UNCLE SAM SUES MRS. CHĄDBÓURNE

SEEKS - \$82,500 FROM CHICAGO WOMAN FOR SMUGGLING LAST AUGUST .-

Mrs. Gardner Is Left Out-District Attorney Sims Says Government Has No Evidence Bostonian Owned the Confiscated Goods.

Chicago, Nov. 18.—Mrs. Emily Crane Chadbourne, daughter of R. T. Crane, was sued Tuesday for \$82,500 by the United States government, District Attorney Sims asking for the forfeit-ure of property Which she was aleged to have smuggled into this counry last August.

Mrs. "Jack" Gardner of Boston, for whom, it was asserted at the time the smuggling story attained publicity, Mrs. Chadbourne had acted, was not mentioned in the bill filed by the government.

This fact was considered the most sufprising thing about the action, which itself had been expected for some time. District Attorney Sims, however, declared that the government had no reason to believe from the evidénce if-had obtained that Mrs. Gardner had been interested in the alleged smugghng.

What the Preperty Is.

The \$82,500 for which suit is brough is the appraised value of the goods alleged to have been smuggled. A payment of \$70,409.18 has already made as penalties. The govern ment insists on receiving the entire \$152,909.18 before it will restore to Mrs. Chadbourne the goodsetemporar

The property of which the forfeitasked by the government in the suit filed is described as follows: One oil painting of "Madonna and Child."

One Italian fresco oil painting. Two wrought-iron torch holders. One marble bust

Five woot and silk tapestries. Think Prosecution Will Be Dropped. The suit filed in the district by Mr Sims and Assistant District Attorney Robert W. Childs, who has had charge of the Chadbourne-Gardner investigation, charges Mrs. Chad bourne with fraud. The inquiry that has been made is one that could, under the law, result in Mrs Chad-bourne's indictment by the federal grand jury and criminal prosecution, but no steps-in this direction have een taken and it is believed that the duties and penalties that have been paid and the forfeiture of the valuable property are sufficient to satisfy the law and that no indictment will be sought before the grand jury

DOWAGER EMPRESS DEAD

CHINA'S REAL RULER FOLLOWS EMPEROR TO GRAVE.

Prince Pu-Yi, Three-Years Old, Placed on Throne of the Flowery Kingdom.

Peking, Nov. 16.-Tsze:Hsi An, the dowager empress of China, the autocratic head of the government, which she had directed without successful interference since 1861, and without protest since 1881, died at two o'clock

Sunday afternoon. The announcement of the dowager empress' death was official and followed closely upon the announcement that Kuang-Hsu, the emperor, had died Saturday at five o'clock in the afternoon, but it is believed that the deaths of both the emperor and the dowager empress occurred a considerable time before that set down in the official statements.

An edict issued at eight, o'clock Sun-day morning placed upon the throne Prince Pu-Yi, the three-year-old son of Prince Chun, the regent of the em-pire, in accordance with a promise given by the dowager empress soon after the marriage of Prince Chun in 1903. An edict issued on Friday made Pu-Yi heir presumptive.

The foreign legations were notified by the foreign board of the death of the emperor and the succession Prince Pu-Yi. Troops have been in readiness for several days to fuell any disorders that might arise on the death of Kuang-Hsu, and the possibility of uprisings was made greater be-cause of the fact that the death of the dowager empress was known close at hand. Two divisions of roops have been held in reserve, and these are now stationed in various quarters of the city.

Prince Chun; the regent, has ordered the vicerovs and governors to take precautions for the continuation of the administration of the provinces as heretofore, and he has-ordered a hundred days of mourning. The court will go into mourning for three years.

CHAPTER IV .-- Continued.

I've been calling the where they had the races and so on a field. Well, twa'n't really a field, but just part of the course where they had troiting matches on cattle show days. There was a fence on each side of it and across the ends of the section they was using there was ropes stretched. Back of the fences was the crowd on foot, and back of the ropes was more of 'em. but behind these ropes-likewise was lots of horses and wagons and carry-alls and such. Every wagon was piled full of people, and amongst 'em I could see the Barry coach, with the four gray steppers prancing up and down in front of it and old Commodore Barry and his son on the front seat, with the women folks behind.

Well, when made a straight course for the lower end of the field, but the sight of the horses and all scared him, I guess, and he jibed and back he come again. Half a dozen of the pig-chasers—them that was nearest to him when he come about-ran into each other and piled up in a heap, squirming like an eelpot. They got up in a jiffy and started over again, meeting the gang that was coming back on the second

By the time that pig had made three lans round that course he was a candidate for the hogs' lunatic asylum. Twice he'd been grabbed, once by the ears and once by a leg, but his liveliness and the grease had got him clear. About half the boys had given up the job, and was making for harbor behind the fence; covered with sand and grease, they was, and red and ashamed. The crowd was pretty nigh as crazy as the pig, only with joy. Even Hartley was laughing out loud -first time I'd ever heard him.

