that they will.

voters will make no mistake when they nominate and elect John Harp-

fer, as the indications seem to be

EDISON LIGHTS EXPENSIVE

Not Looked Upon as Good Proposi-

sition for Northville.

Tho mass meeting held last week to consider the Edison Electric Co's proposition wasfairly well attended, but the proposition to furnish juice

to Northville and Northville people did not seem to create any favorable impression, either with the council

or, the citizens, Supt Wilkinson figures that it would cost the village

erom exallob berbuud, zla teebrawqu

to light the streets and that seventyfive per cent of Northalles people have to pay more for flighting their

homes than at present The Edison people would probably be willing to

pay \$40,000 for the Northville plant.

They were esked to name a meter rate for the juice-to be supplied to

the village, but as yet have not done

THE PRIMARIES

TO BE MARCH 1

John Harpfer The Logical Candidate

As it is settled, at last, that the Wednesday, March first. These are candidates are put in nomination upon the respective tickets

For County Auditor, a canvaga among the voters of the county, outside the city, shows a remarkable unanimity of opinion in favor of John Harpfer. Ho far as we have firen able to ascertain, all those who served as supervisors with Mr. Harpfer, and who are in a position to know of his fitness, are with him to a man.

While a resident of Detroit and mpercisor by virtue of his office as alderman, as chairman of the Board of Supervisors, he treated the county members with a fairness such as they have seldom experienced from other chairman and showed qualities that make it the voter's duty to himself to support Mr. Harpfer at both the primaries and election

-As to his qualifications for the office, probably no one is better qualified to sepeak then County Auditor Robertson In an interview In one of the Detroit papers the other g appeared the following:

"Lhave known Jobn Harpler for many years," said County Auditor Robertson, this morning anent the approaching primaries, in which Mr Harpfer is a candidate for the republi lican nomination to succeed Auditor Bubrer "In his public career as alderman, President of the Common Council, chairman of the franchise committee, member of the important committee on liquor regulations, chairman of the Board of Supervisors and member of other very important committees, he has shown the stuff of which he is made and demonstrated his ability to well fill the office to which he aspires Courteous and affable at all times, always ready to do a favor which means a personal sacrifice, he never allows his affability to interfere with the duty that he owes the public. His character, honest fearless and able, has shown that he possesses the firtanges to say 'No,' when 'No should be said, as it often must be said by a County Auditor, while his courteous manner and even temper. his willingness to put himself out at any time, will assure the public of the proper treatment that They are entitled to expect from a public official There is no one, of whom I can think, who better meets the requirements of the office of Auditor than Mr. Harpler and, from my long

poraries. He was reared in a workof the County for Auditor.

Hillsdale. Twelve men, unloading ice, were puried beneath a great weight of the substance near Bankers, Hillsdale county, when a freight of empty cars crashed into four cars partly filled with ice. All of the men per acre on 200 acres, and 18 bush were hurt, Lone seriously.

WINNIPEG, MANITOBA, THE GREATEST WHEAT MARKET ON THE CON-TINENT

REMARKABLE YIELDS OF WHEAT. OATS, BARLEY AND FLAX IN WESTERN CANADA LAST YEAR

Figures recently issued show toat the wheat receipts at Winnipeg last year were 88,269,330 bushels, as compared with the Minneapolis receipts of 81,111,410 bushels, this placing Winnipeg at the head of the wheat receiving markets of the continent. Fol-lowing up this information it is found that the yields throughout the provinces of Manitoba, Saskatchewan and Alberta, as given the writer by agents the Canadian Government stafioned in different parts of the States, have been splendid. A few of the

