Vol. XXXIX, No. 32.

NORTHVILLE, MICH., FRIDAY, MARCH 13, 1908.

DUBUAR PRESIDENT

NORTHVILLE'S WELL KNOWN MANUFACTURER WAS ELECTED

Seeley Elected Treasurer by a Close Margin.

There were 378 votes cast at Monday's village election showing there was more than ordinary interest manifested on portions of the ticket anyway.

The real contest seemed to have been centered around the treasurer-ship where the assistant cashier of each of the two banks were the

candidates. Seeley finally won out by four votes.

The "Workingmen's" ticket elected Jas. A. Dubuar for president over A. H. Kohler, the "Citizens" candidate.

The "Workingmen's" also elected all three trustees. Sessions won out on the "Citizens" ticket for assessor but he is a vote getter and would have won on either ticket. Merdock had no opposition as clerk.

Seemingly the "Citizens" fellers were so busy on the treasurer-ship they forgot the balance of their ticket. The new men say they will bring into the office the best that is in them for a good business management of the affairs of Northville. The Record believes they will do that and in those efforts they should have the hearty co-operation of the citizens of Northville in general.

Following is the vote in full "Workingmen's" ticket coming first:

| | | |
|------------|-------------|---------------|
| President— | Dubuar 221 | Kohler 156 |
| Trustees— | Lanning 217 | Perrin 144 |

| | Rutton 225 | Porter 145 |
| Treasurer— | Muller 186 | H. Seeley 190 |
| Assessor— | Knapp 127 | Sessions 246 |
| Clerk— | | Murdock 375 |

DEATH OF PETER PHILLIPS

Father of Mrs. Elmer DeKay of this Place.

Peter Phillips died early Wednesday morning of heart trouble, at the home of his daughter, Mrs. Elmer DeKay.

Deceased was born in New York state, Sept. 7, 1832 and came to Michigan when very small settling in Oakland county where he lived until last fall when he came to live with his daughter.

In 1852 he was married to Miss Julia Taylor, who preceded him to the Better Land twelve years ago. Two daughters and one son came to bless this union.

The funeral was held Thursday afternoon from the house, Rev. S. F. Dimmock officiating, and the remains buried in Everitt cemetery near South Lyon.

Home Telephone Company.

The Northville Home Telephone Co. have completed cutting their old lines over on the terminals of their new exchange which has been a very tedious and complicated piece of work. All subscribers' lines now come through the cables to the new board and from there are carried to the old board by temporary cables. In doing this subscribers will not be out of service any longer than one instrument can be taken out and another put in its place. The work is progressing rapidly and they will be ready to give service on the new exchange about the 20th.

Sixteenth Anniversary.

The W. R. C. held its regular meeting Wednesday evening and after the business had been transacted, the remainder of the evening was devoted to games and a good time in general in commemoration of its being the sixteenth anniversary of the organization. A fine supper was served and, judging from what we hear, the occasion was a very enjoyable one.

VIOLATIONS OF THE GASOLINE LAW

DEPUTY OIL INSPECTORS MAKING COMPLAINTS.

Three Arrests and Fines So Far This Year.

The State Oil Inspection department is looking after the Red Can Gasoline violations very closely these days. Some merchants at Traverse City reported violations of the law in that city and a deputy dropped off and bought a gallon of the explosive article in a kerosene can of a grocer and upon complaint before the prosecuting attorney the man was fined \$5.00 and costs.

At Union City last week a similar case came up and another merchant paid a similar fine and costs.

A firm at Marshall sold five gallons of gaso a few weeks ago in a kerosene can and a bad explosion was only averted by the prompt action on the part of the husband throwing the lamps out doors just as his wife had lighted them. Upon complaint of the department the prosecuting attorney issued a warrant and another fine of \$5.00 and costs resulted.

Merchants who deal in gasoline should be careful to comply strictly with the law. Deputy inspectors are dropping around in every town in the state and where evidence is secured prosecutions will follow.

Village Improvements.

