## CREDITABLE LOT OF APPOINTMENTS

GOV. WARNER HAS CERTAINLY  
MADE GOOD.

A Sample Lot of What Has Been  
Done.

Governor Warner has appointed the Hon. Norman W. Haire, of Ironwood, upon the board of control for the College of Mines at Houghton. The appointee is judge of the Ontonagon-Gogebic circuit, and his standing among his fellow-citizens is sufficiently shown by his unanimous election to the judicial position he now holds. Not long ago we had announcement of an appointment to fill vacancy upon the state board of education which elicited much favorable comment in the newspapers. The vacancy had been caused by the governor's selection of James H. Thompson as one of the members of the new state tax commission, and to fill that vacancy he appointed E. C. Hinman of Battle Creek. The board of education is the controlling body for all of the normal schools, trustees and administrators of all the large property interests, an business concerns of those institutions as well as directors of their educational work, and we have few places where business ability is more demanded. Mr. Hinman is a large manufacturer, and a successful and broad-range business man in his home city. Another of the governor's selections equally commendable from that point of view, is that of Michael J. Murphy on the board of control for the Home for Feeble Minded, at Lapeer. Mr. Murphy is the founder and president of the Murphy Chair Co. of Detroit, and a keen and capable business man. He was quite unknown among politicians, and nobody except the governor had thought of him in connection with any appointment. This choice of men by reason of

their business records, rather than for any political prominence or influence, for the controlling boards of the state institutions seems to be characteristic of Governor Warner. E. H. Foote, of Grand Rapids, appointed to the board of managers of the Soldiers' Home, is president of one of the big furniture companies of that city. Fred A. Washburn placed upon the board of trustees for the State Asylum at Ionia, is a stockholder and superintendent of one of the big silk mills at Belding. George W. Merriman, of the board of trustees of Jackson prison, is a fruit grower of Van Buren county. Frank B. Leland, of Detroit, and Geo. W. Teeple, of Pinckney, the two non-professional members which the law authorizes upon the board of trustees of the new state sanatorium, are both bankers. The other four members must be physicians. Peter Voorhies, of Pontiac, appointed upon the asylum board at that place, is a prosperous farmer, and Edward J. Murphy, ap-

pointed to the same board, is president of the Pontiac Buggy Co. Rolla C. Taylor, on the board of guardians for the Industrial Home for Girls is a hardware merchant of high business standing in Adrian. Charles Edwards of Carleton recently appointed on the Kalamazoo Asylum board is one of Monroe county's leading business men.

These are some of Governor Warner's appointments which illustrate the feature suggested. Few of them, if any, have sought any political management or political preferment, satisfied to discharge their duties as citizens at the ballot box and devote their energies to building up business careers and careers for themselves and business prosperity in the communities. Several have had to be persuaded with argument and appeal to accept the responsibilities, at pecuniary sacrifice for themselves in many cases, but to the advantage of the public service. It was one of the same class, Frederick S. Cray, of Muskegon, appointed only in the year to a place on the Newberry Asylum board, to whom we were indebted for the detection and prompt exposure of the timber wood speculation by a member of that board an irregularity from which the state suffered no financial loss, but it was a violation of the law sufficiently reprehensible to Governor Warner to require the resignation of the offender.

## Methodist Church Notes.

[By the Pastor.]

The Christmas anthems sung by the choir last Sunday morning were well rendered and much appreciated.

We think the best place to celebrate the birth of our Lord is in His house on Sunday morning, but evidently in some places all do not think that way.

C. A. Dolph's Sunday school class made him a present of a beautiful book last Sunday as an evidence of their appreciation of his faithful and efficient service.

Public services next Sunday both morning and evening. The closing of the old and the beginning of the New Year will suggest the line of thought. We hope for a full house.

The Christmas exercises passed off very pleasantly last Sunday evening. The congregation was unusually large, but all were cared for. The committee of preparation and arrangement and the Sunday school scholars all did their parts in a very creditable manner. The decorations were quite pleasing.

## Presbyterian Church Notes.

[By the Pastor.]

The preparatory lecture will be given next Thursday evening.

The subject of the sermon Sunday evening will be "Good bye to 1905."

The annual election of officers in the Sunday school will occur next Sunday.

The annual meeting of the society will be held on Monday, January 8, at 2 p. m.

The pastor and wife return their sincere thanks for the Christmas remembrances they received from friends in the church.

The annual meeting and election of officers of the Ladies' Aid society will be held at Mrs. H. D. Johnson's next Wednesday at 3 p. m. Each is requested to provide her own lunch.

## MAY ASK FOR THIRD TERM

REGISTER OF DEEDS Q. P. GULLY  
WOULDN'T OBJECT.

All the Other County Officials Are  
Willin' Too.

Register of Deeds Gully wants a third term. This office has always been awarded to some man living in that part of the county lying out side the city. Mr. Gully has recently built a fine new home in the north Woodward avenue district, and it is possible that some countryman may take the Republican nomination away from him. However, since the primary election system has been instituted, it is not so certain that the nomination for Register will go to a countryman, as it was under the convention system. It now seems likely that if Mr. Gully is to have Republican opposition it is as likely to come from the city as from the country.

All the other county officials will seek re-nomination though they are all first termers except County Auditor Burt and Prosecuting Attorney Hunt.

## Suburban News.

The 12-year-old colored girl who has been missing from Pontiac for several weeks still keeps dark.

The new Presbyterian church at Sand Hill is to be dedicated Sunday with appropriate ceremonies. It is built upon the sand, but not one of the kind of houses that fall.

The Pontiac Gazette mentions that several flocks of robins were swooping around over there last week. The fact that the birds were seen on Asylum avenue has no particular significance.

A Detroit woman who had not been to church for five years attended services one Sunday recently and lost her pocketbook. This is an instance of what the novel writers call "pious justice."

A Livingston county man killed an otter while "up north" hunting and sold the skin to a Holly for \$10. He certainly got a big price for the pelt of a rare animal.

The Wayne Review speaks of a lady here who had an intention to marry a fellow which had once belonged to her grandmother. An heirloom like that ought to be held fast instead of being tossed.

The Rosched Dancing Club is a Waukegan organization. The celebration would be all right for any of the girl members weighing under 200 but it must sound rather funny when applied to some of the big, husky fellows of that smoky city.

Our circulation this week is ONE MILLION COPIES.—That's a lie, but if we keep up with some editors around here, in reporting our circulation, we shall have to lie, so, we'll tell a big one, while we are at it.—Farmington Herald. Always lie on the right side and you won't have nightmares.

