fact is that these workers were brought in by Mr. Warner instead of the workers bringing him in. He made his own canvass, and by his good fellowship and clean record won his own nomination—Judge Lamb, Cadillac.

The Democratic war cry to Democrats in this campaign is "Vote straight" while to Republicans they dishonestly talk non-partisanship, but the game won't work.

NORTHVILLE, MICH., Oct. 28, '04

Same Old Tactics.

The reason for the war waged upon Mr. Warner in this campaign is something that has not yet been explained by the forces that are pushing the warfare. There are candidates for 12 state offices, for 12 congressmen and 14 electors, for 132 senators and representatives and for 30 or 15 county officers in each of the 53 counties of the state—counting over 1,000 offices to be contested for between the democrats and republicans—and yet the democratic campaign effort is concentrated wholly upon one man, to the neglect of all the others, counting all the rest of slight importance and it is a strange fact that that one, Fred M. Warner, nominee for governor, they freely admit nothing derogatory can be shown. That he is capable and honest and faithful, and has rendered good service in all positions by him occupied, they have repeatedly confessed, but they profess to fear that he might not so show himself as the governor. Surely, that is too petty to be considered, and too absurd to be candid.

They profess their aim to be the securing of certain legislation which has been taken up as a matter of policy to think to subvert the state constitution, but in regard to that they are altogether neglectful of the fact that the success of their plan depends upon the securing of a majority, and that all their batteries upon this single man, bombarding him and him alone night and day, with the guns of birth guns, brass drums and tom-toms, and Chinese stick balls—And this is done for the sake of primary reform, as they profess, well knowing that their governor, if they could defeat Mr. Warner, would have no power to pass the law they claim to seek and could only approve it when pressed, which Mr. Warner promises to do not only and do it in a manner that will be a disgrace to the state.

So it is true that the reason for their war upon Mr. Warner is something not yet explained. It is of course, the fact that the opponents were so many, and in a large way they would say something for their party. Their party is a coalition of the various and a very excellent one at that, when it is straining to elect, and national principles, which even these men profess to believe in, and yet they not only say nothing for those, but they even in reality advise their defeat, encouraging the formation of Roosevelt and Ferris clubs. Of course, there is a hidden reason for all this, and the reasons they profess must be insincere, and only for the purpose of entrapping unwary republicans into giving aid and comfort to the democracy by helping them to break the republican alignment. It is the usual tactics and Michigan has seen it before.

Gives the Wrong Figures.

A Detroit paper says: "The republicans have piled up the state taxes from \$3,000,000 in 1894 to \$8,000,000 in 1904." As a matter of fact the total state tax for all purposes this year is \$2,294,347.50, and that includes \$400,000 mill tax of which the statute fixes the amount according to the assessed valuation. That is a good way from \$8,000,000. It costs in round numbers about \$450,000 to run the city of Detroit for one year, or on an average about one million dollars a year more than is required by the great state of Michigan.

The Old Star Carpet. Old star carpet can be turned to good account as follows. First stake it well and cut away the bad parts and with the best of the material pad for doubling short runners and tacking them at the edge of each step where the tread comes before laying the new carpet. This will make a new carpet wear twice as long and also make it very soft to walk upon, says the Brooklyn Times.

Can You Eat? J. B. Taylor, a prominent merchant of Chesman, Tex., says: "I could not eat because of a weak stomach. I lost all strength and ran down in weight. All that money could do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol Dyspepsia Cure, I concluded to try it. The first bottle benefited me and after taking four bottles I am fully restored to my usual strength and health." Kodol Dyspepsia Cure dissolves what you eat into nutrients. Sold by all druggists.

MISS BEATRIX CALLAM.