The Village Improvement committee has asked and received from the Record a little space devoted to Village Improvement. All citizens are cordially invited to participate in the movement and suggestions for this little corner are very welcome. This would be a good time to pull down all advertising signs on public and unused buildings.

Methodist Church Notes.

(By the Pastor.)

The regular services will be held next Sunday, morning and evening. A number of improvements are being made in the interior arrangement of the parsonage.

The Woman's Home Missionary society will meet with Mrs. Clyde VanAtta next Tuesday afternoon, March 17.

The officers of the Epworth League should not forget the cabinet meeting at the church this evening. Important business is to be considered.

A messenger service to assist the pastor has been organized among the boys and girls of the Junior League. These young people are doing fine work.

The quarterly tea and social evening for January, February and March will be given Wednesday of next week by members of the Ladies' Aid society in Ambler's Hall. A good supper will be served for 15 cents, to which everybody is cordially invited by the ladies. Come and enjoy yourself.

INSPECTED A LOT OF KEROSENE OIL

MORE THAN TWENTY-THREE MILLION GALLONS LOOKED AFTER

Fees Net the State of Michigan—Sum of \$13,408.16.

In his annual report just filed with the governor and the state board of health, the State Oil Inspector announces that for 1907 the department after paying all expenses has turned over \$13,408.16, the largest amount from this source in the history of the state. During the year 23,261,418 gallons of oil were inspected and 7,091 gallons were rejected as dangerous for illuminating purposes. No accidents were reported as the result of the use of kerosene oil and only three cases from gasoline since the law of Nov. 1, 1907 requiring that gasoline be delivered only in red cans was passed.—Detroit Journal.

OPINIONS FROM THE STATE PRESS

Governor and the Farmers.

As we remember it, Michigan never before had a governor who laid awake nights studying how he could make the state's guests in Jackson prison earn their keep and at the same time do something for the farmers. Contractors buy, therefore, received most of the profits from prison labor, but now that Governor Warner has his twine plant in operation, and the contract let to an organization of farmers who will distribute twine among farmers of the state at a figure which is much less than the trust has been charging, we don't mind starting another encore. We are ready to stack him up with any of the governors Michigan has had, dead or alive—not necessarily for polish, political sagacity or statesmanship, but for common, ordinary horse sense—for his independence and rugged honesty. Yet some of the very people who recognize in these attributes qualities which are greatly to be desired in a governor are already showing their teeth because Mr. Warner is willing to accept a third term. Consistency, any place is in the show case of a jeweler.—Portland Review

Close to Hearts of People

That there is an extremely kindly feeling among the farmers toward Governor Warner is something that cannot be gainsaid. The Sentinel, has been surprised at some of the revelations on this matter within the few days last past. People whom we would have been inclined to put down as strongly anti-Warner are unmistakably for him. They speak of him as frank, honest, courageous and always on the side of the people as against the special interests. They also think that there is work for him yet to do and that he ought to be kept where he can do it. In many cases we have been no less surprised than pleased at the expressions we have heard. Governor Warner is very close to the hearts of the people.—Ionia Sentinel.

The Governor's Challenge to "Tip" Atwood.

In zero weather hundreds of farmers of Tuscola county gathered at Caro, bearding Atwood in his den, and presented voluminous and emphatic petitions urging Gov. Warner on in his contest for complete primary reform. At the spring election they propose to vote on the question of supplanting the trafficking convention system, under which they had been led like lambs to the slaughter for years, by direct nominations in Atwood's district.

Gov. Warner is to be congratulated on his courage in going right into the heart of the enemy's country and challenging the "boss" to a trial of strength in the affections of his own people.—Detroit News.

If I Quake. We boast of our emancipation from many superstitions but if we have broken any idols, it is through a transfer of the idolatry. What have I gauded, that I no longer immolate a bull to Jove, or to Neptune, or a mouse to Hecate that I do not tremble before the Eumenides or the Catholic purgatory of the Calvinistic judgment day—if I quake at opinion, the public opinion, as we call it? Mr. Barnes, American. Archibald Claverling Gunter. A Sequel to Mr. Barnes of New York. Author of "Mr. Barnes of New York," "Mr. Potter of Texas," "That Frenchman," etc.

