WORK OF TATTOOER -HIDDEN FROM PRYING EYES.

Fashlonable English Men and Womer Have Craze for Designs Punctured by Artists on Various Portions of Their Bodies.

A few weeks ago a certain lady member of the royal family had a mall butterfly tattooed on her shoulder by the well-known society tattoo artist, Mr. Tom Riley. The little incident was to be kept a profound secret and this would seem to be the reason why it has been so quickly noised abroad. The result of her royal highness's trivial weakness may be guess ed. The tattooing craze is once again claiming the attention of the fashionable world. Blue-blooded dames are besieging the tattooist's studio, and they do not come as single spies, but in battalions.

The butterfly is naturally the most fashionable design, and, on the testipony of Mr. Tom Riley, there are several titled ladies who are nothing more er less than perambulating picture galleries of butterflies. In strict accordance with this demand, some of the butter flies are hovering over beds of poppies and pansies high on the shoulder, some are poised on outspread wings over the dimpled surface of seagreen pools low down on the bust, some are playing "ring-a-ring o'roses" round the ankles and just above and below the knee, and some are fluttering amid gorgeous blooms on the calf of the leg

### GARDNER'S CANDY.

In conversation with the agent of one of the largest candy manufactur ers in the west he told us something about one of our local enterprises which must be true coming as it does from a person of large experience and making a statement that would not be made for business purposes. He said Did you know that Northville has a larger, better made assortment of fresh candy as Gardner's than can be usually found in towns of from 10060 to 20,000° in fact what they make can not possibly be made better in any sized city." Such recommendation for one of our business firms, is very measing, and our community will jo in wishing them continued success

THE "COFFEE HEART."

It is as Dangerous as the Tobacco or Wnisky Heart.

"Coffee heart" is common to many coffee users and is liable to send the owner to his or her long home if the drug is persisted in You can run 30 or 40 yards and find out if your heart is troubled. A lady who was once a victim of the 'coffee heart" writes from Oregon

'I have been a habitual user of coffee all my life and have suffered very due to the poison in the beverage, such as torpid liver and indigestion, which in turn made my complexion blotchy

and muddy. "Then my heart became affected It would beat most rapidly just after I drank my coffee, and go below normal as the coffee effect wore off. Someas the conee effect wore off. Sometimes my pulse would go as high as 137 beats to the minute. My family were greatly alarmed at my condition and at last mother persuaded me to begin the use of Postum Food Coffee.

'I gave up the old coffee entirely and absolutely, and made Postum my sole table beverage. This was six months ago, and all my alls the indigestion, mactive liver and rickety heart action, have passed away, and my complexion has become clear and natural. The improvement set in very soon after I made the change, just as soon as the coffee poison had time to work out of my system.

"My Ensband has also been greatly benefited by the use of Postum, and we find that a simple breakfast with Postum is as satisfying and more strengthening than the old heavier meal we used to have with the other kind of coffee." Name given by Postum Co., Battle Creek, Mich.

He offered no evplanation of his sudden desire to withdraw his funds, and after vain argument with him the teller counted out the bills and delivered them to the old man. He eyed the paper money a moment and said:

"Kin I git dat in silver, bess?" The teller assured him he could, and forthwith made, the exchange. The old negro retired to a neighboring desk, remained crouched over it a ong time, and then, to the teller's great surprise, returned to the window and gleefully thrust his money back through the pigeon-hole. Mrs. Potts Tells How Women Should Prepare for Motherhood

The darkest days of husband and wife are when they come to look for ward to childless and lonely old age. Many a wife has found herself inca-pable of motherhool owing to a dis-placement of the womb or lack of thrength in the generative organs.

Frequent backache, and distressing pains, accompanied by offensive dis-charges and generally, by irregular and county menstruction indicate a dis-

A neighbor who had been cured by Lydia E. Pintham's vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my beadaches and backaches, left me, I had no more bearing-down pains, and felt like a new woman.
