## OBITUARY.

Mrs. Eliza Danton died at the home of her daughter, Mrs. Roy Cole, last Friday, at the age of 73 years. Two daughters are left to mourn her death, Mrs. Cole and Mrs. Frank Sharer. The funeral was held from the home Thursday, Rev. Mr. Slough officiating.

## WEATHER SIGNS.

We have a sign which has never known to fail. It is this: If there is a fog in March, taxes will be big the following year. Just watch and see if this is not an unfailing sign. We have noticed it for ten years. In all that time a fog came in March and taxes were high that year.

There is another sign in the February fog business noticed particularly by newspaper publishers and that is after a fog in February the subscriptions are hard to collect. If this difficulty is experienced prior to the month of February, it is a sign that there will be a fog in that month—a dark cloud as it were, of unpaid drafts upon the newspaper office.

## BIG DOIN'S SATURDAY EVEN'S

BOTH LAST AND NEXT SATURDAY'S PROGRAM.

Races and Music by Band Make Good Attractions.

"Main street looks just like Woodward avenue." This remark was made time after time by people down town Saturday evening. What a crowd! Well for one thing, the band played. Seated in a large, open wagon with torches for light, these boys played the most delightful music the whole evening through.

Then there were races which also took place on Main street. Alexander Lyke and John Whitmeyer were winners of the running race, the first prize being a base ball and the second a pocket knife, both donated by J. H. Steers. In the sack race Alex Lyke was again first and Charley Freydl second. The prizes for this race were a ball glove and bat, offered by J. A. Huff.

Now for tomorrow evening's program. A fat man's race is one attraction, C. A. Postford offering any felt hat in his store as the first prize and three pairs of canvas gloves for the second. Edwin White donates a silk scarf or anything of equal value; and a bet, to the winners of a girls' egg race, the egg to be carried on a tablespoon. These events will take place on Center street in front of the post-office. The band will also be located there and well-sounds pretty good, doesn't it?

## MRS. AUSTIN DEAD.

Mrs. Mary Austin died at her home in this village early Monday morning at the age of 56 years. She had lived here about a year, having moved here from Livonia. She leaves two sons, Perry and Irving, both residents of Northville.

The funeral was held from the home Wednesday afternoon, Rev. R. M. Pierce officiating.

## ANOTHER DEATH.

Mrs. Ada Smith, wife of Edgar Smith, died at Harper hospital, Detroit, Tuesday, as the result of an operation. The body was brought to Northville the same evening by Schrader Bros.

Mr. and Mrs. Smith lived in the Banks home on Dinslip street, having moved there from their farm about a year ago. The funeral was held from the late home Thursday, Rev. R. M. Pierce officiating.

Useless Embellishment.  
A lady man has about the same opinion of efficiency that an octopus has of a ribbon on a collar.

## WEDDING ANNOUNCEMENT.

On Monday evening of this week the "Quality" club gave Mr. and Mrs. Floyd Northrop a unique surprise, the occasion being their tenth wedding anniversary.

The guests came arrayed as for a wedding, the maid of honor and bride's maids being especially attractive in picture hats and hand-some gowns.

"Little" Eddie Lapham made a charming ring bearer in his dainty blue and white dress, and Ray Richardson a very attractive flower "girl." Charlin Blackburn and Ernest Miller acted as ribbon bearers.

The ceremony took place at eight o'clock, the Rev. Ohas Pothoff officiating. Mrs. E. H. Lapham presided at the piano playing the wedding march and also during the ceremony "Oh, Promise Me." Mr. J. A. Huff acted as best man and Pearl Miller as maid of honor. Mrs. Huff, Mrs. Schrader and Mrs. Postford were bride's maids. Mrs. Ray Richardson gave the groom away.

None of the details of a real wedding were omitted, the rice and wedding tour being special features.

A wedding supper was served and the guests departed at a late hour wishing the bride and groom many returns of the day. The gifts were numerous and valuable—it being a tin wedding.

## TELEPHONES NOW ALL CONNECTED

Lines All Cut Over Wednesday Night in Northville.

The Michigan Telephone Co., which also owns the Independent lines, put in trunk lines between the two exchanges, making temporary connections. Northville subscribers can now have service on both lines, no matter which phone they have. For instance if you have a Bell phone you can call any of your friends who have the Independent and vice versa.

Later on the two offices will be consolidated, but the Michigan company did this as an accommodation to Northville people until further arrangements could be made. The present system is greatly appreciated by subscribers of both phones. All rates will remain the same for the present.

