NORTHVILLE, MICH., FRIDAY, JUNE 15, 1906

\$1.00 Per Year in Advance

NORTHVILLE'S TURN FOR BIG STORM

HAIL, RAIN, THUNDER, WIND AND
LIGHTNING.

Made Destructive Combination Here
Last Friday.

One of the worst storms that ever visited Northville descended upon this village and vicinity late last Friday afternoon, and although no one was killed or injured—except financially—a whole lot of people were scared nearly to death.

Our village seems to be so situated in its nest among the hills that it has never yet suffered very severely from the wind storms that have done mischief in the vicinity from time to time, but with real storms it seems to be different.

Friday afternoon a very heavy storm cloud was noticed working around from the southwest to the south for some time and after a while another approached from the northwest. It looked as if both were going to pass around this place when all at once they began to change their direction and swiftly approach each other. When they came together somewhere southwest of here there were "dolts". The outfit seemed to tumble right down on top of Northville and it was loaded, too—with hail stones ranging from the ordinary size to anything up to five pounds—and in about three minutes the inability of Northville houses to stand a bombardment was thoroughly demonstrated. There were very few dwellings in town that escaped without broken windows on the southern side, and many had every window on that side smashed in, or perforated with holes as though bullets had struck them. The hail was mixed up with a perfect deluge of rain and a gale of wind, and these combined with terrific lightning, deafening thunder and almost complete darkness made it seem for a few moments as if Pandemonium had broken loose and it was no wonder that a good many people were frightened nearly out of their senses.

As windows cased in houses were of course flooded with water and shades, wall paper, carpets and other furnishings were soiled, while in some places lace curtains were

torn in shreds. The force of the heavenly missiles was so great that in some places they penetrated even the wire screens, punching them full of holes. Many people were obliged to take up their carpets which they had just put down while housecleaning.

By far the largest individual loss was suffered by J. M. Dixon of the Northville green-house, his hothouses being practically destroyed. His damage by the breaking of glass and destruction of plants will reach nearly \$1,000.

The Record has received specific reports of only a small part of the destruction wrought by the icy deluge, and could only mention a few instances in any event, as space would not permit.

Among the public buildings that suffered injury was the Methodist church, the large stained glass window in the organ loft being badly broken. A few of the handsome colored windows in the Baptist church were also broken, but not extensively. At the school house over fifty panes were broken. In the Ladies' Library over fifty of the small panes in the upper sashes were literally ground into bits. The books were not injured to any extent.

In the Lapham residence fifty-five panes were broken, in the Root house occupied by Mr. and Mrs. James Buff an equal number went to pieces, and in many other houses having small-paned windows the breakage was proportionately numerous.

Among the houses having large panes of glass, S. W. Knapp's, Fred Van Sickle's, E. B. Thompson's and several others suffered severely and hundreds more had from one to three or four windows shattered in all, the hardware men have supplied about 7,000 panes of glass as a result of the storm. The glass sellers were obliged to work all day Sunday and are still at it. Every one who could do such work was pressed into service and has been busy ever since.

Outside the village the path of the hail storm covered several miles in both directions and farmers' houses suffered as severely as those here and crops and gardens were devastated in both town and country, straw berries being badly hurt, corn and potatoes beaten into the ground and fruit and shade trees partially stripped of leaves and branches.

The hail-stones were immense, of course, but they could not have wrought such havoc. The smallest were of more than ordinary size and many people whose word cannot be

doubted report seeing them as large as medium-sized lemons. The average was from the size of a hickory nut to that of a black walnut and in a few seconds the ground was covered with them to a considerable depth.

The hail-stricken section seems to have covered a total area of about five miles square with Northville right in the middle.

Storm Notes.

Tin chimneys and tared paper roofs were perforated.

A fine cow belonging to Nelson Bogart was killed by lightning.

The hailstones were of very peculiar shape, being literally irregular, sharp-cornered chunks of ice.

One of a team of horses hitched in the street was knocked down by a big hailstone striking it on the head.

The horses in the Perkin livery were nearly frantic from fright at the noise made by the hail on the roof.

A cow that failed to get under shelter was found covered with lumps where the hailstones had struck her.

A man wearing a straw hat did not get in quick enough and the chapeau was chewed up beyond repair.

The "month of roses" is a cold one so far. A severe frost did considerable damage to small vegetation here Monday night.

Two Northville ladies were in Rural Hill cemetery and depended on their umbrellas for shelter. The umbrellas were torn to ribbons.

Two teachers in the Methodist Sunday school had a lively time with 25 or 30 children who were in the church to practice for children's day.

The edge of a piece of glass several inches in area from a window in B. A. Wheeler's house was driven with such force into a baseboard opposite that considerable effort was required to remove it.

NORTHVILLE SCHOOL.

Graduates Class of Twelve Next Week.

The annual commencement time is at hand and as usual everybody is interested in the young people who finish their work in the Northville schools.

The program begins with the baccalaureate sermon, which will be given next Sunday evening in the Baptist church by the pastor, Rev. Sydney F. Dimmock. The services will be united in by all the churches as is customary.

Wednesday evening at 7:30 o'clock, the graduating exercises will be held in the Methodist church, when the following twelve students will deliver their diplomas, which will be presented by President L. A. Babbitt of the school board:

Mark Risner, Forrest Lincoln Ball, Edna May Erwin, Hazel Kellogg, Furman, Mosh Harry Cohen, English course; Ethel Mae Neelands, Bert George Welfare, Besse Lu Seeley, Mabel Bert Stark, Charles Carroll Sessions, Jennie Cynthia Matson, scientific; Lora Blanche Bristol, Latin English. The music will be in charge of Miss Hall, the teacher of music in the school.

