COMMENCEMENT HAS ENDED

WEEK'S FESTIVITIES CLOSED
LAST EVENING.

P. H. Kelley's Address Last Night
Was the Final.

BACCALAUREATE
The Commencement Week exercises started off Sunday night with the baccalaureate sermon in the Baptist church. Rev. Blusser's sermon, which was of course directed to the seniors, was full of good advice concerning their future and greatly appreciated by the large audience present. The choir, which was a combination of the Baptist and Methodist choirs, gave several fine selections.

PRIMARY GRADE
The next event took place Monday afternoon in the Opera House, and was given by the Primary grades. Several songs were sung by the little people as interludes to the playlet entitled, "A Dream of the Flowers." Elva McFarland and Opal Merritt were the Fairy and May Queens and were surrounded by their court of fairies, flowers and bumblebees. Each pupil was dressed to represent the character portrayed. Martie Bishop was especially lively as a bumble bee in a suit of orange and black stripes, and a buzz, too! A number of little Kindergarten girls gave a doll drill and five of the boys dressed in brown Brownie suits sang a Brownie song which was greatly applauded. The entertainment closed with a May pole dance. The teachers in charge of the affair are certainly to be congratulated on the quality of the entertainment.

JUNIORS
The play given by the Juniors Monday evening was a decided success, the entire cast of characters being filled by members of the class 1911, who in their graduating dresses of calico did credit to Miss Bullis, who has been coaching them the past few weeks. The play represented commencement exercises in a country town, being composed of musical and elocution selections as

AS EACH SEES THE OTHER.

well as a speech by one of the professors. Examinations were given on each subject and the pupils showed remarkable intelligence in their answers. The Juniors are to be congratulated on the ease and ability with which they have handled their two plays this year.

GRAMMAR GRADES
On Tuesday afternoon occurred the Grammar grade exercises, consisting of a Vocal Virgins drill by ten girls dressed in white robes and a Fairy Parade which was a very pretty as well as novel affair. In the playlet entitled, "The Gypsy Fortune Teller" Eva Wood as the Queen, Helen Elliott as the fortune

teller and Harry Kator, as the Yankee peddler were all stars. Marjory Shafer and Louise Fair made quite a bit with a clever little dance. A "Fisherman's Chorus" composed of a number of boys dressed in overalls and straw hats and carrying fish poles was heartily applauded. The entertainment proved very interesting to the large audience present.

SENIOR CLASS DAY
The Senior Class Day exercises Tuesday evening were greatly enjoyed by those present. The High school chorus opened and closed the program with songs. Rev. Jerome gave an invocation, which was followed by a violin solo by Howard West, which as usual was generously applauded. Starr Taft gave an address on the "Prosperity of Our Country" and Edith Miller gave a "Motto Dedication." Hazel Neilson recited the "History of the class of 1910" and May Woodmansee talked on "An Expose of Fashions." These numbers were followed by a duet by the Misses Snyder and Miller. A talk on the "Simple Life" was then given by Howard West and the "Class Poem" recited by Edith Snyder. Cecil Johnston acted as administrator and willed the Senior possessions to the various High school pupils. The valedictory given by Gladys Angell completed a fine program.

Some time previous to this S. J. Lawrence had offered a prize of \$5 to the girl who would make and wear the prettiest calico dress on the Class Day. F. S. Neal also offering \$2 and \$1 to the two next prettiest dresses. When the curtain went up the graduates were seated on the stage and each girl wore a calico dress. Three judges were appointed and Mr. Lawrence presented the \$5 to Cecil Johnston and \$3 to Gladys Angell. The girls saved considerable expense by wearing calico and they certainly could not have looked more charming.

BALL GAME
On Wednesday-afternoon the base ball game between the High school first team and the M. A. C. Reserves was played in Athletic Park where a large crowd was in attendance. Everyone of our boys put forth their best efforts but to no avail, as the final score was 9 to 0 in favor of the M. A. C. boys. The M. A. C. team being a college team our boys do not feel so bad about the results of the game.

EIGHTH GRADE
The Eighth grade commencement exercises were held Wednesday evening, the feature of the entertainment being an address by the Hon. H. H. Smith of Detroit. The force of Mr. (Continued on Page 5.)

The Misses McHugh will sell all trimmed hats at reduction.

FOR A SANE FOURTH OF JULY

THOUSANDS OF LIVES ARE LOST
EVERY YEAR.

Show Patriotism with Less Dangerous Weapons.

The movement for a safer and saner Fourth of July is attracting more attention than ever this year. In some towns and cities the sale of dangerous fireworks has been limited. In other places it has been prohibited altogether.

According to Mrs. Isaac L. Rice, a conspicuous advocate of the safe and sane Fourth, the casualties of last July were 6,000, while the total losses to the Continentals at the battles of Lexington, Bunker Hill, Fort Mifflin, White Plains, Fort Washington, Monmouth and Cowpens were only 1,119.

The reformers have no quarrel with American patriotism or with the Fourth of July itself. They love Old Glory and believe that the Fourth of July should be America's day of days. But they object to the great yearly death roll caused by toy pistols, cannon crackers, fireworks, bombs and firearms of every description.

Patriotism will be none the less grand and glorious if shown with less dangerous weapons.

WON ONE GAME AND LOST ONE

"CIRCLE N" BOYS LOST CLOSE
ONE AT HOLLY.

Copped Good One at Detroit,
However, Friday.

The "Circle N" boys went up to Detroit Friday and copped a ball game with the McMillan High team by a score of 8 to 3. Johnson and Stimpson were the batteries, with Boyden at short and Cray on first as the new line-up. Both the latter played a good game.

At Holly on Saturday a hot game was pulled off in which Northville lost by a score of 2 to 1. Dubuaz pitched a remarkable game. No errors were made on either side, but Holly was able to bunch a few hits at a critical time.

For Proper Care of Tuberculosis.
According to the National Association for the Study and Prevention of Tuberculosis New York state leads in the number of beds for consumptives provided up to May 1, with 5,476 beds; Massachusetts is second, with 2,403 beds; Pennsylvania third, with 2,347 beds; Colorado fourth, with 1,359 beds; and New Mexico fifth, with 1,104 beds. At yet, not one state in the country has made adequate provision for the consumptive. New York has led in the number of beds having no unshared for tuberculosis in 1915, and several other in other parts of the country have adopted similar programs. The national association says that tuberculosis will not be stamped out until all cases of this disease are cared for either in their homes or in institutions. With this end in view, efforts will be made to increase the number of hospital beds in this country to at least 7,000 by May 1, 1921.

