THREE DEATHS THIS WEEK.

Death of Calvin Stevens.

Calvin Stevens, a well known farmer of this vicinity died Sunday morning of pneumonia after a short illness at his home at Mead's Mills.

He was about forty-five years old and leaves a widow and four children.

The funeral was held Tuesday, with burial at Plymouth.

Hiram Holmes.

Hiram, the second son of Mr. and Mrs. Ed. Holmes of Novi, died very suddenly of brain trouble Sunday at the home of his sister in that village, not being able to reach his parents' home after he felt the illness coming on.

The fatal attack is supposed to have been the result of an injury to his head a few years ago.

He was about seventeen years of age and was boy of most exemplary character, highly spoken of by all who knew him.

The funeral was held from the Methodist church Tuesday afternoon, his pastor, Mr. Stevens, conducting the services. The attendance was large, the teachers and pupils of the school attending in a body. The pall bearers were his young nieces, and a profusion of flowers covered the casket, among them a beautiful wreath from the school.

As was stated last week a payment of \$1.45 a week represents a loan to you made of \$500. This payment reaches maturity at the end of ten years and the little home is all your own. That is surely better than to pay \$1.50 to \$2.00 a week all your life, isn't it?

Dozens of Northville people who are paying, or have paid, for their homes in this manner think so anyhow.

For instance John Perkins has for years been paying \$1.50 a week rent. Three years ago he borrowed \$300 in the Loan association and instead of paying some one else rent he is paying \$1.00 a week into the Loan and in seven years more he has his home all paid for and it is his.

Roy Clark was paying \$1.75 a week rent before he bought the pretty little home corner Grace and Lake streets. Instead of that he now pays \$1.75 a week in the Loan and in just a few years more it is all paid for and for a less price per week than he was paying out in weekly rents.

Anytime interested in the matter or caring to own a home in preference to paying rent can learn full particulars and also secure the names of many more Northville people who are paying in the home while paying rent. Apply to the Secretary E. L. Van Allen.

Easter and the Rabbit.

So many who know the significance of the egg in connection with Easter do not understand the wherefore of the rabbit as prominent therewith, that a brief explanation may be interesting to many Record readers.

A German legend is responsible. In the long, long ago, Ostara, the goddess of spring, was so long delayed from coming to waken the frozen world that its denizens began to perish from hunger and cold. When at last she knew she might soon be permitted to come, she grieved that her earth-friends might not be encouraged and saved by the news, but knew not how to send the joyful word. A hare, sharpest of ear and fleetest of foot heard, and instantly sped away to tell the good tidings. The welcome and honor that met Ostara (Ostern, Easter) so pleased her that she appointed the hare to be ever afterward the herald of her approach to drive away the rigors and privations of winter.

Baptist Church Notes.

[By the Pastor]

Miss Baldwin of Fowlerville will assist in the singing at the Sunday morning services.

The King's Daughters very kindly contributed a beautiful potted plant for the Easter decorations. The sermon in the morning will be on "Lessons from the Earthquake." There will be no service in the evening.

The pastor and Elder Henry A. White represented the church at the meeting of Presbytery in Detroit on Friday.

The Easter services were very largely attended. The mass was especially fine, and the floral decorations appropriate and tasteful.

A good induction was made to our members on Sunday, their being received on confession of their faith and by letter from other churches.

Two infants were baptized, one of them being a great grandchild of the oldest member of our church.

Methodist Church Notes.

[By the Pastor]

Miss Grace Baldwin of Fowlerville has very kindly consented to sing in the church on Sunday evening. You will be greatly pleased to hear her.

The Ladies' Aid will hold a bazaar in Mr. Whipple's store on Saturday, the 28th. The baking will be first class. Remember the date and place.

On Sunday evening the W. C. T. U. will hold a union service in the church. Splendid speakers are promised from Detroit and Wyandotte. The church should be filled.

The beautiful plant in bloom given the church by the King's Daughters last Sunday was much appreciated by the church members. It was a very kind and thoughtful act although quite unexpected.

A class in the Sunday school called the "Helpers" will conduct a social evening in the church parlor on Wednesday evening, April 26th from 5:30. New maple syrup with fritters will be served. Price 10 cents. Everyone welcome. We hope for a large attendance.

