## ANNUAL FAIR

### NEXT WEEK

#### KING'S DAUGHTERS' ONE CALL FOR PUBLIC PATRONAGE.

Thursday and Friday, December Seventh and Eighth

Next week, December 7 and 8, occurs in the rank the King's Daughters' fair, which is sure to be a success, as usual, on the one occasion of the year when the society calls on the public for the support that depends on a liberal patronage of the enterprise.

The usual variety of pretty and useful things will be on sale, fancy work, aprons, dolls and dolls' clothing, comfortables, baked goods and all the rest, both days.

Thursday at 5:00 p. m. supper will be served at 20 cents. Friday evening will be given up to an entertainment in charge of Miss Margaret Wallis, during which Mr. and Mrs. W. T. Tibbitts will give one of their amusing playlets, besides the musical program. It is also possible that a prominent and widely known Detroit citizen may be secured for this occasion who is one of the best comedians and ventriloquists on the professional stage and who has few superiors even there. Admission to the entertainment will be but ten cents.

#### An Enjoyable Gathering.

Over thirty relatives and friends gathered at the home of Mr. and Mrs. Myron White Saturday, Nov. 25, to help them celebrate their 25th wedding anniversary and Mr. White's 65th birthday. A fine dinner was served and a pleasant social time enjoyed by all. Mr. and Mrs. Waite were presented with some solid silver tablespoons as a memento of the occasion.

## A SAD AFFAIR

### Death of Jennie Lapham by Poison at Wyandotte.

The tragic death of Miss Jennie Lapham, an estimable young lady of this place, by her own hand at Wyandotte Saturday adds one more to the list of suicides that have become so appallingly frequent. Miss Lapham had accompanied her mother to Wyandotte that day and had obtained the bottle of carbolic acid in Detroit while waiting for a car, leaving her mother for a few moments on an errand for the latter. The reason for the young woman's self-destruction is traceable to ill health, and the fear that she might do herself injury had caused her mother the greatest anxiety and watchfulness for some time. She was 24 years of age.

The family is well known and highly respected and the mother has the especially deep sympathy of all in this terrible affliction. The funeral was held at Farmington on Tuesday, Rev. W. G. Stephens officiating.

### Two Wedding Bells.

At the M. E. parsonage on Wednesday Miss Ina Walter of this place was united in marriage to Mr. Thomas W. G. of near Mead's Mills. Rev. W. G. Stephens performed the ceremony.

Miss Bessie Jackson and Mr. Oscar J. Boddy of this place were married on Tuesday of this week. The wedding took place in Detroit. They will make their home in Northville for the present where Mr. B. is employed by Parmenter & Son.

### Walled Lake News.

Miss Zedrah Angell, Mrs. C. T. Rose and Mrs. A. J. Church were Detroit visitors Monday.

Miss Grace Porter has returned from visiting her sister, Mrs. E. C. Johns, in Detroit.

O. L. VanTassel, Mrs. A. M. VanTassel's father who has been with her for some time is very ill with but slight hopes of his recovery. Gangreen has set in.

The second number on the lecture course occurs next Tuesday evening, Dec. 5. Mrs. Olivia Sanger Hall the monologue entertainer from the Chicago Lyceum Bureau. She comes well recommended and it is hoped there will be a good attendance.

Tuesday Mrs. C. F. Rose received a telephone from Pontiac announcing the death of her sister-in-law, Miss Emily Rose. This came as a great shock as Mrs. Rose had received a letter a few days previous saying she would soon visit her. Miss Emily was well known and had many friends here, having lived here with her parents for several years. She was about twenty years of age.

## LITTLE 'PHONE WAR PROMISED

### NOT LIKELY TO BE VERY SERIOUS HOWEVER.

### Michigan and Independent Companies Developing Here.

There was just a little indication of a telephone war here last week after the local company sold out, the Michigan (Bell) Company came in with so many offers and succeeded in getting quite a number of contracts. Then the Independent Company got busy and succeeded in getting the majority of the contracts. Manager Tom Mumlock, of the Michigan Company thought if he had a few more subscribers he could employ in operation and give them a service. The Michigan Company had a few more subscribers than the Independent Company. The Michigan Company had a few more subscribers than the Independent Company. The Michigan Company had a few more subscribers than the Independent Company.

## Methodist Church Notes.

(By the Pastor)

Services on Sunday as usual. In the evening the subject will be "Is there such a place as hell?" I shall be at the door of the church.

The inmates of the parsonage feel grateful and do greatly appreciate the very kind and generous manner in which they were remembered during this Thanksgiving season.

The people will kindly remember that we are to finish the subject of last Sunday morning on the coming Sunday. We noticed the close attention given and we hope for good results.

Rain fell in copious showers on Tuesday evening, which no doubt prevented many from visiting the parsonage, but a considerable number braved the storm and enjoyed the entertainment. It was pleasing to see the sociability manifested. Those who furnished the program have the hearty thanks of the Ladies Aid society. We will try it again in the future.

NILES AND GRAND HAVEN REPORT BLOODY DEEDS.

SHORTAGE OF CARS IN THE STATE HAMPERS BUSINESS QUITE SERIOUSLY.

Shot His Son-in-Law. Albert Hinkley, aged 51, shot and killed his son-in-law, William Tuttle, aged 42, at the home of the former, near Niles, early Monday morning. Last Thursday Tuttle went to Hinkley's house and induced Mrs. Hinkley to go home with him. She is his mother-in-law, and he claimed that she was being abused by her husband. At 2 o'clock Monday morning Mrs. Hinkley left Tuttle's house and went back home. Tuttle followed her at 3:30, and when he arrived at Hinkley's house, Hinkley ordered him off the place. "Damned if I'll go," is what Tuttle is alleged to have said. Hinkley then fired with a shot gun tearing away the right side of Tuttle's head. Hinkley telephoned the police and gave himself up. The police found Tuttle's body lying over the threshold. Hinkley says that he didn't intend to kill Tuttle, but that Tuttle rushed at him, and seized the muzzle of the gun, which exploded with fatal results.

Three Were Shot. Three persons were shot on a farm 10 miles from Grand Haven Monday morning. A sheriff's posse is hunting for John Gozinski, of Chicago, who arrived in Grand Haven on the morning boat. The injured are Frank Dabrowski, Mrs. John Gozinski and Fred Smith. Dabrowski and Mrs. Gozinski will probably die, but were able to identify their assailant as John Gozinski. Smith is seriously injured, but may recover. Dabrowski has lived but a short time near Grand Haven. When Gozinski arrived he found Mrs. Gozinski in the same house with Dabrowski. He opened fire through the windows. Dabrowski, Mrs. Gozinski and Mrs. Gozinski, whose shrieks summoned Fred Smith, a neighbor of Gozinski, then fired on Smith as he was coming to the rescue.

