LIVONIA SCHOOL HAS MANY LICE

DIRECTOR WANTS TO KNOW HOW TO GET RID OF THEM.

Attorney General Appealed to for Information.

LANSING, Mich., June 23.—The attorney general is in receipt of the following letter mailed to the department by the director of school district No. 3, Livonia township, Wayne county:

"Attorney-General, Lansing, Mich.: 'Dear Sir:—Our school is infested with lice and has been for two years. We have tried every way that we could think of to get rid of them, but every move we make makes some one mad at us, especially those who seem to have them. Now, what I wish to know is, whose duty it is to see they (the lice) are gotten out of the school. We (the school board) are very anxious to get rid of them, but we meet with lots of opposition, especially from some that are more nice than wise, and a little thick headed, and thinking we might have to compel them to clean up I thought that I would like to

know how to get at it and be within the law and also to know who should attend to it." Deputy Chase read the letter and said: "While the statutes of the state seem to be silent on the lice question, yet we believe that it is within the power of the school board to act."

"Circle N" Boys Scaten. The ball game Saturday was won by the Wabash fellers in a score of 6 to 3. Northville was just a little outclassed but more than that the home players contributed a lot of costly errors.

S. D. McENERY DEAD

UNITED STATES SENATOR FROM LOUISIANA EXPIRES IN NEW ORLEANS.

DIES OF ACUTE INDIGESTION

End Comes After Arrival From Washington—Was Serving His Third Term—Governor Sanders Will Probably Be His Successor.

New Orleans.—Samuel Douglas McEnery, United States senator from Louisiana, suddenly expired at his home here Tuesday from an attack of acute indigestion.

The senator arrived here Monday from Washington. He was seventy-three years old, and death was superinduced by old age.

The senator is survived by his wife, who was before marriage Miss Elizabeth Phillips of Monroe, La.; his daughter, Mrs. Warren B. Parker, and his two sons, Charles P. McEnery and Dr. Douglas W. McEnery of Washington.

The present term of Senator McEnery, which was his third, would not have expired until March 3, 1915. During his service he was known as an independent Democrat who voted frequently with the Republicans. This was true particularly in tariff legislation.

In conformity with custom the sergeant-at-arms of the United States senate was immediately notified by telegraph of Senator McEnery's death. The funeral will be held Thursday morning.

In all probability Gov. Jared Y. Sanders will be chosen by the Louisiana legislature, now in session, as Senator McEnery's successor. It is thought that the leading figures in state politics have figured upon the aged senator's passing for some time, but it was not anticipated exactly at this juncture.

DEMANDS MILLION DAMAGES

Ida Von Claussen Files Suit Against Roosevelt and Others Charging Slander and Conspiracy.

New York.—Ida Von Claussen, once the wife of Dr. William Francis Honan, whose coming to America to sue Theodore Roosevelt and other notables was announced from Paris a few weeks ago, appeared in the county house Tuesday with a complaint which she insisted on filing in the county clerk's office.

Her complaint charges Theodore Roosevelt, Robert Bacon, ambassador to France, Charles Graves, minister to Sweden, and Mrs. Alice Wright G. Graves, his wife, with slander and conspiracy. She declares that through the machinations of these distinguished persons she was deprived of a royal marriage with Prince Eugene of Sweden in the bridegroom.

Wherefore she demands \$1,000,000 damage.

CHARLTON CASE IS HALTED

Arraignment Postponed to Await Exchanges Between Washington and Italian Government.

New York.—Porter Charlton's case now waits upon the result of exchanges between the state department at Washington and the Italian government.

His counsel in asking that his formal arraignment be postponed, Tuesday promised that no effort would be made under habeas corpus, insanity or other proceedings to take the prisoner out of the hands of the New Jersey authorities, pending the adjourned arraignment, which after some argument, was finally set for July 8.

Meanwhile it is expected that the international aspects of the case will have adjusted themselves and decision be reached as to whether Charlton shall be delivered to the Italian authorities on extradition proceedings.

FOUR KILLED IN GAS BLAST

Acetylene Tank Explodes Injuring Eleven—Saloon and Hotel Is Burned by Resulting Flames.

Minneapolis, Minn.—Four men were killed and 11 injured two of them fatally, when Edward Bushay's saloon and suburban hotel, five miles north of Minneapolis, was blown up by the explosion of the acetylene gas tank in the basement of the building.

The dead are Eugene Hamlin, Louis Hammish, Charles Siggetkow, all of Minneapolis, and an unidentified man.

The explosion tore the roof from the building with terrific force. Fire started immediately and in half an hour the entire place was nothing but smoking ruins.

It is believed that more bodies may be in the debris.

Wife of Vice-President Better. Baltimore, Md.—Mrs. James S. Sherman, wife of the vice-president, who is a patient at Johns Hopkins hospital, was reported Tuesday somewhat improved, since her arrival, and that her case was not considered critical.