instances are given: Near Redvers, Sask., Jens Hortness threshed about 50 acres of wheat averaging 29 bushels to the acre. Year Elphinstone, Sask, many of the crops of oats would run to nearly 100 bushof oats would run to nearly too bush-els to the acre. A Mr. Muir had about 200 acres of this grain and he esti-metes the yield at about 60 bushels, per acre. Wheat went 35 bushels to the acre on the farm of Mr. A Loucks, near Wymyard, Sask. ain the fall of 1910. K. Erickson had 27 and P. Solvason 17. In the Dempster (Man.) district last year, wheat went from 25 to 30 bushels per acre. Fifteen scres on the Mackenzie & Mann farm today went forty-three hushels to the acre In the Wainwright and Battle river districts rields of wheat averaged, for the district 26 bushels to the M. B. Ness, of the Tofield Aldistrict, got 98 busnels and 28 lbs. of oats to the acre, while near Montrose, over 94 bushels of oats to the acre was threshed by J Leonie, not ... ithstanding the dry weather of June. Further reports from the Edmenton district give Frank McLay of As the santor furched under his the Horse Folls 100 bushels of oats heavy load along a halm-bordered average of the cet., is under arrest in the bushel A 22 ace field of spring nanity wheat on Johnson Bros. farm near Agricola vielect 40% bushels to the vas grown on McMil in Bio, farm rear Westlourne who have a total

Spobn Bros, four miles southwest of Strome, had a splendid grain yield of excellent quality wheat, grading No 2 A. S. McCulloch, one mile northwest of Strome, had some wheat that went 40 bushels to the acre. J. Blaser, a few miles south-Strome threshed 353 bushels of wheat from 7 acres Among the good grain yields at Macklin, Alberta, reported are 'D. N. Tweedle, 22 bushels to the acre, John Currin, 24 bushels wheat to the acre, Sam Fletcher, 20 bushels to the acre.

At Craven, Sask, Albert Clark threshed from 60 acres of stubble 1,990 bushels; from 20 acres of fal-low 900 bushels of red file wheat that weighed 65 pounds to the bushel. Charles Keith threshed 40 bushels to the acre from 40 acres. Albert Young, of Stony Beach, southwest of Lumsden, threshed 52 bushels- per acre from summer fallow, and George Young 5,000 bushels from 136 acres of stabble and fallow, or an average of I 38 1-2 bushels to the acre. Arch Morton got 5,600 bushels of red fife from 160 acres James Russell got 8,700 bushels-from stubble and late breakmg, an average of 231/2 pushels At Rosthern Jacob Friesen had 27

bushels per acre from 80 acres on new land and an average over his whole farm of 21% bushels of wheat. John Schultz threshed 4,400 bushels from 100 acres, or 44 bushels to the acre. John Lepp had 37 busheis per acre from 200 acres. A. B. Dirk had 42 bushels per acre from 25 acres Robert Ros of Grand Coulee threshed 45 bushels to the acre from 420 acres. Sedley, Sask, is still another district that has cause to be proud of the yields of both wheat and flax J. Cleveland got 30 bushels of wheat per acre on 100 acres and 18 bushels of flar on 140 acres T. Dundas, southeast of Sedley, 40 bushels per acre on 30 acres; M. E. Miller, 34 bushels per'acre on 170 acres of stub ble, and 35 bashels; per acre on 250

acres fallow; W.A. Day had 32 bush-

els per acre on 200 acres of stubble

and 35 bushess on 250 acres of fallow;

J. O. Scott had 30 bushels of wheat

els of flax per acre on 300 acres; James Bullick averaged 29 bushels of wheat; A. Allen 30 bushels; Jos. Run-ions; 40; Alex Ferguson, \$8; W. P. Thompson, 35, all on large acreaced. The flax crop of J. Cleveland is rather a wonder, as his land has yielded him \$60 per scre in two years with one ploughing. Russell, Man, farmers thrested 30 bushels of wheat and 60 threshed SU dualities of wheat and to to 30 bushols of oats. A. D. Ston-bouse, near Melford, Sask, had an average yield on 13% acres of new land, 63% bushels of Preston wheat to the acre. Hector W. Swanston, a. farmer near Welwin, Sask, had 5,150 bushels of wheat from the order. pushels of wheat from one quarter section of land John McLean, who owns two sections, threshed 12,860 section of land bushels of wheat

turned. Now, as Orme charged to gril lead the pursuers on while he ward him, he bent slightly forward, returned. every muscle tense, ready to strike or trip or twist