Great Hindrance to Business. That Michigan is at the mercy of an alarming shortage of cars, which is causing a stagnation in many lines of business is learned by reports from various parts of the state. At Gaylord it is reported that it is impossible at night to get anything done. At Adrian, the largest elevator company says it has lost \$15,000 in business because of the shortage of cars. At Grand Haven, a hotel says it has lost \$10,000 in business because of the shortage of cars. At Holland, a hotel says it has lost \$10,000 in business because of the shortage of cars. At Holland, a hotel says it has lost \$10,000 in business because of the shortage of cars.

Starved Out. No longer able to fight again, hunger, Rufus Hamill, a convict who escaped from the prison at Jackson, crawled from under a big pile of coal at 9 o'clock this morning and walked into the woods. He was found by a hunter and taken to the hospital. He had not eaten for several days and was in a very weak condition. He is now recovering from his ordeal.

"Skeets" Is Killed. Harry S. Lee, alias "Skeets" Foot, alias Henry Wood, who escaped from the Jackson, Mich., penitentiary August 9, 1934, after serving a 17-year sentence for robbery of the Richland, Mich., bank, and who was shot through the abdomen in a running pistol duel with Policeman Daniel Kelly in Lima, O., last week, died Saturday. He made no confession except to Fr. Manning, of St. Rose church, who administered the last sacrament of the church. Slater's wife recuses in Laporte, Ind. The captors of Slater will not receive the reward offered, as it was stipulated that the convict must be returned to Jackson prison alive.

The Railroad Tax Cases. Attorney General Bird will ask the United States supreme court to advance on the docket the 27 railroad tax suits which the companies appealed from the district court of western Michigan, where Judge Warty decided them in favor of the state. The companies are equally desirous of an early hearing. The court will be requested to hear the cases in January if they are not advanced it will probably be a year before they are heard.

Given a Chance. Herbert Manly, chief clerk in the Jackson county abstract office, has admitted that he used, during October and November, about \$250 of the county's money in gambling. Manly, it is said, made a clean breast of everything and agreed to pay back into the county treasury every cent used by him. As a result of this declaration he has been retained in office and will be given full opportunity to redeem himself. Manly says he has lost \$1,000 in the gambling rooms of Jackson in the past seven months.

While working in the saw mill of the Amy Lumber Co. at Pontiac Gas Bagley was struck in the abdomen by a flying timber with the result that his bowels are paralyzed and it is feared that the accident will prove fatal. Bagley is 20 years of age.

Miss Mabel Cook and Mrs. Harvey Brigham, of Traverse City, are twins, and when Miss Cook and Gordon Brigham appeared before a minister to be married, with Mr. and Mrs. Harvey Brigham as best man and matron of honor, the preacher came very near getting the sisters mixed in the ceremony.

MICHIGAN ITEMS.

Traverse City is to have the largest clothes pin factory in the world. Robert Willis, Marlette, banker, was stricken with paralysis in his office. His condition is serious. Three Rivers business men have started a Sunday closing propaganda for all business places. D. Harvey, of West Branch, reports 110 bushels of cloverseed from 10 acres of "wordless" sand plains. The Detroit & Mackinac is said to be planning to extend the southern terminal from Bay City to Port Huron. The King's Daughters are making preparations for their annual charity fair to be held in Princess rink at Northville Dec. 7 and 8. Fred Requette, aged 13, of Menominee, fell while hunting, his gun was discharged and the bullet passed through his body. He will die. Merchants of Tekonsha have signed an agreement to close their stores at 3 o'clock, having heretofore kept open until 11 and even 12 o'clock. At Montague, Mrs. Leander, who is subject to fainting spells, fainted and lay on a red hot stove. She was terribly burned before being rescued by her husband. Ludington lifesavers found the body of Gus Johnson, known as "Hobo Gus," who disappeared on Sunday. He was drowned in Pere Marquette lake. His friends say "foul play". The revenue from the 400 or 500 local licenses and the 22 non-resident hunting licenses issued in Dickinson county will increase the funds of the state treasury by nearly \$1,000. Jerry Thomas, of Traverse City, has been held for trial on a charge of luring Gilbert Olson to the Pere Marquette trestle, where Olson was robbed, slugged and thrown into the lake. Two new cases of diphtheria have been reported in Gladstone. By order of the health officer, Dr. George Nyorkman, schools and all public meetings are barred because of strict quarantine. Mose Burkett and Theodore Wheeler, each aged about 15 years, were fooling with a gun while hunting near Mesick, when the weapon was discharged and Burkett shot his chum dead. The contest for the office of sheriff of Menominee county, which has been carried on since the election over a year ago, is expected to be ended soon when Judge Stone will render his decision. Herman Sobaltz, of Kalamazoo, was headed "guilty" to stealing a watch from his brother Charles for the third time. He has been sent up for 30 days on each previous occasion and the dose was repeated. The barns, stacks, outhouses and grain shed by John McElride, of Burton, were burned Friday night. The loss is about \$10,000. The fire was caused by sparks from a brush-pile engine. The loss is partially covered by insurance. While talking with his brother, Milton Weitz, a farmer, using near Butte Creek, who was stricken with paralysis and fell forward onto a stove, burning his face, neck, and then to the floor, causing convulsion of the brain. He cannot recover. The November gale which wrecked the steamer Algo at Holland badly damaged the new \$100,000 Detroit steel plant in Menominee. The west wall was blown down, the steel roof picked up and hurled to the ground and 10 feet of a big smokestack was blown down. The village fathers of Wayne went to a council meeting with lanterns to light their way because the lightning company has no cash to buy carbide for its acetylene plant, the village not having paid its bill. Elbert English, aged 20, fell against a post in the dark, breaking his collarbone. With the close of the deer hunting season reports from all over the upper peninsula are to the effect that not as many deer have been killed proportionately as in other years. Experienced hunters who have made a careful study claim that on an average but seven hunters out of ten are successful.

