

THE NORTHVILLE RECORD.

Vol. XXXIX. No. 35.

NORTHVILLE, MICH., FRIDAY, APRIL 3, 1908

\$1.00 Per Year in Advance

TWO STRONG TICKETS

NORTHVILLE TOWNSHIP OFFICERS ARE NOMINATED.

Floyd Northrop and Charles Sessions Head the Runners.

For township officers there are two strong tickets in the field this year as a result of the caucus of Saturday and Monday.

There were 110 out at the Republican caucus Saturday afternoon. All the nominations were unanimous with the exception of treasurer which was won by Dean Griswold by a vote of 67 to 43.

Floyd Northrop, one of the most popular and progressive young farmers of this section, was nominated by acclamation for supervisor and he should receive the unanimous support of the Republicans of the township. He is a man who will fill the office with credit. Jesse Clark was nominated for Highway Comr. and Fred Tousey for clerk.

The Democrats held their caucus Monday night and again headed their ticket with C. A. Sessions for supervisor, A. C. Balden for treasurer, F. L. West for clerk and B. A. Northrop for Highway Comr. The ticket is also regarded as a strong one but the Republicans have the advantage of a goodly sized majority and there is apparently not much chance for a Democratic winner this year.

Following is a complete list of the nominees:

School Inspector—L. A. Babbitt

Constables—Willard Cole, Myron Robbins, Frank Taylor, Gus Schoof
Township Committee—B. A. Northrop, T. E. Murdock, C. A. Sessions.

Why Don't They Take Front Seats?

Why do people grab for front seats at a theatre and back seats in a church? With three or four empty front church pews in one or more Northville churches last Sunday many extra chairs had to be placed near the front door to take care of the back-seaters. At operas, the people get front seats probably to better hear and see the ladies sing. Well, now! No stage in the world has a nicer lot of people than can be found in Northville's church choirs and they wouldn't have to take a back seat for looks either. Then what's the matter with the front church seats? The preachers never get so excited as to in any way endanger the front-seat sitters. Then what's the matter with the front seats? Are we too modest? or haven't we our new spring hats? or do we sit back so as to see other people's hats? Honestly now, we can't just answer these questions for we are one of the back-seaters. How would it do to put all the first arrivals in the back end and the last arrivals way up in front?

NORTHVILLE F. & A. M. ENTERTAIN BROTHERS

ABOUT FIFTY MASONS FROM MILFORD LODGE PRESENT.

Banquet Served, Toasts Given and Work Exemplified.

On Monday evening Milford Lodge, No. 165, F. & A. M., paid a fraternal visit to Northville Lodge, No. 186, of the same order, and a better time never was had by any society then was had at this meeting. There were between forty and fifty of the visiting brothers present and when they arrived on the afternoon train they were met at the depot by a delegation from this lodge who had secured several good sized conveyances and were driven to the fish hatchery and all other points of interest about town.

After the town had "been done" they were taken to the lodge rooms where a sumptuous feast had been prepared by the banquet committee, superintended by several of the ladies, after which toasts were given by a number of the brethren, L. A. Babbitt acting as toastmaster.

In the evening the work was exemplified by the visiting lodge. They left on the early morning train for their homes declaring they never had had such a good time before.

Beach Says He's for Floyd.

A rumor has been circulating about town for a few days to the effect that Beach Northrop was not in favor of the election of his son Floyd to the supervisorship and would not support him. Mr. Northrop says this is not true. "While I did not exactly favor his nomination," he says, "yet since his party has nominated him by acclamation, I shall do all I can consistently to aid him in the election."

New Phone Directory.

The Home Telephone company have a force of ten men out now installing new phones for connection with their new plant in the Lapham Bank building. The new directories will be distributed Tuesday. Everybody has a new number and it will be absolutely necessary to call by number hereafter as the operators are not accustomed to the new board well enough to remember three or four hundred names.

Will Predmore Hurt.

William Predmore was seriously injured by being thrown from his wagon-load of wood late yesterday afternoon. The horse which he was driving ran away and in the accident Mr. Predmore was badly injured about the head and shoulders.

Don't forget the date of the Easter Millinery Opening at McHugh & McHugh's. It is April 3 and 4.

MRS. FRED DURFEE OF NOVI, DEAD

AFTER SHORT ILLNESS OF COMPLICATION OF DISEASES.

Dearly Loved by All Who Knew Her.

A gloom was cast over Novi Wednesday morning when the sad news was spread abroad that Mrs. Fred Durfee had passed away. She had only been ill a little over a week and Tuesday she was much better and it was thought she would get along all right but in the morning her heart began to weaken and she died before stimulants could be given her.

Mrs. Durfee was born in Novi and was the daughter of Mr. and Mrs. Washington West and by her death Novi has lost one of its rare jewels. She possessed that sweet, unassuming way that won for her the love and respect of all with whom she came in contact. Since early childhood she had been a great worker in the Baptist church and Sabbath school and was always ready and willing to "do with her might what her hands found to do."

She leaves a husband, three small children, one brother and a mother whose hearts are crushed with grief by the sudden death of their loved one.

She will be missed, not only in her family, but in the community where she has always lived. The funeral will be held today (Friday) from the Baptist church at Novi at 1:30 p. m., Rev. Mr. Harding, officiating. Interment in Novi cemetery.

Winter Night Club's Last Meet.