It has been decided to dispense with the separate class day which has been observed for some years past and to have the graduation program all on the one evening. The eighth grade exercises will also be omitted this year.

Auction Sale.

On Tuesday, June 19, at 1 o'clock p. m. John Colquhoun will have a sale of horses, cows, hogs, poultry, vehicles, tools, hay, grain, canned fruit etc., one mile east of town on the base line. L. L. Brooks, auctioneer.

Allen, the Stove Man.

Am located in Northville and am prepared to do all kinds of repairing: Stoves, lawn mowers, clothes wringers and sewing machines. Castings for All Stoves 10¢ per lb-in stove. Phone residence, 943.

G. P. ALLEN.

A LIGHT VOTE

CAST TUESDAY

ONLY 144 PEOPLE TURNED OUT FOR PRIMARIES.

Vote for Primary Nominations by Big Majority.

Tuesday's vote at the primaries was a small one, due to the fact there were no contests and that people were busy at the factories and on the phones.

Only 144 votes in all cast, of which 128 were republicans. Warner and Kelly each received 127 while of the 14 democratic ones cast Ferris took them all and Kinnerle had 3 for Lieutenant governor.

The vote as to primaries for future nominations carried by 104 "yes" to 6 "no".

For delegates to the county convention the republicans elected Dr. Henry F. S. Neal and W. J. Lawrence. The democrats elected C. A. Sessions, B. A. Northrop and for the third man there is a tie between Will Johnson, Tom Murdoch and L. A. Babbitt.

Suburban News.

Wayne and Plymouth are both talking of having a Fourth of July celebration.

A Wayne man who went to Millwood to visit friends last week met with a much warmer welcome than he anticipated. The house where he visited burned down.

All that keeps Orlon from gaining inhabitants by the hundred is lack of houses for the would-be citizens to live in. The opportunity and the enterprise don't seem to fit over there.

The Orlon Review suggests changing the name of that village to Lake Orlon, a very sensible thing to do since it is to the lake that the town owes its popularity as a summer resort.

The exception that proves the rule that names never fit the occupations of their owners is found in Linton last week when two women opened a restaurant there. The name of one of them was Cook.

Two Holly dealers tried to undersell each other on clothes plus last week, and finally one firm came out ahead by giving 'em away. Needless to say all the Holly housewives have a full supply along that line now.

Mr. and Mrs. Watchocket of Pontiac, so says the Gazette, became the parents of a new daughter last week. The young lady will undoubtedly change her name just as soon as she is old enough and gets a chance.

The Ann Arbor Courier-Register has registered its decision on the question "to be or not to be" in the negative and henceforth there will be no weekly paper of that name, the publishers putting their entire work on the Daily Times.

Plymouth people are talking of the necessity of installing a furnace in their village hall but the council does not seem to be very enthusiastic about it. The need does not seem nearly as pressing when the mercury is climbing for the nineties as it did last winter when zero was "high".

A fiery, fierce and fearful feud is on between the callow youths of Pontiac and Birmingham. It seems that some of the former have been getting themselves too numerous and frequently into the good graces of the girls of the latter town and so the other night a delegation of the young Pontiacers was met by a Birmingham ditto and forced at the point of the tongue to take the next car back to the county capital. They have sworn to get even and civil war may be the result.

THE WATER WAY BETWEEN DETROIT AND BUFFALO.

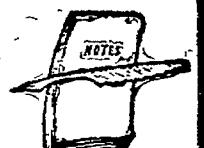

Daily Express Service via D. & B. Lake Line.

Particular and experienced travelers habitually use the D. & B. Line enroute between eastern and western states. Low rates and superior service attracts this class of travel.

You can save \$3 by purchasing your through tickets via the D. & B. Line. Send two cent stamp for illustrated pamphlet. Address, Detroit & Buffalo Steamboat Co., 4 Wayne St., Detroit.

Take a Note Book

and walk through your home and you'll be surprised at the number of little things that could be made to look better by a coat of paint.

THE SHERWIN-WILLIAMS FAMILY PAINT

is made particularly for the little things about the house. It's an oil paint and dries with a good gloss. It wears well. Can be scrubbed. Is easily applied. For the economical, tasteful house-wife, it is the proper paint. It helps to keep the house bright and cheerful. Color cards free.

Bottles.

Ancient bottles of glass, stone and

metal have been found in many parts

of Europe, Asia and Africa. Perfume

bottles of glass have been discovered

in great numbers in the tombs of

wealthy ladies of Egypt. Many bot-

tles, tumblers and other drinking ves-

sels have been dug from the ruins of

Pompeii. The most common bot-

tle of the ancients, however, was of leather,

the skin of a calf, goat or ox being

taken off the carcass with as few

cuts as possible and made into a re-

ceptacle for holding water or wine.

The largest glass bottle ever known

was made at Leith, in Scotland, in

1747-48. Its capacity was two hogs-

heads.—Chicago American.

WASHINGTON MATTERS

CONGRESS TO ADJOURN IN TWO WEEKS IF PRESENT PLAN CARRIES

HANG UP CANAL QUESTION.

LATEST REPORTS AND RUMORS FROM THE NATIONAL CAPITAL ABOUT CONGRESS AND ITS WORK.

THE STATUS OF THINGS.

The Republican steering committee of the senate met Wednesday and considered the question of an adjournment of congress as soon as possible after next week.

It was stated that every important matter before either branch practically is ready for conference except the sundry civil and general deficiency appropriation bills and the isthmian canal type bill. It is believed these can be disposed of so as to permit of an adjournment on the 27th or 28th.

