IMPROVE SERVICE; SAVE MUCH MONEY

President Urges Changes in Gov ernment Methods.

SENDS MESSAGE TO CONGRESS

Efficiency Would Be Promoted bу Placing Local Postoffice and Cus-'toms Affait's in Classified Serv-- ice-Consolidation of "Auditors:

April - A-President Washington. Taff today sent to congress his third message on economy and efficiency in the various departments of the government. He fransmits the report of the commission recommending certain-changes to which he gives his approval. He sayes

"I have soveral times called atten-tion to the advantages to be derived from placing in the classified service the local officers under the departments of the treasury, of the post-office, of the interior and of commerce and labor: In mramessage submitted to the congress on January 17 I referred to the loss oc-casioned to the government because of the fact that in many cases two persons are paid for doing work that could easily be done by one. In the meantime I have caused an inquiry to be made as to the amount in money of this loss. The results of this inquiry are that the loss smounts to at least \$10,000,000 annualt. For example, it appears that a very substantial economy would result from put-ting experienced and trained officers in charge of the first and second class postoffices instead of selecting the in which a mother tred to minder that the saving an estables slove, her five it old daughter, Mr. Athur not taking face, as our any saving African established her that the mergeral africance of copyra

HOT A PERNY TO PAY

And go quickly and tell His disciples that He is usen from the dead." Matthew xxvii, 7.

I like to think that bud and bloom And grass and leaf Are symbols of the empty tomb,

Of ended grief. I like to think of Him that He is risen here,

And that his presence we may see Each waking year.

For Heaven is so very far; We cannot reach The nearest little guarding star

By sight or speech— But when the day is gladdened by This clearer blue,

Then Heaven is not fer and high From me and you.

I fain would think He breathes above The grass and trees;

heart that throbs with human love Awakens these;

And lilies pure as acciytes Their censers swing,

White all the meadowlands and heights Are worshipping.

So in this thought of mine I find . In-stone and clod

And hedge and lattice blossom-twined, The breath of God.

And yonder in the growing wheat And follow lands

see the path that knew His feet-Work of His hands

And so from every bird that sings I hear the voice

That one supernal message brings. "Arisal Rejoice!" I like to think of Him that He

Is risen here,

And that His presence we may see Each volling year.
