School Notes.

[By a Pupil.]

The Third grade pupils are learning a flower song.

Frank Freydl of the Second grade is ill with pneumonia.

The Kindergarten pupils are making Easter lily book marks.

Sidney and Robert Bates of the First grade have moved away.

The Seventh grade pupils are studying the life of James Whitcomb Riley.

Morris Darling of the First grade spelled the B class down last Friday afternoon.

The Fourth grade pupils are studying the life of the great naturalist, Louis Agassiz.

The E. Fifth pupils are drawing maps of the United States and the A class of Europe.

Look out for the soon to be given announcements as to the exact date of the Junior play.

The basket ball players are very much obliged for the contributions sent them by the Presbyterian ladies.

Herschell Card of the Fourth grade has moved to the country but walks two miles to school every morning.

The long distance men are already out for practice, while the jumping squads are digging up the sod in the back yard.

The Fourth grade's mottoes for this month are "He is happiest who is busiest" and "One today is worth two tomorrow."

Mrs. Woolley says that most of her "grippers" are back and that she intends to have a "grip" on them all the rest of the year.

The Freshmen, who had charge of the High school Friday morning exercises certainly gave the other classes a surprise by their musical numbers.

The Agriculture class is testing seed corn for vitality and are soon to begin an examination of seeds as to their purity. A corn sowing contest is also on.

The teachers' contemplated held triy last Monday night was postponed until a better day. The teachers' meeting was the first irregular one since the opening of the school year.

Arrangements are now made for both the boys' and girls' last basket ball game of the season to be played tonight. The boys play the Ypsi "Midgets" here at Northville and the girls go to New Baltimore.

Eighth grade examinations will be held in Northville for those who go to the surrounding schools. This will give many pupils a chance to look over the High school arrangements for entering next fall.

The Athletic Association has ordered a sixteen foot bamboo vaulting pole, a catcher's mitt, chest protector and mask. Later on a tennis outfit will be ordered and a good court constructed for the girls.

Messrs. Harmon and Dolph of the Board of Education and Supt. LaRue were in Lansing Tuesday engaging

an Agriculture teacher for next year.

Prof. French made a very fine host and pleasantly showed the visitors through the different buildings on the farm.

Schoel Savings deposit last Friday was \$38.96 making a total of over \$490. The deposit by grades was as follows: Kindergarten \$94; 1st, \$8.30; 2nd, \$1.86; 3rd, \$1.21; 4th, \$1.29; 5th, \$6.09; 6th, \$4.01; 7th, \$1.51; 8th, \$3.60; High school, \$17.25.

A great cry of "woe" went up from the superintendent's classes Tuesday when he announced that they would all be "off" for the day. However, as physiologists tell us that it is difficult to determine whether it is a cry of woe or joy unless you see their faces, so maybe we are mistaken.

Several of the High school boys are building a man power aeroplane with which flights will be made from Buchannan hill and other high spots in town so if you see a peculiar bird flying over your house don't be scared as it will not be a part of Halley's comet. Frank Brown and Ross Dixon are the prime movers of this new movement. Sixty miles per hour is the limit as yet.

Grip seems to have a grip on our school at the present time judging by the number of absences from both the High school and grades.

This makes a great deal of extra work for the teachers, so they wish that the parents would not keep their children out of school any longer than is strictly necessary.

Although we trust that you will find the teachers willing to help the pupils make up lost work.

The basket ball game last Friday between two divisions of girls was a determined game from beginning to end. Each side was resolved to win and fought hard. The one up was Chadwick, Miller, Quisenberry, Woodmear, Johnston, Cutler, Bovee and Perkins, forward. The other was Stark, Matson, guards, Christensen, White, center, Elvyn Steifer, forward. At the end of the first half the score was 2 to 0 in favor of the last named division. However, the other side mingled up so much that they were easy winners with a score of 7 to 1. There was a great deal of excitement when the boys beat the Avon team of Detroit in a score of 10 to 24.

The Passion Week services are announced elsewhere. We hope that all our people will give these special meetings "the right of way" and will not only attend but bring their families and friends with them.

The services next Sunday will be introductory to the Passion Week services, to be held during the following week. On Sunday morning Rev. W. T. Hall of Detroit will preach and in the evening the pastor will preach, the subject of his sermon being "The Cross of Christ."

The Ladies' Missionary society enjoyed a treat on Thursday last when Miss Esther Patton of Kohlapur, India, spoke about her life and work in that country. The report of the treasurer for the year past showed receipts amounting to over \$240. This is the best record that the society has ever made.