Supervisor Wiles, of Ypsilanti, has a pure white crow which he picked up last spring where it had evidently been ejected from the parental nest because it didn't match. The bird, which, like all the crow family, is very intelligent and imitative, has already learned to say several words and is a great pet. It is allowed to fly, where it pleases, however, and, of course, the inevitable fool who is always somewhere around, will shoot it some day.

## Baptist Church Notes.

[By a Member.]

Usual services Sunday morning and evening. The subject of the morning sermon will be "The Good Man's Blessedness."

The regular business meeting and election of officers of the B. Y. P. U. will take place at the home of Mr. and Mrs. M. Brock next Wednesday evening. A good attendance is particularly desired.

The Christmas exercises on Monday evening were largely attended and the program was very nicely given. All the children were particularly perfect in the parts assigned them, and the whole affair was gratifying as well as creditable to all concerned in it.

## THE LONG HAIRD FOLKS IN BENTON HARBOR A WORRY.

SEEM TO BE CROWDING OTHERS OUT BUT INCREASE MERCHANTS' TRADE.

## HART SUFFERS FROM BURGLARY AND A VERY SERIOUS FIRE, ALL BY ONE MAN.

The Rollers Crowd.

The long-haired Flying Rollers of the House of David are becoming so numerous in Benton Harbor and are branching out with such alarming rapidity that the inhabitants of the city are beginning to fear that they may in a few years be driven from their own city, or else ruled over by these strange people.

These children of Israel believe that only themselves will remain on earth when the final trumpet blows and that all those of other faiths will be buried for 1,900 years, after which they will arise. They say that 50,000 of their faith will soon be gathered and that Benton Harbor is the chosen place of the Lord in which they are to congregate.

Meanwhile they are going about their work in a businesslike manner. They are continually purchasing more land, and as there are mechanics and members of every trade among them, they have no difficulty in putting up their large buildings wholly without outside aid.

The merchants are content for trade to double what was formerly done in the business houses. The members of the tribe wear their long, flowing hair and they are still living without any meat whatever. All the money goes into a common treasury, and the supply seems to be inexhaustible, new converts are continually coming in and it will be necessary to have several new buildings before spring as the large structures now used are overcrowded.

## Flood Mills Burned.

Hart village was again visited by a lone highwarman who operated in regular Jesse James style just before daybreak Tuesday. Ex-Senator James E. Flood's sawmill was set on fire and a few minutes later the Peter Mackenzie depot was entered the cash drawer rifled of \$15 and a penny gum machine was stolen to boot. The highwarman then slipped away and was seen by a farmer at 6 o'clock riding furiously toward Meigs, riding 11 miles to the limit.

At the flood mills time, a dog covered a fire from the boiler room. The mill closed down for the holidays and there in alarm could be sounded the flames had spread to an adjoining lumber yard and this also had consumed the total loss, about \$25,000.

Hart people think the fire was the work of some enemy of Floods who tried a fool to do the job, and that the depot robbery was committed by the same party on the side.

Another theory is that the fire was fired for the purpose of a general robbery, an attempt was made to rob the A. L. Campbell & Co. grocery store.

## Store Dynamited.

The front door of North & White of North Main in which the postoffice is located was partly wrecked by dynamite at 5 o'clock Sunday evening. The whole town was shocked but no perpetrators had without any apparent attempt to rob either the postoffice or the store. The explosive had been placed under the front of the building and the interior of the building shows traces of shrapnel and the postoffice frames were demolished.

## Burned in Lockup.

Charles Grob, aged 51, of Saginaw, who has been working in the woods at Cornwells Camps, came into the village Wednesday night with \$27 and after an evening's spree was lodged in the village lockup.

At 4 o'clock Thursday morning the jail building burned and Grob was cremated, the remains being hardly recognizable when taken from the ruins. The lockup was a small frame structure and the origin of the fire is a mystery.

Grob was a stranger and nothing was known of him but that his home was in Saginaw.

## Miners Crushed to Death.

By an extensive fall of rock in the Newport mine Friday eight lives were crushed out. The men were at work on the 1,300-foot level at the time. Without a second's warning 1,000 tons of rock broke away overhead. There was no time to run for safety. They were caught fairly under the mass and crushed like egg shells. In point of number of lives lost this is the worst accident that has ever happened in a mine on the Gogebic range, with one exception.

After being dead apparently for three days, placed in a coffin and about to be buried Viola Anderson, aged 17, of Duane, N. J., was found in a trance and revived.

Warnings have been sent out by the hydrographic office at Washington to the shipping of the world to look out for the floating dry dock, Dewey, as the four ships accompanying and being out in tandem fashion will eventually be known as the Sun.

Lake Lumber Co. has been organized in Wakefield, to build a saw mill on the south bank of Sunday lake.

Nettie Bartlett, of Grand Rapids, has brought suit for divorce, alleging that she fears her husband's mind is unbalanced by reading accounts of a recent murder, and that she will try the same thing on her.

# BLOOD FLOWS

## THE REIGN OF TERROR IS IN FULL SWING IN RUSSIA.

VIOLENCE AND SLAUGHTER IN MOSCOW MAKE GOOD THE REVOLUTIONARY THREAT.

## IF THE ARMY JOINS THEN ALL IS LOST AND THE CZAR'S DE-THRONEMENT COMES.

The Moscow Horrors.

With Moscow's baptism of blood, the revolutionaries made good their threat to transform the strike into armed rebellion. The next forty-eight hours should determine whether they can marshal sufficient strength to plunge the country into an actual state of civil war and seriously threaten the immediate downfall of the government. The government professes confidence that the whole attempt will fail, owing to the woeful insufficiency of arms in possession of the proletariat and by reason of the loyalty of the army as a whole; but its calculations might again be rudely upset. A few arsenals might be seized to furnish arms or the open support of a few regiments might start a landslide in the army. Certainly the shrewdness of the revolutionary leaders fully appreciate that the issue must be decided by the attitude of the army, which is yet to cast the die.

If the plans of the revolutionaries to produce an uprising in St. Petersburg fail, as it is believed they will, an attempt certainly will be made to terrorize the government by guerrilla warfare, in which bombs will play the chief role. The government having embarked in a war against the "reds," it is difficult to see how it can draw back one step.

The revolutionaries hold the outskirts of Moscow. A thousand men are working night and day at the barricades, some of which are marvels of strength. Trenches have been dug and wire entanglements have been erected in front of the defenses, which extend for blocks and are impene-trable even against artillery.

A terrible holocaust occurred at the Synk works where 6,000 workmen were suddenly surrounded by cavalry and artillery. The latter fired at the building which was soon in flames. Hundreds perished in the conflagration.

It is definitely established that the revolutionaries have six automatic guns.