His framework was overlaid by muscles that were like supple steel. Light his build And though Orme's outbreak had been sudden, the Japanese was apparently not in the least dis-

He knew how to turn the rush of tre American into a disastrous fall. He knew how to prod with his beny the horny edge of his hand against and rolled in silent agony, sensitive vertebrae. He could seize But at the same moment ery reason to feel confident. Many a a sudden, killing strain on his spine.

time had he got the better of Amer ican fist fighters

But a system of offense and defense which is based upon the turning of an 'opponent's strength against 'himself absolutely depends for its success upon an accurate estimate of the opponent's intentions A sudden shift of physical purpose may put your hulitsu adept at a loss.

Arima, from his knowledge of Amer ican fighting methods, had reason to think that Orme would continue his charge and strike out with his fists when he came near enough That, Fowever, is something that Orme did not do. For, in his two previous encounters with the Japanese, he had learned much He had learned among other things, the value of the unex-bected. And though his anger was And though his anger was almost blinding, he cooled, during those few stort strides, to his usual

stopped short

For one tense moment Orme brened his senses to all impressions. He could hear, with almost painful distinciness, the moans of the two men he had stunned and the rustling sounds made by facer writhings

He caught a glimpse of the girl. The scarchight of one of the cars struck full on the side of her face, and drew there, a distinct shadow of the net-work of her disarranged hair. He saw the strained, excited look in her eyes

Her captes still held her arm He was watching Orme and Atima undifferently, as though quite confident of Japanese skill.

All this Oime observed in an inatant. Then his eyes tere again on

He knew that he would have to at

Suddenly he raised his left arm above his head and clenched his list His right aim remained by his side," .

To Lengthen Life. A former United States surgeon says that human life may be lengthened if people are taught more about the subject of ventilation, how to breathe how to dress. In addition, he would have food supplied by municipal kitchens, where the cooks shall be required to pass an examination and not ce engaged unless they possess the proper certificate of qualification. He might have gone further and that in case we have municipal kitch-ens there would also have to be a muof five characteristic felegrams from nicipal kitchen commission instructed him to James Redpath 1860.74 In to see that the kitchens provide pure one of them he says "Noufy all food Perhaps there would have to have the five food by the kitchen committee above them. be a kitchen committee above them to see that the commissioners were not influenced by "graft." But many a housenecter will cling to her kitchen to the last. She may accept ready-towear cott rg and send her vaching to the "aundry to be clowned with the glother of a hundred other families, but most families like their food cooked in some particular war which renders the community kuchen, whether in boarding house or fashionable hotels, unsatisfactory.

I thought that infernal woman representing. But I've got less the danger from pneumonia and other than I never will lecture outside erious diseases. Mr. B. W. L. Hall, of

CALLS SEC. WILSON ON RECIPROCITY

MAKING FARMERS SCAPEGOAT FOR PAYNE TARIFF BILL SIN

Clamors for a Square Deal-for Tillers.

The proposed Canadian reciprocity agreement la attacked in a letter sent to Secretary of Agriculture James Wilson by former Gov Nabum Bachelder of Concord, N. H., national master of the National Grange. Patrons of Husbandry, and chairman of that erganization. The lester is a reply to the communica-Secretary Wilson to Mr. Bachelder

The letter, addressed to Secretary Wilson, says in part: "The sole question before the American people is whether we shall have free trade in all sarm products, and bigh products, and high protection for manuinctured farticles. We understand that you are a protection to . What alnd of Protection is it that would The Eighth grade is erjoying compet the farmer to pay from fortyfive to sixty per cept duties on every thing-be-buys and enniect him to Ine Senions are looking up their like trade competition in farm pro ducts which can be produced more cheaply in Canaca than in the United States?

