Vol. XXXVII. No. 16.

NORTHVILLE, MICH., FRIDAY, NOVEMBER 24, 1905.

\$1.00 Per Year in Advance

BLISS COTTAGE, GIRL'S INDUSTRIAL SCHOOL, ADRIAN.

## MICHIGAN MONEY WELL EXPENDED

### ADRIAN INDUSTRIAL SCHOOL A GRAND INSTITUTION

#### Indestimable Good Accomplished for Unfortunate Girls.

On a beautiful site upon elevated ground just north of the city of Adrian and overlooking the valley of the River Raisin, is located Michigan's Industrial Home for Girls. It was opened in 1881, and 86 girls were received the first year. The present number in the twenty-fifth year of the institution is about 150 in the home, with about 75 more out at service in families under contract between their employers and the state. The whole number admitted has been about 2,000, of whom more than half have been from 16 to 17 years of age, and about one in fourteen has been under 12 years. These girls have been taken from the most deplorable conditions. In a statistical report covering the 14 years previous to July, 1901, and including about thirteen hundred girls, 543 were children of intemperate fathers, and 140 had intemperate mothers; 207 mothers were women of abandoned characters; 29 fathers and 20 others were criminals; and 34 were in prison; 584 of the parents were divorced, 110 girls were deserted by fathers and 62 by mothers, and 703 were orphans or half-orphans. These dreadful conditions, of course, produced their natural results, and the unfortunate children found their way into the courts as disorderlies, misdemeanants, etc., and were sentenced to the Home. Some of them have brothers in the Boys' Industrial School, and younger brothers and sis-

ters in the State Public School, and parents in jail.

Let us now turn to the brighter side of the picture. Coming to the institution with the scantiest attainments in any good direction, either intellectual, industrial or moral, and usually with none, but on the other hand pitifully perverted by the evil associations in which they have lived, these victims of others' vices are taken in to the sheltering arms of the state, and into physical comfort and social privileges and helpful associations to which they had been strangers. They are taught in school, instructed in useful work, trained in sanitary living and led in the development of moral character. And their natures are quick to respond to these motives. In nearly all cases they have everything to learn and in nearly all cases they give cheering evidence of the good results

MRS. LUCY M. SICKLES  
Superintendent of the State Industrial Home for Girls at Adrian.

of the care bestowed upon them. There are two classes of about forty in dressmaking, with a course of one year, so arranged that one class is graduated each six months, thoroughly instructed, and so there are always capable workers and considerable customers work is done. There are classes in common sewing and many need a working knowledge of the regular work and the girls make their own clothing and the Home for the institution. There are also a well equipped cooking school, and 140 took the course in the past two years, and 61 graduated with honors and received diplomas. The examination is rigid and only good cooks can pass it. The idea is instilled into them that domestic service is an honorable profession which will be properly esteemed when the right girls join it, and that as prevention is better than cure, the girl who by attention to cleanliness and by skill in cookery prevents disease, ought to rank higher than the nurse who aids in the cure.

So the Industrial Home is really a school of technology for girls, including the elementary branches of a common school education, and better fitting them for housekeepers, wives

and mothers than does the average city school. And as they become fitted in skill and character they are hired out on contract for domestic service in approved families, where they are still in the jurisdiction and care of the Home and where they receive wages one-quarter of which is paid to the institution and deposited in banks to their credit, and the balance is their own for current needs. Those bank reserves are paid to the girls, together with accrued interest, when discharged, and they amount to over \$3,000 for those discharged in the last two years, and nearly \$1,000 in banks awaiting call. Over one-third of all received have been discharged for good conduct, under the authority conferred upon the board of guardians, and about as many for expiration of term and other reasons. Many of those who have thus gone out and taken their places in society are now happy mistresses of their own homes, and mothers of children who have a fine home promising start in life, than their mothers had, thanks to the wise policy and enlightened liberality of our state, and if we could recite here some of the letters which the institution receives from those graduates, expressing their love and gratitude for the help and care which they received, it would show the best results of the work as they could be shown. Some cannot do. Others could not have gone with the writer on a recent visit to the Home and see the girls in faces that accompanied the busy fingers at their work, the cheerfulness with which they applied themselves, the pride in their accomplishments, and the happy relations everywhere evident between the girls and their teachers and directors, he could better appreciate than ever before how wisely our state builded in establishing the Industrial Home for Girls.

