Murder a Mystery.

Lloid Dynes. Michigan Central mghi operator at Gallen, Mich, was shot and almost instantly killed Monday morning between 1:40 and 2 40 o'clock Robbery was not the motive as more than \$75 was found on his person. The only article missing is his revolves, which had evidently been to fire the shot. Two shots had been fired, one striking him below the lett eye, the bullet flattening against the cheek bone and doing no special damage. The other bullet entered at the right clavicle, penetrating both lungs and severing an artery. There were no signs of any struggle and no effort was made to rob the ticket of-

lte. was Dynes' custom, after people geased coming into the office, to place his revolver on the table in front of him. Evidently someone of Thom he had no suspicion-came into the office and was talking with him while he was sitting in his chair, as the bullets took a downward course. Both bullets were found by Drs. Highee and Will-ams, who performed a post mortem Mr. Dynes was about 26 years of age

and is survived by his parents, who live in Windsor, Ont.

Equalization Board's Work on the State's Valuation.

The report of the state board of tax thirds or the great waste, and the equalization was made public in numpresent prospects are that they will erous notable instances the figures of the state tay commission have been ignored. In 1901 the valuation of the state was equalized at \$1,578,100,000 and the present noarl raised this figure to \$1,734,100,000, an increase of \$155,000,000, but nothing like the in crease advocated by the state tax com-mission. The commission's figure was mission The commission's figure was \$1.931.568,000 The increase of \$156,000,000 in the total of equalized valuations over those of five years ago is made up largely from the \$59,000,000 in Wayne, the \$20,000,000 in Kent, \$5,600,000 in Kalamazoo, \$4,500,000 in Ingham, \$4,000,000 in Calhoun, and a few millions in numerous other coun-

Houghton, the richest copper county, remains at \$140,000,000 as of five years ago. The tax commission had recommended a decrease of \$15,000,000-Hardly in any instance is it shown that the commission's figures have been followed to any great extent. However, the board of equalization went beyond the tax commission in decreasing the Ontopagon valuation the reduction being from \$3,000,000 to \$5,000,000, while the tax commission had recommended \$5,666,000 Wayne county's share of stare taxes

The French in the Sahara.

The activity of the French in the Sahara 15 the marvel of recent ex ploration They claim more than twopresent prospects are that they will see's out and map every sand dune, well and grazing area throughout their domain within the next two or three years The latest flying trip has been made by Capt. Five Sainte-Marie, who has traveled west and east through the heart of the desert, his outgoing and return routes being from 50 to 100 miles apart and nearly every mile of the way leading through regions never seen before by an explorer excepting where he crossed the north and south tracks or other travelers. He ascertained the law or the land throughout this long unknown tract and discovered a number of excellent wells that are believed to have been the source of water supply for the nomad robber bands that have made a practice of swooping down upon merchant caravans which had time to wonder, even as they were being plundered, from what my sterious source those fellows managed to replenish their water bags. The French have practically put an end to banditism in the Sahara, and one of their most effective expedients is to guard the wells against all those whose business on the road is not manifestly legitimate. If the development of the Amazon basin does not take a more rapid pace, says the New York Sun, large areas of it will still remain untraversed and unknown when every important fea ture of the Sahara will have been spread out on good maps for the informanon of the world

All Like to Travei.

In fact, the bulk of the summer exodus business is pure festlessness or the result of the ordinary human love of travel The practice of 'going somewhere' in summer is a mere excuse in the majority of cases for the gratification of the nomadic instinct. We lack the frankness in this respect that the poor Mexican peon possesses Since railroads were introduced in Mexico, with their amazingly cheap third-class cars, which the roads are compelled by law to carry, all Mexi cans travel when they can rake or scrape the price. It does not matter to them where they go If somehow the peon becomes possessed of 77 cen's he takes a bag of acorgs and a blinket goes to the nearest railroad station pris down the solver and says Viale hor so's realeas, which means "Six kus wo th of trivel". And tha igent sells him a ticker to any-point that he can reach with that amount of money. Thirten, blissfully, he ones and trusts to the Lord to get him back agus somehow, son e time We are not exactly like this Mexican Jeon, says the New York Mail, he curse he takes his idle voyage at any old thue. Hon. M. C. Butler, Ex-U. S. Senator from South Cafolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine

Co., as follows: "I can recommend Peruna for dyspepsia and stomach trouble. 21 have been using your medicine for a short period and I feel very much relieved, it is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the cor-rect name for most cases of dysstomach the catarrh must be eradicated. Only an internal catarrh remedy,

ench se Pernna, is available. Peruna exactly meets the indications.

Afum Baking Powder Is Wholesome. | Sneight At 2 | 1905" | Conn. April 22, 1905" Dr. He man Rembold, the expert Gernian_chemist, in a recent official report concerning Balang Powdais. declares that a pure arum baking powder is better and less injurious than the so-called cream of tartar powders He says that if the quantity or alum contained in a sufficient quantity of cakes for an ordinary family, be con centrated to one mouthful of food, and taken into the stomach of any it could do no harm. On the contrary

alum is wholesome in proper quantities. This is undoubtedly the reason the State of Missouri quickly repealed a law that prohibited the manufacture of the most wholesome of all baking powders. So much for Alum Baking

Ponders. Immense Steel Plates.

The shell and boilers of the rew Cunarder being built at Wallsend, England, are said by Consul Mercalf to be constructed of the largest steel plates in the world They are silicon steel, weighing ten tons each. The boilers alone will weigh over 1,000 tons Massive ingots and slabs weighing 12 and 14 tons, are continu ally passing through the rolling mills there for this work.

Has Been Burled for Centuries. The body of a young woman has been discovered in the ancient Priddy lead mines in Somersetshire, England, some 16 or 17 feet deep in the waterbone slit that has been accuminlating since the days before the Romans came. The hair is wonderfully preserved, and remains in the plant n which it was worked. Beside the body were found five large blue and green glass beads

TUMORS CONQUERED SERIOUS OPERATIONS AVOIDED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham Vegetable Compound is the conquering of woman's dread en-

emy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

So-called "wandering pains" may come from its early, stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs. If you have mysterious pains, if there are indications of inflammation or displacement, secure a bottle of Lydia E. Pinkliam's Vegetable Compound right away and begin its use.

Mrs Pinkliam, of Lynn, Mass, will give you her advice if you will write her about yourself. She is the daughter in-faw of Lydia E. Pinkham and for twenty five year shas been advising sick women free of charge.