The program contemplates a vote on the canal type bill in the senate, but no further action until the next session, as the senate and house are at odds. Senator Spooner, with seeming authority, stated that the appropriation for the canal, carried in the sundry civil bill, can be expended with equal advantage during the coming year to a lock canal or sea level canal. The vote in the senate, it is believed, will result in a decision in favor of a sea level canal.

In view of the practical certainty that no vote could be had on the Senate floor case at the present session Chairman Burrows has decided that he will not call up the case for consideration next session.

THE CUSTOMS RECEIPTS.

Receipts from customs during the present fiscal year will not exceed those of any previous year in the history of the government.

On Wednesday with 15 days of the fiscal year remaining, the average aggregate \$285,51,124 heard a million dollars in excess of any one day last year and the prospect is that by June 30 the excess over apprehended will approximate \$25,000,000 at least three-fourths of this by April \$40,000,000.

Receipts from internal revenue during the year also expected to be nearly \$250,000,000 or \$17,000,000 less than in last year.

PEOPLE'S WILL

SENATOR COCHRAN ASKS THAT HIS OPPONENT BE ELECTED.

Senator John M. Cochran of Indiana, who was appointed by the Senate to fill the seat of John H. Mitchell, died Saturday morning at his home in Indianapolis, Indiana. He had been a member of the Indiana Republican delegation to the 1905 national convention in Chicago, and had been a member of the legislative committee which organized the division of the party in 1904.

Mr. Cochran had been in the capital visiting his wife and son, who were staying with him, and had been ill for some time.

SEVEN YEARS AGO

A Rochester Chemist Found a Singularly Effective Medicine.

William A. Franklin, of the Franklin & Palmer Chemical Co., Rochester, N. Y., writes:

"Seven years ago I was suffering very much through the failure of the kidneys to eliminate the uric acid from my system. My back was very lame and ached if I overexerted myself in the least degree. At times I was weighed down with a feeling of languor and depression and suffered continually from annoying irregularities of the kidney secretions. I procured a box of Dr. Dean's Kidney Pills and began using them. I found prompt relief from the aching and lameness in my back, and by the time I had taken three boxes I was cured of all irregularities."

Sold by all dealers: 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

THE CADDY'S COMMENT.

ONE THAT WAS NOT VERY COMPLIMENTARY TO A PROFESSIONAL PLAYER.

Walter J. Travis, the golfer, set up his ball, and then made half a dozen switches at the short grass with the driver, relates the New York Tribune. "I am not in good form," he said, "I am playing like a broker we had here last week."

"This player played once around, making a dreadful exhibition of himself. Of this, though, he was not aware. He was doing pretty well for him."

"The man's caddy was an unusually quiet, stolid lad, a boy with a freckled face quite devoid of expression."

"And since the caddy never once laughed or sneered at his bad play, the broker took a fancy to him. And he said at the end of the round in the hope of getting a compliment:

"I have been traveling for the last six months. I am quite out of practice. That is why I am in such bad form to-day."

"The caddy replied calmly:

"Then you've played before, have ye, sir?"

DIETARY DICTA

Dinner should be of a lighter nature in summer than in winter.

A pint of wheat contains more nutrition than a pint of cucumbers.

There is a happy mean in eating everything, but it is square.

Two pounds of potato contains twice as much protein as a pound of turnips.

Two cups of light dessert and light meat should have the preference in warm weather.

A table and fruit are to be used more sparingly in that season of the year in which they naturally mature.

Beating the hunger will help in the way to get the stomach in condition for a invigorating a hearty meal.

HER FAIRIE PLAY

"What is your name?" said the girl, and when asked, "I like the picture," she answered, "I am the youth who is young here." "Well, I answer'd the youth well enough here," "I like to see a man knock the ball over the fence and hit it as far as anything,"—Mark the Stair.

Not the Only Hot Place.

"The next serious objection to doing," said the Boston B., "is that I shall have to leave Boston."

"Aw, don't worry about that," said the Chicagoan, "Boston ain't the only hot place,"—The Boilenian.

BUILDING FOOD

TO BRING THE BABIES AROUND.

When a little human machine (or a large one) goes wrong nothing is so important as the selection of food to bring it around again.

My little baby boy, fifteen months old, had pneumonia then came brain fever, and no sooner had he got over this than he began to eat less and, being so weak, he was frequently thrown into convulsions," says a Colorado mother.

I decided a change might help so took him to Kansas City for a while. When we got there he was so very weak when he would run he would sink away and seemed like he would die.

"When I reached my sister's home she said immediately that we must feed him Grape-Nuts and although I had never used the food, we got some and for a few days gave him just the juice of Grape-Nuts and milk. He got stronger so quickly we were soon feeding him the Grape-Nuts itself and in a wonderful short time he started right up and became strong and well.

"That slowed me somewhat knowing and, when later on my girl came, I raised her on Grape-Nuts and she is a strong healthy baby and has been. You will see from the little photograph I send you what a strong healthy youngster the boy is now but he didn't look anything like that before we found this nourishing food.

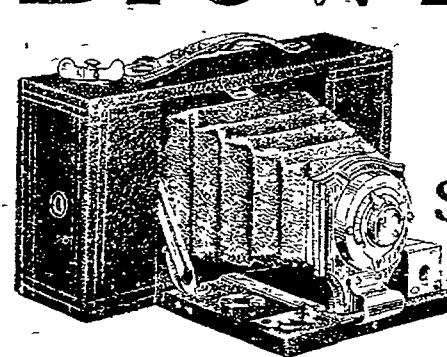

"Mrs. John M. Parker of West Union, Ohio, was obliged to take her son, a newborn Newborn, N. Y.,

in a signed statement of \$100,000 Dr. J. C. Miles, formerly a prominent veterinarian in the Bureau of Animal Industry, says he called the attention of the president and the department to the scandalous condition of the beef industry years ago.

