Jackson Prison Affairs,

The Jackson prison board of con-trol will consider the letting of certain labor contracts for the 200 conviets now idle in the institution, and a'so to inquire further, at Warden Vincent's request, into certain matters brought before the board at a meeting last week by former Deputy War den-Foote. Governor Warner, Deputy Attorney-General Chase and Warden Vancent were present. The prisoners have their 'daily balances' on deposit. The interest on that money, it was said, has been going to Mr. Vincent. The sum involved is such as to make the interest a few hundred, dollars. The money, it was said was first at the Jackson City Bank, and is now has the plackson of the Linen Trust Co. in the vaul's of the Union Trust Co.

OPERATED ON, BUT DOING WELL DETROIT WAS VISITED AND -TO CLEAN UP PANAMA

Reports from Pocasset, Cape Cod, say that Maj. Gen., Leonard Wood has just undergone the delicate surgical operation of trepanning to remove a bony growth on his head. The operation, it is said. was entirely successful, and the general is making rapid progress toward recovery. It was made necessary by a mishap several years ago, when Maj. Gen. Wood received a severe blow on the hand by accident. A swelling developed, but surgeons were soon able to determine that it was not of cancerous growth and not in the least likely to have any permanent ill effects: Gossto is current in Washington since President Roose velt's speech at Oyster Bay Wednes day, that the president plans to send Gen. TERRIFYING STORM.

MUCH DAMAGE DONE. The most spectarular storm Detroit

has seen this summer occurred at 1 o'clock Friday afternoon A sultry forenoon and an unsettled condition of the weather gave promise of a down-fall. It came black and threatening from the northwest. Low lying clouds rolled closely to the earth, creating intense darkness. When the storm broke m the business section of the city its amounted to a cloudburst. The gut-ters ran with water even with the curbing and accompanying the down-pour was a scattering of hall of sufficient size to smash large plate glass wifidows. Along Shelby street the sidewalks were littered with fragments of windows and all over the downtown ection much damage was inflicted. So clother was the storm and so terrifying the darkness that thousands of men and women were scared almost out of their senses. Many timorous women took refuge in their cellars.

NORTHVILLE, MICH., JULY 21, 105. A Newspaper Senator.

It is thoughtief on the part of the Detroit Free Press to assume direction and disposition of the United! States senatorship, to succeed Senator, Alger, to the generous extent to which such service is being rendered. The Free Press and some other Detroit papers have manifested their willingness to take the entire burden out of the hands of the republicans of the state. They are selecting some candidates and disposing of others They are organizing sections of the state in imaginary battle array, for and against their newspaper candidates; and later on they will probably create charges, construct denials, suggest schemes. express suspicions, form and reveal plots, and load and explode doubleleaded scandals. And all this the Independent and non-partisan newspapers of the state will attend to while yet the republicans of Michigan are calmly reviewing the situation and giving quiet consideration to the problem inversed, and to its

Good Grades.

Grades among horses =and cattle are more easily produced than full bloods because bloods because the number of unregistered females is far greater than the number registered or that have the right to be registered. It requires the selection only of a good to Jusure a certain amount of quality, but to get the best quality it is necessary to have a good dam as well as a good sire. Good grades, whether of horses or cattle, are worth far more than poor grades We have no standard of grades and can have none, though breeders from time to time have tried to put upon paper what they considered the points of good grades of different breeds. Some day we may have associations dealing with grades only, and when that time comes the characteristics of the good grades may be defined by reles tend ing toward a standard...

Under Manipulation.

There is a discussion going the the value of udder manipulation This is practiced by the Dutch and Danes and is of increasing the capacity of the cow After milking the Dutch milker manipulates the udder by pressing the two sides together with his hands and then the two ends, repeating this for a few seconds. After that the cow is again it, so that a good thing is converted stripped and about a half pint of very rich milk is obtained. The natural thought regarding the matter is that possibly this extra half pint of milk would be found in the next milking, if it were not gained at the first nilking. The ultimate advantage is hard to

Fads and Utilities.

In the breeding of horses and cat tle fancy points may be tolerat but they should not be pereď. mitted to crowd out the most use ful qualities of the animals. If we can get the right shape on the horn of the Ayrshire without taking from some thing else, there is no objection to having the kind of a horn that the standard requires. The same is true of the color of the draft horse. But the useful qualities are the ones that are to be looked after and they are the ones in which our stock is now most deficient. This applies to pure-bred animals. But in the case of grades we can ignore the fads altogether and work only toward the useful.