The Winter Night club has their last meeting tonight and to celebrate the event the club invites the families of the members and also the Woman's club and their families. A little extra will be put on in the way of entertainment.

OPINIONS FROM THE STATE PRESS

Gov. Warner Certainly Applying the Best Authority.

A morning newspaper criticizes Gov. Warner's activity in the promotion of primary reform, because primary reform will give the people a chance to nominate their own officials instead of permitting the respective political machines and their bosses to make the nominations. Gov. Warner has been criticized by The News with reserve whenever his policy has been regarded as faulty, but The News can see no impropriety in a third term if it comes to Gov. Warner as a free expression of the people of Michigan.

To condemn the governor's endeavors in behalf of primary reform would be the height of inconsistency, for even if he is doing it with a view to his own nomination he is applying it at the seat of power. If a majority of the people say he is their choice for governor this year, and repeat again and again, his title to the office cannot be disputed on any reasonable ground. How often have governors been nominated by the machine, and after demonstrated inferiority been forced upon the ticket again? The machine has confessed its limitation of power when it has refrained from offering any incumbent for a third term. That confession of weakness seems to be regarded by machine politicians and their organs of publicity as the limit of propriety if not the unwritten law beyond which no governor can go. Equally illogical is the assumption that any governor who is elected for one term is entitled to a second term, if he can survive the first without involving himself in scandal or throwing his party into confusion.

As long as the people have both the selection and election, any competent man among the 2,500,000 citizens is eligible. It makes little difference whether we have a new governor every two years, every four years or every ten years.—Detroit News.

It is suggested that the window just back of the voting machine be captured at Monday's election so that the acts of the voters are not quite so plain from the streets.
Mr. and Mrs. J. A. Dart were called to Marion, N. Y., Saturday by the death of the latter's father. Mr. Dart returned Tuesday evening but Mrs. D. will remain for a few weeks' visit.
The Foresters entertained a number of their friends Friday evening and after a literary and musical program ice cream and cake were served. Everybody had a good time even if it was crowded.
While investigating the attic in the Root cottage on Wing street last week, Lyman Brooks found the family bible of Dr. Northrop, Mrs. Root's father. It is 119 years old and is in a fine state of preservation. Mr. Brooks at once took it to its now rightful owner, J. C. Northrop, who will prize it very highly.
The usual April fool jokes were indulged in Wednesday. One lady was notified she had a registered letter at the postoffice and to make sure she wasn't fooled she called the "postmaster" on the telephone, or thought she did, before walking four blocks for the letter that wasn't there. A business man was called to the phone when a voice said "hold the line a moment please," and the b. m. held it for a long time before he tumbled to the date. Another Main street resident walked a couple blocks to answer a call on the Bell phone to find there was no call there.

J. M. Green's sugar house came near going up in smoke one day last week and as it was his boiling pan was put out of business entirely. This is quite a loss to Mr. Green as it was one of the best pans in Oakland county.

We are in receipt of a letter from Louis Cook, who is taking baths at Mt. Clemens, Michigan's famous health resort, in which he speaks in very glowing terms of that place. Lou is getting along alright and hopes soon to be able to return to Northville. Time and space will not permit us to publish the whole letter.

Complaint is made that some Northville merchant is selling gasoline at retail in red cans which are not lettered with the word "Gasoline" on the can. This is a clear violation of the law and the dealer who gets caught at it is liable to be called on to pay a fine. The householder who has a can containing gasoline not so lettered is also liable for a fine.

Dr. Ohlmacher of Detroit, a specialist in bacteriology, was called into consultation with Dr. Burgess here a week ago in the case of Mrs. Nelson Schrader, who was in a critical condition from blood poisoning. The opsonic treatment was resorted to and good results have been obtained thus far and the patient is slowly improving. Dr. Ohlmacher stated it the most virulent case of the kind coming under his supervision.

Irregularity of the teeth is a condition frequently seen and greatly to be deplored. Few people have any comprehension of the ability possessed by modern dentists in correcting these abnormal conditions of the teeth. Thus many grow to

manhood and womanhood, whose faces have become deformed or whose expression is unnatural or unpleasant, because they have no knowledge of the improvement which could be made by a competent dentist.

The results of irregular teeth are that they mar the appearance of the individual, interfere with clearness of speech, impair the ability to masticate the food thoroughly, and by reason of their crowded or abnormal position afford favorable lodgment for food particles and thereby induce decay.

When a child presents itself I study the features and the irregularities and oral deformities. I look at the child's face and then at its profile, and endeavor to ascertain, if possible, what facial change will be brought about by any corrective art that may be applied to the case. In my judgment more is lost than gained by the removal of teeth for the correction of irregularity and should never be done, except, possibly in very rare cases, I consider it possible to take any person under

Where Woman Excels.

"Woman's sense of color is better than man's. Where one in 30 women are slightly color-blind, one in five men are so."

The speaker, a physician, continued his experiments with the tintometer, or testing machine.

"You," he said, "can't tell green from blue, and are therefore defective, sir. But you are not absolutely color-blind. Absolutely color-blind persons are very, very rare. I have met but one. He couldn't tell red from yellow, or yellow from blue."

"Why are men's eyes less reliable than woman's as regards color? Some say it is the tobacco smoke that dulls and weakens them. This may very well be, for I have noticed that non-smokers have a somewhat sharper vision."