Gov. Gen. Douhassoff has taken vigorous measures to discover concealed arms, holding owners of houses responsible and ordering the confiscation of all property where the presence of arms or bombs is discovered.

The gates of the Tatar city which surrounds the Kremlin of Moscow, where millions of church treasures are stored, have been closed and troops and machine guns have been stationed on the walls. Prince Tcherkassoff's Black Hundred militia have been armed by Gov. Gen. Douhassoff and terrible reprisals on the revolutionaries are anticipated if the rebellion is crushed.

Even the bank in the heart of Moscow remains closed.

## Suicide's Career of Crime.

Clarence Weatherby, of Muskegon, aged 19 years, poisoned himself Friday morning at the Detroit house of correction. When the sick call was made Friday morning, Weatherby answered with a cry of others. They marched into the infirmary. Evidently Weatherby was familiar with the department, as he slipped up to a medicine chest, quickly selected a bottle of strychnine and secured it under his blouse. Weatherby was removed at the house of correction from Lansing, December 17, sentenced to serve sixty-five days for larceny. Though he was only 19 years of age, he already had been an inmate of the place, having served ninety days last summer on a similar count.

Nothing but pity was felt in Muskegon for the mother. From early youth Weatherby had caused his mother and relatives much trouble. The boy's father died when he was young. In his early teens Weatherby got into trouble by petty thefts. Dime novels and pool room frequenting are said to be causes of his downfall.

"I'm still struggling," said John Burns, now a member of the British cabinet, when asked to write a sketch of his life for the English "Who's Who." Said he: "I was educated at Balliesden and at night schools and still lingering came into the world with a struggle, struggling now and prospect of continuing it."

Isaac and Edward Marshall, alleged chicken thieves, were going on a train from Mt. Carmel, Ill., to Fairfield, under the custody of Constable James Kingston, when they shot the officer dead in order to escape. The passengers took a hand and Isaac was killed and Edward fatally hurt.

President Roosevelt has bestowed a medal on George Poell, a Nebraska county clerk in recognition for an act styled "conspicuous bravery" in snatching a child from in front of a flying engine. Poell ran from the engine's cab alongside the engine to the pilot, saving the child, but fell under the wheels and lost a leg.

Expressing undying love for his two wives, bigamist B. J. Gibbons of Norfolk, Va., put a bullet through his head after killing his pet dog "Fannie." Mrs. Gibbons No. 1, with her two young children is in Norfolk and wife No. 2 is in Atlanta, Ga.

United States District Judge C. C. Kohlsaat held Daniel Garrigan, a Chicago fireman, in contempt of court and sentenced him to three months' imprisonment in the county jail. Garrigan was charged with violation of the federal injunction restraining strikers and their sympathizers from interfering with non-union men in the great teamsters' strike of last June.

## WHILE THE POST.

"I wish a whisper post could be established in this house for with assertions and wife making the declaration of Prosecuting Attorney Orr, of Bay City, and Police Justice William Kelley echoes, 'If we had such a law I would pick out the biggest policeman on the force to apply the lash to the back of wife deserters and personally supervise the infliction of punishment to see that the officer did his duty with proper enthusiasm.'"

Their statements were called forth by the conditions uncovered in the investigation of numerous cases of desertion, bordering almost on starvation, in several families consisting of mothers and children only.

It appears that there is a good sized contingent of Bay City's shiftless male population of family that every fall migrate to warmer climates, leaving wife and children to shift for themselves.

The past week several such cases were found where the children were suffering hunger while mothers were too ill to work.

Last fall a dozen arrests were made for desertion of children. The fathers were in several cases released on their promises to go to work and in some instances the officials, at the instance of Judge Shepard, secured jobs for the men. After a brief period of liberty, however, most of them left.

It is also noticeable that there is no race suicide sentiment among the periodical wife deserters and their families thrive on numbers, if not otherwise.

Prosecutor Orr says he hopes to take up the subject before the next legislature meets, particularly if Representative King, of Cheboygan, is re-elected. He declares seriously that there is no better remedy on earth for criminals of the class mentioned than physical pain and publicity in the execution of sentence.

## Mrs. Switzer Elated.

Acquitted of murdering her husband, Mrs. Margaret Switzer went about Mt. Pleasant free, and in a state of elation she had kisses and embraces for the people who congratulated her on her acquittal, and she further celebrated the happy event by making a round of the stores, buying goods and paying bills.

Mrs. Switzer was tried for the alleged murder of Dr. John Switzer at Leaton, September 19 last. The court had acquitted Mrs. Switzer, it was claimed, was jealous of his alleged attentions to other women. She had left their house the morning of the tragedy and he had followed her. A struggle took place on the roadway, and the doctor fell, mortally wounded. A revolver in his wife's hand having been discharged Mrs. Switzer, claimed that the shooting was accidental, as it occurred in the struggle for possession of the revolver. She had no designs against his life or welfare of her husband, she said. She was in terror of him, as he had been a drunkard and was violent when under the influence of drink. The jury took her word for the case.

Earthquake Shakes.

The town of Hancock, in the western end of Washington county, was shaken by an earthquake about 10 o'clock Friday night until the houses rocked and windows rattled, causing the residents to become greatly alarmed.

The seismic disturbance was also felt all through that region, in Pennsylvania and West Virginia. At Berkeley Springs the shock was felt distinctly and the town was alarmed. A rumbling noise like distant thunder was heard, followed by a wave which extended far up into Fulton county, Pa., and was felt in every town and village through that section. ## Cannot Raise Rates.

Supreme Court Justice Gaynor, of Brooklyn, handed down a decision Saturday in which he declares that the supreme council of the Royal Arcanum has no right to put into effect rates for the assessment of members different from those at which they were admitted into the order. The decision is the result of a suit brought last month by James Lawrence Mock, formerly secretary of Berkeley council, No. 1954, Royal Arcanum, to test the power of the council to change the rates, and was tried in the equity term before Justice Gaynor, who said:

"The amendments complained of which increase the assessments are void for the reason that they change the contract of the members with the organization."

## Thriving Trade.

No feature of the export trade of the United States in 1905 has shown a larger growth than the trade with China and Japan, says a bulletin issued by the bureau of statistics of the department of commerce and labor.

In the 10 months ended with October exports to China aggregated more than \$50,000,000 in value, against \$20,000,000 in the same months of 1904 and \$13,000,000 in the corresponding months of 1903.

Exports to Japan were \$16,500,000, against a total less than \$22,000,000 for the same period in 1904 and \$16,000,000 in the corresponding months of 1903. No other countries of the world to which our exports are sent show gains approximating those of China and Japan.