"You know the price of farm land is much lower in Canada than in the United States: You know that the wages ôf Canadian farm labor_are much lower than we have to pay You know that the Canadlan farmet buys his manufactured articles cheaper, because his tariff duties on foreign goods is lower. You know that the farm lands of Lanada are mostly virgin soil, requiring no fertilizers, while our lands have been cropped so long that we must use quantities of fertilizers And yet, knowing all this you would strike averāžing about twentvilve per More had results at Holly and conf. which they now needer, with Portlac last Fillay night marks the out giving them the benefit of any rest reduction of duties on manu-

Why It Succeeds

Because it's for One Thing Only, and Northville People Appreciate this.

Nothing can be good for everything.

Doing one thing well brings

Doan's Kidney Pills do one thing

They cure sick kidneys.
They cure backache, every kidney Here is Northville evidence to

Here is Northville evidence to prove it.

Mrs. Henry Garfield of Northville, Mich., 65y8: 2"Doan's Kidney Pille are certainly an excellent remedy and I do not hesitate to recommend them to anyone affleted with back ache and kidney complaint. For a long time I suffered from pains in the small of my back and I had no energy or ambition I tried various remedies but received no permanent benefit from them. Finally I read of Doan's Kidney Pills and deciding to give them a trial, I procured a supply at Murdock Bros." Drug Store In a short time after I comsupply at Murdock Bros." Drug Store In a short time after I comstore. In a short time after a com-menced using them, I was entirely

elleved "-The above systement was given a November 26, 3906 and was ontraded by Mrs. Garn-ld on March 1909 She said that her cure had

been perimanent.

For saie by all dealers -Pfice 50 cents. Foster-Milburn Co. Burnalo, N. Y, sole agents for the United States Remember the name—Doan's—and take no other.

3 MINUTES

in the morning and three minutes at night, with a good TOO! H BRUSH; and PASTE, will keep your feeth clean and white. Let us recommend

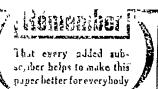

Euthymöl Tooth Paste

for the care of your teeth. More eco-nomical than a powder or liquid. EUTHYMOU TOOTH PASTE WILL accomplish just, what it was made for. It will make the teeth white, purify the breath and keep the mouth in a clean, healthy condition. This product is no experiment. We use it, and we know what we claim to be a fact. Try Eulhymol Tooth Paste on your teeth to-night.

Price, 25 Cents at Tube.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doe for sprononreed it is local disease and presented local remedies and by constantly failing at o cure with local treatment pronounced it incurrible. Science has proven catarrh to be a constitutional disease and therefore requires constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. theney & Co, Toledo, Ohfo, is the only constitutional cure on the market. It is taken internally in doses from 10-drops to a team method in the constitution of the pooling of the system. They offer one bundred dollars for any case it falls to cure. Send for circulars and team monials. Address, F. J. Chemy & Co., Toledo, Ohio.

Winter Months on the Farm

How to Improve Them

Weed Eradication

Waste from Weeds and How to Cortrol and Eradicate These Sencus Pests By PROF. R. A. MOORE

Constight, 1910, by Western Newspaper Union

dollars occur annually throughout Immense areas cient weed control. ested in scientific and permanent agri-culture have considered the menace of ares, largely along the line of seed in spection to maure clean seed.

Farmers on the virgit soils of the United States where weeds were now numerous were inclined to ridicale the idea that they could ever become seriously troublesome. The fears of the scientists have been realized, however, and there are now many farms in this country which have been agan-don-a because the weeds have multiplied and spread so rapidly that the armer has become discouragel and gien up in despair. Noxious weeds are spreading at a rate which has alarmed these who are acquainted with he seriousness of the situation There are many farms where 25 per cent, of the crop producing capacity has been destroyed by weeds There is a great necessity of some concerted action for weed control and eradication with respect to two of the most widespread and serious weed

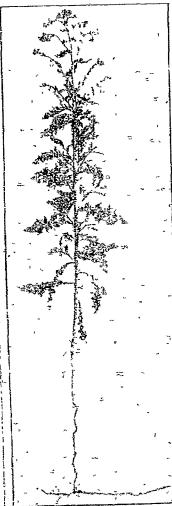

. The Worst Weeds.

