MICHIGAN IS SNOW BOUND

BIGGEST STORM EVER IN THIS SECTION OF STATE.

Trains and General Traffic Delayed Since Wednesday.

Michigan is still in the fore part of the universe when it comes to varieties of weather and lots of it. Last week Friday with a foot or two of snow on the ground, the weather turned warm and rained all day long. Then along came a cold wave and then Tuesday a regular Dakota blizzard set in. Wednesday morning huge snow drifts covered the roads, the streets, railroad and street car tracks. The storm continued all day Wednesday and there was no let up until yesterday morning.

The D. P. & N. electric was entirely put out of commission and the D. U. R.'s schedule was shattered in several kinds of shape on Wednesday the only wonder being that they were able to run at all. At one time Wednesday night there were four cars at Powers station, one being stuck and one being out of commission.

Yesterday the D. U. R. was back on its regular schedule again and the D. P. N. was shoved out during the day so that they are running in pretty good shape today.

The farmers have shoveled themselves out and everything will be in running order by Saturday night again around here if nothing more sets in.

The Rural carriers are only able to reach a portion of their patrons on account of the huge drifts. In some cases the R. F. D. boxes are just peeping out of the tops of the snow banks. In one case a farmer was too busy to shovel out the box and kicked because the carrier didn't bring his mail into the house.

VALENTINE'S DAY

Celebrated in a Very Unique Manner by N. W. C.

A red-letter day in the social history of the Northville Woman's Club was recorded last Friday afternoon when the club celebrated "Valentine's Day" at the home of Mrs. Arabella Tatham. Mrs. Tatham's ability as a hostess amounts to positive genius, as is well known, and on this occasion she had an able assistant in Mrs. Sumner Power, their joint efforts resulting in a most delightful occasion. The rooms were decorated in hearts, in crimson and white, the hostesses and their young girl assistants, daughters of the members, wearing corresponding ornaments.

The members had been requested to bring two valentines each, of home manufacture, and the feature of the afternoon was the prettily arranged post-office, where the guests, who had previously been given numbers, were handed two valentines apiece. These souvenirs represented every variety of taste and ingenuity imaginable and many of them were extremely pretty. The program also included a unique and very interesting guessing contest, literary and musical, the highest scorers being Mesdames Ethelwyn Lapham, Della Harmon and Mrs. Curtis. The daintily appointed refreshment tables were arranged to carry out the idea of the day in an especially appropriate manner. Notwithstanding the pouring rain, between thirty and forty guests braved the storm to enjoy the occasion, and felt repaid for venturing out in the "wild waste of waters."

FARMERS BENEFITED BY PRISON TWINE

JACKSON PRODUCT WILL BE SOLD DIRECT TO THEM.

Warner Won Out in His Long Fought Battle.

There may be some diversity of opinion as to the practicality of the move made by the board of control in voting to sell the entire product of blinder twine made at the prison to the Order of Gleaners, and farmers generally, but there can be none on the ground that Governor Warner has succeeded to the very last ditch in carrying out his fight against the blinder twine trust.

The farmers may never know how much influence was brought to bear on Governor Warner to have his pet project killed and buried. He informed The Citizen Press that when he was investigating the international people they sought to convince him that if he gave credit he would swamp the state. It happens, however, that he has had a little experience among the farmers, and has a lot of faith in their honesty that the trust seems to lack, although they are ready enough to run their chances on getting pay for most anything they can unload on them.

The governor came to the prison board meeting, Monday, prepared to give the farmers the benefit of the industry that has cost him curses and criticism, and he conquered.—Jackson Weekly Citizen.

If.

If people who have had hard grip colds would air their houses thoroughly and let the grip germs blow out;

If janitors of churches and public buildings would do likewise after occupancy of such buildings;

If school teachers would send their pupils home on first showing symptoms of grip and employers would give their employees a three days' vacation with full pay;

If grip victims would cease visiting their friends;

If all would use a little more common sense and get and keep the fresh-air habit, there would be much less sickness, less loss of time and wages, less more serious complications which often accompany the grip and probably less loss of life.—Contributed.