## CARD OF THANKS.

We wish to thank the W. R. C., King's Daughters, neighbors and friends for flowers and kindnesses during the illness and death of our mother.

Mr. and Mrs. Perry Austin, Mr. and Mrs. Harry Austin and Irving Austin.

## A DELIGHTFUL DANCING PARTY

BAND BOYS GAVE ONE IN RINK FRIDAY NIGHT.

Handsome Decorations of Leafy Boughs and Scented Blossoms

One of the prettiest and most enjoyable parties of the year was that given by the Northville city band last Friday evening. The rink was charmingly decorated with branches of willows, great boughs of wild cherry blossoms and lilacs, carrying out the idea of a May party to a "T."

Five pieces of Stone's orchestra furnished the music which, with the excellent condition of the floor, left nothing to be desired. Ice cream and cake and lemonade were served at 11 o'clock, by the band boys.

Though such a great success socially, it was not so financially, as there were only 60 or 70 couples in attendance. The band, therefore, cleared about \$10 after all expenses had been paid.

## BIG MATINEE FRIDAY, MAY 30

AFTERNOON GIVEN OVER TO HORSE RACES AND BALL GAME

Big Sums of Money up on Three Good Races.

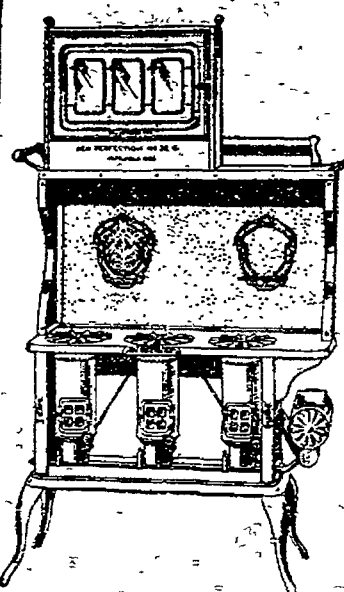

Matinee will be held at Athletic park Friday afternoon, May 30 beginning at 1:00 o'clock. A matched race will be run by "Oyczone," owned by Ashley & Fetters of Detroit and "Crescent Bell," owned by Michael Teurski, known as "Cabbage Mike," of Detroit. The money \$500 on a side, has been put up for some time and Northville was chosen for the place, and Decoration day for the time, for pulling it off Free-for-all, and the usual number and classes of races will also take place, with big purses for each. Twenty-eight horses are now in training on the race course and some good racing is assured. Harry Robinson, the celebrated starter, will officiate.

A ball game will be another feature of the afternoon. It is not definitely known at this writing just what teams will play. Further notice next week.

## CARD OF THANKS.

We wish to thank the King's Daughters, school children and friends for the many kindnesses shown Little Clifford during his recent operation and illness.

MR. AND MRS. F. D. BOLLER.

PLUMBING HEATING TINNING.

Hide your money in our Bank: it will be safe there.

The best place to hide money is where they have vaults for safely protecting it. Every week we see newspaper accounts of people having been robbed. Sugar bowls, rag-bags, under the carpet, behind pictures, and all of those other places where people conceal their money, are well known to burglars. Hide it in OUR BANK, then you know you can get it when you want it.

Do YOUR Banking with US. We pay 3 per cent interest.

## THE AUTO TAX AND WAYNE COUNTY.

To read what the county board of supervisors is going to do to Wayne's road fund, one would think that the good roads bonds were issued and paid for by the supervisors themselves in person. Almost everybody else supposed that the voters of Wayne county authorized those bonds and ordered that the money should be spent in building and caring for new roads.

Now that the legislature has passed a bill providing a 50 cents per h. p. tax on autos, in place of direct tax (which incidentally takes a few million off the valuation in the city of Detroit) the supervisors threaten to stop all road work in Wayne county and to stop further sale of the bonds and to take their road tools and go home.

As a matter of fact the new auto law will not materially add to the burden of the taxpayers of Wayne county. The auto license money will hereafter all go into the state good roads award fund and Wayne county will be benefitted just as much as any other county, and it will no longer have to pay 1-8 of the state highway award tax. It's just as much value to Wayne county to have good roads in other counties as it is to have it all in Wayne county. The city of Detroit is being benefitted by Wayne county's good roads every year to a greater extent than any burden that will be added because of the new auto tax law. Previous to the road building in the county, Detroit was shut off from the whole world by its impassable roads, and this is the first reason that people have been able to drive into the city at all times, either with autos or teams. Another thing, if the new auto license tax will increase the tax in Wayne county, why some one please explain why the taxes have been going up during the past years while this \$9,000,000 valuation has been placed on the tax roll.