Joseph Bartholomew and two companions were detected in the act of exploding a bomb in a manhole through which the main feed wires of the New York subway pass. Bartholomew was arrested and on him were found three more bombs, his companions escaped.

Look in pigs for the famous little book, "The Road to Wellville."

PRICES: AFTERNOONS 10¢, 25¢, 50¢, 75¢

Azel Blair of Clawson has been among the visitors in town this week.

Miss Permea Kohler spent last week with her sister, Mrs. Roy M. Terrill.

John Colquhoun received a visit last week from his two sons from Canada.

Misses Ina Smitherman and Hazel Boree were weekend visitors in Plymouth.

Mrs. C. J. Ball and Mrs. L. A. Clark visited at Lapeer from Friday until Tuesday.

Mrs. M. J. Murphy of Cleveland is visiting Northville relatives for a week or two.

Mrs. Elizabeth Nixon visited her sister, Mrs. Edward Martin, at Wixom Saturday.

Mrs. F. N. Perrin and son are spending this week in Boston, Mass. and New York city.

Mrs. C. Ball, Mrs. G. H. Baker and Mrs. G. C. Hueston spent Thursday with Mrs. Frank Durfee.

Mrs. C. A. McCullough and Mrs. D. C. Wing visited friends in Detroit Wednesday and Thursday.

Mr. and Mrs. I. A. Grover of Farmington spent Tuesday evening with Mr. and Mrs. Geo. H. Baker.

Mr. and Mrs. Edward C. Mix of Montana are guests at the home of Mr. and Mrs. Charles A. Sessions.

Mrs. S. J. Lawrence has been attending the annual state convention of the W. F. Lat. Saginaw this week.

Miss Lida Richardson was the guest of Miss Ethel Chapman in Lapeer Friday and Saturday of last week.

Mr. and Mrs. James Thompson from Owen Sound visited their cousins Mr. and Mrs. Robert Neelands over Sunday.

Northville and vicinity people who went to Bois Blanc Wednesday with the Grand Commandery K. T. were Mr. and Mrs. B. A. Wheeler, Mr. and Mrs. C. M. Joslin, Mrs. A. C. Harmon, Mr. and Mrs. L. W. Simmons, Dr. Frank Garrothers and Mr. and Mrs. O. Peck.

Toledo, Sunday, June 17.

Train will leave Northville at 10:15 a.m. Rate \$60. See posters or ask agents for particulars.

Flint, Saginaw, Bay City, Sunday, June 24.

Train will leave Northville at 8:15 a.m. Rate, 1 flat, \$1.00, Saginaw and Bay City, \$1.50. See posters or ask agents for particulars.

Southwest Offers Best Opportunities for Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying land in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich alluvial, delta lands and river bottom lands of Southwest Missouri, Eastern Arkansas, Louisiana, and Texas are capable of producing 40 bushels of corn, 2 bushels of cotton, 4 to 6 tons of manure, 15 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 and \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

100 acres more rolling lighter soil, adapted to fruit growing—peaches, pears, plums, grapes, berries—also melons, tomatoes, and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state.

Many places with small clearings and some improvements can be bought very cheap.

This is a fine stock country. No

long winter feeding. Free range,

pure water, mild climate. A healthy, growing country, with a great future.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas and Kansas. Very cheap rates on first and third Tuesdays of each month. Address,

H. D. Armstrong, 1 P. A., Toledo, Ohio.

Or H. C. Townsend, G. P. & T. A., St. Louis, Mo.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that at least one are able to cure all stages and that Catarrh is the only positive cure known to the medical fraternity. Catarrh being a nervous disease requires a constitutional treatment. Hall's Catarrh Cure is immediately acting directly upon the blood and mucous surfaces of the system, thus destroying the foundation of the disease and giving the patient strength by building up the constitution and assuaging nature in doing its work. The proprietors have much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonies. Address,

F. J. CHENEY & CO., Toledo, O.

Hall's Family Pills are the best.

NORTHVILLE.

The City in Brief.

Born to Mr. and Mrs. W. J. Ward Sunday, June 10, a son.

Charlie Horton is ill with scarlet fever, but is getting along nicely.

Asa B. Smith has recently put an elegant tiled bathroom in his residence.

During the cool-weather the first of the week the temperature dropped down to 44°.

Children's day exercises at all the churches were very prettily carried out and largely attended.

A. E. Cook has sold his milk route to Nelson Freeman who commenced serving the patrons Monday.

Street Commissioner Pultz has had his "paving" gang at work whenever the weather permitted this week, and this.

The Record printer has issued some very pretty and artistic year books for the Northville Woman's Club this week.

Mesameas G. R. Gilbert and A. K. Carpenter entertained a large party of their lady friends at the former's house Friday afternoon.

Flag day was observed by a party of our citizens by decorating with the stars and stripes as requested by the U. S. state government.

Miss Bertha VanZile gave a very enjoyable six o'clock dinner to her fellow teachers at her home on Wednesday evening of this week.

The home talent play "In Old Virginia" will be given at Plymouth Friday evening, June 29 for the benefit of the L. O. F. M. M. of that place.

ATTENTION WOODMEN! Meet at half Sunday, June 17, at 9:30 a.m. to attend Memorial service in the Methodist church at 10:00. Every member is urged to attend.