PREACH GOSPEL OF HEALTH

Plan to Have One Sermon on Sunday,
April 24, Devoted to Scourge
of Tuberculosis.

Following campaigns against consumption that have been carried on in the churches of hundreds of cities, and sermons "on tuberculosis" that have been preached before thousands of congregations during the past year, a movement has been started by the National Association for the Study and Prevention of Tuberculosis to establish a permanent tuberculosis Sunday, on which it is hoped that every one of the 33,000,000 church-goers in the United States will hear the gospel of health. This year the Sunday selected is April 24. It is planned that on April 24, tuberculosis sermons shall be preached in all the churches of the country. Literature will be distributed to members of the congregations, and in every way an effort will be made to teach that tuberculosis is a dangerous disease and that it can be prevented and cured.

Clergymen who desire to obtain additional information in regard to tuberculosis will be able to secure literature from state and local anti-tuberculosis associations and boards of health, as well as from the national association.

Advice.
"Your boy Jerry has a grand voice," said Mr. Dolan.

"Yes, he says he's going into grand opera," replied Mr. Bafferty. "He wants, says he, to have the crowds leaning forward to catch every tone as he lifts his voice to express things that no one but himself can fully comprehend."

"Jerry says that, does he?"

"He does."
"Tell him to be an auctioneer. He can do the same thing and the money is surer."

DESERTIONS HIT STRIKE

THE STRIKING PHILADELPHIA
STREET CAR MEN GRADUALLY
DRIFTING BACK TO WORK.

EVENTS OF THE PAST FEW DAYS
SHOW THAT THE "HYSTERIA"
HAS WORN OFF.

It Will Soon Be Over Unless Unions
Get Stronger Support Than Is
Now Evident; Men
turning Daily.

There are certain indications at Philadelphia that the general strike will disappear unless the labor unions are able within a few days to drag to their support influences that have remained aloof.

Men who left their jobs in the first hysteria are gradually going back. The number of men on strike is less by thousands than it was a few days ago.

Summing up the situation as it appears, the unions have been thrown back upon their own resources, and these resources have been weakening. The city officials, who have been canvassing among employees, announced Saturday that the employees of 65 mills out of 89 would return to work Monday and Tuesday. In many of these mills, it is said, men have already returned.

The transit company reports that carmen have applied for reinstatement, and that more than 300 have been put at work. Nearly 200 union foundrymen in the northeastern part of the city, employees of four foundries, have voted to go to work Monday.

Several unions of carpenters have signified their intention of breaking strike. The taxicab drivers are all back on the job. Despite the daily statistics uttered by the committee, there is no doubt that the general strike is steadily deteriorating.

Washington Will Not Interfere.

Advices from Washington hold to the opinion that there is nothing to be done by the government at this time to settle the Philadelphia traction strike. The trouble as federal officials review it is local in character.

PATTEN'S "RECEPTION."

The Chicago Speculator is Chased in
Manchester, Eng.

James A. Patten, the Chicago speculator, who went to England, as he said, "to look around," had occasion to look sharply from the moment that he appeared on the floor of the cotton exchange at Manchester.

His appearance was the signal for a hostile demonstration which resulted in his forcible ejection from the exchange and a flight through the streets from a mob that was provoked only by the police whom he disturbed.

Patten was hidden for a while in a business office, and later smuggled into a cab and driven to a more secluded refuge.

Patten's coming to Manchester had been widely heralded since his arrival in Liverpool and the reception he was ready for him.

Seven Men Killed in Mine.

Seven miners lost their lives in the No. 5 shaft of the Lehigh & Wilkes-Barre Coal Co. near Wilkes-Barre, Pa., in an explosion of gas. There were eight men in the party. One had left the gang to bring some tools and was not injured. All the dead were suffocated.

When the bodies were brought up there were many pathetic scenes around the mouth of the shaft where the relatives and friends of the victims had gathered. General Manager Heber said that the explosion did not cause much damage. Several of the rescuers had narrow escapes from the fire-damp.

\$15,000 Fine, Six Years; In Gle Fraud.

Summary action was taken by Judge K. M. Landis in the United States district court in Chicago in sentencing "violators" of the federal laws regulating the manufacture and sale of oleomargarine.

The court fixed the punishment of Samuel Driesbach, who pleaded guilty, to a fine of \$15,000 and six years' imprisonment!

To Daniel Bortz who also pleaded guilty, the court meted out an eighteen months' term in the house of correction in this city.