That little chap with the red hair had been right up with the mourners till the third round; then he was stood on his head in the scuffle and left-behind down by the ropes in front of where the Barrys was. The rest of the chasers were scattered around the other end of the field, with the pig doing the grand right and left in and out amongst their legs. One of the boys-that big lanky one whose strangers and not a soul of his own cheeks needed mowing-made a flying jump and dove head first right on top he was such a gritty little mite. I of the critter's shiny black back. In looked at him; chalk white he was, a shake he was the underpinning, so and still, with his eyes shut and his to speak, of a sort of monument of breath coming kind of short and jerky. boys, all fighting like dogs over a woodchuck.

Next thing I knew the pig shot out from underneath the pile same as it begins to breathe more regular. The he's been fired out of a cannon. He doctor seemed to feel better. was squesling when he begun to fly

and squealing when he lit, but his running tackle hadn't been hurt any. Down the field he went and the only one of the chasers in front of him was that little red head. He makes a grab, misses, and the pig keeps straight on right into the crowd of men and horses and carriages.

"Look out!" yells everybody. "Let him go!" But that little shaver wa'n't built that way. Under the ropes he dives, right where the jam of wheels and hoofs was thickest. The Barry coash horses rared up and jumped and backed. You could hear wheels grinding and men yelling and women screaming.

I was one of the first over that fence, but, quick as I was, that Hartley invalid was quicker. As a general thing he moved like 'twas worth while to drag one foot after the other; but now he flew. I could see his big shoulders shoving folks over like they was ainepins. the ropes he went and in where the tangle was the worst. And then it ciosed up into a screeching, kicking whirlpool like. Down he went and I

lost sight of him.

Everybody on the grounds was razy, but I callate I was the worst Bedlamite of the lot. Somehow I feltresponsible. 'Twas me that told about the Fourth of July doing first and got him over there. 'Twas me coaxed him into staying for the consarned pig business. And I kind of felt that I was his guardian, as you might say, now that Van Brunt wa'n't along. Yes, and by ginger, I liked him! Course I thought of the poor lit-Hartley that I thought of most.

For the doings of the next two or three minutes you'll have to ask some body else. All's I remember real well is estebing hold of Jessehar Tydditt's Sunday cutaway and ripping it from main truck to keelson. You see, Issachar was trying to back out of the tangle and I was diving in. Next thing I'm sure of is hanging onto the bridle of one of the Barry horses and playing snap the whip with my feet, up and down and over and under.

She cleared up some finally and there was a ring of folks jamming and pushing and climbing between wheels and under wagon bodies, and in the middle of the ring was Hartley, kneeling on the ground and looking pretty middling white and sick, with a dripping cut over his eye, and with that little shaver's red head in his lap. And old Doc Bailey was there, but how or when he come I don't know. Yes, me and the pig was there, too, but the critter was out of commission, being dead, and I was too busy to think where I was.

"How is he, doctor?" asked Hartley anxious.

The Doc didn't answer for a minute or so; he was bending over the boy sponging and swabbing like all possessed. Poor little chap; he looked white and pitiful enough, stretched out there amongst that crowd of folks around to look out for him. And

And—well, my breath got jerky, too "How is he?" says Hartley again. Just as he said it the boy stirs and

"He'll come round all right now."

says the Doc. "'Twas the kick that knocked him out. The pig got the worst of it and that saved him. are no bones broken. But he'd have been trampled to death afterwards if it hadn't been for you, sir. Better let me fix up that

"What's that?" asked the Doc, stoop ng ôver.

"Did I get the pig? Is the fiver comin' to me?".

Well - you'd ought to have heard the crowd laugh. Somebody sings out, "Three cheers for the kid," and they give 'em with a whoop.

What's the matter with youse? says the youngster, setting up and looking-around, dizzy like. "Aw, cut it out!" he says, when they begun to holler some more. "Did I get the pig?" pig?"

'You bet you did," says the doctor laughing. "You're a spunky little rooster. Whose boy are you, anyway

Belong in Eastwich?"
"Naw," says the little feller, like e was plumb-disgusted. "N'York." Hartley smiled. "A brother out says he, looking up at me.

Major Phinney had been shoving through the crowd and now he was in the front rank, where, so they tell me, he used to be in war time—after the fiğhtinğ was over.

'He's one of them Fresh Air boys,' šays the major, puffing, but pompous. "There's a summer school of 'em been started just outside the town here. Couple of New York women brought the tribe down last week. This one's one."

Little red head turned to Hartley 'Say," he says, 'don't you tell her. "Tell who?" says Martin.

"The teacher. Miss Agony."
"Miss which?"

