NEVER THOUGHT OF IT:

The Wayne county primary election law which is in force unless two thirds of the township board shall vote otherwise, takes place on March 5 and the filing of petitions by candidates must be done 25 days previous to that date-so the law says. Yesterday being the last date for that purpose and no one thinking anything about it, and no one filing petitions, it will now be up to the township board to abolish that useless piece of red tape part of the primary law so far as it relates to township officers The law seeks also to apply to village officers and it will be up to the village council to knock it one, too.

I have no definite assurances from the state board of assessors as to what their figures will be when the review closes Feb. 15- but I have not been falled, and I believe we will be able to show the assessors that the same ratio as last year between general property and the road property should obtain. That wil mean the same amount of revenue to the state. If the valuation of all general property is to stand at \$1,875,000,000, the railroad valuations ought to aggregate over \$20,000,000 more than they do now ! believe the state board of assessors will see it that way.

The railroad valuation as found by

Toil.

If you want knowledge you mustoll for it; if food, you must toil for it, and if pleasure, you must toil for it. Toil is the law. Pleasure comes through toil, and not by self-indulgence and indolence When one gets to love work, his life becomes a happy one.

delt flugers seize the opportunity to make a little money and the girls who I we meney are quite ready to pay for an original valentine And a college valentine must be

original above everything else Some-imes the girl with money sumplies the idea and the dest-fingered girl

mostly in the way of a grind and it is carried out by every conceivable device, by water colors, by sketches, by poems, by incongruous articles.

Of course there is the little freshman who-feels bound to send her sen-ior "crush," flowers and confection ary, but the true college valentine is a sharp dig. Woe to the girl who has obtrusive mannerisms, for she will be rapped right and left, although the jokes are never hateful. Cupid recerves some attention, but it is of the frivolous sort for he is jeered and sneered at.

Contrary to popular opinion, college girls give and take "knocks" as good-naturedly as do college boys, and the lazy girl who receives a bunch of firecrackers on St. Valentine's day laughs heartily at the joke. The girl with a big ambition to ioin

A clever valentine sent one year to a young woman who was extremely popular with the men was a rircle of nearts with the face of one of her men friends peering out of each. In the center was a pen and ink sketch herself and beneath the words, 'All men look alike to me."

Often copies of Gibson, Underwood and Christy are sent and a little dumpling of a girl once received a

yard of Fanny Cory's children.
The licorice buttons, which the children buy in a penny candy store, will be sent in large bunches to the maidens who never have time to sew on a ens who never have time to sow on a button. Where friends walked separate ways,
The heart owns what the lop denes,
Held close by Pride's stern fingers
And softly sings: True love re'er

Its answering echo hongers.

And so at last, for Old Time's sake
The one wrote words full tender
Despite a vow she once did make
Since rone would know the sender,

Were fairly mingled in each line
By one whose name she misses.

An engaged girl once made the mistake of bidding her fiance good night on a part of the plazza which was so lighted as to throw their shadows clearly on the snow. On Feb. 14, to heramazement, she received representations of that good night in silhouettes, water color and pen and ink drawings, all so well done that the participants could not be mistaken.

Valentines Always Welcomed by the Little Ones.
If you know any children, send them

valentines—as quaint ones, brimming the garden spot of the country, is over with nonserse and fun, as you can find.' And send to every child you know-there never was a youngster yet who didn't look forward to getting them, and be bitterly disappointed if they failed to materialize. And, then, at school there's a hubbub of 'How mary did you get?"

Since lovers decided to share the day with children do your share for the wee ones, at least.

One girl hit apon a clever way of having partners chosen by making her own dance cards, which had the pen-cils tied to them, each two with a different color. She had gone to a great deal of trouble to find out what each girl was going to wear and had the ribbons to match the dresses in as many cases as possible

The men she made choose a color and then sent them off to find the girls their riobous matched. On the front of the cards were sketched, in pen and ink, two hearts, with an arrow unrough them, pinning them to gether, and verses.

That on the girls' cards was: 'Mong the merry lads assembled here There's one whose ribbon matches There's one whose ribbon mathine; Cupid will bring him to thee, dear, To be this eve thy valentine. On those for the men:

Mong the merry maids assembled here There's one whose ribbon matches thine:
Go seek her out, and she shall be,
For all this eve, thy valentine.