William Broadwell, who was sentenced some days ago, must meet like punishment with Driesbach.

Charles P. Taft, brother of the president, will pay \$24,000 a year to the American Telegraph & Telephone Co. for a 725-mile telephone wire connecting his Cincinnati residence with the White House.

Two U. S. marines in uniform were denied admission to a Washington theater and when the navy department protested the proprietor said he had excluded the men under a rule of the theater prohibiting admission of persons conspicuously dressed. He said,

"Even President Taft would be excluded if he applied for admission dressed in a sweater and riding clothes."

Out of \$10,000,000 which parliament put at the disposal of the late King Leopold when the Congo Independent state was annexed by Belgium, King Albert, the present sovereign, will give \$200,000 for a campaign against the sleeping sickness—\$100,000 to build bridges in the Belgian Congo, and \$100,000 for a pension fund for civil servants of the Congo state.

The Argentine Republic is shortly to take a hand in relieving the high cost of living in the United States by sending to New York markets large quantities of beef at prices which will provide an active competition for the western packers.

THE PROPER PINE TO USE FOR COUGHS AND COLD

Many pine extracts contain resins causing nausea and cramps. For most reliable and quickest results in curing a severe cough or cold follow this formula: Get two ounces of Glycerine and half an ounce of Concentrated Pine compound. Then get half a pint of good whiskey and put the other two ingredients into it. Take a teaspoonful to a tablespoonful of this mixture after each meal and at bed time." But be sure to get the genuine Concentrated Pine. Each half ounce bottle comes in a tin screw-top case. Any druggist has it on hand or will quickly get it from his wholesale house.

TRAGIC.

I wrote her a poem on my new typewriter. It began "How like a flower your face is."

Yes.—The cursed machine wrote it. How like flower your face is!"

A New Version.

Apropos of George Washington and the cherry tree story, Senator Beveridge said at a dinner in Indianapolis:

"I asked a little boy what this story was the other day, and he actually didn't know. He said he knew, though, the story about the judgment of Solomon, and he proceeded to tell it to me.

"Solomon," he said, "was a very wise man. One day two women went to him, quarreling about a baby. The first woman said, 'It is my child.' The second said, 'No, it is mine.'

"But Solomon spoke up and declared:

"No, no, ladies, do not quarrel. Give me your sword and I will make twins of them so that each of you will be supplied!"

Cause of the Increase.

Going downtown the other morning in the street car Judge Rehu looked up from his newspaper. "I see that the publisher of *Anybody's* makes the claim that his magazine has a larger circulation than yours," he remarked to the proprietor of the *Earth Monthly*.

"Well, it is my fault if it has," replied the other, "like a fool, I've been letting him run one of his ads in the *Earth*—Chicago News."

WHAT'S THE USE

Sticking to a Habit When It Means Discomfort?

Old King Coffee knocks subjects out tolerably flat at times, and there is no positive doubt of what did it. A Mich. woman gives her experience:

"I used to have liver trouble nearly all of the time and took medicine which relieved me only for a little while. Then every once in a while I would be suddenly doubled up with an awful agony in my stomach. It seemed as though every time I took a breath I would die. No one could suffer any more and live."

"Finally I got down so sick with catarrh of the stomach that I could not turn over in bed, and my stomach did not digest even milk. The doctor finally told me that if I did not give up drinking coffee I would surely die, but I felt I could not give it up.

"However, Husband brought home a package of Postum and it was made strictly according to directions. It was the only thing that would stay on my stomach, and I soon got so I liked it very much."

"Gradually I began to get better, and week by week gained in strength and health. Now I am in perfect condition, and I am convinced that the whole cause of my trouble was coffee drinking, and my getting better was due to leaving off coffee and drinking Postum."

"A short time ago I tasted some coffee and found, to my astonishment, that I did not care anything about it. I never have to take medicine any more. I hope you will use this letter for the benefit of those suffering from the poisonous effects of coffee."

Read the little book, "The Road to Hellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are concise, true, and full of human interest.

The Argentine Republic is shortly to take a hand in relieving the high cost of living in the United States by sending to New York markets large quantities of beef at prices which will provide an active competition for the western packers.

THE MOTHER AND THE BOY

Childish Confidences That Should Never Be Repelled, But Always Encouraged.

A boy's heart is full and overflowing. He needs some one who will listen to his confidences. If he is repelled and finds himself alone, he becomes fretful, indolent or worse. His affairs are not "nonsense." A good mother never says: "Run away" "I am busy." She listens, encourages.