And just then here comes Issachar, his cutaway hanging graceful and ornamental from the collar and pilot ing a mighty pretty and stylish young the front. She breaks loose from him and runs for'ard and flops down on her knees.

"Why, Dennis! Why, Dennis!" she How could you run away and savs. pehave like this? Are you hurt? Is

"Why, Agnes!" he says. And she went white, too, and then red. "Oh!" says sheen And then "Oh!" again. 'Oh. Martin?"

CHAPTER V. The Cruise of the "Dora Bassett."

After that there was a kind of tab leau, same as them they have at church sociables. Here was Hartley staring at the young woman, and the woman staring at him, and the boysstaring at both of 'em, and me staring at the three, and the crowd around doing grand double-back-action staring Then the party at the whole of us broke up, as you might say.

Hartley, red as a beet now, got up and bowed The young woman got up too and held out her hand in a doubting sort of way. But afore he could take it, she seemed to remember something, or changed her mind, for she dropped the mand and turned to the boy, who was on his feet by this time looking down at the relica of his clothes. And between grease and sand and dirt and rags they made a ruin that was worth looking atmade you think of a rubbish pile with a red danger lantern on top.

"You naughty boy!" says she. 'How could you do so? If you knew how frightened Miss Talford and I have been. Are you hurt, dear?"

"Naw," says the dear, brisk and disgusted. "Sure I ain't."

The young woman fidgeted around m, petting and "pooring" him and pinning him together, so to speak. Hartley fidgeted too, not seeming to have his bearings at all. He acted to me like he wished he was ten thoueand miles away; and yet I cal'late he didn't really wish it neither. The doctor-and Major Phinney were fussing around and the crowd kept getting higger and closing in.

"If you'll excuse me, miss," says I, interfering as usual where 'twas none of my affairs, 'I think perhaps 'twould be a good idea if we went somewheres where 'twan't so popular. Maybe we might go into one of the rooms at the hall or somewheres."

"Why, of course!" says Hartley grabbing at the notion like 'twas a rope I'd thrown out to him. -"We'll go to the half Ag-Miss Page, let me present my friend, Mr. Solomon Pratt.'

So 'twas the Page girl, after all I'd guessed as much, though how she come to be in Eastwich when she'd ought to have been in Europe was more'n I could make out. She looked up at me and reached out her little hand with a kid glove on it. Like wise she smiled—not with her mouth alone, same as an undertaker meet ing the relatives of the departed, but with her eyes too. 'Twas the right kind of a smile. I'm vaccinated and not subject to women folks as a rule but I'd have done considerable to get a deckload of them smiles.

"I'm very glad to know you, Mr. Pratt," says she, just as though she And we shook handsreally shook 'em.

Afore I could get over that shake and smile enough to be sensible, Major Philander shoved her arm into his and headed for the hall. Drat his figurehead! You never could beat that old image when there was a pret-

kind of set back like Then he takes the boy by the hand and falls into the major's wake. Me and the doctor trailed along behind.

The Doc kept talking about what brave thing the Twin's diving under the horses was, but I didn't hear more than half ef.it. I was watching the Page girl's hat and thinking how much prettier 'twas than the ones them boarder girls at the hotel wore. And yet there wa'n't a quarter so many feathers and ribbons and doo dads on it.

The little chap was chirping up to Hartley all the way. What worried him was when he was going to get his five dollars. Martin told him he'd get it all right. He'd advance - it

himself and collect it afterwards. "What's your name, son?" says he to the youngster.

"Denny," says the boy. "Denny? Dennis, you mean? Dennis what?" "Aw, I don't know. Plain Denny

guess."

"Where do you live in New York?" "Over around Cherry street most of the time. Me and the old man used to hang out in the back room of Mike Donahue's place on Mott street till he got sent up. Then I got to sellin' papers and doin' shines and things Sometimes I'd take a shy at the Newsboys' Home nights. That's where Miss Agony—Miss Page, I mean—found me.

I'm one of the Fresh Air kids over to

"Many more like you over there?" "Sure! niñe or ten of us; girls and aÎL. We been here a week now. I skinned out of the window this morn in' and hoofed it over here. Wanted to see the show. Gee! what a gang of jays! You're the guy what put up the candy for me, ain't you?"

"Shouldn't wonder. Do you like vour teacher? "Bet your life." She's a peach. So's

the other one; Miss Talford her name "Humph! What do they call you

over on the east side when you're at home? "Redny," says the little shaver.

Hartley looked down at him and smiled one of his quiet grins.

"Bully for you, Redny!" says he 'You're a brick'

We got through the crowd and into the hall finally. Shutting the door was a job. The folks cutside seemed to think they'd been cheated. I'd like to have got rid of Philander, but you couldn't do that without a block and tackle; he stuck to Miss Page like a kedge anchor to mud bottom... The doctor was putting a strip of sticking plaster on Hartley's forehead cut wa'n't nothing but a scratch, I'm glad to say.