The growth in exports to China from the United States is especially marked in copper, cotton cloth, flour, sewing machines, locomotives, paper, canned beef, manufactured goods of various kinds, and other articles of commerce.

In Japan the growth occurred in dentifrice, in leather, in cotton, in cotton cloth, in machinery, in locomotives, in paper, in canned beef, tobacco and lumber.

## Longworth-Roosevelt.

A Washington dispatch says that Miss Alice Roosevelt and Congressman Nicholas Longworth of Cincinnati will be married at high noon on February 22 next, Washington's birthday.

It is the wish of Miss Roosevelt that she be married by an Episcopalian, Rev. Cotton Smith, rector of St. John's church, immediately opposite the White House, will probably read the service.

It is said that Miss Alice had little difficulty in selecting her wedding gown. She intends to wear the highly prized gown worn and bequeathed to her by her grandmother.

Miss Ethel Roosevelt, half sister of the bride, may be the only maid of honor.

Honesty is a virtue which wears well, but does not always produce satisfactory returns.

Unless we despise a woman when we cease to love her, we are still a slave without consolation of intoxication.

Mrs. Sarah Whitman, a widow who lived alone near Muncie, Ind., Pa., was murdered Thursday night by robbers, after a desperate struggle.

Ohio's supreme court decides that the state has a right to change of venue in criminal cases, the same as the accused. It is one of the most important rulings in the history of Ohio criminal law.

Too much adulation bestowed upon his fiancée by other men caused an estrangement between Tom Sherwin, the famous Yale halfback, and Miss Elizabeth Sherley, a second cousin of Rep. Sherley, of Louisville, Ky. Miss Sherley says Sherwin objected to her accepting the attentions of other men and that this led both "to agree to quit."

Mrs. Laura Corey, wife of the president of the steel trust, who is believed to be frustrated with actress Mabelle Gilman, has decided to bring suit for divorce in Pittsburg, instead of Nevada. She says she wants to fight it all out in her own home.

In view of the decision of Attorney-General Moody that midshipmen cannot be dismissed from the academy by the secretary of the navy on the recommendation of the superintendent, there is discussion at Annapolis as to whether several midshipmen dismissed during the past few years cannot by legal action compel their restoration to the service.

## THOUGHTS ON HIS PROFESSION.

Doctor Forget for the Moment He Was Not Operating.

Senator Beveridge desired to illustrate forcibly the force of habit. "In Sullivan, where I spent my boyhood," he said, "there was a physician whom everybody liked; a hard-working, modest, absent-minded man."

This physician was the guest of honor one Thanksgiving at the house of a leading citizen and when the gay assembly entered the dining room the leading citizen said to him:

"Now, doctor, on account of your surgical skill, I'll ask you to carve. That bird is a twenty-four pounder and he is as young and tender as a spring pullet. None but you could do him justice."

"The physician, his mind on other things, smiled absently, took the head or the table, raised the knife, and made a deep incision in the breast of the turkey."

"Then he frowned, rummaged in his pocket and brought out some absorbent cotton, a roll of bandages and a paper of pins. With these he proceeded to dress and bind up the wound he had made."

"The guests were stricken dumb. They looked on in utter amazement. The doctor inserted the last pin and patted the neat dressing he had made. Then he looked up and smiled."

"And now," he said, "let us hope that in a week, with rest and care our patient will be on his feet again."

## FARM-BRED MEN CALLED FOR.

Country Boys to Be the Future Kings of Commerce.

The time is fast approaching when the intelligent, industrious and energetic farmboy will occupy a more prominent place in the affairs of the state and nation than he has occupied in the past. The rapid pace which has to be taken by people engaged in the professions and in mercantile pursuits in order to successfully meet the competition on every hand is not conducive to the mental endowment of the descendants, and the farmboy of rugged constitution and industrious habits will be in greater demand to take their places than has ever been known. Much as has been written in regard to the prominent part that such breeding and early training in the country have contributed to the successful management of great enterprises and the successful prosecution of professional matters, much more will be said in the same direction in the future.—Manchester, N. H., Mirror.

## Sexton's Little Mistake.

Rev. F. W. Gunsulius met the other day two children in blue sailor suits out walking with their mother.

Mr. Gunsulius praised the pretty blue suits, the trim sailor hats and the handsome reefers. Then he smiled and said:

"In a certain church one Sunday morning three children sat in the front row of the gathering with sailor hats on their heads."

"The sexton before the service commenced thumped down the aisle and whispered loudly and indignantly, 'Take them hats off boys!'"

"The children took no notice and very angrily the sexton repeated, 'Off with them hats, do you hear?'"

"Still they did not comply. So the old man came and loomed over them, glowering in their faces."

"Why," he began, but in a shrill little pip of terror one of the children interrupted him.

"Please, sir, we are girls," she said.—Chicago Inter Ocean.

## Knew the Price.

They had all been to church, and the young minister was coming home to dine with them. While at dinner they were discussing the new stained glass window a member had given.

"It is a most beautiful piece of workmanship," said one, "and must have cost a great deal of money."

"Do you have any idea how much?" "I really do not," replied the minister, "but far into the hundreds, I should imagine."

"No it didn't, either," said little Harold. "I know how much it was. It cost fourteen dollars and ten cents."

"Why, Harold, how do you know anything about it?" "Because, mamma, it said at the bottom of the window, 'Job 14:10.'"

## Obscurity.

"It's good to be obscure. No brazen band with blare its harmonics so ill-advised. No hypocrite mercur snarles your hand. And fawns in hope of being advertised. No state palanquin fondles every wame. And quits you when your sway is at an end."

No courtier at your elbow smug and trim. May crown away the flank and faithful friend.

No throng awaits all thoughtlessly to cheer. As thoughtlessly one day perchance 'twill chide. No vain ambition tempts your course too near.

The treacherous shallows and the rocks of pride, 'Tis sweet to doubt, to hear the worldlings call. Although they may forget you in a year. And then revile. It's pretty good withal. To live and love and toil and be obscure.

—Washington Star.

## Two Famous Russian Writers.

A significant parallel may be drawn between the work of two peasant writers recently brought into prominence—Maxim Gorky and Peter Rossegger. Both are children of ignorant parents, to whom education was a self-accomplished task and literary genius an inherent quality rather than a developed faculty. Gorky was a child of the slums, Rossegger a son of the soil. Gorky revels in pictures of squalor and human viciousness. Rossegger's inspiration leads him along heights of ideality and religious mysticism.

## THE LONG HAIRD FOLKS IN BENTON HARBOR A WORRY.

SEEM TO BE CROWDING OTHERS OUT BUT INCREASE MERCHANTS' TRADE.