Children

Listen to this opinion from David Starr Jordan.
There is nothing in all the world so important as children, nothing so interesting. If you ever wish to go in for some philanthropy, if you ever wish to be of any real use in the world, do something for children. If you ever yearn to be truly wise, study children. We can dress the sore, bandage the wound, imprison the criminal, heal the sick and bury the dead, but there is always a chance that we can save a child. If the great army of philanthropists ever exterminate sin and pestilence, ever work out our race's salvation, it will be because a little child has led them.—Nautlius.

An Embryo Emancipator.

A little miss riding on a Brooklyn trolley car the other day tendered the conductor half fare. "How old are you, little girl?" he queried, gingerly handling her fare.
She pursed her lips for a moment, then calmly opened her purse, dropped two more pennies into the conductor's extended palm, snapped her purse and demurely replied: "You have your fare, sir; my statistics are my own!"

TEN KILLED IN STATE SUNDAY

FATALITIES AND NEAR-FATALITIES REACH LARGE NUMBER IN ONE DAY.

TWO DYING, 10 OTHERS ILL AS A RESULT OF DRINKING ABOUT SUNDAY.

The auspicious inauguration of the summer season and the mad race for Sabbath-day pleasure on the first bright and sunny Sunday of the summer was responsible for an extraordinary number of fatalities and near-fatalities about the state Sunday. Ten persons met violent deaths either by accident or self-destruction. Three are dead and 13 ill, three fatally, as the result of a wood alcohol debauch near Cadillac. One woman was killed by the overturning of an auto near Orion; one man was drowned, one man attempted suicide at Flint, one boy was accidentally shot, and several were injured by automobiles, street cars or trains.

While driving to church Mr. and Mrs. Theodore Austin, wealthy farmers living near Marengo village, were struck by an M. U. R. car. Mrs. Austin was instantly killed and her husband died before a physician could reach him. Their view of the track was obstructed by a deep cut.

Robert G. Chandler, 71, a civil war veteran of Coldwater, was burned to death in his room over a store, his clothes having caught fire in some mysterious manner.

Although he had been warned many times not to walk on the railroad track, Walter Wyeth, of Riverdale, aged 70, was instantly killed on the Pere Marquette right of way. His hearing was defective and he did not hear the approaching train.

Morbid because of his wife's failure to write to him, George Alyse, an Italian of Flint, jumped from the Saginaw street bridge onto the Flint river, but the water was too shallow for him to drown and he was pulled out, being dragged and shamed, by persons who saw him jump.

Henry Dowler, an Akron township farmer, near Vassar, was bitten in the hip and badly injured by a vicious mare which objects to the sight of women. The mare became enraged when two of his enemies entered the barn and caught Dowler's jaw between its teeth.

Mrs. Jesse Burch has identified John Anthony, a colored circus follower, as the man who shot her while she was watching a circus unload its cars at battle Creek. Anthony denies the charge. Mrs. Burch has no chance for recovery and an ante-mortem statement by her has been taken to the coroner.

Joseph Tuttle, farm hand, George Brown, a bottle of whisky, and a combination that proved fatal for Tuttle at Marshall. Tuttle's body was found on the track of a west-bound train with his head under a wheel. It is thought he tried to take a drink of water and fell to his death.

The eleven children of R. Morrison, Jr. were accidentally shot at Michigan College. One of two boys to accompany him was badly hurt, a rifle not knowing there was another charge in it. This went off catastrophically, the bullet passing through the boy's head.

Activity Around Hillman.
One person, John Hillman, was 24 miles from a railroad and the only thing that moved there was the water in the Thunder Bay river, which traveled quite swiftly under the concrete road's steel bridge but was too fast and too shallow for navigation.

Now Hillman has railroad connection with Alpena, on the east, and will soon be in communication with Gladwin and Boyne City on the west. Survivors are at work in Oscego and Montcalm counties, and Hillman has heard that the railroad will be in operation from Lake Michigan to Lake Huron before the close of 1911.

Consequently Hillman is glad and Hillman's vicinity is glad and there are stores and houses going up in Hillman and vicinity which would never be erected if it were not for the advent of the railroad.

Thirty-five Cars Wrecked.
Fourteen freight cars were piled up in the ditch and 22 others disabled when a truck under a car in the middle of a long Pere Marquette train westbound broke near Silverwood, 15 miles east of Vassar. The train was an unusually long one and while going at a lively rate the accident happened. All the cars back of the broken truck were derailed except the caboose. A brakeman was injured but not seriously.

To Prison For Life.
Morris White, 32, who several weeks ago shot and wounded Frank DeWitt, a friend who had won the girl White loved, was sentenced to life imprisonment in Jackson by Judge West at Lansing.

Three Dead From Alcohol Debauch.
As the result of a fatal drinking bout at Neawantaka, a crossroads town 13 miles northwest of Cadillac, three men are dead and two are dying, while 10 are seriously ill.

The twenty-fourth annual convention of the State Bankers' association will begin in Port Huron, June 21.

The twelfth annual convention of the Alleghenien Frauen Arbeiter Bund (German Ladies' Aid society), of Michigan, closed at Ludington with the election of the following officers: President, Mrs. Mary Koort, Lansing; vice-president, Mrs. Rosie Pickett Wyandotte; recording secretary, Mrs. Bertha Krause, Detroit No. 1; financial secretary, Mrs. Louisa Tomber, Detroit No. 2; treasurer, Mrs. Barbara Stadelmann, Monroe; trustees, Mesdames Anna Hergenroeder, Detroit No. 1; Henrietta Rieckels, Ludington; Francisca Haas, Detroit No. 1.

NEWS OF MICHIGAN.

Fifty women of the United club of the Independent Congregational church will run the R. J. Bolster dry goods store at Battle Creek, June 21 and 22 and will receive a percentage of the profits and a salary of \$2 a day for their services.

Bay City will within a year abandon the manufacture of electric current in its two plants and will buy its current for lighting from the Pittsburgh Power Co. It was the first city in the country to establish a municipal lighting plant.

The trial of Acting Warden John C. Wenger, of Jackson prison, has been postponed, owing to another important suit that is being tried in Judge Parkinson's court, and which may take several days, when the Wenger trial will be immediately taken up.

Secretary H. A. Hopkins, of the Michigan Press association, announced that the proposed trip of the association and the Eastern Press club to northern Canada has been abandoned, owing to the lack of interest shown on the part of the membership.

After investigating for himself and also acting on the recommendation of Judge Winsor, Attorney Hamilton and President Loud, of the county bar, Circuit Judge North, at Battle Creek, denied the motion of Frank A. Cole, a Tekonsha farmer, for the removal of Prosecuting Attorney Cavanaugh from office and for his disbarment.

When a fire Monday afternoon destroyed the office and dwelling of Dr. C. S. Gold together with the contents, one of the landmarks of the village of West Haven was removed. The house was occupied as the West Haven tavern in the old stage days, being situated on the old wagon road between Lansing and Saginaw.