Mr. Barnes is a wealthy American touring Corsica, rescues the young English lieutenant, Edward Gerard Anstruther, and his Corsican bride, Marina.

CHAPTER XIII.—Continued. "That was not so," cries Marina. "The English officer who shot Antonio fell under the Egyptian guns by the hand of God. The man I love is free of any blood stain."

CHAPTER XIV. Before a Corsican Election. Escorted by the mountaineers, two stowaway young men carrying Made-moiselle Paoli down the dizzy path, they skirt the dread precipices of Del Oro and passing the vineyards and the clearings, come into the main road leading from Corte, then descending the hill are in the chestnut groves of Boccagnano.

Lesson Taught by Life's Ills. He who has not known poverty, sorrow, contradiction and the rest, and learned from them the priceless lessons they have to teach has missed a good opportunity of schooling.

Near the entrance are two illuminated placards, one reading: "Vote for Saliceti, who upholds old Corsica!" The other: "Cast your ballots for Bernardo, the man who kills!"

Surrounded by the young men, Tomasso in the dim light is not noticed, and Marina has drawn her mantle close about her face.

The party enter the low hall of the municipal, which is lighted by lamps and decorated by myrtles and cyclamen flowers. It is well filled by a crowd of farmers, peasants, wool growers and shepherds.

Catching sight of the commanding figure of the great bandit, the adroit politician bursts out rapturously: "Ah, thanks, grand Antonio Bonelli, for thy presence and countenance. You have come to say to me, 'Bernardo, you are a true Corsican, in you is upheld the honored custom of the vendetta to the twentieth generation.'"

CHAPTER XIII.—Continued. "Attention, all!" commands Antonio. "Listen to my words. If not, my followers shall give sharper notice to you!"

CHAPTER XIV. Before a Corsican Election. Escorted by the mountaineers, two stowaway young men carrying Made-moiselle Paoli down the dizzy path, they skirt the dread precipices of Del Oro and passing the vineyards and the clearings, come into the main road leading from Corte, then descending the hill are in the chestnut groves of Boccagnano.

"Tis a time, she having stood in the shadows of the rear and the lamplight of the room being very dim, in their excitement the concourse had not noticed her; but as Marina steps forward, some men turn away, a woman whispers: "Tis a pity the blood of Pasquale Paoli flows in her," and a young cavalier remarks: "We honored your wedding, Madame Anstruther, but then we did not know that you had forgotten your oath of the vendetta and were mating with the slayer of your brother."

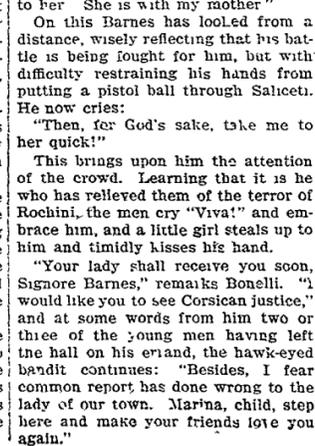

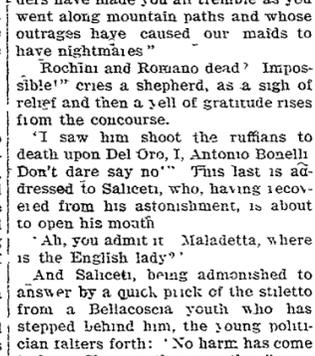

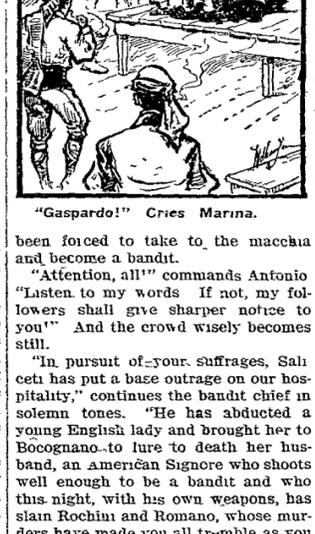

"Gaspardo!" cries Marina, with a gasp of horror, "my childhood's friend, how dare you say this?" and staggering onto the platform, and seeing condemnation, horror and disgust in the faces she had known from childhood, the girl simply but with great nobility of manner, tells them how Musso Danella, inspired by devilish jealousy, had turned the articles in a dead man's trunk into evidence that the English officer whom she had nursed to life in the Egyptian hospitals and whom she loved with her whole heart, was the principal in the duel at Ajaccio, the man who had slain her brother.