Important discoveries may be made in these outpourings. She gives sympathy, enters into his feelings, sees things from his point of view. If he tells her of something which proves he is at fault, she does not repel him at the time, because this will check further confidences. She gives her attention quietly, tells him she is glad he has confided in her, and that she will talk of it again to him.

With a mother, the insight she can solve many problems. She is interested in her boy's sports, collections, his school and companions. The choice of his companions should not be left to chance. It is well if they are from families known to his parents.

TINY BABY'S PITIFUL CASE

"Our baby when two months old was suffering with terrible eczema from head to foot, all over her body. The baby looked just like a skinned rabbit. We were unable to put clothes on her. At first it seemed to be a few scattered pimplies. They would break the skin and peel off, leaving the underneath skin red as though it were scalded. Then a few more pimplies would appear and spread all over the body, leaving the baby all raw without skin from head to foot. On top of her head, there appeared a heavy scab a quarter of an inch thick. It was awful to see so small a baby look as she did. Imagine! The doctor was afraid to put his hands to the child. We tried several doctors' remedies but all failed."

"Then we decided to try Cuticura. By using the Cuticura Ointment we softened the scab and it came off. Under this, where the real matter was, by washing with the Cuticura Soap and applying the Cuticura Ointment, a new skin soon appeared. We also gave baby four drops of the Cuticura Resolvent three times daily. After three days you could see the baby gaining a little skin which would peel off and heal underneath. Now the baby is four months old. She is a fine picture of a fit little baby and all is well. We only used one cake of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. If people would know what Cuticura is there would be few suffering with eczema." —Mrs. Joseph Koenig, 7 St. John's Place, Ridgewood Heights, N. Y., Apr. 30 and May 4, '99.

Danger in Spitting on Sidewalks.

In order to show that spitting on the sidewalk is dangerous to health an investigation has been made by Dr. John Robertson, medical health officer of Birmingham, England, which shows that seven per cent of the spits collected in public places contained conchoplasm germs.

On the other hand the dust collected from the floors of the cottages of the Atholmeak Cottage Sanatorium has been found to be free of tuberculous germs, showing that a careful consumptive is not dangerous.

Easter Plant Legends.

The Christian legends connected with plants generally explain their behavior during Passion week. The aspen still shivers with remorse because it is alleged when Christ passed, it had boldly faced the heavens instead of bowing its head in company with the other trees. As the story goes the Savior cast one look on it and the memory of that sorrowful glance is handed down even to this generation.

The willow was used for the scourges and ever since it has dropped its arms in misery. The elder is commonly supposed to be the tree upon which Judas hanged himself, and it is noted to be touched as firewood. However, it affords a safe refuge in a warning of the elements, for not even lightning will deign to strike it. A fungus that grows on the elder was originally called Judas' ears.

The exalis, or wood sorrel, was standing at the foot of the cross and received some drops of the precious blood. These she still carries. The Italians have the same legend and call the little blossom "allelula" as if the very flowers rejoice in the great gift to the world. The scarlet anemone, too, is said to bear the stains in a similar manner.

BETTER THAN LAXATIVES

Ordinary pills, cathartics and purgatives cause griping, nausea, and distressing and injurious after effects that are frequently life-lasting. You may have your money back for the mere asking if Revall Ordinaries do not overcome constipation and fully restore the intestines to regular activity and good health. They are easy like candy, and can be taken day or night. They positively do not cause nausea, griping or any discomfort whatever. Two sizes, 10c and 25c.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only no-give cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address, P. J. Some years ago I suffered from backache and pains through my kidneys, and at that time, I took Doan's Kidney Pills, procuring them from Murdock Bros. drug store. They lived up to the claims made for them, relieving the backache and other annoyances and helping me in every way. Another member of the family who took Doan's Kidney Pills also received great benefit."

WAS YOUR GRANDMOTHER A GOOD COOK?

Fifty years ago your Grandmother was successful in her baking in spite of many handicaps. In her day Baking Powder was a novelty. She was glad to pay 50 cents a pound for it. Since her time modern improvements have reduced the cost of manufacture until a much better Baking Powder is produced for only one-third the money.

Still the Baking Powder Trust ask you to pay the old high prices to-day for the same old-style Baking Powder. K C BAKING POWDER combines the best of everything in materials, quality and scientific skill to make the most perfect of all Baking Powders. Remember—K C Baking Powder—guaranteed under all Pure Food Laws. And the price—25 cents for a 25 ounce can!