An Important Notice.

The Postmaster General has issued a new ruling to all newspapers in the United States effecting the sending of weekly papers through the mails at second-class rates to any subscriber who is more than one year in arrears. This took effect January 1, 1908.

The ruling requires that all subscriptions to weekly papers be paid within one year. This leaves us no alternative, but to limit our credit accordingly. Uncle Sam is a bigger man than we are, and we must do as he tells us.

Those who are in arrears and wish their paper continued must see that their subscription is paid.

been given the subject "Our Men" about fifteen minutes before he was called upon. But Mr. Gage's always equal to any emergency and did himself proud.

"Woman's Influence Over the Stronger Sex" was given Rev. W. S. Jerome and his witty stories brought forth a great deal of laughter, and many good points were made.

Mrs. Annie Andrews of Detroit gave some very beautiful and interesting thoughts on "Our Great Leader, Frances Willard." Short talks by the honorary members concluded the program.

The affair was a most enjoyable one and the ladies of the local order are to be congratulated on this their first entertainment.

They re-organized about a year ago with only eight members and now have a membership of thirty-eight, with twelve honorary members.

Story, Song, Stunts.

On Saturday afternoon, Feb. 22, at 2:30 o'clock Miss Michelle of the Noble School of Elocution of Detroit will give a program at the Presbyterian Manse for the benefit of the Ladies' Aid society. Miss Michelle will be assisted by local musical talent and all, including gentlemen, are cordially invited. Admission, ten cents.

Village Affairs.

The various village caucuses are called and it is now up to the people to make the selections both at the primaries and at the election. The very best men should be selected in every instance. The affairs of the village are as important as any private interest. The expenditure of seven or eight thousand dollars of the taxpayers money each year, and the good government of Northville is of no small moment. Every taxpayer should give the matter his personal thought and personal attention.

End of Con. Convention.

The delegates to the Constitutional Convention are holding their final sessions this week. They will consider on third and final reading the various articles and sections heretofore agreed to. The law requires that these various subdivisions be voted on separately and that, this having been done, the vote be taken on the revision as a whole. During the ten-days' vacation which ended on Tuesday of this week the committee on phraseology and arrangement put the document in proper form. Until the gavel falls, for the last time, however, the document will be subject to amendment in any of its various parts by a majority vote of the delegates and there are indications that some change will be made. This is especially true of the article relative to the municipal ownership of public utilities. As adopted on second reading this article that taxpayers alone may vote on these propositions a storm of protest having gone up from non-taxpaying citizens of the state, there is strong probability that the article will be changed so as to permit all qualified electors to vote on these propositions requiring, however, that to be adopted the proposition must receive the affirmative vote of two-thirds of the electors. As it now stands a majority vote of taxpayers is required. Doubtless the convention will decide to submit the revision to the election to be held next November instead of at the April election as required by law. The later date will enable the people of the state to better consider and digest the proposed constitution, and the lawyers claim that the legislature exceeded its authority in fixing the time for submission. It is their contention that the convention is the sole judge of this matter.

Solid Delegation for Taft.

Surface indications are that it would take mighty little work to elect a solid Taft delegation to the National convention from the Eighth congressional district of Michigan. The convention of several months ago having been tossed in the air by the National committee, a new convention must be held and it is very evident that the rank and file of the republicans of the district not only do not share Congressman Fordney's frenzied opposition to the candidacy of the Secretary of War, but are enthusiastic supporters thereof. It would be the easiest thing in the world to bind the delegates with instructions to represent their constituency in the National convention. The Republicans of Michigan, including those residing in the Eighth congressional district, are for Taft and even regard for a favorite congressman should not cause them to be misrepresented in the National convention.