Go. Dunbar, who works for day wages in Michigan, reveals the secret of his inheriting \$12,000. Gen. George Dunbar, who originally owned Bethesda springs died, leaving \$15,000,000, and Dunbar received a small portion of the estate. He was working in a field two months ago when attorneys found him. Pioneers of Isabella county have formed a county association. The officers are: President, Judge Estee; vice-president, W. W. Preston; secretary, E. R. Coburn; treasurer, I. A. Fancher; trustees, W. E. Sallsbury, Cass Mosher and John Maxwell. The organization will be known as the Isabella Pioneer association. Alexander J. Mercy, aged 55, and William Poole, aged 22, of Saginaw, were killed by falling slate at the Standard mine in the township of Bacteria Vista. It appears that the entire roof of the "room" in which the men were working fell. Some little time elapsed before the accident was discovered and it took a long time to get the mangled bodies out. An Indian, 92 years old, died Friday at Wabeno from burns received in a peculiar manner. He had a bottle of alcohol in his pocket which became broken. The liquor saturated his clothing, and when he struck a match on his trousers the alcohol ignited, and the Indian was burned almost to a crisp before help arrived and the flames subdued. Business men's committees at Port Huron are endeavoring to raise \$25,000 for a Y. M. C. A. building. The lease of the present quarters expires next month, and cannot be renewed because a saloonkeeper on the ground floor says the boys are so noisy they injure his business. In arguing the motion to quash the case against former State Senator George E. Nichols, of Ionia, in connection with the Grand Rapids water deal cases, Attorney A. A. Ellis said of the prosecution's witnesses: "They are all worse than Judas and will testify any way the Kent county prosecutor wants them to."

RUSSIA'S EVIL DAYS

MUTINY IN THE CZAR'S ARMY IS NOW SPREADING.

SERIOUS REVOLUTION BEGUN THAT STARTLES THE NATION.

Scenes at Sevastopol. The following statement regarding the mutiny of the soldiers and sailors at Sevastopol, has been issued by the admiralty department: "The events at Cronstadt have found echo in the Black sea fleet. Vice-Admiral Choukma reports that sailors, under the influence of the socialistic propaganda, have organized at Sevastopol a series of demonstrations. "The movement has spread to several organizations of the army. Vice-Admiral Pisarevski was seriously wounded while trying to prevent a meeting being held. "The situation is serious, though, according to report received Saturday evening, no attempts had been made to pillage. "Headed by men carrying the flag of the revolution and by a brass band, the mutineers marched to the railway station and compelled the employees there to cease work. "The comparatively orderly conduct of the mutineers, as compared with the riotous scenes engendered elsewhere, where pillage seemed to be the chief object of the disturbers, is accepted as a certain sign that an intelligent political force is back of the movement. "The authorities appear to be making no effort to suppress the mutiny, and the movement is spreading. "The revolt of the Brest regiment is one of the most serious features of the situation. It is the first time an infantry regiment as a whole has mutinied, and the question on the lips of every one in the capital is how long it will be before it is followed by others, perhaps even the St. Petersburg garrison. "That the outbreak at Sevastopol is no drunken frolic but a seriously planned revolutionary demonstration, was made clear by the tone of the official statement issued by the admiralty. The revolutionary ferment in spite of the efforts of the officers, is known to have affected a portion of the enlisted strength of many regiments and the Sevastopol mutiny may be the spark that is necessary to set in flame a widespread revolt.

The Sultan's Threat. Turkey's note, replying unfavorably to the ultimatum of the powers on the Macedonian situation, contains a warning that the action of the powers in resorting to a naval demonstration may precipitate an internal uprising of Mussulmans against the Christian population of Turkey. This is considered a threat, as it is known that no demonstration of Mussulmans against Christians can occur unless it has the silent acquiescence of the Turkish authorities. The sultan regards the present demands of the powers as a direct infringement of his sovereignty—in effect, notice to quit Europe. Thanks chiefly to Armenian massacres and his victory over the Greeks, he has gained control over all Islam. The wonderful renaissance of pan-Islamism has for its object a holy war against infidels, and the mass of its followers believe that this is at hand. Abdul Hamid, as the head of this immense force, cannot avoid a fraction more of his sovereignty without resistance and without summoning all of his faith to his assistance. This then is the appalling danger which the powers will incur if they resort to force in imposing their demands. A holy war would bleed Great Britain in India and Egypt and France in Algeria and Morocco, besides bringing about a wholesale massacre of Christians in Constantinople, which has so long been threatened.

What Powers Demand. That special Austrian and Prussian agents should be appointed to direct attention to the needs of the Christian population of Macedonia. 2. Reorganization of the government of Macedonia under European officers. 3. A reorganization of administrative districts for nationalities. 4. Reorganization of administrative and judicial institutions, making them popular to the population of Macedonia. 5. Mixed commission of Christians and Mohammedans to investigate political and other crimes. 6. Provision by the Turkish government for the support of destitute Christians and the rebuilding of houses, churches and schools destroyed by Turkish soldiers. 7. The exemption from taxation for one year of all Christian villages burned by Turkish soldiers and afterward rebuilt. 8. Complete reform in the financial administration and collection of taxes in Macedonia. 9. The disarmament of the bashi bazouks.

George S. Robinson, a well known merchant and logger of Amberg, while driving along the road, was mistaken for a deer and shot at nine times by foot hunters. A mouse which had built a nest in a hat worn by M's Wallace Wynn, at Marion, O., at a revival service nearly broke up the meeting. Several women got hysterical. An earthquake shock disturbed nearly the whole of the Italian peninsula Sunday. No lives were lost, but many public buildings were damaged notably the cathedral of Ariano in Apulia, in the extreme southeastern section. Kenyon College, at Mount Vernon, O., where Stewart L. Pierson was killed by a train while undergoing an operation, will mandamus the coroner to get possession of testimony taken at the inquest. The coroner says the testimony must first go to the grand jury.

The grievance committee in the A. F. of L. convention in Pittsburgh reported protesting against the practice of labor councils getting out a "souvenir book" program for Labor day events. "Graft" was the forceful term employed in condemnation. Delegates from the smaller towns argued in favor of the books.

Later the dog sickened and was shot, and now Busca fears the animal had hydrophobia, and he will go to Ana Arbor for Pasteur treatment. NEWS OF THE WORLD

WILL NOT VIOLATE THE CIVIL SERVICE LAW AGAIN.

MARY MABEL ROGERS, OF VERMONT MAY NOT ESCAPE THE HANGMAN'S ROPE.

Leib Was Removed. President Roosevelt has removed from office Wm. S. Leib, assistant United States treasurer at Philadelphia, for "constant and persistent violation of the civil service law while in office." The president gave Mr. Leib a hearing last Friday, at the request of Senators Penrose and Knox, of Pennsylvania. Mr. Leib submitted a long statement in answer to the charges made against him, and was supported in his defense by Representative Paterson, of Pennsylvania. After careful consideration of all the facts developed by the inquiry, the president decided to remove Mr. Leib from office, it being shown, according to the statement, that there was "constant and consistent effort on your (Mr. Leib's) part to evade the provisions of the civil service law, to hamper its workings as far as possible, and to obstruct in every way the action of the commission." The president declared that the evidence showed fraud in the civil service examinations, the fraud in one instance implicating Mr. Leib's sister, Leib, he charges, gave her tips on examination questions. After reviewing the case pretty fully, the president concludes: "Under these circumstances of persistence in wrong doing on your part, it seems to me that there is no alternative but to remove you from office."