Interesting Letters from Catholic Institutions.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs. With so many children to take care of and to protect from climate and disease, these wise and prudent sisters have found Peruna a never-failing remedy. Another letter received by Dr. Hartman is from Beatrix L. Callam, 10 W. Third Street, New York, and is as follows: "I cannot say too much in praise of Peruna. Light bottles of it cured me of catarrh of the lungs of four years' standing, and I would not have been without it for anything. It helped several Sisters of coughs and colds and I have yet to find one case of catarrh that it does not cure."—Sister Beatrix. From a Catholic Institution in Central Ohio comes the following recommendation from the Sister Superior. "Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which treated to be of a serious character. We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis. An other recommendation from a Catholic Institution of our of the Central States written by the Sister Superior reads as follows: "A number of our sisters are afflicted with influenza, and

SISTERS OF CHARITY

All Over the United States Use Pe-ru-na for Catarrh.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommendation recently received from a Catholic institution in the Southwest reads as follows:

A Prominent Mother Superior Says: "I can testify from experience to the efficiency of Peruna as one of the very best medicines, and it gives me pleasure to add my praise to that of thousands who have used it. For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado, hoping to be benefited by a change of climate and while there a friend advised me to try Peruna. After using two bottles I found myself very much improved. The remains of my old disease being now so slight, I consider myself cured, yet for a while I intend to continue the use of Peruna. I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucorrhoea. I have not a doubt that a cure will be speedily effected."

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States.

The names and addresses to these letters have been withheld from respect to the Sisters but will be furnished upon request.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body.

A remedy that would act immediately upon the congested mucous membrane restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys, or pelvic organs. A remedy that will cure it in one location will cure it in all locations.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to advise you his valuable assistance. Dr. Hartman, President of the Medical Society of Northville, Michigan, and

At the recent state convocation of the King's Daughters held at Mt. Clemens, Mr. Mar. Bristol of this place was elected a member of the state board. The additional office of assistant state secretary was created by reason of the constantly increasing work of the society, and it was decided to hold the state convocations biennially hereafter instead of annually as heretofore.

The lecture on "His Majesty, the American Citizen" by Dr. Brushington of Chicago—the first number in the library lecture course—given in the library Monday evening was attended by a large and unostentatiously very appreciative audience. The gentleman's ability as a speaker had been in no way overestimated and expressions of commendation were heard on all sides. The promises of the lecture course certainly are to be congratulated on the part of the library and the city.

A very pleasant and interesting affair was given in the Methodist church last Friday evening, with a large number of officers of that and other denominations present. The new pastor, W. G. Stephens, and family, Bria addresses were given by the representatives of the various departments of the church with response by Mr. Stephens and remarks were served in the church parlors. Music by the Wm. M. Mandolin club of Detroit and by local musicians, and a pleasant social time were enjoyable features of the evening.

The second annual pioneer day of the Woman's club at the library last Friday was greatly enjoyed by hostesses and guests alike. A large company was present and very interesting reminiscences of the early days of Northville and vicinity were contributed by a number of the older residents—especially delightful papers by Mrs. Jennie White and Mrs. Emily Simonds and pleasing talks by Mrs. Pinkerton, Messrs. Geo. Bradley, A. M. Randolph, F. R. Beal, E. K. Simonds and Nathan Sly. Mrs. Jas. Wilber of Farmington also gave a short talk in her peculiarly graceful manner and Dr. Gertrude Banks of Detroit spoke briefly. A particularly charming feature was the singing of Mr. Randolph and Mrs. Emily Swift, assisted by Mrs. Beale, Tatham and Ray VanValkenburg. A substantial supper was served.

A VOICE FROM THE PULPIT.

Rev Jacob D Van Doren, of 57 Sixth street, Ford Da Lac, Wis. Presbyter in clergyman, says: "I had attacks of kidney dis-eases which kept me in the house for days at a time, unable to do anything but I suffered can hardly be told. Complications set in, the partic-ulars of which I will be pleased to give in a personal inter-view to any one who requires infor-mation. This I can conscientiously say: Doan's Kidney Pills caused a general im-provement in my health. They brought great relief by lessening the pain and correcting the action of the kidney secretions."

DESERTER SHOT.

Ran to Escape—Guard Called Him—Then Shot. Frederick C. Matthews, a deserter, was shot by a guard at Fort Wayne for desertion. He was believed by design, ordered as a target for his guard and was shot dead. He had tried to leave prison on Friday.

Guard Frank J. Hill took a squad of prisoners according to custom, to a wood pile in the eastern portion of the grounds about 8 o'clock Monday forenoon to cut some wood. Before reaching the wood pile and about ten rods from the eastern fence which separates the reservation from the grounds of the Edison Illuminating Co., Matthews broke away from the guard and made for the high board fence. Hill called to the prisoner to halt but Matthews paid no attention to the order. Although he well understood it it would be the guard's duty to shoot him. He selected a place to escape where there was no obstacle to dodge behind.