"But there is one I will not forgive," cries the girl sternly; "this Saliceti, Bernardo, who had known me in my youth, who spread these reports all over the mountains that I have disgraced my very womanhood in giving myself to my brother's murderer."

CHAPTER XIII.—Continued. "That was not so," cries Marina. "The English officer who shot Antonio fell under the Egyptian guns by the hand of God. The man I love is free of any blood stain."

CHAPTER XIV. Before a Corsican Election. Escorted by the mountaineers, two stowaway young men carrying Made-moiselle Paoli down the dizzy path, they skirt the dread precipices of Del Oro and passing the vineyards and the clearings, come into the main road leading from Corte, then descending the hill are in the chestnut groves of Boccagnano.

Not Trying to Hang on Office.

Governor Warner isn't trying to hang onto his office, but he is trying to force a reform or two. If the Boxers will agree, in case a special legislature is called, to assist in passing a state wide primary election law, a law to tax telephone and telegraph companies on same basis as other property is taxed, a law against stock watering, he will agree to withdraw as a candidate.

Has the Courage to Fight for It.

Governor Warner may not be a most profound statesman and it is just possible that there are others who can do fully as well or possibly better what he has attempted to carry out, but it is certain that Gov. Warner has discovered what the people want and has had the courage to stand up and fight for measures demanded by the people, which is more than has been done by any republican governor since Pingree's time.

No man can be nominated at the primaries or elected at the polls on any ticket in this state who openly denounces the measures which Gov. Warner is now advocating and asks a republican legislature to place on the statute books of the state.—Mt. Clemens Daily Leader.

Improve Northville.

The organization of an Improvement society in the village ought to prove of no little value. The good work accomplished by such societies in other villages and cities have accomplished unestimable good in beautifying the village and improving its sanitary conditions. The society should receive the support of every resident of Northville.

The annual village report published last week shows the sinking fund to contain \$3,654.12. Seemingly it would be a good idea for the village to either retire some of the existing 5 per cent bonds or else purchase some new ones—If that would be legal—which will draw for the village the same or greater rate of interest. The village pays a bond interest of \$3,250 or nearly one-half of the entire village tax, and a bond purchase each year with the sinking fund money would soon materially lessen the village taxes.

An inmate of the Marquette prison who has recovered from his insanity now has \$600 invested in copper stocks. The question arises was he sane or insane at the time he bought?

Useless.

Arthur Power, of the Eleventh grade, has been having his heel operated on for tuberculosis of the bone and will have to walk on crutches as a result.

The Third grade pupils are working hard to see who can find the most ways of writing the multiplication tables as those who find the most get a half holiday.

The Third grade blackboard is a scene of spring, there being a regular forest of maple trees that have been tapped and are now filling the buckets with sap, while in the distance a kettle hangs over a fire.

Scientific Phenomenon. It has been found that if two layers of pure water, one hot and the other cold, are separated by a membrane, a process of endosmosis takes place from the cold to the hot water, exactly comparable to that between water and sugar solution. The same phenomenon is shown in a very marked way when hot and cold air are separated by a membrane.—Engineer.

The Best Laxative for Children. Parents should see to it that their children have one natural, easy movement of the bowels each day. Do not dose the child with salts or gripping pills, as they are too powerful in effect, and literally tear their little intestines to pieces, leaving the bowels weakened and less able to act naturally than before. Laxative Iron-Oxide Tablets tone and strengthen the bowels, and stimulate all the little organs to healthy activity. Chocolate coated tablets, easy to take, never grip or nauseate. 10c, 25c and \$1.00. For sale and recommended by Murdock Bros., Druggists.