Mrs. B. C. Stark and Mrs. G. W. Stark entertained the senior class very pleasantly at their home Wednesday evening. Clever guessing games were the principal amusement.

Nightwatchman Blackburn is earning the deep gratitude of Northville ladies who come home on the late cars without escorts by being on hand with his lantern and seeing that they get home safe.

The assault and battery case of bullet McLarin vs. Charles Tilton was brought up in Justice Gurr's court Monday and verdict rendered of no cause of action. C. C. Yerkes appeared for the defendant and B. G. Webster for the plaintiff.

The W. R. C. held their first meeting in their new quarters, the Amber Hall over the Brock store, this week. The members are delighted with their new fraternal home, everything being very nicely arranged for their comfort and convenience.

A committee from the W. R. C. decorated the graves of deceased members of the order yesterday, Flag day being the specified day of the Northville Corps for that purpose. The ladies met at Mrs. F. G. Richardson's to arrange the flowers.

The annual meeting of the Northville Ladies' Library Association was adjourned to this Friday afternoon at three o'clock. One adult female member of every family holding a card is entitled to vote for the officers to be elected for the ensuing year, and it is earnestly requested that all be present at this meeting.

Invitations are out for a double wedding next Wednesday evening, June 20, at the residence of Mr. and Mrs. Hiram VanLoon at 702 Fourteenth Ave., Detroit, when their daughters Minnie Elizabeth and Mabel Clare will be married to Mr. Charles Edward Goebel of Detroit and Mr. Claude Leepert Shafer of the Northville State Savings bank.

The commuters' ball game between the Plymouth and Northville was played at Plymouth Saturday, resulting in a score of 11 to 3 in favor of Northville. Both teams were in fine form and many sensational features marked the game, an excellent report of which by our "sport reporter" had to be omitted for lack of space. A return game is to be played here June 29.

Last November Mr. and Mrs. Henry School took their young son, Lester, to Curela Springs, Ark. as a last resort, the lad having what was supposed to be an almost hopeless case of bright's disease. Induced by their family physician, Dr. Hamlin of Talmont, to send for some of the water from the above resort, it was found so beneficial that the sick boy was taken there, so ill that he could scarcely bear the journey. He came home last week in excellent health, and the happy parents and friends regard his cure as little short of miraculous.

Feel languid, weak, run-down? Headache? Stomach "on fire"? Just a plain case of lazy liver. Burdock Blood Bitters tones liver and stomach, promotes digestion, purifies the blood.

Letters for the following persons are advertised at the postoffice, etc.: Mrs. Marion Chapman.

Dr. Henry is riding around in a handsome new touring car these days.

The Northville Juniors beat the Farmington Juniors to the tune of 12 to 8 Monday.

The Northville business men played ball with themselves yesterday and both sides beat.

Regular meeting of Orient Chapter No. 77 O. E. S. this Friday evening at 7:00 o'clock sharp.

Charles Colden is repainting and decorating his newly purchased residence on Main street.

Northville people have been enjoying the home-grown variety of strawberries during the past week.

Miss Iva Grinnell has finished her season in Tawas City and is again with Mrs. F. V. Coates in the latter's millinery store.

Christian Science service Sunday morning at ten o'clock at 51 Center street. Sunday Christian Science All are cordially invited.

The members of the "In Old Virginia" troupe are to be entertained in Masonic hall this Friday evening by the O. E. S. after the regular meeting in recognition of their services in presenting the play for the benefit of the Chapter.

News has been received here of the death of Wm. A. Robinson in Portland, Oregon, on May 24. He was born in Northville in 1843, and was the son of Charles A. Robinson who kept a hotel here in 1843. William Robinson's grandfather, Hiram Robinson, gave the ground occupied by Oakwood cemetery to the village in 1820.

Presbyterian Church Notes.

By the Pastor.

The ladies' missionary tea at Mrs. Ball's Tuesday was well attended and all enjoyed a profitable program and pleasant social time.

The Children's Day exercises were largely attended and the program was very successfully carried out. Three little ones received baptism.

Baptist Church Notes.

By a Member.

The Children's Day exercises last Sunday evening were nicely carried out and the decorations were very pretty.

There will be services around next Sunday morning. In the evening the Baccalaureate address will be given by our pastor. This will be a union service.

Methodist Church Notes.

By the Pastor.

The Woman's Home Missionary society will meet in the church next Tuesday afternoon.

Preaching service on Sunday morning at the usual hour. The topic for consideration will be "The Modern Woodmen of America." This society will attend in a body.

The ladies' Aid will hold a sale of home-made baked goods at Mr. Whipple's store on Saturday, June 26. Give them a call. No soliciting, bring your baking voluntarily.

At the ladies' Aid meeting at the parsonage Tuesday afternoon the president was undoubtedly absent, illness being in the home, but considerable business was transacted and two new members received. Our church needs the help of the ladies.

We are very much pleased with the attractive appearance of our home. We will enjoy it better than we did. If some one would think seriously of building a front porch how much that would add to the appearance of the building and comfort of the inmates.

The Children's Day exercises given last Sunday morning were quite successful! The young people did well. The large congregation manifested their appreciation and pleasure. Decorations were well arranged and very neat. The collection taken for educational purposes was larger than last year.

A Card From Hueston Pharmacy Co.

We have secured the agency for Dr. Colwell's Egyptian Eye Cure, the most certain cure for Pies ever discovered. We personally guarantee it and will refund the purchase price on every package that fails to give satisfaction.

HUESTON PHARMACY CO.

Automatic Taffy Puller. The human fat pulter has at last succumbed to inventive genius and his work can now be done by automatic machine.