Mrs. Rogers' Case. The supreme court of the United States has affirmed the decision of the United States district court of Vermont in the case of Mrs. Mary Mabel Rogers, under sentence of death in Vermont for the murder of her husband. The effect of the decision will be to again place the responsibility of deciding the case in the hands of the state authorities and if in the meantime neither the governor nor the state courts take action in Mrs. Rogers' behalf, her execution must occur on the day set, December 5 next. The court held, in effect, that it was without jurisdiction in all the points raised.

Democratic Support. Senator Tillman has informed Senator Dilliver that not more than four Democrats in the senate will vote against the proposed program to regulate railroad rates. If this is correct the president needs fewer than ten senate of Republican votes to win. That the president is deeply indebted to the Democrats there is not the slightest question. He would not have had any chance with his bill if it had not been for the hearty way in which the Democrats supported him. He is grateful of the support of Democrats.

Those Imported Women. Ignorant women will be deported from Panama if any of them have been sent there. Secretary Taft declared that he had received information from Gov. Magoon that Magoon had directed the chief of police of Panama to investigate and if it should be found that any immoral women have been imported from Martinique to send them out of the country. Gov. Magoon expressed the opinion that there are no women of this class in Panama, but that the 300 women who had arrived at Panama are the wives of laborers at work on the canal. If it was admitted in official circles, however, that the idea of marriage entertained by the people in the tropics is not exactly in accordance with that of the American people and that statistics show that more than 60 per cent of the inhabitants of Martinique and Jamaica live together as man and wife without the formality of a marriage ceremony. This is one of the most difficult questions with which the canal commission has to deal, but Secretary Taft states that every effort will be made to stamp out immorality on the isthmus.

Two Section Men Killed. Foreman John Thomas and Chris Hoverman, section hand, were instantly killed by a Grand Trunk flyer while at work near Vicksburg. Hoverman's skull was crushed, his back and limbs broken, while Thomas's injuries were principally about the head. The men had stepped from one track to another to avoid a freight train, and did not hear the express train approaching. Hoverman's wife died six months ago, and now his six children are left orphans. The families of both men live at Schoolcraft. The police of Grand Rapids are now working on the theory that Josie Ogo was murdered by a jealous negro who laydied the wrong party in the dark. Datas, the "memory wonder," who has so remarkable a memory, has sold his brain, in the event of his death, to Dr. Carleton Simon, of New York. Physicians believe Datas has only five years to live. Dr. Simon says the amount paid Datas is less than \$10,000 as reported. Spectators at the burning of Don E. McIntyre's big farm barn at Cadillac, insist that they saw the body of a man in the barn just before it crashed into ruins. It is suspected, therefore, that the fire was started accidentally by some hobo who had sought refuge there.

Mme. Christopher Haug, wife of the newly appointed minister from Norway, astonished Washington society when she appeared among the fashionable throng at the Stmas-Hitchcock wedding party in her riding habit. Rarely have so many gorgeous costumes been seen at any social function in Washington. Kentucky Tragedy. # THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

## When Sickness Comes to the Little Ones

### It Is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family. The mothers look forward with dread to the torrid heat of summer, thinking of their children and the many liabilities to disease that are before them. Spring and summer are said to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Peruna is the best friend she has in times of illness among the children.

The doctors may come and go with their different theories and constant change of remedies.

The doctor of yesterday was entirely different remedies than the doctor today. Each year finds some change in his prescriptions and the same old rules upon.

A multitude of mothers have discovered that Peruna is the standard remedy for all ailments of spring and summer. The children are subject to Peruna is the remedy that will most quickly relieve. Whether it is a cold, fever or some other ailment, it is indigestion or bowel disease, catarrh or congestion of the mucous membranes the cause?

Peruna quickly relieves the condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body. It simply removes the cause of the disagreeable symptoms and restores the health.

Peruna is not a physic. Peruna is not a narcotic nor a narcotic. Peruna does not produce any drug habit, however long it may be taken. Peruna is not a stimulant.

Peruna is a specific remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peruna has.

### The Mothers Hold Per-na in High Esteem.

Not only because it has cured them of their various ailments, but because it always relieves the children from the throes and grasp of catarrhal diseases. We have in our files hundreds of testimonials from mothers whose children have been cured by Peruna. However, the large majority of mothers who use Peruna, do not have them.

But we do not have a great number of mothers who use so much of it at some special and they have received from Peruna that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

**The Benefit Which the Children of the United States Have Received From Pe-ru-na Can Never Be Put Into Words.**

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But at least this much can be said that the coming generation owes a great debt to Peruna, for it is in the tender years of youth that slight ailments are liable to develop into lasting diseases, thus blighting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Peruna are doing a great work for humanity.

These children brought up to believe in Peruna from the start, will, when they become heads of families themselves, use Peruna with unquestioning faith.

### Pe-ru-na Protects the Entire Household.

As soon as the value of Peruna is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of catarrh will be prevented.

MRS. THRESA ROOKE, MOTHER and CHILD

MILDRED, INEZ and MARIE SAILER

G. H. FARMER and SON

### No Doctor Required.

Mr. Edward Otto, 927 De Soto street, St. Paul, Minn., writes:

"I cannot say enough for Peruna. It has done great work in my family, especially for my oldest boy. We had doctored with three or four different doctors and they did not seem to do him any good.

"We gave up hopes of cure, and so did they, but we put him through on Peruna.

"We had several doctors and they said they could do no more for him so we tried Peruna as a last resort, and that did the work. Since then we keep it in the house all the time, and no doctor is required."—Edward Otto.

### Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. Its permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of it.

There are a multitude of homes where Peruna has been used off and on for twenty years.

Such a thing could not be possible if Peruna contained any drug of a narcotic nature.

### Per-na Should Be Kept In Every Household Where There Are Little Children.

Peruna should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But have Peruna on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the afflictions of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Mrs. Amelia Sailer, Menasha, Wis., writes:

"I have used Peruna for a number of years. It cured me of chronic catarrh which I suffered with from infancy.

"When my three children were born they all had catarrh, but I have given them Peruna and find it very effective in ridding them of this horrible trouble. I find that it is also good to give them as a tonic and a preventative of colds and colic.

