I ran away from the protest that was follering upon her hips, and strode through the garden. I had just reac'ted Glenarm gate on my way back to the boathouse when a woman's voice called softly and Sister Marga ret bu ried round a turn of the garden rath "'ar, Donovar."

There was anxiety in the voice, and more anxious still was Sister Marga-

"I have bad news-Miss Helen has gone! I'm afraid something has happenac to her."

She can't have gone far, Sister Margaret 5 When did you miss her?" I asked, quietly; but I confess that I was badiy shaken My confident talk about the girl with Miss Pat but & moment before echoed ironically in my memory.

"She did not come down for breakfast with her aunt or me, but I thought nothing of it, as I have urged both of them to breakfast upstairs. Miss Pa uricia went out for a-walk. #### WASTED A FORTUNE ON SKIN TROUBLE.

"I began to have an litching over my whole body about seven years ago and this settled in my limb, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do I was so sick and had be come so nervous that I positively lost Il hope. Och That seen the advertisement of

the Cuticura Remedies a great many times, but could not make up my mind-to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cutleura Soap, Cutleura Ointment and Cuticura Pills, the entire inflammation had, gone. I was completely cured I should, be only too glad if people with similar disease would come to me and find out the truth. He discussed the Canadian tariff, and then said: "People say -I break the Ten Commandmants, all of them. But I don't, at least not often I-did break one of them up in Canada two or three years ago. As I rode from Winnipeg to the Rockies your great West and saw the finest heatfields in the world, I thought of Virginia and a lot of our States, and I smashed the Tenth Commandment every hour of the journey. Yes, sir, I coveted my neighbor's land " Coming from a man of the fame of Mr. Cannon, these were words that should have some weight with the Americans who may still have doubts of the adantages that are offered to them in Western Canada, A home amongst the wheathelds Hundreds of thousands of Americans are adopting it They go to Central Canada, fo any one of the three Provinces of Mani-toba. Then they settle purchase a farm then they settle upon it and, having no clearing away of timber they begin at once to cultivate it, and make money." That they make money and much more than they could possibly make on the high priced farms they have left, is the evidence of hundreds, of thousands. They do not leave civilized life, they blit remove from one sphere to another. They have splendid social con ditione, churches, schools, rural telephones, splendid roads, railways, con vehicat just the same as what they left, and what is more, they get much greater returns from their crops, which give abundant yield. The chmate is perfect, and it is no wonder that most fluttering reports are sent back to their friends in the States, nud it is no wonder that lot "tunon was tempted to speak as he did.