After a spell I see my chance and cornered the major and commenced to talk politics. He was hankering for the county representative nomination and I knew his soft spot. Hartley and the Page girl got together then, but they didn't seem to know what to say

I heard her explaining that she hadn't gone to Europe at all. Her ma had been took sick; nothing to speak of, I judged, spell of "nerves" or the like of that. So Agnes and her chum this Margaret Talford, had seen the chance they'd been waiting for and had got their poor children tribe to gether and come down and took the Lathrop place at South Eastwich Seems Miss Talford had hired it afore intending to go to the Fresh Air yage alone, long's she couldn't get Agnes to go it with her.

"But how is it that you're here?" says she. "I thought you were at the

Hartley explained that, at the last moment, he had decided to try the seashore. He was at Weilmouth for the present, he said

"But you should have known I was here," she says. "I wrote to—to Ed, of course-before I left the city. Oh I see! I sent the letter to your Adirondack address. But it should have -been forwarded."

Hartley stammered a little, but he said quiet that he was afraid perhaps Van Brunt hadn't thought to send word to have his mail forwarded.

I see," she says. == "That's like Ed." Martin seemed to think 'twas too. but all he said was, "He's written you very faithfully. His letters, of course, have gone to Liverpool.'

Well, that was about all. We had to be going. I said good-by and we started for the door. Miss Page came over and held out her hand.

"Mr. Hartley," says she, "I want to thank you for saving Dennis: Major Phinney told me about it. It was brave. And I'm glad that you're not hurt.'

She was pretty nervous, but a good deal less flustered than he was when he took her hand.

"It was nothing, of course," he says. hurried like. "That youngster was worth picking up. Good morning, Miss Page."

He stopped a second to say something about Van Brunt no doubt coming over to see her in a day or so. And then we left the hall and headed We walked along pretty brisk for a

ways, neither of us saying much of anything. Whatever there was I cal'late I said. By and by we come to the railroad crossing. And here Hartley stops short.

"Sol," says he, "I believe I'll go back by train. I don't feel like a sea trip this afternoon. That—er—that crack on the head has shaken me up some, I guess. Explain to Van, will you? Tell him I'm all right, but that I've got a little headache. Understand?"

This is a corruption of the old-time 'Journey Cake," so called because it could be relied upon to keep fresh during a long journey. It was a favorite dish with the pioneers in the early days of the last century when corn meal was grated by hand, each housewife preparing it as was needed. The grater was a primitive affair—usually a perforated tin against the rough edges of which the ear of corn was drawn back and forth by patient grandmothers.

To mix the "Johnny cake" take twothirds teaspoon soda, one of cream of tartar, three tablesnoons sugar, one egg and a cup of milk. To this add six tablespoons corn meal, three of dour and some salt. The batter will be thin and should bake about 20 minutes.

A party of editors from a number of

the Pacific Coast ten years ago. Referring to what has happened in the interval the writer says: "Thousands of miles of new railway lines have been built, and the development of the country has made marvelous strides. Millions of acres, then lying in their wild and untouched state. have since been transferred into grain fields. Towns have sprung up as if by the wand of a magician, and their development is now in full progress.

It is a revelation, a record of conquest

by settlement that is remarkable. The Hutchinson Leader characterizes Western Canada as "a great country undeveloped. The summer outing," it says, "was an eye-opener to every member of the party, even those who were on the excursion through Western Canada ten years ago, over considerable of the territory covered this year, being amazed at the progress and advancement made in that ress and advancement many will short space of time. The time will come when Western Canada will be the bread-basket of the world. It was a delightful outing through a great country of wonderful possibil-

ities and resources." Since the visit of these editors the Government has revised its land regulations and it is now possible to secure 160 acres of wheat land at \$3.00 an acre in addition to the 160 acres

that may be homesteaded.

The crops of 1908 have been splendid, and reports from the various dis-tricts show good yields, which at present prices will give excellent profits to the farmers.

From Milestone. Saskatchewan there are reported yields of thirty bush. els of spring wheat to the acre, while the average is about 20 bushels. The quality of grain to be shipped from this point will be about 600,000 bush-Information regarding free lands and transportation will be freely given by the Canadian Government Agents.

for. Is he dotty?

The Member—No' But he's dumb. So he has that talking machine to give instructions to his caddie or to make a few well chosen remarks in case he fozzles his drive or does any thing else annoying.

Like a Dream.

A bubble of air in the blood, a drop of water in-the brain, and a man is out of gear, his machine falls to his thought vanishes. the world disappears from him like a dream at morning. On what a spiderthread is hung our individual existence. Fragility, appearance, nothingness. If it were not for our powers of self-detraction and forgetfulness, all the fairy world which surrounds and brands us would seem to us but a broken specter in the darkness-an empty appearance, a fleeting hallucination. Appeared-disappeared-there is the whole history of a man, or of a

world, or of an infusoria -Amiel. UPWARD START

After Changing from Coffee to Postum.