"In fact, I consider it a household blessing. I would not know how to raise my children without it. I am pleased to give it my recommendation."—Amelia Sailer.

Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbia, Mo., writes:

Mr. Pink has opened a new restaurant in Detroit. He is not a colored man, as might possibly be inferred.

An epidemic is killing off the hogs in some parts of Washington county, but the end seat ones in Detroit are only temporarily out of circulation.

They had a "Kickin' Kattail" over at South Lyon last week and as the doctor says was cracked maybe it went there. A rhinologist should be named to look after it.

Col. Damm was one of the sponsors of the new state road making law, but he is not a sponsor of the electric plant instead had a chance to look wise and say, "Jes' s' I expected."

Mitchell, of the Birmingham Eccentric, has been tentatively testing his ability to endure a higher temperature by taking a trip south, but he can't find out much about it that way. It would be the safest way to thoroughly reform and thus escape all danger.

Carleton is going to take advantage of the new state road making law and will build the sample mile right through the village. The Carleton municipal cadaver has heads as level as that road will be when it is done but evidently not nearly as hard.

One of the Ypsilanti laundries has no difficulty whatever in filling the vacancies which frequently occur in its working force. Seven girls employed there have been married within the past six months. Of course none of them expects her present happiness will fade or that hubby will ever wringer heart by a cross word, but alas! they'll all have to find out, same as other folks, that when the rub of life comes every thing can't always be soap, perfectly lovely as it present.

I had a very bad case of heart trouble. For six months I could not walk. Last July I was having corns and feeling bad all day in the afternoon in a plot of one row I had to lay down, or fall over a dozen times. My heart troubled so much that I would burst through and I had to lay in bed for many days. I purchased a bottle of Dr. Miles' Heart Cure and before I had used half of it I could lay down and sleep at night. Previously I had to get up from bed, to ten times a night. I have taken several bottles, and my heart is as regular as clock work. I feel like a new man, and can work considerable for an old man, 54 1/2 years old.

# THE GREAT K & A TRAIN ROBBERY

BY PAUL LEICESTER FORD, Author of 'The Man Peter Stirling, Etc.'

## CHAPTER I.

The Party on Special No. 218. Any one who hopes to find in what is here written a work of literature had better lay it aside unread. At Yale I should have gotten the sack in rhetoric and English composition, let alone other studies, had it not been for the fact that I played half-back on the team, and so the professors marked me away up above where I ought to have ranked. That was twelve years ago, but my life since I received my parchment has hardly been of a kind to improve me in either style or grammar. It is true that one woman tells me I write well, and my directors never find fault with my compositions; but I know that she likes my letters because, whatever else they may say to her, they always say in some form, "I love you," while my board approve my annual reports because thus far I have been able to end each with "I recommend the declaration of a dividend of one per cent from the earnings of the current year." I should therefore prefer to reserve my writings for such friendly critics, if it did not seem necessary to make public a plain statement concerning an affair over which there appears to be much confusion. I have heard in the last five years not less than twenty renderings of what is commonly called "the great K & A train robbery,"—some so twisted and distorted that but for the intermediate versions I should never have recognized them as attempts to narrate the series of events in which I played a somewhat prominent part. I have read, or been told that, unassisted, the pseudo-hero captured a dozen desperadoes; that he was one of the road agents himself, that he was saved from lynching only by the timely arrival of cavalry, that the action of the United States government in rescuing him from the civil authorities was a most high-handed interference with state rights, that he received his reward from a grateful railroad by being promoted, that a lovely woman as recompense for his villainy—but bother! it's my business to tell what really occurred, and not what the world chooses to invent. And if any man thinks he would have done otherwise in my position, I can only say that he is a better or a worse man than Dick Gordon.

Primarily, it was football which shaped my end. Owing to my skill in the game I took a post-graduate at the Sheffield Scientific school, that the team might have my services for an extra five years. That led to my knowing a little about mechanical engineering and when I left the school for good I went into the Alton rail road shop. It wasn't long before I was foreman of a section, but I didn't like it, and I went to work for the K & A road in Alton, and after a few months I was promoted to the rank of superintendent of the K & A road in Alton. I was in the K & A road in Alton for the first time, and the K & A road in Alton was the only one of the kind in the world. With both hands we had turned to the K & A road in Alton, which was a little different, and the two were anything but friendly, and we had a little of each on the K & A road in which they fought the case. Indeed, it could only be a case of time when one would oust the other and then absorb my road. My headquarters were at Alton,

Lord Ralles was a little, well-built chap. He was in New Mexico, and it was there, in October, 1890, that I received the communication which was the beginning of all that followed. This initial factor was a letter from the president of the Missouri Western, telling me that their first vice-president, Mr. Cullen (who was also a director of my road), was coming out to attend the annual election of the K & A, which under our charter had to be held in Ash Forks, Arizona. A second paragraph told me that Mr. Cullen's family accompanied him and that they all wished to visit the Grand Canon of the Colorado on their way. Finally the president wrote that the party traveled in his own private car, and asked me to make myself generally useful to them. Having become quite hardened to just such demands, at the proper date I ordered my superintendent's car on to No. 2,

and the next morning it was dropped off at Trinidad. The moment No. 3 arrived, I climbed into the president's special, that was the last car on the train, and introduced myself to Mr. Cullen, whom, though an official of my road, I had never met. He seemed surprised at my presence, but greeted me very pleasantly as soon as I explained that the Missouri Western office had asked me to do what I could for him, and that I was there for that purpose. His party was about to sit down to breakfast, and he asked me to join them, so we passed into the dining-room at the forward end of the car, where I was introduced to "My son, Lord Ralles," and "Captain Ackland." The son was a junior copy of his father, tall and fine looking, but in place of the frank and easy manner of his sire, he was so very English that most people would have sworn falsely as to his native land. Lord Ralles was a little, well-built chap, not half so English as Albert Cullen, quick in manner and thought, being in this the opposite of his brother, Captain Ackland, who was heavy enough to rock-ballast a roadbed. Both brothers gave me the impression of being gentlemen, and both were decidedly good-looking.

After the introductions, Mr. Cullen said we would not wait, and his remark called my attention to the fact that there was one more place at the table than there were people assembled. I had barely noted this, when my host said, "Here's the traitor," and turning, I faced a lady who had just entered. Mr. Cullen said, "Madge, let me introduce Mr. Gordon to you." My bow was made to a girl of about twenty, with light brown hair, the bluest of eyes, a fresh skin and a fine figure, dressed so nattily, as to be to me, after my four years of Western life, a sight for tired eyes. She greeted me pleasantly, made a neat little apology for having kept us waiting, and then we all sat down.