Either the prisoner's foot slipped or else he purposely failed to afford the guard a better jump. Hill again called upon him to stop, and again to the ground for a more careful aim. Matthews kept on. Then Hill fired and Matthews fell forward on his face. The guard found Matthews breathing heavily, and turning him over saw foot rumples from him in a stream. The guard had been afraid with a rifle the cartridges of which contained smoke projectiles. Two of these had hit Matthews and caused fatal wounds.

You got me off right said my wounded man as he lay on the ground. He was shot in the chest and in the back of the head. He was shot in the chest and in the back of the head.

Note—The following article has been widely published and is one of the most remarkable illustrations of the value of careful illustration and analysis of facts in presenting a subject to the public.

LEVELERS.

The Creator made all things, we do live. We know what He made food and water for, and air and sunshine, but why Whisky, Tobacco and Coffee?

They are here sure enough and each performing us work. There must be some great plan behind it all; the thoughtful man seeks to understand something of that plan and thereby to judge these articles for their true worth.

Let us not say "bad" or "evil" without taking test work. There are times and occasions when it certainly seems to the casual observer that these stimulants are real blessings.

Right there is the trouble. It conceals a deadly enemy. One can slip into the habit of either whisky, tobacco or coffee very easily, but to "untangle" is often a fearful struggle.

It seems plain that there are circumstances when the narcotic effect of these poisons is for the moment beneficial, but the fearful argument against them is that seldom ever does one find a steady user of either whisky, coffee or tobacco free from disease of some kind.

Certainly powerful elements in the effect of the human race. It is a matter of daily history testified to by literally millions of people that Whisky, Tobacco and Coffee are the three great enemies of the human race.

disease, and the wreck follows. The "levelers" are in the buses along the pathway of every successful man and woman, and they nag the majority.

Only for the man who has a strong out against these "levelers" and hold his fortune, fame and health to the end.

So the Creator has use for Whisky, Tobacco and Coffee to level down the successful ones and those who show signs of being successful, and keep them back in the race, so that the great "field" (the masses) may not be left too far behind.

And yet we must admit that same all-wise Creator has placed it in the power of man to stand upright, clothed in the armor of a clean cut, steady mind, and say unto himself, "I decline to exchange my birthright for a mess of pottage."

"I will not deaden my senses, weaken my grip on affairs and keep myself cheap, common and behind in fortune and fame by drugging with whisky, tobacco or coffee. Life is too short. I is hard enough to win the good things without any sort of handicaps. A man is certainly a fool trader when he trades strength, health, peace, and the good things that come with power for the half-steep condition of the "druggar," with the certainty of sickness and disease ahead."

It is a matter each individual must decide for himself. He can be a leader and semi-god if he will, or he can go along through life a drugged clown, a cheap "answer of wood or carrier of water."

Certainly it is that while the Great Father of us all does not seem to "mind" if some of his children are foolish and stupid, he seems to select others (perhaps those he intends for some special work) and allows them to be thrashed and castigated most fearfully by those "levelers."

"If a man trades firing with these levelers a while, and gets a few slaps as a boy, he had better take the hint, or a good solid blow will follow.

When a man tries to live upright, clean, thrifty, sober and undrugged, manifesting as near as he knows what the Creator intends he should, happiness, health and peace seem to come to him. Does it not?

This article was written to set people thinking, to rouse the "God within" for every right-organized man and woman as well as when they feel a compelling calling from within or from the press to the front and be about in "business" from "materialism" the path of the Infinite is there and it may in every way—health, happiness, peace and even wealth—lead to a break of the "levelers" and the way for the work of the Creator.

BLOOD WILL TELL

A THEORY SUPPORTED BY FRESH, CONCLUSIVE EVIDENCE.

A Recent Instance Proves That a Woman's Happiness is Largely Dependent on the State of Her Blood.

When the blood is disordered every organ of the body is affected unfavorably and fails to discharge its functions properly. In the case of every woman nature has made special provision for a periodical purification of the blood, and so long as this occurs her health and spirits unfailingly reveal the beneficial results.