#### WESTERN CANADA'S MARVELUUS CROP RETURNS

The increase in the crop returns of the Canadian West, in the past seven years has approached the marvelous and there is no reason to-nelleve that a corresponding increase will not resuit for many years to come. The-increase has been particularly noticeable in what was formerly known as the Northwest Territories; but which, on September 1st, 1905, became the provinces of Alberta and Saskatchewan. From the official returns we find the following results in the acreage sown to wheat, cats and barley, in the years mentioned, and a more favorable showing cannot be pointed to in any other country during a like

Oats. TOACT Barley 105,077 . 307,580 17,092 1899 .....363,523 134,938 14,276 1900 .....412,864 175,439 17.044 229,439 1901 24,702 1902 .....625.758 310,367 36.445 \_440,662 -523,634 1904 . 965,549 98,154

The yie'd has been uniformly good every year except 1900, when there appears to have been a siump all along the line. This, however, was more than compensated for in the following year, when the tumber crop in wheat cats and parley put the returns of all previous years completely in the shade and save an impetus to settlement in the west which has prevailed to the present, as the following table by bashels will show: =

Wheat = Oats. 1898 .. 5,542,478 3,040,307 Barley 449,512 1899 . 6 915 623 4,686,036 1900 . 4,628 294 4,226,152 \*337521 353,216 ..12 808,447 7 11 110,066 795,100 1902. 13 956 850 10.061.295 970.417 1904 . 16,875 537 16,332,551 2 205,424

It will be seen that the number of acres somn to wheat, oats and harley in 1598 was 429,749, and that this had increased in 1904 to 1587 007. The total crop in the cereals meanoned was 9,933 297 buscels in 1843 and in 1904 it and grown to the magnificent total of 35 413,522 in the year just closed the 'fo para movement' in the agriculture of the work has been the words; and easy of the world New creature of de council have been placed under tribute to the plow and herrow, and the grain area has been largely in record. It is particularly the case where it has been demonstrated that 'Alberta Rea' winter wheat that be successfully grown, and allow the ares of the new rollways towards the centre of the coup-

The Pontiac Gazette gives the following account of the visit of the Elka of that city to their brethren of this place last Friday evening, as mentioned in the Record of that date:

"The local Elka who went to Northrille to witness the bowling game between Pontiac and Northville team were hever more royally entertained Although the visitors were beater in the contest, the Northville Eike endeavored to soothe their wounded leelings by giving one of the finest banquets they ever enjoyed. Dr Henry, that popular and witty Northville physician, acted as toast master and was at his best For two hours the guests numbering about 100, heard responses to toasts. hoth serious and funny and many songs were sung. It was a truly brillant banquet and the local Eike congratulated their Northville broth

#### CHAPTER XI.

The Letters Change Hands Again. What seemed at the moment an incomprehensials puzzle had, as we afterwards learned, a very simple explanation. One of the G. S. directors, Mr. Baldwin, who had come in on Mr Camp's car, was the owner

of a great cattle-ranch near # Rock | Butte. When the train had been held at the station for a few minutes Camp went to the conductor, demanded the cause for the delay, and was shown my te'egram. Seeing through the device; the party had at once gone to this ranch, where the owner, Raldwir, mounted them, and it was their dust-cloud we had seen as they rode up to Ash Forks. To make mat ters more serious, Baldwin had rounded up his cowboys and brought them along with him, in order to make any resistance impossible.

I made no objection to the sheriff serving the paper, though it nearly broke my heart to see Madge's face To cheer her I said, suggestively, They've got me, but they haven't got the letters, Miss Cullen. And remember, it's always darkest before the dawn, and the stars in their courses are against Sisera"

Have Died But for Cuticura."

"My little sen, when about a year and a half old, began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others Then I called another phisician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad t had to tie his hands in cloths at night to keep him from scratching the sores'and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My aunt advised me to try Cuticura Soap and Ointment. I sent to the drug store and got a cake of the Soap and a box of the Ointment, and at the end of about two months the scres were all well He has never had any sores of any kind since He is now strong and healths. and I can sincerely say that only for your most wongerful remedies my aricious child would have died from those terrole sores. also a guest Turning abruptly to the host, the latter remarked: By the way, doctor, I attended your evening service last Sunday, and I liked it, only when your contributionbox was passed, I put in what I thought was a one and found out

later that I had put in a ten."