While there are many weeds which are proving troublesome on farms there are two which are pre-eminently noxious particularly in Wisconsin and the north central states vir Quach grass and Canada thisties hese useds are extremely difficult to radicate because of their peculiar nature and habits

Wild must rd has become a serious post in the grain fields of time states and in some ections is set the breed its control of farmers using ordinary methods of error ition and taking base deteriorated there theirs kinen. as they must be killed to eradicate it and the possess a great deal of vitality. At each joint new roots are brown out and at many or them new stems start in this way the grass able, as rains wash on spreads rapidly and a piece of the making it ineffective.

Crops losses aggregating millions rootstock with one of these joints on it will produce a new plant, although of dollars occur annually in the second of the lit may not be over one-half lack of effi-tie United States due to lack of effi-tive whole-plant grows rapidly, and are infected with weeds to an extent ripens its seed usually in July and, that makes it very advisable to carry where growing in meadows, may be on a determined warfare to erudicate gathered in the har, from whence it For many years those inter- gets into the manure to be scattered

broadcast over the farm. ested in scientific and permanent ages of the scientific and have considered the menace of the growing in grain it will be that weeds and have issued warnings vested and threshed with the grain, against them This early work dealt and in the grain is not graded with almost wholly with preventive measwill be sown on the fields the next year.

Canada Thistle a Merzee. Like Quack grass the Canada this-tie is a perennial plant. In height it ranges) from one to three feet, de-pending on conditions. The Carleda thistle has no rootstocks like the Quack grass, but is possessed of true cots, the parts of which are capable of producing plants When undisturbed by cultivation the roots are apt to he near the surface, but go deeper in rultivated soil and where it is particularly loose and porous may found at a depth of three fee

Canada thistles seldom beer seed in fields that are cultivated annually, but in those fields that are seeded down to clover or grasses.

Methods of Weed Eradication.

Many methods have been devised and advocated for the eradication of Quach grass and Canada thistles. The success of any method depends very large'y upon soil and weather conditions and a method which has proven entirely successful under one set of conditions has frequently failed when Uisconsin fised under somewhat different comin litons Quack grass is more persis tent and more difficult to graduate grass will surely dectroy l'anada this

This method can be used an cossful folle. Do riob cup be grown=quink the year ly which this treatment is ?

11) fillowing method is more cer brokers tain to result in condicte gradientlon I in my ather auteh has been tored of cets till of the weeds with year's wore. The thorough cultura tion of the soil leaves it in splendid condition, so that a much larger crop can be obtained the following year than would have been possible had the weeds remained, and the field will continue to Bur good creps after the needs are enminated.

Where the Quack grass or thistles are to be removed while a crop is being raised, plowing should begin in rig mises, rowing should begin in the summer or nutumn as soon as the former crop is removed the earlier the better. This should be followed by careful cultivation until the ground freezes up The next spring growing should be done as snon as soil conditions permit and be continued at intervals of four week until he first of July.

Between the plowings thorough cut-tivation should be practised. On the date ment ored the seed bed should be carefully prepared and the land sown to millet or buckwheat at the rate of three pechs be acre in either case. The previous treatment wall nave so weakened the weeds that the millet or buckwheat gets well established before the weeds recover sufficiently to begin growth. Both of these crops grow ispidly and provide a dense shade underneath which the

weeds cannot survive Soraying to Kill Wild Mustard The eradication of farm weeds by spraying with weed killing solutions ras seen the subject of special inves-tigations by the Wisconsin experiment station for several years. Exreaments with the iron sulphate solution were begun in 1966 and successful results were secured in the eradi-cation of aild mustard and in the par-