When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a matron from Rome, N. Y.; "it's lightest punishment was to make me 'logy' and dizzy, and it seemed to thecken-up my blood.

"The heaviest was when it upset my stomach completely, destroying my appetite and making me nervous and kritable, and sent me to my bed. After one of these attacks, in which I nearly lost my life, I concluded to quit and try Postum Food Coffee.

"It went right to the spot! I found it not only a most palatable and refreshing beverage, but a food as well. "All my ailments, the 'loginess' and dizziness, the unsatisfactory condition of my blood, my nervousness and irritability disappeared in short order and my sorely afflicted stomach began quickly to recover. I began to rebuild and have steadily continued until now. Have a good appetite and am rejoicing in sound health, which I owe to the use of Postum Food Coffee."

Method Killing Seals

ka" thus describes the business of se-curing sealshins: "The killing is always done early in the morning when the temperature is lowest. It was 5 o'clock in the morning when we left the ship. The killing season was practically over, but the agents had arranged a drive for our benefit. The seals lie alone the rocky shores, the bulls, or 'beachmasters,' as they are called, and the cows and their pups occupying the rocks nearest the water while the bachelors, the 'young un-mated males, are forced to go farther up the beach. As only the bachelors are killed for their skins, this natural division facilitates the work of the drivers in making their selections. Two or three drivers slip in 20d (cut out, as the cowpoys would say, a bunch for the day's killing. They proceed to make a great noise by shouting, slapping pieces of boards together and beating on tin cans. The seals are frightened and the squirming, huddling mase is gradually forced away from the rookery

Now here they come, bleating like a flock of sheep, ambling in their the tall awkward fashion through grass. The young males and the few females which the drivers will not-try to senarate from the herd until the killing ground is reached offer no resistance. But the two or three old

posed to be witches and evil spirits leaving the town. The people, therefore shout at and curse them as they disappear in vacancy. When the burning barrel falls in pieces the fisherwives rush in and endeavor to get a lighted bit of wood from its remains With this light the fire on the cottage hearth is at once kindled and it is con-sidered lucky to keep this flame all the rest of the year. The charcoal of the 'clavie' is collected and put in bits up the chimney, to prevent the witches and evil spirits from entering the

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, landanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: ". I medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death!" The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CON-TAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

A Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. J. W Dinsdale of Chicago, Ill. says: "I use your Castoria and advise its use in all families where there are children." Dr Alexander E Min ie of Cleveland Ohlo, says. I have frequently prescribed your Castoria and have found it a reliable and gleasant remedy for children." Dr. J. S. Alexander, of Omaba, Neb says: "A medicine so valuable and bene-il for children as your Castoria is deserves the highest praise. I find it in use ywhere."

Dr J A. McClellan, of Buffalo N Y, save "I have frequently prescribed your Castoria for children and always got good results" in fact I use Castoria for my own children."

Dr. J. W. Allen, of St. Louis, Mo. says: "I heartily endorse your Castoria I have frequently prescribed it in my medical practice, and have always found it to do all that is claimed for it." DF C H Glidden of St. Paul, Minn, says: 'My experience as a practitioner by our Castoria has been highly satisfactory, and I consider it an excellent remedy

Dr. H. D Benner, of Philadelphia, Pa, says: "I have used your Castoria as a purgative in the cases of children for years past with the most happy exect, and fully endorse it as a safe remedy"

ty endorse it as a sate remedy."

Dr. J. A. Boarman, of Kansar City, Mo, says: 'Your Castoria is a splendid nedy for children known the world over. I use it in my practice and have no sitancy in recommending it for the complaints of Infants and children."

Dr. J. J. Mackey, of Brooklyn. N. Y. says: "Y consider your Castoria an extent preparation for children being composed of reliable medicines and pleasant the taste. A good remedy for all disturbances of the digestive organs."

Dr Howard James, of New York Core save "It is with great pleasure that I desire to testify to the medicinal righter of your Castoria. I have used it with marked benefit in the case of my own daughter and have obtained excellent results from its administration to other children in my practice."

You Must Sleep.

If you cannot, it is due to an irritated or congested state of the brain, which will soon develope into nervous prostration.

Nature demands sleep, and it is as important as food; it is a part of her building and sustaining process. This period of un onsciousness relaxes the mental and physical strain, and allows nature to restore ex-

hausted vitality.

Dr. Miles' Nervine brings refreshing sleep, because it soothes the irritation and removes the congestion.

-It is also a nerve builder; it nourishes and strengthens every nerve in your body, and creates energy in all the organs.
