THE WATER WORKS QUESTION.

WHAT'S THE TROUBLE?

OUR ANSWER

K. P.'S BIG EVENT MONDAY NIGHT

LARGEST ATTENDED PARTY EVER IN NORTHVILLE.

Over Five Hundred People Were Participants

On the pages of history the K. P. barn dance of Monday evening will be written as Northville's greatest party, both from the standpoint of attendance and of enjoyment. About two hundred couples participated and over five hundred people were sumptuously served at the New England supper.

The decorations were certainly unique and reflected great credit on the variety of genius contained under the hats of the decorating committee. Cornstalks were everywhere in evidence, and ears of corn were strung about in unique decorative styles. Old fashioned ex-vokes were among the center of the rink decorations. Bales of straw took the place of chairs and cozy corners. The costumes of both the ladies and men were in keeping with the decorations and the spirit of the occasion.

Another interesting item in the decorations was the pen of live stock in the north end of the rink. There were ducks, pigs, sheep, roosters that crowed at two o'clock, a pony dog and cat, and Holstein calves, valued at \$125 each by their owner, Ed Starkweather, a member of this committee. These aid in the decorative art was one of the chief features of its huge success.

Hart's orchestra of Ypsilanti gave the dancers splendid music, from the modern waltz to the old fashioned schottish. Lyman Green of Detroit also sang a fine solo during a short intermission.

Great credit for the management of the dining room is due the veteran chef, Harry Clark, and his able staff. To Mr. Clark, more than any one other man, do the K. P. boys attribute the evening's success. Everyone will agree that it is no small task to feed five hundred people.

The losers in the K. P. race are elated over their great success, they not only having paid their wager but are able to turn a snug little sum of money in to the banquet committee for future use. The door receipts were about two hundred and fifty-seven dollars. Visitors were present from as far away as Detroit and Lansing.

W. R. C. Notes.

(By Press Correspondent.)

The St. Patrick celebration will be resumed—and concluded in our next regular meeting March 27. It is written "The last shall be first and the first last." This is exemplified by the W. R. C. which, this year, was the first in the organizations in our village to celebrate St. Patrick's day, and will, so far as we know, also be the last. When it was found expedient to divide our program for a joint celebration of the W. R. C. birthday and St. Patrick's day, we decided it would be wise to take the last part of the program (the birthday supper) first, then if anything unexpected happened, we should have had our supper, and anyway, St. Patrick was not very busy and could just as well wait a bit. So the supper, which, by the way, dwindled down to the "last" part (ice cream and cake) was eaten March 14. The unlucky date is supposed to be responsible for the shortage in victuals, which was amply compensated for by an overabundance of dishes—also due to unlucky "13." Every "Biddy" of the corps should make a special effort to attend this last, "first" part of the entertainment, under the able management of Mrs. Florence Alexander, is a guarantee of "something worth while." Let no one point the finger of scorn at us for celebrating St. Patrick's day on the 27th of March. It is known that the exact date of either the birth or death of St. Patrick is unknown; so most any old day that is convenient may be selected to celebrate the fact that he once lived, and blessed the "Good Old Country" where most of his life was spent. "Every man has his day," and some, more lucky than others, have upwards of several.

GOOD ADVICE FROM ALD. SCHRADER

SOME SPLENDID SUGGESTIONS FOR NEW COUNCIL.

Tells of Way to Put Northville on Business Basis.

The council met last week Thursday night to confirm the result of the village election.

During the meeting it was stated that the new water works ordinance was not yet ready to be submitted, because it had not been completed.

Councilman Schrader stated that he was sorry it was not ready as he would like to have voted in favor of its provisions.

"I am in favor of that ordinance," because I believe of its provisions will be the means of saving a lot of the water that is now being wasted," said Mr. Schrader.

"I believe the factories should pay a fair rate on what they use and thus help support the expense of maintenance. I believe the water provision is also right and that where the council believes their use is necessary they should be put on so that every body may pay a fair price for what he uses and at the same time stop the needless wasting of water that is not now being paid for."

"I would not be in favor of the additional expense of hiring another man at the electric light plant and putting the superintendent's office up town."

"I believe that in justice to all the village officials that an auditor should be employed to go over all the books of the village and then formulate a system so that the whole business of the village shall be put on a practical business basis."

"I also believe that the superintendent of the water works and electric lights should read the meters and make out the bills for both water and lights—or turn the readings over to the village clerk for billing—and then the bills should be turned over to the village treasurer for collection at such a per cent as would pay him for the trouble. Give the treasurer two or three per cent and make all accounts payable from the 1st to the 10th, with .50 per cent added up to the 20th, and after that date shut off the water or lights as the case may be. Enforce that and there will be no trouble. No one can get away from it. Give Mr. Wilkinson this authority and everybody will pay up and no one will ever get behind more than one month."

"By this system I am sure the village will not only save a lot of water that is being wasted, but it would also provide a complete check on all business. With one man to make the bills and another to do the collecting, using two sets of books, would insure accuracy all around and at the same time do justice to the superintendent, the treasurer and the village as well. I believe the council then should appoint an auditing committee to go over these books every three months. This will not only prove efficient, but it will relieve all the officials from any chance of being criticized by the general public."

"By the meter system on the water

referred to above I know the village will save a lot of water—but at the same time I also realize that there is a great need of still more water during the dry season. We ought to have it. Northville is particularly well situated in this respect. There are springs in abundance all around the village and there is no reason why the people should not have all the water they want."