Many a talented person is kept back ecause of the interference of coffee with the nourishment of the body.

This is especially so with those whose nerves are very sensitive, as is often the case with talented persons. There is a simple, easy way to get rid of coffee evils and a Tenn. lady's experience along these lines is worth considering. She says:

"Almost from the beginning of the use of coffee it hurt my stomach. By the time I was fifteen I was almost a nervous wreck, nerves all unstrung, no strength to endure the most trivial

thing, either work or fun. "There was scarcely anything I could eat that would agree with me. The little I did eat seemed to give me more trouble than it was worth. I finall; quit coffee and drank hot water, but there was so little food I could digest; I was literally starving; was so weak I could not sit un long

"It was then a friend brought me a hot cup of Postum. I drank part of it and after an hour I felt as though I had had something to eat - felt strengthened. That was about five years ago, and after continuing Postum in place of coffee and gradually getting stronger, to-day I can eat and digest anything I want, walk as much

as I want. My nerves are steady. "I believe the first thing that did me any good and gave me an upward start, was Postum, and I use it altogether now instead of coffee." "There's a Reason.'

Michigan in the Cabinet

The accession to the navy portfollo of Truman H. Nawberry of Detroit in the closing months of the Roosevelt administration is a personal tribute to the business ability and executive powers which the Michigan man has demonstrated himself to be possessed of in the discharge of his duties as assistant secretary of the navy. No cabinet officer has been more efficient or more attentive to his duties than has Mr. Newberry and it is also safe to say that no clerk under him has done more work or worked longer hours than he. When he first accepted the position of Assistant Secretary of the Navy he made it his business to familiarize himself with the entire workings of the navy department and he mastered every detail from the manufacture of guns and ships to the equipping and managing of the men who operated them Whether President Taft next March cabinet as the head of the Navy day Department, it is not yet known but It is safe to say that the services of men of Mr. Newberry's stamp are not likely to be dispensed with by President Roosevelt's successor

The Doctor has a Grouch.

Dr Bradley as auditor general has indisted on depleting the state treasury by paying out all the primary school money in one lump just at the end of the year when the treasurers tunds are always low It made no difference to the grouchy doctor that scarcely a school district in the state needed all the money just at this time, as long as he could keep his spleen in working order No one will suffer except employes of the state, and no small number of them are in the auditor general's office at that. The taxpayers of the state can sit back and laugh anyhow for the money is still in their pockets and Buttolph, all of Pontiac, were doubtless the employes of the state | Jerome yesterday. can stand the crimp if it will satisfy the auditor general's grouchy grouch. A number of the big banks of the state have offered to cash the warrants on the treasurer but the taking a bath, some one is sure to ring stick is that the doctor won't give the employes even a due bill.

Talks Crazy Talk.

Wellington R. Burt, defeated candidate for the state senate from the town of Saginaw lays all his troubles to the saloon vote. It's a funny thing that Mr. Burt could not wake up to the fact that Arthur Hill owns quite a chunk of the Saginaw vote and that it would have been quite as humiliating for Mr. Hill to have had his candidate for senator, Whitney, defeated by Mr. Burt as to have his candidate for governer, Mr. Hemans, defeated by Governor Warner. Mr. Burt talks crazy talk.

When Dr. Bradley refused to draw warrants on the state treasurer some one asked how he knew there was no money in the treasury. "I am the only one that does know all about the funds in the state treasnry," he is reported as saying. Funny isn't it, that along in the primaries when the Glazier failure was made an issue the doctor steered wery clear of that sort of a claim.

As each month brings its peculiar atmosphere, physical and mental, so November seems, even more than the others, pregnant with meanings "all her own."

No vember means "no" a great many other things. No fragrance of flowers, no summer melody of birdsong, no soft and cloudless blue of sky, no living green of meadow and forest; but it never means, for those whose vocation brings them "near to nature's heart," no work to do. It means the gathering up of all the loose ends of various unfinished things, indoors and out, in prepara tion for the winter so close at hand It means not only a farewell to many pleasant things-an ending, but also a beginning—a getting ready-for things inevitable, it is true, but for the useful and enjoyable as well.

November is not alone a season of cloudy skies, chilling winds and predecay of nature's inanimate life, but it opens to our minds-vistas of coming good cheer; of evenings with change of social visits—the gathering of curselves together for mutual

And it means-ob, lovely meaning -Indian summer (that is, unless our say us nay) Indian summer! That blessed halting time between summer and winter that is like no other time, with its indescribable tints and sounds and scents, its softening, soothing magic of air and earth and sky, as different from the exhiliration of the quickening life of spring as from the lassitude of summer's solstice: And, too, what a boon is it to those all-too-numerous victims of the thief procrastination in its opportunities for finishing the undone duties of many neglected yesterdays.