The per capita cost of this work is reckoned now at \$118.25 per year. As the average length of time in the home is about two years, that makes a total cost of \$236.50 for each girl, a pretty good investment surely. We are paying for that purpose \$66,000 this year. The present property represents an investment of over a quarter of a million, and includes a farm of 113 acres and sixteen or eighteen buildings. The girls are housed in eight cottages, each containing a family of thirty to fifty, with a manager, a housekeeper and a teacher to each, a parlor, study rooms, dining-room, kitchen, laundry and bath for each, and each girl has her own individual room. There is a school-house and a chapel seating five hundred where the various clergymen of the city conduct Sunday services, and a hospital, at present without an inmate. The total deaths in the history of the institution have been 16.

There is a band and orchestra, and a military organization, which have marked influence in stimulating the pride of the girls and promoting good discipline. A greenhouse gives congenial and healthful occupation to a number, and has both beauty and utility in its product.

The institution is under the care of a superintendent, a trust which has

been wisely and faithfully administered for the past fifteen years by Mrs. Lucy M. Sickles, and to her wise management the real success of one of the greatest of all Michigan's institutions may be attributed. Mrs. Mary C. Johnson, the assistant superintendent, was a popular cottage manager for many years.

## Suburban News.

Ypsilanti has a Beefsteak Club. The members are all first class, never roast each other or get in a stew or into the soup, although it is barely possible they sometimes play for high stakes.

A gas franchise has just been granted in Fenton. The use of the volatile fluid there will not be confined hereafter to public speakers and politicians, but will be accessible to the people for heat and illumination.

Miss Boy is a young lady and a misdeed one at that. She missed being a boy, but she doesn't miss boys to any extent. Some day when the right boy comes along Miss Boy who is not a boy will be a Boy no more.

A man and his wife named Chase accompanied by his two children and a push cart, have recently walked from Bay City to Ann Arbor, sleeping in barns, churches, and eating a jolly good meal. I must have been a piece of push.

A number of people in Pontiac and other places have just discovered that in joining a new fraternal order called the "Golden Rule Society" and paying numerous \$1 assessments, they guaranteed to bring double returns after a certain time, they have been neatly and completely sold. The kind of "golden rule" used was the one that is arranged to do others, whether they do you or not.

The wholesomeness of Ann Arbor's water supply has been very much open to suspicion for some time, according to expert investigation, and now some unfortunate citizens of that learned burg have been having milk sold them that expeditiously kills guinea pigs when those luckless little sacrifices to science are experimented on with it. The question of what Ann Arborites are going to drink is becoming a serious and solemn problem.

Oakland and Livingston counties have been engaged per their respective superintendents of the poor for several years past in trying to fix the responsibility of \$20 expenses for aiding a poor family named Wood that has been "deported" from one county to the other a few times. At last it was up to the supreme court to untie the gordian knot and the \$20 has been awarded to Oakland and the Woods to Livingston. Meanwhile the legal expenses incurred might have kept several poor families in comfort and probably Wood.

A motorman on Ann Arbor street car saw so big a snake on the walk one day last week that he knew he dared not tell of it without positive and undeniable evidence of its size, so stopped his car and slaughtered the reptile, which proved to be seven feet long. The remains were interviewed by the University snakeologist, who pronounced the serpent a southern

pine snake, a species now very rare even in its natural habitat, and the specimen is now reposing in alcohol in the University museum. The "animal" is supposed to have escaped from some show, but stray snakes have no show in Ann Arbor until they become stationary exhibits.

Oakland county isn't hugging herself quite so enthusiastically as she has been over the easy enforcement of the Secley law. Last week Sunday a car load of Detroit hunters, with guns and dogs galore disembarked at various villages along the line of the D U R and proceeded to shoot over the county's game preserves regardless, even boasting over the very apparent fact that "nobody da'st touch 'em," and guaranteeing to "make it interesting" for anybody who should. The shooters probably won't find the authorities quite so easy a mark next time, as the minions of the law will have been thoroughly awakened from their supposed security by the fusillade of the Sunday referred to.