People are bigoted curious creatures. When attending a public entertainment they make a rush for the front seats, but when those same folks attend church the rush is right the reverse, everybody crowding into back seats until the empty pews are all between them and the preacher. It looks as if they are afraid to get salvation right off the bat, but would rather get it on the first or second board. Perhaps it's a case of when they see salvation coming they want it to strike a few empty pews before it hits them.

## TOWNSEND IN 1916.

A little boom has been sprung for Senator Townsend for president in 1916. No better choice awaits the American people. For good business judgment, tact, diplomacy, oratory and progressive ideas, he has no superior in the United States. He is also one of the few Republicans who could unite the now divided party. "Townsend in 1916" sounds good.

The old saying has it that "when the days begin to lengthen the cold begins to strengthen." Will those who are attending school and well up in geography tell why this is the case? Why should not the weather become warmer as the hours of sunlight become more, and the dead of winter come at or near the shortest day of the year?

Charlie Pierce, the new capital superintendent, is to do away with the roller towels in the legislative halls. Perhaps Charlie believes the towel germ leads the legislature to make those big appropriations.

There was a short silence, followed by the vigorous snapping of fingers and then from a dozen little mouths came the chorus: "Please sir, it was the fatted calf."

A young U. of M. student was run down and killed in Detroit Monday by reckless auto drivers. The Detroit papers published 10 inches of news about it. Belle Barry's body was found in Fox creek a few days ago, under suspicious circumstances. The Harry girl gets whole pages in the news columns.

In cleaning at the Northville S. S. bank Wednesday night, the janitors accidentally touched the safe knob and for 15 minutes the big burglar alarm raised a dinkens of a noise. Cashier Habbitt finally came to the rescue and shut off the ringing machinery. In the meantime the police were all out ready for the burglar, had there been one.

Little Howard Goff is the victim of injuries received in a fall Sunday. With his parents he was spending the day at the home of Mr. and Mrs. Chas. Smock. Running about the yard picking violets he stubbed his toe against a stone in such a way as to cause him to fall, wrenching his ankle and tearing the ligaments all apart. The little fellow suffered intolerable pain for some time, but is much better now.

When a man drops a piece of meat on the floor, no difference how clean the floor may be, he will either give it a kick or pick it up and lay it one side. He will never eat it. But let him drop his plug of tobacco on the street, and no difference how dirty the street may be, he will pick it up, give it a careless swipe on his coat sleeve or on the bosom of his pants, and then take a big chew from it with a keener relish than ever. This is the kind of a vitrified brick man is.

A new departure in fruit raising, for this village at least, was tried by Fred Simmons last Friday night. He has about 300 fine plum trees in his orchard just northwest of town, and in order to save them from the frost, he kept fires burning in the orchard all through the night. There were 300 fires which took 52 cords of wood. This method of protecting fruit trees has often been employed in many states but never, to our knowledge, in or near Northville, before.

Out of towns may be jealous of our little city and its trade, but there is no jealousy on the part of our people. Our merchants and our business men are liberal in their dealings and hold out inducements in both quality and price to draw trade. They advertise this fact, and when people come they find things as advertised, and this, with the disposition to please are sure trade winners. This is why people are coming from other towns to trade. You can't keep them away.

John McCully, recently installed, in his shoe repairing shop a machine for half-soled shoes. It does the work, sewing them instead of pegging or nailing them, in about one-fourth the time taken to do it by hand. The expense was \$300 but John thinks it will more than pay for its "keep."