For the first time in 12 years the Gratiot county jail at Ithaca is empty of prisoners. During that period the number has ranged from 3 to 25. Believing that his services were no longer needed owing to the downward trend of crime, Under Sheriff Ennis has resigned and Sheriff Convis has gone to work in the beet fields.

The first gun in what seems the approaching conflict between the liberal and conservative forces of the Baptist denomination was fired at Jackson at the sixty-ninth annual convention of the Jackson Baptist association. Dr. O. W. Van Osdel, of the Wealthy Avenue Baptist church, of Grand Rapids, in his address made an attack on the so-called liberal preachers of the state.

The Mecosta County Letter Carriers' association, in annual session at Big Rapids, elected the following officers: President, Z. Phillips, Rapids; vice-president, Charles B. Bunn, Vassar; secretary, and treasurer, Marion M. Daniels, Big Rapids; M. J. Daniels, of Big Rapids; and Arthur C. Brown, of Barryton, were elected delegates to the ninth annual state convention, which will be held in Kalamazoo July 12 and 13.

Grief over the death of his wife a few months ago following the death of four of his children is ascribed as the reason for the willful destruction of M. E. Collins, of Engadine, who shot himself. Mr. Collins was one of the most prominent men in Mackinac county. He has been a member of the board of supervisors for a number of years and was a candidate in Republican politics. Last fall he ran for sheriff and was defeated by only a small margin.

At the conclusion of the session of the W. C. T. U. at Port Huron, the following officers were elected for the year: Secretary, M. A. S. Brown, Port Huron; vice-president, Mrs. Laura H. Allen, Alpena; recording secretary, Mrs. Julia L. Parish, Bay City; corresponding secretary, Mrs. Annie L. Ardous, Detroit; treasurer, Mrs. Stella Hohen, Big Rapids. The speaker of the afternoon was Eugene Chaffin, prohibition candidate for the presidency of the United States.

Cottagers at Otawa Beach have brought suit against the Pere Marquette railway and the Central Land Co. to compel them to vacate property on which is situated the Hotel Otawa and the power and light plant. The affairs of the park association were in litigation for many years and the railroad company seized the opportunity to erect the building. The litigation was recently decided in favor of the association of cottagers and an attempt will be made to force settlement in the Kent circuit court.

A dividend of 5 per cent is being paid to the creditors of the defunct National bank of Ironwood, which failed a year ago as a result of the alleged peculations of its managers. The amount to be disbursed approximates \$22,000. Two dividends of 15 and 10 per cent respectively had previously been paid and had involved payments totaling \$167,000. The amount of the future disbursements will depend on the outcome of the various suits that Receiver Tillinghast has instituted against some 60 alleged debtors of the bank.

Some time ago Superintendent M. E. Osborne, of the public schools, placed all of the mischievous boys in a section by themselves, with Miss Clara J. Dole as teacher. The pupils in lower grades often questioned the efficiency of the scholarship of these boys as well as their ability to behave.

When the superintendent inaugurated the contest in the grammar department no one suspected that the "bad boys" would stand a "ghost of a show." The result shows that they carried off first prize with a percentage of 99.4. Eighteen of the boys spelled correctly the 100 words entered in the contest and as a reward were taken to Thornapple lake for a holiday.

The twenty-third annual meeting of the Danish Evangelical Lutheran church of America was organized at Ludington with the election of Rev. Bodahl, of Racine, Wis., president; Rev. S. D. Rodholm, Cedar Falls, Ia., secretary; and Rev. P. Goetke, Chicago, moderator. Rev. R. Hansen Grayling, has sent a check for \$1,000 to start a fund for a home for retired ministers.

N. P. Hull, of Dimondale, master of the Michigan State Grange, will address the members of the Mecosta county granges on the subject, "What the farmer owes himself," at the T. L. hall in Big Rapids, June 23.

30 DEAD IN FIRE AT MONTREAL

THE HERALD BUILDING DESTROYED—WALL OF FLAME SHUTS OUT RESCUERS.

MEMBERS OF EDITORIAL STAFF ESCAPE, BUT BINDERY AND LINO-TYPISTS ARE CAUGHT.

Water Tank Comes Crashing Down Crushing Many and Injuring Others; Loss \$200,000.

Between 20 and 30 persons lost their lives Monday when the supports of the sprinkler system (tank on the roof of the Herald building, at Montreal, Que.) gave way and the great mass of metal and water, weighing 35 tons, crashed to the basement.

Fire started immediately adding its horrors to the disaster. The firemen displayed splendid heroism in rescuing scores of people from perilous positions in the tottering walls—some of which had to come down before the work of recovering the bodies could be safely attempted and it was not until after 6 o'clock in the evening that the first body, charred and mangled beyond recognition, was brought out.

All of those who escaped agree that the first warning of the impending disaster passed almost unnoticed. There was a slight creaking, then a little more, somewhat more pronounced, but it was not until the ceiling plaster began to fall that a rush for the stairway began.

Before anyone reached it there occurred a final deafening crash and then chaos.

Bindery girls and linotype operators fell through the huge gap in the floors of the building, caused by the tank and were quickly buried under machinery and timbers.

Crowds assembled outside the burning building could plainly hear the shouts of the dying inside while the flames were slowly traveling towards them, but practically nothing could be done to save them.

All the members of the editorial department escaped unharmed, the dead and dying being mostly confined to the employees of the bindery.

One ladder was hoisted, reaching to the fourth floor, on which the bindery was located. It came between two windows. From one of these a little girl crept along the coping until she could reach the ladder. Grasping a rung with one hand and placing a foot on another she lent a helping hand to eight or ten girls twice her size. When all the girls had reached the ladder and had been brought down to safety, she came down alone.

At this time the fire had flared and flames were pouring from the windows. The little girl faintly when she reached the bottom of the ladder.

Fires From New York to Philadelphia.
Charles R. Hamilton, the American aviator, flew from Philadelphia to New York Monday, smoked a cigar, turned around and went right back again. It took the 36 miles even.

The total round trip distance is the longest yet made by a man in a plane in a single day. The record of the second flight of Hamilton and Paulin.

Long Jack Hamilton was due at Gibraltar, Island between 11 and 12 noon, but up to 1:45 he had not been seen. Explanation was made when the message came stating the aviator had landed in a swampy two miles from Perth, Amboy, N. J.

Hamilton landed because his motor was working badly, largely he thought because he omitted cleaning the spark plugs during his stop in Philadelphia.

A Pertinacious garage furnished him with new plugs and he immediately began preparations to sail on to New York.

Hamilton's flight was spectacular from start to finish, and his arrival at Philadelphia was the signal for an enthusiastic demonstration by vast crowds of people.