It was a very jolly breakfast table, Mr. Cullen and his son being capital talkers, and Lord Ralles a good third, while Miss Cullen was quick and clever enough to match the three. Before the meal was over I came to the conclusion that Lord Ralles was in love with Miss Cullen, for he kept making low asides to her, and from the fact that she allowed them, and indeed responded I drew the conclusion that he was a lucky breaker, feeling, I can feel, a little pang that a title was going to win such a nice American girl. One of the first subjects spoken of was train robbery, and Miss Cullen, like most Easterners, seemed to take a great interest in it, and had many questions to ask me.

"The left hand never holds behind except my watch," he said, "and that holds every night. So I really hope you'd be laid up if you could in such an adventure."

There isn't any chance of it, Miss Cullen, I told her, and if we were out probably so long, even now that it was happening, I would sleep right through it. When they tried to get her non-ey and our wife's to be understood, I told her no, and explained that the express and mail cars were the only ones to which the road agents paid any attention. She wanted to know the way it was done so I described to her how sometimes the train was flagged by a danger signal and when it had slowed down the runner found himself covered by armed men, or how a gang would board the train, one by one, at way stations, and then, when the time came, steal forward, secure the express agents and postal clerk, climb over the tender and compel the runner to stop the train at some lonely spot on the road. She made me tell her all the details of such robberies as I knew about, and though I had never been concerned in any, I was able to describe several, such as they were monotonously alike, I confess I colored up a bit here and there, in an attempt to make them interesting to her. I seemed to succeed, for she kept the subject going even after we had left the table and were smoking our cigars in the observation saloon. Lord Ralles had a lot to say about the American lack of courage in letting trains containing twenty and thirty men be held up by half a dozen robbers.

"Why," he ejaculated, "my brother and I each have a combe express with us and do you think we'd still be out seats? No. Hang me if I wouldn't get something."

"You might," I laughed, a little nettled, I confess, by his speech, "but I'm afraid it would be yourselves."

"Aw, you fancy resistance impossible?" crawled Albert Cullen.

"It has been tried," I answered, "and without success. You can see it's like all surprises. One side is prepared before the other side knows there is danger. Without regard to relative numbers, the odds are all in favor of the road agents."

"But I wouldn't sit still, whatever the odds," asserted his lordship. "And no Englishman would."

"Well, Lord Ralles," I said, "I hope for your sake, then, that you'll never be in a hold-up, for I should feel about you as the runner of a locomotive did when the old lady asked him if it wasn't very painful to him to run over people. 'Yes, madam,' he sadly

replied; 'there is nothing madder an engine up so.' I don't think Miss Cullen liked Lord Ralles' comments on American courage any better than I did, for she said: "Can't you take Lord Ralles and Captain Ackland into the service of the K & A, Mr. Gordon, as a special guard?" "The K & A has never had a train robbery yet, Miss Cullen," I replied, "and I don't think that it ever will have."

"Why not?" she asked.

I explained to her how the Canon of the Colorado to the north, and the distance of the Mexican border to the south, made escape so almost desperate that the road agents preferred to devote their attentions to other routes. "If we were boarded, Miss Cullen," I said, "your jewelry would be as safe as it is in Chicago, for the robbers would only clean out the express and mail cars; but if they should so far forget their manners as to take your trinkets, I'd agree to return them to you inside of one week."

"That makes it all the jollier," she cried, eagerly. "We could have the fun of the adventure, and yet not lose anything. Can't you arrange for it, Mr. Gordon?"

"I'd like to please you, Miss Cullen," I said, "and I'd like to give Lord

My bow was made to a girl of about twenty.

Ralles a chance to show us how to handle those gentry; but it's not to be done." I really should have been glad to have the road agents pay us a call.

We spent that day pulling up the Rio Grande pass, and so on over the Gloria pass down to Lamy, where, as the party wanted to see Santa Fe, I had our two cars dropped off the overland, and we ran up the branch line to the old Mexican city. It was well-worn ground to me, but I enjoyed showing the sights to Mrs. Cullen, for by that time I had come to the conclusion that I had never met a sweeter or jollier girl. Her beauty, too, was of a kind that kept growing on one, and before I had known her two days I had, without quite being in love with her, I was feeling a little for Lord Ralles, which was about the same thing, I suppose. Later on, however, I convinced me that the two understood each other all right, for they kept exchanging, but over and over from the way Mr. Cullen would take his head-bow down occasionally. Yet I had a feeling, I must confess, that my first diagnosis, the more I found myself dwelling on the dimples at the corner of Miss Cullen's mouth, the bewitching uplift of her upper lip, the rare, rare curls about her neck and the curves and color of her cheeks.

(To be continued)

The Peril of Whistling. The lady whistler has gone to Colorado," said the song and dance man sadly. "She has joined a camp of 'lunners' eastward of Pike's Peak. I told her when I met her that if she wanted to live she had better give up whistling. I told her how I had seen Selma the song bird, and whistling Jarris Harvey carried off. But she said she didn't believe whistling was dangerous. She said she was poor, and had to earn her living anyway. 'All right,' said I. 'I give you four years. No more.' That was in 1890. The poor girl had her first hemorrhage in 1892. She gave up professional whistling then, but it was too late. I don't know why it is that whistling causes consumption. It always does. Glass blowing causes consumption, too. I guess glass-blowing and professional whistling must be good deal alike."—Boston Herald.

Deer in the Adirondacks. "If you have never been deer-hunting," says John Davis Anderson in Outdoors, "the chances are that the sport would hold no pleasure for you, because if you enjoyed this sort of thing you would have been before this. Nothing could have kept you away. On the other hand, if you have been once, the time was not far distant than last year, for so great is the charm of the experience that no man is content with going but once in a lifetime. You rise from behind your log, aim your rifle and make a slight noise. This is enough. In an instant the deer has whistled around and would be away through the thicket if your nerves had not proven true and ballet had not plowed its way to his heart."

## TWICE-TOLD TESTIMONY.

A Woman Who Has Suffered Tells How to Find Relief. The thousands of women who suffer from backache, languor, urinary disorders and other kidney ills, will find comfort in the words of Mrs. Jane Farrell of 606 Ocean Avenue, Jersey City, N. J., who says: "I reiterate all I have said before in praise of Doan's Kidney Pills. I had been having heavy backaches, and my general health was affected when I began using them. My feet were swollen; my eyes puffed, and dizzy spells were frequent. Kidney action was irregular and the secretions highly colored. Today, however, I am a well woman, and I am confident that Doan's Kidney Pills have made me so, and are keeping me well."