Circulation of Blood. All the blood in a man's body passes through his heart once every two minutes.

CASTORIA.

Dear Sirs—We Kind You Are Always Bright.

Signature of Dr. H. H. Fletcher

John Wilkinson.

In an editorial commenting adversely on the decision of Auditor General Bradley to retain Deputy Wilkinson in his position, Tuesday's Detroit papers inferentially accused Mr. Wilkinson of falsehood, and of culpability in passing the claims from the Wayne county coroner's office of which he was suspicious as has been shown, the Deputy auditor had no authority beyond the right to mention his suspensions, which he did, and as has so been shown his testimony only varied in accordance with the manner of the questions which he was called upon to answer any one who knows John F. Wilkinson personally knows that a more honest, straightforward conscientious man does not live than he is. His official duties he is thoroughly posted, careful and painstaking and looks after the interests of the state in every possible respect in a manner that has saved to Michigan thousands of dollars during and since his present position. As the reviews, etc., and the press, etc., intently to ready an audience to defend their personal integrity of character, etc., in view of the cleanness of record seem to indicate, nothing is the even suspicion or a chance to dislodge him can be discovered. One would almost think that Mr. Wilkinson was on trial instead of Coroner Tappel.

Buy Hair at Auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, g-o-n-e!" Stop the auction with Ayer's Hair Vigor. It certainly checks falling hair; no mistake about this. It acts as a regular medicine; makes the scalp healthy. Then you must have healthy hair, for it's nature's way.

The best kind of a testimonial—
"Sold for over sixty years."

SCIENTIFIC SPECIALS.

Prof. Classen, of Aix-la-Chapelle, has dug out a process of making alcohol from sawdust. The cellulose is treated with gaseous sulphuric acid, and glucose formed, and is converted into alcohol by fermentation. A ton of sawdust yields about 50 gallons of crude alcohol or 25 gallons of absolute alcohol. It is expected, however, that in time 30 gallons or more will be obtained.

The late Prof. Pierre Curie, discoverer of radium, as a boy seemed so stupid at school that his parents sent him and put him under a private tutor. All through his years of study, including the final preparations for the arts degree, he was hampered by the necessity of studying un congenital subjects. It was only when he was free to follow his natural bent that his powers were manifested.

Prof. Behring, who claims to have discovered an effective treatment against tuberculosis, is the discoverer of the serum treatment of diphtheria. Four years ago he shared the Nobel prize of \$40,000 with Dr. Roux, of the Pasteur Institute, of Paris. He is also a professor of the Berlin university and has for years pursued his experiments on an estate of his own of about 1,000 acres near Marburg. The number of animals of all sizes that have passed through his hands on this property is simply enormous.

The new alchemy assumes that elements of great atomic weight break up into substances of lighter atoms, but thus far the only transmutations observed have been the changes of radium and actinium into an emanation, of which about seven per cent. seems to form helium. What becomes of the remaining 93 per cent. of the emanation is not yet proven, although there are reasons for believing that lead is a part of the product. In the atomic disintegration the energy given out surpasses all previous experience, and it is estimated that if a fragment of radium could be made to complete its change its aftermath would result in an explosion millions of times more terrific than gun cotton.

ODD EATING CUSTOMS.

Prachians never eat when they drink or drink when they eat, and the Tartars continually persist in pulling a guess by the ear until he drinks. Malibians islanders retire to the darkest part of the house and hang curtains about them so that none of their fellowmen may see them at their meal.

When they desire to show a mark of great esteem, the negroes of Africa drink from the same cup at the same time, and the King of Loango used to eat and drink in two separate houses.

The Philippine Islander will not eat a meal alone. Whenever a Filipino finds himself without a companion with whom to share his meal he will abstain from eating until he has found one.

A strange custom prevails in Kamchatka where a man who wishes to entertain a guest invites him into a cabin, which is heated to an excessive temperature, and then presents him with food until he is in a state of torpor. Instances of men dying at these orgies have been known.

The Tchitians, though a naturally sociable race, dine separately. Even the man and his wife do not eat together. Each member of the family has his own food basket. They take their places about five yards apart, and then, turning their backs to each other, dine and a profound silence.

PROFIT POINTERS.

Nobody wants an over-anxious man. He gets on one's nerves.

Did you ever know a "tricky" man to make a permanent success?

Matter is composed of atoms. Businesses are built up by attention to details.

Business is not necessarily hard work. Make it good fun, and you'll do more.

The Modern Way.

"My dear, you must really take Freday in hand about the way he uses sugar. To-day he asked me what entomology was, and I told him the science of bugs."

"Well?"

"Then he asked me if an entomologist was a crazy man."—Baltimore American.

Nothing Doin'.

"Want my ice?"
"It's fresh?"
"Yep."
"Bring me up a two cent chunk."
"We're ye at?"
"S. Scorn, back."
"Gee awp?"—Judge.

With Some People.

A joke is not a joke when you have to listen to it instead of telling it.—N.Y. Press.

Seasonable Entertainments and Suggestions for Social Functions

By EDITH A. BROWN
Sociev Editor of the Chicago Record-Herald.

A Patriotic Fancy Dress Party for the Young Folks — An Out-of-Door Search for Toy Guns and Pistols—Ice Cream and Cherries Under the Trees—Red, White and Blue Dinner—Corn Flowers and Carnations—Make Appropriate Centerpiece—Fireworks on the Lawn.

The entertainments for July naturally revolve about the Fourth of July celebrations. Although every year brings the discussions as to the admissibility of these affairs, nevertheless every year also brings the entertainments just the same. Perhaps this is because the day appeals to the old and young alike, when, after the fashion of the return of the circus, the man becomes the boy and there is a feeling that business cares may take to the woods and every one should be given a chance at the fun.