Sugar Trust Officers Guilty.
Charles R. Heike, secretary and treasurer of the American Sugar Refining Co., and Ernest W. Geibrecht, formerly superintendent of the Havemeyers & Elder refinery in Williamsburg, were found guilty in New York of complicity in the sugar weighing frauds on the refinery docks in Williamsburg by a jury in the criminal branch of the United States circuit court. The third defendant, James F. Benderagel, who was formerly cashier of the Havemeyers & Elder refinery, was the subject of a long tough disagreement among the 12 jurors during the nearly 12 hours in which they deliberated. This is the verdict returned by the jury.

"We find the defendant Heike, guilty on the sixth count of the indictment. We find the defendant Geibrecht guilty as charged in the indictment. As to the defendant Benderagel, we cannot agree."

In a factional difficulty at Athol, Breathitt county, Kentucky, Miles Crawford was shot and killed by Eliza Johnson. It is charged that Crawford attacked his cousin, Clay Crawford, and was killed by Johnson. The slayer surrendered.

A mob of 100 white men ordered all the Japanese laborers employed by the plant of the United States Lumber Co., at Darrington, Wash., to leave town, and after giving the foreigners time to get together their effects accompanied them to the station and saw them board a train for Seattle.

Reject Monotonous Diet.

It is not only human beings who object to monotonous diet, flesh-eating animals do the same. Rats soon die if they can get nothing but boiled flesh; after a time they refuse to touch it, and prefer to starve rather than eat the flesh. Birds differ in this respect from flesh eaters, as they may be fed in captivity for years on the same kind of seeds without taking any hurt.

Generous Impulse Best.

Were we to allow our clear ideas only to govern our life, we should quickly become uninteresting of either much love or esteem. For truly what could be less clear than the ravenous that bid us be generous, upright and just, and teach us to cherish in all things, the noblest of feelings and thoughts? Macmillan

Unusual Fitness

The Herald is an independent newspaper as far as party affiliations and party names are concerned, but when a candidate is presented by any political organization, superior in nearly every regard to his opponents, by reason of unusual fitness for the position sought, we feel it a duty we owe the public to use every endeavor consistent with honest journalism to promote the candidacy of such a person. We trust the electors of Wyandotte will do their duty in giving Patrick H. Kelley an almost unanimous vote for the high office of governor at the primary election on the sixth of September next.—Wyandotte Herald.

The Big Plank.

In his speech to an Osborn club, composed of University students, at Ann Arbor June 5, "Chase" Osborn among other things said this:

"I promise that if elected there will be a greater cleaning up and turning over of affairs than any President can possibly make."

This means that every Republican appointed, no matter how efficient he may be, is to be fired by Mr. Osborn if he is elected governor. That is the chief plank in his platform. To the average voter that ought not to appeal very strongly as being one of the highest conceptions of the duties of a governor.

Unfortunate Guatemala.

Guatemala is a corruption of an Indian word meaning "a land covered with trees." Like so many of those Spanish-American states, nature seems to have been lavish in her provision, while the inhabitants have failed to profit by her generosity. While Boston was in its infancy Guatemala, the capital city, had 100,000 inhabitants and was the home of learned men, with schools of theology and science. Yet to-day there are only 400 miles of railway in the country, and it takes as long to go from Guatemala City to Totonicapan, the next largest town, only 100 miles away, as it does to travel from New York to San Francisco on an express train. So much for the policy of "manana." The possibilities of the country would be great were they not yoked to the present conditions.

A New Back for an Old One—Now it is Done in Northville.

The back aches at times, with a dull, weary feeling, making you weary and restless, playing pains shoot across the region of the kidneys, and again the kidneys so lame to stoop, is agony. No use to rub or apply a plaster to the back in this condition. You cannot reach the cause. Exchange the bad back for a new and stronger one. Follow the example of this Northville citizen.

Mrs. W. M. Frederick, Wing St., Northville, Mich., says, "Doan's Kidney Pills have been of such great benefit to me that I feel justified in giving them my endorsement. I had considerable trouble from my kidneys for several years and I suffered constantly from dull, nagging backaches, coupled with pains through my kidneys. I doctored and tried many remedies but found no relief until I procured Doan's Kidney Pills at Murdock Bros. Drug Store. Since taking this remedy, my condition has improved in every way and backache has not bothered me."

For sale by all dealers. Price 50 cents. Foster-McBum Co., Buffalo, N. Y. Sole agents for the United States. Remember the name—Doan's—and take no other.

NORTHVILLE.

The City in Brief.

School is out for the summer.

Flag Day was generally observed here Tuesday.

If the village would only furnish the tree trimmer.

Mr. and Mrs. A. Fata, are rejoicing over the recent arrival of a son.

Regular meeting of Orient Chapter, No. 77 O. E. S., this (Friday) evening.

Miss Lida Richardson is able to be out again after her severe illness of two weeks.

The new curbing and filling in along Dunlap street is a big improvement for that avenue.

T. P. Banks has moved back here from Detroit and occupies the Banks house on Dunlap street.

Regular communication of Northville Lodge No. 186, F. & A. M., next Monday evening, June 20.

The Scale company has about 55 men at work now and orders are coming in with nearly every mail.

Rev. Lee S. McClester of Detroit will preach in the Universalist church Farmington next Sunday, June 19, at 8:30 p. m.

The diamond flag, for which tickets have been sold by St. Mary's society, was given to Miss Margaret Hanley, Detroit.

The new Ray Richardson home, corner Dunlap and High, is nearly completed. It will be one of the costliest homes on the street.

An auto service has been established between Plymouth and Walled Lake. Four round trips are made each day. Milo Corwin has charge of the line.

The "Hooligans" and "Yanigans" played a sizzling game of ball here Tuesday. Geo. Hotelling and Sam Knapp were the captains of the opposing side. Score, 23 to 23.

Word was received here Friday of the arrival on that day of an eight pound son at the home of Mr. and Mrs. F. J. Slater in New York City. Mrs. Slater was formerly Miss Eva Little of this place.

Miss Emma Woodworth left Sunday evening for Washington, D. C., where she has a position in the census bureau. Miss Woodworth will be greatly missed in the church and Young People's societies where she has always been a willing helper. Her many friends wish her every success.

The play, "Little Buckshot," in the Opera House Friday night was well attended by a well satisfied audience of about 300 people. The play was given for the Presbyterian church building fund and the society is richer by about fifty dollars. The players all handled their parts in a very pleasing manner.

Mrs. Marcia M. Shores and daughter, Mrs. Frank I. Lee, gave a big dinner party at the La Court Hotel, Grand Junction, Wednesday afternoon, June 8, in honor of Mrs. R. C. Yerkes, a guest in the city. It was one of the largest and most elaborate parties of the social season—Grand Junction (Colo.) Daily Sentinel.