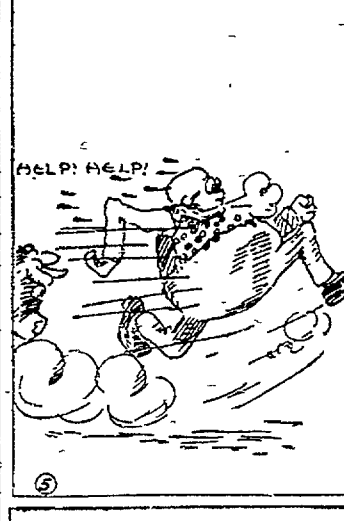

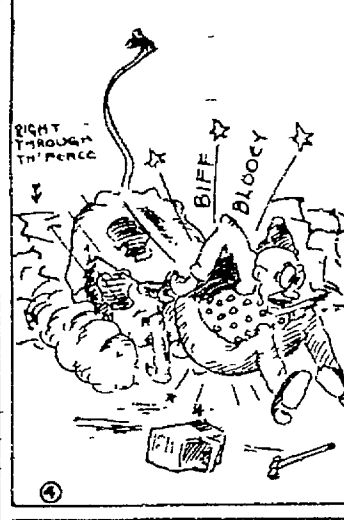

A sad faced editor, with fringe on the bottom of his trousers, and the wind sighing mournfully through his whiskers, sat in his sanctum thinking—thinking. Presently a shadow fell across the room and a shrill voice demanded to know if he was the editor. "Yes sir," said he with a look of alarm. The owner of the voice mopped the floor with the editor and went his way. Thank heaven! exclaimed the editor after he had gathered together the wreck of his former self and had straightened up his furniture, life is still worth living; I expected he would tell me to stop his paper.

Graduation day with all its flowers, will soon be here. You can already scent the fragrance of blossoms. Our have always taken great pride in our schools, and no student ever carried away a diploma but took it with the best wishes of our people. Speaking of the rapid approach of another graduation day reminds us that there is nothing more pleasant in the busy hum-drum of after years than to permit your mind to wander back to the days of school life, the sweet memories and incidents that come up, the smiling faces and pleasant countenances; the old school house door, swinging back and forth on its great hinges, the very voice speaking forth of happy hours; while at your side stands the noble teacher who has watched your every move, and is as much interested in your success as you are yourself.

## Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to give quick relief. For sale by all dealers.—Advertisement.

## Good Bread?

Haven't you sometimes had Poor Bread? We know just how it is. You tried your best—or thought you did—knaded it till your poor arms just ached, and it was dark colored, dry and full of holes. You laid it to the flour, but it wasn't the fault

of the flour, especially if you were using Northville Flour. It was just Hard Luck.

If you changed our Flour for some other because of your bad luck at that time, we want you to give "GOLD LACE" or "CRYSTAL PATENT" another trial. We make it now BETTER THAN EVER BEFORE.

The difference between an agriculturist and a farmer is that the farmer gets up at the break of day, feeds his stock and has breakfast at sun-up. After his frugal meal he hitches his team to the plow, takes the hard handles in his horny hands, calls "gee haw" to his team and plows all the long, weary day. These agriculturist gets up at 8 o'clock in the morning and after an easy breakfast, pulls on his gloves, orders his horse and buggy and drives to town.

It surely is a nice thing to have and there's no danger of your getting more of it than you know what to do with.

One way to accumulate a little surplus would be to take out a few shares of Loan Association Stock. On this stock you would pay 12 1/2¢ each week per share, or on 8 shares - \$1.00 a week. Its altogether likely that you wouldn't miss a dollar, but suppose that after you had been paying in four years, \$200 would come awfully handy to you.

Well, your Loan Stock is worth more than that and can be had any day you want it.

#### RESULTS.

In April, 1904, a certain party took out 10 Shares of Stock and kept the payments up till April, 1912, when the stock was surrendered. During the 8 years the stock was in force he had paid into the Association \$522.50 and received back \$694.10 or \$171.60 more than he paid in. Of course \$171.60 profit doesn't look very large, still it is more than he would have received if the \$522.50 had been drawing interest at 3 per cent during the entire 8 years.

Just figure this out and see for yourself, also remember that the total amount of \$522.50 was paid into the Association at the rate of \$1.25 a week.

In the Association each shareholder is a partner in the business, and after a certain time is entitled to all the profits his stock has earned, so why not put your money in a place where, after a while, you receive ALL instead of only A PART of the profits your money has made?

This party we have been telling you about was wise to this. We don't suppose he told anyone what had happened to him, but felt that the Association was worthy of support and was perfectly willing to assume a large share of the burden himself, so as quietly as a fellow in a watermelon patch he comes back and says - "Give me Twenty Shares More."

AND WE DID.

# Philosophy and Love

They had known each other a very long time, and they were joined together, perhaps by something more than friendship. The summer, with all its charms, was smiling for him; she was beautiful, and her eyes were like two large stars. But he was at Oxford studying, while she was a girl ready for marriage. Finally he decided that she was not in love with him, and in his soul he found a power that was stronger than love, which pushed him forward to the country of studies—a country containing no dreams or illusions.

He went to Africa for his holiday, and while passing his time idly he learned that she was married.

"It is an old story," said he, ironically, to himself, and tried to think he did not care about her.

Finally he wearied of the long trip, and came back, brown from the African sun, and languishing for her.

She had had time to lose her husband, and had finished mourning. But the capricious nature of this man drove him away as before.