President Coldren, in retiring, thanked the council for their co-operation and courtesies of the past year, and took occasion to say that Councilman Schrader had presented some splendid ideas which the new council might carry out with considerable credit.

SUDDEN DEATH OF MRS. E. J. WILLIS

Mrs. E. J. Willis, aged thirty-one years, died at her home in Detroit early Thursday morning, after a week's illness of scarlet fever which she had contracted while nursing her little niece, Ernestine Miller, who died with that disease last Wednesday night. Mrs. Willis was reported better Wednesday morning, but was taken worse that evening and died early yesterday morning.

Mrs. Willis was formerly Miss Lottie Elliott, daughter of J. N. Elliott of this place, and was married to Ernest Willis, also of this place, ten years ago. In 1905 they moved to Detroit where they have since resided and where Mr. Willis is engaged in the tailoring business. The remains were brought to Northville for burial late last night.

MRS. EMILY NORTON DIED SATURDAY

Mrs. Emily Norton died at the home of her daughter, Mrs. John Klumph, last Saturday, having been ill with grippe. She was seventy-nine years old and had come from her old home in Ferrisville to live with her daughter. The funeral was held at her former home Tuesday afternoon.

Methodist Church Notes.

(By the Pastor.)

Sunday, March 24, should be one of our best days for the whole year. In the morning, George Packard, a representative debater of the U. of M., will give an address entitled "Humanity's Servant." In the evening, two other University young men will address the people on timely topics. All of these men are prominent in University life and are thought to be the representative speakers of the University.

Reserve April 9th for the Epworth League lecture. Dr. Rowland went abroad with Dr. W. R. Pierce and traveled with him through five continents.

A series of three nights will be observed Passion week as special Lenten services, on Wednesday, Thursday and Friday. The general topic will be "The Last Days of Jesus."

"The King's Own" Bible class was most royally entertained at the home of Mr. and Mrs. C. A. Dolph, Wednesday evening. Something doing every minute. Those who stayed home, missed a good time.

Baptist Church Notes.

(By the Pastor.)

"A Personal Question" will be the subject next Sunday morning. In the evening the subject will be "The Prodigal Who Stayed at Home," the last of the series on the Prodigal Son. All the services on Sunday at the usual hours.

The ladies of the church will hold their regular monthly business meeting next Wednesday afternoon, March 27, with Mrs. F. J. Tousey, at 2:30 o'clock.

Presbyterian Church Notes.

(By the Pastor.)

"The Call of the Wild" will be the subject of the sermon next Sunday evening.

33 DEATHS CAUSED BY CARELESSNESS

INATTENTION OF STRIKEBREAKERS TO WORK RESPONSIBLE FOR EXPLOSION.

50 PERSONS INJURED IN BLOW UP AT SAN ANTONIO.

Many of Victims Are So Mangled That Identification Is Impossible; Homes of Few Are Known.

At least 32 men were killed and parts of their bodies strewn for miles around when a passenger engine in the South Pacific shops blew up in San Antonio, Tex. The engine stood in a square formed by the copper house, blacksmith shop and roundhouse, all of which were wrecked. A portion of the locomotive crashed into a house several blocks away and seriously hurt a woman.

Besides the 32 believed to have been killed 50 persons were injured. These for the most part were in remote sections of the buildings wrecked, for those close to the engine or in the main parts of the buildings either were killed outright by the explosion or crushed by falling material when the buildings crumbled. The monetary loss will be about \$200,000.

Breaks of the terrific impact were many, one of the most strange was that the driving wheels of the engine were not disarranged. While parts of the huge locomotive were down block the large wheels apparently did not budge.

SUGAR BILL PASSED HOUSE

Seven Michigan Congressmen Fight Against Removal of Duty on Sugar.

Seven Michigan Republican congressmen participated in the fight against removal of duty on raw sugar cane. They were Representatives Wedemeyer, J. M. C. Smith, S. W. Smith, McKortan, Fordney, Loud and Dodds. Each one declared the Democratic free trade measure was aimed at destruction of the beet sugar industry in which Michigan farmers lead the nation. As passed by the house the bill goes to the senate. If the measure, so famous to the beet sugar growers of Michigan and a dozen other states, is not there killed it will certainly be vetoed by President Taft.

With the aid of 24 Republicans, the Democrats of the house passed the bill, 193-107. Seven Democrats from Louisiana and Colorado voted against the measure.

A score of amendments were voted down.

Workers Get Big Increase in Wages.

Wage increases aggregating \$10,000,000 will go to the New England textile workers during the next 12 months.

On the basis of an annual pay roll of \$79,000,000 in the woolen mills, the increase there will amount to \$3,000,000, while cotton mill operatives will receive an advance of \$5,000,000.

Fully 275,000 operatives will share in the raise by April 1 if all the mills which have not yet joined in the movement follow the lead of larger concerns.

The increase is offered to entirely end the Lawrence strike.

Thomas and William Gilman, brothers, who had not seen each other since they were children 40 years ago, met by accident at a railway station in Peabody, Kas.