ULCERS FOR 30 YEARS. Painful Eruptions From Knees to Feet Seemed Incurable—Cuticura Ends Misery. Another of those remarkable cures by Cuticura, after doctors and all else had failed, is testified to by Mrs. M. C. Moss of Gainesville, Texas, in the following letter: "For over thirty years I suffered from painful ulcers and an eruption from my knees to feet, and could find neither doctor's nor medicine to help me, until I used Cuticura Soap, Ointment and Pills, which cured me in six months. They helped me the very first time I used them, and I am glad to write this so that others suffering as I did may be saved from misery."

"She's out of sight," can't be said of the woman in a bathing suit or ball dress (From the Chicago Journal, Nov. 6, 1905)

When Commissioner Garfield went to the Chicago packers and asked permission to inspect their books, the condition was made that no information he might obtain therefrom would be used in court proceedings against them.

Mr. Garfield gave this pledge, it is stated, and the packers allowed him to study their business in all its details from the inside.

Now, it is announced, the results of his study have been turned over to the government department of justice to be employed in legal prosecution of the packers.

Commissioner Garfield would not have ventured to give the pledge that was demanded by the packers without instructions from Washington. He pledged, not his own word, but the government's. It is not his faith, but the government's, that is in question now.

The fourth has no concern for the packers except as they are citizens of Chicago. If it can be proved that they are guilty of engaging in a conspiracy to restrain trade, they ought to be punished.

But their guilt, if they are guilty, must be fairly proved. They must be given a square deal.

Since the government has elevated its vision to such a height as to overlook the best of the great criminal trusts in New Jersey, among which the shadow of the Capitol dome, in order to fasten itself a thousand miles away upon Chicago, the government, and the President cannot be too careful to avoid suspicion that they are more anxious to prosecute weaker offenders than offenders in the east.

Some of the methods already employed in this case have not been particularly distinguished for decency. When the government breaks into a man's house and steals his private papers, when it drags the wives of packing-house employes into court and puts them under heavy bonds, it is hardly dignified, not to say honorable, nor even respectable.

## The North Pole.

It is often said that when the North Pole is discovered there will be found a Scotchman doing business. The Highlander always ranked foremost amongst the pioneers of the American West. This generation can be as brave by eating Pillsbury's Vitos.

## WORE HAT AS A DECORATION.

Antiquary's Idea of the Beginning of Human Headgear. Discouraging on the subject of hats, an antiquary expressed the opinion that the hat was first used quite as much for decoration as for protection. The ancestor of all hats he considers to have been the fillet or band around the hair worn by the ancient Greeks, among others. Probably the first hint gained by men regarding head ornaments was through observing the crests, plumes and antlers of various birds and beasts. The eastern races, with their fondness for ceremony and display, afford the most notable instances of the use represented as wearing elaborate forms of headgear, in Korea the fashion attains its height, no fewer than fifty kinds of hats being worn by the natives as indications of their social position.

## Height of Sea Waves.

## CONVINCING EVIDENCE

That Dr. Williams' Pink Pills Will Cure Rheumatism. "People can cure themselves of a good many common ailments at a very small cost if they go about it the right way," said Mr. Hoar, recently. "For instance, I have just cured myself of a very painful disease. I might have begun to treat it sooner, that's all the mistake I made in the matter. But I found the root of the difficulty and I picked out the right remedy without the aid of a doctor."

"It was really all in my blood. I first felt a twinge in my left foot, and a little in the middle of last January, following exposure to cold. I realized I had rheumatism and I knew that really came from bad blood. Cold simply develops it. Then my hands and feet were cold and clammy even in hot weather, and numb a great part of the time. I concluded that my blood was thin and poor and the circulation sluggish."

"After a time my feet and ankles swelled so badly that I could only tie my shoes half way up. My legs swelled terribly and I could walk only a short distance before giving out completely. "When I read of the cures of all kinds of blood diseases, that had been effected by Dr. Williams' Pink Pills, I was convinced that they were just the remedy for my case, and so it proved. I could see that they were benefiting me before I had quite used up the first box. The improvement was decidedly marked after I had taken two boxes. Throat, nose and boxes restored my hands and feet and legs to normal size and feeling and then I stopped taking medicine and have since been perfectly well."

Mr. E. L. Roy Hoar lives at No. 132 Constitution street, Bristol, R. I. Any one can get convincing evidence that Dr. Williams' Pink Pills have cured anemias, rheumatism, erysipelas and other serious diseases of the blood by simply writing to the Dr. Williams Medicine Co., Schenectady, N. Y.

### Let Us Do Our Duty.

Let us do our duty in our shop or our kitchen, the market, the street, the office, the school, the home, just as faithfully as if we stood in the front rank of some great battle, and we knew that victory for mankind depended on our bravery, strength and skill. When we do that, the humblest of us will be serving in that great army which achieves the welfare of the world.—Theodore Parker.

### The Diner's Pet Joke.

"I never do things by halves," remarked Biffkins, and the waiter at his elbow put on an expectant grin. He had only expected a 50-cent tip—maybe the gentleman would give him more. "As I was saying," said Biffkins, pushing back his chair and accepting his hat, "I never do things by halves. Especially in tipping. I always use quarters. Here you are."—Cleveland Leader.

### Small Village; Small Pledge.

Here is an English story: A factory foreman used to drink inordinately; afterward he reformed, and then there was a conspicuous relapse. His employer rebuked him for not sticking to his solemn agreement. But the man, in good faith and with perfect gravity, explained, "I only took the pledge in a small village—quite a small village, in Yorkshire."

### Judge's Kind Admonition.

On one occasion Judge Dewey of Boston had before him a couple of girls charged with stealing ribbons from wreaths on graves. As the evidence of their guilt was not satisfactory, he ordered their discharge, accompanying it with this admonition: "Girls, keep out of the cemeteries as long as you can."—Law Notes.

### Free Manners.

Manners appear to get freer with every generation. Modesty, which is the crown of maidenhood, never appears to characterize sweet seventeen. What one generation thinks dreadful, is in the common practice of the next.—Lady Helen Fortes, in Black and White.

### Drink Beer From Mugs.

Bavarians have long insisted that beer is better and more wholesome if drunk out of stone mugs than out of glass. Dr. W. Schultze has now examined the matter scientifically, and has found that beer is made injurious by a chemical process which dissolves the oxide of lead in the glass.

### Danger in Overwork.

Whatever tends to diminish disease is conducive to longevity but in our endeavor to promote it we must have regard to mental as well as to bodily hygiene. A great deal of premature decline in force and energy is due to overwork of the brain and nervous system.