Forming Character. Nobleness of character can only be attained by the power of steady persistent effort to reach our highest good. Character is what we make it by the use of our powers in routine matters.—French.

American Printing Company Fabrics

Mammoth Sale and Display Here For Two Weeks

7c This week we inaugurate the Spring season with a great display and sale of American Printing Company fabrics. Good news for women who contemplate buying material for wash dresses, aprons, wrappers, kimonas, boys' waists, etc. American Printing Company fabrics are absolutely the best in the world, and the opportunity to buy them at a special price is seldom offered. But we have thousands of pieces for this introductory Spring sale—all the newest patterns and colors—a bewildering variety of styles—and you can take your choice of the entire assortment for only 7 cents. Nearly all of the wash-goods section and two of our large show windows are required for the mammoth display of American Printing Company fabrics. You will do well to anticipate your needs far into the future, as American Printing Company fabrics, at 7c per yard, are a bargain that cannot be duplicated.

The colors of the American Printing Company fabrics are absolutely fast. The blues are dyed with pure indigo, the reds and blacks with fast colors. American Printing Company fabrics repay careful making, as they can be washed over and over again.

American Printing Company fabrics make pretty and durable school dresses for misses and children. The soft and brilliant colors are a continual delight to young wearers, while the small cost of the material allows more dresses than when more expensive goods are used.

No other wash materials are at once so pretty and economical as American Printing Company fabrics. By using them you may have three dresses for the ordinary price of one, without any sacrifice of style or beauty.

Among the most desirable new designs in American Printing Company fabrics are the mercerized foulard styles, in light and dark indigo shades, which produce exactly the patterns of the latest imported foulards, and the new Scotch gingham styles, which reproduce the exclusive Scotch gingham.

The Cleveland school fire in which the lives of many children were lost last week, leads a well known Northville citizen to call the Record's attention to the fact that the doors of nearly every public hall in the village opens inward. A little precaution along this line he suggests might possibly some day save a lot of trouble.

Some sixty or more gentlemen of the village gathered at the home of Oscar Harger last Friday evening. It was a surprise party for Oscar and he certainly was a frustrated mortal. His wife and daughter had carefully planned the affair and it was a huge success. A number of guests were present from Detroit and more were detained because of the floods in that city. After the luncheon was served a number of the guests responded to toasts, W. H. Hutton acting as toast-master.

To the Record, a member of the school board says, the schools here are in a safe condition so far as fires are concerned. All exits open outward and the stairways are wide and easy to descend. All the boilers are inspected every three months. There are no alarm gongs or fire drills but these the board are now considering and they will undoubtedly be introduced very soon.

On Monday evening Mr and Mrs. E. A. Kohler and the Misses Lena and Fernella and Fred Kohler entertained the Pedro club by giving them a sleigh ride party down to the farm of A. H. Kohler formerly the Tubbs farm. Cards and dancing were indulged in. Lunch was served at 12 o'clock and in the wee small hours in the morning, if you had listened, you could have heard the horns and bells telling folks it was time they were up.

The old building of the Boys' Home at Clarendonville was burned last Thursday night. THE OSTEOPATH

Searches for points of abnormal pressure, along the spine or elsewhere, causing nerve irritation or obstructing the circulation of the blood. When these are found he proceeds to "remove the pressure" by readjusting slipped or twisted bones or relaxing contracted muscles, thus freeing the forces of life—the blood stream and the nerve currents. Osteopathic treatment is neither rubbing nor massage—it is simple adjustment of the human body machine. For further information, call on

DR. FÄRBER, OSTEOPATH, who is at the Park House Tuesday and Friday of each week from 10 a. m. to 4 p. m. Ladies treated at their own homes. No charge for consultation. Chronic cases a specialty.