tial control of other weed pests
The men subhate solution is prepared by mixing 100 pounds of grandnied pron sulphate with 50 gallens of ther and stirring thoroughly. This solution is sufficient to treat one sore of land infected with wild mustard A specially adapted sprayer is neces sary to apply the solution. Such machines are now to be found upon the

stances. It reproduces itself by means of the good daily and a single application of the stocks. It is the rootstocks which give the plant its noxious character, as they must be killed to eradicate. the younger plants aro in the bud and the older plants in the third leaf Weather conditions should be favor able, as rains wash off the solution,

for several months. It seems the tariff board has found that wool growing conditions vary in different parts of the country and that special inquiries are needed in each section. This has made the work much bardar than it was supposed at first that it would be. Board Criticized for Slowness.

There, has been a good deal of criticism of the apparent slowness of the board in securing facts. The perts when they say anything on the subject let it be known they think that instead of being criticized for slowness they should be commended for quickness. The strong intimation is that no one who has not actively engaged in the work can have an ade quate idea of the enormous labor that is involved in getting at facts. Criticism, however, is not checked by the defense that is made. When the reports of the board on certain schedules are made public it will be possible to understand the amount of labor necessary to get the information which the president ordered the toard

to secure. On February 17, 1906, Nicholas Lougworth and Alice Roosevelt were married in the East room of the White House. This year, on the same date, of course, occurs the wooden weeding celebration.

It is said that Mr. and Mrs Longworth have received enough wooden were to start an ordinary couple in ware to start an brainary couple in housekeeping and that more is to come. One young girl in Washington presented the couple with a huge old-fashioned cupboard of the kind which old men remember as occupying the corner in the old farmhouse kitchen or-60 years ago. Practical Joker Meant to Abolish His Wife, and Doubliess He Did. - -

When the first shipment of frozen eggs arrived from Australia their extreme hardness astonished the brok era.

One man, calling at a broker's office was amazed to see him taking aim at the wall with an egg.

"What the dickens are you at?" he sāid. ald. But it e broken let drive the fouly

result being a slight dent in the wall. The thing being explained, the man-took a couple of the eggs, put them in his pocker, and left to startle his wife. Arriving home, he waited till the family was assembled for dinner, and then banged an egg at the new

But the smile guickly faded from his face. The egg-had thawed—Lon don Tit-Bita.

SUCCESSFUL TREATMENT OF PIMPLES AND BLACKHEADS

A speedy and economical treatment for distiguring pimples is the follows ing: Guntly smear the face with Cuti-cura Ointment, but do not rub. Wash off the cintment in five minutes with Cuticura Soap and hot water and bathe freely for some minutes. Re peat morning and evening. At other times use hot water and Cutaura Soap for bathing the face as often as agreeable. Cuticura soap and oint ment are equally successful for itching, burning, scaly, and crusted humors of the skin and scalp, with loss of hair, from infancy to age, usually affording instant relief, when all else Send to Potter Drug & Chem. fails Corp, Boston, Mass, for the latest Caffeura book on the case and treat ment of the skin and scalp.

The Human Heart

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body at the race of seven miles an hour. "Remember this, that our bodies miles an hour. "Remember this, that our bodies will not stand the strain of over-work without good, pure blood any more than the engine can run smoothly without oil." After many years of study in the active practice of medicine, Dr. R. V. Pierce found that when the stomach was out of order, the blood that when the stomach was out of order, the blood impure and there were symptoms of general break-down, a tonic made of the glyceric extract of certain roots was the best corrective. This he celled

Dr. Pierce's Golden Medical Discovery

Being made without sloohol, this "Medical Discovery" nelps the stomach to assimilate the food, thereby curing despense. It is especially adapted to diseases attended with excessive tissue waste, notably in convalescence from various fevers, for thin-blooded people and those who are always "catching cold." Dr. Pierce's Common Sonse Medical Adviser is sent on receipt of 31 encent stamps for the French cloth-bound book of 1908 pages. Address Er. R. V. Pierce, No. 663 Main Street, Enfalo, N. Y.