"In the winter of 1902, from some unknown cause, there was a cessation of functions peculiar to my sex for a period of four months. I became very weak and could not get up stairs without help. I had nausea and pain and a constant headache. I was under the care of a physician for three months, but he did not succeed in curing me. Then a lady friend told me about the merits of Dr. Williams' Pink Pills which she had used in her family, and she induced me to try them. It was in May when I first began to use them, and in June I had fully recovered my health, and have since remained perfectly well."

In all cases of delayed development of young girls; in anemia or weakness due to impoverished blood and showing itself in pallor, lack of ambition, despondency and nervousness; also in the great constitutional disturbances attending the period known as the change of life, Dr. Williams' Pink Pills are invaluable for women, whose health is always closely dependent on the state of the blood. They are sold by all druggists. A booklet of valuable information, relating to the care of a woman's health at all important periods, and entitled "Plain Talk to Women," will be sent free in a sealed envelope to any one who chooses to write for it to the Dr. Williams' Medicine Company, (Secretary, N. Y.)

No National Russian Drama.

It is curious that in a country so overflowing with life, it is despite the efforts of its writers, that the Russians have no national drama, and that an American student of some time in Moscow says that there are no plays there that he would care to play with. This is a curious statement, for it is well known that the Russians are a people of great dramatic talent, and that they have produced some of the most powerful dramas of the century.

Tribute to the Pie

After (the assa) and wies prevail, We gaze around with scornful eye We seize a fork with steady hand and calmly eat a piece of pie. Oh, pie! Oh, faithful apple pie! Oh, ever ready steadfast friend! In summer, winter, spring, or fall, we always can on thee depend! Oh, plodding, humble apple pie! No frills are thine—no manners high. Thou art the John Smith of them all. Oh, unassuming apple pie! And luscious peach, with mellow juice to trickle slowly down my can. And fruit so cozy and so sweet, it gives delight to tuck it in. Oh, peach! We hasten to the shelf with glowing face and eager strides. What ecstasy to find a piece with fruit evading from the sides. Oh, pie! Man's noblest, truest friend! When pilgrims cross the ocean blue, how tenderly you fill their thoughts! How soon they pine away for you! Afar off in the Philippines, our wounded soldiers often cry in happy sweet delirium: 'Oh, say! Just see that deep dish pie!' Ah, coconut! Your fragrant taste eludes my baffled palate still! Oh are you wraith, or are you real? And how you make

my senses thrill! I cut a piece off with my fork. I open my mouth and close my eyes. The pie goes in. A rapturous grin. And I dwell in paradise. And huckleberry, brimming full, to cheer the heart and stain the tongue. I'll dally with you any day. Daily off and dally long. They say that in that torrid place where devils laugh and lost souls sigh, a plaintive moan is often heard for a cool refreshing piece of pie. Oh, pie! Oh, comforter! They say (and to its truth I testify) that China could be civilized by the noble help of home made pie. And pumpkin pie! Ah, there's a pie of merit great and much renown! What joy to siff the sparkling sugar over that celestial brown! And gulp it down! And feel that you own the town. And lemon! When thou art meringue, full crowned as with a coronet, thou art a sight for kings and men. Thou art a sight I can't forget. And then there's mirce—a mystery. A riddle, yet a sustenance! You get it hot. You get it cold. But either way you take a chance. And here's 'Good By' to thee, my love! In parting let me say that I care not who makes a nation's laws as long as I can eat its pie.

Crooks Have Aid Society

"I have no doubt that people have considered when some crook, caught in the act and without friends in the place in which he came to grief, could give bond," said Frank G. Miller, an ex-convict, to a Journal reporter with whom he had previously become acquainted. "There is nothing strange about it," continued Miller, "for we have an organization for mutual protection, and this has representatives in every large city and in some of the smaller ones of the United States and Canada. Usually in the smaller places these are lawyers, and if the crook is caught in a place where he has no friends he knows who to send for."

who are better paid than those of legitimate societies, and that almost all of them are well-respected in the communities in which they live. Miller stated that the amount paid for membership and yearly dues was large and that only "square" crooks were allowed to become members. When asked if they were not afraid that their officers would emulate their employers and rob the treasury he replied that such a thing had never occurred but once. That man was afterward found on the streets of Constantinople with a knife sticking under the rib, and no one had seen fit to follow his example. "Why," said Miller, they know that if they should 'go to jail' as they would have a thousand men, keener than any detectives on their trail, and that when they get to earthly power could save them."