LA FOLLETTE SEES ROOSEVELT

SENATOR LEAVES COLONEL IN JUBILANT MOOD.

Declares Former President is Greatest American Living and is in Fighting Trim.

Oyster Bay.—Robert M. La Follette, United States senator from Wisconsin, spent two hours talking politics with Theodore Roosevelt. He left Oyster Bay wearing a broad smile.

Senator La Follette arrived with G. E. Roe, a New York lawyer, who was formerly his law partner. Colonel Roosevelt's chauffeur was waiting for them, and whisked them away to Sagamore Hill. The senator had pulled his hat down over his eyes and tried to escape unseen. But he was caught fairly at it by a group of newspaper men. They tackled him on suspicion, although nobody recognized him, for his hat hid his famous pompadour.

"Not a word," he said. "I'm going to Sagamore Hill, but I don't want a word said about it."

When he returned, just in time to catch a train for New York, he was smiling his most expansive, persuasive smile. "It's all right, boys, he cried jovially. 'The colonel says I may talk with you."

"Did we talk politics?" he replied to the first question. "We did."

"We talked of the legislation of the present session of congress, from the attitude of those members of the Republican party whom the newspapers are pleased to call insurgents."

"Can you go into details?" "No; I prefer that they come from Sagamore Hill. I am very much pleased with the result of my visit with Colonel Roosevelt, very much pleased, indeed."

The senator paused for a moment. Suddenly the smile left his face for the first time and he said, impressively: "I want to tell you that Colonel Roosevelt is the great living American, and," he added slowly and significantly, "he is in fighting trim."

SAY CHARLTON IS INSANE

Allentons Who Examined Wife Murderer Declare He is Irresponsible for His Acts.

New York.—Porter Charlton, self-confessed slayer of his wife, Mrs. Mary Castle Charlton, whose body, stuffed in a trunk he tossed into Lake Como, Italy, may escape punishment for his crime.

Powerful influences were put at work Friday to save the prisoner, now locked up in the Hudson county jail at Jersey City, from being extradited to Italy.

Judge Charlton, the murderer's father, consulted with R. Floyd Clark of this city and former Senator William D. Edwards of Jersey City, whom he retained on Thursday after getting word at Washington of the arrest of his son as he stepped from the steamer Princess Irene at Hoboken. At this conference it was decided to fight the extradition proceedings urged by the Italian charge d'affaires in a cablegram to his government at Rome.

The murderer's counsel have determined upon a defense of insanity to keep him from being removed from his country. Four alienists visited Charlton in his cell and watched him for five hours. When they emerged they said that he is without doubt insane and that his particular species of insanity is incurable.

1,500 IN SHIP FIRE PERIL

Four Dead, Number Seriously Injured and 400 Slightly Hurt—Result of Burning of Excursion Steamer.

La Crosse, Wis.—Four persons are dead, a number seriously injured and about 400 slightly burned in attempting to escape from the burning bulk of the excursion steamer J. S., with 1,500 passengers aboard, which caught fire Saturday night in the Mississippi river 15 miles south of here.

The story of the rescue as told is that the steamer, when it finally reached Bad Ax Island, where the passengers were able to escape ashore, was burning so fiercely that only 200 of the 1,500 aboard were able to go ashore on the gangplank. The other 1,200 or 1,300 passengers were forced to leap over the rail into water four or five feet deep and wade ashore, suffering terribly until they were able to reach the main land.

His six children were taken unhurt. Threats were made to burn Bostwick out of his house, but when it was seen that it could accomplish nothing that way the posse began firing. The military company came from Fitzgerald and went to the scene of the battle.

TAFT'S SON RUNS DOWN MAN

LABORER IS BADLY HURT BY AUTOMOBILE.

Hospital Reports Say There is Evidence That Workman is Seriously Injured.

Beverly, Mass.—One of President Taft's automobiles, driven by his son, Robert T. Taft, ran over and seriously injured a street laborer.

At the hospital it was said there were indications that the workman's skull was fractured.

Robert, with two college friends, Lendall King of Minneapolis, and George Harrison of Washington, started out from the summer White House for a spin along the Massachusetts north shore.

Robert, who has been driving the automobiles about the city considerably since his arrival last week, was at the steering wheel.

At Pride's crossing, about two miles from home, the streets were being oiled by a gang of men. The automobile was slowed down. The horn sounded and most of the men stepped aside.

One of them, however, was not quite quick enough, and the machine struck him, tossing him into the gutter. He was unconscious when picked up by young Taft and his two friends.

CONGRESS COMES TO CLOSE

Adjournment Sees Most of the Taft Program of Legislation Carried Out.

Washington.—With President Taft's legislative program practically carried out in its entirety the first regular session of the Sixty-first congress adjourned this Saturday night.

Congress was warned that it must change its method of framing river and harbor improvement measures, and announcement is made that unless reforms which he suggests are carried out in future bills the withholding of executive approval will be justified, even though a river and harbor bill fail.