Miss Henrietta Bancroft, National Secretary of Deaconess work, who has just returned from Porto Rico, will give an address on Sunday morning. If you would like to hear a very talented and interesting address, don't fail to hear Miss Bancroft. She will speak in the interest of the W. H. M. S. The society is to be congratulated in securing a speaker of so marked ability. Everyone should hear her.

Card of Thanks.

We wish to thank the many friends and neighbors who so kindly assisted us during the sickness and death of our husband and father.

Rural Hill Cemetery Entrance Drive
to Be Improved

Burnell Hill cemetery in Northville
has been made by nature one of the
prettiest burying spots in the state,
and the inside of the cemetery is
creditably kept up by the association.
However the entrance drive
has been allowed to go to rack and
ruin and is in simply a deplorable
state. Both sides of the drive has
been given up to weeds and rubbish
and the fence have been allowed to
tumble down. The bridge also is in
need of repairs and paint.

The entrance to my cemetery
should be the most beautiful part of
it, and the association informs the
Record they intend to this spring to
see that some changes for the better
along this line are made and we are
sure the people of this town will
appreciate it.

Nominations by Parties.

Further experience with primary
elections more and more proves the
wisdom of the requirement that
voters who desire to take part in the
making of party nominations shall
be members of the party they thus
assist in controlling. Primary

elections without this requirement
can be utilized to defeat all the better
purposes which those who have
most favored them had in mind.

Added experience with the new nomi-

nating method will probably sug-

gest a number of changes and im-

provements, but it is not at all
probable that any changes will be
permitted through which the power
to make party nominations will not
be reserved to the members of the
party the nominees are selected to
represent.

The Railroad Tax Cases.

It required several years of constant
and consistent activity on the part
of Michigan's state officers to win
the great victory in the railroad tax
case which was announced from
Washington a few weeks ago. Time
and again there has been criticism
of the ways and means employed
and of the costs incurred—but from
governor and attorney general to
the least important official connected
with the case there has been the
degree of loyalty manifested and the
character of work performed which
gave good reason to expect the
victory before it was officially an-

Union services will be held next Sunday evening in the Methodist church and Mrs. M. L. Butler of Detroit and Mrs. J. Harrington of Wyandotte will take part in the meeting.

It is hoped that all season ticket holders will have their seats reserved for the last number on the Library Entertainment course next Thursday night. Five cents is a very small sum for each person, but the aggregate amount is a great help to the library, as the entire local expenses of all the entertainers have had to be paid by the library association.

The Record's court reporter was sent to interview Attorney C. C. Yerkes in regard to a very important suit the latter expects to have on next week in connection with a deal in bonds, but found the gentleman extremely reticent. In fact he stated that he had been advised by his counsel not to talk for publication. The assignment will be given to another reporter next week.

The Presbyterian ladies' Easter fair and entertainment Tuesday was very successful. The evening program was really a fifty-cent entertainment for a fifth of that sum. The music, both vocal and instrumental was especially fine, the dramatic talent excellent and the whole entertainment delightful as attested by the numerous and hearty encores.

Northville people will be glad to know that a male quartette has again been organized here. The following are its members: First tenor, Ray VanValkenburg; second tenor, Arthur Grant; first bass, Roy Clark; second bass, Forrest Ball. That certainly looks like a fine combination. The boys will sing at the union services in the Methodist church Sunday evening.

CHAPTER IV.

When Valdemere had left the room I closed my eyes and tried to sleep, but could not shut them from my mind the many emotions which had been called forth by my strange surroundings, and my still stranger host.

My imagination at once began to people the old quiet house with all manner of beings, over whom I fancied Valdemere held some powerful influence. I could hear the wind moaning through the pines in the yard and the ancient windows rattled in their casements, but there was not a sound within, not a footfall, not a mere voice ringing out from the rear of the house to indicate that a domes tic was preparing dinner. The silence was so intense, so prolonged and oppressive, that I longed for the return of Valdemere or even the arrival of the old housekeeper who used to look so like a devil.