No other medicine has been so successful in relieving the suffering of women or received so many genuine testimonials as has Lydia E. Pinkham's Vegetable Compound. In every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every one you meet has either been benefited by it, or has friends who have. In the Pinkham Laboratory at Lynn, Mass., any woman any day may see the files containing over one million one hundred thousand letters from women seeking health, and here are the letters in which they openly state over their own signatures that they were cured by Lydia E. Pinkham's Vegetable Compound. Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations. Lydia E. Pinkham's Vegetable Compound is made from roots and herbs, without drugs, and is wholesome and harmless. The reason why Lydia E. LATEST NEWS OF MICHIGAN

THE PRIMARY PETITIONS ARE SUBMITTED AND BEING CHECKED.

SAGINAW STANDS ALOOF.

The Results of the Work Done for Primaries is Now to Be Determined—Some of the Predictions Made.

A big force of clerks in the office of the secretary of state is now going over the primary petitions submitted and checking up the names to see that the petitions were properly signed. While no figures can be given out, it is asserted that unless there is an enormous shrinkage enough names have been filed to submit the question in every senatorial district in which a campaign has been carried on—and also in the seventh congressional district.

If the primary proposition carries when submitted at the spring election it will leave only the fourth district to nominate its congressman under the old convention system. There is hardly a possible chance of the proposition failing to carry in the seventh, because Congressman McMoran has advised his friends not to fight the primary, but to help it along because he is willing to take his chances in a primary.

The district from which petitions have been submitted, together with the counties, are as follows:

Sixth, Kalamazoo, St. Joseph; eighth, Allegan, Van Buren; eleventh, St. Clair, Macomb; twelfth, Oakland, Washtenaw; fifteenth, Barry, Eaton, Clinton; twenty-first, Tuscola, Lapeer; twenty-fifth, Mecosta, Isabella, Gratiot; twenty-seventh, Antrim, Kalkaska, Missaukee, Wexford, Grand Traverse, Leelanau, Benzie, twenty-ninth, Cheboygan, Presque Isle, Alpena, Emmet, Charlevoix, Otsego, Montmorency.

The primary system is already in force in the first, second, third, fourth, fifth, thirteenth, fourteenth, sixteenth, seventeenth, eighteenth, nineteenth and twentieth.

If it carries in all the districts where it is to be submitted, the districts which will not have the primary will be:

Seventh, Berrien, Cass; ninth, Calhoun, Branch, tenth, Jackson, Hillsdale, twenty-second, Saginaw, twenty-third, Muskegon, Ottawa; twenty-fourth, Midland, Bay, twenty-sixth, Manistee, Mason, Lake, Oceana, Newaygo, twenty-eighth, Alcona, Oscoda, Crawford, Iosco, Ogemaw, Roscona, Arenac, Gladwin, Clats, Osceola, thirtieth, Menominee, Delta, Schoolcraft, Luce, Mackinac, Chippewa, thirty-first, Gogebic, Iron, Marquette, Dickinson, Alger, thirty-second, Ontonagon, Houghton, Keweenaw, Baraga. On the governorship, the primary is state wide and embraces the 83 counties of the state.

The only place in which the primary forces failed to get the required number of signers, in which a fight was made, was in Saginaw.

The Brother Called.

Sheriff Kline, of Ingham county, dropped into Port Huron Friday afternoon and visited the St. Clair County Savings bank, where he served Fred T. Moore, the cashier, with a subpoena to appear before the grand jury at Mason. Mr. Moore is a brother of ex-Banking Commissioner G. W. Moore, and it was in this institution that the deposit of state money from \$20,000 to \$50,000 and decreased the rate of interest exacted from the bank from 2 1/2 to 1 1/2 cents.

After Many Years.

After waiting 30 years, Miss Laura G. Clark left Muskegon Saturday for Seattle, Wash., where she will be married to Owen Mulholland. Thirty years ago the couple were lovers in the village of Ashton, Osceola county. Mulholland left the village on a prospecting tour and did not return. The girl's faith in her lover was undying. Recently he was heard from in the west where he had grown wealthy. Following a short correspondence the couple decided to carry out their youthful plans and be married.

Dropped Dead.

John W. Curtiss, of Whittemore, real estate and insurance agent, dropped dead Saturday morning. He was the earliest business man in Whittemore, and disposed of more land, it is believed, than any other agent in northern Michigan. He sold 200,000 acres of the Keystone lands. About the same time Archie McLean, a hotelkeeper of Onaway county, 40 years old, dropped dead at Emery Junction on his way to Whittemore to visit brothers and sisters. Death in both cases is attributed to heart disease.