The president also signed without comment the postal savings bank bill, the omnibus public building bill, the latter carrying authorization for improvements aggregating \$23,000,000, but leaving the items of appropriation to be attended to later, in connection with the regular estimates of the treasury department with respect to work authorized by congress.

General Funston is suffering from angina pectoris. It was learned that he has been subject to slight heart trouble for some time, and it is believed that the heat of the last week brought on the present severe attack.

The Glorious Fourth.

Monday is the time set apart to declare, celebrate and promulgate the day of our national independence when we are called upon to fling our banners to the breeze, let our patriotism bubble over like soap suds from a clay pipe or voice-razor with "My Native Country, Thee," "Red, White and Blue," "Yankee Doodle," and "The Girl-Left Behind Me" when powder and patriotism will flash forth the Declaration of Independence, declaring all men are created free and equal and entitled to pursue happiness to the full extent of their ability in the land of the free and the home of the brave, where the star-spangled banner in triumph shall wave and not one bright star from its constellation can ever be plucked by any land or nation, for tinted we stand, and the band naught can sever, so the flag of our union must float on forever, and where breathes the foe but falls before us; so let every Record reader join in the chorus—boys and girls, ladies and ladies, young men and maidens, patrons and matrons and aged sires all have a most glorious Fourth—a joyous, happy, booming, becoming, frolicking, royal good time,—one long to be remembered, not with regret because of misconceived and misused privileges, but of greatest delight and satisfaction because of proper observation with due consideration of the rights and privileges of every born true American citizen.

The Man of the Hour.

There can be no question at the present time concerning the identity of the man who is occupying the center of the political stage in Michigan. No one can attempt to deny the statement that Lieut. Gov. Kelley is, so far as state politics is concerned, the veritable "Man of the Hour." In the face of the most ridiculous claims as to strength, and of much beating of tom-toms by the upper peninsula candidate's friends, on every topic except the one of interest to the state at large, Mr. Kelley spoke forth fearlessly on what he considered to be one of the prime questions of the campaign and the instant attention which he commanded was given food for thought in his clear and concise outline of the need for a re-assessment of mining property. In a single day he swung the discussions that had hitherto been touching on generalities only, into a clear cut and well defined channel. Since that time Mr. Kelley and the method which he proposed for the re-assessment of mining property, have been the sole topics of newspaper conversation throughout the state.—Lansing Republican.

Kelley and His Smile.

With public sentiment about the state crystallizing in his favor the campaign of Lieutenant Governor Kelley progresses smilingly. Mr. Kelley and his smile are inseparable of course. But with unquestionably a more comprehensive knowledge of state affairs than any man who has aspired to be governor in latter years, he is discussing the pending issues with a frankness, a fairness and a smile, mingled with a lucidity that is in striking contrast with the apparent popular inclination to straddle as many hobbles as the diversified interests of the state will warrant.—Hartford Day Spring.

Cass Benton's suggestion that the people be permitted to appoint the successor to Coroner Bennett is a timely one. Cass says: "A wait the result of the primaries, and then let the Republican candidate receiving the highest vote be appointed to the office," was a good one.

Knows What He's Talking About.

Mr. Kelley is fully acquainted with conditions in the upper peninsula. His discussion of the question asked him by the grange, in the reply he has submitted shows that he knows what he is talking about. It is not a wordy diatribe but an intelligent and dignified treatise of an important subject. Other candidates for governor may promise more and kick up a lot of dust, in the making of the promise but any fair minded man will realize that Kelley has promised all any governor can deliver.—Lansing Republican.

Supt. Wilkinson of the water works system has had the springs cleaned out and they are filling up the ten inch main full, so that more springs would do no good unless another main is put in at a cost of five thousand dollars or more. Wilkinson says that it only takes a few hose to lug off all the present main will furnish. The trouble, Sam says, is that water is being recklessly and extravagantly used by some residents and business places and where there is a shortage, all must suffer alike.

Some restrictions should now be placed on the use of water on lawns and for sprinkling purposes. Already the reservoir is getting low and in a short time there will be none to use without injury to fire protection. Water is being run to waste and used on lawns at all hours of day and night. The further developing of springs is a matter of importance also to be considered. Water is most needed when it is most scarce.

It is not easy to learn to keep a household account book all at once. A young husband gave his wife a neat little account book prettily bound and designed to be inviting in appearance. He also gave her fifty dollars, and said: "I want you to put down what I give you on this side and on the other write down the way it goes, and in two weeks I will give you another supply." Two weeks later he asked for the book. "Oh, I have kept that account," said the young matron, "here it is." And on one page was inscribed: Received from Fred fifty dollars, and on the opposite was this summary, "Spent it all."

WINCHESTER

Smokeless Powder Shells

The Patent Corrugated Head on Winchester "Leader" and "Repeater" shells absorbs the shock of the powder explosion instead of localizing it, as the old English way of metallizing does. That's why Winchester shells, with their modern patented construction, are so superior to ones made according to the English method of times long past. If you want the best shooting shells
