"Some while ago, when ex-ploring that country, I learned a good bit about the ways of the various tribes. In a majority of them can-ribalism is indulged only, when the bodies are those of prisoners taken in battle. It is all right to eat persons who belong to hostile clans, but it would be a gross violation of tradition and the custom of the land to feast upon friends or even upon members of the same tribe. This delicacy of sentiment, however, is not universal, and in one tribe in particular, where noted the absence of any old per sons, I learned that it was the proper thing to add the aged inhabitents to the local food supply. This confixed the population to the young and hardy, for at the first signs of decrept tude the boiling pot was called into requisition,"-Washington Post.

Subtle Poison of Java.

The natives of Java have a natural poison to aid them in avenging them selves against their enemies. It is a strong fluid found in the bark of the npas tree The bark is over an inch thick and is very spongy. A drop of the fluid on the skin causes intense irritation. A private revenge is satisfied by biding a cup of this fluid in the room of the enemy and then the avenger flees, for well he knows that by morning his, victim will have crossed the high divide. SENSATIONAL YARNS AND THE OBJECT OF THEM ONLY DISCREDIT AUTHORS.

. The Canal Work.

President Roosevelt transmitted to the isthmian canal commission and the Panama Railroad Co. with a scorching letter in which he raps sensation mongers and gives the highest praise

to the work so far accomplished.
"The work on the isthmus is being admirably done," he says, "and greaprogress has been made especially dur ing the last nine months. The plant is being made ready and the organization perfected. The first work to be done was the work of sanitation, the necessary preliminary to the work of actual construction, and this has been pushed forward with the utmost-en ergy and means. In a short while I shall lay before you the recommendations of the commission and of the board of consulting engineers as to the proper plan-to be adopted for the canal itself together with my own

recommendations thereon.

All the work so far has been done not only with the utmost expedition but In the most careful and thorough manner, and what has been accom-plished gives us good reason to be-lieve that the canal will be dug in a ed, and at an expenditure within the estimated amount.

"All our citizens have a right to con-gratulate themselves upon the high standard of efficiency and integrity which has been hitherto maintained by the representatives of the government in doing this great work. If this high standard of efficiency and integrity can be maintained in the future at the same level which it has now reached, the construction of the Panama canal will be one of the feats to which the people of this republic will look back. with the highest pride.

From time to time various publica-tions have been made, and from time to time in the future various similar publications doubtless will be made, purporting to give an account of Job bery or immorality, or inefficiency or misers, as obtaining on the falmus I have carefully examined fete each of these accusations which seems worthy of attention, in every materics the accusations have proved to he without foundation in any snape or form. They spring from governi sources -- Cometimes they take the investigators of a sensational habit of mind, incapable of observing or repeating with accuracy what they are and ing with accuracy what they are degirous of obtaining noteslety widospiead slander More often they originate with, or are given currency by, initialization with a personal grib t ance

The sensation mongers, both those who stay at home and those who visit the Isthmus, may ground their accusa-tions on fulse statoments by some engineer who, having applied for service on the commission and been is fused such service, now endeavous to discredit his successful competitors, or he some lessee or owner of real action by the commission to increase the value of his lots and is bitter be cause the commission cannot be used for such purposes, or tales of distip clery in the days who went into so ufficeholders who have proved incom belent or who have been suspected of corruption and dismissed, or who have been overcome by panic and have fled from the isthmus

The only discredit innering in these false accusations is to those who originate and give them currency, and who to the extent of their abilities thereby hamper and obstruct the completion of the great wor't in which both the honor and interest of Amer ica are so deeply involved
"Any attempt to cut down the sal

aries of the officials of the isthmian canal commission or of their subor-dinates, who are doing important work, would be ruinous from the standpoint of accomplishing the work effectively. To quote the words of one of the best observers on the isthmus; Demoralization of the service is tain if the reward for successful endeavor is a reduction of pay

WAY PIPE SHOULD BE LIGHTED.

Subject of Vastly More Importance Than Appears.