But of all November's significances. one stands pre eminent—it is our Thanksgiving month. SYNOPSIS.

Three girls — Elizabeth, Gabrielle and Elize-started for Canada to spend the summer there. On board steemer they were frightened by an apparently demented stranger, who finding a bay belonging to one of them, took enjoyment in scrutinizing a photo of the trio. Elize shared her stateroom with a Mrs. Graham, also bound-for Canada. The young women on a sightseeing tour met Mrs. Graham, anxlously awaiting her husband, who had a mania for sailing. They were infroduced to Lord Wiffid and Lady Edith. A-cottage by the ocean was rented by the trio for the summer. Elizabeth learned that a triend of her fattior's was to call. Two men called, one of them being the gueer-acting stranger on the steamer. The girls were "fiot at home." but discovered by the cards left that one of the men was Elizabeth's father's friend. The men proved to be John C. Blake and Gordon Bennett. The party was told of the search for smusglers in the vicinity of the cottage. Elize visited Mrs. Grahams to find that her life was not the happiest She learned that the Grahams and Lady Edith were acquainted. A wisp of tellow hair from Mr Graham's pocket fell into the hands of Elize Mrs. Graham's hair was black. During a storm the yeans women heard a crash in the basement of the cuttage and a moment later Mary Anne, their woman servant, entered her arm bleeding "Po assure them there was no danger, Mary Anne descended to the basement alone and quieted their fears

CHAPTER VI.

It was a very heautiful world which gracted us in the morning after the storm, all swept and garnished and freshly painted for our delectation.

I wish I could describe it, as we stood upon our veranda drinking in the life-giving ozene and feasting our eyes upon the landscape Perhaps if I were an artist I could better express the bright azure of the sky, the deep er blue of the sparkling ocean rippling with white-capped waves, the wonderful clearness of the atmosphere, and the giorious sunlight gilding everything until the commonest objects were endowed with a charm hitherto unsuspected -

I had wakened tired and unre-freshed, and both Gabrielle and Eliza both looked rather pale and heavy eyed, so we decided to spend the day at home, and established ourselves unch the veranda for one of the long lazy mornings in which we frequently indulged. -

Lady Edith C: mpbell soon joined us, fresh and dainty in her pretty morning costume and simple hat, and we greeted her with enthusiasm.

"Wilfrid has gone fishing," she re marked, as she removed her hat, "and as he means to be away all day, I shall not be missed. How very cozy you all look, and what a wonderful morning,

"If storms bring days like this," re marked Gabrielle, from the hammock. I shall not care how often they

'Oh, shall you not?" replied Lady Edith, with a little shiver. "I do not believe I agree with you. Last night was terrible even in the village; what it must have been in this exposed place I cannot imagine. I am always afraid of the wind, and then, too—' She paused uncertainly and looked

"Such a dreadful thing happened! Do you care to hear hotel gossip?"

We hastened to assure her that we loved all gossip, hotel or otherwise, and she resumed Well, last night Mrs. Bundy, the

fat old lady who had the table next to ours, you know—" Who were a dramend sunburst on

her forefinger and headlights in her ears," interrupted Gabrielle. "And came to breakfast in a velve

teagown, with an emerald necklace," supplemented Elizabeth. "Of course we remember her. Did she die of apoplexy or anything?" "She-was robbed," said Lady Edith

gravely. "All her jewels were taken and they were very valuable. old woman! Was it not dreadful? She is in a state of hysterical collapse this morning, and who can wonder?" "Robbed!" I exclaimed, incredu-

"Yes, robbed. It makes one very uncomfortable, does it not? They say it is the work of an expert, and have put the matter into the hands of the police, hoping to_recover the jewels." "Whom do they suspect?"

"I do not know;" she hesitated a moment, then resumed quietly: "You see, the hotel was crowded last night with strangers storm-bound on the island, and it will be difficult to form an opinion. Mrs. Bundy was alarmed at the storm, and spent most of the night in her daughter's room. It is probable the, thief got in then, or

when she was at dinner. "But," objected Elizabeth, "it must have been some one who knew she had them. It could not have been a

stranger." "One can never tell," said Lady girls are very popular, you know."

Edith, thoughtfully, "But I confess it has made me nervous. I did not bring many jewels, fortunately, but I have my mother's pearls and a few other trinkets I would not care to lose, and do not-know what to do with them, since it appears unsafe to trust things in one's room, even if they are se curely put away. Mrs. Bundy insisted that she locked up her emeralds with her own hands, and had the key on a ribbon around her neck."