The crooks, according to Miller, have the membership in Chicago, New York, New Orleans, San Francisco and several other cities, and he declared that the "chrysothems" or "lenses" are fitted up regardless of expense. He said that the members, one paid to go to the court, or to buy, and not to be extra duty that would be done by one of the "cops" of the Pink Guard, or "lenses."

In the Golden Days

The golden days were ours of old. If we but had of us were told. And when they came, we knew not why. We had one in the kitchen said. We loved a little new and then Pat soon forgot and heaved a sigh. They laughed at our mistakes and so they did not mind us any more. We once got Peaches and mixed with William Penn and they were fixed. And Queen Anne was a Hutterite. And Eve said "Shoot him on the spot!"

No wonder golden days are past. For they were far too good to last. And they were far too good to last. For they were far too good to last. And they were far too good to last.

An Alpine Heroine. One of the bravest deeds in Alpine annals was performed a short time ago on the mountain Paray de Tardevant in Haute Savoie, by Mlle Marianne De'Angel, a French peasant girl 18 years of age. At great risk she saved her lover, Joseph Robin, who is of the same age as Marianne, from certain death. According to the Paris correspondent of the London Daily Chronicle, the young couple were returning home at sunset, driving their goats before them alongside a strong collier, when Robin noticed that some goats still remained near the summit. In spite of the entreaties of Marianne, Robin took a short cut up the couloir, instead of going around it. He had reached a point half-way up the couloir when an avalanche of stones rush-

FEVER THAT AFFECTS SAILORS

Epidemics Constantly Occurring in Mediterranean Fleets.

The great cause of the Mediterranean fever epidemic that now and again sweeps through the fleet, Malaria fever, as it is commonly termed, is a disease that sends many good men out of the service, for if a sailor gets it very badly it never leaves him. It is the tideless nature of the Mediterranean that largely accounts for the unhealthiness of Malta and the bad ventilation of the ships is responsible for many cases of the disease. To this is due the fact that the proportion of sickness from this cause is much greater among officers than it is among the men. The cabins are cramped, stuffy and unwholesome, and no ventilating fans are provided. The welfare and comfort of the people who have to live in our men-of-war receive less attention from the architects who design the vessels than anything else. —Pall Mall Gazette.

Preached Sermon on "Kissing."

It must require no small amount of courage on the part of a Church of England clergyman to preach a sermon on "kissing." The deed was recently done in an Anglican church in the most fashionable suburb of Melbourne. Naturally, a good many young girls were in evidence among the congregation. They doubtless yielded their assent to the preacher's preliminary proposition that "a kiss is one of the most pleasant of earthly things," and that "a kiss is not perceived unless it is expected and reciprocated." The bulk of the sermon was devoted to Scriptural forms of the practice—the kiss of peace, the kiss of reconciliation, the kiss of consecration, etc.

A professional diver says that one of the strange effects of diving is the variable bad temper felt while working at the bottom of the sea. Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period—how to avoid pain and suffering and remove the cause by using Lydia E. Pinkham's Vegetable Compound.

"To Young Women:—I suffered for six years with dysmenorrhea (painful periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds. If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, that was the only medicine which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment, and was cured a month later. I am I have added 12 pounds to my weight, my color is good, and I feel light and happy."—Miss Agnes Miller, 25 Belmont Ave., Chicago, Ill.

The monthly sickness reflects the condition of a woman's health. Anything unusual at that time should have prompt and proper attention. Fifty thousand letters from women prove that Lydia E. Pinkham's Vegetable Compound regulates menstruation and makes those periods painless.

READ WHAT MISS LINDBERCK SAYS:

"Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured my trouble. I will tell you how I was cured. My trouble was painful menstruation. I had been suffering for six months, and I was very weak and nervous. I had been told that I would never be cured, but I tried your medicine, and I was cured. I feel better than I have for a long time. I have gained weight and my color is good. I feel light and happy."—Miss Lindberck, 141 6th Street, St. Louis, Mo.