The wise parents will furnish plenty of amusement for the youth of the family. There are more ways than one of celebrating the Fourth, and while firecrackers are dear to the hearts of the boys and girls, anything which really amuses may be made to fill the place very creditably. Turn the house and the yard over to the youngsters for the day. Let them ask their young friends to join them in the celebrations—then regulate the sports in which they indulge to the extent that the usual large supply of arnika and salve may not be found necessary.

In the first place send out invitations written on small flags. Bid the young people to come over the afternoon and make it a fancy dress affair. Nothing so delights the hearts of youngsters as being able to "dress up." The dress must carry out the idea of the day—men, colonials and ladies and masters. Mrs. Ba and George Washington, Benjamin Franklin and Mrs. Columbia, Uncle Sam and the whole host of character representative of the nation and its early history.

To start the ball a rolling have a sort of Maypole dance, the children suspended from an immense liberty bell. The children will take their places at the ribbon and have a grand march about beneath the bell while some one plays "My Country" (Hill Collopy).

"Yankee Doodle" with a hot iron for the clothes-ironing. This will send them off to the lawn in merry mood. Out on the lawn lay a hunt. Send now the toys all filled with novel drums, cymbals, toy soldiers, soldiers hats, guns, kegs, etc. and loads of pretty tanies which the children will consider warlike hunting of. These toys should be wrapped in white paper, that they may be seen more easily like them in the bushes and the out-of-the-way places and let the children hunt. When all are found the children sit down to lunch and admire their trophies.

Another idea which may be carried out with some amusement to the children, especially the boys, is to have a target practice. Place a target on the lawn and then furnish toy guns and paper wads for the bullets. Even the girl's may not find it amiss to enter into the game.

When time for serving refreshments comes the tables should be placed under the trees. The simplest menu should be chosen. White ice cream served on a mound of cherries, in turn served on a blue plate, will bring in the national colors. With this red white and blue candies and cake should be served—the cake of white, with the tiny red and blue flowers, which may be obtained in confectioners' shops, on the top. The afternoon may close with a grand march during which Columbia caps may be placed on the heads of the youngsters.

* * * * *

Fourth of July Dinner.

When evening comes it is the time for the older folk to take their turn. The dinner is the best form of entertainment with which to give men and women equal interest. The invitations may be sent in canister crackers, from which the filling has been removed, and in this way the whole nature of the dinner will be revealed.

The house and grounds should be decorated in flags in abundance, with the dining-room as the center of the decorative scheme of course. Over the ceiling hang a canopy of a great flag of blue bearing the original 13 stars. These stars form a circle in the original flag, and from the center of this, immediately over the center of the table suspend an American eagle. For the centerpiece one of two ideas should be used. The great puff balls, of red, white and blue paper, filled with flags, could be used with good effect, or a mound of flowers, the base of which should be cornflowers, the center white carnations and the top red carnations. The table should be draped in flags and for place cards small liberty bells hung from each cover with red, white and blue ribbons, the name hanging from the clanger will give a pretty souvenir and add to the general decorative effect.

As there are no blue eatables which may be chosen for the menu, use the blue China service and carry the menu in red and white.

To begin the dinner, have Riley's "The Name of Old Glory," written on cards in sections to be read around the table. Then will come the menu, Omea with red raspberries and cream. Follow with tomato soup served with whipped cream. White fish served with radishes and bits of pickled beet can come next—and the meat course may be roast chicken and cranberry sauce, creamed cauliflower and creamed potatoes.

For the salad course serve fruit salad in scooped-out red apples, and the final course may be cherry ice cream served in paper cups. These cups may be purchased in the novelty departments of the stores. They are fashioned of white paper, with the American flag across the top.

For the evening the fireworks on the lawn will be the only amusements necessary. In these, of course, the children of the household should be permitted to join.

Copy gift by Joseph B. Bowles.

"SUCH AN ARISTOCRAT."

Woman's Class Wanders from the Subject, But Has an Interesting Session.

The class for the study of the nation's great men was meeting, says the Chicago Record-Herald. Mrs. Edward the leader, had taken the floor and an audience.

Our subject—"gay is Thomas Jefferson. I am hoping that the ladies will feel free to ask questions at intervals. Thomas Jefferson was—" "But, interrupted Mrs. Edward, but won't you tell me who you discussed last week?" interrupted Mrs. Jones. "Alexander Hamilton," answered the leader.

"O, yes; he was the man who fought the duel. I always did think—" "But, interrupted Mrs. Edward, he really did many other things more worthy than fighting the duel, and—" "And he is such an aristocrat put in Mrs. Browne-Smythe."

"It is gay, ladies," again started Mrs. Edward, to-day we are to study Thomas Jefferson."

"Well, why didn't you choose Aaron Burr?" chimed in Mrs. Gordon.

"O, did you read 'Blenderhassett?'" Mrs. Gordon, gurgled come one. "You know I never did know what a perfectly sweet man Aaron Burr was but—"

"The sweetness of Aaron Burr was too much for the leader," she exclaimed but still we not have discontinued? To day we are to study Thomas Jefferson, who is a principles founder the great political organization now known as the"—

"Why I thought it was Jefferson who was to be excused in the case," explained Mrs. Allen.

Mr. Edward smiled a wan smile and started to explain when Mr. Jackson broke in.

"Well, thinking of the rice question can anyone tell me where I can get a sweet girl?" Susan left me! I've had the most terrible time!" I do know of one but she's a Christian Scientist and—"

"I'm so cool!"