HART SUFFERS FROM BURGLARY AND A VERY SERIOUS FIRE, ALL BY ONE MAN.

The Rollers Crowd.

The long-haired Flying Rollers of the House of David are becoming so numerous in Benton Harbor and are branching out with such alarming rapidity that the inhabitants of the city are beginning to fear that they may in a few years be driven from their own city, or else ruled over by these strange people.

These children of Israel believe that only themselves will remain on earth when the final trumpet blows, and that all those of other faiths will be burned for 1,000 years, after which they will arise. They say that 50,000 of their faith will soon be gathered and that Benton Harbor is the chosen place of the Lord in which they are to congregate.

Meanwhile they are going about their work in a business-like manner. They are continually purchasing more land, and as there are mechanics and members of every trade among them, they have no difficulty in putting up their large buildings wholly without outside aid.

The merchants are content for trade. It is double what was formerly done in the business houses. The members of the tribe wear their long, flowing hair, and they are still living without any meat whatever. All the money goes into a common treasury, and the supply seems to be inexhaustible. New converts are continually coming in, and it will be necessary to have several new buildings before spring as the large structures now used are overcrowded.

### Flood Mills Burned.

Hart Village was again visited by a lone highwayman who operated in a regular Jesse James style just before daylight Tuesday. Ex-Senator James K. Flood's sawmill was set on fire and a few minutes later, the Pere Marquette depot was entered, the cash drawer filled with \$15 and a penny gun machine was shattered to bits. The highwayman then galloped away and was seen by a farmer at 6 o'clock riding furiously toward Meigs, urging his horse to the limit.

At the flood mills flames were digging covered issuing from the boiler room. The mill is closed down for the holidays and before an alarm could be sounded the flames had spread to an adjoining lumber yard, and this also was destroyed. The total loss here is \$25,000.

Hart people think the fire was the work of some enemy of Flood's, who hired a tool to do the job, and that the depot robbery was committed by the same party on the side.

Another theory is that the mill was fired for the purpose of a general robbery, as an attempt was made to rob the A. T. Cooper & Co. grocery store also.

### Store Dynamited.

The grand old store of North & Whitehead, of North Branch, in which the postoffice is located, was partly wrecked by dynamite at 5 o'clock Sunday evening. The whole town was shocked but the perpetrators fled without any apparent attempt to rob either the postoffice or the store. The explosive had been placed under the center front of the building and the interior of the building, show cases, crockery, and the postoffice fixtures were demolished.

### Burned in Lockup.

Charles Grovesburg, aged 51, of Saginaw, who has been working in the woods at Cornwell's Camps came into the village Wednesday night with \$2 and after an evening's spree was landed in the village lockup.

At 4 o'clock Thursday morning the jail building burned and Grovesburg was cremated, the remains being hardly recognizable when taken from the ruins. The lockup was a small frame structure and the origin of the fire is a mystery.

Grovesburg was a stranger and nothing was known of him but that his home was in Saginaw.

### Miners Crushed to Death.

By an extensive fall of rock in the Newport mine, Friday eight lives were crushed out. The men were at work on the 1,300-foot level at the time. Without a second's warning 1,000 tons of rock broke away overhead. There was no time to run for safety. They were caught fairly under the mass and crushed like egg shells. # BLOOD FLOWS

## THE REIGN OF TERROR IS IN FULL SWING IN RUSSIA.

VIOLENCE AND SLAUGHTER IN MOSCOW MAKE GOOD THE REVOLUTIONARY THREAT.

IF THE ARMY JOINS THEN ALL IS LOST AND THE CZAR'S DE-THRONEMENT COMES.

The Moscow Horrors.

With Moscow's baptism of blood, the revolutionaries made good their threat to transform the strike into armed rebellion. The next forty-eight hours should determine whether they can marshal sufficient strength to plunge the country into an actual state of civil war and seriously threaten the immediate downfall of the government. The government professes confidence that the whole attempt will fail, owing to the woeful insufficiency of arms in possession of the proletariat and by reason of the loyalty of the army as a whole, but its calculations might again be rudely upset. A few arsenals might be seized to furnish arms or the open support of a few regiments might start a landslide in the army. Certainly the shrewdest of the revolutionary leaders fully appreciate that the issue must be decided by the attitude of the army, which is yet to cast the die.

If the plans of the revolutionaries to produce an uprising in St. Petersburg fail, as it is believed they will, an attempt certainly will be made to terrorize the government by guerrilla warfare, in which bombs will play the chief role. The government having embarked in a war against the "reds," it is difficult to see how it can draw back one step.

The revolutionists hold the outskirts of Moscow. A thousand men are working night and day at the barricades, some of which are marvels of strength. Trenches have been dug and wire entanglements have been erected in front of the defenses, which extend for blocks and are impregnable even against artillery.

A terrible holocaust occurred at the Svin works, where 6,000 workmen were suddenly surrounded by cavalry and artillery. The latter fired at the building which was soon in flames. Hundreds perished in the conflagration.

It is definitely established that the revolutionaries have six automatic guns.

Gov. Gen. Douha-soff has taken rigorous measures to discover concealed arms, holding owners of houses responsible and ordering the collection of all property where the presence of arms or bombs is disclosed.

The gates of the Fort of St. Peter and Paul, where millions of church treasures are stored, have been closed and troops and machine guns have been stationed on the walls. Prince Tcheroff, a Black Hundred, militia boy, been armed by Gov. Gen. Douha-soff and terrible reprisals on the revolutionists, are anticipated if the rebellion is crushed.

Even the banks in the heart of Moscow remain closed.

### Suicide's Career of Crime.

Clarence Weatherby, of Muskegon, aged 19 years, police told him Friday morning at the Detroit house of correction. When the sick cell was awarded Friday morning, Weatherby was awarded with several others. They marched into the infamous Ludington Weatherby was familiar with the department, as he said it up to a machine gun, and he selected a bottle of cyanide and secreted it under his blouse. Weatherby was received at the house of correction from Lansing, December 17, sentenced to serve sixty days for larceny. Though he was only 19 years of age, he already had been in prison, of the place having served ninety days last summer on a similar count.

Nothing but pay is felt in Muskegon for the mother. From early youth Weatherby had caused his mother and relatives much trouble. The boy's father died when he was young. In his early teens Weatherby got into trouble by petty thefts. Dime novels and pool room frequenting are said to be causes of his downfall.

"I'm still struggling," said John Burns, now a member of the British cabinet, when asked to write a sketch of his life for the English "Who's Who." ## WHIPPING POST.