MICHIGAN HAPPENINGS

Jackson—One of the largest conventions of its kind ever held in Jackson will be that of the Baptist Sunday schools and the Baptist Young People's societies of the state April 16, 17 and 18. Addresses will be delivered by many of the most prominent divines of the Baptist denomination. One of the most noted speakers will be Dr. W. W. Burdette of the First Baptist church of Cleveland, O., of which John D. Rockefeller is a member. Another prominent speaker is Dr. Johnston Myers, pastor of the Immanuel Baptist church of Chicago. The convention will be held at the First Baptist church in this city and it is expected that about 400 delegates will be present.

St. Johns—Circuit Judge Kelly S. Searl has handed down the opinion that Caroline Mankey, nee Shim, was not insane October 29, 1895, when she was married to William Mankey. Consequently the annulment of the marriage on March 20, 1908, is set aside and the marriage of William Mankey to Mrs. Hattie Nichols, December 31, 1908, is made null and void. The defendant and his second wife have lived together three years only to find they were never legally united and cannot contract the marriage obligation while Mrs. Mankey lives.

Ithaca—A new enterprise is being organized in Ithaca, to be known as the Farmers' Cooperative Elevator company. It is proposed to capitalize the company at \$25,000. Much of the stock has been subscribed and a big round-up meeting will be held to discuss the plan to get nearer to the consumer and reduce the cost of living.

Muskegon—Tony Benick, night watchman in a local foundry, was found by workmen lying unconscious beside a "salamander" used for heating purposes. His back and legs were so badly burned it is feared he cannot recover. The police are searching for members of a gang of toughs which has been frequently seen in the neighborhood.

Marquette—Jacob Chier, a merchant of this city, was bound over to the circuit court charged with the murder of Ernest Henderson, a traveling salesman. Henderson was shot and killed in a saloon on February 15 last. Chier is charged with the murder.

Kalamazoo—The Kalamazoo city council has passed a resolution to hold a public hearing on the proposed new city hall. The hearing will be held on April 10, 1912, at 8 o'clock P. M. in the city hall.

Grand Rapids—More than 200 priests from all over the state came here to attend the funeral of Rev. George B. O'Brien, who died suddenly at Grand Rapids. Rev. Henry Richter, the bishop, who ordained him, sang the high requiem mass and Rev. John A. Schmitt of this city, a lifelong friend, preached the sermon.

Kalamazoo—Miss Ada Harris of Galien, O., a former resident of this city, wants a divorce and wants to get it. She is determined to get it by force, and she has written the county clerk here asking for a divorce by mail. She wants to present her evidence by mail and wants the whole case transacted through the mail.

Saginaw—C. F. Schneider, director for the United States weather bureau at Grand Rapids, has sounded a note of warning for Saginaw valley to prepare for floods. Mr. Schneider says there is about ten inches of snow covering the watershed, which comprises more than 600 square miles, and if the snow goes off with spring rains, a flood is inevitable. The high water conditions depends on the weather. Should the rest of March alternate freeze and thaw there will be little danger.

The KITCHEN CABINET

I FEEL as weak as a kitten. Alone reach the awful sky. As weak, yet as truthful also: For the whole long year I see All the wonders of natural nature Still worked for a love of me. Wonders which I never saw before, Earth's full story was all mine. Earth's wonders and all but to prosper A poor little child.

MILK DISHES.

Often times milk is the only food which an invalid and child can take, and when they use of it the great question is how can they be nourished?

There are so many ways of disguising milk in other forms and combining with different foods to make wholesome and nutritious dishes, that every one who has a family to feed should make a study of these things.

Milk that an infant cannot digest is worse than food. A baby should be carefully weighed each week, for it is not always possible to detect a slight falling off. When the child shows a decrease in weight the first thing to do is to consult a good physician, and carefully follow his directions in regard to feeding. The milk may be too rich in fat, there may be too much casein, or it may be too hard to digest, so that the milk may have to be modified.

One method of modifying milk is to use the whey, which is made from using rennin tablets. Add this whey to the milk and the casein content is decreased with an addition of salts, sugar of milk and minerals, which are necessary for the growth of the child.

Many babies die each year because of ignorance on the part of the mother in regard to their food.

Milk treated with rennin tablets, sweetened and flavored, is often relied by invalids who absolutely refuse to take pure milk as a food.

Milk is not a beverage, and should never be taken as such, for large quantities of milk entering the stomach at once form a hard mass which is almost impossible to break up. Milk should be taken slowly in sips, so that the gastric juice can act on it in small amounts at a time.

Ways that are new of serving meats.

Take four to eight ounces of lamb or mutton trim off the superfluous fat scrape the lamb nearly and dust with nutmeg, celery salt and pepper and sprinkle with a little chopped onion, add a half pint of peas, an ounce of bacon cut small, a few new potatoes and a cup of stock. The potatoes must be parboiled before adding to the dish. Cook in a hot oven and serve the chops with a garnish of the potatoes and peas.

Cutlets a la Espagnol—Take four to six cutlets prepared as above, dust them with salt and pepper. Have ready a cup of boiled rice, mix it with plenty of tomato catsup. Put the rice in a greased paper bag and place the cutlets on top, place in the oven and cook for thirty minutes in a moderately hot oven.

If one is using gas and has only a hot plate, paper bag cookery is not prohibitive for with a little ingenuity one may arrange a fire oven. A deep skillet with a good tight cover and trivet of a wire dishcloth or any metal which will keep the bag from touching the bottom may be used. Light the gas and put in the bag and roast as if it were an oven.

Get a pound of lean, chopped real, less two ounces, which supply with two ounces of sweet season well and make into a cake. Put into a buttered bag with slices of onion and tomato laid over the meat and a few pieces of well-browned butter. Bake on the trivet in the skillet.

Nellie Maxwell.

A man's mind may be likened to a garden, which may be intelligently cultivated or allowed to run wild, or whether cultivated or neglected, it must, and will bring forth. If no useful seeds are put into it then an abundance of useless weeds will fall thereon, and will continue to produce the same—James Allen.

Have Confidence.

Self-distrust is the cause of most of our failures. In the assurance of strength there is strength, and they are the weakest, however strong who have no faith in themselves or their powers.—Roose.

What is in a Name? A Chicago man who hardly knew one thing from another made the mistake of taking a knowing woman to a concert at Orchestra hall. The selections were apparently familiar to him, but when the "Wedding March" of Mendelssohn was being played he began to evince some interest.

"That sounds familiar," he said. "I am not strong on these classical things, but that's a good one. What is it?"

"That," gravely replied the woman, "is the 'Maiden's Prayer.'"

PHYSICIAN SAID ECZEMA CAME FROM TEETHING

"When my little girl was about eight months old, she was taken with a very irritating breaking out, which came on her face, neck and back. When she first came down with it, it came in little watery-like festers under her eyes, and on her chin, then after a few days it would dry down in scaly white scales. In the daytime she was quite restless and would dig and scratch her face nearly all the time.

"I consulted our physician and found she was suffering from eczema, which he said came from her teething. I used the ointment he gave me and without any relief at all. Then I wrote for a book on Cuticura, and purchased some Cuticura Soap and Ointment at the drug store. I did as I found directions in the Cuticura Booklet, and when she was one year old, she was entirely cured. Now she is three years and four months, and she has never been troubled with eczema since she was cured by the Cuticura Soap and Cuticura Ointment. (Signed) Mrs. Freeman Craver, 311 Lewis St., Syracuse, N. Y., May 6, 1911. Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. L, Boston.

No Wonder She Blushed.

Two of the University of Pennsylvania track runners passed a learned and preoccupied professor stowing a young woman visitor through the "Gardens."

With a dainty shiver, the girl remarked:

"It's dreadfully cold—isn't it—to be without stockings?"

"The professor's mind turned for a moment from contemplation of the fourth dimension."

"Then why did you leave them off?" he asked.—Laphrocc's Magazine.

Cold Welcome.

A clergyman in a small town was depicting the fact that none of the couples that came in from the country to be married stopped at his house for the purpose.

"Well, brother," said the man at the desk, "what can you expect with that big sign of the tree over 'Five dollars fine for hitchhiking here.'"

Congratulations.

In congratulating Mr. Lanning upon his election to the highest office in the gift of the people of Northville, we would also compliment Mr. Dolph on the splendid run he made. A man who can come within five votes of making a tie run with an old campaigner like Judd Lanning, has to go some. Mr. Lanning now has the chance to make a record for himself by getting the business of the village systematized or things can be allowed to drift along in the same old slipshod manner, having in mind first of all to fight against anything advocated by The Record or asked for by the village.

NURSES SHOULD NOT SNORE

One of Them Tells How the Habit Keeps Them From Holding Good Places.

"In all these months I was in the hospital somebody ought to have warned me that I had the habit of snoring. Of course I had it from the folks at home but I never took it seriously until I went on my first case. I found then that it is a serious matter for a nurse to snore."

"I took the case from a nurse whose own health had broken down. The patient was nervous and excited over the contemplated change, and that made my work more exacting. A brand new case of my own would have been much easier. Still, we got along fairly well together the first half of the night. He was a kindly man, and soon after midnight he insisted that I should not forget some sleep. I didn't think I'd catch a wink, but by and by I dozed off. It was a fatal sleep for me. The next morning the patient's sister told me about the snoring."

"James could not rest at all," she said. "I heard you in the next room." "Before night I was looking for another job. Of course I did not have to give up nursing entirely but the hard cases which I am required to keep awake are a second day are open to me. All those sort snaps that give you a chance to sleep half the night are beyond the reach of the snoring nurse."

PIGEONS ON A JAMBOREE

Drink Liquor Spilled in the Street and Gave Real Exhibition of Drunkenness.

A heavy truck loaded high with kegs of liquor was jolting across, a line of downtown car tracks when one of the kegs toppled and fell from the top of the pile into the street. It was thoroughly smashed, so the truckman whipped up his team and went his way without stopping. The rum flowed out over the street—one little dent in the paving collecting a visible puddle of it.

In a few minutes a pigeon came fluttering down to drink at the pool thus fortunately provided for thirsty birds. The initial taste was a surprise, but a second and a third soon followed, and soon the pigeon tottered fluttering away, too overcome to fly. Other birds, seeing him there and anxious to wet their parching throats on so sultry a day, followed their brother in his path of wicked intemperance.

Five minutes later a passerby was astonished to see a dozen pigeons in the gutter of the otherwise deserted street, some dancing drunkenly, others already "sound asleep." A few feet away a bound of disreputable appearance was creeping up, slowly and a trifle unsteadily, on his unsuspecting and bibulous quarry. As he was almost among the birds his feet went suddenly in several directions and he lay in the gutter among the pigeons growling sleepily to himself, for he, too, was drunk.

For rheumatism you will find nothing better than Chamberlain's Liniment. Try it and see how quickly it gives relief. For sale by all dealers.

Miss Heath of Detroit, was the guest of Mrs. John McCully on Thursday of last week.

The Third grade pupils sang four songs at the School Music Fest in the rink Thursday evening.

All but four of the Seventh grade pupils were excused early Friday afternoon for perfect spelling.

The children of the Third grade are very much interested in the reading of "The Five Little Peppers."

Edith Ross, of the Sixth grade, has returned to school after a month's absence caused by a broken arm.

The Second grade is reading "The Sea Fairies" by the author of "The Wizard of Oz," in morning exercises.

Clare Freeman has moved to Plymouth and grade seven of which he is a member will miss him very much.

Anyhow, March needn't get saucy about that Lion and Lamb trick. We can understand without having it rubbed in.

A number of the Fourth grade pupils were excused at 3:15 last Friday afternoon for having received 100 in spelling all the week.

Mrs. Halsey Sayre, of South Lyon, an old friend and collaborer of Mrs. Woolley, the teacher, visited the Fourth grade Monday.

Mr. Edna Stirling entertained the teachers of the school at a golf away dinner for Mrs. Carrie Harrison on Wednesday evening of this week.

The 4th basket ball of the season will be played in the rink next Saturday evening March 23, with the Central High team of Detroit. The local team has not been defeated on their own floor this year, but the Central High boys will of course endeavor to

Children Injured

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.

You cannot be over careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea and other distressing after-effects that are frequently health-destroying.

We personally recommend and guarantee Rexall Orderlies as the safest and most dependable remedy which we know, for constipation and associated bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause dizziness, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies commonly completely relieve constipation, except in cases when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes of packages, 10 cents, 25 cents, and 50 cents. Remember, you can obtain Rexall Remedies in Northville only at my Store—The Rexall Store, A. E. Stanley.

TUBERCULOSIS.

Hundreds of people have lately reported themselves as entirely cured of tuberculosis and asthma by using the new treatment, known as "Nature's Creation."

A decidedly interesting booklet, explaining all about this new discovery, may be secured without cost, by addressing Chas. A. Barnes Dispenser, 820 Chamber of Commerce, Detroit, Mich.

Read this record. There will also be a preliminary game.

Miss Carrie Harrison, who has taught the Second grade of our school for some years, leaves the last of this month for Mt. Pleasant. There she will study for a Teacher's Live Certificate preparatory to obtaining a position the first of next year. Northville people will be very sorry to lose Miss Harrison from their midst and wish her all happiness and good fortune. Miss Garnet Burr, of the Grand Rapids Training School, will take the position left vacant by her.

Misleading Names.

Practically all the wooden clocks called Dutch are made in the village of Freyburg, in the Black Forest. This misnomer is due to simple mispronunciation—"Deutsch" meaning, of course, German. "Nothing is more natural than to assume that India ink comes from India, but it does not, and never did, any more than does India rubber. India ink is a Chinese product, and India rubber comes from South America. Camel's hair brushes are not made from the hair of camels, but from the hair of the tails of Russian and Siberian squirrels. Camel's hair is, however, employed in the manufacture of certain fabrics to be made into shawls, etc., and is sometimes mixed with silk.

Hoodooed Hair.

Another black mark has been chalked down against number thirteen.

"I did up my hair the other night in curl papers torn from an old calendar," said the pretty girl, "and in the morning when I took it down I had a row of beautiful curls all around my head except right over the left temple. That lock was as straight as a lead pencil, and I had dampened it with lemon juice just like all the others, but when I unrolled the paper I found out why it wouldn't curl. The page I had twisted it over was the thirteenth of the month."

Navajo Blankets.

Much unsolicited nonsense has been written concerning the symbolism of Navajo Indian blankets, and the poetry, legend, tradition and history woven by the squaw into its fabric. It is true that some designs have a symbolic meaning, but Hopi, Zuni and Apache symbols are used quite as freely as those peculiar to the Navajo. The Navajo squaw is one of the least imaginative and least poetical of human beings, and it is quite safe to say that even when symbolic designs are employed in blanket weaving it is without the remotest reference to their true significance.

Asbestos Shingles.

Asbestos shingles are now being manufactured in this country with success, and the trade has grown enormously. The new products are of the highest weight, and fireproof up to a temperature of 2,000 and more degrees. They are proof against acids and weather, and last as long as a concrete building will.

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For sale by all dealers.

Flour is the Cheapest and Best of Food

One pound of wheat flour, costing 2 1/2 to 3 cents, yields twice as much nourishment as a pound of meat costing 15 to 30 cents per pound.

These are the official figures. Printed in U. S. Agricultural Bulletin No. 141.

Flour is the only necessity that is still cheap. Two pounds of best butter costs as much as a whole 24 1/2 lb. sack of Stott Flour. Two (or three) dozens of eggs, according to the season, cost the same. Use more

Stott Flour

and high food prices will cause you little worry. Among the appetizing and wholesome things which are easily made are bread, cakes, pies, tarts, rolls, shortcakes and muffins.

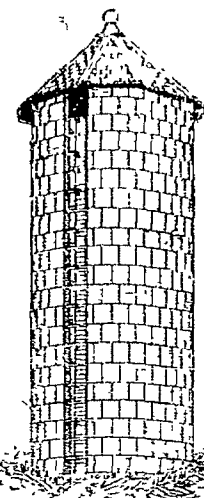

You are sure of success with Stott Flour. It has built up a wonderfully big trade solely upon its merits. We guarantee that it will please you or your grocer is authorized to refund your money.

IN DECIDING ON A SILO

It is important that you secure the longest possible service and value for your money. Every dollar you invest should represent a definite, safe purpose that will not require spending additional dollars for repairs and rebuilding. THE IMPERISHABLE SILO is permanent and enduring because it is built of vitrified clay blocks which can never decay. This silo is storm proof, acid-proof, moisture proof, and the walls are fire-proof. Better than concrete, which is porous and unsatisfactory in preserving silage. Our silos possess incalculable strength. Patent channel black in which steel bolts are buried in mortar, concealed from view and not exposed to air and chemical influence, contribute so much strength that the silo could be filled with wheat and stand the test perfectly. THE IMPERISHABLE SILO IS WARRANTED! Buyer cannot lose in such an investment.

No Reason For It

When Northville Citizens Show the Way.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. Read what a Northville citizen says:

W. H. Denton, Horton Ave., Northville, Mich., says: "Some years ago my kidneys were badly disordered and I was annoyed by too frequent and painful passages of the kidney secretions. I suffered from severe pains in the small of my back and I seemed unable to get relief. Finally I procured Doan's Kidney Pills from Murdock Bros. Drug Store and they soon drove away the pain in my back and strengthened my kidneys. I do not hesitate to recommend this valuable kidney medicine to anyone afflicted with kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y. Sole agents for the United States. Remember the name—Doan's—and take no other.

Capt. Emory Noble (retired) of the Detroit Police Department, presented a splendid appearance in his full uniform at the K. P. party Monday night and added materially in ending the crowd. The K. P. committee have secured the Captain of their appreciation of his assistance.

Sometime ago we published an article concerning the death of John Kelley at Waterford. Since that time it has been learned that he was really Ex-Senator John Perrin of Detroit, a representative of this senatorial district in 1899, having lived in Waterford under the assumed name of Kelley.

A Republican caucus or mass convention for the township of Northville, will be held in the Village hall Saturday afternoon, March 23, at 2:30 o'clock, for the purpose of nominating township officers. A Democratic caucus or mass convention will be held in the same place on Monday evening, March 25 for the same purpose.

Perils of Fishermen.

There are countless incidents illustrating dangers and trials in the life of a Newfoundland fisherman. Daily are such experiences recorded in every cove and harbor around the coast line. Peril amid the billows, peril among the ice floes, peril along the rugged seaboard—that is his heritage and his portion from boyhood to old age. The rescuer today, he may be rescued tomorrow. Life to him has few compensations. It is an unending struggle against the elements, a strenuous endeavor to secure the means of existence from a sea which is ever on the watch to work ruin upon him. Wreck, wrath and calamity are the facts which predominate in every Newfoundland village. They have come home to every family and have left a vacant place in every household. The frequency of disaster compels every man to be a hero unconsciously, and if every person who saved a life in this colony were to be awarded a medal, they would be given out every week at least, and for actions as meritorious and as deserving of recognition as any that are so rewarded elsewhere.—Philadelphia Inquirer

Age of Organization.

New Boarder—Well! This is the first place I've struck where they have preserved strawberries and peach jam instead of stewed prunes.

Old Boarder—All owing to organization, my boy. We boarders have a mutual protective association, with iron clad rules and heavy penalties.

"O, ho! You kicked against prunes, did you?"

"Not much we didn't. We passed a law that whenever prunes came on the table every member should eat a quart or pay a \$10 fine. That settled it. The landlady found prunes too expensive."—New York Weekly.

Made Neat Escape.

Not so long ago a knowledge of Laun was essential to an orator, and long quotations from the Roman poets embellished every debate. James Payn, the novelist, was once at a dinner party where a learned clergyman insisted on quoting Greek. The lady sitting next to Payn asked for a translation. Payn's Greek was rusty. Accordingly he assumed a blush, and hinted to the lady that it was scarcely fit for her ear. "Good heavens!" she exclaimed, "you don't mean to say—" "Please don't ask any more," murmured Payn, "I really could not tell you."

The Coeds' Best Hold.

Dr. Miner Lee Bates, the president of Hiram college, was talking at a tea in Hiram, O., about coeducation. "They may limit it as they will," said Dr. Bates, "but there's one co-educational institution that is already larger than all other institutions combined, and that maintains year after year a steady growth. I refer to marriage."

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Electric Oil instantly relieves the pain—quickly cures the wound.

"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished he was as well as ever," writes Mrs. H. Silks, 29 Dowling Street, Sydney, Australia. This remedy is sold by all dealers.

NORTHVILLE'S BUSINESS POLICY.

Editor Record—

We as a village are conducting a large business enterprise in the form of an electric lighting plant, and water works. But the policy has been to load one man with about three men's work, and then wonder why the caves are so high.

At present the superintendent of the lighting plant is also superintendent of the water works. He also does all the collecting for the lighting plant. This last year it amounted to over \$95,000, still he gives no vouchers, and the writer is unable to find record of any audit, by a regular auditing company, ever being made. It would seem that a person would demand an audit of his books before this for his own protection.

Now to be superintendent of the lighting plant is quite a good sized contract in itself, and will keep a person busy all the time to look after it properly, and get work done when people demand it. And a man has to be hired to do the digging, clean the springs and do other necessary work. There is plenty of work to keep a man busy the year around to look after this work properly, so why not find some good reliable man that will do this kind of work and make him Supt. of the Water Works. That will make him directly responsible to the council, and will help unload our present overloaded official. Add bill for very little added expense, as a person should be employed practically all the year around.

Then let the Supt. of the lighting plant read the meters, and make out the bills, then turn them over to the clerk or treasurer for collection. Give the people 5 or 10 days in which to pay their bills, and if they are not paid at the end of this time turn off the lights. This way every one will know that on a certain date every month they can pay their light bill and that if it is not paid on a certain date their lights will be shut off. Don't let the Supt. go and settle with them, but shut them off until they pay the clerk or treasurer. Under the present system it requires about two weeks over a month to do the collecting which costs \$50. You can pay the clerk or treasurer \$10 per month for taking in the money, and still make a saving of \$25 to \$30. It should not take over 4 days to read all the meters in town. And by this system you will have two sets of books, one checking the other, and will thus insure against mistakes. Why not ask the council to act now, when the appointments are to be made.

Can You Ask More?

Your Money Back for the Asking. You Promise Nothing.

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promise and put no one under any obligation whatever. Surely nothing could be fairer. We are located right here where you live, and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one who is troubled with indigestion or dyspepsia in any form to come to our store and buy a box of Rexall Dyspepsia Tablets. Take them home, and give them a reasonable trial, according to directions. If they don't please you, tell us and we will quickly return your money. They have a very mild, but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity. Three, five, 25c, 50c and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store. A. E. Stanley, Northville. 46

TAFT IS CERTAIN OF NOMINATION

Will Have Majority of Delegates From All Sections.

MAY BREAK 1908 RECORD

Progressive Policies Accepted as Surest Avenue of Return of Business Prosperity—Where His Strength Lies in Campaign.

President William H. Taft is on a fair road to renomination as the Republican standard-bearer in the campaign of 1912. With approximately 100 delegates to the Chicago convention already indicated for him, the president is more than likely to break his record of 1908 when he was nominated with 162 votes on the first ballot in the Chicago convention of that year. There is no longer any question that he will be renominated and the only question now puzzling the managers of the Taft campaign is the completeness of his victory.

Coupled with the assurance of his renomination is the growing sentiment in the big Republican states, behind and west that President Taft is the only Republican in a candidate who can possibly be elected this fall. It will be recalled readily enough that when Mr. Taft took office three years ago March 4th, 1909, the great issues of tariff revision and reform on a protective basis, and of monetary reform and the great legal problem involved in the exacting of the Sherman anti-trust statute were squarely before the country. In the latter issue the Supreme court had not made a decision ruling in the standard oil and tobacco cases which were on appeal, for the first time since the law was passed by congress, its exact meaning. On each of these three great issues it has been necessary for President Taft to consider and frame a definite policy, and it is his decision as to these great questions that has convinced the business men, the laboring men and the farmers of the country that another term in the White House for William H. Taft is all that is necessary to restore the country to that basis of unparalleled prosperity which characterized the administration of William McKinley. It is this sentiment which not only assures the renomination of Mr. Taft at Chicago but also his re-election in November.

So many bewildering side issues have become involved in the present campaign for delegates to the Chicago convention that the facts above stated have been overlooked in certain communities. Even the progressive achievements of the Taft administration have been forgotten in the excitement occasioned by the introduction of new political doctrines, practically none of which, except the proposal to recall federal judges, can be dealt with by the national government, but must be decided by each state for itself. The demand for a presidential preference primary in each state, wholly a state matter in which even the president himself has no right to interfere, has been magnified into a national issue, notwithstanding the fact that there is and can be no national law on the subject and only a few states are prepared to throw the protection of the law around any such primary, and in face of the fact that one-tenth of the delegates to the Chicago convention are already chosen and hundreds of delegates elected to state and district conventions. It has been estimated that to clothe such a primary with legal authority, as provided by the rules of the party, it would cost the taxpayers of this country not less than \$5,000,000 immediately.

The hysteria occasioned by these conditions is now passing away and the foremost fact staring the voters in the face are the progressive and definite policies of President Taft and the certainty of an immediate improvement in business conditions all over the country following his renomination and re-election. This fact is of vital interest to all classes of citizens, especially when they are confronted with the alternative of a change in administration, a change in policies and a continuation of business depression and general unrest.

In estimating the probabilities of President Taft's renomination and re-election, it is necessary to refer only to recent history. The president carried every northern state in 1908. Between the election of that year and 1910 occurred the tariff legislation known as the Payne tariff law. It is a well known maxim of politics that that party which revises the tariff is defeated at the next election and the only exception to this rule in recent years was the passage of the Dingley law, which was followed so closely by the outbreak of the Spanish American war as to bury the tariff issue in a wave of patriotic enthusiasm. The more recent, by-elections in the big Republican states east of the Mississippi river, notably in New York, New Jersey and Pennsylvania, have shown a return of Republicans to the fold and a restoration of the old-time Republican majorities, which justifies the prediction that they will be safely in the Taft column in November. That they will so unanimously support any other Republican candidate, particularly if the third term issue is injected into the fight, is deemed by the best informed leaders in those states.