About thirty friends and neighbors of Mrs. Fred VanStickle were invited in Tuesday evening by her husband to help celebrate her birthday which occurred on that day. It was a complete success and everyone had a most enjoyable time. The hostess was presented with a very pretty belt buckle as a remembrance of the occasion.

The 1910 season at the Prison Binding Twine Plant, at the Michigan State Prison promises to be the most successful in the plant's history. The total amount of twine sold up to June 4th was 2,019,885 pounds. This exceeds by over a quarter of a million pounds the amount manufactured and sold up to the corresponding date a year ago. While it is believed that every order received for the season's output can be filled, it is advisable that those who wish to purchase twine do so as soon as possible.

Last Friday Chief of Police Bogart received a tip from the Farmington police that the notorious "Pat Quig" was again at large in that part of Oakland county and was headed for Northville. Steps of prevention were immediately taken and he was at last rounded up, placed in charge of a D. C. R. conductor on the Plymouth line and hustled toward Wayne. At last report he had reached Ypsilanti. Thanks to Chief Bogart's watchfulness nothing serious happened during "Quig's" sixty minute sojourn here.

The Michigan Agricultural college has made arrangements for a farmers' institute special train, running through the northern counties of the state. The Detroit & Mackinac, Michigan Central and Pere Marquette railroad officials are co-operating with the college authorities and the trip is being extensively advertised.

The complete schedule will be published next week. Prof. Taft, a number of the college professors, Dairy & Food Commissioner Little and Governor Warner will be on the train. The Dairy interests of Michigan will be the subject of the governor's addresses.

An event of much interest to the former members and attendants of the once famous West Novl Debating club is the first reunion of that society, which is to be held next Tuesday, June 21, at the West Novl school house. The hour of meeting is 10:30 a. m. with picnic luncheon at noon, the afternoon to be devoted to one of the old-time programs of the club. Invitations have been sent to all former participants so far as possible and any who may have been overlooked are hereby notified through the Record. The question for discussion will be, Resolved, "That Present Conditions and the Signs of the Times Indicate that the World is Getting Worse Instead of Better." Affirmative, T. E. Johns, David Sage, David Wilson. Negative, B. T. Nicholson, A. N. Kimmins, Harry Bogart.

Now is the time to buy your summer hat at the Misses McHugh as you will get it at a reduction.

COMMENCEMENT

HAS ENDED

(Continued from Page 1.)

Smith's talk, which was extremely interesting, was that the pupils who were about to graduate should enjoy and appreciate the things about them, and make use of every opportunity presented to them. Mr. Smith was greatly applauded. Several selections were given by the Pontiac Male Quartet who were given an encore at each appearance, and a fine piano selection was given by Guy Filkins.

SOPHOMORE—FRESHMEN
The Sophomore-Freshmen exercises took place Thursday afternoon. After two fine piano solos by Don Hall and Roy Cray, prophecies as to the future of the Sophomore girls ten years from now were given by three Sophomore boys, Harold Turner, Clyde Schoutz and L. D. Stage.

In the same way three of the Freshmen boys, Carroll Dubuar, Donald Baker and Ross Dixon, told the future of the Freshmen girls Margaret Yerkes, Olive Mateon and Edna Nelson answered with a prophecy for the Sophomore boys and Eva Mueser, Anna Simon and Myrtle Ward with a prophecy for the Freshmen boys. A vocal solo by Leota Kinyon and a class song by the two classes completed the entertaining program.

COMMENCEMENT
Last evening a large and enthusiastic audience greeted Lieut.-Gov. P. H. Kelley, who gave an address to the members of the graduating class of 1910. The address was, in the opinion of those present, the most practical one ever given in Northville. The graduates were seated on the stage which was very prettily decorated in the class colors, red and white.

Mr. Kelley was introduced by President Dubuar in well chosen words and the speaker was well received with generous applause.

The diplomas were presented to the graduates by Chas. L. Dubuar, president of the school board.

The people of Northville will certainly have occasion to remember this Commencement Week which has been full of good things from start to finish. Let us hope for another.

Goose Quill Party.
The H Circle of the Presbyterian Aid society will hold a goose quill party and knitting contest at the home of Mrs. Parsons next Monday afternoon at 2 o'clock. Prizes will be given to the lady producing the most ancient relic and also to the lady who knits the best and fastest with goose quills for needles. An admission of ten cents will be charged.

Notice to Taxpayers
The village tax roll is now in the hands of the treasurer at the Lapham State Savings bank. Taxes may be paid without extra percent charge on or before August 1, 1910.

THE PHILOSOPHY OF LIFE

Did it ever occur to you that a man's life is full of crosses and temptations? He comes into the world without his consent and goes out of it against his will, and the trip between is exceedingly rocky. The rule of contraries is one of the features of the trip.

When he is little, the big girls kiss him; when he is big, the little girls kiss him. If he is poor he is a bad manager; if he is rich, he is dishonest. If he needs credit, he can't get it; if he is prosperous, everyone wants to do him a favor.

If he is in politics, it is for graft; if he is out of politics, he is no good to his country. If he doesn't give to charity, he is a stingy cuss; if he does, it is for show. If he is actively religious, he is a hypocrite; if he takes no interest in religion, he is a hardened sinner. If he gives affection, he is a soft specimen; if he cares for no one, he is cold blooded.

If he dies young—there was a great future before him, if he lives to an old age, he missed his calling.

If you save money, you're a scoundrel. If you spend it you're a loafer. If you get it, you're a grafter. If you can't get it, you're a bum—So what the deuce is the use.

COMPANY STREET IN CAMP WEST POINT

OFFICERS ON DUTY AT WEST POINT

GUARD MOUNT AT WEST POINT

A COMMENCEMENT WEEK DIVERSION

GRADUATION week at the United States Military Academy is easily the crown jewel of the year, and a look forward to with the keenest anticipation by all the American army in the making.

In this respect, however, the significant week in June at the great military institution on the Hudson is not so very different from the corresponding culminating interval of the academic year at other great seats of learning in this country. To be sure, the drills, caparison evolutions, dress parades and sham battles do supply an element of the spectacular not to be found in like degree anywhere else, unless perhaps it be at the United States Naval Academy at Annapolis, but in so far as the graduation exercises proper are concerned, and the attendant farewell balls, the program at the Point is not so different from that carried out at other big educational institutions at the close of the school year.