"Don't she—" Does she?"

Won't you please tell us of the principles of Jefferson, Miss Speake?" said the mock voice from the corner.

For the next five minutes the speaker read on without interruption. Then—

"During the reign of Jefferson at the White House society was—"

"O, did you ever spend a season in Washington, Mrs. Speaker?" cried out Mrs. Browne-Smythe, ecstatically. "Do go on, Mrs. Edward, and tell us about the society of that time, and then I'll tell you of the winter we had a house there."

The members glanced helplessly at the chairman, who rose and said: "A motion for adjournment is now in order."

"Mme. Chairman," said the meet voice, "would it not be well to ask Mrs. Edward if she had finished?"

The chairman bowed and Mrs. Edward smiled and answered a bit wearily:

"Quite, thank you."

"I never knew before that Thomas Jefferson was such an interesting man," said Mrs. Douglas after the adjournment.

New England Interpretation.

Cardinal Gibbons was facetious when the Irish ladies' choir of Dublin called on him. Turning suddenly he asked:

"Which one of you is the oldest?"

None claimed the honor, and all blushed.

The talk drifted around to Gilmore and his band, and Cardinal Gibbons told of how Gilmore, at Coney Island, hearing that the cardinal was in the audience, played "Maryland My Maryland," and how it pleased him.

"Gilmore," said the cardinal, "was famous for his playing of Mozart's Twelfth Mass." Once he played it in a North Carolina town, and next day the local paper announced that he rendered with great effect "Mozart's Twelfth Massachusetts."

Little Known Gems.

"The tourmaline, diopside, and peridot," says a jewel expert, "are really fine-looking gems, which are sold at moderate prices, and they would be more commonly worn if people knew

LIMB WASTED WITH ECZEMA

Suffered Untold Agonies—Doctor Said It Was the Worst Case—Wonderful Cure by Cuticura.

"I used the Cuticura Remedies for eczema. The doctor said it was the worst case he ever saw. It was on both limbs, from the knees to the ankles. We tried everything the doctors knew of, but the Cuticura Remedies did the most good. I was obliged to be with my limbs higher than my head for the pain was so terrible I could not walk. I suffered untold agonies. One limb wasted away a great deal smaller than the other there was so much discharge from it. I found the Cuticura Remedies very soothing, and I still keep them in the house. I am very thankful to say that I am cured. I found the Cuticura Remedies all that you say they are. I hope that you may be spared many tears to make the Cuticura Remedies for the benefit of persons suffering from the torture of skin diseases such as I had. Mrs. Golding, Box 8, Ayr, Ontario, Canada, June 6, 1905."

BITS FOR BACHELORS.

Many men think themselves self-made who are really marriage-made.

The man who avoids matrimony on account of the cares of wedded life makes the wiseacres who secured self-help against corns by having his legs amputated.

Don't marry for beauty alone. Socrates called beauty a short-lived tyranny, and Thespianus pronounced it "a silent cheat." The man who marries for beauty alone is as silly as the man who would buy a house because it had fine flowers in the front porch.

It is in life as it is with a kite; it will not fly very high until it has a strong string to it. And so the man who is tied down by half a dozen responsibilities and their mother will make a higher and stronger fight than the bachelor who having nothing to keep him steady is always floundering in the mud.

Keeping Her Handy.

"That's a fine rope you have, Harry," commented the comrade with the long mowerrill. "I never heard of a man who had so much hair on his arm. What are you going to do with it?"

"Cut it as a tether," replied Harry.

"Ah, No, now?"

"No, now cool."—Chicago Daily News

ICE CREAM AS A FOOD.

There is no food in the world which contains more solid nutriment or more body-building qualities than pure ice cream, made from rich, sweet cream to which is added a small amount of flavoring composed mainly of sugar. It contains absolutely nothing which could in any way detract from these valuable nutritive qualities which pure sweet cream is known to possess.

For the invalid or for the person in robust health Ambler's Ice Cream is a pure and delicious food of real life-sustaining qualities.

NORTHVILLE

Hatten 1st vice Ida Nelson sec. Mrs. Harlan, treas.

Many telephones have been put out of business during the bad electric storms of the past week.

During the severe storm last Friday which did so much injury to buildings, crops and shade trees lightning struck B. Grace's barn shattering it considerably and killing one of his valuable team of horses.

HERE'S WHAT'S WANTED.

A Citizen of Northville Supplies the Information.

Over half the complaints of mankind originate with the kidneys.

A slight touch of backache at first twinges and shooting pains in the joints follow. They must be checked; they lead to graver complications.

The sufferer seeks relief. Plasters are tried, and liniments for the back.

So-called kidney cures which do not cure.

The long looked-for result seems unattainable.

If you suffer, do you want relief?

Follow the plan adopted by this Northville citizen.

Mrs. J. Palmer, of Cedar street, says: "Doan's Kidney Pills were used in my family some time ago for backache and other symptoms of kidney trouble and they proved to be all that is claimed for them; for in a short time the annoying backache was a thing of the past, and the other symptoms of either excited or weakened kidneys disappeared. I am pleased to recommend Doan's Kidney Pills. They are a wonderful medicine and one that everybody should know about."

For sale by all dealers. Prince, Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Highest Balloon Ascension. The credit of having reached the highest altitude in a balloon is given to Mr. Berssen and Dr. Suring, of Berlin. They first went to the height of 30,000 feet, losing consciousness for brief intervals. They continued to ascend to 33,790 feet. When one of them became unconscious and could not be aroused. The other, after opening the valve, also became insensible, and neither recovered till the balloon had dropped to 16,000 feet.