At last Valdemere came and announced dinner.

"You will pardon the conduct of this house," he said apologetically, "for I suppose you have noted the entire absence of house servants. We have only two persons who act in the capacity of domestics and these are really upon—our maid is a servant to the master who acts as our housekeeper from a sense of duty."

"Ah, the old woman?"

Yes, Sista, he spoke.

Then he led me up the room out into a long dark hall, far built beyond a lamp.

At the end of the hall we came to a door, which Valdemere opened, leading us into a spacious room furnished in the manner of a dining room. The table was set and the chairs were arranged for him.

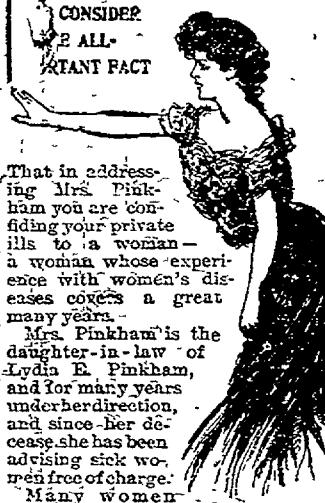

A woman was seated at the head of the table, and there was no one else in the room.

"I am your mother," said she, "and there is no one else in the room."

"I am your mother," said she again.

Fire at Fife Lake.

The entire west half of the village of Fife Lake was destroyed by fire this morning. Fourteen buildings, including the Fife Lake house and barn, were destroyed. It is thought the fire originated in the rear of Gregor's saloon. The buildings burned and the losses are as follows: William Gregor, saloon, \$4,000; insurance \$3,100; Fife Lake house and barn, William Gray, \$3,000; Fred Beckstine, grocery, \$4,000; insurance \$1,500; supply house, P. P. Petersen, \$1,000; blacksmith shop, P. P. Petersen, \$1,500; insurance \$1,000; empty building, owned by Gibson sisters, \$200; Grange hall, \$1,000; insurance \$800; barber shop, Angus Campbell, \$500; insurance \$200; grocery and meat market, Joseph Clark, \$1,500; no insurance; potato warehouse, L. Stark, Grand Rapids, \$1,000; no insurance; 2,500 bushels potatoes in the warehouse, L. S. Judkins, household goods, \$1,000; insurance \$300. Judkins' family had a narrow escape and saved nothing.

Guests in the hotel escaped barely in time. Fred Ziegler, of Kinkaid, left his clothes behind, losing \$35 in cash also.

A bucket brigade is the village's only fire protection. A strong wind was blowing and buildings on both sides of the street were wiped out.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

MARRIED PEOPLE LIVE LONG

State of Matrimony Conducive to Good Old Age.

Marriage is an institution highly conducive to the health of both husband and wife, says American Medical Statistics prove that among married men under 25 years of age and women over 40 the mortality rate is 10 per cent lower than those who remain single. Among the widowed men the mortality is exceptionally high.

In Convict Dan E. Hampton, who made sensational charges against Warden Russell in August, turned out to have been allied with the Wardens. He was arrested in the instance of Warden Russell on a charge of killing his wife, and was able to put up a cash bond.

The Warden wrote today, alleging that he charged him with helping him. Warden Winkfield was doing a lot of prison visiting. Dan E. Hampton had the most quickly investigated, but Warden Russell, of course, is the story of fabrication. It is said that Warden Russell was not even a captain of the government's prison, but that there could be no accusation of malfeasance in office.

Chicago, Ill.—The Chicago & North Western Railroad construction to the Reservation border is being pushed rapidly, and will probably be completed within a few weeks.

Blind People as Gas Consumers. When it comes to consuming gas in large quantities blind people take the lead," said an inspector of the gas company. "I know two families where both husband and wife are blind. Every jet is turned on full tilt in their homes at night, and is kept going at that rate clear up to 12 o'clock. And that partiality for light is not a whim peculiar to those two couples. All blind people feel that way. They demand the light and in all private homes and institutions where the blind are cared for the gas bulb's vouch for this strange fancy." New York Sun.