At last he called upon her, thinking that at the door she would meet him with a shower of sweet reproaches. But she received him as always, apparently indifferent, with a good-hearted smile on her pink lips.

"She never loved me," he was thinking, with bitterness in his soul.

Seeing the cloud upon his forehead, she understood him and wanted to distract him by conversation.

"What is the matter with you today?" she asked him with apparent indifference. "You cover yourself with clouds of smoke in order not to look at me. I never saw you so nervous before. What is the matter with you?"

"Indeed, I have many reasons to be sad and nervous," he answered with a sigh.

"Show me your secret. Tell me all."

"He looked directly into her large eyes, but he read there only ordinary curiosity."

"I can't tell you."

"Why?"

"Because you don't help me."

"Because you don't have confidence in me," she answered, indifferently.

"I would be willing to tell you the secret on which the destiny of all the world depended," he said with emotion.

"But you will not help me."

"How do you know?"

"I know it because it is not in your disposition, in your character; perhaps not in your blood or in your temperament."

"I am very anxious. Sit down here, look into my eyes, and explain these reproaches that wound me so cruelly."

"I have a very difficult task," he answered smiling, "but I will try. First let us take an example, such as one meets very often in the lives of two loving hearts."

"Somebody loves you, and is suffering because he is not sure of your love. His heart is breaking because of doubt. You won't see such sentiments; you won't do anything. Another woman would see the love, would notice the poison of deception, would put her hand on his shoulder and with one word finish all his suffering. You would never do that. You would keep the love as a snake near your breast. You would torture his soul, and you would rather die of love than show that you loved also."

She was listening to him with attention. Her shapely face reddened; her lips became purple; her black eyes were moist and bright; her bosom heaved, and she said faintly, "And this you are telling me sincerely."

"Sincerely—"

He would have spoken farther, but at this moment he felt two snow-white arms around his neck. The beautiful little head approached his face, the small mouth touched his hair, his burning forehead, his light eyes, and finally joined his lips in one long kiss.

Intoxicated and happy, he kept her in his arms, desiring to prolong infinitely this charming moment.

She drew her lips from his, hung on his neck, and looking into his eyes, whispered with wonderful sweetness: "Dear, you were mistaken."

### French-Grown Havana.

The world of smokers in France is to judge by letters and paragraphs in the newspapers, seriously agitated by a story recently taken by the Government regarding the quality of the

and it openly proclaims its intention of selling tobacco raised from this newly imported seed as genuine Havana and Maryland. It certainly seems to be a proceeding of dubious commercial morality; and the assumption that the peculiar fascination of a Havana cigar or a pipeful of Virginia tobacco is due merely to the fact that it is grown from a certain seed, and not to any unique conditions of climate or manufacture, seems equally questionable—but the final word is with the monopoly.

### Phosphate Rock Production.

Between 1901 and 1911 the production of phosphate rock increased from 1,483,723 long tons, valued at \$5,816,403, to 3,053,279 long tons, valued at \$11,900,893. There was an increase in production in 1911 over 1910 of nearly four hundred thousand tons.

### Sterilization of Water by Light.

At the recent hygiene exhibition at Dresden apparatus was shown by means of which water may be purified on a large scale through the use of ultra-violet light. This method is now in use in France on a large scale, and is found to be both practical and economical. The amount of electrical current required to produce the ultra-violet light is small. The efficiency is so great that the water, after treating, is found to contain not more than twenty-five or thirty germs to the ounce, which is far better than anything that has ever been accomplished by a filtering process.—Good Health.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamburg, N. Y.

### Made a Good Profit.

Lord Greenfield, being asked to buy something by a smart young matron who kept a table at a ladies' fair, said that he wanted what was not for sale, a lock of her hair. Whereupon she promptly cut off the coveted curl and handed it to him, naming the price—\$100. Later the purchaser was showing his trophy to a little circle of friends. "She rather had you there," laughed one benedict. "To my certain knowledge, she only paid three dollars for the entire bunch."

### Good Fishing in Galilee.

Bible students may be interested to know that there is still good fishing in the Sea of Galilee. Dr. Ernest W. Gurney Masterman, who has practiced medicine in Galilee, makes a special study of the fishes found there and in a recent book says that he found 43 varieties, twice as many as can be found in the British Isles. The fishermen are taxed a fifth of the value of the fish caught, the revenue going partly to the sultan and partly to a pasha in Damascus.

### Amenities.

"I've just been introduced to Professor Smythe; such a charming man to talk to! He doesn't make one feel a fool, in spite of his cleverness." "Ah, my dear, but that's because of his cleverness."—Punch.