"I am glad we left when we did," I rêmarked as-she paused. I am burdened with jewels, but it must be awfully unpleasant."

"It is," she agreed: "one is inclined to look suspiciously at one's neighbors, not to mention servants. As for me. I have put my treasures in this box an carried it with me everywhere this morning. I would not even trust my maid, who has been with me for years. I do not-know what in the world to do rith them, and am more than half inclined to dig a hole and bury them deep and safe."

She gave a vexed little laugh as she spoke, and raised a box wrapped in white paper which she held on her lap, and which had appeared to contain bonbons.

"Til tell you," said Elizabeth, impulsively. "Leave them here. There is a little iron safe under the china closet in the dining room. I can't imagine why it was put there, for it is not big enough to hold much silver, even if we had anything but the most obvious plate; but it possesses two padlocks, and you could lock it and keep the keys."

"Do vou really mean it?" said Lady

Edith, incredulously.
"Yes—why not? I'm sure we won't be pursued for our valuables, and, if you will take all responsibility for leaving them, you are more than welcome to the exclusive use of the safe-isn't she, girls?"

Of course we agreed willingly, and were quite repaid by the look of relief in her big brown eyes and the pretty, eager manner with which she endeav ored to express her gratitude.

"Let us put them away at once and get them off our minds," suggested Gabrielle, springing from the hammock and leading the way to the din ing room.

So we opened the door-which ooked like an ordinary wooden panel below the corner closet-and disclosed

the little iron safe with its two padlocks-both so rusty from disuse that it took all the strength I possessed to turn the keys.

There!" I remarked, handing them to Lady Edith and closing the outer wooden door. "Now you can rest in

"You have removed an incubus from my shoulders," she said, with a quick grateful than I can express. I should not have had an easy minute after Mrs. Bundy's experience, aithough I am inclined to believe it was one of the strange men who spent the night here, rather than a guest or servant of the hotel. I would rather think so.

"And do you know," she continued, thoughtfully, "my maid says that several of these men left very early, without waiting for breakfast-as soon as it was light, in fact. That in itself seems suspicious, under the circumstances, but then, as I said, every one is inclined to suspect every one else. and it is all very horrid and uncomfortable. Now, do let us go outside again, and not waste this glorious

We had a delightful morning, for our guest was even more charming than usual. There was a subdued exhilaration in her manner, and an ex uberance of spirit we had never seen before; her cheeks were softly pink and her eyes shone, as she chatted merrily of various things after the fashion of girls the world over. In her softened mood, with the grande dame manner laid aside, she was quite irresistible, and I found myself wondering why her left hand hore neither wedding nor engagement ring, and whether she as well as her brother had an unhappy romance to be lived down

and forgotten.
She did not, however, convey the impression of a lovelorn damsel, for a more radiant creature I have never seen. By the time lunch was over we felt as though we had known her alrays, and were planning a summer abroad, part of which was to be spent

at her father's castle in Scotland "I hope," she added, "that Wilfrid will have quite recovered his poise before you come over, and you can see him as he really is—such a dear fellow! And then, who knows what might happen? One of you might be induced to stay in the old world, for we have many triends, and American

After lunch Elizabeth declared her intention of going down the cellar to see what it was like, saying that it made her very uncomfortable not to know what she lived over; but she returned immediately, with a most dis gusted-expression.

"Mary Anne is scrubbing," she an nounced, "and the whole place is as wet as the ocean. I'll have to weit until to-morrow. Just now I would need a boat.'

"What's the use of bothering?" inquired Gabrielle, placidly. "It would not worry me if I never explored the cellar. Just so I know it's there, I don't care what it looks like."

"Well, I do," returned Elizabeth, and I'm going down there the first thing in the morning, it I don't for-"Suppose we walk down to the

wharf in the village," suggested Lady Edith, "and meet Wilfrid." We might induce him to take us for a sail." But I still felt very indolent and preferred the hammock, with its many pillows and cool breeze, to the long

hot walk to the village, so the other three started cheerfully off, leaving me to my own devices. > For a while I swung idly to and fro, watching the dancing water and admiring the effect of the sunlight on the occasional sail which ventured around the point from the island col-

ony on the other side. I was thinking in a desultory way of poor Mrs. Bund; and her lost emeralds, and of Lady Edith and her mother's pearls, wishing she had opened the box and shown them to us before locking them away, when I beard a step upon the gravel path, and Gordon Bennett lifted his can and smiled amicably upon me as though he were quite in the habit of paying us daily visits.

noticed then what white teeth he had and how he smiled with his eyes as well as his lips, but this is an unim portant digression.

"I apologize for coming so often, he remarked, appropriating a com-fortable chair. "My excuse is that I wish to return your property. I for got it yesterday.'