"I wish a whipping post could be established in this state for wife deserters and wife beaters," is the declaration of Prosecuting Attorney Orr, of Bay City, and Police Justice William Kelley echoes, "If we had such a law I would pick out the biggest policeman on the force to apply the lash to the back of wife deserters and personally supervise the infliction of punishment to see that the officer did his duty with proper enthusiasm."

Their statements were called forth by the conditions uncovered in the investigation of numerous cases of desertion, bordering almost on starvation, in several families consisting of mothers and children only.

It appears that there is a good sized contingent of Bay City's shiftless male population of family that every fall migrates to warmer climates, leaving wife and children to shift for themselves.

The past week several such cases were found where the children were suffering hunger while mothers were too ill to work.

Last fall a dozen arrests were made for desertion of children. The fathers were in several cases released on their promises to go to work, and in some instances the officials, at the instance of Judge Shepard, secured jobs for the men. After a brief period of liberty, however, most of them left.

It is also noticeable that there is no race sacred sentiment among the periodical wife deserters, and, then families thrive in numbers, if not otherwise.

Prosecutor Orr says he hopes to take up the subject before the next legislative meets, particularly if Representative J. J. Cheboygan, is re-elected. He declares seriously that there is no better remedy on earth for criminals of the class mentioned than physical pain and publicity in the execution of sentence.

### Mrs. Switzer Elated.

Aquitted of murdering her husband Mrs. Margaret Switzer went about Mt. Pleasant free, and in a state of elation. She had kisses and embraces for the people who congratulated her on her acquittal, and she further celebrated the happy event by making a round of the stores, buying goods and paying bills. Mrs. Switzer was tried for the alleged murder of Dr. John Switzer at Leaton, September 19 last. The couple had quarreled. Mrs. Switzer, it was claimed, was jealous of his alleged attentions to other women. She had left their house the morning of the tragedy and he had followed her. A struggle took place in the roadway and she fell, he fell mortally wounded. A doctor in his wife's hand having been changed, Mrs. Switzer claimed that the shooting was accidental as it occurred in the struggle for possession of the revolver. She had no designs upon the life or welfare of her husband, she said, but was in terror of him as he had beaten her and was violent when under the influence of drink. The jury took her view of the case.

Supreme Court Justice Gaynor, of Brooklyn, handed down a decision Saturday in which he declares that the supreme council of the Royal Arcanum has no right to put into effect rates for the assessment of members different from those at which they were admitted into the order. ### Thriving Trade.

No feature of the export trade of the United States in 1913 has shown a larger growth than the trade with China and Japan, says a bulletin issued by the bureau of statistics of the department of commerce and labor.

In the 10 months ended with October exports to China aggregated more than \$70,000,000 in value, against \$20,000,000 in the same months of 1911 and \$13,000,000 in the corresponding months of 1910.

Exports to Japan were \$16,500,000, a little less than \$22,000,000 for the same period in 1911 and \$15,000,000 in the corresponding months of 1910. No other country of the world to which our exports are sent show gains approximating those of China and Japan.

The growth in exports to China from the United States is especially marked in copper, cotton cloth, flour, sewing machines, locomotives, paper, canned fruit, manufacture of tobacco and lumber, though cotton cloth and copper are by far the most important of these items.

To turn the grow has occurred in their carriages and other, which is a new feature in the machinery, sewing machines, locomotives, paper, canned fruit, manufacture of tobacco and lumber.

Mrs. Laura Corey, wife of the president of the steel trust, who is believed to be infatuated with actress Mabelle Gilman, has decided to bring suit for divorce in Pittsburgh, instead of Nevada. She says she wants to fight it all out in her own home.

In view of the decision of Attorney-General Moody that midshipmen cannot be dismissed from the academy by the secretary of the navy on the recommendation of the superintendent, there is discussion at Annapolis as to whether several midshipmen dismissed during the past few years cannot by legal action compel their restoration to the service.

## THOUGHTS ON HIS PROFESSION.

Doctor Forgot for the Moment He Was Not Operating.

Senator Beveridge desired to illustrate forcibly the force of habit.

"In Sullivan, where I spent my boyhood," he said, "there was a physician whom everybody liked; a hard-working, modest, absent-minded man."

"This physician was the guest of honor one Thanksgiving at the house of a leading citizen and when the gay assemblage entered the dining room the leading citizen said to him:

"Now, doctor, on account of your surgical skill, I'll ask you to carve. That bird is a twenty-four pounder and he is as young and tender as a spring pullet. Now, but you could do him justice."

"The physician, his mind on other things, smiled absently, took the head of the table, raised the knife and made a deep incision in the breast of the turkey."

"Then he frowned, rummaged in his pocket and brought out some absorbent cotton, a roll of bandages and a paper of pins. With these he proceeded to dress and bind up the wound he had made."

"The guests were stricken dumb. They looked on in utter amazement. The doctor inserted the last pin and patted the neat dressing he had made. Then he looked up and smiled."

"And now," he said, "let us hope that in a week, with rest and care our patient will be on his feet again."

## FARM-BRED MEN CALLED FOR.

Country Boys to Be the Future Kings of Commerce.

The time is fast approaching when the intelligent, industrious and energetic farmboy will occupy a more prominent place in the affairs of the state and nation than he has occupied in the past. The rapid pace which has to be taken by people engaged in the professions and in mercantile pursuits in order to successfully meet the competition on every hand is not conducive to the mental endowment of the descendants, and the farmboy of rugged constitution and industrious habits will be in greater demand to take their places than has ever been known.

Much as has been written in regard to the prominent part that such breeding and early training in the country have contributed to the successful management of great enterprises and the successful prosecution of professional matters, much more will be said in the same direction in the future—Manchester, N. H., Mirror.

### Sexton's Little Mistake.

Rev. F. W. Gunsaulus met the other day two children in blue sailor suits out walking with their mother.

Mr. Gunsaulus praised the prettiest blue suit, the trim sailor hats and the handsome reefers. Then he smiled and said:

"In a certain church one Sunday morning three children sat in the front row of the gathering with sailor hats on their heads."

"The sexton before the service commenced tipped down the aisle and whispered loudly and indignantly:

"Take them hats off, boys."

"The children took no notice and very angrily the sexton repeated:

"Off with them hats, do you hear?"

"Still they did not comply. So the old man came and leaned over them, glowering in their faces."

"Why," he began, but in a shrill little pipe of terror one of the children interrupted him.

"Please, sir, we are girls," she said.—Chicago Inter Ocean.

### Knew the Price.

They had all been to church, and the young minister was coming home to dine with them. While at dinner they were discussing the new stained glass window a member had given.