A WELL MAN, AT 81.

The Interesting Experience of an Old Settler of Virginia.

Daniel S. Queen, Burrell Street, Salem, Va., says: "Years ago while lifting a heavy weight a sudden pain shot through my back and after that I was in constant misery from kidney trouble. One spell kept me in bed six weeks. My arms and legs were stiff and I was helpless as a child. The urine was discolored and though I used one remedy after another, I was not helped until I used Doan's Kidney Pills, and I was so bad then that the first box made only a slight change. To-day, however, I am a well man, at 81, and I owe my life and health to the use of Doan's Kidney Pills."

JUDGING BY THE RESULTS.

Villager's Conversion Had Not Been of Great Avail.

"In our business we get many doubtful compliments," said Col. John F. Bishop, deputy surveyor of the port, the other day, "but I do not think I ever received a compliment such as my grandfather got down in my native state of Tennessee. My grandfather was a minister and I was a very small boy when we both strolled down the road one day. One of our fellow villagers came along toward us."

"Good morning," said the villager, who apparently had looked upon the cup. "Ish con-ver-see-ee, par-son, he stammered with difficulty. "An-thwashyoo-hic—that con-hic-converted-hic-me."

"That must be so," replied my grandfather, "for it's certain the Almighty had nothing to do with your conversion."—New York Evening Telegram.

THREE CURES OF ECZEMA.

Woman Tells of Her Brother's Terrible Suffering—Two Remedies Also Cured—Cuticura Invaluable.

"My brother had eczema three different summers. Each summer it came out between his shoulders and down his back, and he said his suffering was terrible. When it came on the third summer, he bought a box of Cuticura Ointment and gave it a faithful trial. Soon he began to feel better and he cured himself entirely of eczema with Cuticura. A lady in Indiana heard of how my daughter, Mrs. Miller, had cured her little son of terrible eczema by the Cuticura Remedies. This lady's little one had the eczema so badly that they thought they would lose it. She used Cuticura Remedies and they cured her child entirely, and the disease never came back. Mrs. Sarah E. Lusk, Coldwater, Mich., Aug. 15 and Sept. 2, 1907."

OLD GENTLEMAN NOT PLEASED.

Letter's Inscription Certainly the Reverse of Flattering.

In the English club at Hongkong a white-haired old gentleman, who had come down from some northern port, was seated at dinner when he suddenly became very excited. He had been brought a letter by a solemn-faced Chinese butler, and he saw something on the outside of this letter which sent him downstairs two steps at a time to interview the hall porter. When he came back he told us what was the matter. The hall porter had inscribed in the envelope, in Chinese, for the information of the butler.

"This is for the old baloon with white fur?"

Unfortunately for the hall porter, the old gentleman was a first-class scholar in the Chinese language.

"Water," one asked, "what sort of fish are green bluefish?"

"Fresh—right out of the water," said the waiter, offhand.

"Nonsense," said the man. "You know well enough that they do not take bluefish at this season!"

The waiter came up and looked at the disputed item.

"Oh, that, sir," he said, with an air of enlightenment, "that's a hot-house bluefish, sir."—Youth's Companion.

Specialist in Orthodontia or Irregularity of the teeth.

Irregularity of the teeth is a condition frequently seen and greatly to be deplored. Few people have any comprehension of the ability possessed by modern dentists in correcting these abnormal conditions of the teeth. Thus many grow to

members and neighborhood, whose faces have become deformed or whose expression is unnatural or displeasing, because they have no knowledge of the improvement which could be made by a competent Dentist

The results of irregular teeth are that they mar the appearance of the individual, interfere with clearness of speech, impair the ability to masticate the food thoroughly and by reason of their crowded or abnormal position afford favorable lodgment for food particles and thereby induce decay.