To Use Bird To Divide Vote.

That was a mighty plausible plan outlined by a Lieutenant of the old republican machine, in which he showed that the "gang" is using Attorney-General John E. Bird to divide the votes of the people at the primaries with Gov. Warner, so that neither will get the necessary 40 per cent to nominate, with the result that an old-time, pliable con-

vention will be called and John J. Carton nominated for Governor. In fact, it is so plausible that it must appeal very strongly to the railroad end of the old machine. It is certain that the machine has no use for Warner. It is equally certain the railroads have no use for Bird. Furthermore, Bird on the supreme court bench would be as distasteful to the railroads as Bird in the governor's chair. It would be a shrewd trick, and worthy of men to whom primary elections are bitter as gall.—Detroit News.

Mere Factional Clap-Trap.

One-termism, two-termism, three-termism—all three should be primarily matters of competency in the candidate. When it comes to electing a candidate for his first term it is a matter of speculative confidence in a hitherto untried man. When it comes to giving a candidate his second term it should be largely a matter of how much competence he has displayed in his first term—but isn't. Some men deserve to be as consistently opposed for a first term as others for a third term, still on the ground of fitness. But to yell and hoot about third-termism purely as such, without either showing why a third term is desirable or why the candidate's incompetence makes a third term for him impossible, is mere puerility.

The proof of this bit of reasoning is found in those parties who loudly demanded a second term for Aaron T. Bliss, but who now vociferate vigorously against a third term for Fred M. Warner. The matter of competency was brought forward in neither case. It is simply the fiat of a clique that one man should have a re-election, regardless of his deservings and that another man should not have a re-election, regardless of his fitness. A more effective method of procedure against a man's candidacy would be to show why he should not be elected.—Detroit News Feb. 13.

Michigan Should Stand Solid.

Michigan should not send any "barter and sale" delegation to the National convention. This state should be either "a man or a mouse or a long-tailed rat" in this contest, and having decided what it wants to be, it should insist upon being that and nothing else. A delegation with convictions is a mighty sight more dignified and influential than one that stands around waiting to hear the rumble of the approaching bandwagon rather than which set of principles and which candidate it stands for. The trimmer never commands the respect of any one.

The Republicans of Michigan had a week of inspiration and enthusiasm which will make for good during the coming campaign. These banquets which are held in various counties of the state during the early months of the year are productive of great good. It would be well if every county in the state would "get the habit."

Of the sixteen boxer Senators interviewed on the governorship they were as follows: Against Warner 16 for Warner 0.

DOUBTFUL OF THE GUARANTEE.

Specific Clause Caused Increase in Price of Cloth.

The Arabs, and, indeed, all Moslems, have the practice of re-enforcing promises by adding to their word of honor the Arabic phrase, Inshallah—"please God." How much meaning it conveys in some lands of the east is told in the pages of "In Moorish Captivity."

The pious proviso is a very useful formula to the Moors, and is frequently used in making promises that they have no intention whatever of keeping, as they can then take refuge behind the Almighty when they are taxed with their breach of faith.

There is a story told of a man who kept a shop in Gibraltar, and who knew the ways of the Moor. To him one day came one of the faithful, who was desirous of buying some cloth. On being informed that the price was two dollars a yard, payment in 60 days, he replied:

"All right. I will take so much and will pay you in 60 days, Inshallah."

"No," said the vender, "the price is two dollars, payment in 60 days. For 30 days, Inshallah, the price is two dollars and a half."—Youth's Companion.

OPINIONS FROM THE STATE PRESS

And This from St. Clair County, Too.

There can be no doubt whatever of the personal popularity of Gov. Warner with the common voters. We have not the least doubt that were a vote of St. Clair county Republicans to be taken today on a candidate for governor this year Gov. Warner would receive at least two-thirds of the total.—Port Huron Times.