"It is a most beautiful piece of workmanship," said one, "and must have cost a great deal of money."

"Do you have any idea how much?"

"I really do not," replied the minister, "but far into the hundreds

# DON'T NEGLECT A COLD.

## Neglected Colds Lead to Consumption.

### How Consumption Develops.

Nine cases of consumption out of ten occur in this way:

A person catches cold. The cold is not properly cured, and another cold is caught.

This cold is duly saluted with, either by no treatment whatever or some treatment that is ineffectual, and the cold continues.

Then another cold is caught and a cough develops. Cough syrups are resorted to, but they give only temporary relief.

By and by the patient gets tired of taking medicines and cough syrups and gives up in despair.

The cold continues to develop and the cough grows worse.

Then the doctor is called in, only to discover that the patient is in the first stages of consumption.

It was just in this way that Miss Powell, of Aurora, Ind., became sick. She caught a cold, and not considering it serious, neglected it, thinking as many other do, that it would "wear off."

However, it clung to her tenaciously, and in two weeks she found her health in a serious condition.

Fortunately, Peruna had been brought to her notice, and she took a course of this remedy before it was too late.

In a week the cough and cold were broken, and a three-weeks' treatment completely restored her to health.

This is what Peruna is doing all the while. Not a day, and probably not an hour passes in which some one does not have a similar experience with Peruna.

### Cure the Slight Colds and Avoid Consumption.

The first step toward consumption is a cold. The next step is a failure to cure it promptly. The third step is the development of catarrh, which gradually becomes chronic. The fourth step, the catarrh begins to spread from the head to the throat, then to the bronchial tubes, and finally into the lungs. It is then consumption in the first stage.

At any time during the progress of catarrh, from the first onset of the cold to its final settlement in the lungs, Peruna can be relied upon to stop the disease. If you have taken a cold, buy Peruna without delay. One bottle in the beginning will do more good than a half dozen bottles after the catarrh has fastened itself on the lungs.

Thousands of Testimonials.

We have on file thousands of testimonials from people who have been cured of catarrh of the lungs by Peruna. We can give our readers only a slight glimpse of the vast array of uncollected endorsements we are receiving every month. No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

United States of America.

United States of America. A declaration in Jefferson's draft of the declaration of independence, and in this particular the first draft was not altered by the congress in ordaining the declaration. The words are found in the final paragraph, and thus appear in the official copy on file. We, therefore the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by authority of the good people of these colonies, solemnly publish and declare. That these united colonies are, and of right ought to be, free and independent states." On Sept. 9, 1776, the congress first officially designated the new nation by the title and style of the United States of America.

Floating Islands.

History tells us that lands made from reeds, which were not only moved about by the wind but by oars, were the means of the escape of many Roman citizens during the Mithridatic wars. Indian legends are full of interesting stories of the marvelous escapes of fugitives on "cane-rafts," which were floating islands composed of green rafts of canes or brushwood.

Mine Under the Ocean.

The Levant mine, situated near the Lanc's End, England, goes down vertically for 2,100 feet, and is worked laterally under the bed of the Atlantic, considerably over a mile from the foot of the cliffs. The mine gives employment to 515 men and 175 boys, and practically runs the village of St. Just.

Too Much Hospitality.

A soldier lately came over with Gen. Moore was asked if he had met with much hospitality in Holland. "Oh, yes," he replied, "I met with far too much of it. I was in the hospital nearly all the time I was there."

Parisienne's Beautiful Hands.

Mlle. Marie de Cassel is a young Parisian beauty. Is the most perfect of the most beautiful hands in the world. The lady in question is a descendant of the Bourbons, but early in life she threw away her fortune of nobility and lived on the streets. She then she has devoted herself to the most modest and useful of pursuits. Her hands are perfectly smooth and even, without the slightest trace of a line, and they look the most perfect and beautiful. Several visitors from all over the world, who come to Paris for the sole purpose of seeing a look at her hands and if possible, to keep the secret of their beauty.

Forbids Use of Bicycles.

Dr. Adolph Fritzen, bishop of Strasbourg, has again issued an edict forbidding priests within his diocese to use bicycles.

Sick Headache.

When your head aches, there is a storm in the nervous system, centering in the brain. This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

(This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epilepsy, fits, dizziness, etc.)

Allay this stormy, irritated, aching condition by taking Dr. Miles' Anti-Pain Pills.

They stop the pain by soothing, strengthening and relieving the tension upon the nerves—not by paralyzing them, as do most headache remedies.

Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs.

"Sick headache is hereditary in my family. My father suffered a great deal, and for many years I have had spells that were so severe that I was unable to attend to my business affairs for a day or so at a time. During a very severe attack of headache, I took Dr. Miles' Anti-Pain Pills and they relieved me almost immediately. Since then I take them when I feel the spell coming on and it stops it at once."

JOHN J. McBRIDE, Pres. S. B. Eng. Co., South Bend, Ind. Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

A Baked Soul.

A hot who had been working in a bakery for some time was just Kohler delivery wagon Saturday morning when the boss was gone he broke the marble slab he molded his loaves on. So he went to the marble yard to secure another, but could not find one. On his way back he passed a graveyard and as it was very dark he jumped over and pulled up a small headstone about the right size and took it back and finished his job. The next day, after the bread had been delivered, nearly all of it was sent back. The baker looked at it and broke several loaves open, but found nothing wrong. "Here lies the body of Mrs. — Born A D 1632 and A D 1740 — Lippincott."

## TO STRENGTHEN THE MEMORY

Simple Methods, Persevered in, Will Avail Much.

There are a thousand fake schemes or strengthening the memory, but the experience of most people is that they all fail of their object. A weak memory, like bodily weaknesses, must be overcome by heroic measures. So many labor-saving machines have been perfected that the public is slow to believe that such methods cannot be applied to the mind, and "bite" readily at every fake help offered. But here are, for those so afflicted, many aids, which if persevered in, will bring amelioration. In the first place keep out of doors as much as possible. Next, take up the study of some foreign language. This last study from the days of the ancients, has been recognized, as the greatest of all mind strengtheners. Try it, and if you are too strenuous, take up your favorite poet and commit the poems that most attract you. This last has the advantage of storing the mind with sentences that will solve you when the world seems most unreasonable. And may prevent besides, the fear of "Dying."

## DIDN'T COME FOR EXAMINATION

But Collector Underwent Ordinal Like All the Rest.

A celebrated specialist, to whom time was literally money, and who was possessed of a fiery temper, made it a rule that all patients should address before entering his consulting room so as not to waste any of his valuable time. One day a meek looking little man entered with all his clothes on.

"What do you mean by coming in like that?" asked the doctor, in a rage. "Go and strip at once!"