### In Days of Old.

"I guess I'm an old sorehead," remarked the Mannyuk philosopher "but I can't for the life of me imagine Abraham Lincoln at the age of 16 going round with football hair, an' his britches turned up over a pair of low quarter shoes an' openwork socks."

### Honor the Laying Hen.

The Swiss village of Zuchingen, in the Canton of Aargau, was decorated with flags recently in honor of a hen which had laid her thousandth egg. Five adjacent villages sent deputations, accompanied by bands, which serenaded the industrious hen.

### Would Reform Japanese Writing.

Japan has a new periodical, *Tegami Zasshi*, the aim of which is to teach the writing of sensible letters. The editor warns his readers among other things, against the habit of introducing sentimental phrases into business letters.

### Buy Old Teeth.

An advertiser in a *Eruth* magazine says: "Old artificial teeth bought, call or if forwarded by post, utmost value per return. Messrs. Smith, manufacturing dentists, Oxford street, London. Established one hundred years."

### Protects Cats From Dogs.

A French farmer, who kept a number of dogs and cats, constructed ingeniously, in order to protect the latter from the former, a veritable cat's nest, which he placed among the branches of a stunted oak tree.

### Character the One Enduring Thing.

Horace Greeley said: "Fame is a vapor, Popularity is an accident, Riches take wings. Those who cheer to-day will curse to-morrow. Only one thing endures—character."

### Woman Throws Straight.

It is said that a woman never hits anything when she throws a rock, but she smashes the target when she throws a hint.—Dallas News.

### The Professor.

"In the midst of life," said the professor, reflecting on the general uncertainty of things, "there is always an 'if'."

### Sure Thing.

Safe to bet on as sure to throw all corners at the first encounter—the banana peel.—Baltimore American.

### London's Water Consumption.

London uses 211,323,602 gallons of water a day.

### WISE MAN KNEW HIS BUSINESS

Relied on Superstition to Stir Curiosity of Thief.

In Calcutta recently a box containing money and valuable papers was stolen from a large business establishment. After the police had failed to trace the thief a native wise man, Tatin Prasad Jyonshi, was called in. He ordered an assembly of the whole establishment—peons, bearers, durwans, table servants, coachmen, sycos and what not—and began to harangue them concerning the unity and majesty of the Almighty. He entered upon the ritual of his craft, in which the registration of names, the washing of hands, breathing on little squares of paper, distribution of saored rice, and muttering of prayers played their part. A new earthenware vessel received the names, with some red powder, and the vessel was finally covered and sealed, the awestruck audience being informed with further reminders of divine omniscience and omnipotence that unless the box were discovered the name of the thief, inscribed in red, would be found within the earthen vessel when the seal should be broken eight days later. This was on Tuesday evening. On Wednesday morning the box was found rifled of notes and gold, but with the valuable papers intact. But the thief is still at large.

### Clever Appeal to Nature.

Some years ago in a large and richly stocked nursery in Belgium, chafer beetles became so numerous as to be a very serious pest. After trying by all known means to eradicate them the proprietor observed that starlings devoured large numbers, both of the larvae and the mature insects. Taking a lesson from this he erected half a dozen nesting boxes on 15-foot poles and as they were immediately occupied by the birds he continued to provide boxes until 125 were in use. The result was that the chafer invasion gradually less and was finally completely overcome.—Stray Stories.

### Effect of Pest Bounty.

Some years ago the government of Java offered a reward for all crocodiles killed or captured. For a time enormous numbers of them were brought to the authorities. Then it was discovered that nearly all the natives had gone to raising crocodiles so the reward was withdrawn.

### Idaho Joins.

Eraser Idaho Nov 27th (Special)—Mrs. Martha J. Lee has given for publication the following statement, concerning Dodd's Kidney Pills:

"I was down with Rheumatism three times," she says, "and each time Dodd's Kidney Pills helped me. The last time they cured me and now I am able to get around and do all my work, though I am fifty eight and I can walk to Sunday School every Sunday. Before I took Dodd's Kidney Pills I was so bad I could use neither hand nor foot. I shall keep Dodd's Pills on hand all the time."

Rheumatism is caused by Uric Acid circulating in the muscles. Healthy kidneys remove all Uric Acid from the blood. Diseased kidneys cannot remove this Acid which collects in the blood and poisons every vein and artery. Dodd's Kidney Pills cure Rheumatism by curing the kidneys; by healing and strengthening them, so that they can rid the blood of all impurities.

### German Military Penalty.

From picking up an apple while on a march and not cropping it immediately when ordered to do so by a sergeant, a soldier of the 50th Infantry (German) Infantry has been sentenced to eight months' imprisonment at Treves.

### European Breakfasts.

Mark Twain, in speaking of the typical European breakfast, said: "Do you know what I'll do? I'll nail a piece of cuttle-fish bone to the chimney, and every morning I'll hop up on the mantel and take a peek at it with a tin ball. It will be just as filling and much cheaper than a European breakfast."

It is evident that Mr. Clemens prefers the typical American breakfast dish of Pillsbury's Vitos with good cream and sugar.

Caprice and affection are potent factors in governing the movement of mankind.

# ARE YOUR KIDNEYS WEAK?

## Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

To Prove What the Great Kidney Remedy, Swamp-Root Will Do for YOU, Every Reader of This Paper May Have a Sample Bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are sick or "feel badly" begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

I was out of health and run down generally; had no appetite, was dizzy and suffered with headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt that they might be, and I began taking Swamp-Root. There is such a pleasant taste to Swamp-Root, and it goes right to the spot and drives disease out of the system. It has cured me, making me stronger and better in every way, and I cheerfully recommend it to all sufferers.

Gratefully yours,  
MRS. A. L. WALKER, 331 East Linden St., Atlanta Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head-ache and back-ache, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

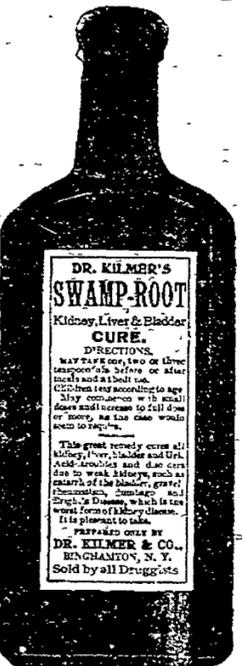

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

### How to Find Out

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy if there is a brick-dust settling, or if small particles float around in it your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice and taken by doctors themselves who have kidney ailments, because they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

EDITORIAL NOTE.—So successful is Swamp-Root in promptly curing even the most distressing cases of urinary, liver or bladder troubles that to provide a wonderful remedy you may have a sample bottle and a book of valuable information, both sent absolutely free by mail.