There has been a little newspaper discussion recently on the subject of "How to Light a Pipe." This may seem to the feminine mind, a trivial matter and quite beneath the notice of any

How wrong! For a pipe ill-lit is a pipe ill-smoked, and a pipe ill-smoked is a man made testy, and a man made testy is a man looking out for trouble, and a man looking out for trouble is a man finding trouble, and a man find ing trouble is a woman in tears, and a woman in tears is the last word in his man dreariness Never let us be ashamed-to inquire, then, how a pipe may be lit with the utmost satisfac tion to the smoker

One paper, I see, recommends spills, That is good, but the spills, of course, must be wooden ones

'Another paper retorts that spills are of no sort of use to the man in the train. This is the kind of frightfully true thing that causes a hush in the noisiest assembly. What then, should the man in the train do?

JI will tell him. He should carry a box of wooden matches and he should use exactly two matches to light his pipe The first one will dry the tobacco on the surface, and the second one will produce the vivid, even glow beloved of smokers.

The man, by the way, who lights his pipe with a wax match is a bad man right from the start. Never trust him, dear friend -Sketch.

Freak of Lightning Bolt = A lightning boilt struck the home of Kellar Creagen, at Ringgold, Md., running around his straw hat to above his left ear, then down the side of his neck to his body, tearing the shirt collar, then down his right leg, tearing the shoe in half and splitting the great toe. His skin was scorched, but his hair was not even singed.

An Inspired Sermon.

"Your sermon this morning on 'The Poor We) Have = Always With Us, seemed positively inspired," repemed marked the parishloner, "and I didn't notice that you used any notes. Was it really extemporaneous?" "Yes; the idea came to me after I saw how small the collection was," replied the pastor.-Philadelphia Press

Dead Reckoning.

Dead reckoning is a term used in pavigation to express the estimation that is made of a ship's place without having recourse to observation of the criestial bodies. It is made by observ ing the way she makes by the log and the course on which she has been steered, making allowance for drift, leeway, etc.

The Jasper.

Jasper is quartz, colored by oxides of fron and other infinerals. It is found in every color, from pure white to dead black. Chalcedony is the name given to the semi-transparent varieties. The best jasper is mined in Egypt and in the Bral range, where it is found in large blocks.

Cocaine in Calcutta.

The cocaine habit is increasing to an alarming rate at Calcutta, in spite of the endeavor to suppress it. Two tins of the drug were recently found in a package imported from England, the contents of which were declared to be 'printed music' The importer was fined \$250.

Peculiarity of Mistleton.

An interesting item regarding the mistletoe is that it is the only plant shose roots refuse to shoot in the ground—a peculiarity possessed by no other parasite. It is found on the fir, the lime, and the apple tree as well as on the oak.

Does This Fool the Baby?

The wife of one of our gentlemen friends makes him wear tucks in his night gown, trimmed with pink ribbon, so that the baby won't know the difference when he walks the floor with it at night.-Cavaller (N. D.) Republican.

Good Mucitage.

The best quality of mucilage is made by dissolving clear glue in equal volumes of water and strong vinegar and adding one-fourth of an equal volume of alcohol, and a small quantity of a solution of alum in water.

Floor of Ebony. The Czar's palace at Tsarskoe Selo, near St. Petersburg, stands in grounds eighteen miles in circumference. Inside the palace there is a room known as the lapis-lazull, the floor of which is ebony inlaid with mother-of-pearl

War on Wild Hogs, The ranchers of Shasta, Siskiyou and Modoc counties, California, have begun a war of extermination on wild hogs, which are dangerously numerous and raid the pens of the domestic swine and kill them.

Marriage in Europe. Dr. Prinzing of Berlin denies that the number of bachelors and old maids is increasing in Europe generally. He says that marriage is decreasing only in Sweden, France and Ireland.

Light Election Expenses. Two cents constituted the election expenses incurred by Mr. Tugor James, Independent candidate for the West ward, Scarborough, England, at .2,143 50 a recent municipal contest.

Amone there that has never had it can't imagine, now annoying it is I tall you when a person had it like I had they will. person had it like I had they will, know they have something? It itched and pestered me till I was almost ditten crayt. I could not get any rest at might. I jumped out of bed and poured cold water on the effected parts, but only to make it worse afterwards. I doctored and tiled every it. wards. I doctored and tried every kind of medicine I could hear of. Fin-ally a friend of ours from Canada told me about Doan's Ontment. The very first application gave me relief. It was so soothing and gooling. The first box del so much good that I continued the treatment until I had used four boxes, when a complete cure was the result. I don't think I will ever have accepts again as Topp will ever have eczema again as Iong as Doan's Ointment is made"