"But I—" faltered the man.

"I tell you I've no time to waste," yelled the doctor, and the poor man left the room in haste. When his turn came he re-entered the room.

"Now, then," said the doctor, "that's better. What can I do for you?"

"I called to collect your subscription for the benevolent society."

## Planned Vast European Republic.

Had not King Henry of France been murdered Europe would have heard many years ago a good deal of republics. According to Sulis in the sixteenth century this "greatest, but above all, the most essentially French of all the kings of France" intended to make the whole of Europe a vast federal republic. Russia and Turkey as not exclusively European were to be excluded. All else were to come in under a scheme which would have divided the continent into fifteen independent states, each of them to have a king, and each king to be elected by the people of the state.

## Peculiar Royal Gift.

### FIRST-USED WORD ELECTRICITY.

Honor That Seems to Belong to Sir Thomas Browne.

No one seems to have recalled, in connection with the commemoration of Sir Thomas Browne at Norwich, that he was the first person to use the word "electricity" as a noun. Gilbert and others who followed him had adopted the term "electrics" to denote substances which, like amber, became attractive when rubbed, but they had used no name for the unseen itself.

The first occurrence of the substantive in English (or, for that matter, in any language) occurs on page 79 of the "Pseudodoxia Epidemica" (1646) in the following passage: "Glasses attracts but weakly though clear, some shok stones and thick glasses indifferently; Arsenic not at all; Saltes generally but weakly, as Sal Gemma, Alum and also Talk; nor very discoverably by any friction; but if gently warmed at the fire and wiped with a dry cloth, they will better discover their Electricities."—Prof. S. P. Thompson in London Times.

\$12,500 for a Manuscript.

At the sale of the library of the Earl of Cork in London, a French manuscript, described by experts to be one of the finest "Garden" manuscripts ever offered for auction, was bought by Messrs. Quaritch, for \$12,500. The same firm purchased King Charles I's prayer book for \$1,500.

UNSIGHTLY BALD SPOT.

Caused by Sores on Neck—Merciless Itching for Two Years Made Him Wild—Another Cure by Cuticura.

"For two years my neck was covered with sores, the humor spreading to my hair, which fell out, leaving an unsightly bald spot, and the soreness, inflammation and merciless itching made me wild. Friends advised Cuticura Soap and Ointment, and after a few applications the torment subsided, to my great joy. The sores soon disappeared, and my hair grew again as thick and healthy as ever. I shall always recommend Cuticura. (Signed) H. J. Spalding, 104 W. 104th St., New York City."

THE EARTH'S AREA.

One of the best authorities estimates the area of the earth's surface at 196,781,784 square miles, of which about 57,000,000 square miles is land, the rest water. ### RESOLUTIONS for the New Year and sentiments for the holiday season, arranged in acrostic form by F. G. Moorhead from the works of Robert Louis Stevenson

AN aim in life is the only fortune worth the having; and it is not to be found in foreign lands, but in the heart itself.

MONEY, being a means of happiness, should make both parties happy when it changes hands. Rightly disposed, it should be twice blessed in its employment.

EVERY piece of work which is not so good as you can make it should rise up against you in the court of your own heart, and condemn you for a thief.

RIGHT is that for which a man's central self is ever ready to sacrifice immediate or distant interests.

RIGHT is intimately dictated to each man by himself, but can never be rigorously set forth in language, and above all never imposed upon another.

YOU cannot run away from a weakness, you must fight it out or perish. And if that be so, why not now, and where you stand?

CULTURE is not measured by the greatness of the field which is covered by our knowledge, but by the nicety with which we can perceive relations in that field, whether great or small.

HE who can sit squarest on a three-legged stool, he it is who has the wealth and glory.

RIGHTNESS is to fuse together our diverse impulses and march with one mind through life.

IF we wish the pick of men and women take a good bachelor and a good wife.

SOCIETY was scarce put together and defended with so much eloquence and blood for the convenience of two or three millionaires and a few hundred other persons of wealth and position.

TO be a gentleman is to be one all the world over, and in every relation and grade of society. It is a high calling, to which a man must first be born and then devote himself for life.

MANNERS, like art, should be human and central.

AS the sun returns in the east, so let our patience be renewed with dawn.

SO long as we love ourselves, so long as we are loved by others I would almost say that we are indispensible.

AFTER all, there is nothing like going out of doors.

NO man is useless, (shiloh) as a friend.

DO what we will, there is always something made to our hands, if it were only on fingers.

A man cannot go very far from who neither ignores his parents, nor kids, nor commits adultery, nor steals nor bears false witness, for these things, rightly thought out, cover a vast field of duty.

HOMES is the woman's kingdom.

AFTER a good woman and a good book and tobacco, there is nothing so agreeable on earth as a rug.

PENURY is the worst slavery, and will soon lead to death.

PRACTICE is a more intricate and desperate business than the toughest theorizing, life is in affair of cavalry, where rapid judgment and prompt action are alone possible and right.

YET the dearest and readiest, if not the most just, criterion of a man's services is the wage that mankind pays him, or briefly, what he earns.

NATURE is a good guide through life, and the love of simple pleasures next, if not superior, to virtue.

ETRE et pas avoir—be, not to possess—that is the problem of life.

WE must all set our pocket watches by the clock of fate.

YET, when all has been said, the man who would hold back from marriage is in the same case as the man who runs away from battle.

EVERY man is his own doctor for his duty in the last resort.

A BRAVE woman far more readily accepts a change of circumstances than the bravest man.

RIGHT or wrong, this I have done, in my own honor of intention, as to myself and my God.

## STOP! WOMEN, AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private life to a woman—a woman whose experience with woman's diseases covers a great many years. You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepted this invitation. Note the result.

First Letter.

"Dear Mrs. Pinkham.—For eight years I have suffered something terrible every month with my periods. The pains are excruciating and I can hardly stand them. My doctor says I have ovarian and womb trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me."—Mrs. Mary Damm, 58th and E. Capitol St., Penning P. O., Washington, D. C.

Second Letter.

"Dear Mrs. Pinkham.—After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimony that others may know their value and what you have done for me."

"As you know, I wrote you that my doctor said I must have an operation or I could not live. I then wrote you, telling you my ailments. I followed your advice and am entirely well. I can talk with you without any ache or pain, and I owe my life to you and to Lydia E. Pinkham's Vegetable Compound. I wish every suffering woman would read this testimonial and realize the value of writing to you and your remedy."—Mrs. Mary Damm, 58th and E. Capitol St., Penning P. O., Washington, D. C.

When a medicine has been successful in restoring to health so many women, whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.