When a child presents itself I study the features and the irregularities and oral deformities. I look at the child's face and then at its profile, and endeavor to ascertain, if possible, what facial change will be brought about by any corrective art that may be applied to the case. In my judgment more is lost than gained by the removal of teeth for the correction of irregularity and should never be done, except possibly in very rare cases. I consider it possible to take any person under

For the Hot-Water Bag. Heat applied locally for neuralgic pains is very soothing and effective. It is best to have a hot-water bag always in the house, as it is one of the best ways of applying heat. The heat of the water may be too intense to hold the bag itself against the skin, so it is a good idea to make a flannel bag for covering the rubber bag.

USED HIS STORED KNOWLEDGE.

When High School Learning Came in Handy to Business Man.

'I used for the first time today something I learned 15 years ago, said a writer in the Milwaukee Sentinel. 'It was the application of a principle in geometry in relation to the inscribing of a hexagon in a circle, which I learned when at the high school. I had an order placed for some taborettes (that is flower stands) given me and the party that gave me the order wants the tops 16 inches across. Well, that was easy enough to fill, but beside that the sides were to be hexagonal, so I had to sit down and figure out how much five-eighths-inch wood would have to be leveled off to have the parts fit exactly. Here is where I used my geometry.

'Daniel Webster is quoted as saying that he once used a fact which had lain dormant for 14 years, so I have him beaten by a year. 'You often hear people say 'What is the use of learning this?' seeing no use for it at the time, but things which at the time seem most impracticable are often later of use. That is one of the complaints in our public schools, but as in my case it may some day prove of use.'

Hold Confidence Sacred. In intercourse with society it behooves us to keep in mind that a burdened spirit, in the relief afforded by communication and sympathy, is sometimes led into disclosures which may afterwards be sorely regretted. It should be felt binding, therefore, on the honor of the receiver, to hold sacred even an implied confidence.—Gilbert Ann Taylor.

Gage has sold his house and lot to Carey Hosner, who will take possession about April 1st. As there were only about forty present at the Methodist church Friday evening Prof. Fall did not deliver his lecture on 'The 20th Century Boy'. It was postponed until the first of April. However the Dr gave a very interesting talk on the New Constitution. No admission was charged but all who attended felt well paid for coming out through the flooded roads to hear such an able speaker. There was a good attendance both Sunday morning and evening to hear Rev. Mr. West of Perry, who is one of the most interesting speakers heard here in a long time. In the morning he told 'How the dollar goes' explaining in a graphic manner the way the Missionary society expends its funds. He emphasized the fact that out of every dollar given for missions 97% cents actually reached the foreign field, it costing only 2% cents on every dollar to carry on the expenses of the Missionary society. In the evening Mr. West described the terrible conditions in India. He talked for more than an hour without tiring his audience who would gladly have listened longer.

KEEP THE KIDNEYS WELL.

Health is Worth Saving, and Some Northville People Know How to Save It.

Many Northville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Northville citizen's recommendation: J. M. Ambler, living on Main street, Northville, Mich., says: 'Some five years ago Doan's Kidney Pills, which I procured at Murdoch Bros' drug store were used by Mrs. Ambler and myself with most satisfactory results. We both suffered from sort of rheumatic pains in the back over the region of the kidneys. I often felt as though it was impossible to go about my work. We tried several remedies but were not benefited until we began using Doan's Kidney Pills. Their use gave us prompt relief. At that time I gave a statement telling our experience for publication in Northville. I can only add now that our faith in this remedy is as great as it was at that time.'

For sale by all dealers; price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no other.

Horse with a Speaking Tube.

Perhaps the only horse in the world provided with a 'speaking' tube direct from its stall to its owner's living apartments is Birthday, a hunter, owned by Mrs. Walter Wadham-Petre, of London. Hearing it neigh at night, she concluded to have an arrangement constructed so that she could speak to it from her rooms. 'Now,' said she to a visitor recently, lifting up a trapdoor six inches square, which was hidden beneath a Turkish rug, 'when I say, 'Hello, boy!' you will hear Birthday respond with a cheerful whinney.' According to a writer in a London paper, no sooner had Mrs. Wadham-Petre spoken than the horse set up a series of whinnies.