**Card of Thanks.**

We wish to thank the friends and neighbors for their kindness during our late bereavement.

—CHAS SHIPLEY AND CHILDREN.

**Whitney's Opera House—Detroit.**

"My Tomboy Girl," a spectacular and sensational comedy drama, from the pen of Chas. E. Blaney, which serves to introduce Miss Lottie Williams in a new vehicle will be the offering at the Whitney next week, beginning Nov. 26, afternoon. Its plot is one of sufficient complication to hold the attention of the audience in the unravelling of the fine story, and yet to still permit room for excellent comedy and the best musical numbers and specialties in the theatrical world. Half a hundred brilliant performers.

Matinees daily, except on Wednesday.

**Lyceum Theater—Detroit.**

Miss "Nancy Brown," the diplomatic, effervescent, always bustling matrimonial agent, whose business it is to marry off American heiresses to titled noblemen of the Orient will hold forth at the Lyceum next week, commencing Nov. 26 evening, with a bevy of beauties at the Court of the Bey of Ballyhoo, and there will be some highly amusing doing as the result of her efforts at match making. "Miss Brown" will be impersonated by Miss Mary Marble, the daintiest little comedienne on the American stage, and her support will be a company of fifty talented players. The song hits are numerous and catchy. Matinees Wednesday and Saturday with a special performance Thursday afternoon—Thanksgiving day.

# STATE NEWS

## FORMER PORT HURON GIRL ELOPES WITH A CHAUFFEUR.

SECRETARY GARFIELD GIVES BENTON HARBOR MAN A FAT JOB.

A story coming from Los Angeles, Cal., that Miss Elizabeth A. Botsford, daughter of Port Huron society girl, daughter of William F. Botsford, millionaire President of the Los Angeles American National bank, had eloped with Albert P. Franzen, her father's chauffeur, has created a sensation in this city.

Miss Botsford disappeared from her home and was married to Franzen by a justice of the peace. The young woman's father is unable to obtain trace of her and her husband, but he believes that they have gone to Colorado, where Franzen owns a ranch.

It is said that Botsford may try to have the marriage annulled on the ground that his daughter wasn't mentally competent to select a husband.

### Names Michigan Man.

Edmund J. Bard, of Benton Harbor, formerly auditor of the Milwaukee, Port Huron & Columbus railway, has been appointed assistant inspector of the department of commerce and labor by Secretary Garfield, and began his duties Tuesday.

His first work will be in connection with the beef trust investigation in Chicago. The appointment carries with it a salary of \$2,000 per year and \$1 per day for expenses. The position was secured without political pull, because of the ability of Mr. Bard.

### For Horticulturists.

Director C. D. Smith announces the winter course in horticulture at the I. A. C., at Lansing which was attended last year by 120 persons. The course is short, practical and inexpensive, designed for those who desire a training for successful fruit growing, gardening or greenhouse work. It begins January 2 and continues to February 23. There are no entrance examinations, anyone, including a high school graduate, can take the course. The course is free, but a woman over 16 years is admitted. The necessary expenses, approximately \$1.50, are about \$15.

### Judge Roberts Dies Suddenly.

Judge Lorne Roberts, one of the most prominent men of Ionia, died very suddenly last night of a heart attack. He was at the telephone booth of which he is president, when he collapsed and died only four hours after he had been in Ionia, in 1917, and published in the evening when only 40 years of age. He was born in Michigan and spent his entire life here. He was a member of the Ionia bar and a prominent figure in the community.

### Three Killed at the "Sox"

Three persons lost their lives in the wreck of the "Sox" railroad train. The train was carrying a load of lumber and was traveling at a high speed when it derailed. The three persons who were killed were the engineer, the fireman and a passenger. The train was carrying a load of lumber and was traveling at a high speed when it derailed.

### St. Clair Co. Divorce Record

One divorce case for every four marriages is the ratio in St. Clair county. In the year 1934, there were 11 divorces granted in the county. This is a record for the county and shows a steady increase in the number of divorces granted in the county.

### Reward for Assassin.

William S. Wenzel, of Grand Rapids, has offered a reward of \$500 for the capture of the assassin of George J. Noyes. Noyes was a prominent businessman and was killed in a shooting in Grand Rapids. Wenzel is offering the reward for information that leads to the capture of the assassin.