He drew Gaprielle's bag from his ocket as he spoke, and regarded it af-

fectionately.
"At last," he continued, "I suppose it belongs to one of you; I found it on the steamer coming up, you know, just where you had been sitting." I acknowledged our ownership of

the property, and extended my hand for it, but he held it thoughtfully, as though-unwilling to relinquish it.
"Would you mind," he said at last

with some hesitation, "telling me why when I started to bring you this bag, that night on the steamer, you all turned and fled as though I had been à carnivorous animai?" There was a twinkle in his eye

which made me hotly resentful, although I tried to preserve a cool and indifferent manner. Would you really like to know?"

"Pining to be told; I have lost valuable sleep trying to work it out.

"Well, we thought you were crazy." Why, please?" His voice was genuinely astonished and I plunged at once into an explana

on I hoped would be satisfactory. "You see, it was those chairs you overboard. It was such an extraordinary thing to do. And Gabrielle of thanksgiving is heard in return he

"And is that why I got the cold

shoulder when I called?" Mr. Gordon Bennett laughed then as he has never dared laugh since when referring to that subject, for we don't like to talk about it, as it makes us appear rather foolish. (TO BE CONTINUED)

HANKSGIVING is one of lonely. The power to hear what nature's voices have to say is in our our highest and holiest duties. Then a glad life makes a life gladness wherever it goes. It leaves an unbroken lane of sunbeams behind it. Everybody is better as well as hap pier for meeting one whose Christian life radiates gladness and cheer. We can do nothing better either for our selves or for the world in which we certain definite days are set apart for live than to learn the lesson of praise and of thanksgiving. The doctor said the only help for me was to go to a hospital and be operated on. I tried hospital and be operated on. several remedies for months but did not get much help. During this time sores appeared which changed to a terrible itching eczema. Then I began to use Cuticura Seap, Ointment, and Pills, injecting a quantity of Cuticura Ointment with a Cuticura Suppository Syringe. It took a month of this treatment to get me in a fairly healthy state and then I treated myself once a day for three months and, after that, once or twice a week. The treatments I tried took a lot of money, and it is fortunate that I used Cuticura. J. H. Henderson, Hopkinton, N. Y., Apr. 26, 1907."

A Riddle,

An English paper recently asked its readers for an answer to the following riddle:

What does a man love more than life, Hate more than death or mortal That which contented men desire.

The poor have, and the rich require; A miser spends, the spendthrift saves, And all men carry to their graves?

All sorts of answers were sent in but the correct one was declared to be "Nothing." -

I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

I had the honor of a call from Mrs. | I knew I was expected to have Lougheed last week. Socially she is of our representative ladies, and to do so would be to make myself faher claims to distinction are varied and unimpeachable. Her uncle is a bishop, and her calling list most exclusive. She has an accent that never forsakes her, and a manner that can convey the finest gradations of feeling, from a chilly so-far-and-no-fartherness to a restrained warmth calculated to put the flattered recipient into excellent humor with himself. She has the highest art of dressing, too-so unostentatiously that you know at once she must be somebody. Her husband pursues the narrow way of the art critic. and, feeling the sacredness of his calling, keeps himself for the most-part unspotted from the throng. His English is faultless and he rarely permits himself to smile. You feel the seriousness of life in his presence more than in your clergyman's, particularly of cultured life, and you go home with fresh resolve. It is really quite an-esthetic treat to see him on the platform, his voice and gestures and bearing are so full of conscious grace. He is the product of an older, more homogeneous society, accidentally lodged in our heterogeneous at least i fancy that is the way

Unfortunately, I hadn't been expecting anyone (although it "day") = because a good sized blizzard was in course of progression outside; and feeling secure in its protection, I hadn't given those intangible finishing touches to the appointments of the drawing-room and toilet which are necessary to make our social calling and election sure dreds, yes, thousands, of operations Moreover, the bones of Sunday's tur key were "on" in the course of transi tion into soup, and Nora had naturally sary and many have been avoided by left the hitchen door open so that the odors-in which onton predominated

As fuck would have it we fell upon woman's sphere. I don't know why it is I always have such a guilty feeling when this topic is introduced. I invariably and conscientiously do my mending on Saturdays, and encase the family furs and other destructibles in bage-labeled bags-before our departure in the spring. I explore the cellar periodically, and I don't know a thing about politics or the new Hudson bay dispute. I never read a new book, though I do talk about them sometimes, of course. Yet, when Mrs. Lougheed fixed me with her gentle but observing eye and said with just the least bit of a question mark, "Home, of course, is the only proper place for women," I distinctly quailed. I knew what was expected of me. Casting about for some way of deliverance, my eye fell upon my palms, and I suddenly realized to my further confusion, that I hadn't washed them since last sweeping day-a thing I never forget to do! Still further humbled, I select ed my dullest wcapon, since weapon of some kind I saw to be inevitable, and said as sweetly as I could:
