## ROBERT GIBBONS

### ON RECIPROCITY

### LIKENS IF UNTO THE FAMOUS WILSON BILL.

### Opinion of Former Publisher of Michigan Farmer.

Robt. Gibbons, for thirty years publisher of the Michigan Farmer, has this to say of the recently passed reciprocity bill:

"I am wholly and eternally opposed to the Canadian treaty, which is practically free trade for the farmer and protection for the manufacturer. The Wilson bill was along the same lines, and it was a ruinous measure so far as the farmer was concerned, and this reacted on the manufacturer and laborer so disastrously as to throw out about 15,000 workmen, many of whom had to accept relief from the Poor Commission. Now, after 14 years of great prosperity, we are to be thrown into a state of industrial chaos again."

## MARSHALL BOGART

### HAD RIOT CALL

Will McMillan, who lives near the head of Randolph street, with Albert McGee from Kansas, who was a visitor at the home, got gloriously drunk Tuesday evening at one of the local bars and proceeded to paint the town a sun-set hue in the home and neighborhood. Chief of Police Bogart was called in to quiet the

riot and the two were detained in the lock-up over night. McMillan was given \$5.00 and costs by Judge Knapp Wednesday morning and McGee, whose hilarity took place over the border, was taken to Pontiac by Deputy Sheriff West of Novi to answer to an assault and battery charge.

McMillan looks like a young boy and when not drinking is said to be industriously inclined, but when he gets outside the booze he just looks for trouble with a search light. He was able to raise the fine and will not take thirty days at the Detroit House of Correction where the taxpayers of the village of Northville pay board and lodging at the rate of \$1.75 per week.

McMillan says he was paralyzed before he left the hotel bar, but that he didn't feel real scrappy until he got home.

### Leland-Sheppard.

Miss Hazel Irene Sheppard was married to Mr. W. F. Leland at Ann Arbor, August 2. The bride is a daughter of Mr. and Mrs. Charles B. Sheppard, a prosperous farmer, who lives on the Plymouth road, just south of Phoenix. The bride is a very attractive young lady and has a host of friends who wish her all kinds of happiness through life.

Mr. Leland is a U. of M. '13 law student and the son of a prominent and wealthy ranchman of Doniphan county, Kansas.

### Card of Thanks.

I wish to thank the many friends, neighbors and The King's Daughters for their kindness, also for books and flowers given to my little son, Harold, during his recent severe illness, also for the untiring kindness shown to my father and myself during his long illness.

Miss Bessie Vogel.

About fourteen years ago she suffered a stroke of paralysis which rendered her almost helpless, but she bore her affliction with that same cheerful disposition that had followed her through life.

Her husband, with whom she had lived over half a century, passed away the 28th of last August.

The funeral was held from her late home Sunday afternoon, Rev. Geo. Guilen officiating, and the remains laid to rest in Oakwood cemetery.

### Judicial Humors.

Judges on the bench have been assailed. A litigant once threw an egg at the late Vice-Chancellor Mallin in an English court. The judge had the presence of mind to duck his head, and at the same time he established a reputation as a humorist by remarking that the present must have been intended for his brother Bacon, the vice-chancellor who was sitting in an adjoining court.

### A Dilemma.

"Wealth has its embarrassments," said the ready-made philosopher. "Yes," said Dr. Dumble Star. "After you reach a certain point of affluence you usually have to take your choice between being accused of penuriousness or vulgar display."

## PREPARING FOR GREATEST FAIR

MICHIGAN STATE FAIR THIS YEAR WILL ECLIPSE ANYTHING EVER ATTEMPTED.

### TO BE GREATER THAN EVER.

Preparations for Big Event Going Forward on Gigantic Scale—It Is 72 Years Since First State Fair Was Held.

"Greater and grander than ever before."

This is the slogan that has been adopted by the Michigan State Fair management for the sixty-second annual exhibition to be held on the magnificent grounds of the Michigan State Agricultural Society at Detroit, September 18 to 27, 1911, and, if excellence, diversity, quality and quantity of exhibits, and entertainment features that are new, novel and startling, suited to all tastes and requirements, can bring out the crowds, there will be no doubt about the attendance.

A Street Leading to the Grand Stand at the State Fair.

#### A Permanent Institution.

The Michigan State Fair has become a permanent institution, located on a magnificent site, comprising 156 acres just outside the limits of the beautiful city of Detroit, easily accessible by the superb D. & M. electric railway system, and by the Grand Trunk steam railroad.

Hundreds of thousands of dollars have been expended on grounds and buildings with a view to permanency, and each year some substantial structure or structures are added to the group as a whole, to meet the growing requirements of a great agricultural, horticultural, educational and industrial exposition where can be displayed the products of the farm and factory of a great state—of several states.

Last year the society erected, at an expense of \$50,000, a building for the display of automobiles and accessories, that is 12,000 feet long for the entire year. The floor will be occupied by automobile manufacturers with the latest designs of machines, including many 1912 models, while the second floor will be occupied by manufacturers of auto accessories, electrical appliances, etc.

There is every prospect that the coming State Fair will in every respect, and by far, eclipse any event of like character ever held in Michigan, and that the reputation of holding the greatest fair in the United States has been the goal of the management, and President Thomas E. Newton is fully satisfied that this ambition will be reached in 1911.

Judging Cattle at the Michigan State Fair.

A force of men has been at work on the grounds for weeks cleaning, sodding, mowing, trimming the shrubs and trees, and setting out beds of flowers, and by September everything will be in full bloom and the grounds a delight to the eye and an ideal rest spot for tired visitors.

The 20 per cent increase in premiums offered by the fair management this year to exhibitors in the live stock, agricultural and horticultural departments has evidently greatly stimulated interest in these departments, as inquiries for space already greatly exceed any former year.

#### Has Been Some Changes.

The seventy-two years that have intervened since the first "State Fair" was held have seen Michigan develop from a wilderness into one of the greatest agricultural and industrial states in the union, and Detroit grow from a trading post to the metropolis of the state; in this period the "State Fair" has been through bankruptcy several times. There have

been years when no fair was held, and it has camped in many places, but not until the public spirited citizens of Detroit gave it a permanent home, assumed its debts and provided funds for its sustenance and maintenance was it ever really a success, and this is said with all praise for the men who labored so faithfully these long years against great odds and adverse conditions to make it pay financially. They were not lacking in energy. They were simply confronted with conditions they could not overcome, all of which have been successfully met here.

The first State Fair of Michigan was held at Ann Arbor, October 1, 1839. Twenty head of animals, both cattle and sheep, the proud exhibits of Henry Raymond, a Grosse Ile farmer, and specimens of cheese and butter from a Mr. Tibbitts, of Plymouth, constituted the first exhibition of the agricultural and horticultural fair of Michigan in that year. No preparation whatever had been made, no officers of the institution could be found, and not half a dozen persons in Ann Arbor had heard that such a fair was to be held. There was no fair grounds designated, but on the appointed day the two exhibitors drove thirty miles to have the show, and put in an appearance on a vacant lot, commenced holding the State Fair and soon drew quite a respectable crowd. The good people of the village voted thanks to the exhibitors.

Eight of 40 men on the "Acamori" Maru survived when she went down in the typhoon off Kuno, and 100 fishermen were drowned there. The Japanese naval training squadron was crossing off Tosa and two seamen were killed on the Hashidate and seven injured, three mortally. At Chiba 64 men who went to save a fishing depot, were caught in a tidal wave and 53 were drowned.

Thousands of houses collapsed, the number in Tokyo and vicinity being over 12,000, according to official statistics. The warehouse and factory districts of Tokyo, suffered severely, eight warehouses, containing goods worth \$16,000,000 being demolished. The loss there was more than \$4,000,000.

and the exhibitors themselves felt quite proud of that "State Fair."

On returning home, Raymond addressed the president of the society, the Hon. John Biddle, of Detroit, asking what had gone wrong, and why no officials of the association appeared at Ann Arbor. President Biddle, politely and regretfully informed Raymond that the whole thing had been entirely forgotten by the fair.

LOSS WILL RUN INTO MANY MILLIONS; THOUSANDS ARE HOMELESS.

PENNSYLVANIA FLYER LEAVES TRACK WHILE GOING 70 MILES AN HOUR.

Coatsville, Pa., Mob of 400 Men Drag Wounded Negro From Jail Chained to Cot, and Burn Him Alive.

More than 500 lives were lost and great devastation on land and sea resulted from the typhoon and tidal wave which swept upon Japan July 16, according to advices brought by the steamer Empress of Japan. The fishing fleets from Shizuoka suffered severely, more than 200 fishermen being drowned.

At Tokyo a tidal wave swept away many houses, including a large tea house, with 33 persons. The Shinkansen, a high-speed train, was derailed, and several persons were killed. The Shinkansen was a high-speed train, and several persons were killed.

Eighteen-hour flyer in wreck—Four Dead.

The Pennsylvania 15-hour train from Chicago to New York, was wrecked on the outskirts of Fort Wayne while going at the rate of 70 miles an hour. Two dead are known, two are missing and a score or more, injured.

In leaving the rails the two engines pulled the passenger train sidetracked a freight engine and the three piled up in a mass of heat and twisted iron.

The train left Chicago at 2:14 in the afternoon and was due in Pittsburgh at 11:45. The first trouble came at Winona, Ind., where the engines broke down. This caused a delay of more than an hour and when the new day, a header was hit by an engine and was made to make up time.

Burns Negro to Death.

A mob of 100 men battered down the doors of the Coatsville, Pa., hospital, dragged out Ezekiel Walker, a negro, charged with killing Special Policeman Rice, carried him half a mile, manacled to his hospital cot, and burned him alive.

The lynching was accomplished only after the negro had from pain, had leaped from the blazing pile built over him, and tried to escape dragging the bed to which he was bound by his handcuffs. A crowd of 2,000 watched the mob leaders beat the man, with fence rails and force him, shrieking, back into the flames. Three times he bounded up, and three times was thrust back, until finally the quivering body fell into the fire.

Only there was the mob satisfied. The masked men walked back to the town and a half hour later they had dispersed as rapidly as they had gathered.

The killing has aroused the greatest indignation in the community and everything possible will be done to bring to justice the ringleaders of the mob.

Medical Building Burned at U. of M. The western section of the old medical building of the University of Michigan, at Ann Arbor, was destroyed by fire. The blaze is thought to be of incendiary origin, as the building was unoccupied at the time and there were no live electric wires on either the third or fourth floor. The fire broke out in the fourth floor of the western section of the building, and for two hours flames poured from every window on all four floors. The city water supply was insufficient to ward the hydraulic pump of the engineering department was started, making available the water in the big marine tank of that department. The thick walls between the east and west sections of the building, aided by the streams of water poured into the east section, kept the flames from spreading to that portion of the structure, though the inside of it is flooded.

More than 16,000 people were in Eaton Rapids for the farmers' picnic, given in connection with the G. A. R. encampment. It was the largest "roundup" that has been held in Eaton Rapids in 25 years.

R. G. Stur, 73 years old, for 25 years a lumberman of Gratiot county, and a member of Gen. Garfield's regiment in the civil war, died in the hospital in Saginaw. He leaves a large family.

Glen Jackson, a 6-year-old boy, residing in Marshall, owes his life to his 8-year-old companion according to the statement made by a local physician. The two were in the country when the Jackson boy was bitten by a rattlesnake. He began to cry, but his companion remained calm, and proceeded to suck the poison from the bite. As a result the lad will probably recover.

Gov. Harmon, of Ohio, was given a reception at the Grand hotel, Muskegon, and a large crowd attended. The Board of Trade and subsidiary organizations have started a movement for an electric line to be run through Vassar, Caro, Cass City, Bed and have a terminal at Harbor Beach. The third of the series of market trips of the "Wholesalers and Manufacturers' association was made and the towns named were visited by automobiles. All the business men at each city have promised to assist the Saginaw boosting forces in promoting the line.

Good Chances in Burned Area. The Northeastern Michigan Development bureau, through its secretary, F. E. ## VETOING STATEHOOD TAFT HITS RECALL

SPEAKS PLAINLY OF POPULAR INNOVATION IN OVERRULING ARIZONA AND NEW MEXICO STATEHOOD.

SENATOR WM. ALDRED SMITH PUTS IN SUBSTITUTE BILL.

President Says Majority Is Not Always Just; Judges Must Be Independent of Popular Will—Measure Fraught With Danger.

President Taft in a special message to the house of representatives vetoed the joint resolution providing for the admission of Arizona and New Mexico to statehood. His reason for vetoing the executive power of veto was based on his thorough disapproval of the recall of judges clause in the Arizona constitution. The fact that New Mexico's statehood was bound up with that of Arizona, meted out to her the same fate, and neither territory can come into the union at this time unless friends of the joint resolution in congress can muster the two-thirds vote necessary to pass the resolution over the president's veto. This may be attempted.

The president did not spare words in condemning the recall feature of the Arizona constitution, which he said would compel judges to make their decisions "under legalized terrorism." The recall provision would operate against all elective officers of Arizona, including both county and state judges. When 25 per cent of the voters of the previous election petitioned for a special election to remove an officer such an election would be compulsory.

This provision of the Arizona constitution, the president says, "in its application to county and state judges seems to me so pernicious in its effect, so destructive of independence in the judiciary, so likely to subject the rights of the individual to the possible tyranny of a popular majority, and therefore to be so injurious to the cause of free government that I must disapprove a constitution containing it."

The message was read to the house amid absolute silence. Then a storm of applause broke from the Republican side. The Democrats remained quiet. The message was referred to the territorial committee.

Much of the message was devoted to a discussion of the functions of the courts under the constitution. The president dwelt at considerable length on the necessity of forcing the judiciary as much as possible from political or popular influence. And referring to the recall provision he said: "Could there be a system more ingeniously devised to subject judges to momentary gusts of popular passion than this?"

The message was received with great interest by the house, largely because of the president's long association with the judiciary. Senator William Aldred Smith introduced a substitute resolution this noon, providing for statehood for Arizona and New Mexico. This bill will be laid by Senator Smith before the territorial committee tomorrow and will be reported out favorably at once. The bill provides for the admission of New Mexico as under the fixed amendment, that has already passed both houses, and for Arizona as was provided for by the Nelson amendment, which met defeat in the senate. The only difference between the Smith bill and the bill that has just been vetoed is that Senator Smith eliminates the recall of judges from the Arizona constitution.

Senator Smith took this action following a conference with the president, who is understood to approve every detail of the substitute. Belief is that it will pass both houses and result in immediate statehood.

Would Bring Medical Corp Up-to-Date. At a meeting of the state military board, held in camp at Port Huron, Capt. H. D. Thompson, of the medical department, United States army, on duty with the state militia at Camp Osborn, who was sent to Camp Osborn to inspect the medical corps, recommended that the medical corps be reorganized along the lines of the regular service. If the military board decides to reorganize the medical department, there seems to be no question but that it will be reorganized. This will mean an increase in officers and hospital corps men and a complete ambulance company. It will mean the purchase of new up-to-date ambulances and considerable other hospital equipment.

Shoots Wife, Daughter and Self. Enraged by domestic trouble Henry Himmelsperger, of Hildesheim, aged about 50, shot and instantly killed his wife, Elizabeth, fatally shot his daughter, Christine, aged 18, and fired a shot into his forehead in a vain attempt to kill himself. When Sheriff Ritchie arrived Himmelsperger fired three times at the officer stepped from the cab which hurried him to the scene. All shots went wild and the murderer, weak from loss of blood, was overpowered and jailed. He may live.

M. N. G. in Camp at Port Huron. Michigan's standing army, to wit the National Guard, which is about 6,000 strong, began its annual encampment in a large stretch of real estate directly east of the city.

The hundreds of acres available for the encampment of all sorts, from underbrush and clump of trees and swales where the cattails grow, to level fields with, with a little work, would make a baseball grounds.

Officers and men agree at first view of the site that it is fine. Practically the whole of it is so, so even if it rains hard there will be no mud.

Gov. Harmon, of Ohio, was given a reception at the Grand hotel, Muskegon, and a large crowd attended. Marston, of Bay City, is planning an energetic campaign for the late summer and fall, the effort to be specially directed at reclaiming the district that was burned over in the forest fires of this summer.

So much has been said and written about the land being burned out that the bureau believes it a good policy to exert the utmost effort in the direction of letting the people know that there are fine lands—just as good as ever—to be had in the district years ago the now rich and fertile Thumb district is a burned over, just like Millersburg, Au Sable and Oscoda and other cities, and in the ruin of the blackened trees and wasted towns there arose what is considered today to be one of the most prosperous sections of Michigan.

Senator William Aldred Smith introduced a substitute resolution this noon, providing for statehood for Arizona and New Mexico. This bill will be laid by Senator Smith before the territorial committee tomorrow and will be reported out favorably at once. The bill provides for the admission of New Mexico as under the fixed amendment, that has already passed both houses, and for Arizona as was provided for by the Nelson amendment, which met defeat in the senate. The only difference between the Smith bill and the bill that has just been vetoed is that Senator Smith eliminates the recall of judges from the Arizona constitution.

Senator Smith took this action following a conference with the president, who is understood to approve every detail of the substitute. Belief is that it will pass both houses and result in immediate statehood.

Would Bring Medical Corp Up-to-Date. At a meeting of the state military board, held in camp at Port Huron, Capt. H. D. Thompson, of the medical department, United States army, on duty with the state militia at Camp Osborn, who was sent to Camp Osborn to inspect the medical corps, recommended that the medical corps be reorganized along the lines of the regular service. If the military board decides to reorganize the medical department, there seems to be no question but that it will be reorganized. This will mean an increase in officers and hospital corps men and a complete ambulance company. It will mean the purchase of new up-to-date ambulances and considerable other hospital equipment.

Shoots Wife, Daughter and Self. Enraged by domestic trouble Henry Himmelsperger, of Hildesheim, aged about 50, shot and instantly killed his wife, Elizabeth, fatally shot his daughter, Christine, aged 18, and fired a shot into his forehead in a vain attempt to kill himself. When Sheriff Ritchie arrived Himmelsperger fired three times at the officer stepped from the cab which hurried him to the scene. All shots went wild and the murderer, weak from loss of blood, was overpowered and jailed. He may live.

M. N. G. in Camp at Port Huron. Michigan's standing army, to wit the National Guard, which is about 6,000 strong, began its annual encampment in a large stretch of real estate directly east of the city.

The hundreds of acres available for the encampment of all sorts, from underbrush and clump of trees and swales where the cattails grow, to level fields with, with a little work, would make a baseball grounds.

Officers and men agree at first view of the site that it is fine. Practically the whole of it is so, so even if it rains hard there will be no mud.

Gov. Harmon, of Ohio, was given a reception at the Grand hotel, Muskegon, and a large crowd attended. The Board of Trade and subsidiary organizations have started a movement for an electric line to be run through Vassar, Caro, Cass City, Bed and have a terminal at Harbor Beach. The third of the series of market trips of the "Wholesalers and Manufacturers' association was made and the towns named were visited by automobiles. All the business men at each city have promised to assist the Saginaw boosting forces in promoting the line.

Good Chances in Burned Area. The Northeastern Michigan Development bureau, through its secretary, F. E. Marston, of Bay City, is planning an energetic campaign for the late summer and fall, the effort to be specially directed at reclaiming the district that was burned over in the forest fires of this summer.

So much has been said and written about the land being burned out that the bureau believes it a good policy to exert the utmost effort in the direction of letting the people know that there are fine lands—just as good as ever—to be had in the district years ago the now rich and fertile Thumb district is a burned over, just like Millersburg, Au Sable and Oscoda and other cities, and in the ruin of the blackened trees and wasted towns there arose what is considered today to be one of the most prosperous sections of Michigan.

## A Word With Women

Valuable Advice for Northville Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, blue, nervous spells, dizziness and urinary disorders, because of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble peculiar to the sex. When the kidneys get congested and inflamed, there are many such aches and pains and the whole body suffers.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment, the passages are too frequent or scanty. Then help the weakened kidneys. They can't get well alone.

Doan's Kidney Pills have brought sound backs and new life and strength to thousands of suffering women. They are endorsed by thousands of sufferers at home. Read this Northville woman's convincing statement:

Mrs. J. H. Taylor, Center St., Northville, Mich., says: "I have no hesitation in recommending Doan's Kidney Pills. Some years ago I suffered from backache and pains across my kidneys and at that time I took Doan's Kidney Pills, procuring them from Murdock Bros. Drug Store. They lived up to the claims made for them, relieving the back ache and other annoyances and helping me in every way. Another member of the family, who took Doan's Kidney Pills, also received great benefit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Our town is one of the cleanest in the state yet we want it to beat the record and there is still room for improvement. Get busy people, and clean up any little rubbish that may be around your home. There is nothing that makes a man feel more like making the air look blue than to go home feeling himself the most abused person on God's foot stool and ready to give his family a curtain lecture and find that there is company eat home. Then he has to put on a pleasant face and pretend he is the happiest man in the world. B-r-r-r! It's a terrible feeling.

"The 'Funny Bunch,' with nine suit cases, seven suit boxes and two huge baskets, besides a large trunk shipped by freight, a pair of worms and fishing tackle galore, left for Sylvan Lake Saturday morning for a couple weeks' outing. A reception in honor of Rev. and Mrs. S. F. Dimmock, was held at the home of Mr. and Mrs. Jesse Clark Wednesday evening. Mr. Dimmock was pastor of the Baptist church in this village four years, and during that time both he and Mrs. Dimmock won a warm place in the hearts of many people in the church and community. Although the coming of the former pastor was not previously announced, there were over sixty present to offer them a glad band of welcome to Northville, and wish them unbounded success in their labors. Mr. Dimmock is still pastor of the Baptist church at Kenosha, Wis., to which place he moved after severing his connection with the church here in 1909.

### ROBBINS HAD GOOD CIRCUS

Somerset Democrat, Somerville, N. J., May 19, 1911

The Frank A. Robbins Circus showed here on Wednesday and entertained large crowds at both performances. The circus was good, in fact it was one of the best shows that has visited Somerville in many a day and will be long remembered by "young America" who were out in force. The excellent work of the Aerial Artists and trained horses were the features of the show.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by all dealers.

To Cultivate Memory.  
The best way to remember a thing is thoroughly to understand it, and often to recall it to mind. By reading continually with great attention and never passing a passage without understanding and considering it well, the memory will be stored with knowledge, and things will recur at times when we want them, though we can never recollect the passages or from whence we draw our ideas.

Probably the Only Man.

# The August Furniture Sale

Fifty thousand dollars' worth of splendid furniture assembled here for this event. This great single fact that we have here, ticketed and ready for sale, this immense quantity of furniture is so overpowering that we feel it is like getting down to very puny things to quote prices and give descriptions on a few individual pieces, such as you see on this page.

If we could place before each person the two or three thousand blue-prints and photographs of the furniture, together with the prices at which it will be sold, what a sale this would be.

Better still, if we could get them to come and see the furniture itself; see how good it is; see how careful we have been in selecting it and see the tremendous variety, the sale would be over in one week.

We have made it clear in previous announcements and repeat again

today—this furniture is the reserve stocks, the sample lines, the overproduction, etc., etc., which furniture makers have on hand at the close of their six months' business.

It all comes from old tried-and-true concerns that supply us with our regular stocks; so there is no question about the quality. And there is not a single piece in the entire sale but what we warrant fully the same as though we were asking the full price for it. Every home has been provided for.

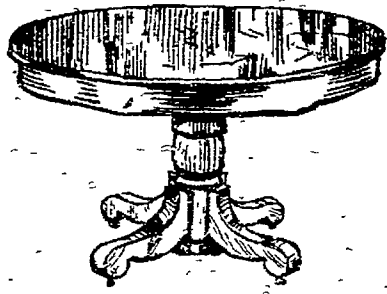

There are magnificent sets and pieces of the rarest woods, carved and finished with elaborate care. But the backbone of the sale is, of course, the vast array of furniture such as the average home demands. Substantial well built furniture that gives comfort and satisfaction through years of steady service.

## We Welcome the Public to This Event!

Come and inspect the furniture at your leisure and feel at perfect liberty to ask all the questions you like without incurring the slightest obligation to purchase.

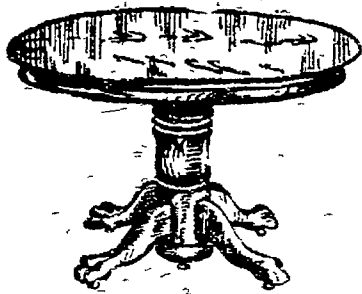

**OUT-OF-TOWN PEOPLE, PLEASE NOTE!** Those who live in the smaller cities around Detroit where such a sale as this would be an impossibility, will find it greatly to their advantage to buy what furniture they need from this sale.

**SHIPPING CHARGES WILL BE PAID** to any point in Michigan on all purchases of five dollars and upward.