Yet for all this sameness, in some respects there is enough of novelty in the climax at West Point to draw visitors by the thousand from all sections of the country. Nor are the spectators by any means limited to the relatives and close friends of the young men who are to receive, along with their diplomas, commissions as second lieutenants in the regular army. That would be understandable enough—such a gathering of interested kith and kin. But aside from the onlookers whose interest is stimulated by blood ties, there is a vast assemblage, the members of which feel no interest in either graduates or undergraduates at the Point but who have been drawn thither by the prospect of a "show" literally worthy of many miles of travel to witness. The picturesque events, ranging in variety all the way from guard mount to rough thing, are the magnets which draw to West Point the vast throng of sightseers and pleasure seekers. In fact, it may be noted that it is an excellent opportunity to see celebrities. The president of the United States, the secretary of war, or some other prominent official, presents the diplomas to the graduates, and high officials of the army are always present in their bravest show of gold braid.

The military academy is probably unique among all educational institutions in that the term "commencement week" has a certain appropriate significance for the whole student body, rather than merely for the graduating class. At West Point, commencement week means the commencement of a new life for the lads, who after four years of book learning and practical training, are to go forth to assume the responsibilities of lieutenants of infantry, cavalry or artillery. But for the quota of cadets left behind to finish their uncompleted courses of instruction this momentous week in June likewise means the commencement of a new era—a change in the existing order of things that is about as radical as could be imagined.

This universal significance of the commencement season is due to the fact that the majority of the West Point cadets are not granted a summer vacation after the fashion which obtains in the case of the pupils at most public and private

schools. If change of occupation be a sufficient vacation however, the purpose of a summer respite is admirably served for the boys in gray who leave their quarters in barracks for the camp accommodations of a tented city and the various forms of study from books are supplemented by outdoor soldiering of the most practical kind. For more than two months the young men are to live under canvas, and many of the graduation week visitors, particularly the representation of the fair sex, remain to see the camp life inaugurated with all its customs of entry duty parade.

To an uninitiated person at West Point brings to the fountain head of American military education a swarm of visitors that favors the hospitality of everybody in the country. Although the varied attractions of the Point at graduation time were not enough there are notable hints of the Hudson in this vicinity at this season, and moreover, this whole section of the Hudson river valley has her most attractive spring dress at this time of year, and draws hither a considerable portion of our leisure class, ever ready to go anywhere in search of diversion. The circumstance that the West Point Military Academy is not in close proximity to any large city, complicates the problem of housing the strangers that invade the stronghold at this time of year. All accommodations in the hotels in the vicinity (including the one under the auspices of Uncle Sam), are engaged months in advance, and every officer on duty at West Point is likely to have his hospitality and incidentally the sleeping accommodations in his "quarters" taxed to the utmost.

During the golden days of June, which wind up the year at the military academy, discipline is relaxed, and all the cadets from upper classes to plebes are at liberty to enjoy the round of pleasure which is provided. To be sure there is plenty of work mixed in with the play, for this is the time of year that the official board of visitors makes its annual inspection, and the West Point battalion is expected to display its best points. Between times, however, there are opportunities for strolls on the far-famed "Flirtation Walk," and incidentally it may be remarked, that it is the one season of the year when there is a fair visitor for every cadet. Ordinarily the proportion is one belle to three, or even to six or seven prospective officers. The evenings are given over to hops, culminating in the appropriately named "Farewell Ball."

GENERAL WOOD ALWAYS READY

Qualification That Earned His Advancement in Brief Time.

Ray Stannard Baker writes a most interesting sketch of Gen. Leonard Wood in the American Magazine, part of which is quoted as follows:

"Many there are who have attempted to account for the startling rise to power and fame of Gen. Leonard Wood. Twelve years ago an assistant surgeon, with little or no regular military training, how is it possible that today at the astonishingly youthful age of 50 (he was born October 9, 1860), he should be the ranking major-general and chief of staff of the army of the United States?"

"Somewhere in one of his essays Emerson observes of a certain extraordinary man that he was 'prepared for his age.' No better description of the success of General Wood could possibly be written. Without especially brilliant qualities to commend him, with little promise in his earlier years, he has been, at every crisis he has had to meet, particularly the man who was ready. There stood Leonard Wood—prepared. It was not that he sought the places which he has filled so successfully; but that he was supremely the man who was ready for them.

army, although only a surgeon, he was assigned to lead a detachment of soldiers in pursuit of Geronimo's Apache warriors, far down among the mountains and cactus deserts of Old Mexico. He performed this difficult task with such courage and efficiency that he was especially commended by his commanding general and rewarded by congress with one of its rare medals. Theodore Roosevelt said of him:

"No soldier could outwalk him, could live with greater indifference on hard and scanty fare, could endure hardship better or do better without sleep."

"At the beginning of the Spanish war, when it was proposed to raise a regiment of rough riders, the man naturally chosen to lead was this same recient, low-spoken, well-prepared army surgeon. He became colonel and led the rough riders on the bloody hill of Las Guasimas. After that, when the high ones at Washington looked about them for a man to command the conquered province of Santiago, there stood Leonard Wood—ready. He proved an admirable colonial administrator and from that moment onward he had been the 'famous man' in connection with the most difficult problems of our foreign dependencies. He became governor of Cuba, then he went to the Philippines.

"As he has held more and more important positions, performing each task with that high sort

of quiet efficiency which Americans admire, he has risen, naturally, in rank in the army, until now he is chief of staff, with headquarters at Washington."

INDIAN CREMATION MUST STOP

Some time ago the agent and other officers in charge of the Yuma reservation asked the braves to refrain from burning the houses of the dead. They showed how easy it would be for a fire to sweep over a part of the reservation and put government property in jeopardy.

For a time the Indians observed the request, the Los Angeles Times says, but a few days ago celebrated the departure of one of their number in the most approved redskin style. The personal effects of the deceased were burned and his house was set on fire. He was supposed to have arrived in the happy hunting ground, ready for an enthusiastic reception.

But, inasmuch as the personal property of a deceased person belongs to the heirs by the California law, there is no doubt that zealous friends overstepped the law when they cremated every thing the dead Indian had ever owned.

The practice of the Yuma Indians in burning their dead, together with the possessions left by the departed braves, has aroused the federal authorities to action. While there wouldn't be interference with cremation—a religious rite—the officers declare that government property must not be endangered.

SAVED OLD LADY'S HAIR

"My mother used to have a very bad humor on her head which the doctors called an eczema, and for it I had two different doctors. Her head was very sore and her hair nearly all fell out in spite of what they both did. One day her niece came in and they were speaking of how her hair was falling out and the doctors did it no good. She says, 'Aunt, why don't you try Cuticura Soap and Cuticura Ointment?' Mother did and they helped her. In six months' time the itching, burning and scaling of her head was over and her hair began growing. Today she feels much in debt to Cuticura Soap and Ointment for the fine head of hair she has for an old lady of seventy-four."