As to the nomination there is no longer the least doubt that President Taft will have a majority of the delegates from the north and the south. New England will be practically, if not entirely, solid for him. It will have several victories in New York, Pennsylvania and the other middle Atlantic states. Ohio has never failed to support a Republican candidate for president. Indiana, Illinois, Iowa, Missouri, Minnesota, Kansas, Nebraska, South Dakota and Oklahoma of the middle western states will all have their quota of Taft delegates. In the convention, four of them having already been elected delegates in some districts for the president. The southern states, all but almost unanimously in their support of the president, while in Utah, Montana, Idaho, Colorado, Wyoming, Arizona and the Pacific coast states there is every assurance of solid Taft delegations. The only point open to a scattering opposition to President Taft's renomination

POLICIES OF PRESIDENT TAFT.

- 14—International investigation of causes of high cost of living.
- 15—Scientific revision of the tariff on a protective basis through non-partisan tariff board.

Taft the Progressive.
Progressive versus radical, progressive versus reactionary—this is the viewpoint presented of the candidate, respectively, of President Taft and Colonel Roosevelt in the address of Secretary of War Stimson before the Taft Club of Illinois. Mr. Stimson declared he was for Taft because Taft had carried out the progressive policies of the Republican party. Sound reason this! It is incontrovertible as well. The secretary of war acknowledges that he entered public life under the influence of Theodore Roosevelt, and remains his sincere friend; but this does not avail to separate him from loyalty and faith in Taft as the true Republican constructionist. In this attitude Mr. Stimson has the company of many other eminent Republican friends of the former president who would not support for a moment his ultra-declarations.

ACHIEVEMENTS OF TAFT ADMINISTRATION

- 1—Arbitration treaties with Great Britain and France.
- 2—Veto of Arizona statehood bill because of recall of judges provision.
- 3—Enforcement of Sherman anti-trust law without fear or favor.

Astonished Husband.
De Wolfe Hopper tells a good story about the domestic unhappiness of another actor. The hero of the joke was a man who had married because the woman had much money, although no beauty. Naturally, after the wedding ceremony and the acquisition of the bride's financial resources, the husband was never very attentive to her. Another member of the company in which the couple were appearing was, however, far more appreciative of the lady's charms, and proceeded to make love to her in an ardent but stealthy manner. The grand finale came one evening when the actor discovered the other man kissing his wife. The fond lover stood petrified with fear, and expected to be shot down the next morning.

No such thing happened. The outraged husband only lifted his hands toward the ceiling with a gesture of intense surprise, and exclaimed: "Merciful heavens! And he didn't even have to!"

The Ugly Brute.
"See that measuring worm crawling up my skirt?" cried Mrs. Bjeana. "That's a sign I'm going to have a new dress."

"Well, let him make it for you," growled Mr. Bjeana. "And while he's about it, have him send a hookworm to do you up the back. I'm tired of the job."

A very successful remedy for relief catarrh is hot douches of Paxline Antiseptic, at druggists, 25c a box or sent postpaid on receipt of price by The Paxton Toilet Co., Boston, Mass.

Sick Women

When shown positive and reliable proof that a certain remedy had cured many cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are five letters from southern women which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

LETTER FROM VIRGINIA.
Elliston, Va.—"I feel it my duty to express my thanks to you and your great medicine. I was a sufferer from female troubles and had been confined in bed over one third of my time for ten months. I could not do my housework and had fainting spells so that my husband could not leave me alone for five minutes at a time."
"Now I owe my health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier. Whenever I see a suffering woman I want to tell her what these medicines have done for me and I will always speak a good word for them."—Mrs. ROBERT BLANKENSHIP, Elliston, Montgomery Co., Va.

LETTER FROM LOUISIANA.
New Orleans, La.—"I was passing through the Change of Life and before I took Lydia E. Pinkham's Vegetable Compound I was troubled with hot flashes, weak and dizzy feelings, backache and irregularities. I would get up in the morning feeling tired out and not fit to do anything."
"Since I have been taking your Compound and Blood Purifier, I feel all right. Your medicines are worth their weight in gold."—Mrs. GASTON BLONDEAU, 1541 Polymnia St., New Orleans, La.

LETTER FROM FLORIDA.
Vaucluse, Fla.—"Some time ago I wrote to you giving you my symptoms, headache, backache, bearing-down, and discomfort in walking, caused by female troubles."
"I got two bottles of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash and that was all I used to make me a well woman. I am satisfied that if I had done like a good many women, and had not taken your remedies, I would have been a great sufferer. But I started in time with the right medicine and got well. It did not cost very much either. I feel that you are a friend to all women and I would rather use your remedies than have a doctor."—Mrs. MATTIE HODGON, Box 403, Vaucluse, Florida.

LETTER FROM WEST VIRGINIA.
Martinsburg, W. Va.—"I am glad to say that Lydia E. Pinkham's Vegetable Compound has done wonders for my mother, daughter and myself."
"I have told dozens of people about it and my daughter says that when she hears a girl complaining with cramps, she tells her to take your Compound."—Mrs. MARY A. HODGENSBERRY, 712 N. 3rd St., Martinsburg, W. Va.

ANOTHER LETTER FROM VIRGINIA.
Newport News, Va.—"About five years ago I was troubled with such pains and bleeding every month that I would have to go to bed."
"A friend told me to take Lydia E. Pinkham's Vegetable Compound and I soon found relief. The medicine strengthened me in every way and my doctor approved of my taking it."
"I will be glad if my testimony will help some one who is suffering from female weakness."—Mrs. W. J. BLAXTON, 1029 Hampton Ave., Newport News, Va.