No more \$3 a day jobs in the state house at Lansing for Rep. Sam Daugherty, of Caro. Sam has had one term and now over his own signature, so you can't call it here, say, he declares that he won't have another term. "Because of the insufficient remuneration paid by the state to the legislators which is invariably less than their actual living expenses at Lansing." Yet there are legislators who are not only willing but anxious to be returned term after term for the same \$3 a day and they roll higher at Lansing than Sam ever did.

That "spontaneous demand" for Attorney General John E. Bird to make the run for governor appears at this writing to be easing up a bit. By the way, it was curious how the "people" from one end of Michigan to the other rose up en masse all of a sudden and wouldn't be satisfied with anyone else for governor. Or did the "immortals" and boxers, whom Gov. Warner trimmed so beautifully, have a hand in it? Not that they love Bird more but Warner less, for they well knew that they couldn't put a halter around Bird's neck, but there's a growing suspicion that they are out for revenge on Warner and picked Bird as the man to do the "harmonizing." In the meantime Bird is keeping his ear to the ground to find out if he can detect a call from anyone but the politicians.—Grand Ledge Independent.

Ransom E. Olds, the well-known auto inventor and manufacturer, stands a pretty good show of being elected one of the two sixth district delegates to the national republican convention. A. L. Wright of Bad Axe is the latest candidate to be a delegate for the seventh district.

Now comes a statement from a neighbor of Circuit Judge Steere, the Iron Mountain Press, that the judge is not even a receptive candidate for justice of the supreme court.

A Little Vague.

"Is it far from here to the next town?" asked a tourist of a man he met on a rural road.

"Well, it ain't so very far, nor it ain't so very near, and yet it ain't as high as might be if it wasn't so far as it is. Still, it'd be farther if it wasn't so high, so I reckon one might say that it is betwixt an' between fer an' nigh"—Lippincott's.

The Best Laxative for Children.

Parents almost all admit that their children have natural, easy movement of the bowels each day. Do not dose the child with salts or gripping pills, as they are too powerful in effect, and literally tear their little insides to pieces, leaving the bowels weakened and less able to act naturally than before.

For the Hot-Water Bag.

Heat applied locally for neuralgic pains is very soothing and effective. It is best to have a hot-water bag always in the house, as it is one of the best ways of applying heat. The heat of the water may be too intense to hold the bag itself against the skin, so it is a good idea to make a flannel bag for covering the rubber bag.

The results of irregular teeth are that they mar the appearance of the individual, interfere with clearness of speech, impair the ability to masticate the food thoroughly, and by reason of their crowded or abnormal position afford favorable lodgment for food particles and thereby induce decay.

When a child presents itself I study the features and the irregularities and oral deformities. I look at the child's face and then at its profile, and endeavor to ascertain, if possible, what facial change will be brought about by any corrective art that may be applied to the case. In my judgment more is lost than gained by the removal of teeth for the correction of irregularity and should never be done, except, possibly in very rare cases. Doan's Kidney Pills do one thing only.

They cure sick kidneys.

They cure backache, every kidney ill.

Here is Northville evidence to prove it.

Wellington Kator, machinist, living on Yerkes Ave., Northville, Mich., says: "A year ago I began to have trouble with my kidneys and suffered for some time before I got Doan's Kidney Pills at Murdoch Bros. drug store and was cured. I had had aching pains across my back so severe sometimes that I could hardly move without suffering. The kidneys were weak and irregular, the secretions burning and causing a passage. The use of Doan's Kidney Pills for a short time completely cured me. I am not now troubled at all with my back and kidneys and feel better in every way. I am pleased to recommend them to others."

Age of the Legal Wig.

The use of wigs by judges and barristers is not very ancient. It was introduced, I imagine, toward the end of the seventeenth or at the beginning of the eighteenth century, when it had become the fashion at court. Bishops continued to use wigs longer than their clergy, but they have discarded them, to their great advantage, for many years now—London Morning Post.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian Tube. When this gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.