"My own case was an eczema in my feet. As soon as the cold weather came my feet would itch and burn and then they would crack open and bleed. Then I thought I would flee to my mother's friends, Cuticura Soap and Cuticura Ointment. I did for four or five winters, and now my feet are as smooth as any one's. Ellsworth Dunham, Hiram, Me., Sept. 30, 1909."

A Practical Discourse

One stormy day the children were amusing themselves indoors, playing church. "Now, Florence," said Theodore, "I'll be the minister and tell you what you must do, and you'll be the people, and you must listen and do what I tell you." Climbing up on a chair, he began his sermon "Florence, you must be a very good girl and do whatever your brother wants you to do. If he wants your playthings, you must let him have them, and if you want any of his, you just let 'em alone."

Of Peculiar Interest to Women.

Mrs. Mary I. Remington, Elginberry St., Gilroy, Cal., says: "I suffered so severely from pain and soreness over the kidneys that it was a task for me to turn over in bed. My kidneys acted very frequently, but the secretions were retarded and the passages scalded. I was weak and run down. After taking other remedies without benefit, I began using Doan's Kidney Pills and was permanently cured. It Was His Turn

Two weary travelers were compelled to seek lodging in a country hotel that was unpromising, in looks at least. Upon conferring with the owner the prospects brightened.

"Certainly, gentlemen," he said. "I have one spare bed that the two of you may have—a large feather one. This way, please."

"They followed and were loath to anticipate much ease, but accepted the only thing and retired. One was soon snoring long and loudly, the other could not sleep. At about two in the morning the wakeful one nudged his companion."

"Here, get up! Time's up," he said.

"What's the matter?" asked the other. "We are not on duty."

"No, but it's my turn to sleep on the feather," was the reply.

MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Hudson, Ohio.—"If mothers realized the good your remedies would do delicate girls I believe there would be fewer weak and ailing women. Irregular and painful periods and such troubles would be relieved at once in many cases. Lydia E. Pinkham's Vegetable Compound is fine for ailing girls and run-down women. Their delicate organs need a tonic and the Compound gives new ambition and life from the first dose."—Mrs. GEORGE STRICKLAND, Hudson, Ohio, R. No. 5, Box 32.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for their daughters have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Read This. Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take immediate action to ward off the serious consequences and be restored to health by Lydia E. A DOCTOR'S EXPERIENCE

Medicine Not Needed in This Case.

It is hard to convince some people that coffee does them an injury. They lay their bad feelings to almost every cause but the true and unsuspected one.

But the doctor knows. His wide experience has proven to him that to some systems, coffee is an insidious poison that undermines the health.

Ask the doctor if coffee is the cause of constipation, stomach and nervous trouble.

"I have been a coffee drinker all my life. I am now 42 years old and when taken sick two years ago with nervous prostration, the doctor said that my nervous system was broken down and that I would have to give up coffee."

"I got so weak and shaky I could not work, and reading your advertisement of Postum, I asked my grocer if he had any of it. He said: 'Yes,' and that he used it in his family, and it was all it claimed to be."

"So I quit coffee and commenced to use Postum steadily, and fought in about two weeks' time I could sleep soundly at night and get up in the morning feeling fresh. In about two months I began to gain flesh. I weighed only 146 pounds when I commenced on Postum, and now I weigh 167 and feel better than I did at 20 years of age."

"I am working every day and sleep well at night. My two children were great coffee drinkers, but they have not drank any since Postum came into the house, and are far more healthy than they were before."

TREATED AS FIRST AMERICAN OF TIME

Theodore Roosevelt Most Highly Honored in Europe.

EXCITING INCIDENT IN ROME

Former President Delivered Scholarly Lectures in Paris, Berlin and Oxford—Represented His Country at King Edward's Funeral.

Scarcely less interesting than his bustling trip in Africa, and at times almost as exciting, were the adventures of Col. Theodore Roosevelt in Europe. There he desired to be treated as a man of letters and science, rather than as a sportsman, and his desire was gratified. But in addition, Europe insisted on receiving him as the most distinguished American of the time, and everywhere he went honors were showered on him. Emperors, kings, princes and all manner of royalties and nobility greeted him, dined him and toasted him, and the people in all the lands that he visited turned out in vast throngs to see him and cheer him.

In Paris, Christiania, Berlin and Oxford, Mr. Roosevelt delivered scholarly public addresses and the literary and scientific circles opened to let him in and marveled at the wide scope of his knowledge.

The event connected with Mr. Roosevelt's European tour that aroused the most interest and excitement occurred immediately after his arrival in Italy early in April. Before he left Africa his desire to pay his respects to the pope had been conveyed to the Vatican and the holy father had intimated that he would be glad to see the distinguished American. About the same time former Vice-President Fairbanks was in Rome and had arranged for an audience at the Vatican which was cancelled by the pope because Mr. Fairbanks first addressed the Methodist mission in Rome. When Colonel Roosevelt reached the Eternal City he

post, where he was given a royal welcome. Paris was next on his itinerary, and there on April 23 he lectured in the Sorbonne before a great audience of savants and students. The municipality and its officials, the president of France and various learned societies vied with each other in doing honor to the visitor, and for amusement he was taken to the field of aviation, where he saw some exciting aeroplane flights.

Traveling northward somewhat leisurely, by way of Brussels, Amsterdam and Copenhagen, Mr. Roosevelt arrived at Christiania and delivered an address on international peace before the Nobel prize commission, which had awarded to him the Nobel peace prize for his successful efforts to end the Russian-Japanese war.

Emperor William had made great

plans for the entertainment of the ex-president in Berlin, but the death of King Edward caused the curtailment of the program to a considerable extent. Instead of being the Kaiser's guest in the palace, Mr. Roosevelt stopped at the American embassy, and though William received him and

received, through the American minister, a message from Cardinal Merry del Val, papal secretary of state, to the effect that the pope would grant an audience to Mr. Roosevelt if he did not repeat the mistake made by Mr. Fairbanks. The colonel promptly called it all off, stating that as an independent American citizen he could not submit to such restrictions. The

dined him and showed him the German army in maneuvers, the more spectacular and public features were omitted. On May 12 Mr. Roosevelt delivered at the University of Berlin an address on modern civilization which was highly praised for its scholarly qualities.

Having been appointed special ambassador of the United States to attend the funeral of King Edward, Colonel Roosevelt next crossed the channel to England, and when the body of the dead monarch was carried to the tomb he was one of the remarkable crowd of royal personages and distinguished men that followed the gun carriage on which Edward's coffin was borne. After the funeral he was received by King George and Queen Mary and by the widowed queen mother, and in a quiet way made necessary by the mourning of the nation much attention was shown him. This culminated in London, by a reception in the Guild Hall, at which the freedom of the city in a gold casket was presented to him.