### Two Tots Cremated.

Mrs. Dell Wright, of Lake Township, near Baldwin, looked her two children in the house while she went to visit a neighbor. The house caught fire and both children perished. They were aged 3 and 5 respectively.

### Three Years in Prison.

Robert Loy, who recently attacked his wife on the street at Jackson and rushed her throat, and later made a bluff at suicide by laying down on the railroad tracks, was sent to Jackson prison for three years. His wife is recovering.

### Kills Ring Tail Cat.

A ring tail cat, an animal decidedly rare in northern Michigan, has been caught by Herman Thiele, a Negaunee man. It was the first specimen ever captured by either Mr. Thiele or his father, and together they have been engaged in trapping for 45 years. The animal has fine, silvery gray fur. The most striking characteristic is a series of black rings around the bushy tail. This appendage it differs radically from the ordinary wildcat, which has a bushy tail.

Prof. Henry S. Carhart, of Ann Arbor, has arrived home from his trip through Africa with a British scientific expedition. The party traversed the Zambezi river, and was present at the dedication of the Victoria bridge on the Cape to Cairo railroad.

A portrait of Stevens T. Mason, the first governor, was taken from the hangings in Representative hall and photographed under the direction of the commission which was appointed to secure estimates and present a plan for a monument to be erected in Detroit.

## MICHIGAN ITEMS.

Sugar beet and chicken factories at Bay City pay out nearly \$350,000 to farmers this week.

Frank Tuttle, prominent farmer of Dowagiac, cut his throat because his wife left him. He may recover.

Wells G. Brown, deputy state land commissioner, is suffering from an attack of appendicitis at Lansing.

Mrs. Anna Daniels, of Twinning, was taken to Standish by Sheriff Wademan on a charge of illegally practicing medicine.

While burning leaves Mrs. Wm. Burrell, of Denton, was fatally burned, her clothing being entirely burned from her body.

Over \$4,000 in bank certificates has been found in the little house where Miss Martha J. Hauser, of Baroda, a recluse, died.

The council of Lansing passed an ordinance prohibiting the use of ice from Grand and Cedar rivers for family consumption.

Edward C. Hillman, of Battle Creek, will accept the office of member of the state board of education recently tendered him by Gov. Warner.

Wm. S. Shakespeare, of Kalamazoo, has been appointed by Commander-in-Chief Tanner, of the G. A. R., a member of the committee on pensions.

John Wormbrand, aged 80, who has lived a hermit life for 10 years at Muskegon, has been granted a divorce from his wife aged 75, who lives in Kalamazoo.

A hobo held up Ethan Cudrey, aged 14 years, in the Grand Trunk yards, at Owosso, went through his pockets and relieved him of all his money—one cent.

J. Alexander Doyne wants to sell his Michigan possessions—Ben MacDuff, his summer home on White Lake, the Bethany home and 400 acres on the lake.

A new creamery company has been organized at Wayne, with J. C. Stellwagen president; John Truesdell, treasurer, and Anthony Snyder, secretary.

The Detroit-Say City Electric Co. has received several steel cars, a locomotive and a full outfit of track-laying tools. About 10 miles of road have been graded.

Mrs. Philip Elliott, of Lansing, will not use stove polish with gasoline again. The explosion from her first experience burned her hands and arms severely.

On orders of Mayor Parillo, Owen was a "dry" town on Sunday, and every still machine was hidden away and the "dry" law is on for an indefinite time.

A group of Benton Harbor put pressure on Mr. W. Bogue's herosene fire. Mr. Bogue was carrying a lamp filled with kerosene when it exploded and he was badly burned about the head.

A. M. Todd, manufacturer of paper, died at Kalamazoo. He had been named representative of the chemists and of the middle west to the international conference of applied chemistry, which will be held in Rome next April.

The Commonwealth Power Co., of Lansing, which produces motive power for street cars and interurban lines, gave out a notice last week regarding its supplying the interurban line out of town.

Mrs. H. H. Latham, of the county, died at the age of 80. She was a well-known figure in the community and was married to a prominent man.

Wm. H. Latham, of the county, died at the age of 80. He was a well-known figure in the community and was married to a prominent woman.