Solemnity a Medical Asset. The days are past when every self-respecting doctor was expected to dress in a style tastefully blending the divine with the undertaker. But a "sustained and impenetrable solemnity" is still a priceless possession for those who would achieve success in medicine. If this is a natural gift, so much the better if not it should be acquired at any cost.—British Medical Journal.

His Original Idea. Orrin Case of Winsted Conn., who is estimated to be worth \$100,000, was asked what he intends to do with his money when he comes to die. "Take it with me" he replied, "so if I don't like the place, I can buy my way back."

Increase of Crime. In the report of the penal institutions of the state, it is shown that in five years the number of prisoners confined in all the prisons of the state has increased 211. In the penitentiary at Jackson there were in December, 681 prisoners, in Ionia, 319, in Marquette, 293; in Ionia asylum for criminal insane, 318, and in the Detroit house of correction, 488. Of this latter number, 427 are men and 61 women. The cost of supplying food and clothing to the prisoners in all these institutions is very small. In Jackson it is 9½ cents; in Marquette 10½, in Ionia asylum 10½, and in the Detroit house of correction 13½ cents per day.

Must Pay the Whole.

Attorney General Bradley has returned to the Wisconsin Central railroad a check for the payment of its delinquent taxes and penalty which the company had assumed to figure at 5 per cent instead of 1 per cent a month, as the tax law provides. Accompanying the check, which was returned, was a statement by the auditor general that he could not accept any amount less than the full amount of the taxes, with interest at the rate provided in the law. The checks of other railroad companies for the payment of taxes, without the penalty, have been held up by the auditor general, and will not be accepted until account is by the full amount of the penalty.

Fred E. Walker. Fred E. Walker, of Pontiac, has been made manager of the Jackson prison farm. Mr. Walker was fully recovered from the insanity induced by his confinement in a miserable cell in Pana-

nia. The house where she had lived 63 years, Mrs. Betty Kniss, aged 95, died on the 9th. She was born in Columbian county, G. February 31, 1811, and was one of a family of nine daughters and three sons who came by a team to a farm two miles south of Schoolcraft, where she has since resided. She was able to be about the house up to the time of her death.

James McVay. James McVay, of Mason, hung himself in his bay. He was a prosperous farmer, aged 40, and unmarried. It is believed he was demented.

The Menominee Sugar Co. is sending 100,000 pounds of beet seeds for the coming campaign, to be distributed to farmers. Last year 6,000 acres in Michigan were contracted for. The sugar output was 13,000,000 pounds.

Long Irish Mines.

Irish mines are longer than American miles. In fact, eleven of them

make four-tenths of such as are measured in this country. American miners dig furthest out this out, and if they are disposed to complain of the character of Irish roads they learn that the Irish think it unreasonable of the stranger to expect both quality and quantity. To our great surprise the answer we find is that the quality is inferior to the size of it, and the larger the mine the smaller is the quality of it, and the smaller the size of it the larger is the quality.

For Thin, Poor Blood

You can trust a medicine tested 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the doctors endorse for thin blood, weak nerves, general debility.

But even this grand old med'cine cannot do the best work for you if it is inactive and the liver can't take it. For the best possible results, you should take laxative doses of Ayer's P. & C. while taking the Sarsaparilla.

Catrich Cannot Be Cured

With the arrival of the new season, the weather has turned cool and cloudy, and the days are shorter and shorter. This is the time of year when the weather is most unpredictable. It is common for temperatures to fluctuate between 40° and 70°. The weather is often very changeable, with sudden drops in temperature and strong winds. The air is dry and dusty, which can be uncomfortable for those with respiratory issues. It is important to stay hydrated and avoid overexposure to the sun and wind.

Mystery of the Steamer.

When the steamer "W. Washington" was launched upon Lake Winona, it was a great novelty to the people, who came from miles around to get a view of it, says a writer in the Boston Herald. Among the many who went to see it land at Center Harbor, the northern end of the lake, was a Mr. Hooper, from Sandusky, N. H. He was greatly excited and when he saw it coming up the bay he looked at it earnestly for a minute, and then, turning to his nearest neighbor, exclaimed, "I gosh what's that thing run on—wheels or runners?"

If a Cow gave Butter

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

Scott's Emulsion

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.