He was the guest thereafter of several prominent Englishmen, and on June 7 he delivered the Romanes lecture at Oxford, which had been postponed by the demise of the king. This was the most pretentious of all his European addresses and the best. His subject was "Biological Analogies in History."

The University of Cambridge honored Mr. Roosevelt by conferring upon him the degree of doctor of laws, and the occasion served to demonstrate his popularity with all classes.

As Mr. Roosevelt accepted his diploma from the hands of Vice-Chancellor Mason, the students who crowded the galleries shouted "Teddy! Teddy!" and let down a large Teddy bear from the ceiling. The whole audience cheered and the colonel, as he passed over, smilingly patted the Teddy bear. Later that day Mr. Roosevelt addressed 700 graduates, on all kinds of topics.

On June 11 the traveler, together with Mrs. Roosevelt, Kermit and Miss Ethel, sailed on the Kaiserin Augusta Victoria on their way to New York, and the rousing welcome that he knew was awaiting him from his fellow countrymen.

HENRY FORDYCE

LAND IN CANADA AN INVESTMENT

WORK IT, AND SECURE 20 PER CENT. ON THE EXPENDITURE.

Farm lands in Canada increased in value this Spring from fifteen to twenty per cent, and as a result of this increase thousands of those who have gone there, within the past few years have had that much more value added to their holdings. There is proof here that as a field for investment there is nowhere to be found a more profitable one than in purchasing farm lands in Canada. And, as a field for occupation and working, the farms there is nowhere on the continent where more satisfactory return is given. The crops are always sure and the prices are always good. With railroads entering and traversing all the settled parts, there are very few districts in which the farmer will be more than from ten to twelve miles from a railway station. Roads are good, and big loads are easily handled. The price of getting grain to the primary market is low on this account, and then in reaching the world's markets the railways have their rates controlled by the Government, and what may be considered a fair deal is certain. Good prices for all kinds of grain is the rule, and if the investor has made good money by the increased value given to his unworked land, it is not difficult to understand that the profit to the man who works his land is just that much more, and there will be no depreciation. The man who holds a free homestead of one hundred and sixty acres of land, which he got for \$10 as an entry fee, has land which at its lowest estimate is worth \$10 an acre—yes, \$15 an acre—the moment he has completed his three years' residence duties. It will continue to increase in value until its earning power gives a reasonable interest on a certain sum. That is, if he takes off the land fifteen to twenty dollars per acre clear profit each year, his land is worth to him, at a fair rate of interest, \$200 an acre. If he only realizes \$10 an acre clear profit, it is worth \$100 per acre. Now, thousands of farmers are duplicating these figures. The price of land in Canada to-day is much less than its realizing value. The fact that the fifty thousand Americans who went to Canada year before last were followed by one hundred thousand last year offers some evidence, and good evidence, too, that there is getting to be a pretty fair knowledge that money is to be made in Canadian lands. As an investment money is to be made, but more by living upon the land, secured either by home stead or purchase. The one hundred thousand of last year will be one hundred and fifty thousand this year. These complete people from every state in the Union, and it is just being realized the asset that awaits the homemaker in Canada. The large numbers that have gone, though, makes no appreciable difference in the supply of land. There is still left vast quantities of the best of it. But the longer a delay is made in arriving at a decision, the price will advance proportionately, and the more desirable homesteads near the railway lines become more difficult to secure. The Government publishes interesting literature, which may be had on application to any of the agents whose offices are located at different points throughout the States, and they (the agents) will be pleased to assist in any way possible in the choice of location.

The Laughing Barber.
Jim Rice, the coach of the Columbia crew, was praising a stalwart freshman.

"He's so young and tender," said the coach, "you'd never think he could row. Why, they laugh at him at the barber's."

"As he was getting his hair cut the other day he said to the barber wistfully:

"Do you think I'll have a strong beard?" "My father has a very strong one."

"It looks to me," said the barber, "as though you took after your mother."

Caught in the Act of Entering a House FIGHTS VICIOUSLY TO ESCAPE Gives Desperate Battle to Four Policemen, Who Finally Clasp Him Into Insensibility.

These are only imaginary lines from an imaginary newspaper. Such a story would break into the first page of most any newspaper and for some of the "yellows" there wouldn't be type large enough for the headlines.

There hasn't been any such story and there probably never will be, but a certain distinguished member of the upper house of congress found it necessary a few nights ago to use a "jiminy" to get into his own house. It was all because he has more than one suit of clothes—not an unusual thing for a senator, although he is not a millionaire—and he had left his keys in the other suit.

Value of Rural Beauty: Street railway companies in Massachusetts have offered to aid the state in its battle against forest fires. The state has accepted the offer and general orders have gone forth to many of the railway superintendents to begin the work of co-operation at once on a well-planned system. This move on the part of the railway companies places a commercial value on rural scenery. It is to protect scenery because it attracts the people and creates traffic for the companies—New England Magazine.

Peaches and Their Qualities.

Here, the well-known peach expert, says the white-fleshed peach is coming to be in great demand wherever quality is sought for, and, as it is more hardy than the yellow-fleshed, it is better for the grower. A cold climate is further says a Greensboro is the earliest and best; Waddell requires rich feeding and severe thinning; Champion, the most delicious, requires rich feeding and severe thinning; Belle of Georgia, good quality, handsome, but the best seller and a sure money maker. Crosby, yellow-fleshed, but hardy, can get good sized fruit by big feeding and excessive watering has extra small pit, fine flavor, flesh; Hill, Chilli, late, but a late keeper, needs excessive feeding and good thinning.

Where She Put the Notice.

Great are the mysteries of a New York apartment to an upstate bride. Particularly is this true of the kind of flat where push button and "clicker" latch in the door take the place of a hallway. One couple who are just getting settled haven't found a "treasure of a maid" yet. They were going out the other evening, and as they were expecting some furniture to be delivered they left the key with the janitor. "Better put a note, Ring Janitor's bell over our bell button," suggested hubby. Wife attended to it. The furniture came, found no admission and went. "Didn't you put up a notice?" asked the annoyed husband. "Why, yes," she replied. "I put it right in plain sight on our own hall door. They must be stupid!" And he's so well trained never laughed.

Wanted Taxpayers to Buy Robe.

There is at least one judge out in the state of Washington who does not believe in old-time judicial customs and is willing to fight any law that forces them on him. Washington's legislature at its last session decreed that its higher judiciary should wear robes. Judge Mitchell, of Thurston county, opposed the law, but when it became effective bought a robe at a cost of \$75 and sued the counties in his district for the amount, contending that as the extra expense was forced on him by the people's representatives the taxpayers should settle.