Prof. Henry S. Carhart, of Ann Arbor, has arrived home from his trip through Africa with a British scientific expedition.

A portrait of Stevens T. Mason, the first governor, was taken from the hangings in Representative hall and photographed under the direction of the commission.

One hundred and twenty-eight persons lost their lives in the wreck of the Locomotion & Southwestern Railway Co.'s steamer Hilda, off the northern coast of France Saturday night.

The entrance to the harbor of St. Malo is one of the most difficult known to mariners. On Saturday night a blinding snowstorm with haze and high wind prevailed and it is little wonder that even so experienced a navigator as Capt. Gregory lost his reckoning.

In all over 60 bodies have been washed up, including that of Capt. Gregory, the commander of the wrecked ship, which now lies in the hospital area and as fast as other bodies arrive they will be placed in a room prepared for their reception.

# DEATH LIST

## STEAMER HILDA DISASTER DEATH LIST GROWS.

128 PERSONS LOST THEIR LIVES ON THE ILL-FATED SHIP.

One hundred and twenty-eight persons lost their lives in the wreck of the Locomotion & Southwestern Railway Co.'s steamer Hilda, off the northern coast of France Saturday night, according to an official estimate given out by the officers of the company. This death toll includes 21 saloon passengers, 30 French onion sellers and 27 of the crew.

A St. Malo dispatch says: Realization of the full extent of the disaster to the cross-channel steamer Hilda came to the people of St. Malo as reports of the finding of bodies were received from the different points along the nearby coast.

In all over 60 bodies have been washed up, including that of Capt. Gregory, the commander of the wrecked ship, which now lies in the hospital area and as fast as other bodies arrive they will be placed in a room prepared for their reception.

## U. OF M. SEATS WISCONSIN.

Great Game of Football at Ann Arbor. If yelling has anything to do with winning a football game, there were fully 20,000 players on Ferry field at Ann Arbor, Saturday afternoon.

Such a mighty throng has never before surrounded Ferry field and such yelling has never been heard before.

Football history, happily minus the somber page of its coldest chapter, repeated itself Saturday, when Michigan triumphed over Wisconsin by a 12 to 0 score that, were it necessary, might have been converted into figures more one-sided.

The coincidence came not in the play itself, but in an incident that for a time threatened to change the day from Michigan's most joyous athletic event into the saddest afternoon of the university's history.

With the score 8 to 0 in Michigan's favor, and the second half just started, the temporary stand, at the west end of the field, a sloping platform on which probably 2,000 persons, men and women, were standing, slowly sank beneath the weight of its burden.

The supports of the structure, fortunately, gave way gradually, and this, with the fact that there was a very short distance for the drop at most, enabled all save a very few persons on the platform to escape unhurt.

In no case was any person seriously hurt.

Governor Kills Deer and a Wolf. The governor killed a wolf, the hide of which he will have made into a rug for his office at Lansing. He also got a fine buck.

Saturday the governor spoke in the smallest schoolhouse in Michigan, in the woods near Wellsburg near where his deer hunting camp is located. The building is 10x14 and has ten scholars enrolled.

New Bridge Opened. The new cement bridge over the Maple river at Muskegon, just opened to the public is the only bridge of this kind in Ionia county. It was built by the Slater Construction Co. of Pontiac. It consists of three arches of 31 feet each, with a 16-foot roadway and cost \$12,500.

CONDENSED NEWS. Toledo is having a consumption epidemic. There were 229 deaths last year and the record for 1935 will be worse.

Arva Gump, a Mexican war veteran, the first to scale the walls of Chapultepec, is dead in Spencer, Mass., aged 79 years.

King Edward has added \$10,750 and the Prince of Wales \$2,250 to Queen Alexandra's fund in aid of the London unemployed.

Memorial services were held in New York Sunday for the Presbyterian minister murdered in Lien Chan, China, Oct. 22.

The new sugar beet factory at Detroit is now running the plant which covers the neighborhood of 300,000 employees over 200 men and has a capacity of 600 tons of beets per day.

More than 200 actors and actresses attended the Manhattan theater party New York Sunday to honor the memory of the late Sam Hays.