The doctor looked at him with his expressive face full of anyous sympathy. "Meant to put in only one dollar and put in ten by mistake, dld you?" he asked, and as Ingersol! nodded he continued: "Too bad, too bad! God will give you credit for only one dollar, Colonel"-The Sunday Maga-

## Grape-Nuts

### 331 people will earn these prizes

Around the fireside or about the ness that the noon hour will find a well lighted family reading table dur near on our breakfast huskler and ing the winter evenings the children with a stronger heart best and clearer and grown ups can play with their working biain than he ever had on wits and see how many words can be the old shet. made

20 people making the greatest numfrom the duling room to the parlor, ber of words will each receive a little hand to each one a little lace edged box containing a \$10.00 gold piece

there are guests and a gilded Cupid's to the questions all begin with the person who makes the highest number of words over all contestants will receive a box containing \$100 v0 in gold. it is really a most fascinating bit of fun to take up the list evening after evening and see how many words can

A few rules are necessary for absolute fair play

Any word authorized by Webster s dictionary will be, counted but ro name of person. Both the singular and plural can be used, as for instance "grange" and "grange".

"grape" and 'graves."

The letters in "Y-I-O-Grape-Nuts"
may be repeated in the same word Geographical names authorized by Webster will be counted.

Arrange the words in a phabetical classes, all those beginning with A together and those beginning with E to come uiider E. etc When you are writing down the words leave some spaces, in the A. E and other columns, to fill in later as new words come to you, for they will spring into mind every evening.

It is almost certain that some con-restants will be with orders. In such cases a price identical in value and character with that offered in that character with that offered in that class shall be awarded to each. Each one will be requested to send with the listrof words a plainly written letter describing the advantages of Grare-Nuts, but the concestant is not required to purchase a pkg. These letters are not to contain neetry or fancy flourishes, but simple, truthful statements of fact. For illustrations A person may have experienced some person may have experienced some incipient or chronic alls traceable to unwise selection of food that failed to give the body and brain the energy, health and power desired. Seeking better conditions, a change in Tood is made and Grape-Nuts and cream used in place of the former diet. Suppose one quits the meat, fried potatoes, starchy, sticky messes of half-cooked oats or wheat and cuts out the coffee. Try, say, for breakfast a bit of fruit, a of money prizes. There are no preliminaries, soft-boiled eggs, a slice of hard toast and a cup of Postum Food Coffee. Some amateur says: "A man\_would faint away on that," but, my dear friend, we will put dollars to your pen-

Suppose, if you have never really made a move for absolutely clean health that pushes you along each day with a spring in your step and a re-serve vigor in muscle and bra'n that males the doing of things a pleasura, you poin the army of "plain old com-mon sense" and start in now. Then after you have been 2 or 3 weeks on the Grape-Nuts training you write a statement of how you used to be and how you are now. The simple facts will interest others and surprise your-self We never publish names except on permission, but we often tell the self facts in the newspapers and when requested give the names by private It tter.

"There is plenty of time to get per-sonal experience with Grape-Nuts and white a sensible, truthful letter to be selt in with the list of words, as the contest does not close until April 30th, 1996. So start in as soon as you like 1970. So start in his soon as you have to building words, and estart in using Gripe-Nuts. Cut this statement out not keep the letters V-I O-Grape-Nuts before you and when you write your letter you will have some reason to write on the subject, "Why I Owe Grape-Nuts."

Remember, 331 persons will win prizes, which will be awarded in an exact and just manner as soon as the list can be counted after April 20th, 1906 Every contestant will be sent a printed list of names and addresses of winners on application, in order to have proof that the prizes are sent as agreed. The company is well known all over the world for absolute fidelity to its agreements and every single one of the 331 winners may depend on re-ceiving the prize won

Many persons might feel it useless to contest, but when one remembers the great number of prizes—(321)—the curnosity of seeing how many words can really be made up evening after evening and the good, natural fun and education in the competition. fun and education in the competition. it seems worth the trial; there is no cost, nothing to lose and a fine opportunity to win one of the many boxes of gold or greenbacks.

We make the prediction that some who win a prize of gold or greenbacks will also win back health and strength worth more to them than a wagon full of money prizes.

There are no preliminaries, cut out this statement and go at it, and send in the fat and letter before April 30th, 1906, to Postum Cereal Co, Ltd., Bat-