Admiral Gen. Claffie, U. S. A., has recommended that a copy of the report of Gen. Wm. Crozier, chief of ordnance, be sent to every officer in the army. Gen. Crozier advocated higher guns.

Mrs. Kuffner, a Cleveland actress, manufacturer, says again that she drove her son, a student, to the point of suicide by neglecting him. The father, a well-known actor, died of a heart attack.

The railroad pool of the Detroit Times has decided that the local is a defunct newspaper, and it exists and exists the government will do nothing for the loss and now they will receive no aid.

Emmanuel Wilhelm has been elected president of the National Chess club, which has been organized for the purpose of promoting chess in the United States.

Ma, Gen. Henry C. Corbin, U. S. A., in command of the division in the Philippines, has requested that he be appointed chief of the general staff, when promoted next summer to the grade of lieutenant general.

The National Grange, Patrons of Husbandry held memorial services, attended by 2,000 grangers, at Atlantic City Sunday. Chief Ranger Aaron Jones presided. The grange favored convict labor in road-making.

Dr. Douglas Hyde, a distinguished Irish scholar, orator and poet, and president of the Gaelic league of Ireland, has arrived in New York. His mission in life is to revive the Gaelic language. He will lecture before many colleges.

Secretary William H. Taft, address the annual banquet of the Commercial club in Kansas City, said: "The Philippine islands must be ours for more than a generation and probably those called on to act as legislators will not live to see the day when separation consistent with the welfare of the Philippines can be made."

Prince Charles of Denmark, new king of Norway, has selected the title of King Haakon VII, and wired his father-in-law, King Edward, the first greeting to a foreigner, under that title in reply. England's king answered: "I thank you for your kind telegram. I am enchanted to learn that my dear daughter will be queen of your magnificent and interesting country."

Dr. W. R. Harper, president of Chicago university, expecting to die within a few weeks of cancer, is closing up his affairs and putting the university to right. John D. Rockefeller will be summoned to his death bed.

The Calvary M. E. church of New York has loaned its church to the congregation of Temple Israel, a Hebrew society which recently was burned out in its first sermon in the temporary quarters. Rabbi Newmark described the act as a "remarkable instance of the broadening of church lines. We are all trying to serve the same God," said the rabbi, "and are learning to lay aside our differences."

## POSTMASTER-GENERAL CORTELYOU ASKS FOR \$193,000,000

SAYS THAT AMOUNT IS NEEDED TO RUN POSTAL SERVICE NEXT YEAR.

Postmaster General Cortelyou recently completed and forwarded to the secretary of the treasury estimates for the postoffice department for the fiscal year ending June 30, 1937. They show a reduction of expenses wherever it is believed it will not impair the service, but provision for development of postal facilities to meet the growing needs of all sections of the country.

The amount asked for salaries in the department proper is \$481,250, an apparent increase of \$61,950 over the current appropriation, but as \$43,500 of this is simply a transfer from other appropriations the net increase is only \$17,450. The estimate submitted for next year is \$44,620 less than the estimate submitted one year ago.

The clerical force of the department, therefore, will remain practically as it now is during the fiscal year.

The estimates for the postal service at large aggregate \$193,000,000, an increase over last year's appropriation of about \$12,000,000. This increase represents the normal growth of the service based upon what the postal authorities regard as the most careful and conservative estimates. Each succeeding year sees a large increase in the business of the department.

The principal items in the increase are the rural delivery service, railway mail service, compensation to postmasters and their clerks, and the compensation of letter carriers.

For the maintenance of the rural delivery service and its proper extension over \$23,000,000 will be required. This is an increase of \$3,600,000 over the appropriation for the current year, which, in turn, is over \$5,000,000 more than that of last year, so that the present estimate is \$1,100,000 less than the increase of the present over the previous year.

80 Ducks for Mrs. Cleveland. Former President Grover Cleveland who with Dr. Paul Van Dyke, of Princeton university, and Ernest G. Kings, of Baltimore, spent some days passing on the preserves of the Back Bay Gunning club, in Princess Anne county, Va., has returned to Princeton after a trip filled with fine sport. He killed a large number of wild ducks and other game, sending ahead a large box of game to Mrs. Cleveland and carrying with him when he returned 80 fine birds.

Louis Bids United States Farewell. Prince Louis of Belgium, who left Monday morning, the prince felt very kindly toward the people of the city. He shall have been with the first feeling of regret, and there is no one of us who would not like to have made his stay much longer. He will be with every demonstration of kindness and regard and your reception has been most cordial, especially where large numbers have congregated to welcome him.

810,000 Gallons of Whisky Burn. In a fire which broke out at the distillery of J. J. O'Connell, of which he is the owner, 810,000 gallons of whisky were destroyed. The loss is estimated at \$1,000,000.

Town Is Ben Crazy. Toluca is a town in Mexico and is a very interesting place. It is a town of 10,000 people and is a very interesting place. It is a town of 10,000 people and is a very interesting place.

Not a church, school or place of amusement has been closed since the earthquake. The earthquake was a very serious one and it is a very interesting place. It is a town of 10,000 people and is a very interesting place.

H. R. Emerson, minister of railways for the Dominion of Canada, said in Santa Barbara, Cal., Sunday that his country has that for which President Roosevelt is striving—federal control of railways more comprehensive than that now exercised by the interstate commerce commission.

A great glacier has been discovered in Wyoming by two guides, William Wells and T. T. Pridley. It is in the heart of the Wind river mountains on the north side of Fremont peak. The government survey records say nothing of the existence of this glacier, and Wells and Pridley were probably the first white men to set eyes on the enormous mass of ice.

Secretary Shaw will remain as secretary of the treasury in President Roosevelt's cabinet until the conclusion of the approaching session of congress, and, perhaps, for several months longer. It has been understood, in a tentative way, that Secretary Shaw expected to retire about the first of February next, so that he might be free to promote his presidential boom.

Rev. Dr. Parkhurst, of New York, told his congregation Sunday that he believed in damnation. "The apparent cruelties attributed to God," he said, "are not a consequence to the cruelties in nature. Natural laws pay no more attention to man than to a dog."

Citizens of Peoria are "making a noise" because the council, without any warning, gave Flint men a gas franchise exempting the company from taxes for 10 years, giving them free water for that time and permitting a charge of \$1.25 per 1,000 cubic feet for gas. Chicago people wanted to pay \$2,000 for the franchise and pay taxes and water rates.

## CHARGES ARE DENIED.

Male of Pines Residents Issue Statement.

The municipal council of the Isle of Pines has issued a lengthy statement denying the charges made by J. H. Keenan, of Pittsburgh, and others, that the island is in a condition bordering on anarchy and is without proper courts, schools, facilities for the protection of life and property, etc.

The statement claims that these have all been provided and that although various public improvements are necessary, the government has done more than the small revenues of the island warranted. It alleges that the records show the actual ownership by Americans of lands in the island to be far smaller than has been asserted, since most of such lands are held on options or on the payments of small installments and that they also show the amount of taxes paid by Americans to be very small as compared with the cost of the public improvements demanded.

The Michigan State Telephone Co. will spend \$100,000 for improving the service at Saginaw.

Gov. Warner has personally informed Deputy Norman W. Haire, general manager for the Bigelow group of mines, of his appointment as a member of the board of control of the Michigan College of Mines.

The contract for the completion of the Lake Huron-Black river canal at Port Huron has been let to Graves & Stevens, of Indianapolis. The contract price is \$73,000, and 20 months is given for the completion of the work.

B. H. Wright, general freight and passenger agent and auditor of the Copper Range railroad, has resigned and is succeeded by F. R. Bulles, of Milwaukee, division freight and passenger agent of the Chicago, Milwaukee & St. Paul road, as general freight and passenger agent, and by Wallace Tedford as auditor.

Sauce for Pudding.  
One teacupful of white sugar, one cupful of butter, one egg, separate and beat the white to a froth, mix the yolk with the butter and sugar and a little flour; add hot water and wine to the taste. Stir in the white of the egg just before serving.

When three months old my  
broke out with an itching, wat-  
rash all over his body, and he  
scratch till the blood ran. We tr-  
tied everything, but he grew weak  
wasting to a skeleton, and we fear-  
ed he would die. He slept, only, with  
his arms. The first application  
of Cuticura soothed him so that he slept  
in his cradle for the first time in six  
weeks. One set of Cuticura made  
his complete and permanent cure.
